Introduction

A Note on the Organization of This Book

There are a few signals that will help you understand the organization of this book. Once you know them, you should be able to find your way around easily.

Like a newspaper, this book is formatted with columns of text and illustrations that run vertically.

Information wraps from one column to the next and continues for as many pages as it needs to.

Black bars are clues.

A black bar at the top of a page signals the start of information about a product.

This information is divided into two sections, each signaled by a black bar. Product Information includes a description, additional notes, and dimensional drawings. Specification Information, which always begins at the top of a column, includes a series of steps. Each step represents a decision you need to make in order to complete your product number. Steps must be followed sequentially. The number of pages needed to complete information on a product varies; some will be complete in one page; others may fill three or four pages. Just continue going through the steps until you run into the next product, signaled by the black bar at the top of the page.

Black tabs running along the outside edge of the page help you locate what section you are in or what section you want to go to. You can thumb forwards or backwards to find a section; tabs and text appear on both sides of the page.

The additional pages in the back of the book include the appendices and indices. They are signaled by a long black bar running along the outside edge of the page.

The index is presented two ways.

The first index is in alphabetical order by product name. It can be helpful if you are new to the products and numbering scheme or if you are looking for a type of product, such as work chair or round table.

The second index is by product number. It lists, in alphanumeric order, the base product number, typically a five-digit number.

This book is effective February 6, 2017, subject to change without notice. Products may be purchased from authorized Herman Miller dealers who will quote prices upon request. For more information about our products and services or to see a list of dealers, visit www.HermanMiller.com.

All prices are list prices in US Dollars. Additional services, such as planning services, design, storage, and installation, are not included and must be added to these prices when the additional services are requested.

Illustrations, specifications, and prices are based on the latest information at the time of publication. The right is reserved to make changes at any time without notice in prices, fabrics, finishes, materials, specifications, and models, and also to discontinue models and finishes.

Dimensions shown in the drawings are engineering drawing dimensions rounded up to the nearest $\frac{1}{8}$ ". Product is shipped set up or knocked down. Products that include "Shipped knocked down" in the description require some assembly. If this statement does not appear in the description, the product is shipped assembled.

Service problems are normally handled by a Herman Miller authorized dealer. Where this cannot be accomplished on a local level, service problems should be referred to the Customer Care Representative for your region, Herman Miller, Inc., Zeeland, Michigan 49464.

20-Day or Less/Assigned Lead-Time Shipments

All products and options in this price book not designated by an Assigned Program icon  will ship in **20 business days or less** after being acknowledged by Herman Miller.

Products and options designated by an  are on the assigned lead-time program and may ship in 20 days, less than 20 days, or more than 20 days from order acknowledgement.

Structure

Surfaces

Screens

Product Information

Description

This beam attaches to support components and other beams to create the horizontal structure for supporting surfaces in double-sided beam applications. It has a center trough for routing power and data, back-to-back hinged access doors, and a center accessory channel. The trough accommodates modular or hard-wired electrical components. The doors run the entire length of the beam and provide access to the concealed receptacles and data outlets in the trough. The accessory channel allows attachment of an optional beam-attached screen. Receptacle covers, data outlet covers, surface cantilevers, and surface attachment hardware are included.

Notes

Specify 60"-deep option (60) for use with 30"-deep surfaces. Specify 72"-deep option (72) for use with 36"-deep surfaces.

Beam sections of any width can be connected with in-line beam connector (FW123.) to create a run up to 24' long.

48"- and 60"-wide beam sections include 1 surface cantilever per side.

72"- and 96"-wide beam sections include 2 surface cantilevers per side.

For hard-wired electrical, components must be customer supplied.

Order the following products separately:

- Beam accessory channel trim strip (FW124.)
- Beam-attached screen, glass (FW410.)
- End Support, open (FW130.)
- In-line beam connector (FW123.)
- Mid-run support, closed (FW132.)
- Mid-run support, open (FW133.)
- Power harness (FW150.)
- Squared-edge rectangular surface, end position (FW210.)
- Squared-edge rectangular surface, middle position (FW211.)

In-Line Beam Connector

FW123.

Product Information

Description

This connector joins two single-sided or double-sided beam sections in-line to create longer beam lengths. Attachment hardware and a ganging plate for securing adjacent surfaces are included.

Notes

Order the following products separately:

- Beam section, double-sided (FW120.)
- Beam section, single-sided (FW121.)

Power Harness

FW150.

Canvas Office Landscape® Structure

Product Information

Description
 This harness converts a nonpowered beam section to a powered beam section. It distributes up to 4 20-amp circuits and provides receptacle locations on both sides. The harness is UL listed and Canadian UL listed.

Notes
 Match power harness width to beam section width.
 48", 60", and 72"-wide harnesses provide 8 receptacle locations; 4 per side.
 96"-wide harnesses provide 16 receptacle locations; 8 per side.

Power Entry, Internal Direct Connect

FW140.

