● These frames are made of heavy gauge aluminum. Frame parts are formed to shape by automatic presses with specially designed dies to assure all parts are uniform. All parts are heliarc welded to provide better penetration and strength, then hand ground to ensure a smooth appearance. The finish is diamond bond and utilizes the latest technology in powder coat finishing. Sling fabric will stretch with use over time but this will not affect comfort or performance. This is not a defect and is not covered under warranty.

Winston Premium Collections are available in Select Finishes only shown on page 95. Refer to pages 76-79 for complete table offering and pages 91-92 for sling fabrics. Contact your sales representative for fabric selections and additional product information.
