Open Back | Walnut Shell

Salon seating is crafted with a bent plywood walnut shell that surrounds the open back. In order to maintain the natural wood appearance of the edge of the shell, a smoothing compound is added to fill the edges rather than applying a wood edge band. Variations in the transition of the wood finish from the edge to the shell itself are a natural part of the original design for this Salon lounge chair.

Due to design details of this product, fabric with horizontal and vertical lines or patterns may appear distorted when used on seating with significant curves. Mohair, velvet and other pile fabrics are not recommended for this product. A list of all HBF Textiles approved product is available upon request. All COM products being considered must be approved by HBF prior to placing the order; please send cutting for approval.
