A Note on the Organization of This Book

There are a few signals that will help you understand the organization of this book. Once you know them, you should be able to find your way around easily.

Like a newspaper, this book is formatted with columns of text and illustrations that run vertically.

Information wraps from one column to the next and continues for as many pages as it needs to.

Black bars are clues.

A black bar at the top of a page signals the start of information about a product.

This information is divided into two sections, each signaled by a black bar. Product Information includes a description, additional notes, and dimensional drawings. Specification Information, which always begins at the top of a column, includes a series of steps. Each step represents a decision you need to make in order to complete your product number. Steps must be followed sequentially. The number of pages needed to complete information on a product varies; some will be complete in one page; others may fill three or four pages. Just continue going through the steps until you run into the next product, signaled by the black bar at the top of the page.

Black tabs running along the outside edge of the page help you locate what section you are in or what section you want to go to. You can thumb forwards or backwards to find a section; tabs and text appear on both sides of the page.

The additional pages in the back of the book include the appendices and indices. They are signaled by a long black bar running along the outside edge of the page.

The index is presented two ways.

The first index is in alphabetical order by product name. It can be helpful if you are new to the products and numbering scheme or if you are looking for a type of product, such as work chair or round table. The second index is by product number. It lists, in alphanumeric order, the base product number, typically a five-digit number.

General Information

This book is effective February 6, 2017, subject to change without notice. Products may be purchased from authorized Herman Miller dealers who will quote prices upon request. For more information about our products and services or to see a list of dealers, visit www.HermanMiller.com.

All prices are list prices. Additional services, such as planning services, design, storage, and installation, are not included and must be added to these prices when the additional services are requested.

Illustrations, specifications, and prices are based on the latest information at the time of publication. The right is reserved to make changes at any time without notice in prices, fabrics, finishes, materials, specifications, and models, and also to discontinue models and finishes.

Dimensions shown in the drawings are engineering drawing dimensions rounded up to the nearest $^{1}/_{8}$ ". Product is shipped set up or knocked down. Products that include "Shipped knocked down" in the description require some assembly. If this statement does not appear in the description, the product is shipped assembled.

Service problems are normally handled by a Herman Miller authorized dealer. Where this cannot be accomplished on a local level, service problems should be referred to the Customer Care Representative for your region, Herman Miller, Inc., Zeeland, Michigan 49464.

20-Day or Less/Assigned Lead-Time Shipments

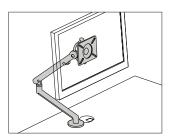

All products and options in this price book not designated by an Assigned Program icon <a> a will ship in **20 business days or less** after being acknowledged by Herman Miller.

Products and options designated by an A are on the assigned leadtime program and may ship in 20 days, less than 20 days, or more than 20 days from order acknowledgement.

Flo® Single-Screen Monitor Arm Support

Product Information

Description

This easy to move, slim profile monitor arm assembly supports a single flat panel monitor. It has a $13^1/4''$ height-adjustment range, a $20^5/8''$ extension range, and allows the monitor to tilt 40° upward and -40° downward. The arm includes a quick-disconnect feature that allows easy installation and removal of a monitor. It has integrated cable management along the underside of the arm, and a visual indicator that shows the arm's tension setting. The arm meets VESA 75mm and 100mm standards (Video Electronic Standards Association - Mounting Interface Standards). An allen wrench for adjusting the arm's tension is included.

Notes

Wall mount option (WM) does not include hardware to mount bracket to wall. For Compass™ applications, see wall mount installation instructions.

White finish (oJ) is available only with the surface clamp (CM) option. Accommodates monitor weights ranging from 7 to 20 lbs.

To hold a laptop computer, order laptop mount (Y91177.) separately. Through-surface mount option (T2) includes 2 bolts; 1 for mounting to surfaces up to $1^3/8^{\prime\prime}$ thick, and 1 for mounting to surfaces up to $2^3/4^{\prime\prime}$ thick.

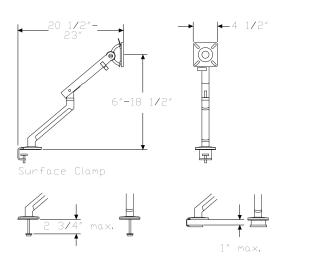

Rail tile mount attachment bracket (RTM) is also compatible with Ethospace® rail tiles.

Flo power hub (FPH) attachment works with surface clamp (CM). The Flo power hub (Y92091.) replaces the circular disk on the surface clamp (CM) or the low profile clamp (LPC).

The white Flo power hub (Y92091.0J) is light grey and matches the cable management on the white Flo arm.

Ollin Single-Screen Monitor Arm Y95111 Support

Product Information

Description

This monitor arm utilizes a technical cord which allows it to support monitors weighing up to 20 pounds. The arm provides $14^{1/2}$ of vertical height adjustment, 24" of horizontal extension, and +80/-10° of tilt. A visual indicator shows the arm tension setting, and an integrated cable management system secures cables neatly along the arm. This monitor arm is user adjustable without tools. VESA brackets provide both 75mm and 100mm hole patterns. Bracket attachment hardware included.

Notes

Assembly includes the Ollin single screen monitor arm - arm only (Y95000.) and the specified attachment bracket.

Accommodates monitor weights ranging from o-20 pounds.

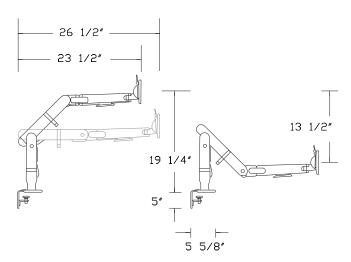

To hold a laptop computer, order laptop mount (Y91177.) separately. White (oJ) finish is available only with surface clamp (CM) or Flo® power hub (FPH).

White Flo power hub is light gray and matches the cable management on clamp and monitor arm.

Flo power hub (FPH) attachment works with the surface clamp (CM). The Flo power hub (Y92091.) replaces the circular disk on the surface clamp (CM) or the low profile clamp (LPC).

Through-surface mount (T2) option includes 2 bolts; 1 for mounting to surfaces up to $1^3/8''$ thick, and 1 for mounting to surfaces up to $2^3/4''$ thick.

Through-surface mount (T2) option can be grommet mounted. Order cast grommet (Y92050.) separately.

Flo® Dual-Screen Monitor Arm - Y91175 Clamp Mount

Product Information

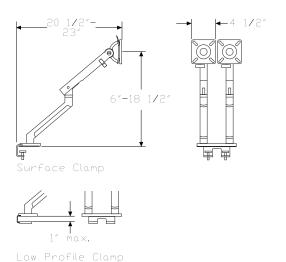

Description

A variant of the award winning Flo monitor arm, this elegant solution supports 2 monitor screens each weighing up to 20lbs. It has a $13^1/4''$ height-adjustment range, a $20^5/8''$ extension range, and allows the monitor to tilt 40° upward and -40° downward. Both arms include a quick-disconnect feature that allows easy installation and removal of a monitor. It has integrated cable management along the underside of the arm, and a visual indicator that shows the arm's tension setting. The VESA attachment plate provides both 75mm and 100mm hole patterns. The clamp is top mounted to speed installation. An allen wrench for adjusting the arm's tension is included. Attachment hardware is included.

Notes

Accommodates monitor weights ranging from 7 to 20 lbs. each.

Flo® Modular Monitor Arm Assembly

Product Information

Description

This scalable monitor arm assembly includes a Wishbone® post, 1 or 2 dynamically adjustable Flo® monitor arms, 1 or 2 Flo modular brackets, and an attachment bracket that mounts the assembly to a surface. The Flo monitor arm provides $13^{1}/4''$ of vertical height adjustment, $20^{5}/8''$ of horizontal extension and $+/-40^{\circ}$ of tilt. A visual indicator shows the arm tension setting, and an integrated cable management system secures cables neatly along the underside of the arm. The VESA bracket provides both 75mm and 100mm hole patterns, and hardware is included to attach the VESA brackets to monitors. An installation and tension adjustment tool is included.

Notes

Accommodates monitor weights ranging from 7 to 20 lbs. each. 100mm and 75mm VESA compliant.

Use low profile clamp for work surfaces up to 1" thick.

Use Locale® through surface mount for Locale.

