

MODEL #00953

Plato Mobile Stack Chair

DESIGN:

The Plato Mobile Stack Chair provides roominess for today's growing students through its oversized seat pan. Built to what's called Euro-Spec, the seatback offers some flex front-to-back and provides pronounced lumbar support. Mobility makes ingress/egress easier and allows classroom configurations to change quickly throughout the day.

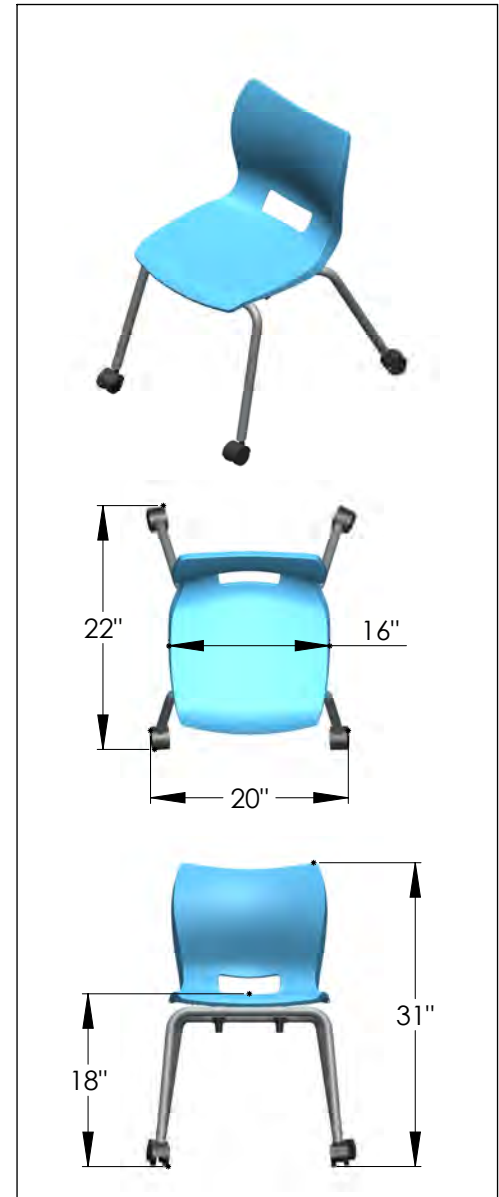

MATERIALS:

The shell is 100% virgin polypropylene material with a shallow seat pan to allow side-to-side movement. The back has integrated lumbar support for optimum comfort and minimal back pressure. The frame is a 1" x 18-gauge tubing that is chrome plated for a long lasting durable finish and is capped at the ends with a durable caster. The shell is attached to 14-gauge brackets via metal to metal riveted steel connection. Legs are swedged.

DIMENSIONS & FREIGHT: *Product is UPSable