Canvas Office Landscape® Structure

Product Information

Description

This power entry connects a building's electrical supply from a wall, floor, or column to a powered beam. It enters through a powered closed mid-run support or a floor power entry cover and routes into the underside of a beam section. The power entry plugs into a receptacle location on a power harness and includes a cable that can be field cut to the appropriate length. It is UL listed and Canadian UL listed.

Notes

A licensed electrician must wire the power entry.

Receptacle, 4-Circuit, 20 Amp

FW153.

Product Information

Description

This receptacle snaps into a 8-wire, 4-circuit, shared neutral power harness or a 10-wire, 4-circuit, separate neutral power harness to provide power to equipment with a 20-amp standard plug head or cap. It also accepts 15-amp standard plug heads or caps. The receptacle is UL listed; includes 1 receptacle.

Notes

Avoid overloading circuit by ensuring total connected load does not exceed 16 amps. If 1 piece of equipment requires all available power, do not use receptacle's second outlet or install additional receptacles on that circuit. In many cases, equipment requiring this receptacle will use all available power.

Dual USB Charging Module, 2 Amp FW15U.

Canvas Office Landscape® Structure

Product Information

Description

This dual USB charging module locks into the power harness of the Canvas beam. Total output for both USB ports combined is 10 watts. The charging module is powered by circuit a for the 8-wire, and circuit 1 for the 10-wire.

Notes

The USB outlets can charge 2 devices at one time, rated 2 amps (10 watts) or less. It can charge 1 tablet and 1 phone, or 2 phones, at once. Maximum rating for both ports combined is 10 watts.

Rectangular Surface, End Position

FWS10E

Product Information

Description

This surface is supported by the beam structure and support components. It is used at the end of a beam run and provides a 3" overhang at the end of the run. It has a laminate top and thermoplastic edge, laminate top with a thermoplastic backed plywood edge, or veneer top and edge. There is a 1/2" gap at the back of the surface for cord passage into the power/data trough.

Notes

Surface supports and attachment hardware are included with beam section (FW120. or FW121.), ordered separately.

Surface width does not need to match beam width.

Actual depth of 30"-deep surface is 24". Actual depth of 36"-deep surface is 30". The actual surface depth accommodates the 6"-deep power/data access doors at the back edge of the surface to create the overall depth of 30" and 36".

Pari Screen, Beam-Attached

FW415.

Product Information

Description

This tackable fabric screen attaches into the accessory channel of a single- or double-sided beam section to provide visual privacy with a tackable surface. Bayonets attach into the center channel and extend up for attachment. Attachment hardware included.

Notes

Screen has concealed attachment method and can attach anywhere along the length of beam section or can span multiple beam sections within a run.

To align screens in a run and fill light gap between screens, order connection hardware (FW416.) separately.

Screen accepts Customer's Own Material (COM). Yardage is estimated for nondirectional 54"-wide fabrics.

For vertical fabric direction (T):

Height—Yardage

14—1.17

18—1.43

For horizontal fabric direction (R):

Width—Yardage

30—1.14

36—1.32

48—1.71

60—2.07

72—2.46

For information on multiple quantities or directional fabrics, contact COM Department. See Order Information in Appendices.

Laminate Screen, Beam Attached FW419.

Product Information

Description
 This laminate screen attaches into the accessory channel of a single- or double-sided beam section to provide visual privacy. Bayonets attach into the center channel and extend up for attachment. Attachment hardware included.

Notes

Screen has concealed attachment method and can attach anywhere along the length of beam section or can span multiple beam sections within a run.
 To align screens in a run, order connection hardware (Y1121.) separately.

20-Day or Less/Assigned Lead-Time Order Information

20-Day or Less and Assigned Lead-Time Programs

20-day or less and assigned lead-time products are designed for established Herman Miller dealers with pre-approved credit.

Products are distributed from multiple manufacturing facilities across the United States. All products and options not designated by an Assigned Lead-Time icon  will ship in 20 business days or less after being acknowledged by Herman Miller. Products and options designated by an  are on the assigned lead-time program and will ship in 20 days, less than 20 days, or more than 20 days from order acknowledgement.

Ordering Procedure

Please place orders through Order Manager. If this is not available to you, place orders through mail or fax. Verbal purchase orders will not be accepted.

Order Entry fax number for Passage®, 5000 Series, and Meridian® Filing and Storage: (616) 846 9236.

Order Entry fax number for all other products:
(616) 654 3085.

For more information, contact your Customer Care representative at:
(866) 854 3048 EXT 3400.

Shipments and Delivery

Per Herman Miller Terms and Conditions.

Changes and Cancellation

Per Herman Miller Terms and Conditions.

Keyed-Alike Information

Keyed-Alike Locks

All components with locks may be specified keyed alike. Products with keyed-alike locks will be shipped with lock chassis installed.

Installation of lock cylinders will be on-site according to instructions provided. Herman Miller, Inc., will not be responsible for lock cylinder installation.

When specifying product keyed-alike, include separate lines on your order for the lock cylinders.

For Action Office®, Ethospace®, Passage®, Quadrant®, Resolve®, and Supplemental products, list cylinder part number and key number (232092-XXX); select a key number (or numbers) between 226 and 427, excluding numbers 408 and 412.

