

CORONADO

COLLECTION SEATING

carolina

Coronado

The Coronado Collection adapts contemporary styling to functional features and benefits. A complete collection of seating designed to offer specifiers the ability to carry a common theme throughout spaces, Coronado features guest and multiple seating, bariatric seating, patient seating, recliners and sleepers. Standard wall-saver legs and clean-out spaces, optional removable upholstery covers and polyurethane arm caps keep Coronado working around the clock. Two arm designs offer specifiers flexibility in their design.

*Bariatric Seating supports
all patient populations.*

*Optional polyurethane arm caps provide added
durability in high traffic areas.*

Multiple options including poly arm caps and thermofoil drop tables make Coronado recliners ideal for most patient areas.

A wall-saver mechanism protects wall finish surfaces allowing the recliner to be placed closer to walls when space is limited.
