Vivo™ Interiors

THE RIGHT FIT

Vivo interiors combines a crisp, clean aesthetic and solid performance to give companies the features they value the most. That makes it a smart choice for creating efficient, inspiring places to work. Developed with designer Douglas Ball, Vivo is a versatile and affordable frame-and-tile system. Its refined textures and precise details create visual interest. With its essential set of capabilities and aesthetic options, Vivo interiors has appropriate flexibility for furnishing an entire space.

CRISP APPEARANCE

The design of Vivo combines attention to detail with a fresh look. Tiles have crisp edges for a straight, well-defined reveal. A reflective bead between tiles, available in four colors, catches light to create highlights. Thin-profile trim pieces interlock for exceptional alignment and fit.

FULL PERFORMANCE

Vivo walls are 3 inches thick and range in height from 35 to 79 inches with the option to stack up to 90 inches high. A universal connector can be used—and reused—in 2-, 3-, or 4-way configurations, saving on inventory and making reconfiguration easier. Two options—90- and 120-degree—give companies more planning choices. Tiles—in a variety of looks, functions, and heights—are removable and interchangeable. They provide both freedom of aesthetic expression and functional support.

AESTHETIC OPTIONS

The Vivo color, material, and finish offering allows varied looks that quietly complement the architecture of a space. Warm-to-cool and light-to-dark finishes combine harmoniously. A range of accent colors on painted surfaces adds dimension. Glass, laminate, veneer, and textile options offer sophisticated choices.

VARIED WORK STYLES

Vivo supports the traditional approach to arranging work areas, with the corner as the focal point of activity. It also offers the About Face™ orientation that lets people face outward as they work. This offers better screen privacy and more awareness of teammates and the surrounding environment.

INTEGRATED STORAGE

The Vivo sliding door overhead unit provides a fresh alternative for storage. Vivo is also compatible with other Herman Miller products, including Quadrant™ Q- and V-Pull filing and storage and Meridian® pedestals, lateral files, bookcases, and storage towers.

RESIDENTIAL FEEL

Vivo walls come with traditional base covers or open bases with furniture-style glides that lighten the scale of workstations and promote airflow. The overhead unit, with its unique sliding-door design, and freestanding bookcases offer more ways to give workstations a residential feel.

TECHNOLOGY PERFORMANCE

Vivo interiors incorporates a proven 8-wire, 4-circuit electrical distribution system. It allows routing of and access to power and data in the base and every 11 inches of the frame height.

Lay-in capability at the top and base of frames streamlines installation and reconfiguration. At a 60 percent fill rate, a Vivo frame holds these quantities of cables:

| Cable Type | Location | Qty |
|-------------------------|---|-----|
| Category 6, 4-pair UTP | Base | 73 |
| Category 6, 4-pair UTP | Top channel and every 11 inches of frame height | 37 |
| Category 5e, 4-pair UTP | Base | 95 |
| Category 5e, 4-pair UTP | Top channel and every 11 inches of frame height | 47 |

This means that a 68-inch-high frame holds 293 Category 6 cables or 379 Category 5e cables.

12-YEAR, 3-SHIFT WARRANTY

Like all Herman Miller products, Vivo is durable for long-term performance and value. As a statement of our confidence in its quality, we cover Vivo with the Herman Miller Warranty—a straightforward promise that we stand behind that quality 100 percent. The 12-year, 3-shift warranty covers all standard elements and includes labor on all warranty work.

EASY OPTIONSSM CAPABILITY

Our versatile, flexible products give people real choices. If they need something extra, we can do that, too, from modifying existing products to developing new ones. For more information on our Easy Options capability, please visit www.HermanMiller.com/easyoptions.

For more information about our products and services or to see a list of dealers, please visit us at www.HermanMiller.com or call (800) 851 1196.