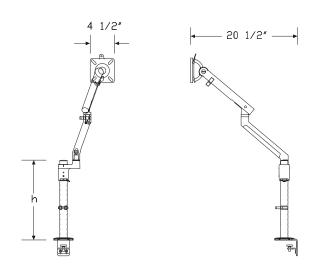

Flo® power hub (FPH) attachment works in conjunction with the clamp mount for Wishbone post (WC). The Flo power hub (Y92091.) replaces the circular disk on the clamp mount for Wishbone post (WC).

Flo power hub (Y92091.) is recommended for monitor applications of either one or two monitor arms.

For adding additional arms, order both of the following products separately:

- Flo modular bracket-bracket only (Y92103.)
- Flo single screen monitor arm-arm only (Y92090.)

For added stability, specify Wishbone high load clamp (WHC).

Description

This heavy duty version of the award-winning Flo monitor arm supports weight from 20 to 40 pounds and is available in either single or dual monitor configuration. Flo Plus offers 23.3" of horizontal extension, 13" of vertical adjustability and +/- 40° of tilt. A visual indicator shows the arm's tension setting, and an integrated cable management system secures cables neatly along the underside of the arm. The VESA bracket provides both 75mm and 100mm hole patterns.

The dual assembly uses a cross bar design to support monitors weighing up to 20 pounds each and having a maximum diagonal width of 24". Each monitor arm has an independent tilt feature that minimizes glare.

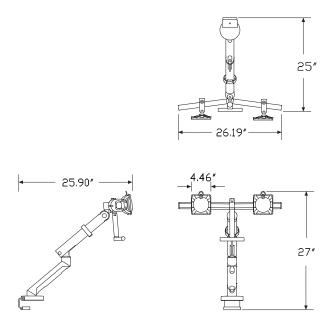

Notes

75mm and 100mm VESA compliant.

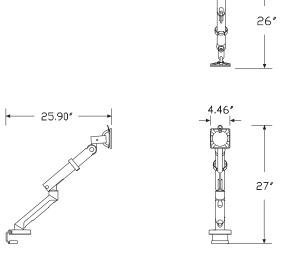

Allen wrench for installing and tensioning the monitor arms included. Hardware to attach VESA brackets to monitors included.

Monitor weight range for Flo Plus, dual (Y91174.2) is 10-20 pounds for each monitor.

Monitor weight range for Flo Plus, single (Y91174.1) is 20-40 pounds.

Wishbone® Single-Screen Monitor Y91011 Arm Assembly

Product Information

Description

This monitor arm assembly supports a single flat panel monitor and includes a $15^3/4$ " post, monitor arm, and attachment bracket for a variety of mounting options. The Wishbone® post option includes a monitor arm location ring, a cable management clip, and an extension stud. The monitor arm has a quick release monitor attachment, and allows the monitor to be positioned as landscape or portrait. It has 100° vertical tilt, and 180° horizontal movement. Attachment hardware included.

Notes

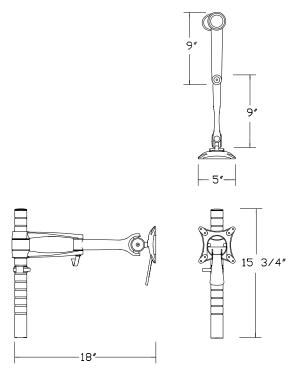

Maximum monitor weight is 26 lbs.

Grommet mount option (GR) accommodates surfaces up to $1^1/2^n$ thick. Clamp mount options accommodate surfaces between $1^1/2^n$ and $2^5/8^n$ thick.

Flo® power hub (FPH) attachment works in conjunction with the clamp mount for Wishbone post (WC). The Flo power hub (Y92091.) replaces the circular disk on the clamp mount for Wishbone post (WC).

This product was designed by Colebrook Bosson Saunders Products Ltd.

Wishbone® Quad-Screen Monitor Y91015 Arm Assembly

Product Information

Description

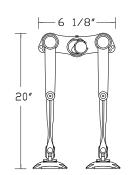

This monitor arm assembly with post(s) supports 4 flat panel monitors on 4 monitor arms with 2 back-to-back post brackets. The wishbone post option includes 2 $15^3/4''$ posts, a location ring, a cable management clip, and an extension stud. The monitor arms have a quick release monitor attachment, and allow the monitors to be positioned as landscape or portrait. They have 100° vertical tilt, and 180° horizontal movement.

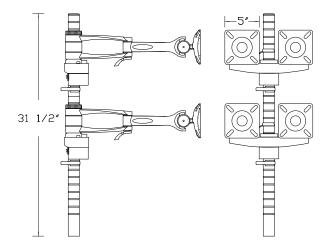

Notes

Maximum monitor weight is 26 lbs. per monitor arm. When attaching to a Layout Studio® performance rail (LSR), maximum monitor weight is 15 lbs. per monitor arm.

Grommet mount option (GR) accommodates surfaces up to $1^1/2^n$ thick. Clamp mount options accommodate surfaces between $1^1/2^n$ and $2^5/8^n$ thick.

Wishbone® Dual Bar Monitor Arm Y91016 Assembly

Product Information

Description

This monitor arm assembly supports 2 or 4 monitors and comes with Wishbone® post(s), Wishbone dual bar(s), and the specified attachment bracket. It includes a dual bar location ring, a cable management clip, and an extension stud. Each dual bar has 2 quick release monitor attachments, and allows the monitors to be positioned as landscape or portrait.

Notes

The two monitors supported option (2) contains 1 Wishbone dual bar and 1 19" Wishbone post.

The four monitors supported option (4) contains 2 Wishbone dual bars and 2 $15^3/4^{\prime\prime}$ Wishbone posts.

Monitors are fixed at the desired height on the post attached at the back of the workstation.

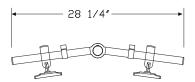

Maximum monitor weight is 52 pounds per dual bar (26 pounds for each monitor).

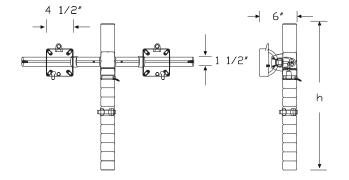

Grommet mount option (GR) accommodates surfaces up to $1^1/2''$ thick. Clamp mount options (WC, WHC) accommodate surfaces between $1^1/2''$ and $2^5/8''$ thick.

Each Wishbone dual bar accommodates 2 monitors up to 24" wide each. To support 4 monitors, specify Wishbone high load clamp (WHC) for the most support.

For extra support for the work surface, when specifying through-surface mounting brackets (T1 or T2), order spreader plate (Y92056.) separately. Flo® power hub (FPH) attachment works in conjunction with the clamp mount for Wishbone post (WC). The Flo power hub (Y92091.) replaces the circular disk on the clamp mount for Wishbone post (WC).

Flo power hub is recommended for monitor applications of 2 monitors. For applications with 4 monitors, the Wishbone high load clamp should be used, which is not compatible with the Flo power hub (Y92091.). This product was designed by Colebrook Bosson Saunders Products Ltd.

Wishbone® Plus Single-Screen Monitor Arm Assembly

Y91021

Product Information

Description

This monitor arm assembly supports a single flat panel monitor and includes a $19^3/4$ " post, monitor arm, and attachment bracket for a variety of mounting options. The wishbone post option includes a monitor arm location ring, a cable management clip, and an extension stud. The monitor arm has a quick release monitor attachment, and allows the monitor to be positioned as landscape or portrait. It has 80° vertical tilt.

Notes

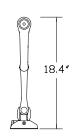

Maximum monitor weight is 52 lbs.

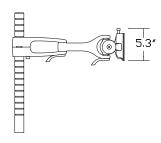

Grommet mount option (GR) accommodates surfaces up to $1^1\!/_2$ " thick. Clamp mount options accommodate surfaces between $1^1\!/_2$ " and $2^5\!/_8$ " thick.

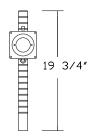

Flo® power hub (FPH) attachment works in conjunction with the clamp mount for Wishbone post (WC). The Flo power hub (Y92091.) replaces the circular disk on the clamp mount for Wishbone post (WC).

This product was designed by Colebrook Bosson Saunders Products Ltd.

Description

This monitor arm assembly supports 2 flat panel monitors and includes a $19^3/4$ " post, 2 monitor arms with back-to-back post bracket, and an attachment bracket for a variety of mounting options. The Wishbone® post option includes a monitor arm location ring, a cable management clip, and an extension stud. The monitor arms have a quick release monitor attachment, and allow the monitors to be positioned as landscape or portrait. They have 80° vertical tilt.

