Terms & Conditions of Sale

Terms

Payment is due 30 days from date of invoice

Orders

Please fax orders to MontisaWork at 269-685-9195. Please clearly mark "Confirming Order" on PO if mailed as well. You can also reach us at customerservice@montisa.com.

Acknowledgements

All orders will be acknowledged with an estimated ship date. Your order may ship prior to or after that date. Please notify MontisaWork immediately of any discrepancies or delivery issues.

Cancellations & Revisions

Accepted orders cannot be cancelled without MontisaWork approval. Cancelled orders are subject to a 20% cancellation charge or the cost of all performed up to the date of cancellation, at our discretion. Changes or revisions to orders must be made within five days of order acknowledgement.

Custom Colors

Client's or dealer's written acceptance of color match must be received prior to order acknowledgement and scheduling. Upcharge for custom colors will be determined by paint cost per pound and quantity of cabinets ordered. Additional charges may apply to certain reds, whites and metallic colors. Please see Color/Finish information on montisawork.com

Freight

All shipments are F.O.B. origin, our dock.

Shipment Date

All claims for damage must be made against the carrier by dealer. MontisaWork products are carefully inspected prior to shipping. Product is then packaged with heavy duty cartoning material; top, bottom, corners and sides and wrapped in clear shipping plastic. All packaging material exceeds transportation standards. The transportation company assumes complete responsibility for delivering the product in excellent condition when the freight bill is signed. Concealed damage must be reported to the carrier not later than five days from receipt of shipment.

Returns

Returned product will not be accepted unless specifically authorized by MontisaWork in writing and product is returned in original shipping carton, with transportation charges prepaid. Returned merchandise is subject to a minimum of 20% restocking charge.

Lifetime Warranty

MontisaWork warrants that all standard products manufactured after January 1, 2001 are free from defects in material and workmanship for as long as the original purchaser owns them. Product purchased prior to 2001 is warranted for 10 years. Buyer's sole remedy pursuant to the foregoing warranties is limited to repair or replacement, at the option of MontisaWork, for products or workmanship that prove to be defective. All warranty claims must be made in writing to MontisaWork. This warranty does not apply to damage made in shipment or storage or resulting from accident or misuse, altering, tampering, negligence or abuse. This warranty does not apply to products not installed in accordance with MontisaWork guidelines, or that have had safety devices removed or altered, or that have had warning labels or operation instructions removed by any damage caused by fire, flood or act of God. Normal wear and tear is not covered as it is expected over the course of ownership. MontisaWork shall not be responsible for consequential or incidental damage arising from any product defect. There are no other warranties except as expressly set forth above, either expressed or implied. All claims under this warranty must be authorized in writing by MontisaWork prior to repair or replacement. Proof of original purchase is required with all warranty claims.

Filing Configurations & Terms

Flexible Series & Compact Series Laterals- Front to back filing (standard) requires "conversion bars". For all lateral cabinets, receding door units come standard with dividers. Side to side filing requires "file bars." Side to side is optional; indicate configuration on your PO or contact Customer Service at 269.924.0730.

Engineered for strength and durability, designed to blend with all office environments, and economically priced, Montisa's Flexible Series is your solution to organization

Flexible Series

Lateral Files - Standard Configuration

Specification Tips & Customization of Standard Configuration models.

Standard Configuration models may be customized to meet specific needs, please see Build to Order Instructions and Ordering Information on page 16 for assistance.

Drawer Front Deletions

Drawer fronts may be deleted on A, D, and Q modules to allow custom front applications. Deduct the following amounts from List Price per fixed front drawer deletion 30"-\$32, 36"-\$34, 42"-\$36. Drawer front dimension template is available upon request. Wood front and wood pulls may be available for A, D and Q modules, please contact factory.

Filing Configurations

All fixed front file drawers are standard with front to back conversion bars (standard). Side to side file bars may be specified. Contact Customer Service at 269.924.0730, and indicate "with side-to-side file bars" on order.

Special Base Heights

Base heights from standard 11/2" to 4" may be specified. Please see page 16 for instructions and pages 13-15 for pricing.

