SUMMARY DISCLOSURE

The content of this product was assessed for health hazard warnings as required using Pharos

Residuals Disclosure Full Disclosure of Intentional Ingredients Full Disclosure of Known Hazards Disclosure Notes
As per MSDS (1,000 & 10,000 ppm) This HPD was prepared using a 1,000 ppm threshold.

Contents in Descending Order of Quantity

LIMESTONE; CALCIUM CARBONATE , STYRENE BUTADIENE RUBBER (SBR) , WATER

Hazards Highest concern GreenScreen score - List Translator Unspecified
PBT (Persistent Bioaccumulative Toxic) Development Reproductive Endocrine Respiratory
Cancer Gene Mutation Neurotoxicity Land toxicity Multiple Unknown
Mammal Physical hazard Global warming
Skin or Eye Aquatic toxicity Ozone depletion

Total VOC Content Material (g/L) Regulatory (g/L) 0.00
Does the product contain exempt VOCs? Are there VOC-free tints available?

Notes

Certifications + Compliance

VOC Emissions CA Section 01350 (CHPS) Emission Test - CDPH/EHLB Standard Method V1.1 - VOC Content Not tested

The HPD Standard is solely a declaration of product content and direct health hazards associated with exposure to its individual contents. It is not a full assessment of environmental impacts from the life cycle of this product. It is not an assessment of risks associated with actual use of the product. It does not address the potential health impacts of substances used or created during manufacture that do not appear in the final product as residuals, nor substances created during combustion or other degradation processes.

This Health Product Declaration was generated following the requirements of the noted Standard version and is valid for a total of three years after date of issue or three months after a substantive change of product contents occurs. Users should verify that this Health Product Declaration is compliant with the most current version of the HPD Standard. Accuracy of claims made in this Health Product Declaration is the sole responsibility of the listed manufacturer and certifier (if applicable). The HPD Collaborative does not warrant any claim made herein, explicit or implicit. The HPD Standard is an “open standard” developed and managed by the HPD Collaborative, a nonprofit organization. For more information, visit [hpdcollaborative.org](http://hpdcollaborative.org).

## CONTENT IN DESCENDING ORDER OF QUANTITY

All ingredients must be assessed for health warnings against Priority Hazard Lists, regardless of disclosure level.

Priority Hazard Lists and information on the GreenScreen Benchmarks can be found at [www.hpdcollaborative.org/hazardlists](http://www.hpdcollaborative.org/hazardlists).

**GS:** GreenScreen Benchmark; **RC:** Recycled Content, **PC:** Post Consumer, **PI:** Post Industrial (Pre-consumer), **BO:** Both; **Nano:** comprised of nanoscale particles or nanotechnology

Name	CAS RN	% weight	GS	RC	Nano	Role

Reinforcing Fabric (VOC 0.00 g/L)	N/A
MAPEI's Reinforcing Fabric is a ready-to-use, thin, flexible, alkali-resistant, nonwoven polyester fabric. Optional use with MAPEI's Mapelastix AquaDefense when installed under ceramic tile or stone on residential and commercial interior/exterior floors, walls and ceilings. Reinforcing Fabric is ideal for use over substrate areas that typically cause waterproofing problems such as cracks, coves, corners and areas around drains, and when used with Mapelastix AquaDefense. Reinforcing Fabric provides a durable, reliable barrier to water migration into adjacent areas. It can easily be cut to size with scissors or a razor knife, and has excellent compatibility with all MAPEI cement- or epoxy-based grouts and mortars.	

**NOTES**

This HPD was prepared using a 1,000 ppm threshold.
