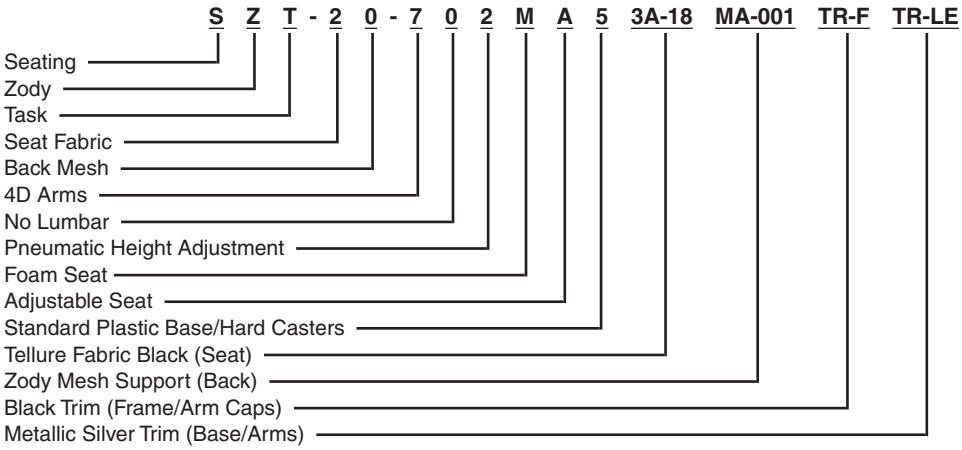
General Specifications

General Guidelines for Product Specification

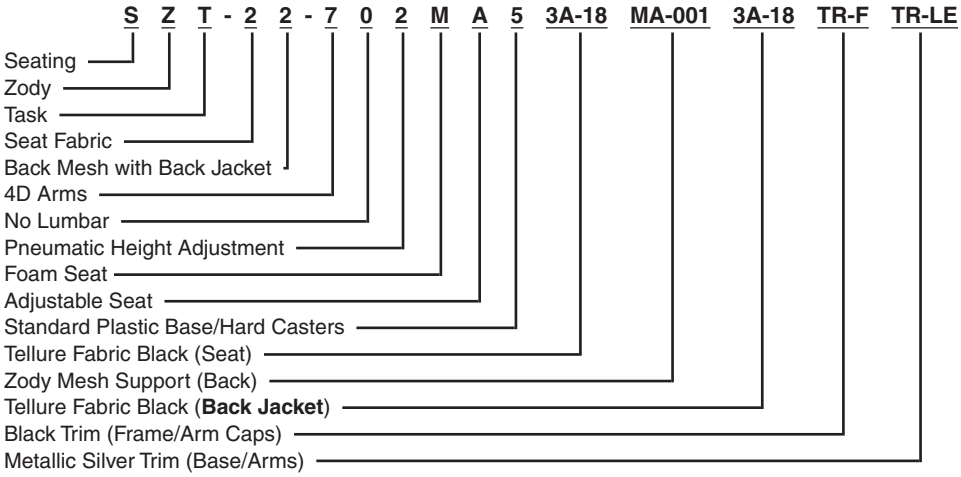
Zody seating specification numbers are based on an alpha-numeric logic that identifies a product by model and certain characteristics.

For example, a product number that reads **SZT-20-702MA5** identifies the product as a Zody mesh back chair with 4D arms, no lumbar, pneumatic seat height adjustment, foam adjustable seat and standard base with hard casters. The numeric logic for this model with fabric and finish codes is shown below:

Mesh Back



Mesh Back with Upholstered Back Jacket



There are exceptions to this logic; therefore, always refer to the price charts for product numbers rather than attempting to construct them. Product number modification instructions for additional options appear in footnoted copy for each applicable model.

Beyond the printed product number, fabric and finish codes are required to complete an order specification. To communicate your order clearly, list the product number and fabric/finish codes in the sequence outlined on each price page.

Zody-At-A-Glance

General Specifications

Environmental Factors	• Zody is a Cradle to Cradle™ Gold Certified Product, as determined by MBDC (McDonough Braungart Design Chemistry, LLC). Zody has been evaluated for its human health, environmental health, lifecycle attributes, renewable energy, water stewardship and social responsibility characteristics against stringent certification criteria and is considered an ecologically intelligent product. • Greenguard Children and Schools certified for low emissions. • BIFMA level 3 certified 2012. • Zody has up to 51% recycled content and is up to 98% recyclable. • Zody is produced in an ISO 14001 certified manufacturing facility. • Zody is assembled using renewable power. Haworth has purchased 100% Green-e certified American wind power credits to offset the energy consumed in manufacturing the product. • Components are identified with ISO recycling symbols and material information to assist in the recycling effort, where practical. • Haworth will take back Zody chairs after their useful life and recycle the components. Please contact Haworth's Material Recovery Center at (616)393-1215. • Optional Trivalent chrome finish provides safer and more environmentally friendly alternative for customers requiring the attributes of a chrome finish.
COM & COL General Information	To order a COM fabric (Customer's Own Material), contact the Haworth Inquiry Center (1.800.426.8562), your local Haworth dealer, or go to haworth.com/surfaces > COM Library to find out if the COM you have selected has already been tested and approved. The surface collection site also has information on the Haworth+ alliance program with Carnegie, Luna Textiles, and Maharam as well as our industry-leading Pre-Approved COM program. Approved COMs are placed into Grades based on the fabric pricing; if the fabric pricing exceeds our Grades, they will be priced at Grade A + cost of fabric + 4% handling (North America). Haworth will purchase all COMs unless instructed otherwise. (Leather will also be purchased by Haworth; if the leather pricing exceeds our Grades, cost will be based on fabric Grade E + cost of leather + 4% handling.) If no information is available on the COM you are looking for, refer to the COM section and forms on the surface collection site for information on how to process your test request.
Finishes and Fabrics	A complete listing of finishes and fabrics for Zody seating is available in the back of the price list.
Shipping Weights (Including packaging)	• Chairs with arms: 55 pounds/1 chair per carton/17.3 cubic feet • Chairs without arms: 51 pounds/1 chair per carton/17.3 cubic feet • Chairs with sled base: 24 pounds/1 chair per carton/17.3 cubic feet • Chairs with leg base: 21 pounds/1 chair per carton/17.3 cubic feet
RUSH	Select Zody seating models marked with a ■ symbol to denote availability on the RUSH program. Refer to the fabric and finish options for each product.

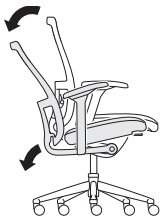
Zody

General Specifications

STANDARD MOBILITY AND ADJUSTABILITY

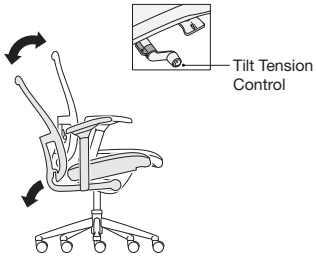
Balanced 3-point tilt



Features:
- Balanced 3-point tilt mechanism.
- Back reclines 24° from the upright position.
- Seat pan moves downward 3° from the initial position.

Benefits:
- Comfortable relaxed posture.
- Recline allows for the opening of the users' chest cavity providing good airflow to promote alertness.
- Users' feet remain flat on the floor.

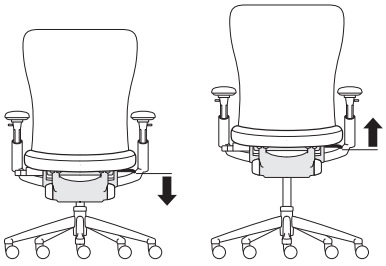
Tilt Tension Control



Feature:
- Easy-to-reach and easy-to-activate side-mounted tilt tension control regulates the amount of resistance felt when leaning back in the chair and the effort required to recline the chair backwards.

Benefit:
- Personalized support to accommodate users of different body types and different work styles.

Seat Height Adjustment

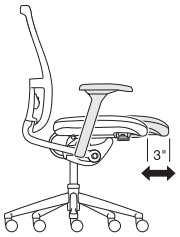


Fully Retracted Fully Extended

Features:
- Pneumatic seat height adjustment.
- Seat height adjusts 5″(127mm) from 16″ to 21″(406mm to 533mm) in standard models. Low-position adjusts 14 to 17″(356 to 432mm).

Benefits:
- Ensures the comfort of the lower limbs by avoiding pressure on the underside of the thigh caused by a seat pan that is too high, or decreased thigh-to-torso angle if the seat pan is too low.
- Accommodates for users between approximately 4′11″(1499mm) and 6′3″(1905mm) tall to provide good leg circulation.
- Seat height adjustment also is important in setting the proper hand position and allowing for a proper sitting eye height.

Seat Depth Adjustment



Features:
- 3″(76mm) of seat depth range. (Fixed seat also available.)
- Available with conventional foam material or optional Technogel® Soft Lite gel insert.
- Waterfall edge.

Benefit:
- Supports the thighs, allows users to rest against the seat back for back support, and avoids pressure on the back of the knees of small to tall users.

Upper Back Torsional Movement

Feature:
- Passive 2″(51mm) of torsional flex in the upper back.
- Patented mesh with built in tension zones for added comfort.

Benefit:
- Increases users' mobility and comfort when reaching sideways for objects.

Zody

General Specifications

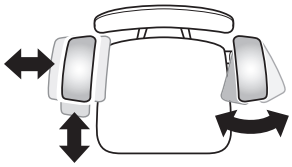
OPTIONAL MOBILITY AND ADJUSTABILITY

PAL Back System

Features:
- PAL Back System includes Asymmetrical Lumbar Adjustment and passive pelvic support.
- Asymmetrical Lumbar Adjustment adjusts 4″(102mm) in height; support level can be adjusted independently for right or left-hand side of users' body.
- Passive pelvic support.

Benefits:
- Lumbar adjustment maintains the natural curvature of the spine at the lower back and allows users to choose the support that feels right for them.
- Passive pelvic support rotates the pelvis forward to maintain the natural spine shape.

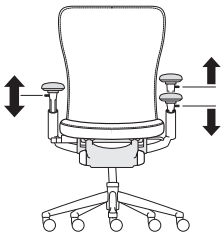
4D Arm



Features:
- Optional 4D arm.
- Arm adjusts in 4 ways:
  -Height adjustment: 4″(102mm)
  -Side-to-side arm cap adjustment range: 3″(76mm) [1.5″(38mm) each arm cap]
  -Front-to-back adjustment range: 3 1/2″(89mm)
  -Pivoting: In 20°; out 20°

Benefits:
- Arms support the muscular system of users' neck and shoulders and proper arm support provides back relief. Arms can be an aid in standing or sitting down.
- Height adjustment accommodates for users with varying elbow rest heights so that users avoid lifting their shoulders or leaning sideways to get arm support.
- Front-to-back adjustment adjusts the armrest length, which is important because it allows users to get close to the worksurface while maintaining the effective use of the backrest.
- Side-to-side adjustment ensures a comfortable resting position for the arms with proper support of the forearm while allowing for easy entry/exit of the chair.
- Pivoting provides proper support of the forearm when performing tasks involving keying and mousing.

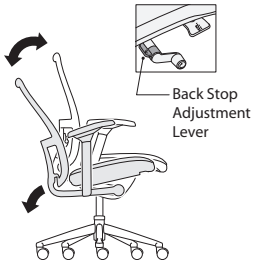
Adjustable Height Arm



Feature:
- Optional height adjustable arms adjust 4″(102mm) vertically.

Benefit:
- Height adjustment accommodates users with varying elbow rest heights so that users avoid lifting their shoulders or leaning sideways to get arm support.

Tilt with Back Stop



Features:
- Optional back stop;
  -Back stops in 6 positions - upright and every 4° backward.
  -Tilt limiter.

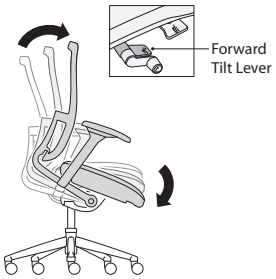
Benefit:
- Allows users the choice of selecting an upright position or limiting the amount of recline while performing different tasks.

Zody

General Specifications

OPTIONAL MOBILITY AND ADJUSTABILITY (continued)

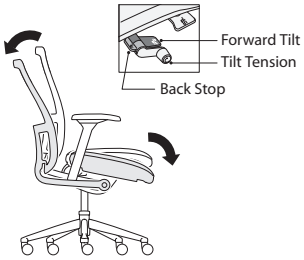
Forward Tilt



Features:
- Optional forward tilt.
- Seat pan moves downward 5° from the initial position.

Benefit:
- Allows the user the opportunity to vary their posture throughout the day.