Notes

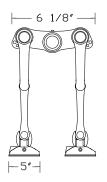

Maximum monitor weight is 52 lbs. per monitor arm.

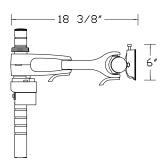

Grommet mount option (GR) accommodates surfaces up to $1^1/2^n$ thick. Clamp mount options accommodate surfaces between $1^1/2^n$ and $2^5/8^n$ thick.

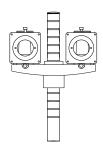

Flo® power hub (FPH) attachment works in conjunction with the clamp mount for Wishbone post (WC). The Flo power hub (Y92091.) replaces the circular disk on the clamp mount for Wishbone post (WC).

This product was designed by Colebrook Bosson Saunders Products Ltd.

Concerto Modular Monitor Arm Assembly

Product Information

Description

This modular monitor arm assembly is the GSA approved solution for supporting 1, 2, or 4 monitors from 1 post. Each monitor arm moves 180° side-to-side, tilts 180°, rotates up to 360°, and has a quick disconnect feature. Assembly includes a Concerto post, 1, 2, or 4 dynamic adjustable Concerto modular monitor arms, and a bracket that attaches the assembly to the surface.

Notes

This is a Thrive® Portfolio monitor arm assembly for GSA customers.

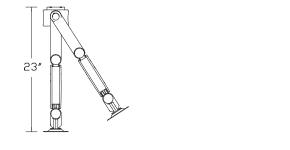

Each monitor arm supports a monitor weight ranging from 5-20 pounds.

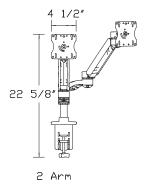

100mm and 75mm VESA compliant.

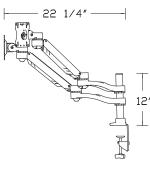

Surface clamp mount (CM) attachment option also ships with a grommet mount.

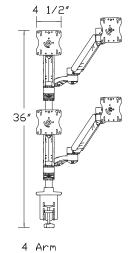

To add more arms to an assembly, order Concerto modular monitor armarm only (Y91190.) separately.

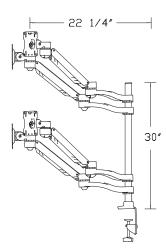

For a GSA approved laptop mount, order Concerto laptop mount (Y91191.) separately.

Flo® Single Screen Monitor Arm - Y92090 Arm Only

Product Information

Description

This easy to move, slim profile monitor arm supports a single flat panel monitor. It has a $13^{1}/4''$ height-adjustment range, a $20^{5}/8''$ extension range, and allows the monitor to tilt 40° upward and -40° downward. The arm includes a quick-disconnect feature that allows easy installation and removal of a monitor. It has integrated cable management along the underside of the arm, and a visual indicator that shows the arm's tension setting. The VESA attachment bracket provides 75mm and 100mm hole patterns. An allen wrench for adjusting the arm's tension is included. Attachment hardware included.

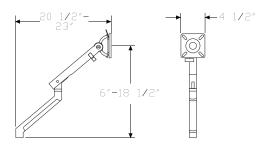

Notes

Accommodates monitor weights ranging from 7 to 20 lbs.

Order the following products separately:

- Laptop mount (Y91177.)
- Flo Two-Piece Clamp Mount (Y92092.)

Y92097. A

\$23

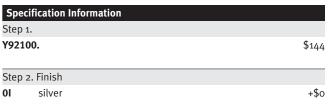

Description

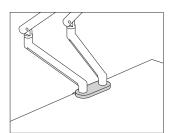

This clamp is used to attach 2 Flo single screen monitor arm - arm only (Y92090) to a work surface. The clamp is top mounted to speed installation. Attachment hardware is included.

Notes

Order Flo single screen monitor arm - arm only (Y92090) separately. Clamp works on surfaces greater than $1^1/8^n$ and less than $2^3/4^n$ thick.

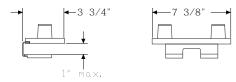

Description

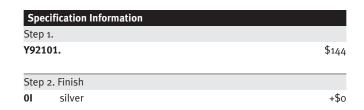

This low profile clamp is used to attach 2 Flo single screen monitor arm arm only (Y92090) to a work surface. The clamp is top mounted to speed installation. Attachment hardware is included.

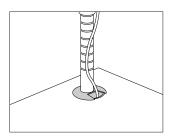

Notes

Order Flo single screen monitor arm - arm only (Y92090) separately.

Clamp works on surfaces greater than $\frac{3}{4}$ " and less than 1" thick.

Description

This grommet allows through-surface attachment of a Wishbone® post or Flo® monitor arm on a surface up to $1^1\!/2^n$ thick. It has a cutout to allow cords to route through the surface. Attachment hardware included.

Notes

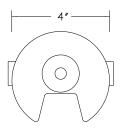

Field-drilling of surface may be required.

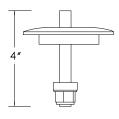

For proper attachment of post, specify the following products separately:

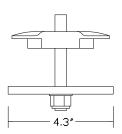

• Through-surface mounting bracket, 13/8" (Y92054.) or through-surface mounting bracket, 3" (Y92055.)

For use with Flo monitor arm, order Flo through mount (Y92094.) separately.

Product Information

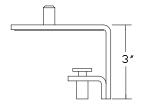

Description

This clamp attaches to a surface that is $^1\!/_2$ " to $2^5\!/_8$ " thick to support a Wishbone® monitor arm post.

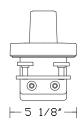

Notes

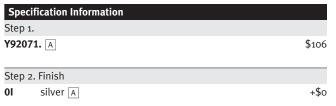

Clamp is used for all quad-screen assemblies (Y91015., Y91025., Y91045.).

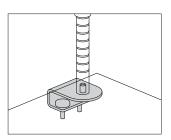

This product was designed by Colebrook Bosson Saunders Products Ltd.

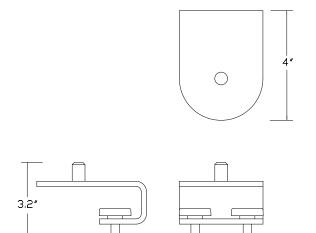

Description

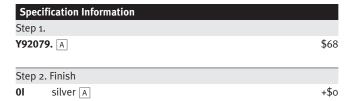

This clamp attaches to a surface to support a wishbone monitor arm post.

Notes

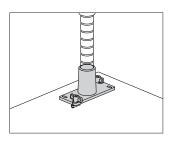

Low-profile clamp works with Envelop® desk (Y7750.)

This product was designed by Colebrook Bosson Saunders Products Ltd.

Beam-Mount Bracket, Wishbone Y92057 Post

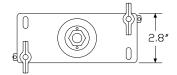

Product Information

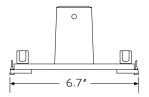

Description

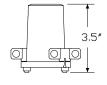

This bracket allows a Wishbone® post to attach to a horizontal beam found in many commercial traders desks and benching applications. Mounting hardware included.

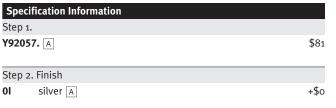

Notes

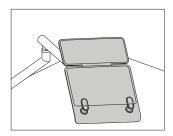

This product was designed by Colebrook Bosson Saunders Products Ltd.

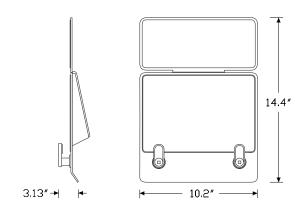

Description

This laptop mount lifts notebook computers off the work surface and includes an integral handle and an auxiliary surface to support a docking station. The laptop mount attaches to a monitor arm with a 100mm VESA (Video Electronic Standards Association-Mounting Interface Standards) pattern and can support laptops up to $1^1/2^n$ thick. It can be used in both single- and dual-screen applications. Laptops are held securely to the mounting surface by two adjustable ratcheting feet.

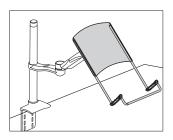

Notes

Maximum weight determined by the attached monitor arm. Requires 100mm VESA plate (not included).

