

JETTISON EDISON 3903 PENDANT

PRESS RELEASE

FOR IMMEDIATE RELEASE

PRODUCT DESCRIPTION

Jettison Edison is one of Fire Farm's explorations into the wonderful new possibilities of LED technology. It is an homage to the original creation that brought light to this side of the pond and the modern era almost 150 years ago. At the threshold of a new and now practical technology that will illuminate the future it seemed appropriate to recognize the phenomenal longevity of that iconic invention.

PRODUCT APPLICATION

This design works in almost any environment, from private residences to commercial spaces.

CONSTRUCTION

- 16-in diameter glass globe shown
- LED "Filament" lamping

DESIGNED BY Adam Jackson Pollock

MANUFACTURED & DISTRIBUTED IN THE USA BY Fire Farm, Inc.

ABOUT THE COMPANY

Fire Farm Lighting is a custom lighting design and manufacturing company. In addition to a pre-designed product line, we provide complete creative and fabrication services to conceptualize and execute original designs. Using an ever-expanding variety of materials and processes, we make lights to define space and create exciting environments. We make light to live by.