Back Stop/Forward Tilt

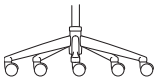


Feature:
- Optional back-stop and forward tilt.
- Back stops in 6 positions, upright and every 4° backward.

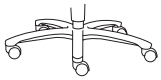
Benefit:
- Allows users to vary their posture for maximum comfort and for changes in task requirements.

Base

Standard Plastic Base and Optional Aluminum Base



Low Position Base (Aluminum only)



Ergonomic Standards Guidelines

- All Zody models meet or exceed all ANSI/BIFMA durability standards for office seating
- Zody meets the following ergonomic standards/guidelines:

Very Task

General Specifications

Environmental Factors	• Very Task is BIFMA level 2 certified. • Greenguard Children and Schools certified for low emissions. • Very has up to 65% recycled content and is up to 98% recyclable. • Very is produced in an ISO 14001 certified manufacturing facility. • Very Task is part of the Haworth Take Back Program. • Haworth will take back Very chairs after their useful life and recycle the components. Please contact Haworth's Material Recovery Center at (616)393-1215.
COM & COL General Information	To order a COM fabric (Customer's Own Material), contact the Haworth Inquiry Center (1.800.426.8562), your local Haworth dealer, or go to haworth.com/surfaces > COM Library to find out if the COM you have selected has already been tested and approved. The surface collection site also has information on the Haworth+ alliance program with Carnegie, Luna Textiles, and Maharam as well as our industry-leading Pre-Approved COM program. Approved COMs are placed into Grades based on the fabric pricing; if the fabric pricing exceeds our Grades, they will be priced at Grade A + cost of fabric + 4% handling (North America). Haworth will purchase all COMs unless instructed otherwise. (Leather will also be purchased by Haworth; if the leather pricing exceeds our Grades, cost will be based on fabric Grade E + cost of leather + 4% handling.) If no information is available on the COM you are looking for, refer to the COM section and forms on the surface collection site for information on how to process your test request.
Finishes and Fabrics	A complete listing of finishes and fabrics for Very seating is available in the back of the price list.
Shipping Weights (Including packaging)	• Chairs with arms: 55.2 pounds/1 chair per carton/17.37 cubic feet • Chairs without arms: 51.2 pounds/1 chair per carton/17.37 cubic feet
Seat	Stitched double seams. Vertically in the center and on the edges of the leather seat cushion.
Back	Vertical stitched double seams on the upholstered back jacket with leather and faux leather or Customers Own Leather or COM faux leather.

Very Task

General Specifications

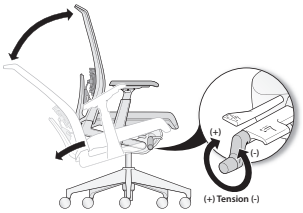
STANDARD MOBILITY AND ADJUSTABILITY

Balanced 3-point tilt

Features:
- Balanced 3-point tilt mechanism.
- Back reclines 20° from the upright position.
- Seat pan moves downward 3° from the initial position.
- 2:1 recline ratio.

Benefits:
- Comfortable relaxed posture.
- Recline allows for the opening of the users' chest cavity providing good airflow to promote alertness.
- Users' feet remain flat on the floor.

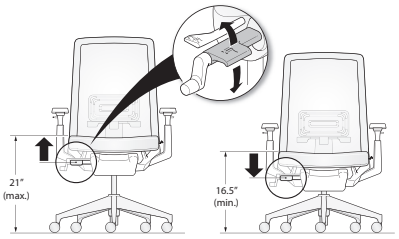
Tilt Tension Control



Feature:
- Easy-to-reach and easy-to-activate side-mounted unlimited tilt tension control regulates the amount of resistance felt when leaning back in the chair and the effort required to recline the chair backwards.

Benefit:
- Personalized support to accommodate users of different body types and different work styles.

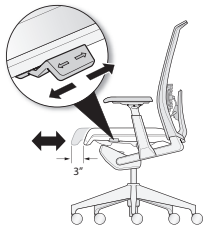
Seat Height Adjustment



Features:
- Pneumatic seat height adjustment.
- Seat height adjusts 5″(127mm) from 16″ to 21″(406mm to 533mm) in standard models. Low-position adjusts 14″ to 17″(356 to 432mm).

Benefits:
- Ensures the comfort of the lower limbs by avoiding pressure on the underside of the thigh caused by a seat pan that is too high, or decreased thigh-to-torso angle if the seat pan is too low.
- Seat height adjustment also is important in setting the proper hand position and allowing for a proper sitting eye height.

Seat Depth Adjustment



Features:
- 3″(76mm) of seat depth range.

Benefit:
- Supports the thighs, allows users to rest against the seat back for back support, and avoids pressure on the back of the knees of small to tall users.

Back Lock

Feature:
- Single position Back Lock.

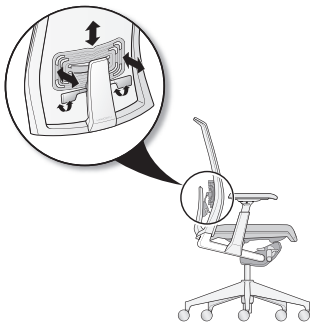
Benefit:
- Allows users to lock the back of the chair in the upright position for tasking application.

Very Task

General Specifications

OPTIONAL MOBILITY AND ADJUSTABILITY

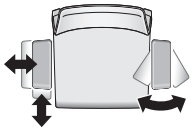
Lumbar Support



Features:
- Asymmetrical Left/right Lumbar Adjustment adjusts 4″(102mm) in height, flexible lumbar support with depth adjustment.

Benefits:
- Lumbar adjustment maintains the natural curvature of the spine at the lower back and allows users to choose the support that feels right for them.

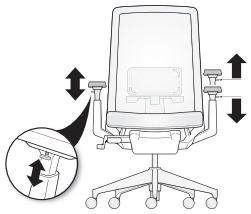
4D Arm



Features:
- Optional 4D arm.
- Arm adjusts in 4 ways:
  -Height adjustment: 4″(102mm)
  -Side-to-side arm cap adjustment range: 3″(76mm) [1.5″(38.1mm) each arm cap]
  -Front-to-back adjustment range: 3 1/2″(89mm)
  -Pivoting: In 20°; out 20°

Benefits:
- Arms support the muscular system of users' neck and shoulders and proper arm support provides back relief. Arms can be an aid in standing or sitting down.
- Height adjustment accommodates for users with varying elbow rest heights so that users avoid lifting their shoulders or leaning sideways to get arm support.
- Front-to-back adjustment adjusts the armrest length, which is important because it allows users to get close to the worksurface while maintaining the effective use of the backrest.
- Side-to-side adjustment ensures a comfortable resting position for the arms with proper support of the forearm while allowing for easy entry/exit of the chair.
- Pivoting provides proper support of the forearm when performing tasks involving keying and mousing.

Adjustable Height Arm



Feature:
- Optional height adjustable arms adjust 4″(102mm) vertically.

Benefit:
- Height adjustment accommodates users with varying elbow rest heights so that users avoid lifting their shoulders or leaning sideways to get arm support.

Forward Tilt

Features:
- Optional forward tilt.
- 5°

Benefit:
- Allows users the ability to elect an upright forward position.

Headrest

Features:
- Height adjustable 4.2″(107mm), articulating movement of headrest pad and mount to fit a wide range of users.
- Headrest is TPU material. Available in two finishes; Black or fog, coordinates with the chairs arm rest color specified.
- See price pages for specification (available on all models).
- To add a head rest to an existing model in the field order service part: Back and Headrest placement, see e-Parts.

General Specifications

Environmental Factors	• Greenguard Children and Schools certified for low emissions. • Lively is produced in an ISO 14001 certified manufacturing facility. • Haworth will take back Lively chairs after their useful life and recycle the components. Please contact Haworth's Material Recovery Center at (616)393-1215. • Lively has 52% recycled content and is up to 97% recyclable.
COM & COL General Information	To order a COM fabric (Customer's Own Material), contact the Haworth Inquiry Center (1.800.426.8562), your local Haworth dealer, or go to haworth.com/surfaces > COM Library to find out if the COM you have selected has already been tested and approved. The surface collection site also has information on the Haworth+ alliance program with Carnegie, Luna Textiles, and Maharam as well as our industry-leading Pre-Approved COM program. Approved COMs are placed into Grades based on the fabric pricing; if the fabric pricing exceeds our Grades, they will be priced at Grade A + cost of fabric + 4% handling (North America). Haworth will purchase all COMs unless instructed otherwise. (Leather will also be purchased by Haworth; if the leather pricing exceeds our Grades, cost will be based on fabric Grade E + cost of leather + 4% handling.) If no information is available on the COM you are looking for, refer to the COM section and forms on the surface collection site for information on how to process your test request.
Finishes and Fabrics	A complete listing of finishes and fabrics for Lively seating is available in the surface materials section of the Seating price list.

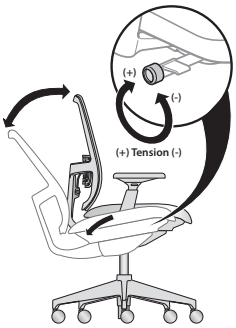
Lively

General Specifications

STANDARD MOBILITY AND ADJUSTABILITY

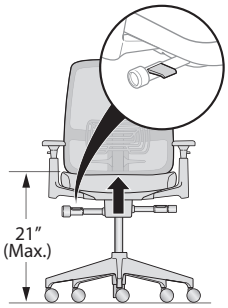
Weight Assisted Tilt Tension Mechanism

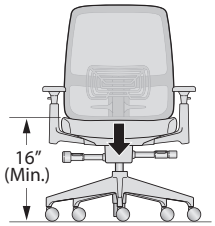


Features:
- Back reclines 24° from the upright position.
- Responds to users weight in combination with the tilt tension to maximize comfort.

Benefits:
- Comfortable relaxed posture.
- Recline allows for the opening of the users' chest cavity providing good airflow to promote alertness.

Seat Height Adjustment

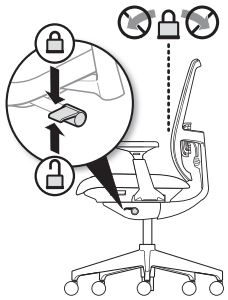




Features:
- Pneumatic seat height adjustment.
- Seat height adjusts 5″(127mm) from 16″ to 21″(406mm to 533mm).

Benefits:
- Ensures the comfort of the lower limbs by avoiding pressure on the underside of the thigh caused by a seat pan that is too high, or decreased thigh-to-torso angle if the seat pan is too low.
- Seat height adjustment also is important in setting the proper hand position and allowing for a proper sitting eye height.

Back Lock



Features:
- Single position Back Lock.

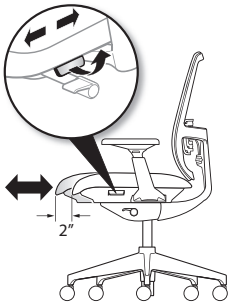
Benefit:
- Allows users to lock the back of the chair in the upright position for tasking application.

Lively

General Specifications

OPTIONAL MOBILITY AND ADJUSTABILITY

Seat Depth Adjustment



Features:
- 2″(51mm) of seat depth range.

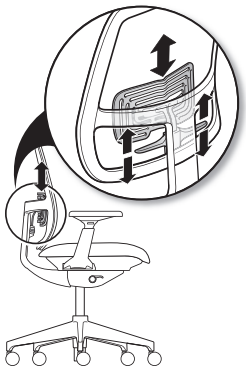
Benefit:
- Supports the thighs, allows users to rest against the seat back for back support, and avoids pressure on the back of the knees of small to tall users.

Forward Tilt

Feature:
- Optional forward tilt.
- Seat pan moves downward 5° from initial position.

Benefit:
- Promotes a healthy spinal posture where your back stays in contact with the chair as a user sits on the front of their chair.

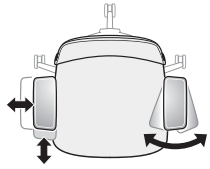
Lumbar Support

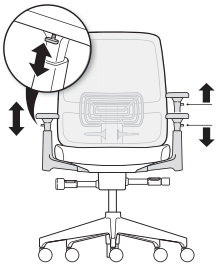


Features:
- Lumbar adjustment adjusts 4″(102mm) in height.

Benefits:
- Lumbar adjustment maintains the natural curvature of the spine at the lower back and allows users to choose the support that feels right for them.

