

Lloyd Stools

The Lloyd Stool stands out among its contemporaries for its round back, which, in multiples, creates a wave effect. The base, in counter or bar height, arcs from the front legs to join in the back. The stool is remarkable versatile, depending on fabric and finish choices and application, from traditional brown leather upholstery on a bronze-finish base to an energetic neon fabric on a polished stainless steel base.

Specifications

A seat of 2-inch-thick multi-density polyurethane foam is affixed to a base of stainless steel with nylon glides.
