

20/20 Series

A low-profile undercabinet light with a sophisticated reflector system designed to provide an asymmetric distribution of light.

TECHNICAL INFORMATION

The 20/20 task light is a low-profile undercabinet light with a sophisticated reflector system designed to provide an asymmetric distribution of light. With the optional asymmetric louver, the 20/20 provides glare-free and shadow-free illumination on the worksurface. A swivel mechanism allows 325 degree rotation once mounted.

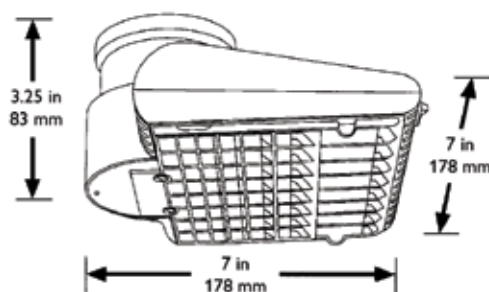

Light source: 18W quad compact fluorescent 4-pin (optional)

Ballast: Electronic HPF class P electronic ballast (18W)

Finish: Matte black powder paint

Switch: In front of unit

Mounting options: Magnetic Mount (MAG)
Wall or Panel Bracket (WPB)