4D Arm





Features:
- Optional 4D arm.
- Arm adjusts in 4 ways:
  -Height adjustment: 4″(102mm)
  -Side-to-side arm cap adjustment range: 3″(76mm) [1 1/2″(38mm) each arm cap]
  -Front-to-back adjustment range: 3 1/2″(89mm)
  -Pivoting: In 20°; out 20°

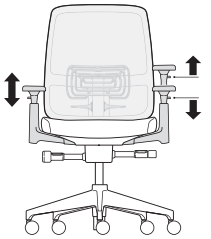
Benefits:
- Arms support the muscular system of users' neck and shoulders and proper arm support provides back relief. Arms can be an aid in standing or sitting down.
- Height adjustment accommodates for users with varying elbow rest heights so that users avoid lifting their shoulders or leaning sideways to get arm support.
- Side-to-side adjustment ensures a comfortable resting position for the arms with proper support of the forearm while allowing for easy entry/exit of the chair.
- Front-to-back adjustment adjusts the armrest length, which is important because it allows users to get close to the worksurface while maintaining the effective use of the backrest.
- Pivoting provides proper support of the forearm when performing tasks involving keying and mousing.

Lively

General Specifications

OPTIONAL MOBILITY AND ADJUSTABILITY (continued)

Height Adjustable Arm



Features:
- Optional height adjustable arms adjust 4″(102mm) vertically.

Benefit:
- Height adjustment accommodates users with varying elbow rest heights so that users avoid lifting their shoulders or leaning sideways to get arm support.

Leather Upholstery

Seat:
- Stitched double seams. Vertically in the center and on the edges of the seat cushion.

Back:
- Vertical stitched double seams on the upholstered back with leather or Customer's Own Leather (COL).

General Specifications

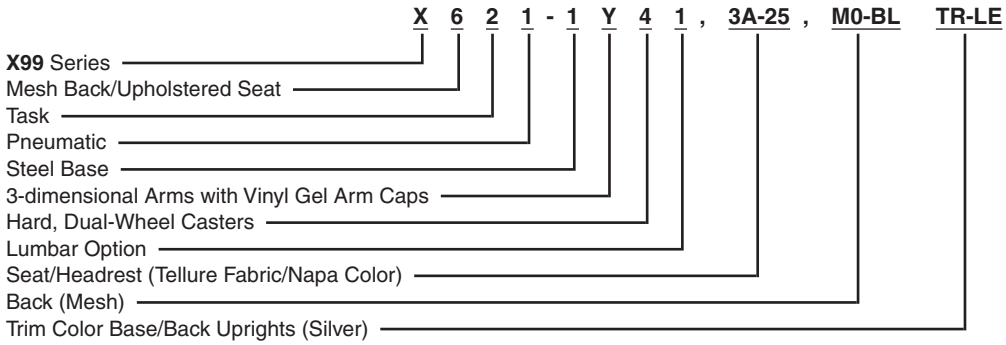
General Guidelines for Product Specification

X99 specification numbers are based on an alpha-numeric logic that identifies a product by model and specific characteristics.

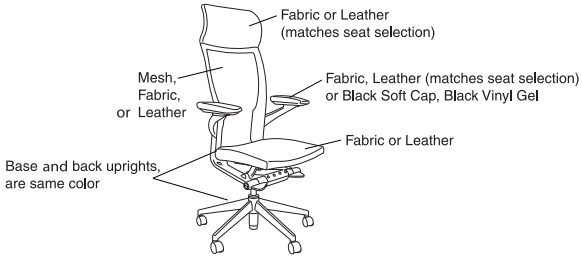
For instance, a product number that reads **X621-1Y41** identifies the product as an **X99** Task Chair, with 3-dimensional arms, mesh back and fabric upholstery seat, pneumatic height adjustment, and hard casters.

The numeric logic for this model with fabric and finish codes is shown below:



There are exceptions to this logic; therefore, always refer to the price charts for product numbers rather than attempting to construct them. Product number modification instructions for additional options appear in footnoted copy for each applicable model.

Beyond the printed product number, fabric and finish codes are required to complete an order specification. To communicate your order clearly, list the product number and finish codes in the sequence outlined on each price page.



Note:

- Fully upholstered models require fabric/leather for seat and back to match. No dual fabrics or materials.
- Arms are black only.

COM & COL General Information

To order a COM fabric (Customer's Own Material), contact the Haworth Inquiry Center (1.800.426.8562), your local Haworth dealer, or go to haworth.com/surfaces > COM Library to find out if the COM you have selected has already been tested and approved. The surface collection site also has information on the Haworth+ alliance program with Carnegie, Luna Textiles, and Maharam as well as our industry-leading Pre-Approved COM program.

Approved COMs are placed into Grades based on the fabric pricing; if the fabric pricing exceeds our Grades, they will be priced at Grade A + cost of fabric + 4% handling (North America). Haworth will purchase all COMs unless instructed otherwise. (Leather will also be purchased by Haworth; if the leather pricing exceeds our Grades, cost will be based on fabric Grade E + cost of leather + 4% handling.)

If no information is available on the COM you are looking for, refer to the COM section and forms on the surface collection site for information on how to process your test request.

Finishes and Fabrics

A complete listing of finishes and fabrics for **X99** seating is available on pages 363 and 365-368.

Environmental Factors

Material Off Gassing

In an effort to ensure air quality standards, all **X99** parts suppliers are required to provide Material Data Sheets and/or other documentation, verifying their products do not emit volatile organic compounds (VOC). In addition, the powder-coat paint process used in the manufacturing of **X99** seating is free of VOCs. Our manufacturing processes have also eliminated all use of chlorofluorocarbons (CFCs) and ozone depleting chemicals (ODCs) in the chair's construction.

Recycling

All **X99** seating fabric scraps are recycled, reducing the amount of material sent to landfills, and all chair components disassemble easily to increase the potential for recycling. In addition, all thermo-plastic parts are 100% reprocessable, and all raw materials used in its manufacturing can be recycled at the end of the useful life of the product. Recyclable parts are identified with the recycle symbol where practical.

COM & COL General Information

To order a COM fabric (Customer's Own Material), contact the Haworth Inquiry Center (1.800.426.8562), your local Haworth dealer, or go to haworth.com/surfaces > COM Library to find out if the COM you have selected has already been tested and approved. The surface collection site also has information on the Haworth+ alliance program with Carnegie, Luna Textiles, and Maharam as well as our industry-leading Pre-Approved COM program.

Approved COMs are placed into Grades based on the fabric pricing; if the fabric pricing exceeds our Grades, they will be priced at Grade A + cost of fabric + 4% handling (North America). Haworth will purchase all COMs unless instructed otherwise. (Leather will also be purchased by Haworth; if the leather pricing exceeds our Grades, cost will be based on fabric Grade E + cost of leather + 4% handling.)

If no information is available on the COM you are looking for, refer to the COM section and forms on the surface collection site for information on how to process your test request.

Flammability Requirements

Improv Series models are available with an optional fire retardant construction to comply with California Bulletin #133. Refer to the price pages for ordering information. Refer to the Haworth.com/surfaces for a listing of the approved fabrics.

Environmental Factors

Material Off Gassing

In an effort to ensure air quality standards, all Improv parts suppliers are required to provide Material Data Sheets and/or other documentation, verifying that their products do not emit volatile organic compounds (VOCs). In addition, the powder-coat paint process used in the manufacturing of Improv seating is free of VOCs. Our manufacturing processes have also eliminated all use of chlorofluorocarbons (CFCs) and ozone depleting chemicals (ODCs) in the chair's construction.

Recycling

All fabric scraps are recycled, reducing the amount of material sent to landfills, and all chair components disassemble easily to increase the potential for recycling. In addition, all thermo-plastic parts are 100% reprocessable, and all raw materials used in its manufacturing can be recycled at the end of the useful life of the product. Recyclable parts are identified with the recycle symbol where practical.

Improv Series

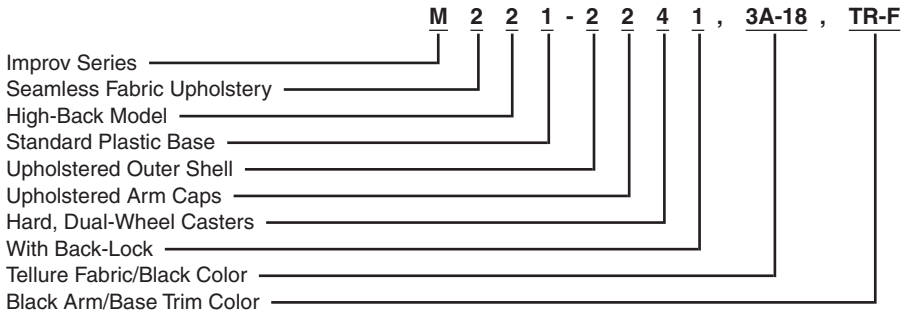
General Specifications

General Guidelines for Product Specification

Improv Series seating specification numbers are based on an alpha-numeric logic that identifies a product by model and certain characteristics.

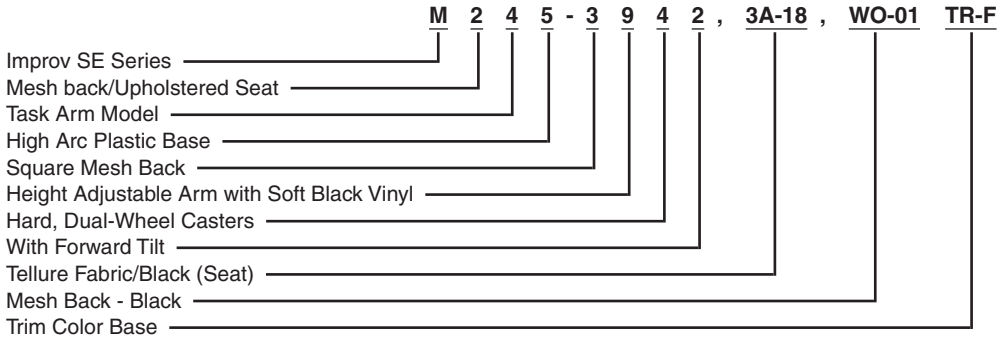
For example, a product number that reads **M221-2241** identifies the product as an Improv high-back chair with seamless upholstered outer shell, pneumatic seat height adjustment, upholstered arms, back-lock, and hard dual-wheel casters.

The alpha-numeric logic for this model complete with fabric and finish codes is shown below:



A ninth-digit suffix of the product number will indicate functional option, such as -F for CAL 133 option.
A product number that reads **M245-3942** identifies the product as an Improv S.E. chair with square mesh back, high arc plastic base, soft black vinyl arms, with forward tilt, and hard dual-wheel casters.

The alpha-numeric logic for this model complete with fabric and finish codes is shown below:



There are exceptions to this logic; therefore, always refer to the price charts for product numbers rather than attempting to construct them. Product number modification instructions for additional options appear in footnoted copy for each applicable model.

Beyond the printed product number, fabric and finish codes are required to complete an order specification. To communicate your order clearly, list the product number and fabric/finish codes in the sequence outlined on each price page.

RUSH

Select Improv Series seating models are marked with a ■ symbol to denote availability on the RUSH program. Refer to the fabric and finish options for each product.

Finishes and Fabrics

A complete listing of finishes and fabrics for Improv Series desk chairs can be found in the back of the price list.

COM & COL General Information

To order a COM fabric (Customer's Own Material), contact the Haworth Inquiry Center (1.800.426.8562), your local Haworth dealer, or go to haworth.com/surfaces > COM Library to find out if the COM you have selected has already been tested and approved. The surface collection site also has information on the Haworth+ alliance program with Carnegie, Luna Textiles, and Maharam as well as our industry-leading Pre-Approved COM program.

Approved COMs are placed into Grades based on the fabric pricing; if the fabric pricing exceeds our Grades, they will be priced at Grade A + cost of fabric + 4% handling (North America). Haworth will purchase all COMs unless instructed otherwise. (Leather will also be purchased by Haworth; if the leather pricing exceeds our Grades, cost will be based on fabric Grade E + cost of leather + 4% handling.)

If no information is available on the COM you are looking for, refer to the COM section and forms on the surface collection site for information on how to process your test request.

Improv Series

Tandem Seating and Tables

Specification and Ordering Information

Specify standard Improv Series chair models, tandem tables, and chair-to-chair connecting bars to create a continuous seating configuration.

Use the following guidelines when specifying and ordering Improv seating and tables for tandem configurations:

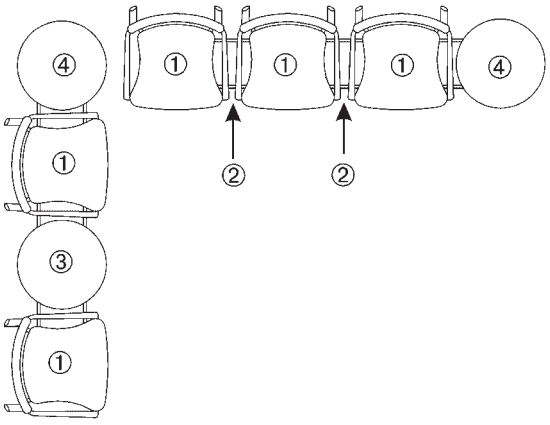
1) Specify the desired chair models from pages 186-191.
   - All chair models are designed to accept both table and chair-to-chair connecting bars.
     NOTE: It is not necessary to order ganging chair models to create a tandem configuration.
2) Specify chair-to-chair connecting bars from page 196.
   - One set of connecting bars will join two chairs in tandem.
   - Exceptions:

     Tablet arm cannot be connected adjacent to an arm chair.

