

Ascot

FEATURES

- The Ascot line is a fully upholstered lounge line with a transitional elegance.
- The Ascot meets or exceeds the product and safety standards of ANSI/BIFMA X5.4-2005.
- Upholstery options are endless with our range of standard textiles, as well as the opportunity for Customer's Own Materials (COM).
- The interior frame is constructed with a combination of hardwood, and engineered wood, kiln dried to ensure integrity of the frame, with all critical joints double doweled, stapled, glued and screwed together. This engineered design allows for a light weight frame with all the structural integrity of a hard wood frame.
- For support and comfort, sinuous loop no-sag[®] seat springs are used which span the length of the seat every few inches, with 8 gauge steel for the seat, and 1.6 gauge steel for the back.
- The chair is fully padded with high density CFC free polyurethane foam.
- The removable seat cushions are slip covered, and closed with a zipper.
- Seat and back are double stitched for added strength and a more refined aesthetic.
- The bottoms are all finished with a black polyester dust cover.
- The Ascots sits on walnut stained, turned, tapered and fluted hardwood legs, with nylon glides.

OPTIONS

- Dual-upholstery options allow for both back and seat to be in two unique textiles.
- Replace the legs with casters for easy mobility.
- Custom stains on hardwood legs.
- Create a more functional piece with a writing tablet, available as rounded triangle 16.5 x 18.75" (420 x 480 mm) or rounded rectangle 17x11.125" (430 x 285 mm).
- Always willing to meet your unique needs, Ascot, is available in a variety of fire retardant, ultra cell, and eco-friendly foam alternatives.
