

Sustainability Overview

Antenna™ Workspaces

Antenna Workspaces is a new approach to workplace design that reflects the freedom and mobility people seek in today's office. Antenna Workspaces considers the growing variety of settings where work takes place and blends desks, tables, storage units and screens to create intuitive solutions for individuals and groups.

A natural extension of the Knoll commitment to protect the biosphere, conserve natural resources and reduce waste, Antenna Workspaces is environmentally responsible in manufacturing process and materials.

Antenna Workspaces contains no PVC and no fiberglass, and is manufactured with FSC certified components. Antenna is Level 3 certified by ANSI/BIFMA, and is GreenGuard Children and Schools Indoor Air Quality Certified.

Antenna Workspace can contribute to LEED certification for Existing Buildings, Commercial Interiors and New Construction.

Material content for a complete, average Antenna Workspaces workstation is 13.13% post-consumer recycled content, and 47.7% post-industrial recycled content

VOC-Free Finishes

Water-based woodstains and UV-cured polyurethane wood top coats are virtually VOC-free

PVC-free

Antenna laminate top edgeband material is PVC-free ABS

Fiberglass-free

Antenna fabric screens utilize PET tackable material with 25% pre-consumer recycled content

Recycled Fabric

Antenna screens are available with 100% recycled content fabric

FSC-Certified

Antenna wood components are standard FSC certified with North American hardwood veneers

Recycled Steel

Antenna legs and rails have 30-45% recycled steel content

Recovered Particleboard

Antenna tops and fabric screens have FSC certified, 100% recovered particleboard cores

VOC-Free Adhesives

Water-based adhesives used to adhere laminate and veneer to substrate are 99% VOC-free

Recycled Aluminum

Cradles that connect legs and rails have 44% recycled content cast aluminum