     Tablet arm cannot be connected adjacent to another tablet arm.
3) Specify tandem table models from page 196.
   - Select in-line or end-of-run tables based on desired configuration. Tandem table models include all table-to-chair connecting hardware.
   - Tandem tables cannot be connected to each other.

Specification Example

The following example illustrates a tandem seating and table configuration.



Item	Qty	Number	Description
1	5	M600-2210	Leg-Base Arm Chairs
2	2	MPRV-BARS	Chair-to-Chair Connecting Bars
3	1	MTI1-20	In-Line Tandem Table
4	2	MTE1-20	End-of-Run Tandem Tables

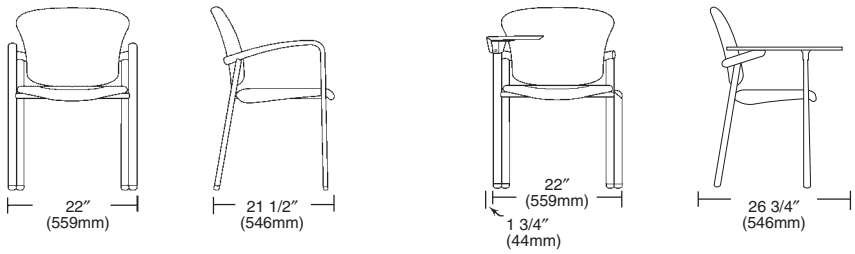
Improv Series

Tandem Seating and Tables

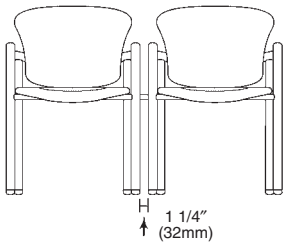
Calculating Tandem Seating Dimensions

Use the following dimensions to determine the footprint of an Improv Series tandem seating configuration.

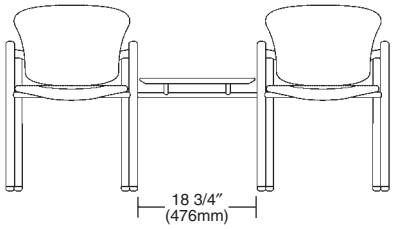
1) All arm and armless chair models are 22″(559mm) wide and 21 1/2″(546mm) deep. Tablet arm chair models are 26 3/4″(679mm) deep. When a tablet arm chair ends a seating configuration, add 1 3/4″(44mm) to the total configuration width.



2) Add 1 1/4″(32mm) to the width of the seating run for every chair-to-chair connecting bar.



3) For every in-line table, add 18 3/4″(476mm) to the width of the seating run.



4) For every end-of-run table, add 19 3/8″(492mm) to the width of the seating run.

COM & COL
General Information

To order a COM fabric (Customer's Own Material), contact the Haworth Inquiry Center (1.800.426.8562), your local Haworth dealer, or go to haworth.com/surfaces > COM Library to find out if the COM you have selected has already been tested and approved. The surface collection site also has information on the Haworth+ alliance program with Carnegie, Luna Textiles, and Maharam as well as our industry-leading Pre-Approved COM program.

Approved COMs are placed into Grades based on the fabric pricing; if the fabric pricing exceeds our Grades, they will be priced at Grade A + cost of fabric + 4% handling (North America). Haworth will purchase all COMs unless instructed otherwise. (Leather will also be purchased by Haworth; if the leather pricing exceeds our Grades, cost will be based on fabric Grade E + cost of leather + 4% handling.)

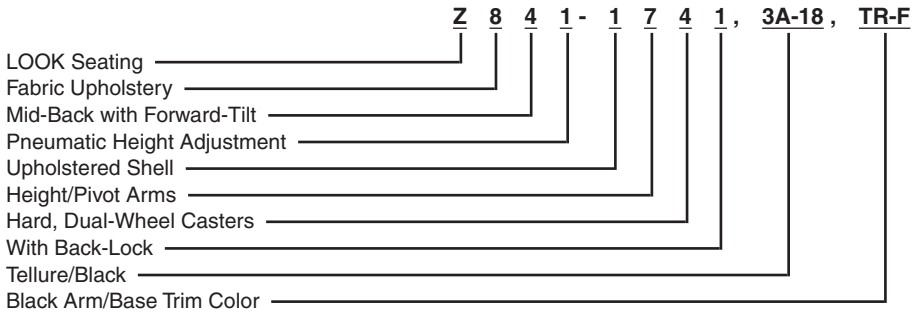
If no information is available on the COM you are looking for, refer to the COM section and forms on the surface collection site for information on how to process your test request.

General Guidelines for Product Specification

LOOK seating specification numbers are based on an alpha-numeric logic that identifies a product by model and certain characteristics.

For example, a product number that reads **Z841-1741** identifies the product as a Mid-Back LOOK chair with forward tilt, fabric upholstery, pneumatic height adjustment, upholstered shell, height adjustable arms, pivoting arm pads, hard dual casters, and back lock.

The alpha-numeric logic for this model complete with fabric and finish codes is shown below:



Replace second digit in product number with 7 for leather. Example: Z**7**41-1741.

Beyond the printed product number, fabric and finish codes are required to complete an order specification. To communicate your order clearly, list the product number and fabric/finish codes in the sequence outlined on each price page.

Finishes and Fabrics

A complete listing of finishes and fabrics for LOOK seating can be found in the back of the price list.

COM & COL
General Information

To order a COM fabric (Customer's Own Material), contact the Haworth Inquiry Center (1.800.426.8562), your local Haworth dealer, or go to haworth.com/surfaces > COM Library to find out if the COM you have selected has already been tested and approved. The surface collection site also has information on the Haworth+ alliance program with Carnegie, Luna Textiles, and Maharam as well as our industry-leading Pre-Approved COM program.

Approved COMs are placed into Grades based on the fabric pricing; if the fabric pricing exceeds our Grades, they will be priced at Grade A + cost of fabric + 4% handling (North America). Haworth will purchase all COMs unless instructed otherwise. (Leather will also be purchased by Haworth; if the leather pricing exceeds our Grades, cost will be based on fabric Grade E + cost of leather + 4% handling.)

If no information is available on the COM you are looking for, refer to the COM section and forms on the surface collection site for information on how to process your test request.

Flammability Requirements

Accolade chair models are available with an optional fire retardant construction to comply with California Bulletin #133. Refer to the price pages for ordering information. Refer to Haworth.com/surfaces for a listing of the approved fabrics.

Environmental Factors

Material Off Gassing

In an effort to ensure air quality standards, all Accolade parts suppliers are required to provide Material Data Sheets and/or other documentation, verifying that their products do not emit volatile organic compounds (VOCs). In addition, the powder-coat paint process used in the manufacturing of Accolade seating is free of VOCs. Our manufacturing processes have also eliminated all use of chlorofluorocarbons (CFCs) and ozone depleting chemicals (ODCs) in the chair's construction.

Recycling

All fabric scraps are recycled, reducing the amount of material sent to landfills, and all chair components disassemble easily to increase the potential for recycling. In addition, Accolade's inner seat shell is constructed of 100% reprocessed polypropylene, and all raw materials used in its manufacturing can be recycled at the end of the useful life of the product.

Accolade Seating

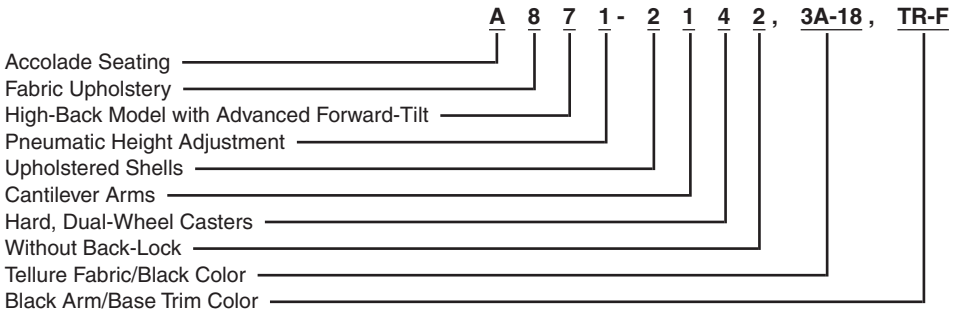
General Specifications

General Guidelines for Product Specification

Accolade seating specification numbers are based on an alpha-numeric logic that identifies a product by model and certain characteristics.

For example, a product number that reads **A871-2142** identifies the product as an Accolade high-back chair fabric upholstery, pneumatic seat height adjustment, fully-upholstered shells, and hard dual-wheel casters.

The alpha-numeric logic for this model complete with fabric and finish codes is shown below:



Replace second digit in product number with 7 for leather. Example: A**7**71-2142.

A ninth digit suffix of the product number will indicate functional options, such as **-F** for CAL 133 option. There are exceptions to this logic; therefore, always refer to the price charts for product numbers rather than attempting to construct them. Product number modification instructions for additional options appear in footnoted copy for each applicable model.

Beyond the printed product number, fabric and finish codes are required to complete an order specification. To communicate your order clearly, list the product number and fabric/finish codes in the sequence outlined on each price page.

RUSH

Select Accolade seating models are marked with a ■ symbol to denote availability on the RUSH program. Refer to the fabric and finish options for each product.

Finishes and Fabrics

A complete listing of finishes and fabrics for Accolade seating can be found in the back of the price list.

COM & COL
General Information

To order a COM fabric (Customer's Own Material), contact the Haworth Inquiry Center (1.800.426.8562), your local Haworth dealer, or go to haworth.com/surfaces > COM Library to find out if the COM you have selected has already been tested and approved. The surface collection site also has information on the Haworth+ alliance program with Carnegie, Luna Textiles, and Maharam as well as our industry-leading Pre-Approved COM program.

Approved COMs are placed into Grades based on the fabric pricing; if the fabric pricing exceeds our Grades, they will be priced at Grade A + cost of fabric + 4% handling (North America). Haworth will purchase all COMs unless instructed otherwise. (Leather will also be purchased by Haworth; if the leather pricing exceeds our Grades, cost will be based on fabric Grade E + cost of leather + 4% handling.)

If no information is available on the COM you are looking for, refer to the COM section and forms on the surface collection site for information on how to process your test request.

Flammability Requirements

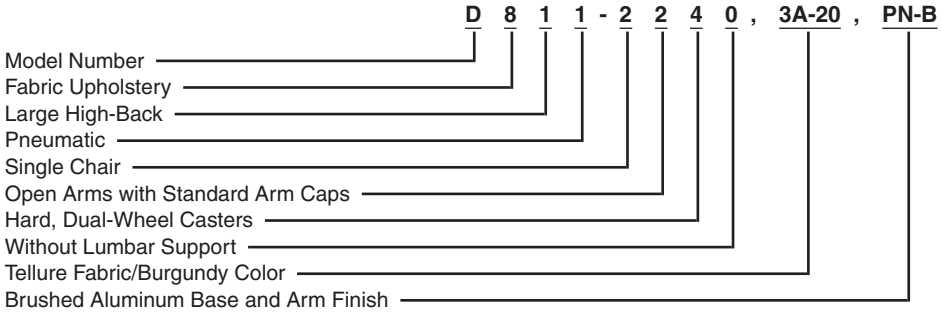
Monaco chair models are available with an optional fire retardant construction to comply with California Bulletin #133. Refer to the price pages for ordering information. Refer to Haworth.com/surfaces for a listing of the approved fabrics.

General Guidelines for Product Specification

Monaco specification numbers are based on a numeric logic that identifies a product by model and certain characteristics.

For instance, a product number that reads **D811-2240** identifies the product as a Large High-Back Monaco Chair, with fabric upholstery, pneumatic height adjustment, open arms, hard casters, and without lumbar adjustment.

The numeric logic for this model with fabric and finish codes is shown below:



A ninth-digit suffix of the product number will indicate functional options, such as **-F** for CAL 133 option. There are exceptions to this logic; therefore, always refer to the price charts for product numbers rather than attempting to construct them. Product number modification instructions for additional options appear in footnoted copy for each applicable model.

Beyond the printed product number, fabric and finish codes are required to complete an order specification. To communicate your order clearly, list the product number and finish codes in the sequence outlined on each price page.

RUSH

Select Monaco seating models are marked with a ■ symbol to denote availability on the RUSH program. Refer to the fabric and finish options for each product.