Locks/Keying

All files are standard with one random keyed lock placed within the Americans With Disabilities Act Height requirement (under 48" high). Additional locks may be specified by noting position (module) from top to bottom. Locks may control individual modules or any combination of contiguous modules. Add \$34 list per each additional lock. Key Alike, Key Specific, Key Consecutive, and Master Key options are available at no charge. Lock cores will be shipped separately upon request. A Control Key is required for installation/removal of lock cores, please see page 16 for Master and Control Key information. For locks other than standard random key please change 5th character of model number from "L" to "S", indicate SPECIAL lock condition and note specification on order. Standard Lock may be deleted by placing an "N" in the 5th character and deducting \$34.

Security Panels

When high security is required, steel security panels may be specified for factory installation between modules. Please see page 14 for pricing, please note position of panel(s) on order.

Reverse Openings

Drawer/opening direction may be reversed at no charge by noting change on order. Please identify reversals by module number top to bottom.

Exterior Steel

Smooth steel is standard

Top Options

Standard tops may be deleted and laminate tops or security tops may be specified. Please see page 16.

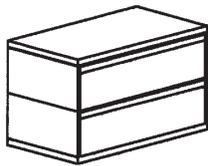

Safety

Lateral files should be counterbalanced or ganged together or anchored to the wall or floor to ensure stability.

Flexible Series

Build to Order Instructions

Flexible Series Lateral files may be specified in any combination of modules to meet specific filing or storage requirements. MontisaWork will build and ship the assembled product to your exact specifications. There are two methods of ordering product to meet specific needs:

1. Customizing a Standard Configuration File.
2. Complete Build to Order. Please refer to the Ordering Information section below to familiarize yourself with the logic of our model numbers.

1. Customizing a Standard Configuration Model:
Select a product from our Standard Configuration files that most closely meets your requirements. Then add the module or modules desired by adding the module letter into the Standard Configuration model number.

Example
Need-4 high, 42" wide file with a two shelf sliding door storage module above it.
Customization-Select the 4 high A-42" wide model 42SL4AXS. Replace the third character of the model number with a 5 to indicate a 5 module unit and insert an "N" between the "L" and 4. Add the List Price to the "N" to the standard List Price. MontisaWork will now build a 425SLN4AXS unit which consists of one "N" 2 shelf, sliding door module, over 4 "A" filing drawers with standard 11/4" top, 11/2" base and one lock. Unit List Price is Standard Configuration plus the "N" module List Price.

2. Complete Build to Order
Using the Ordering Information and worksheet as a guide, develop a model number to meet your specific need. Select modules needed from the Build to Order pages. Always identify modules from top (first) to bottom (last).

Example
Need-4 high 42" wide unit, Flipper door module on top for binder storage, a Split Drawer module for Floppy Disc Storage, a filing drawer with posting shelf and one standard filing drawer at the bottom, standard 11/4" top, 11/2" base and one lock. Build to Order model number 424SLGEPAXS - List Price is total of individual items.

Custom Paint Matches
Upcharge for custom colors will be determined by paint cost per pound and quantity of cabinets ordered.

Smooth Steel
Standard and is represented in every Flexible Series part number by "S" as the last or next to last character.

Ordering Information

Model number characters represent the following information:
First two characters indicate product width (30=30", 36=36", 42=42"). The third character indicates height (1=1 module, 2=2 modules, etc.). The fourth character indicates top (S=standard, N=none, L=laminate, T=security top). The fifth character indicates lock (L=lock, N=no lock, S=special lock: Master key, Key Alike, Key Specific, Multiple locks. Explain on order. The sixth and beyond characters indicate individual module specification letters (A-Q listed from top (first) to bottom (last). Multiples are identified by placing the number of identical modules before the letter, stated as 3E or 5Q, etc. Base: V=2 1/4", W=2 3/4", X=Standard 1 1/2", Y=3", Z=4", Steel: S=Smooth steel Placeholder.

Pedestals

FREESTANDING | MOBILE

Ideal for both personal items and filing.

Pedestals

General Information

MontisaWork Pedestals are designed and constructed with the same durability, aesthetic appeal, and functionality as our other office furniture products. The exterior is formed from one steel piece, electronically welded to 18 gauge inner upright frames and 16 gauge crossbars to create a rigid “U chassis”.

