Manufacturing	Addition by Freedom and and Administration of Control of the Contr
ISO 14001 Certified	Milliken's Environmental Management System is deployed in all global manufacturing facilities. Each facility is certified to ISO 14001 through third party auditors. This system assures continual improvement and monitoring of all key environmental impact categories and processes.
OSHA VPP Sites	The Voluntary Protection Program (VPP) promotes effective worksite-based safety and health. In the VPP, management, labor, and OSHA establish cooperative relationships at workplaces to implement a comprehensive safety and health management system. OSHA VPP approval indicates official recognition of the outstanding efforts of employers and employees who have achieved exemplary occupational safety and health. All Milliken U.S. manufacturing locations are OSHA VPP sites.
Corporate Social Responsibility Actions	
Carbon Negative Status	Carbon is one of the leading contributors to greenhouse Gas (GHG) emissions. Milliken achieves carbon negative certification from the respected Leonardo Academy without purchased Renewable Energy Credits based on renewable energy, carbon sequestration and energy reduction.
ECO 360	Eco 360 is Milliken's brand for sustainable products that meet rigid manufacturing standards with DfE and LCA protocols. It applies to all carpet collections.
Ecountability	Milliken has applied strict resource conservation guidelines to all operations for more than a century. These guidelines and sustainable policies are the foundation of our Milliken & Company Sustainability Process.
EPA Partnerships	The U.S. Environmental Protection Agency regulates, protects and educates concerning the environment. It offers many partnership opportunities for business to measure and reduce environmental impacts. Milliken participates in with SmartWay® and Landfill Methane Outreach Program (LMOP).
Green Energy	Conventional energy sources like oil, coal and natural gas are being replaced by greener sources like wind, solar and water. Milliken seeks renewable energy to meet its needs using methane and hydropower.
Reduced Packaging	Reduced packaging lowers waste and associated costs related to energy and transportation. Working with customers Milliken has saved more than 90 million pounds of cardboard by shipping modular carpet on pallets versus boxes, reducing packaging 91% since 1991.
Reduced Environmental Footprint	The amount of depletable raw materials and nonrenewable resources consumed to make products, added to the wastes and emissions generated in the process determine an organization's environmental impact or footprint. Through conservation and efficiency Milliken & Company has reduced its global eco-footprint 48% over the last 15 years. The Floor Covering Division has reduced its global eco-footprint by 85% during the same period.
Trees for All	Trees have long been a passion for Milliken & Company. This initiative educates the supply chain, enhances communities, and reduces GHG impacts for future generations via tree planting; partnering to nurture trees; adding shade for playground safety; and recognizing sustainable actions.
Zero Waste	All Milliken plants operate with a goal of 100% diversion or zero waste to landfill. The company has maintained zero waste from U.S. carpet manufacturing since 1999.

Cantiliantiana		
Certifications	Millilian professionally managed forests assures as we say here distribute as	
Cauban Nautual	Milliken professionally managed forests sequester more carbon dioxide than	
Carbon Neutral	our facilities emit worldwide. All carpet collections are certified carbon neutral	
	by the Leonardo Academy without purchased credits.	
	CRI's Green Label Plus program for carpet and adhesives sets scientifically	
	based standards for Indoor Air Quality (IAQ) to ensure that customers are	
CRI Green Label Plus	purchasing low emitting products. All Milliken carpets meet the criteria for	
	Green Label Plus certification. More than 90 percent of Milliken products are	
	rated for "Severe Wear" (highest rating for appearance retention) by the Carpet	
	and Rug Institute.	
	The ANSI/NSF 140-2007 Sustainable Carpet Assessment (NSF-140) is intended	
	for commercial, hospitality, and similar carpets. Reliable third-party verification	
	from reputable auditors provides assurance that product expectations are met.	
NSF 140 – 2007e	California standards have been incorporated into the final ANSI/NSF 140-2007	
	standard at Platinum certification levels. All Milliken commercial carpet	
	collections are certified under the NSF 140-2007 Sustainable Carpet Assessment	
	Standard.	
	The Partnership for a Sustainable Georgia assists Georgia businesses in using	
Partnership for a Sustainable Georgia	continuous improvement tools to reach better environmental results and a	
	better bottom line. Milliken Floor Covering is a Gold Partner with Sustainable	
	Georgia.	
SMaRT®	SMaRT is a consensus national standard developed by MTS. SMART is approved	
	as part of the LEED Green Building Rating System based on compliance with	
	comprehensive sustainable product certification criteria. All Milliken	
	commercial carpet collections are certified to SMaRT Consensus Sustainable	
	Product Standards.	
Technologies		
	AlphaSan® provides long-lasting antimicrobial protection that inhibits odors	
AlphaSan®	caused by mold and mildew. AlphaSan is a safe and effective technology that	
	demonstrates efficacy against all bacteria.	
ColorSeal®	Color Seal® bleach resistance assures appearance retention under adverse	
30.0.00		
	conditions.