Finishes and Fabrics

A complete listing of finishes and fabrics for Monaco seating is available in the back of the price list.

COM & COL
General Information

To order a COM fabric (Customer's Own Material), contact the Haworth Inquiry Center (1.800.426.8562), your local Haworth dealer, or go to haworth.com/surfaces > COM Library to find out if the COM you have selected has already been tested and approved. The surface collection site also has information on the Haworth+ alliance program with Carnegie, Luna Textiles, and Maharam as well as our industry-leading Pre-Approved COM program.

Approved COMs are placed into Grades based on the fabric pricing; if the fabric pricing exceeds our Grades, they will be priced at Grade A + cost of fabric + 4% handling (North America). Haworth will purchase all COMs unless instructed otherwise. (Leather will also be purchased by Haworth; if the leather pricing exceeds our Grades, cost will be based on fabric Grade E + cost of leather + 4% handling.)

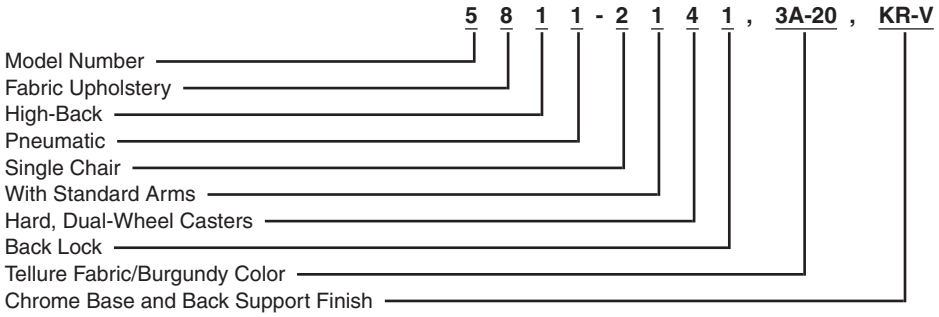
If no information is available on the COM you are looking for, refer to the COM section and forms on the surface collection site for information on how to process your test request.

General Guidelines for Product Specification

System 58 specification numbers are based on a numeric logic that identifies a product by model and certain characteristics.

For instance, a product number that reads **5811-2141** identifies the product as a System 58 Executive Chair, with fabric upholstery, pneumatic height adjustment, and hard casters.

The numeric logic for this model with fabric and finish codes is shown below:



A ninth-digit suffix of the product number will indicate functional options, such as **-F** for CAL 133 option.

There are exceptions to this logic; therefore, always refer to the price charts for product numbers rather than attempting to construct them. Product number modification instructions for additional options appear in footnoted copy for each applicable model.

Beyond the printed product number, fabric and finish codes are required to complete an order specification. To communicate your order clearly, list the product number and finish codes in the sequence outlined on each price page.

RUSH

Select System 58 seating models are marked with a ◥ symbol to denote availability on the RUSH program. Refer to the fabric and finish options for each product.

Finishes and Fabrics

A complete listing of finishes and fabrics for System 58 seating is available in the back of the price list.

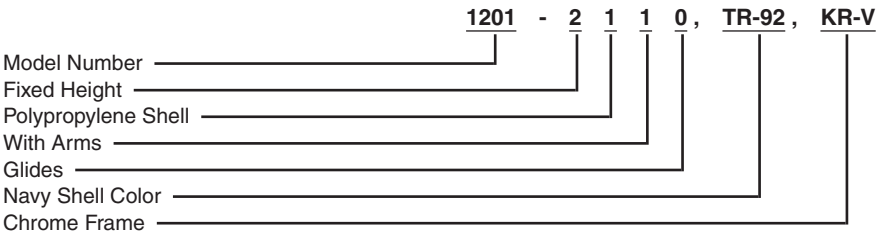
General Guidelines for Product Specification

System 12 specification numbers are based on a numeric logic that identifies a product by model and certain characteristics.

For instance, a product number that reads **1201-2110** identifies the product as a System 12 High-Density Stacking Chair, with arms, fixed height, polypropylene shell, and glides.

The numeric logic for this model with finish codes is shown below:



There are exceptions to this logic; therefore, always refer to the price charts for product numbers rather than attempting to construct them. Product number modification instructions for additional options appear in footnoted copy for each applicable model.

Beyond the printed product number, finish codes are required to complete an order specification. To communicate your order clearly, list the product number and finish codes in the sequence outlined on each price page.

COM & COL General Information

To order a COM fabric (Customer's Own Material), contact the Haworth Inquiry Center (1.800.426.8562), your local Haworth dealer, or go to haworth.com/surfaces > COM Library to find out if the COM you have selected has already been tested and approved. The surface collection site also has information on the Haworth+ alliance program with Carnegie, Luna Textiles, and Maharam as well as our industry-leading Pre-Approved COM program.

Approved COMs are placed into Grades based on the fabric pricing; if the fabric pricing exceeds our Grades, they will be priced at Grade A + cost of fabric + 4% handling (North America). Haworth will purchase all COMs unless instructed otherwise. (Leather will also be purchased by Haworth; if the leather pricing exceeds our Grades, cost will be based on fabric Grade E + cost of leather + 4% handling.)

If no information is available on the COM you are looking for, refer to the COM section and forms on the surface collection site for information on how to process your test request.

RUSH

Select System 12 models are marked with a ■ symbol to denote availability on the RUSH program. Refer to the finish options for each product.

Wood Seating

General Specifications

Features and Options

Guest, occasional, and lounge models feature frames constructed solid hardwood, laminated plywood, laminated hardwood core and premium veneers, or rigid polyurethane.

Office seating models feature an inner frame construction of tubular steel or solid hardwood or laminated plywood or molded plywood. Swivel bases are standard with hard dual-wheel casters.

Exposed wood surfaces are finished with two top coats of pre-catalyst nitrocellulose lacquer for a durable finish.

Refer to the appropriate seating model for applicable features and options.

COM & COL General Information

Flammability Requirements

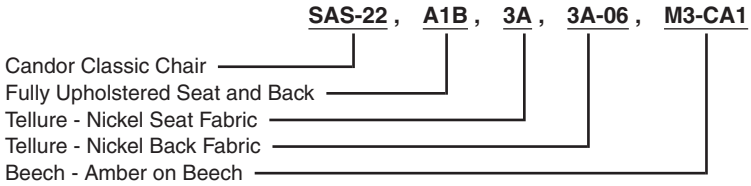
Select chair models meet CAL 133 Standard and are available with an optional fire-retardant construction to comply with California Bulletin #133. Refer to the price pages for ordering information. Refer to Haworth.com/surfaces for a listing of the approved fabrics.

General Guidelines for Product Specification

Seating specification numbers are based on a numeric logic that identifies a product by model and certain characteristics.

For instance, a product number that reads **SAS-22-A1B** identifies the product as a Candor Classic Seating with fully upholstered seat and back.

The numeric logic for this model with finish codes is shown below:



A ninth-digit suffix of the product code will indicate functional options, such as **-F** for CAL 133 option. There are exceptions to this logic; therefore, always refer to the price charts for product numbers rather than attempting to construct them. Product number modification instructions for additional options appear in footnoted copy for each applicable model.

Beyond the printed product number, fabric and finish codes are required to complete an order specification. To communicate your order clearly, list the product number and finish codes in the sequence outlined on each price page.

Tally Series — Modular

Public Seating

Specification and Ordering Information

The Tally Series modular seating and table components are divided into two groups; end components and interior components.

- End components begin and end a seating configuration. (The first letter in an end component product number is an **E**. ***Example:*** 3110-**E**LA, see page 260).
- Interior components connect to end components, and build the configuration. (The first letter in an interior component product number is an **I**. ***Example:*** 3110-**I**AC, see pages 261-263).

Use the following guidelines when specifying and ordering the Tally Series modular seating and table components:

1) Develop a layout drawing (plan view) of each modular seating configuration. Label each component with the corresponding product number, see examples below.
Note: Your labeled drawing is not required with the purchase order; however, it is essential for on-site assembly of the components.
2) Working left-to-right as you sit in the seating configuration, specify the first end component (left arm or table/bench leg).
3) Add to the first end component by specifying an interior component (seat and back, table or bench). Continue the configuration by alternating interior seats and backs/benches/tables and interior arms.
4) Complete the configuration with an end component (right arm or table/bench leg).
5) Specify the appropriate fabric surface/color code, and the frame wood finish color code.

General Information

- Tally Series modular seating and table components are manufactured and shipped unassembled for field assembly.
- Detailed assembly instructions are included with individual units.
- Final product configuration drawings are the responsibility of the customer/specifier, but are not required for placement of order.
- All Tally Series modular components may be knocked down for reconfiguration or repair in the field.

COM & COL General Information

To order a COM fabric (Customer's Own Material), contact the Haworth Inquiry Center (1.800.426.8562), your local Haworth dealer, or go to haworth.com/surfaces > COM Library to find out if the COM you have selected has already been tested and approved. The surface collection site also has information on the Haworth + alliance program with Carnegie, Luna Textiles, and Maharam as well as our industry-leading Pre-Approved COM program.

Approved COMs are placed into Grades based on the fabric pricing; if the fabric pricing exceeds our Grades, they will be priced at Grade A + cost of fabric + 4% handling (North America). Haworth will purchase all COMs unless instructed otherwise. (Leather will also be purchased by Haworth; if the leather pricing exceeds our Grades, cost will be based on fabric Grade E + cost of leather + handling.)

If no information is available on the COM you are looking for, refer to the COM section and forms on the surface collection site for information on how to process your test request.

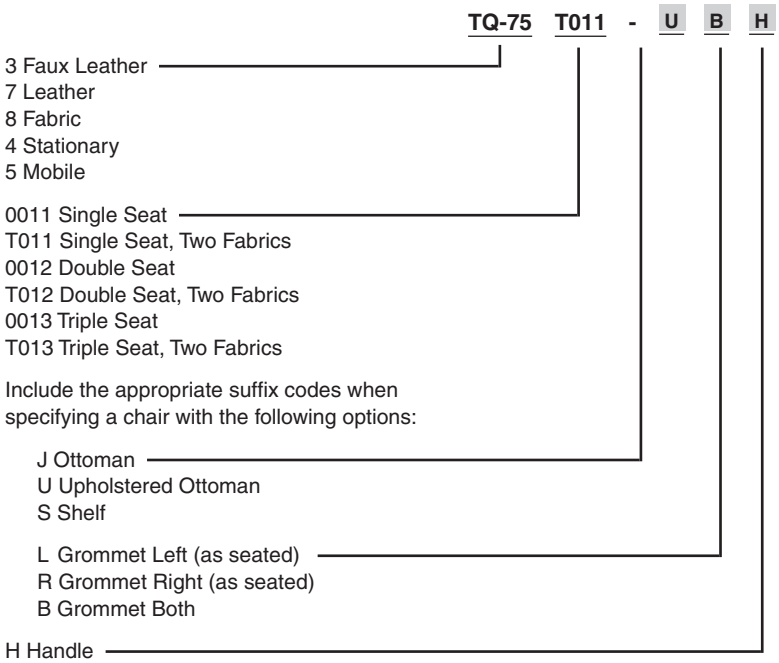
General Specifications

Specification Guidelines

- When more than two fabrics are specified on a ToDo chair contact Haworth Specials for pricing and lead time.
- Mixing of materials such as vinyl and fabric on chair contact specials for pricing.
- When ordering a chair with both the two fabric option and an upholstered ottoman, the fabric on the ottoman will match the fabric on the chair seat and back indicated in the first fabric code. The chair arms will be upholstered in the second fabric code.
- If an upholstered ottoman fabric must match the chair arms or is a third fabric choice, the ottoman must be ordered separately.
- Chairs with a shelf will not accept an ottoman.
- Chairs with an ottoman will not accept a shelf.
- **A grommet option (suffix -R, -L or -B) must be included in the ToDo chair specification in order to accept tablet arms or cup holders.**
- Tablet arms and cup holders must be ordered separately.

To insure order accuracy and acceptance, features and options must be specified in the following order (top-down):



- ToDo Leather, Mobile, Single Seat with two fabrics, Upholstered Ottoman, Grommet Both, Handle

Tempo Series

Modular Seating Specifications

Specification and Ordering Information

Tempo Series modular seating components are divided into two groups; *starter components* and *add-on components.*

- Starter Components include seats and end tables. Starter seats have four (4) legs and provide a starting point for a configuration and support one end of an in-line table, corner table or end table.
- Add-on Components include seats and in-line tables. Add-on seats have two (2) legs on the right side (as you sit in the seat) and connect to starter seats or other add-on components.