Supports laptops of varying widths, up to 11" deep and $1^{1}/_{2}$ " thick. Supports docking stations up to 11" wide and 5" deep.

Description

This keyboard support has a track and a separate platform. The support adjusts $8^1/4^n$ above the track and $5^7/8^n$ below the track (total range of $14^1/8^n$) to provide sit-to-stand capability. A torsion spring helps offset keyboard weight during height adjustment. A tilt knob provides independent tilt adjustment from -15° to 10° . A glide track system allows easy movement, and the support swivels 360 degrees for storage beneath the work surface. Attachment hardware is included. Shipped knocked down.

The concave platform attaches to a boomerang[™], rectangular, or corner work surface. It has a wider surface that holds a keyboard and mouse, a laptop computer, or other input device. The routed edge on the platform makes it easy to grasp and move. Each platform has 4 clips that attach along the routed edge. The clips hold cords in place and keep a keyboard from sliding off the platform when tilted backward. The concave platform is available in 2 shapes: the concave platform with notched corners (Y7724.A) fits into the contour of a 24″-deep × 36″-wide corner work surface. The concave platform (Y7724.B) fits into the contour of a concave work surface. Each concave platform has a laminate or formcoat® finish.

The platform with palm rest and mouse tray attaches to a boomerang, rectangular, or corner work surface. It holds a detached keyboard and mouse. The platform includes 2 wire management clips, 4 anti-skid pads for the keyboard, 1 adhesive mouse keeper to keep the mouse from sliding off the tray when tilted backward, and 1 mouse pad. The mouse tray swivels 360° and tilts forward and backward; it mounts on either side of the platform for right- or left-handed users. The black palm rest is washable foam.

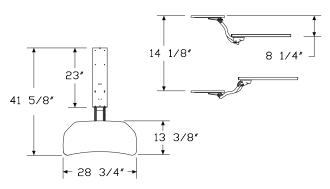

Trays are available in plastic, high-density polyethylene (HDPE), and aluminum with an adjustable or swivel mouse tray.

Notes

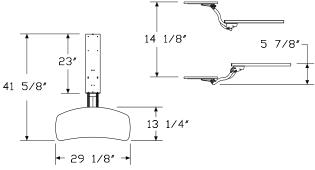

Bottom of work surface cannot have any bracing or obstruction.

For concave platforms, order optional input device platform palm rest (Y7792.) separately.

Description

This keyboard/mouse support attaches to a surface and holds a detached keyboard. It has horizontal, height, and tilt adjustments and swivels for storage beneath the surface. The support's visual indicators provide information on keyboard height and angle. The tray tilts over a 15° range (0° to -15°). The arm extends $10^{3}/8^{"}$ and has an $8^{3}/8^{"}$ height range. The mouse tray mounts on either side of the platform for right- or left-handed users. The mouse tray on the aluminum tray with mouse tray easily slides to either side of the platform for right- or left-handed users. Attachment hardware is included. Shipped knocked down. The high-density polyethylene (HDPE) tray with adjustable mouse tray (Y7727.1A) and the aluminum tray with adjustable mouse tray (Y7727.1B) have a 19"-long track and hold a detached keyboard and mouse. The adjustable mouse tray has height, lateral, and tilt adjustability. The black palm rest is washable foam.

The high-density polyethylene (HDPE) tray with swivel mouse tray (Y7727.1G) and the aluminum tray with swivel mouse tray (Y7727.1J) have a 19"-long track and hold a detached keyboard and mouse. The black palm rest is washable foam.

The comfort surface tray with mouse tray (Y7727.2H) has a 213/4"-long track and holds a detached keyboard and mouse with mouse holder. It can be used with a standard keyboard or with a Microsoft Natural® ergonomic keyboard. The platform and mouse tray are covered in urethane and include an integral foam palm rest.

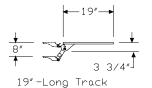

Trays are also available in plastic with an adjustable or swivel mouse tray.

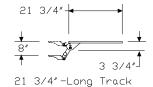

Notes

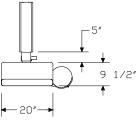

To allow for track installation, bottom of surface cannot have any bracing or obstruction.

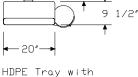

Order optional add-on tray (Y7728.) separately.

Description

This adjustable platform attaches to a corner work surface with an input platform cutout. The platform has a laminate top. A flexible waterfall front edge supports the user's arms during input and writing tasks, and flexible edges at each side provide protection from pinching between the platform and the adjacent work surface when adjusting the height. A curbed edge keeps items from rolling off the back and side edges. The height is adjusted with a paddle under the right side of the platform. The pneumatic assist mechanism allows the user to freely adjust the platform vertically. The platform also tilts 15° forward and 15° backward, using a knob on the right side. Attachment hardware is included.

Notes

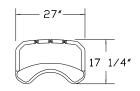

Order corner work surface with input platform cutout (A2336., EWS24., or FTS24.) separately.

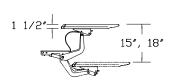

Storage products, keyboard tray, and accessories cannot attach to platform.

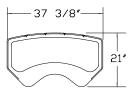

The 15" of height adjustment range (15) allows platform adjustment from 8" below to 7" above the rear work surface.

The 18" of height adjustment range (18) allows platform adjustment from 6" below to $12^{1/2}$ " above the rear work surface.

Description

This foam palm rest is designed to provide palm support along the front edge of a keyboard. It has an integrated flat base that fits beneath the keyboard to keep it in position. The palm rest is $20^{1}/_{4}$ " wide. Finish is black.

Dimensions

Description

This palm rest attaches to the front edge of an injection-molded keyboard tray and provides a soft contact surface. Finish is black umber.

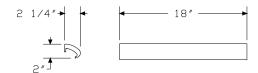

Dimensions

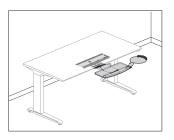

Step 1.

Y7790.

Description

The TL series of keyboard solutions feature an innovative, slim profile mechanism and platforms that accommodate virtually any application. The TL mechanism requires just 10" of space to install, allowing it to be used in applications where stiffeners would typically prevent mounting. It mounts with an optional track or directly to the underside of the surface. The track mounts along the width of the surface instead of the depth. The mechanism folds back on itself, making it compatible with many Renew™ tables.

Notes

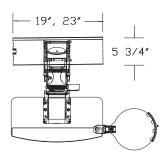

For more adjustability, specify 19"-long (2) or 23"-long (4) track.

Mounted track will be oriented along the width of the surface.

White keyboard mechanism only allows aluminum and white trays to be used.

When specifying keyboard with track, track color is black for all mechanism colors.

Description

This compact wall-mounted technology support is ideal for healthcare or education applications where space is at a premium. This solution provides counterbalanced adjustment through a 12" vertical range and stores within 4" from the wall. The innovated self-storing keyboard surface folds neatly against the track when not in use, and attaches to a 40" wall track. Can be mounted to Compass wall tiles.

CPU supports must be wall mounted when used with FX40. Hardware is included.

Notes

All painted surfaces are finished with anti-microbial powder coat paint to support infectious control policies.

OSHPD and Engineer certified.

Supports 75mm and 100mm VESA patterns.

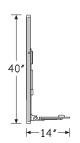

Fasteners provided for virtually all applications except masonry surfaces.

CPU supports sold separately:

- Track Mount Small Cradle CPU Support (Y94100.)
- Track Mount CPU Enclosure (Y94102.)

This palm rest attaches to the front edge of an injection-molded keyboard tray and provides a soft contact surface. Finish is black umber.

Specification Information	
Step 1.	
Y7790.	\$51

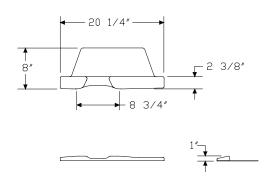

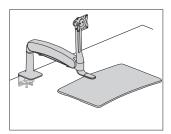

Description

This foam palm rest is designed to provide palm support along the front edge of a keyboard. It has an integrated flat base that fits beneath the keyboard to keep it in position. The palm rest is $20^{1}/4^{\prime\prime}$ wide. Finish is black.

Description

This sit-stand workstation allows users to easily transform an existing fixed height work surface into a sit-stand workstation. It uses a gas-assist counterbalanced arm to raise and lower the single surface workstation through $18^{1/2}$ " of height adjustment with smoothness and stability. The work surface can be moved to the side when not in use. Grommet and clamp mount hardware included.

