seating made simple

modus™

Modus makes a statement in elegance, form and function, with its simple, transitional styling. Its subtle, curvy waterfall front seat helps to alleviate back leg pressure and reduces lower body stress during extended periods of sitting. The design also features a lumbar supportive, one-piece back shell with molded foam to enhance lower back support. Modus was built for long-term use and comfort, and is available in mid back and high back with several arm and control options.