Specification Tip: *Modular components can be added to existing preconfigured seating units to create unique configurations. See pages 291-295.*

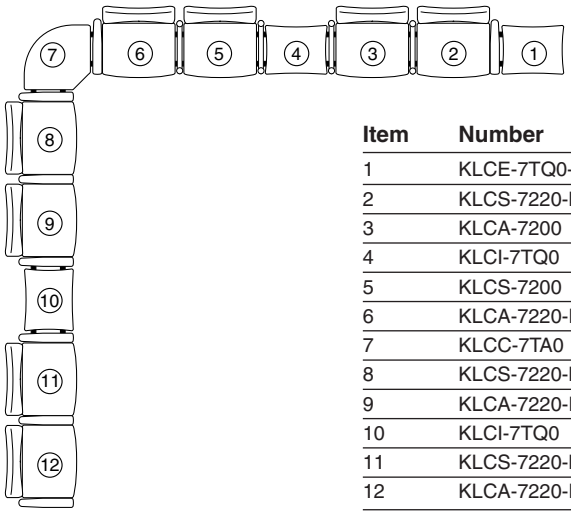
1) Develop a layout drawing (plan view) of each seating configuration. Label each component with the corresponding product number, see example below.

   NOTE: Your labeled drawing is not required with the purchase order; however, it is essential for on-site assembly of the components.

2) Working left-to-right **as you sit in the seating configuration**, specify a starter seat or table.
3) Continue your configuration with add-on seats, in-line tables, corner tables and starter seats for support of tables. Possible options include arm and armless combinations.
4) Complete your configuration with a starter seat, right end table or add-on seat.
5) Specify the appropriate fabric surface/color code, frame finish color code, table top finish code, and wood arm finish.

Configuration Example

The following example illustrates a modular seating configuration:



Item	Number	Description
1	KLCE-7TQ0-L	Starter end table, left-hand
2	KLCS-7220-L	Starter seat with left arm
3	KLCA-7200	Add-on seat without arm
4	KLCI-7TQ0	Add-on in-line table
5	KLCS-7200	Starter seat without arms
6	KLCA-7220-R	Add-on seat with right arm
7	KLCC-7TA0	Add-on corner table
8	KLCS-7220-B	Starter seat with left and right arms
9	KLCA-7220-R	Add-on seat with right arm
10	KLCI-7TQ0	Add-on in-line table
11	KLCS-7220-B	Starter seat with left and right arms
12	KLCA-7220-R	Add-on seat with right arm

Specification Tip: *Use a combination of preconfigured and modular components to reduce the number of specified products.*

Specification Tips

The following additional tips should be considered when planning and specifying Tempo modular seating:

- There is no restriction on the number of seats and tables connected in a row.
- Place an in-line table between two seats. Two (2) in-line tables cannot be connected side-by-side.
- Alternating arm and armless seats can be specified within a configuration. Two starter seats with arms cannot be connected.
- All seats must face the same direction within a configuration.
- Corner tables require the support of a seat on either end. It is recommended that square corner tables *(KLCC-7TQ0)* be placed in the corner of a room or a protected area to reduce or prevent contact with the 90° table edge.
- Tempo modular seating components are manufactured and shipped in one-seat units to be field attached. NOTE: Tempo preconfigured seating requires some assembly.
- Detailed assembly instructions are included with individual units.
- Final product configuration drawings are the responsibility of the customer/specifier, but are not required for placement of the order.
- Tempo modular components may be knocked down for reconfiguration or repair in the field.

Tempo Series

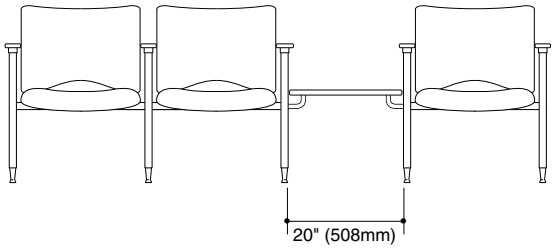
Modular Seating Dimensions

Calculating Modular Seating Dimensions

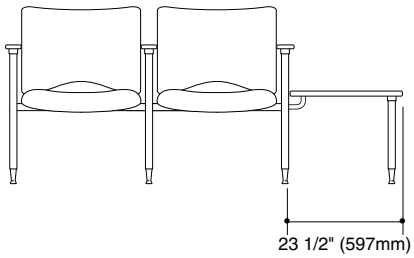
Use the following dimensions to determine the footprint of a Tempo Series modular seating configuration.

1) All arm and armless seating models are 25 1/2″(648mm) deep. For seat widths refer to the individual starter and add-on seats.

2) For every in-line table, add 20″(508mm) to the width of the seating run.



3) For every end table, add 23 1/2″(597mm) to the width of the seating run.



4) For every corner table, add 35″(889mm) to the width of the seating run in both directions.

General Specifications

COM & COL General Information

To order a COM fabric (Customer's Own Material), contact the Haworth Inquiry Center (1.800.426.8562), your local Haworth dealer, or go to haworth.com/surfaces > COM Library to find out if the COM you have selected has already been tested and approved. The surface collection site also has information on the Haworth + alliance program with Carnegie, Luna Textiles, and Maharam as well as our industry-leading Pre-Approved COM program.

Approved COMs are placed into Grades based on the fabric pricing; if the fabric pricing exceeds our Grades, they will be priced at Grade A + cost of fabric + 4% handling (North America). Haworth will purchase all COMs unless instructed otherwise. (Leather will also be purchased by Haworth; if the leather pricing exceeds our Grades, cost will be based on fabric Grade E + cost of leather + handling.)

If no information is available on the COM you are looking for, refer to the COM section and forms on the surface collection site for information on how to process your test request.

Flammability Requirements

Flammability standards met by seating fabrics are identified on the fabric selection color cards. Upholstery foam is compounded to meet specifications of Federal Motor Vehicle Safety Standard 302 and California 117.

Select seating models are available with an optional fire retardant construction for compliance with California Bulletin #133 and the City of Boston Fire Code. Refer to the price charts for ordering information.

Environmental Factors

Material Off Gassing

In an effort to ensure air quality standards, all parts suppliers are required to provide Material Data Sheets and/or other documentation, verifying that their products do not emit volatile organic components (VOC). In addition, the powder-coat paint process used in the manufacturing of seating is free of VOCs. Our manufacturing processes have also eliminated all use of chlorofluorocarbons (CFCs) and ozone depleting chemicals (ODCs) in the product's construction.

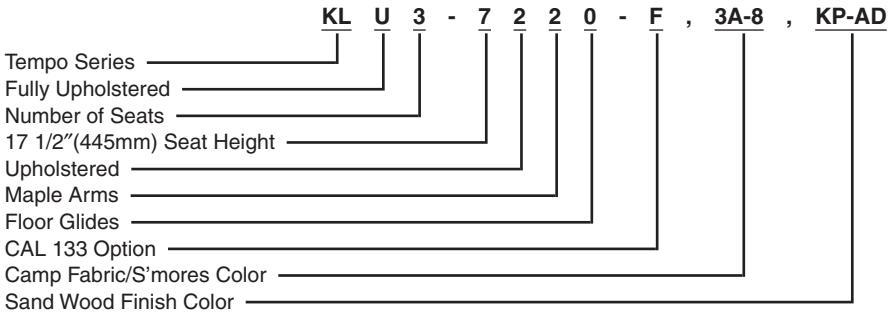
Recycling

All fabric scraps are recycled, reducing the amount of material sent to landfills, and all components disassemble easily to increase the potential for recycling. Recycled parts are identified with the recycle symbol where practical.

General Guidelines for Product Specification

Seating specification numbers are based on an alpha-numeric logic that identifies a product by model and certain characteristics.

The following identifies the alpha-numeric logic for Tempo Series lounge seating models. Beyond the printed product number, fabric and finish codes are required to complete an order specification.



A ninth-digit suffix of the product code will indicate functional options, such as -F for CAL 133 option. There are exceptions to this logic; therefore, always refer to the price charts for product numbers rather than attempting to construct them. Product number modification instructions for additional options appear in footnoted copy for each applicable model.

Beyond the printed product number, fabric and finish codes are required to complete an order specification. To communicate your order clearly, list the product number and finish codes in the sequence outlined on each price page.

RUSH

Select seating models are marked with a ■ symbol to denote availability on the RUSH program. Refer to the fabric and finish options for each model.

Finishes and Fabrics

A complete listing of finishes/fabrics for seating can be found in the back of the price list.

K100 Series

Public Seating

Specification and Ordering Information

Use the following guidelines when specifying and ordering K100 Public Seating. A sketch of the product layout is not required to process an order for K100 products.

1. K100 Series seats mount to K100 Series beams.
2. In K100 series, seats and in-line tables occupy one position on the beam. Calculate the total of these units to ensure they match the number of beam positions specified, as indicated in the beam model number. For example, K153-3 includes three mounting positions and requires a combination of three seats and/or in-line tables.
3. Corner tables have their own support beam and hardware and do not occupy a position on the beam. The tables connect two beams together at right angles, and are not available for the freestanding end of the beam. Refer to page 306 for corner table models and their proper applications.
4. Public seating configurations can also include corners created by specifying either a 45° corner beam, which accommodates one seat, or an in-line table.
5. Although a drawing is not required to process an order, Haworth recommends ordering from a layout drawing to ensure accuracy in seat-count and corner table selection.

Note:
- Specifying a common stain color for casegoods, wood seating, and wood occasional tables will result in a suite of furniture which has a commercially acceptable finish match.
- Different wood species are offered on the various casegoods, chairs, and tables. Each species offer unique texture, grain, and color of raw wood and veneer. Minor variations in finish color and texture may occur due to these natural characteristics of wood. This is part of the natural beauty of wood and is not considered to be a defect.

Finish/Color Legends

Wood Seating — pages 238-240, 248-281, 297 The following matrix shows the standard finish offering for each seating product line. Because of the natural properties of wood, variations of grain pattern and finish color can be expected. Haworth carefully selects materials used in the manufacturing of products to promote consistent and acceptable color. Wood is susceptible to color change from exposure to UV rays. Haworth finishes include a UV stabilizer to reduce these effects. Natural finish on Maple is a clear coat only and will show all the characteristics of the wood.	**Wood Seating**

Seating COM Pattern Repeat Information
Haworth will calculate and order COM yardage as needed for seating; however, for bid/quote purposes, please refer to the COM yardage requirements listed by each chair model. These numbers are based on solid or very small scale (under 1″ repeat) fabrics.

For fabrics with repeats listed below, additional yardage should be included in your calculations. The additional yardage allows for matching of patterns on the seating.

REPEAT SIZE	ADD ADDITIONAL YARDAGE TO YOUR CALCULATIONS
1″-5″	Add 5%
5″-7″	Add 10%
8″-14″	Add 20%
15″-19″	Add 25%
20″-27″	Add 30%
28″-36″	Add 50%

COM Yardage Requirements

Procedure

To determine if a COM fabric has been approved for use on Haworth product, contact the Haworth Inquiry Center (1.800.426.8562), your local Haworth dealer, or go to Haworth.com/surfaces > COM Library. Haworth will calculate and order fabric unless instructed otherwise. If the dealer is to provide the fabric, they will calculate the yardage needed themselves.

If the fabric is approved, and the directional orientation (directional rightway, directional railroad, or non-directional) of the tested fabric has been confirmed, then refer to the appropriate price page for yardage requirements.

COM Fabric Requirements

The fabric yardage requirements for COMs given for each model are in lineal yards and are based on 54″(1372mm) usable fabric widths. Approximate yardage requirements are shown for each model within the price pages.

For fabrics already approved, with a COM order entry code assigned, Haworth will determine and purchase the yardage needed. If the fabric will be provided by the dealer, and the pattern has a large repeat or stripes, additional yardage will be needed; see the COM Yardage Requirements at the end of this price guide OR contact the COM Department for more information.

COL Leather Requirements

The leather requirements for COL (Customer's Own Leather) will vary depending on the hide size and are based on square footage. Haworth will determine and purchase the leather needed.

Find total number of linear yards required for the order. Add the appropriate percentage shown below to the total yardage to accommodate fabric flaws, wrinkles and other imperfections.

Up to 500 yards	Add 10%
501 to 1000 yards	Add 5%
More than 1000 yards	Add 3%

North American Terms of Sale

These Terms of Sale are part of a quotation, bid response, or other sales document issued by Haworth, Inc., Haworth, Ltd. ("Haworth").

These Terms of Sale do not cover products manufactured in North America shipping to non-North American countries nor do they cover products manufactured in non-North American countries shipping to North America. For those terms of sale, please contact Haworth's Global Trade and Compliance Department at 616.393.3000 or through Haworth.com.

A. Ordering Information

Haworth sells its products on the terms set forth in these standard Terms of Sale:

ORDERS MUST BE SUBMITTED IN WRITING OR ELECTRONICALLY (OrderLine) AS REPRESENTED BY A VALID PURCHASE ORDER, WHICH INCLUDES PRODUCT TOTAL.