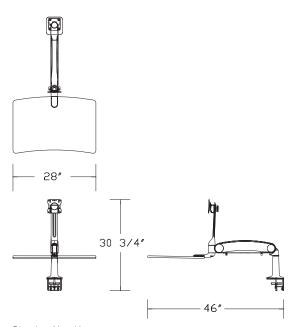

Notes

Silver (oI) and black (oH) finishes come with black platform. Single monitor configuration (1) supports monitors ranging from $6^{1}/_{2}$ pounds to $24^{1}/_{2}$ pounds.

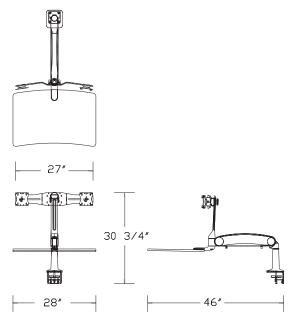

Dual monitor configuration (2) supports 2 monitors ranging from $1^{1}/_{2}$ pounds to $9^{1}/_{2}$ pounds each, and up to $24^{\prime\prime}$ wide each.

Dual monitor configuration (2) includes single monitor configuration (1) and the Altissimo crossbar (Y₇805.).

To convert an existing single-monitor product to a dual-monitor configuration, order Altissimo crossbar (Y7805.) separately.

Thrive® Portfolio Price Book (12/17)

HermanMiller

Description

This crossbar converts any product in the Altissimo family from a single to a dual configuration. The crossbar supports monitors up to 24" wide and can be retrofit in the field.

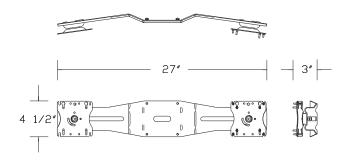

Notes

Crossbar weighs 5 pounds.

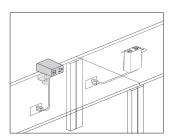

Altissimo crossbar is compatible with Altissimo Prime (Y7800.), ordered separately.

Crossbar supports 2 monitors up to 24" wide each.

Crossbar can be added to an Altissimo Prime (Y7800.) in the field to convert a single to a dual configuration.

Logic C1000 Universal Clamp Mount Distributor

Y1423.

Product Information

Description

This Logic Power Access Solutions™ clamp mounted electrical distributor comes in several widths and configurations of simplex receptacles and USB charging ports. The unit is powered using a standard power cord with plug end or a hard-wired connection with electrical conduit. Data cords can be routed through the integrated opening at the rear of the unit. Product is UL listed.

Notes

Clamp mounts on worksurfaces 1"-11/4" thick.

Faceplate color matches unit color.

Simplex receptacles have alternating orientation and greater than normal plug spacing to accommodate most plug types.

USB ports supply 10-watt power and will charge most small electronic devices. Software in each device controls that devices ability to accept a charge via USB.

Thrive® Power and Data Support

Logic G1000 Grommet Mounted Electrical Distributor

Product Information

Description

This Logic Power Access Solutions™ grommet mounted electrical distributor comes in several widths and configurations of simplex receptacles and USB charging ports. The unit is powered using a standard power cord with plug end, a hard-wired connection with electrical conduit, or an IEC connector when used with Renew™ Sit-to-Stand tables. An integrated cord keeper at the face of the unit captures data cords. The unit pivots from a closed position to 135° allowing easy access to power and data cords stored beneath the unit. Product is UL listed.

Notes

Field cutting of grommet cutout is possible; factory cutouts are recommended.

IEC connector for Renew power type (C) includes short cord designed to connect to the Renew table power cord through-leg option. Actual cord length may vary.

Simplex receptacles have alternating orientation and greater than normal plug spacing to accommodate most plug types.

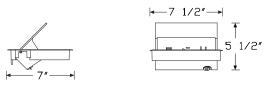

USB ports supply 10-watt power and will charge most small electronic devices. Software in each device controls that devices ability to accept a charge via USB.

Refer to Renew[™] Sit-to-Stand Tables and Locale[®] planning guides for specific application information.

20' cord/conduit length (20) is recommended for Exclave® applications.

Description

This electrical distributor mounts flush in a surface and has a flip-up lid for accessing power and data from above or below the surface. The flip lid can be closed once devices are connected for a clean visual appearance. It can be configured with several combinations of simplex receptacles, data openings, and USB charging ports. The distributor is available with a power cord with plug end, or electrical conduit for hardwire connection. A voice/data adapter kit is included, allowing the data openings to accept various manufacturers' couplers and jacks. Attachment hardware and cord/cable clips are also included. Product is UL listed.

Notes

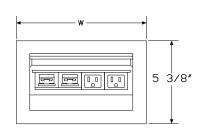

Field cutting of surface may be required. Information on surface cutout size is included on instruction sheet.

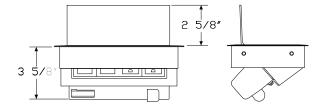

Silver anodized option (oK) has anodized trim with white plastic simplex/data interior.

Overall width for distributor with 4 openings is $8^3/8''$ wide. Overall width for distributor with 6 openings is $11^3/8''$ wide.

USB port charges at 2.1 amps.

Description

This outlet attaches to the back edge of an Action Office® Series 2 squared-edge work surface, Ethospace® work surface without a cable management trough, or Passage® desk module. It supports faceplates with voice/data ports at work surface height and has a furniture industry standard 1.38" high \times 2.69" wide opening that accepts voice/data modules or faceplates from various manufacturers. Finish is graphite. Attachment hardware is included.

Connect[™] Single Circuit Electrical Y1377. Power Entry

Product Information

Description

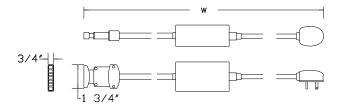

This standard receptacle 15-amp power entry provides power for single circuit electrical distributors. Up to 8 single circuit modular electrical distributors can be daisy chained and connected in any order. If more than 8 units are connected to this power entry, the system automatically shuts down and a red LED illuminates. A green LED indicates that more units can be connected and the system is ready. Standard attachment hardware is included.

Notes

UL listed when used in conjunction with most Everywhere $^{\!\scriptscriptstyle\mathsf{M}}$ fixed height tables.

Order electrical distributors (Y1371., Y1372., Y1373., Y1374., Y1375.) and single circuit jumpers (Y1378.) separately.

Connect[™]-Power Entry with Plug Y1342. End, 20 Amp

Product Information

Description

This corded power entry brings power from a building's 20-amp electrical outlet to the end of a 2 circuit duplex receptacle. It distributes 1 circuit only. UL/CUL recognized.

Notes

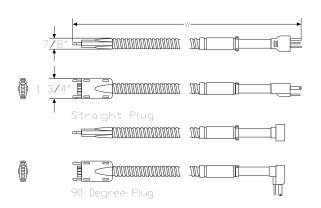

Only Connect™ duplex receptacle, 2-circuit, 15 amp circuit I (Y1345.1) receptacles can be used with this product as circuit I is the only active circuit.

Connect modular power products are not compatible with electrical components used in Herman Miller systems or desking product lines. When routing power to an adjacent desk or table, surfaces must be ganged together. Order ganging bracket kit (Y1338.) separately. When using power entry with plug end, electrical system will be UL recognized, not UL listed.

Power entry does not meet requirements for use in San Francisco.

Power entry has a combination of black liquid tight conduit and 3/8" silver metallic conduit.

straight plug

90° plug

Description

This power entry connects a building's electrical from a wall, floor, or column to the end of a 2 circuit duplex receptacle and distributes up to 2 20-amp circuits. UL 183 listed, CUL Certified.

Notes

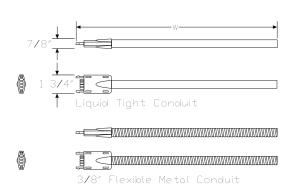

Connect™ modular power products are not compatible with electrical components used in Herman Miller systems or desking product lines. When routing power to an adjacent desk or table, surfaces must be ganged together. Order ganging bracket kit (Y1338.) separately. Power entry can be field cut to the appropriate length.

For San Francisco, specify ³/s" flex metallic conduit option (C).

Finish color on liquid tight conduit is black. Finish color on metallic conduit is silver.

A licensed electrician must wire the power entry to the building's electrical system.

