

# Allsteel®

Workspace Solutions

## Designed for what matters.

Doing the job right. It's the principle that guides our approach to creating better workspaces. We take the time to listen and design our products to meet the demanding needs of tomorrow's business challenges. We study how people interact with their furniture and more importantly, each other. We explore, because even the smallest advancement can dramatically improve your office productivity, comfort, and quality.

It matters to you so it matters to us.

<b>Systems &amp; Tables</b>	4 – 17
<b>Collaboration</b>	18 – 19
<b>Storage &amp; Accessories</b>	20 – 25
<b>Seating</b>	26 – 29
<b>Movable Walls</b>	30 – 31

## Systems & Tables

**You'll find function and style  
everywhere you look.**

Functionality, flexibility, and style are built into every Allsteel systems product. They're thoughtfully designed to be easy to configure and install and to reconfigure and repurpose. So you'll always get the most out of your investment. We've covered every base, from training furniture to conference tables to solutions that enhance systems furniture.

## Stride®

**Keep pace with your environment.**

Stride offers great design for the environment, for a variety of workers, and for changing business needs. This comprehensive collection of surfaces, storage, and traditional and light-scale space division creates productive and inspiring workspaces that support different tasks and worker generations. A flexible kit-of-parts works together throughout the entire office to respond to changing needs, from traditional panel-based workstations and high-performance private offices to benching applications for collaborative teams or mobile workers. Stride was designed to incorporate the most sustainable practices at every step.

## Further™

### The freedom to plan for change.

Further provides an innovative, completely flexible approach to the work environment. The signature trapezoid worksurface can combine with rectangular and angled shapes for interesting and hardworking individual or collaborative workspaces. A unique power hub connects people to power in freestanding or connected arrangements. Glass or fabric screens and multiple storage options offer functional style that helps you adapt efficiently to meet tomorrow's needs.

## Terrace DNA®

### Building blocks for a better office.

Terrace DNA offers flexible space-planning solutions to create a variety of design applications and work environments for each worker and workstyle. This collection offers more aesthetic differentiation and increased design flexibility, from open, light-scale, collaborative worksettings with lower panel heights to more private spaces with higher panels. Load it up with storage or slim it down for space efficiency. It delivers the building blocks for a better, more beautiful office.

## Optimize™

**An efficient system that makes the most of your choices.**

A cohesive collection of panels, worksurfaces, and storage assures that your space will function efficiently and evolve efficiently. Whether you're outfitting a call center, incorporating teaming areas, replacing a reception desk, or creating a new manager station, Optimize is simple to install and built to last, and can maximize your investment.

## Concensys®

### The stronger, faster, friendlier solution.

Concensys offers fast and efficient specification, installation, and reconfiguration. Workstations are built with all-metal construction to provide strength and durability for a lifetime of use. Panels are fully assembled and feature all-metal construction, including metal panel connectors, top caps, and kickplates. Plus, Concensys delivers fast to meet changing business needs.

## Cadence®

### Flexible freestanding desking.

Cadence offers freestanding desks, credenzas, and storage to create versatile space that lets you move smoothly from conferencing to the computer, from face time to heads-down work. It features durable, long-lasting, heavy-gauge steel construction, and a selection of surface materials to complement the panel-based environment. Simplified specification and installation get offices up and running quickly.

## Merge®

### Where people and projects come together.

Merge tables include advanced functionality that adjusts to the way you work. Adaptive tables provide instant work and meeting space. Conference rooms benefit from Power Bay™ tables that have a built-in center area for power and storage. For a change of posture throughout the workday, Lift & Release™ legs offer easy height adjustment, while standing-height tables are perfect for project work and café areas. Merge allows people to collaborate inside and outside their offices.

## Aware®

**As flexible and functional as you are.**

Aware flip-top, folding, and fixed tables offer a range of leg shapes, sizes, and finishes perfect for a variety of applications, including training rooms, education environments, private offices, and open-plan meeting areas. Aware's light-scale design and optional casters make it easy for anyone to set up, rearrange, or store for later use. A variety of aesthetic and functional options allow you to keep it simple or add features to meet specific needs.

# Collaboration

## Where ideas meet.

Gather™ instantly makes spaces more productive, more comfortable, and more relevant. Gather pieces are intuitive and functional, and fit the postures that people naturally take, so you can collaborate and work the way you want. From tables to seating, technology to space division, Gather provides a comprehensive lineup of solutions.

## Storage & Accessories

### A place for everything.

Allsteel is where the lateral file was invented, and we've been refining storage systems ever since. Our storage solutions are designed to maximize personal organization and productivity, simplify planning, and make offices more efficient. We give our storage solutions the capacity and adaptability you need for your busy workplace.

## Align™

### Complete storage solutions that complement your style.

Versatile metal credenzas, pedestals, and towers incorporate thoughtful details to meet today's workplace demands, and combine to offer a universal design that coordinates with Allsteel systems furniture. Full-metal construction ensures durability, with a range of configurations that provides enough flexibility for any space or application. Choose from multiple finish options to enhance your design aesthetic.

## Involve®

### Share work as it happens.

Involve brings together all the things you need to make work areas more productive, efficient, and collaborative. It incorporates soft seating into the primary workspace to encourage interaction, and multi-dimensional laminate storage options to support active work. Involve's modular design accommodates all the different ways work gets done, from heads-down, focused work to impromptu conversations. It integrates seamlessly with Terrace DNA and Stride panels with an inspiring mix of materials and finishes.

# Essentials™

## Designed to handle critical storage needs.

Essentials storage offers convenience, capacity, and durability with features such as ball-bearing drawer suspension, full-steel construction, and choices in pull styles and paint colors. Laterals, pedestals, personal files, bookcases, overheads, and personal towers are designed to cover the most practical storage needs.

# Workplace Personalization

## Your workplace should fit you and the way you work.

Organized and comfortable offices foster creativity and productivity. Create ergonomic work environments by combining Allsteel task seating with Altitude® height-adjustable tables and worksurfaces, monitor arms, and keyboard platforms. Keep work areas properly lit with stylish Link™ and Wand™ LED lighting. Organize and decrease clutter with storage and Extensions™ work tools. Make your work environment work for you.

# Seating

**Seating that keeps you working in comfort and style.**

Allsteel offers seating solutions that fit your organization, office environment, and staff preferences. Every chair is ergonomically designed to promote natural postures and freedom of movement, for comfort that moves with you. Allsteel chairs bring quality to any space design and every work application.

## Work seating

Allsteel work seating provides ergonomic features essential for comfort and productivity. With a range of aesthetics and a variety of functions, there is a seating solution for every person, every task, and every style.

# Movable Walls

## Open to possibilities.

The simple, clean aesthetic of Beyond® movable walls brings the future into view with framed and frameless glass options, as well as solid walls that support a more private space. Move beyond permanent drywall solutions and rigid space planning, with built-in flexibility that responds to the rhythms of business change.

We believe that we can make a real and lasting difference for our environment by designing relevant, durable, high-quality products that are guaranteed for years of use and reuse. For details, visit [allsteeloffice.com/alltogethernow](http://allsteeloffice.com/alltogethernow).
