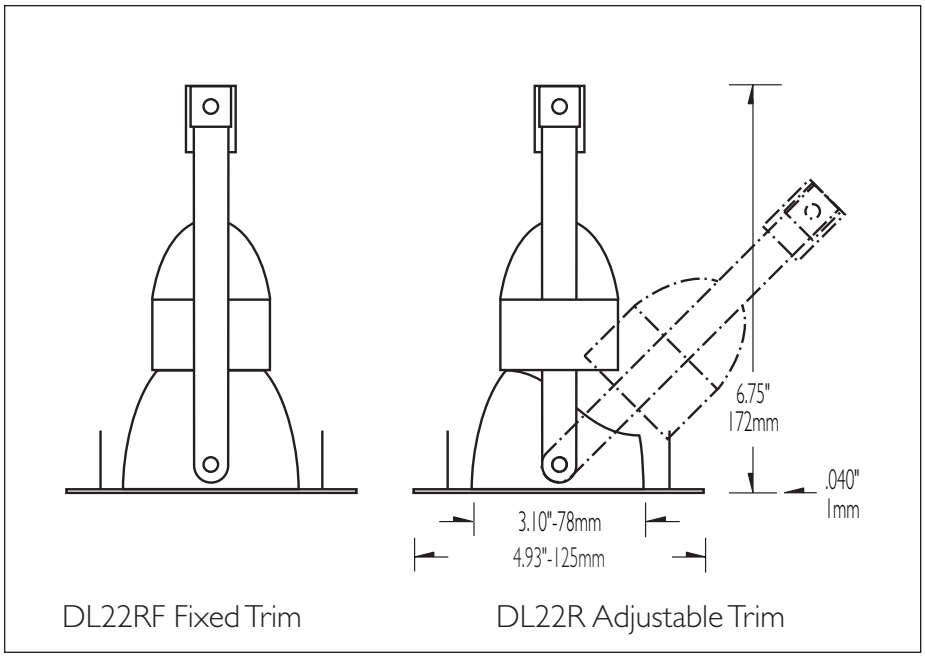
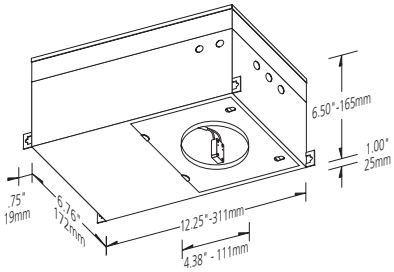
* *Specify* **AR**-*Clear Specular Aluminum Reflector or* **BR**-*Black Alzak Reflector. Consult factory regarding availability of* **GR**-*Gold Reflector.*



DL22RF Fixed Trim

DL22R Adjustable Trim



DHH HOUSING

GENERAL DESCRIPTION

Downlight trim is recessed **line voltage** fixture with deep conical reflector and sheer trim face with no return. Fixture has round opening with deeply recessed lamp which may be specified as fixed (DL22RF), or adjustable (DL22R), 45° from vertical. This downlight trim is for use in straight and true ceiling conditions which require fine finish out. When these conditions are met, the trim profile is almost invisible against the ceiling plane. **Fixture uses halogen Par 16, R-16, Par 20 or R-20 lamps (50w maximum).** Companion recessed housing model DHH is for use in accessible and non-accessible, non-insulated ceilings. Steel hanging bars and brackets are included with housing.

MATERIAL

Fixture housing and downlight trim are steel fabricated. Conical reflector is aluminum. Housing provided with steel trim cover which secures to enclosure by tabs and screws.

OPTIONS

Both fixture models accept up to two optional effects devices, including clear glass lens (CGL-4), frosted glass lens (FGL-4), spread glass lens (SGL-4), and honeycomb louver (HCL-4). Specify reflector finish as elaborated above.

LABEL

U.L. Listed trim and housings for dry and damp, non-IC locations. File No. E115025.

ELECTRICAL

Housing is pre-wired for use exclusively with Lucifer recessed downlight trim models DL22RF and DL22R. Minimum 90°C supply wiring required. DHH/DL22 Series housing/trim fixture operates on line voltage (120v AC).

LAMP

120v halogen PAR 16, R-16, PAR 20, R-20 lamp (50w maximum). (Order separately)

ENERGY CONSERVATION

Manufacturer recommends use of Osram Sylvania's energy saving 37w Tru-Aim® IR halogen lamps which convert more energy into light than conventional 50w MR-16 lamps. Tru-Aim® IR halogen lamps can be ordered from Lucifer Lighting for use in fixture. See luciferlighting.com for lamp specification guide.

WARRANTY

Manufacturer's one year warranty of product is conditioned on use of manufacturer supplied transformers.