Connect[™] - Modular Power Entry, Y1349. 2 Circuit, Architectural Wall Receptacle Box

Product Information

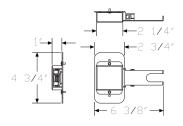

Description

This black receptacle box provides a modular power connection to building power at the wall in a standard receptacle box allowing for the electrical jumper to be easily removed when not in use. Product is UL listed when installed by a licensed electrician.

Notes

Connect™ modular power products are not compatible with electrical components used in Herman Miller systems or desking product lines. Includes mounting plate, modular connection with wiring, and cover. Jumper (Y1343.) plugs into the receptacle box modular power entry. Works with Connect 2-circuit products only.

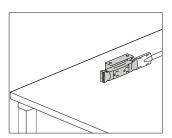

Dimensions

Specification Information

Step 1.

Y1349.

Description

This duplex receptacle attaches beneath a desk or table to provide electrical access. It has connection points at both ends for attaching a power entry or 2-circuit power jumper. Finish is black. Attachment bracket and hardware included. UL 183 listed, CUL Certified.

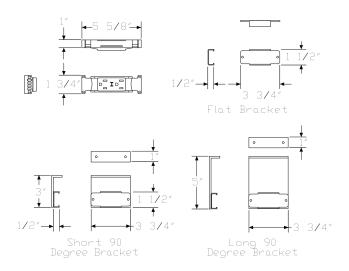

Notes

Connect™ modular power products are not compatible with electrical components used in Herman Miller systems or desking product lines. When routing power to an adjacent desk or table, surfaces must be ganged together. Order ganging bracket kit (Y1338.) separately. Receptacle is labeled as I or II for circuit identification.

To route power from building to receptacle, order power entry, 2-circuit (Y1341.) or power entry with plug end, 20 amp (Y1342.) separately. Power entry with plug end distributes 1 circuit only.

To route power between receptacles, order power jumper, 2-circuit (Y1343.) separately.

Connect[™]-Dual Receptacle Power Y1340. Kit, 2-Circuit

Product Information

Description

This single-sided power kit attaches to the underside of a desk or table to provide electrical access and distributes up to 2 20-amp circuits. Receptacles, power jumper, conduit clamps, and attachment hardware included. UL 183 listed, CUL Certified.

Notes

Connect™ modular power products are not compatible with electrical components used in Herman Miller systems or desking product lines. Match width of power kit to width of surface.

When routing power to an adjacent desk or table, surfaces must be ganged together. Order ganging bracket kit (Y1338.) separately.

Receptacles are labeled as I or II for circuit identification.

36"-wide power kit uses a receptacle-to-receptacle block connector in

place of a jumper to connect the receptacles together.

To route power from building to power kit, order power entry, 2-circuit

(Y1341.) or power entry with plug end, 20 amp (Y1342.) separately. Power entry with plug end distributes 1 circuit only.

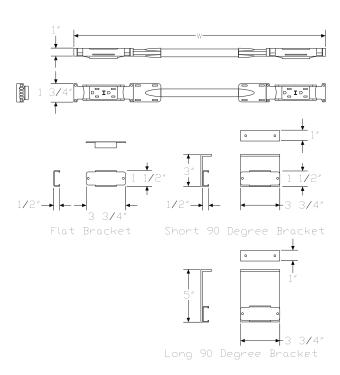

To connect power kits between adjacent desks or tables, order power jumper, 2-circuit (Y1343.) separately.

For San Francisco, specify 3/8" flex metallic conduit option (C). Receptacle finish is black. Finish color on liquid tight conduit is black. Finish on metallic conduit is silver.

36" - 54" wide kits have no conduit clips. 60" - 78" wide kits include 1 conduit clips. 84" - 96" wide kits include 2 conduit clips.

To attach kit flush to bottom of surface, with receptacles facing down, specify flat attachment to underside of surface option (A).

To attach kit perpendicular to bottom of surface, specify short 90° attachment to underside of surface option (B).

Description

This block connects components together to distribute power. The H-block connector connects jumpers together at 2-, 3-, and 4-way connection points, or distributes power from a power entry to multiple components. The receptacle-to-receptacle connector connects 2 receptacles together. Finish is black. Attachment hardware included. UL 183 listed, CUL Certified.

Notes

Connect™ modular power products are not compatible with electrical components used in Herman Miller systems or desking product lines.

When routing power to an adjacent desk or table, surfaces must be ganged together. Order ganging bracket kit (Y1338.) separately.

Thrive® Portfolio Price Book (12/17)

Description

This power entry connects a building's electrical from a wall, floor, or column to the end of a 4-circuit dual junction block power kit or junction block and distributes up to 4 20-amp circuits. UL 183 listed, CUL Certified.

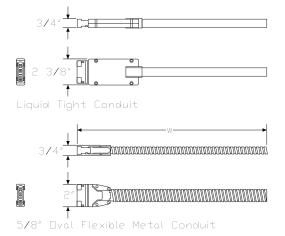

Notes

Connect™ modular power products are not compatible with electrical components used in Herman Miller systems or desking product lines. Power entry can be field cut to the appropriate length.

For San Francisco, specify 3/8" flex metallic conduit option (C). Finish color on liquid tight conduit is black. Finish color on metallic conduit is silver.

A licensed electrician must wire the power entry to the building's electrical system.

Connect[™]-Power Entry, 4-Circuit, Y1352. New York City

Product Information

Description

This power entry connects a building's electrical from a wall, floor, or column to the end of a 4-circuit dual junction block power kit or junction block and distributes up to 4 20-amp circuits. It includes a junction box and harness. UL 183 listed, CUL Certified.

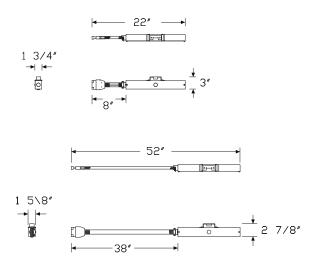

Notes

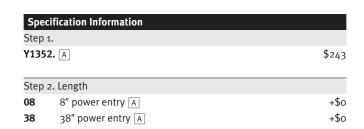

Connect™ modular power products are not compatible with electrical components used in Herman Miller systems or desking product lines.

A licensed electrician must wire the power entry to the building's electrical system.

For use with Renew™ Link, specify 8" power entry (o8).

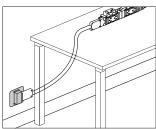

For use with Layout Studio®, specify 38" power entry (38).

Thrive® Power and Data Support

Connect[™]-Modular Power Entry, 4 Y1359. Circuit, Architectural Wall Junction Box

Product Information

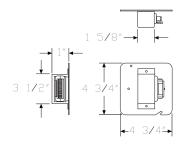

Description

This black receptacle box provides a modular power connection to building power at the wall in a standard 2-gang electrical box allowing for the electrical jumper to be easily removed when not in use. Product is UL listed when installed by a licensed electrician.

Notes

Connect™ modular power products are not compatible with electrical components used in Herman Miller systems or desking product lines. Includes mounting plate, modular connection with wiring, and cover. Jumper (Y1353.) plugs into the receptacle box modular power entry. Works with Connect 4-circuit products only.

Connect[™]-Dual Junction Block Power Kit, 4-Circuit

Y1350.

Product Information

Description

This power kit attaches to the underside of a desk or table to provide electrical access and distributes up to 4 20-amp circuits. It is available as a single-sided or double-sided kit. The single-sided power kit is modular and includes 2 junction blocks, a non-adjustable jumper, and attachment hardware. The double-sided kit is a 1-piece construction consisting of 2 junction blocks, a jumper, and attachment hardware; it cannot be reconfigured. The single-sided and double-sided kits are UL 183 listed, CUL certified.

Notes

Connect[™] modular power products are not compatible with electrical components used in Herman Miller systems or desking product lines. Match width of power kit to width of surface.

When routing power to an adjacent desk or table, surfaces must be ganged together. Order ganging bracket kit (Y1338.) separately. The single-sided junction block provides 1 or 2 receptacle locations. The double-sided junction block provides 2 to 4 receptacle locations. Order duplex receptacle, 4-circuit (Y1355.) separately.

To route power from building to power kit, order 4-circuit power entry (Y1351.) separately.