We have the choice of two depths, 18” and 24” to best fit your needs. And for your letter size or legal size requirements, two widths are available, 15” and 18”.

Pedestals are available with J pulls or flush mounted satin aluminum pulls. J pulls are always painted the same color as the cabinet. The aluminum pulls can be specified to be either natural aluminum or painted aluminum.

Each pedestal comes equipped with a lock and four leveler glides. Pedestals with box drawers come standard with box drawer dividers. Pedestals with file drawers come standard with compressors.

Pedestals may be ordered without drawer fronts for customer applications in the field. Indicate “without drawer fronts” on your order.

All mobile pedestals come standard with counterbalance weights. We recommend counterbalance weights be specified by the customer for all freestanding pedestals.

There are many accessories available to enhance the beauty and function of MontisaWork pedestals. Refer to pages 21 & 22.

Note: Recessed pulls can be specified by adding a “C” prefix to the model number. Recessed pulls are natural aluminum, but can be painted if specified.

Pedestals

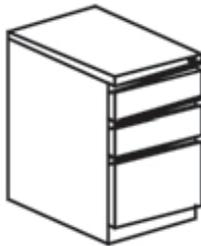

Flexible Series - Freestanding Pedestals

- Lock
- Smooth steel
- Black textured interior
- Fixed pedestals include four leveler glides
- J pulls (optional)

Classic Series

LATERAL | ACCESSORIES

Built to withstand the demands of an active office environment.

Classic Series

General Information

Laterals

The Classic Series features pull down doors with manual roll out shelves.

Safety and Functionality

All Classic Lateral Files, the perfect HIPAA solution, are standard with one lock and a positive interlock system. This eliminates the danger of opening a second drawer simultaneously or when one is already fully extended. Drawers manually roll out to the user. When the desired file is located and removed, the drawer may be pushed back into the cabinet while the door remains down as a posting shelf, allowing quick and easy notations to the file. Each drawer is capable of filing both letter and legal size material either side to side or front to back. Two dividers per drawer are standard for side to side folder filing, perfect for end tab or side tab files and legal size folders. For side to side filing, a file bar is required. For front to back filing, a file bar and two conversion bars are required. Please contact customer service at 269.924.0730 and indicate configuration on order.

Specifications

Cabinet Exteriors

Constructed of 20 gauge smooth steel, electronically welded to 14 gauge front gussets and 20 gauge rear vertical inner frames with integral slide mounting channels.

Inner Frames

14 and 20 gauge steel with integral slide mounting channels.

Top and Base

20 gauge steel welded to exterior steel to provide a strong rigid 19 9/6" deep case. Base is reinforced with 14 gauge corner gussets and 16 gauge front edge. Four leveling glides on lateral files provide up to 1" of height adjustment. Pedestal top and base are made of 18 gauge steel.

Drawer Fronts

Constructed of one piece 20 gauge steel with full width J pull or aluminum pull. Label holders are provided with each drawer. Drawer fronts and cabinet may be painted different colors at no additional charge. Our E model flush aluminum pull is available in complementing colors or natural satin.

Drawer Construction

Consist of a 22 gauge drawer body welded to 18 gauge steel sides with easy access open front and full height back.

Vertical file drawers are constructed with high sides to allow easy filing or hanging folders without the need for additional filing bars or conversion bars.

File Drawer Suspension

Consist of full extension ball bearing suspension rated at 180 lbs. capacity.

Locks

Standard in all lateral files. Special lock/keying solutions are available at no charge. Lock cores are removable for easy project installation and replacement.

All MontisaWork products meet or exceed ANSI/BIFMA standards for safety, functionality and durability.

Compact Series

LATERAL | CONVENTIONAL | LOW PROFILE | ACCESSORIES

Designed to offer plenty of storage for personal and filing items and keeping them safe and secure.

Compact Series Low Profile

General Information

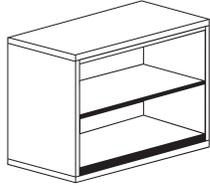

The MontisaWork Compact Series family of lateral, bookcases and storage cabinets is the flagship of our office furniture line. Cabinet widths are 30", 36" and 42" with a common depth of 18". We offer two distinct filing solutions. One is a traditional full height cabinet approach for laterals, bookcases, and storage cabinets. The other is a unique Low Profile cabinet approach, providing more filing capacity for laterals and high security laterals. Either way, MontisaWork provides high quality, aesthetic, and robust products that carry a lifetime warranty for material and workmanship.

