

Allsteel®

#19®

Designed with 18 integral parts for one equally integral human being.

Numerous technologies make #19 a singular innovation with nothing added for appearance alone. It delivers unsurpassed comfort, performance, sitting health, and a distinctive aesthetic perfect for executive offices, conference rooms, and high-intensity workstations.

Every part of #19 is covered by the Allsteel Lifetime Warranty, so it will fulfill its design function as long as your workplace needs it.

- Made from 100% recycled aluminum.
- 88% of the materials that go into it are recyclable.

A chair that is Part Human®.

Designed Around You

#19 began with you: how you sit, move, work, adjust, and recline. So it moves naturally with you, keeps you supported in every position, and makes you comfortable throughout the day, which means you can stay focused on ideas and concentrate on work.

Ergonomic Adjustments

#19 automatically adjusts to your posture to prevent muscle strain without requiring a lot of individual controls.

- Self-balancing Avatar™ recline mechanism requires no tension adjustment, keeps your spine in proper alignment, and maintains your line of sight.
- Plexus™ lumbar system increases or decreases fabric tension to support your back and can be adjusted while you are seated.

Comfort

The seat and back are designed to keep your body at a comfortable temperature, enhance air circulation, and distribute pressure evenly for all-day comfort.

- Tria™ calibrated seat system includes a unique combination of gel, channeled base foam, and breathable upholstery that distributes pressure and improves air circulation.
- VenTech™ thermal weave provides flexible back support for every position and regulates heat accumulation and loss, so you're not too hot or cool while working.