Power kit is not necessary for a 36"-wide surface. To add power to a 36"-wide surface, order double junction block, 4-circuit (Y1358.DH) or double back-to-back junction block (Y1358.DB).

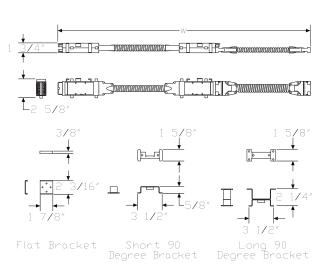

To connect power kits between adjacent desks or tables, order junction block to junction block jumper, 4-circuit (Y1353.) separately.

Finish color of junction block is black. Finish color of 5/8" oval metallic conduit is silver.

42" - 54" wide kits have no conduit clips. 60" - 78" wide kits include 1 conduit clip. 84" - 96" wide kits include 2 conduit clips.

To attach kit with single-sided junction block option (S) flush to bottom of surface, with receptacles facing down, specify flat attachment to underside of surface option (A).

To attach kit perpendicular to bottom of surface, specify short 90° attachment to underside of surface option (B).

Connect[™]-Junction Block to Junction Block Jumper, 4-Circuit

Y1353.

Product Information

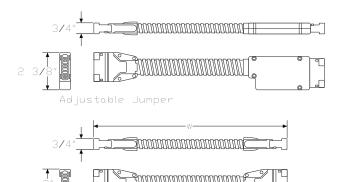

Description

This power jumper distributes up to 4 20-amp circuits between 2 power kits or junction blocks and is available as adjustable or non-adjustable. The adjustable jumper allows 1 end of the jumper to extend an additional 3" when connecting to components under an adjacent desk or table. UL 183 listed, CUL Certified.

Notes

Connect™ modular power products are not compatible with electrical components used in Herman Miller systems or desking product lines. When routing power to an adjacent desk or table, surfaces must be ganged together. Order ganging bracket kit (Y1338.) separately. When connecting dual junction block power kits (Y1350.) between adjacent surfaces in a linear run, specify 24"-wide jumper. When connecting dual junction block power kits (Y1350.) at the outside corner of 2 24"-deep surfaces at 90°, specify 42"-wide jumper. When connecting dual junction block power kits (Y1350.) at the outside corner of 2 30"-deep surfaces at 90°, specify 48"-wide jumper. When connecting dual junction block power kits (Y1350.) at the outside corner of 1 30"-deep and 1 24"-deep surface, specify 48"-wide jumper. When connecting dual junction block power kits (Y1350.) at the inside corner of 2 24"- or 30"-deep surfaces, specify 30"-wide jumper. Finish on 5/8" oval metallic conduit is silver.

- Order the following products separately:
 Conduit clamps (Y1339.)
- Dual junction block power kit, 4-circuit (Y1350.) or junction block, 4-circuit (Y1358.)
- Duplex receptacle, 4-circuit (Y1355.) for junction block, 4-circuit
- Junction block bracket, 4-circuit (Y1357.) for junction block, 4-circuit
- Power entry, 4-circuit (Y1351.)

adjustable jumper Α nonadjustable jumper

HermanMiller

Description

This block attaches beneath a desk or table and accepts 4-circuit receptacles for access and distribution of up to 4 20-amp circuits. It has connection points at both ends for attaching a power entry or 4-circuit power jumper. The block can be specified for 1 receptacle, 2 receptacles side-by-side, 2 receptacles back-to-back, or 4 receptacles; 2 side-by-side and 2 back-to-back. Finish is black. Attachment bracket and hardware included. UL 183 listed, CUL Certified.

Notes

Connect™ modular power products are not compatible with electrical components used in Herman Miller systems or desking product lines. When routing power to an adjacent desk or table, surfaces must be ganged together. Order ganging bracket kit (Y1338.) separately.

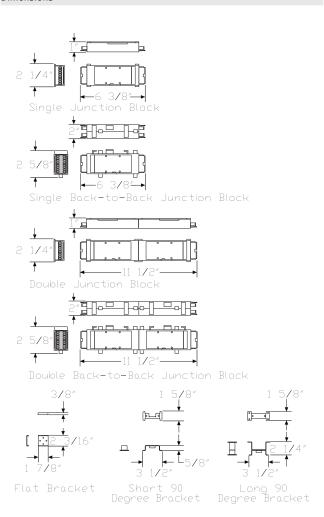

To route power from building to junction block, order 4-circuit power entry (Y1351.) separately.

To route power between junction blocks, order junction block to junction block jumper, 4-circuit (Y1353.) separately.

To route power from a 36"-wide surface to an adjacent surface, specify double junction block option (DH) or double back-to-back junction block option (DB) and order power jumper (Y1353.) separately.

Order duplex receptacle, 4-circuit (Y1355.) separately.

To maintain proper spacing when specifying double junction block (Y1358.DH) or double back-to-back junction block (Y1358.DB), order adjustable jumpers (Y1353.xxxA) separately.

Connect[™] - S₃10 Electrical Unit with Connect Modular Connection

Y1329.

Product Information

Description

This electrical distributor provides power to a lateral file, low credenza, or storage case with a Connect™ 4-circuit modular connector. It can be top surface mounted flush or vertically mounted in the false back of a cabinet. A voice/data adapter kit is included, allowing the data openings to accept various manufacturers' couplers and jacks. Attachment hardware is included. Product is UL listed.

Notes

Field cutting of surface may be required. Information on surface cutout size is included on instruction sheet.

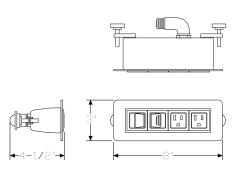

Silver option (oI) and white option (oJ) have painted metal trim with white plastic simplex/data interiors. Black option (oH) has black painted trim with black plastic simplex/data interior.

Modular electrical connectors can only connect to Connect 4-circuit modular power system.

Order the following products separately:

- Canvas powered metal low credenza (FMP72A., FMP72K., FMP73A., FMP73K., FMP74A., FMP74K.)
- Canvas powered wood low credenza (FFD72A., FFD72K., FFD73A., FFD73K., FFD74A., FFD74K.)
- Meridian powered storage case (PSC-, PS6-, PSAM-, PSKM-, PSKV-)
- Meridian powered storage lateral file (PS26-, PS2AM, PS2AV, PS2KM, PS2KV)
- Connect power entry, 4-circuit (Y1351.)
- Connect junction block to junction block jumper, 4-circuit (Y1353.)
- Connect block connector, 4-circuit (Y1354.)
- Other Connect 4-circuit modular power components as required For Canvas powered storage, order Connect conduit clamp (Y1339.) separately.

Pari Screen, Height Adjustable Tables

Y1116.

Product Information

Description

This screen attaches to an individual height adjustable work surface. It has an all-fabric, tackable surface with frameless design, and comes in privacy and modesty sizes. Attachment hardware included.

Notes

Privacy and modesty panel actual width is 2" less than specified width. Privacy screen (A) top edge aligns with the 42" high Canvas datum line; bottom edge is 4" below work surface.

Privacy & modesty screen (B) top edge aligns with the 42'' high Canvas datum line; bottom edge is 9'' below work surface.

Privacy screen (C) top edge aligns with the 46" high Canvas datum line; bottom edge is 4" below work surface.

Privacy & modesty screen (D) top edge aligns with the 46" high Canvas datum line; bottom edge is 9" below work surface.

Privacy screen (E) top edge aligns with the 53" high Canvas datum line; bottom edge is 4" below work surface.

Privacy & modesty screen (F) top edge aligns with the 53" high Canvas datum line; bottom edge is 9" below work surface.

Screens 54" wide and wider include an additional 1"-wide center mounting bracket.

Recommended mounting creates a 1" gap between back edge of surface and the screen to accommodate cable routing and the attachment or clamp-mounting of other hardware to the surface.

Optional cable management trough is only available when specifying privacy & modesty height option (B). Trough finish is graphite.

Attachment brackets are inset from edge of screen by approximately 8'' and require $2^{1}/2''$ of work surface for attachment.

Attachment bracket finish is painted graphite.

Screen accepts Customer's Own Material (COM). Yardage is estimated for nondirectional 54"-wide fabrics.

For vertical fabric direction (T):

HermanMiller Thrive® Portfolio Price Book (12/17) **185**

Description

This side screen has a tackable surface and slips onto the front of most HermanMiller work surfaces to provide visual privacy on tables, benches, and systems product. It attaches without tools and can be secured in place with screws on the underside of the surface. Clamp finish is graphite.