The Compact Series is a hybrid of the Module and Classic Series designs, which features a three piece wrapper with Low Profile drawer dimensions. The cabinet is 18" deep and is available in three widths 30", 36" and 42". The Compact Series comes in two through six high configurations as standard at heights of 24.75", 35.5", 46.375", 57.25" and 71.125" respectively. The series is constructed using smooth steel.

Safety and functionality: the series come with one lock that contains a removable core, located well within ADA requirements at 43" maximum height. The unit is designed with an interlock rod for positive locking to ensure only one drawer can be opened at any time. The Compact Series will accommodate letter and legal sizes front to back (standard) filing. Side to side filing can be specified. Please contact customer service at 269.924.0730 for assistance. Because the Compact Series incorporates portions of the Flexible Series Low Profile design, there is more filing capacity than comparable conventional cabinet designs. Counterbalance weights are available and recommended for two and three high configurations. Overfile: Compact Series overfiles are available in 30", 36", and 42" widths, and are available with or without sliding doors. All come standard with one shelf (two openings), adjustable in 1/2" increments. Overfiles are 18" deep. All cabinets meet or exceed ANSI/BIFMA Standard for safety, functionality, and durability.

Specifications: the cabinet is constructed using a 20 gauge wrapper and 18 gauge front and rear case channels welded for strength. The drawer bodies are constructed of 22 gauge steel with 18 gauge sides and are slotted in the back to accommodate optional dividers. Each drawer front is removable, features double wall construction, and uses a standard full width J pull. The outside drawer height is 10.75". Drawers ride on robust slides that include heavy duty 150 lb rated ball bearings to provide smooth, silent operation and full drawer extension. Glides are standard with each cabinet and they feature adjustability for file leveling using a slotted screwdriver or small socket. The adjustment can be made from either inside or outside the cabinet.

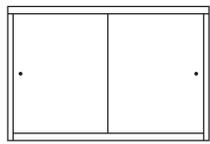

Compact Series Low Profile Standard Configuration

24000 Series Vertical Files

Known as the workhorse of vertical files for decades, each file is ruggedly constructed and equipped with MontisaWork's heavy duty suspension system. Full height drawer sides support hanging files without additional hanging rails. One piece exterior wrapper provides clean high quality design. All drawers include a divider/compressor. Locks: optional plunger type, specify appropriate model number. Keying is random unless specified otherwise. Master Keying is not available, lock core is not removable. Interior: black textured. Security bar kit: optional when specified on your file cabinet order. Can also be shipped as a kit for retrofit to MontisaWork vertical files. Handle, Thumbblatch, Label Holder Finish: brushed aluminum. Leveler glides can be specified. Add \$67 for glide package, add "R" to suffix. Ordering information: 1. specify model number, 2. specify cabinet color.

6000 Series Vertical Files

Contemporary drawer handles distinguish this series from the 24000 Series. MontisaWork's heavy duty suspension system is standard on all drawers. Full height drawer sides support hanging files without additional hanging rails. One piece exterior wrapper provides clean high quality design. All drawers include a divider/compressor. Locks: optional plunger type, specify appropriate model number. Keying is random unless specified otherwise. Master keying is not available, lock core is not removable. Cabinet and Pull Color: see color guide on inside back cover. Interior is black textured. All standard cabinet pulls are satin aluminum or painted aluminum. Security bar kit: optional when specified on your file cabinet order. Can also be shipped as a kit for retro fit to MontisaWork vertical files. Leveler glides can be specified. Add \$67 for glide package, add "R" to suffix. Ordering information: Specify model number, cabinet color and pull color.

General Information

Pricing and Terms and Conditions

All List Prices are F.O.B. Plainwell, MI and are subject to change without notice. We reserve the right to invoice at List Prices in effect at the time of shipment. Due to our continual research and development, changes may occur in product specifications without notice. We reserve the right at any time to alter design and to substitute materials and parts to supply the article which is our standard at time of shipment. No state or local sales tax, or any other tax that may be levied or assessed upon a sale or purchase of products is listed in the List Prices shown. Any such taxes must be paid by the purchaser and if, by law, the vendor is chargeable with the collection of payment thereof, the sum must be added as tax to the List Prices listed.

