Introduction

A Note on the Organization of This Book

There are a few signals that will help you understand the organization of this book. Once you know them, you should be able to find your way around easily.

Like a newspaper, this book is formatted with columns of text and illustrations that run vertically.

Information wraps from one column to the next and continues for as many pages as it needs to.

Black bars are clues.

A black bar at the top of a page signals the start of information about a product.

This information is divided into two sections, each signaled by a black bar. Product Information includes a description, additional notes, and dimensional drawings. Specification Information, which always begins at the top of a column, includes a series of steps. Each step represents a decision you need to make in order to complete your product number. Steps must be followed sequentially. The number of pages needed to complete information on a product varies; some will be complete in one page; others may fill three or four pages. Just continue going through the steps until you run into the next product, signaled by the black bar at the top of the page.

Black tabs running along the outside edge of the page help you locate what section you are in or what section you want to go to. You can thumb forwards or backwards to find a section; tabs and text appear on both sides of the page.

The additional pages in the back of the book include the appendices and indices. They are signaled by a long black bar running along the outside edge of the page.

The index is presented two ways.

The first index is in alphabetical order by product name. It can be helpful if you are new to the products and numbering scheme or if you are looking for a type of product, such as work chair or round table.
The second index is by product number. It lists, in alphanumeric order, the base product number, typically a five-digit number.

General Information

This book is effective February 2, 2015, subject to change without notice. Products may be purchased from authorized Herman Miller dealers who will quote prices upon request. For more information about our products and services or to see a list of dealers, visit www.HermanMiller.com.

All prices are list prices. Additional services, such as planning services, design, storage, and installation, are not included and must be added to these prices when the additional services are requested.

Illustrations, specifications, and prices are based on the latest information at the time of publication. The right is reserved to make changes at any time without notice in prices, fabrics, finishes, materials, specifications, and models, and also to discontinue models and finishes.

Dimensions shown in the drawings are engineering drawing dimensions rounded up to the nearest 1/8". Product is shipped set up or knocked down. Products that include "Shipped knocked down" in the description require some assembly. If this statement does not appear in the description, the product is shipped assembled.

Service problems are normally handled by a Herman Miller authorized dealer. Where this cannot be accomplished on a local level, service problems should be referred to the Customer Care Representative for your region, Herman Miller, Inc., Zeeland, Michigan 49464.

20-Day or Less/Assigned Lead-Time Shipments

All products and options in this price book not designated by an Assigned Program icon [A] will ship in **20 business days or less** after being acknowledged by Herman Miller.

Products and options designated by an [A] are on the assigned lead-time program and may ship in 20 days, less than 20 days, or more than 20 days from order acknowledgement.

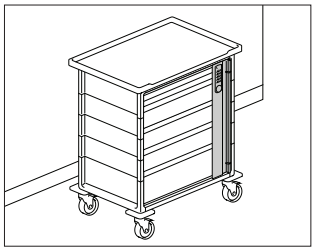
Lock Bar

CT621.
CT710.



Product Information

Description

This bar prevents unauthorized access to drawers or cassette bins within a 36"- or 42"-high cart. It offers multiple security and access options and re-locks automatically when closed. The basic keyless entry option allows access using a single programmable code that can be changed by a supervisor. Uses 2 AAA batteries (included).

Notes

Keyless entry options have a sleep mode to provide tamper protection when several incorrect codes are entered.

Keyless entry options have a 9-volt battery "jump" capability and a keyed back-up.

For general information on locks, see Keyed-Alike Information in Appendices.

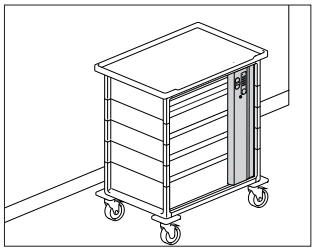
Lock Bar CT630.



Product Information

Description

This bar prevents unauthorized access to drawers or cassette bins within a 36"- or 42"-high cart. It offers multiple security and access options and re-locks automatically when closed. It includes an alarm that is supervisor programmable and signifies when the cart is not secure. A sleep mode provides tamper protection when several incorrect codes are entered. Features to overcome low power include a 9-volt battery "jump" capability and a keyed back-up. Uses 6 "C" batteries (included), and has a low battery alert. The proximity version allows up to 250 codes in any combination of "user" and "supervisor." The deluxe version allows up to 89 "user" codes and 11 "supervisor" codes. The proximity version allows access by placing proximity access component near keypad.

Notes

A wide range of capabilities can be utilized with the proximity version when used with the proximity lock bar software kit (CT631.), sold separately.

Proximity reader will read most low frequency HID Prox Cards (125 kHz). The use of a card other than Herman Miller's should be verified. For proximity reader, specify proximity access (CT623. or CT624.), sold separately.

For general information on locks, see Keyed-Alike Information in Appendices.

Lock Bar Software Kit CT631.

Product Information

Description

This software kit is used with the lock bar, proximity reader (CT630.P). The software is used to create and manage a database and establish settings which are downloaded into the individual lock bars. Kit includes the Windows based software on a CD and a USB cable to connect a computer to the keypad of the lock bar.

Software allows administrators to add or delete PIN codes, name individual carts and set up unique settings for each one. An audit report can be printed that indicates which user attempted entry and the date and time of attempt. Administrators can set up users for access based on times or days.

Instructions for use and interfacing with the lock bars are included in a PDF file within the software.

20-Day or Less/Assigned Lead-Time Order Information — Healthcare

20-Day or Less/Assigned Lead-Time Programs

20-day or less and assigned lead-time products are designed for established Herman Miller dealers with pre-approved credit.

Products are distributed from multiple manufacturing facilities across the United States. All products and options not designated by an Assigned Lead-Time icon [A] will ship in 20 business days or less after being acknowledged by Herman Miller. Products and options designated by an [A] are on the assigned lead-time program and will ship in 20 days, less than 20 days, or more than 20 days from order acknowledgement.

Ordering Procedure

Please place orders through Order Manager. If this is not available to you, place orders through mail or fax. Verbal purchase orders will not be accepted.

Order Entry fax number: (616) 654 3085.

For more information, contact your Customer Care representative at: (866) 854 3048 EXT 3400

Packaging/Keyed-Alike Information — Procedure/Supply Carts

Packaging

Packaging varies according to individual product. A surcharge may be added for special packaging requests. Contact Customer Care for specific information.

Keyed-Alike Locks

All components with locks may be specified keyed alike. Products with keyed-alike locks will be shipped with lock plugs installed. Procedure/supply carts have Medeco locks.

To order keyed-alike locks:

1. Choose keyed-alike product number.
2. Specify a key number if desired (01 through 99). If no key number is specified, one will be selected for you.
3. Specify the quantity of each kind of component to be keyed-alike.

To remove lock plugs from existing components, loosen the hex nut inside the product and remove the plug.

Customers interested in ordering master keys for procedure/supply carts products should contact their local authorized dealer with a written request.

For more information about our products and services or to see a list of dealers, please visit us at HermanMiller.com or call (800) 851 1196.