An order is not binding upon Haworth until Haworth issues an order acknowledgment to the customer (the "Customer"), which will include price information and an anticipated shipping date.

1. Order Changes/Cancellations

For Specials, Customer's Own Material (C.O.M.), finish matches, custom colors, custom products, Master lock and key orders, and RUSH orders, no changes or cancellations are allowed 24 hours after order placement. Standard lock orders (key schedules) cannot be changed if they fall within 2 weeks of the acknowledged ship date. All other products require approval for changes or cancellations. A change/cancellation fee may apply. Contact Order Services for applicable charges.

Ship-to addresses changed within five (5) business days of shipment will incur fees to cover administrative costs due to re-labeling of product and/or reconsignment fees with the carrier.

Order cancellations are complete annulments of orders. Order changes are the deletion of line items or a change in size, color, quantity, ship-to address, or scope of work. There is no penalty for additions; however, any change may cause the order or the line items affected to be rescheduled. Order changes involving additional product and services which increase the value must be accompanied by an amended Purchase Order or other document as agreed.

ALL CHANGES MUST BE IN WRITING, REGARDLESS OF THE (DOLLAR) VALUE. CHANGES ARE NOT BINDING UPON HAWORTH UNTIL HAWORTH ISSUES AN ACKNOWLEDGMENT OF THE CHANGE.

2. C.O.M. (Customer's Own Material)

A Customer who requests a fabric, surface or finish material (C.O.M.) not in Haworth's standard finish offering must first confirm approval of or request new approval for the C.O.M.

Haworth will determine feasibility of the material for manufacturability. For a description of the procedure to submit C.O.M. samples, contact Haworth's Order Services department. For testing information, see the C.O.M. section of the catalog, or call Haworth Order Services.

If Haworth agrees to use the C.O.M., (1) Haworth shall have no responsibility for the condition, quality, value, performance, physical properties, or any other aspect of the C.O.M.; and (2) Haworth shall have no liability for any damages, injuries, or losses to the Customer or to any third party that shall be caused by any C.O.M., and the Customer shall hold Haworth harmless for all such liability.

3. Valid/Complete Purchase Order

The following information is required in order to process an order with Haworth:

a. Customer Information

i. **Sold To:** Legal name, complete address (if Haworth is to bill the end user, provide end user Purchase Order made out to Haworth, Inc., Haworth, Ltd.) and phone and fax number.

ii. **Ship To:** Legal name and address.

iii. **Purchase Order Number:** From the party Haworth will be billing.

iv. **Authorized Signature:** All Purchase Orders must be signed by a duly authorized representative if a signature line is present. Electronically transmitted Purchase Orders will be accepted without a signature if dealer billed and the dealer has an electronic purchase payment agreement on file.

v. **Contact Name and Phone Number:** Person Haworth should contact with any questions regarding the order.

vi. **Shipping Contact:** Name and phone number of person to be contacted regarding shipping and delivery matters.

vii. **Tagging Instructions:** This information will appear on all documentation received from Haworth including: cartons, acknowledgments, and invoices. Normally 1 tag is allowed per $8,000.

viii. **Price Agreement or National Sales Agreement Number**

ix. **Product Total:** Net dollars.

x. **Installation, Design, Project Management, and/or Service Fees**

b. Product Information

i. **Quantity**

ii. **Product Numbers**

iii. **Colors**

iv. **Specials:** Specify Inquiry and line number for new special products.

v. **Customer's Own Material:** Order entry code, manufacturer, pattern, color, and who is ordering the C.O.M. fabric (Haworth, dealer or the Customer).

vi. **Approval Drawings:** An authorized signature by a duly authorized representative is required for shop drawings when applicable.

vii. A deposit may be required for custom materials.

c. Order Confirmation

All orders will be acknowledged.

B. Pricing Policies

1. Terms of Payment

Terms of payment and credit limits will be established based on financial information. Standard payment terms on open credit are net thirty (30) days from invoice date. Advance payments or other payment security may be required by Haworth. The account balance must be at or below the credit limit and current at all times (no past-due balances). Haworth reserves the right to delay or cancel any shipment to a Customer whose Haworth account balance is over the credit limit and/or past due. For walls and floors a deposit will be required.

2. Terms of Credit

Customer hereby authorizes Haworth to obtain such credit reports, financial information or other information as Haworth may request, including, without limitation, credit information from any financial institutions or others having a business relationship with the Customer. Customer hereby authorizes any credit references to answer Haworth's inquiries and provide such credit information and documentation as Haworth may request.

The Customer hereby releases and holds Haworth harmless for any inconvenience whatsoever, caused by any temporary or permanent withdrawal or restriction of credit privileges hereunder, or the enforcement of any of the provisions contained in this paragraph.

3. Past-Due Charges

Past-due balances will be increased by a maximum of 1.5% per month, or 18% annually, without forfeit of Haworth's right to immediate payment.

4. Applicable Prices

Prices and discounts are subject to change without notice or approval. In the event of an adjustment to pricing, National Sales Agreement (NSA) Customers will be notified in advance according to the terms of the NSA.

Applicable prices are those in effect at the time of the RECEIPT of an order; Haworth reserves the right to use the published pricing effective at the time of shipment, if the requested shipping date is more than 120 days after the order receipt date.

North American Terms of Sale

The price of any product sold to Customer by Haworth will be based upon the price for the products as follows:

Destination	Price List ("Catalog")
U.S.A.	U.S.A.
Canada	Canadian
Mexico	U.S.A.

5. C.O.M. (Customer's Own Material) Charges

Refer to appropriate Customer's Own Material (C.O.M.) form for applicable surface material charges.

6. Taxes

a. U.S.A.: Haworth prices do not include any sales, use or similar taxes. The Customer is responsible to remit directly to Haworth all such taxes when invoiced.

b. Canada: Prices listed in the Canadian catalogs include applicable customs duty. Prices do not include the Federal Goods and Services Tax or any provincial or other sales taxes. Any federal, provincial or other taxes or assessments based upon the sale or shipment of products or services sold applicable to the Customer at present or later imposed by federal, provincial or municipal agencies, shall be added and paid by the Customer.

c. Mexico: Prices listed in the U.S.A. catalogs do not include customs duty, value added or any other tax with respect to the sale, use, ownership, or value of any product or service provided by Haworth. Customer is responsible for all such taxes.

NOTE: For all countries a valid sales tax exemption certificate must be approved by and on file with Haworth prior to product shipment. Otherwise, sales tax will be due and payable to Haworth when such tax is invoiced to Customer.

7. Services

If, as a result of Customer request, the Haworth dealer or Haworth subsidiary provides planning/design services, storage, project management, special handling, set-up, installation and/or other services, the Customer will be charged at the local Haworth dealer/subsidiary's prevailing rates.

8. Termination by Haworth

Haworth may immediately terminate an order upon written notice in the event bankruptcy or insolvency proceedings are instituted by or against the Customer, or the Customer is adjudicated as bankrupt, becomes insolvent, makes an assignment for the benefit of creditors, or proposes or makes any arrangements for the liquidation of its debts, or a receiver or receiver and manager is appointed with respect to all or any part of the assets of the Customer.

C. Shipping and Delivery

Haworth will have the right to determine the method of shipment and routing of product.

This section does not apply to Haworth's TecCrete or TecFlor products. TecCrete and TecFlor are sold freight collect.

If, for any reason, a delivery has to be made to an intermediate location (i.e. a location other than the "Ship To" location noted on the order or ultimate end user location), all handling and re-delivery costs incurred would be at the Customer's expense.

1. U.S.A. - Contiguous

All deliveries will be CPT (Carriage Paid To) (ICC Incoterms 2010) Haworth's manufacturing facilities or distribution centers. Freight charges will be prepaid by Haworth on all orders to locations within the continental United States. Customer bears all risk of loss or damage to the goods when they are placed on Haworth's means of transport.

2. U.S.A. - Non-contiguous (Alaska, Hawaii and Puerto Rico)

All deliveries will be CIF (Cost, Insurance and Freight) (ICC Incoterms 2010). Haworth's catalog prices include ocean freight and insurance to the port of the final destination. Haworth has the right to determine the carrier, method of shipment and routing. Haworth will contract with the insurer and provide minimal insurance coverage (CIF @ 110%) made payable to the Customer. Customer is responsible to obtain greater insurance if so desired.

Customer bears all risk of loss or damage to the goods when the goods are effectively at the disposal of the Customer on board the vessel at the named port of destination. Proof of delivery is a clean on board bill of lading. Customer will be responsible for all on-carriage from the receiving port to the final destination.

3. Canada

All deliveries will be DDP (Delivered Duty Paid) (ICC Incoterms 2010). Haworth's catalog prices include delivery to Customer's named place, not unloaded from any arriving means of transport. Customer bears all risk of loss or damage to the goods when they are delivered to the Customer's named facility not unloaded. Haworth will assume responsibility to file all freight claims with the carrier for any loss/damage which may occur while product is in transit, and will promptly repair or replace any damaged or lost product. Haworth requires the Customer to report all freight damage and/or loss to both the carrier and to Haworth.

NOTE: Under all shipping terms (U.S.A. and Canada), any additional expense resulting from Customer's request for expedited transportation, special services, packaging, handling, routing, and/or shipping method will be billed to Customer.

4. Mexico

All deliveries will be DAP (Delivered to Place) (ICC Incoterms 2010). Haworth's catalog prices include freight charges for normal surface transportation to a United States point of exportation within the 48 contiguous states. Haworth has the right to determine the carrier, method of shipment and routing.

Customer bears all risk of loss or damage to the goods when the goods are delivered to the named United States point of exportation. Haworth will provide customs clearance facilitation and arrangement of local delivery through an Authorized Dealer in Mexico, on a separately negotiated basis. Otherwise the Customer will be responsible for all customs clearance formalities and on-carriage from the United States point of exportation to the final destination in Mexico.

5. Ship Dates and Delay

If Haworth cannot ship products as scheduled due to causes beyond its reasonable control (such as casualty, labor disputes, or accident; inability to obtain necessary labor, material or transportation; or changes requested by the Customer), the ship date will be extended to compensate for the delay as determined by Haworth.

6. Delivery Shortages and Damage

Product shortages and damage must be noted on delivery receipts at the time of delivery and reported to the carrier for correction.

Claims against Haworth for shortages, errors, or damage must be made within three (3) days of the date of delivery or the Customer waives the right to make such a claim. Signed Bill of Ladings or Delivery Receipt must be sent in with claims.

7. Storage

Haworth may transfer product to storage at the Customer's risk and expense if the Customer is unable or unwilling to take delivery of product as originally scheduled. Upon such transfer to storage, the Customer assumes risk of loss. Haworth will invoice the Customer for storage fees and the Customer will make payments in accordance with Haworth's standard payment terms.

North American Terms of Sale

D. General Terms

1. Governing Law

For products purchased for delivery in the U.S. pursuant hereto, this Agreement shall be governed by and construed according to the laws of the State of Michigan. Where Products are purchased for delivery in Canada pursuant hereto, this Agreement shall be governed by and construed according to the laws of the Province of Alberta. In either case, the parties attorn to the exclusive jurisdiction of the courts of Michigan and Alberta, respectively for the purpose of hearing any disputes arising under this Agreement or with respect to any Products sold pursuant hereto, and agree that the provisions of the United Nations Convention on Contracts for the International Sale of Goods and any other provision or law which would have the effect of applying the laws of any jurisdiction other than Michigan or Alberta, as the case may be, shall be excluded.

2. Force Majeure

In the event that the performance of Customer or Haworth or its participating dealer assignee(s) would be prevented, restricted, interfered with or rendered commercially impracticable by reason of Force Majeure, then upon the giving of notice to the other parties, the party affected by the Force Majeure shall be excused from performing hereunder until the Force Majeure no longer prevents, restricts, interferes with, or renders such performance commercially impracticable.

"Force Majeure" shall mean: fire, explosion, breakdown of plant, epidemic, hailstorm, snow/ice storms en route, hurricane, tornado, cyclone, flood or power failure; war, revolution, civil or military disturbances, acts of public enemies, acts of terrorism, blockade or embargo; any law, order, proclamation, regulation, ordinance, demand or requirement of any applicable governmental authority or any subdivision, authority, or representative of any such government; labor difficulties, including without limitation, strikes, slowdowns, picketing or boycotts; or difficulties beyond Haworth's reasonable control in obtaining necessary raw materials, labor, fuels and electric power, components or facilities, and any other circumstances beyond the control of the party affected.