Damaged Shipments

All shipments are F.O.B. factory; our responsibility for the merchandise ceases upon receipt by the carrier. Any claim for damage must be made against the carrier by the consignee. MontisaWork products are carefully inspected and are packed to meet all transportation requirements. We are not responsible for damage in shipment, as the transportation company assumes complete responsibility for delivering the product to you in good condition when the freight bill is signed. Customers should protect themselves by noting on the freight bill the extent of any damage or shortage before signing the freight bill.

Concealed Damage

Concealed damage should be reported to the carrier as soon as discovered. But no later than 15 days from receipt of shipment.

Cancellation Charge

Cancellations may be subject to 20% of customer purchase order total, or the cost of all work performed to the date of cancellation, at our discretion. If order is cancelled after all work is completed, full PO List Price will be charged.

Returns

Return shipments will not be accepted unless specifically authorized by us in writing, and merchandise must be returned in original shipping cartons, with proper inner packaging. Returned merchandise is subject to a handling charge of 20%. Returned merchandise should be forwarded with transportation charges prepaid.

Custom Colors

Up charges for custom colors will be determined by the specified color, and the cost for the volume of paint required to complete the order. Custom colors are defined as any color which is not a standard MontisaWork color as shown on our color guide.

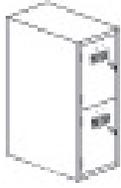

Limited Lifetime Warranty

MontisaWork warrants that all standard E&I products manufactured after April 1, 2010 are free from defects in material and workmanship for the product lifetime, commencing on the date of purchase and lasting as long as the product remains in possession of the original purchaser. Note: Product purchased prior to April 1, 2010 is warranted for one year from purchase date. Buyers' sole remedy pursuant to the foregoing warranties is limited to repair or replacement, at the option of MontisaWork, for products or workmanship that prove to be defective. Drawer slides and other moving parts are limited to a five year warranty, and electrical components are limited to a ten year warranty. Due to the potentially harsh environment in which these products are used, work surfaces and painted surfaces are limited to a one year warranty. The limited lifetime warranty does not apply to damage made in shipment or storage. Neither does it apply to damage/discoloration/functional deterioration of our product as a result of accident and/or misuse, alterations, tampering, negligence, abuse, or exposure to chemicals, direct exposure to the sun, and/or application of excessive heat/cold. This warranty does not apply to products not installed in accordance with MontisaWork guidelines, or that have safety devices removed or altered, or that have had warning labels or operation instructions removed/ignored or any damage caused by fire flood or act of God. Normal wear and tear is not covered as it is expected over the course of ownership. MontisaWork shall not be responsible for consequential or incidental damage arising from any product defect. There are no other warranties except as expressly set forth above, either expressed or implied. All warranty claims must be submitted in writing to MontisaWork. All claims under this warranty must be authorized in writing by MontisaWork prior to repair or replacement. Proof of original purchase is required with all warranty claims.

Miscellaneous and Accessories

Back End Stops, Shelves, Channel Brace and Attaching Angles

Back End Stops

These units will keep tools and parts where they belong, on top of the bench. Constructed of 16 gauge steel.

Type	Height	Width	Length	Model #	List Price
Back Stop	96"	N/A	N/A	69	\$70
	48"			70	\$61
	60"			71	\$62
	72"			72	\$66
End Stop	24"			79	\$44
	30"			80	\$53

Shelves

Rigidity as well as storage space is added to a bench with the Angle Steel shelf. Flanged on the front edge, it attaches to cross member between legs. Order 10 1/4" width for 24" bench and 16 1/4" shelf for all other bench sizes. Constructed of 16 gauge steel.

Type	Height	Width	Length	Model #	List Price
N/A	N/A	16 1/4"	48"	82	\$97
		10 1/4"	48"	83	\$79
		16 1/4"	60"	86	\$108
		10 1/4"	60"	87	\$90
		16 1/4"	72"	89	\$99
