

# Planes™

Height Adjustable

PRODUCT SHEET

**HAWORTH®**

To support well-being in the workplace, as well as personal preference, Planes height-adjustable tables make it easy for you to sit, stand, and change postures throughout the day. A choice of electronic or manual mechanisms are available, along with 2-leg, 3-leg, or bench designs to suit space requirements and people's needs.

### Adjustment choices

An electronic mechanism allows you to position your worksurface at the right height for you, quickly and easily. A programmable mechanism is available to ensure accurate and consistent positioning. Three sit-to-stand ranges are offered.

### Worksurface options

Designed as part of the Haworth Integrated Palette™, Planes tables include a large selection of laminates and veneers for worksurfaces, as well as rectangular and corner shapes in a variety of sizes.

### Fits beautifully

Part of a broad product line, Planes height-adjustable tables are designed to coordinate with other Planes tables and Haworth furniture for a consistent aesthetic throughout a workspace.