3. Delays by Customer

Where Haworth has not received adequate site dimensions, Product specifications, shipping information, installation particulars or other information required by Haworth to permit the efficient manufacture of any Products, or where site conditions are not in accordance with the Installation Requirements set forth, or are not otherwise suitable to permit effective and efficient installation, the manufacture and/or delivery of Products may be delayed, and such event shall constitute a delay by the Customer. When manufacture, delivery or installation is delayed by the Customer or at the Customer's request: (i) Haworth may, at its option, present the invoice for the full price of the Products to the Customer as then due and payable; (ii) the Customer shall pay to Haworth all reasonable storage, handling and other reasonable incidental expenses incurred by Haworth in connection with such delay; and (iii) the Customer shall bear all risk of loss or damage to the Products being held by Haworth for the Customer.

4. Use and Installation of Products

Haworth recommends that its products be installed by certified, qualified and approved installers according to Haworth's written installation procedures. The Customer agrees to use Haworth products properly; not to remove or alter safety devices, warnings, or operation instructions placed on products by Haworth, and to instruct employees as to the proper care and use of the products according to printed instructions.

5. Warranty

Haworth's standard North American Lifetime Warranty will apply as appropriate. All product line warranty specifics are available in each catalog or upon request.

E. Services

Service requests for design, installation, relocation, storage, etc. are handled by the local Haworth dealer on a separately negotiated basis. Contact the local Haworth dealer, affiliate or area sales office for more details.

Scope of Work - Design

Customer acknowledges that the Products to be manufactured or procured by Haworth in connection with the order are or may be custom manufactured for the Customer and that Haworth may be required to perform extensive work in relation to the design and specification of such Products. Where Customer requests that Haworth create as-built drawings or make more than two material revisions to any particular Product design or specification, Customer agrees that Haworth shall be entitled to invoice Customer with respect to such additional work on the basis of Haworth's then prevailing rates for related design and specification services.

Installation Requirements

Where installation services are to be provided by Haworth, its Authorized Dealer or subcontractor, a document will be provided setting forth the scope of installation work to be performed (the "Scope of Work") and the price to be charged therefore. Unless otherwise specified in the scope of work, Haworth's installation services are limited to products sold by Haworth with the exception of lighting, under floor electrical and data.

General Conditions

(a) Sufficient time shall be allocated by the Customer following delivery of Products and prior to Customer's occupation of the premises to allow the installation of all Products during conventional working hours, Monday through Friday, 7:30 a.m. to 4:30 p.m. Where sufficient time is not allocated and Haworth is required or requested to perform installation work outside of such times, overtime charges shall be charged at Haworth's then prevailing rates. (b) Haworth shall be given free and exclusive access to; (i) a loading dock within 150′ of the freight elevator or hoist, which loading dock shall be of sufficient size to enable full-size tractor-trailer deliveries to the premises (where required by Haworth); (ii) a freight elevator or hoist of sufficient size and capacity to allow the efficient movement of the Products; (iii) an unobstructed and safe pathway to the area where Products are to be stored or staged; (iv) a secure storage / staging area; (v) convenient trash facilities; (vi) adequate lighting; (vii) a work site that complies with applicable health and safety legislation. Where such areas and facilities are not available, Haworth shall be entitled to bill Customer for all amounts incurred by Haworth for double-handling, product movement, lifting, hoisting, trash removal and any other resulting charges. (c) The installation site shall be free and clear of existing furniture, debris, or other obstructions (including construction in progress) and shall otherwise be in the reasonable opinion of Haworth ready for installation of the Products. Any building where Products are to be installed shall be fully closed in, dry and protected from the natural elements, with temperatures between 40°F and 90°F (4°C and 32°C) and relative humidity not to exceed 70% at all times including receipt of products, during and after installation and shall be adequately heated and/or air-conditioned. Where unusual site conditions exist which impede or prevent the normal installation of any Products, applicable extra charges shall apply at prevailing rates. (d) Haworth's installation pricing is based upon the installation occurring as one continuous delivery and installation project. Phased installation pricing shall be provided by Haworth on a case by case basis. (e) Electrical hardwiring, plumbing and mechanical work is not included and shall be the responsibility of the Customer. (f) Except as may be otherwise specifically indicated, installation pricing does not apply to projects where union labor is required. Where Haworth has provided installation pricing on the basis that non-union labor be utilized, and where Haworth is required to use union labor or it otherwise becomes impractical to use non-union labor, or where Haworth is required by law to use prevailing wages, Haworth shall be entitled to charge the Customer for any cost differential between the anticipated cost of non-union labor and the actual cost of utilizing union or prevailing wage labor. (g) Haworth shall not be responsible for obtaining permits.

North American Terms of Sale

Project / Site Conditions

Lateral load bracing is not included in the scope of Haworth's work and shall not be performed by Haworth. In areas where Nexus™ or TecCrete flooring Products are to be installed by Haworth overhead construction must be completed prior to the commencement of such work to avoid damage to the panels and finishes. The existing subfloor must be smooth, mopped clean, free of moisture, dust, dirt and debris. Once installed, the access floor must be maintained in the same manner. The subfloor must have a maximum vertical elevation deviation of 0.375″ (10mm) over a horizontal span of 10′-0″ (3m), and without discontinuities in floor slope. For greater certainty, the scope of Haworth's installation work in such areas shall not be deemed to include any work required to level such subfloor, remove protrusions, remove pre-existing floor coverings or adhesives, or any other work which is required to remedy any conditions which may impede the efficient installation of Nexus™ flooring. Except as may be otherwise specifically indicated in the order, installation pricing for Nexus™ flooring Products and the Scope of Work in relation thereto shall not include any work required to remove and replace floor panels following their initial installation to provide tradespersons or others with access to the underpanel cable management cavity. In areas where movable walls are to be installed, all flooring (including carpeting) and ceiling components (including dropped ceiling grid components) shall be fully complete and ready for the installation of the movable wall products. Further, the existing floor (or other surface on which the movable wall panels are to be installed) shall have a maximum vertical deviation of 1.25″ (30mm) and the dropped ceiling grid shall have a maximum vertical deviation of 0.375″ (10mm) from the specifications to which such movable wall panels were designed and manufactured (collectively the "Permitted Tolerances"), and shall otherwise comply with any site condition assumptions made known to Haworth prior to the manufacture of such Products (the "Site Assumptions"). Where the Permitted Tolerances or Site Assumptions are not strictly adhered to or met, additional charges may be incurred in connection with site remediation and/or the modification or remanufacture of affected movable wall products, together with all resulting shipping and labor charges at Haworth's then prevailing rates for such Products and services.

Installation Change Orders

Where Customer requests work to be performed or materials to be provided which are not contemplated in the Scope of Work, or Customer otherwise requests Products or services not contemplated in the order (collectively "Extras"), prior to providing such Extras Haworth reserves the right to require the Customer to provide and sign a written Purchase Order or Change Order acceptable to Haworth describing the Extras and the amounts to be charged therefore, and the Customer agrees to pay such charges.

Entire Agreement

The order and this Agreement (including applicable Schedules) constitute the sole agreement between the parties and supercede any prior understanding or written or oral agreements between the parties (excluding National Sales Agreements). No waiver of any of the provisions of these Standard Terms and Conditions shall be binding on Haworth unless expressly agreed in writing.

PRODUCT NON-OBSOLESCENCE AND WARRANTY POLICY

This North American Haworth Product Non-Obsolescence and Warranty Policy (the "policy") applies to products manufactured after August 1, 2013. For products manufactured before this date please refer to the policy published in the NA Price List when purchased or contact your local Authorized Haworth Dealer*. All Haworth products are warranted for 24 hour / 7 day use over the length of the Applicable Warranty Period as set forth below.

Haworth, Inc. or Haworth, Ltd., (each called "Haworth") will make a good faith effort to maintain product compatibility within our various generations of integrated product platforms to provide our customers with spaces that adapt to change. Under our non-obsolescence policy, we commit to provide our customers with products of comparable function or operational characteristics for a term equal to the Applicable Warranty Period. Haworth fabrics and finishes must be updated periodically to maintain the market appeal of our products and respond to the demands and changing preferences of our customers. As a result, we or the manufacturer may discontinue some fabrics and finishes before expiration of the Applicable Warranty Period.

If a new product purchased or leased from Haworth or from an Authorized Haworth Dealer proves to be defective (as defined below) while the product is still in the possession of the initial purchaser or lessee and if they, within the Applicable Warranty Period, send notice of the defect to Haworth by electronic mail (customerservice@haworth.com), then, except as provided below, Haworth will, at Haworth's option, either repair or replace the product, at Haworth's expense, or refund the purchase price of the product. Except as provided below, a product shall be considered "defective" if Haworth finds that it is defective in material or workmanship and if the defect materially impairs the value of the product to the purchaser or lessee. The applicable warranty period begins on the day the product is manufactured. If a product that the purchaser or lessee references in a notice of defect was not installed by a Haworth Certified installer and/or reconfigured by a Haworth-trained installer, then the product may not be considered defective and Haworth will not be obligated to repair or replace it or to refund its price.

PRODUCTS / APPLICABLE WARRANTY PERIOD

LIFETIME

All Haworth products are warranted for lifetime *except products, components and materials described below:*

TWELVE YEARS

All Haworth NA manufactured seating is warranted for 24/7 multiple shift use by persons up to 325 lbs and includes the framework, mechanisms, seating foam, seat & back mesh and seating glides & casters.

All wood or wood framed products.

TEN YEARS

All wall products (excluding soft close door mechanisms warranted for Two Years), electrical components (excluding Power Base™ AI and workware products), electrical accessories, fixed task lighting (excluding LED lighting), adjustable keyboard pads, monitor arms and products that are at any time used in a classroom or educational environment (other than administration areas) *except as limited or described below:*

FIVE YEARS

Fabric scrims and fabrics rated Heavy Duty (A) under the Association of Contract Textiles Guidelines, leather, vertical use markerboard laminates, user-adjustable worksurface mechanisms, gel arm caps, thermofused laminates, slow close mechanisms, LED lighting, electronic ballasts used in task lighting, horizontal glass or thermoplastic table assemblies and Systems Accessories.

THREE YEARS

workware™ products, Hoop products (excludes any warranty for surface damage such as scratches, dents or abrasions), plastic ultraviolet light color fastness and fabrics rated General Contract (a) under the Association of Contract Textiles Guidelines.

ONE TO FIVE YEARS**

Products that are manufactured outside North America and sold into the North American market.

ONE YEAR

Horizontal use markerboard laminate, soft palm rest, mouse pad insert and translucent edging.

Each Haworth "specials" product will be warranted for the same applicable warranty period of the comparable catalogue product unless otherwise stated on the specials solutions department inquiry response.

All software is without warranty of any kind, either expressed or implied.

All service parts are warranted for two years or the remaining balance of the assembly's original warranty period, whichever is longer.

*An Authorized Haworth Dealer is any dealer or retailer that sells and installs within their primary contracted area and/or under the DealerLink Program Agreement.

**The Applicable Warranty Period for each such product is specified in Haworth's price list for the product.

A product will not be considered to be defective, and Haworth will not repair, or replace it or refund its price if the product (1) is a consumable product, such as a lamp; (2) is "Customer's Own Material" (i.e. material specified by the purchaser or lessee that is not a standard Haworth product offering, such as Haworth Alliance fabrics); (3) is not installed and used as recommended in Haworth's written specification, installation and user guides; (4) has been otherwise misused or suffered abusive damage or (5) is a product that is manufactured by a third-party supplier from whom Haworth purchases it for resale without incorporating it into Haworth product (in which case Haworth will assign to the purchaser or lessee any warranty that the manufacturer provides), unless otherwise specified by Haworth in writing.

A defect in material or workmanship does not include damage to a product, or failure of a product to operate or perform properly or to maintain appearance, caused by (a) normal wear and tear; (b) an Act of God or transportation; (c) a product alteration made without Haworth's express written authorization; (d) the natural variation of color, grain or texture found in wood and leather; (e) the natural aging found in materials such as wood, fabric and leather which results in colors shifting during use; (f) dye lot variations in fabric, leather or wall covering (g) the natural patina of leather during use; (h) "puddling" of leather or faux leather; or (i) reverse crocking of dyes from clothing onto our seating materials.

EXCEPT AS STATED ABOVE, HAWORTH DOES NOT MAKE A WARRANTY AS TO ANY PRODUCT AND, IN PARTICULAR, DOES NOT MAKE A WARRANTY OF MERCHANTABILITY OR OF FITNESS FOR A PARTICULAR PURPOSE. Product repair or replacement or refund of the price, at Haworth's option, in accordance with this Policy, is the purchaser's or lessee's exclusive remedy for a product defect. Haworth shall not have tort liability with respect to a product, and Haworth shall not be liable for any consequential, economic, indirect, special, punitive or incidental damages arising from a product defect. Haworth shall not be liable for repair or product placement due to improper installation or any defect in materials used for installation which are not manufactured, sold or supplied by Haworth.