The following products require a different lock cylinder part number. Specify UKY001-XXX for these products only; select a key number (or numbers) between 226 and 427, excluding numbers 408 and 412.

- A3013.
- A3053.
- G5180.
- G5181.
- G5280.

The keys provided in 232092-XXX and UKY001-XXX kits work with either cylinder type, provided the key numbers match.

For Tu® Storage, Canvas Office Landscape®, 5000 Series, and Meridian® Storage, see the following charts.

Keyed-alike locks are field installed.

To order keyed-alike locks for Action Office® Series 1 and 2 door panels, please contact Customer Care.

A master key can be used to open any lock on an attached or freestanding component. In addition, a removal key or lock change tool is required to remove lock plugs. Customers interested in ordering master keys, removal keys, or lock change tools should contact Customer Care.

For Canvas overhead and lower storage units, specify as follows:

Specification Code	Part Number	Color	Lock Series
KA	1B2JK7-XXX ¹	chrome	UM series 226-427

For Canvas Metal Storage, Meridian Storage, Tu Storage, and 5000 Series desk components with pedestals, specify as follows:

Specification Code	Key Number	Color	Lock Series
KA	232092-XXX ¹	black	UM series 226-427
KA	1B2JK7-XXX ¹	chrome	UM series 226-427

For 5000 Series flipper door unit with bezel or credenza storage cabinet with bezel, specify as follows:

Specification Code	Key Number	Color	Lock Series
KA	232092-XXX ¹	black	UM series 226-427

Key Number:

XXX¹ = a key number between 226 and 427 (excluding 408 and 412)

Vary Easy Program

Program Overview

Vary Easy is a program designed to help dealers specify standard products with a larger breadth of options. For example, depending on the type of product being specified, choices include additional size, finish, edge types, and cable management features. Vary Easy 3D, specIT, and third-party text-based specification packages support the Vary Easy program. Vary Easy 3D enables designers to create a 3D image, CAD symbols, and a price book page. A Vary Easy product number is assigned for each product as the user selects specific options. Once the product is completely specified, the order can be submitted via Kiosk's Order Manager or a dealer's business system.

Accessing and Specifying Vary Easy

To view the full product vocabulary, go to the Vary Easy Product Offering on Kiosk. To specify Vary Easy, go to the Vary Easy 3D website on Kiosk, specIT, or your third-party text-based specification package.

Once you've made your product line selection, continue to follow through each option and enter the specific options that represent the product you need. When the product is fully specified, Vary Easy will generate an orderable product number and instantly calculate a price.

Note: Failure to completely specify a product will cause a delay in order acknowledgements. Be sure to make a selection for all options offered.

The acknowledgement process for Vary Easy products is the same as for any standard order. Vary Easy products ship with a standardized lead time and are competitively priced.

For more information, contact your Customer Care Line at (866) 854 3048 EXT 3400.

Stain-to-Match Program

Stain-to-Match Program

Program Overview

The Stain-to-Match program gives you the option of using veneer finishes that are not listed in the standard offering. The program allows Herman Miller to match a customer's existing recut or natural veneer, or create a new finish that is unique to an installation.

Specific information on approval, ordering, pricing, and warranty for the Stain-to-Match program is listed below. Questions and requests for assistance may be directed to Herman Miller Options at:

(800) 654 3910

Ordering Products with Stain-to-Match Veneers

1. Fill out the Options Stain-to-Match Request Form and send along with a color sample (2" x 3" minimum) to the Herman Miller Options Applications Team at the address provided on the form. The form can be found on Omni.
2. Within 7-10 working days, Herman Miller Options will send a sample of the color-matched stain on Herman Miller veneer to the requester for the customer's signed approval.
3. If the sample meets the customer's approval, sign the reverse side of the sample, scan and email the approval to:
options@hermanmiller.com.
4. After the stain has been approved, a formal quotation with special number and pricing can be provided, or the product can be specified through the Vary Easy program, if available. Work with the Options team on final product needs and how to specify.
5. A purchase order can then be placed.

Stain-to-Match Warranty

Herman Miller warrants its products to be free from defects in craftsmanship from the date of delivery for the applicable warranty period. Herman Miller is responsible for the physical properties of the veneers available through the Stain-to-Match program, which include:

- STA: Stain-to-Match on Recut Ash
- STB: Stain-to-Match on Beech
- STC: Stain-to-Match on Cherry
- STD: Stain-to-Match on Oak
- STK: Stain-to-Match on Reltech Anigre (Geiger)
- STM: Stain-to-Match on Recut Mahogany
- STP: Stain-to-Match on Maple
- STU: Stain-to-Match on Walnut (Geiger)

See your specification tool for product specific finish offering limitations.

Canvas Office Landscape® Connectors and Covers Matrix

Use the following matrix to confirm your connector, cover, and top cap selection based on the frame heights specified. This matrix represents a subset of the possible frame and connector applications and shows the correct connector, connector cover, and top cap to specify.

For additional applications and information, see the Canvas Office Landscape® Planning Guide.
