## Great Design + Budget Considerations

Great design. Bringing a project in on budget. Steelcase understands that both are important to you and your client. Glass front options can help bring your project in on budget. Privacy Wall and Glass Selections combine design and value into one workspace solution while offering up to 50 percent savings over conventional construction.

### LESS EXPENSIVE. MORE SUSTAINABLE.

Less expensive than conventional construction—and with consistent fit and quality—Steelcase glass fronts accelerate the construction schedule with fewer trades on-site.

In addition to providing access to daylight and views of the workspace, Privacy Wall and Glass Selections also reinforce sustainability. As the first and only Cradle to Cradle Certified Silver relocatable wall product—and the only one manufactured in North America—glass fronts may even contribute to LEED certification.

### GLASS FRONTS PROVIDE CONSISTENT SAVINGS OVER CONVENTIONAL CONSTRUCTION