Notes

Screen height is 13" above work surface.

Screen is not compatible with Layout Studio®.

Screen can be used with work surfaces up to $1^{1}/_{4}$ " thick.

Bottom of attachment bracket extends $1^{1}/_{2}$ " below work surface.

Screen accepts Customer's Own Material (COM). Yardage is estimated for nondirectional 54"-wide fabrics.

For vertical fabric direction (T):

Height—Yardage

13-0.94

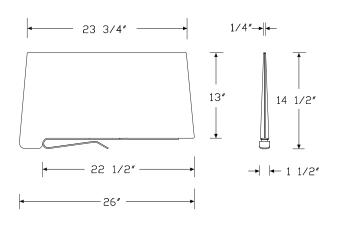

For horizontal fabric direction (R):

Height—Yardage

13-1.00

For information on multiple quantities or directional fabrics, contact COM Department. See Order Information in Appendices.

Description

This surface-attached tackable screen attaches to an individual table, desk, or work surface. It has a frameless all-fabric design with a flat edge, and comes in privacy and modesty sizes. Attachment hardware included.

Notes

Privacy and modesty panel actual width is 2" less than specified width. Privacy screen (A) top edge is 13" above top of work surface; bottom edge is $3^3/_4$ " below work surface.

Privacy & modesty screen (B) top edge is 13" above top of work surface; bottom edge is 10" below work surface.

Screens 54" wide and wider include an additional 1"-wide center mounting bracket.

Recommended mounting creates a 1" gap between back edge of surface and the screen to accommodate cable routing and the attachment or clamp-mounting of other hardware to the surface.

Optional cable management trough is only available when specifying privacy & modesty height option (B). Trough finish is graphite.

Attachment brackets are inset from edge of screen by approximately 8'' and require $2^1/2''$ of work surface for attachment.

Attachment bracket finish is painted graphite.

Screen accepts Customer's Own Material (COM). Yardage is estimated for nondirectional 54"-wide fabrics.

Laminate Screen, Surface Attached

Product Information

Description

This screen attaches to an individual height adjustable work surface. It has a laminate surface with frameless design and comes in privacy and modesty sizes. Attachment hardware included.

Notes

Privacy and modesty panel actual width is 2" less than specified width. Privacy screen (13A) top edge aligns with the 42"-high Canvas datum line; bottom edge is 4" below work surface.

Privacy & modesty screen (13B) top edge aligns with the 42"-high Canvas datum line; bottom edge is 11¹/8" below work surface.

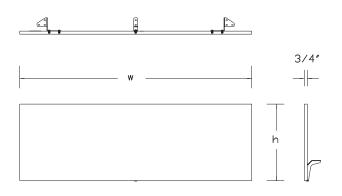

Screens 54" wide and wider include an additional 1"-wide center mounting bracket.

Recommended mounting creates a 1" gap between back edge of surface and the screen to accommodate cable routing and the attachment or clamp-mounting of other hardware to the surface.

Optional cable management trough is only available when specifying privacy & modesty height option (13B). Trough finish is graphite. Attachment brackets are inset from edge of screen by approximately 8'' and require $2^{1}/2''$ of work surface for attachment.

Attachment bracket finish is painted graphite.

Description

This modesty panel attaches to a table, desk, peninsula, or work surface. It has a solid MDF core with a laminate or veneer surface, aluminum top rail and attachment brackets. Cable trough is optional. Attachment hardware included.

Notes

Specify modesty panel to be equal to surface width, or 6" less than surface width of a height adjustable table.

Modesty panel dimension is approximately 10" high with width specified in step 1. Actual width 1/4" less than specified value.

Modesty panel is field installed.

Brackets are located to work with Connect™ 2-circuit power system.

Modesty panel (Y1113.) may impede ideal folding functionality of flip top table (DT5Ax.). For use with flip top table, modesty panel (Y1114.) is recommended. It comes only with a fabric surface.

Description

This modesty panel attaches to a table, desk, peninsula, or work surface. It has a fabric surface with aluminum top rail and attachment brackets. Attachment hardware included.

Notes

Specify modesty panel to be equal to surface width, or 6" less than surface width of a height adjustable table.

For use with flip top table (DT₅Ax.), modesty panel (Y₁₁₁₄.) is recommended to enable optimal folding functionality of the table.

Specification Information

Description

This articulating LED task light sits freestanding, clamps to a surface, mounts on a Layout Studio® performance rail, or mounts on a rail tile. This light swivels 360° at the base while articulating joints at the base, head, and midsection give precise control over the lighted area. The energy-efficient light-emitting diode (LED) has a 3500 Kelvin color temperature that consumes slightly more than 6 watts of power at full output. The light can be dimmed dynamically by the user down to 15% of full power, includes an integrated touch switch, and has a 12′ cord. UL listed power supply is included.

Notes

Light has energy saving auto shutoff feature after 9 hours of use. When specifying rail tile option (TR), it is suggested to mount close to the surface.

Description

This small organizer rests on the surface. It has a painted metal shelf and rod for attaching and holding accessory products and other items. The steel frame allows magnetic attachment of the document clip and name tag. The container accessories fit on the organizer above or below the shelf. The USB power module attaches to the underside of the shelf. The rod bookend attaches to the rod. Rod finish matches organizer finish.

Notes

Order the following accessories separately:

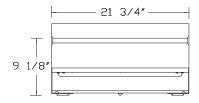

- Magnetic document clip (YT400.)
- Name tag (YT410.)
- USB power module (YT420.)
- Rod bookend (YT440.)
- Organizer liner (YT500.)
- Short bin (YT800.)
- Square pencil cup (YT820.)
- Round pencil cup (YT825.)
- Tray (YT830.)
- Box (YT840.)

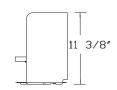

Order surface clamp for organizers (YT460.) separately.

Small organizer is recommended for use on Renew[™] Link single-sided and back-to-back rectangular height-adjustable benches (DU1A, DU2A). It is not recommended for use on Renew Link back-to-back trapezoid height-adjustable bench (DU2T).

Description

This screen clamps to the front and back of a surface and is movable without tools. Steel screen allows for attachment of the magnetic document clip, name tag, and magnetic marker board. Screen comes with a ledge liner in a choice of colors.

Notes

Clamp attaches to square edge surfaces with minimum 1" or $1^1\!/_{\!8}$ " nominal thickness.

No HermanMiller legs interfere with the clamp.

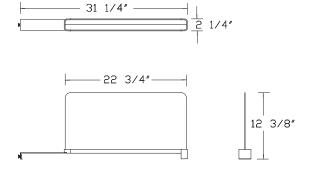

Screen can be mounted to surfaces 24"-36" deep. 24" deep screen (24) can be adjusted to fit up to a 30" deep work surface. 30" deep screen (30) can be adjusted to fit up to a 36" deep work surface.

Order the following accessories separately:

- Magnetic document clip (YT400.)
- Name tag (YT410.)
- Magnetic marker board (YT450.)
- Slim screen liner (YT540.)

Slim screen is recommended for use on Renew[™] Link single-sided and back-to-back rectangular height-adjustable benches (DU1A, DU2A). It is not recommended for use on Renew Link back-to-back trapezoid height-adjustable bench (DU2T).

Attached with Modesty

Metal Straight Screen, Surface

YT250.

Product Information

Description

This metal screen attaches to an individual table, desk, stationary or height-adjustable work surface. It has a frameless all-metal design with a straight edge and includes a modesty panel. Screen has built-in ledge to support documents when used with the magnetic document clip. Screen accepts magnets. Attachment hardware included.

Notes

Screen top edge is 11.375" above top of work surface; bottom edge is 3.8" below work surface.

Recommended mounting creates a 1" gap between back edge of surface and the screen to accommodate cable routing and the attachment or clamp-mounting of other hardware to the surface.

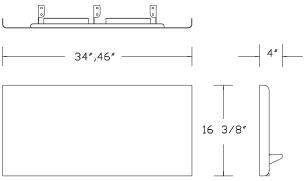

Attachment brackets are inset from edge of screen by approximately $6\frac{1}{2}$ " and require $2\frac{1}{2}$ " of work surface for attachment.

Attachment bracket finish matches specified screen finish.

Order magnetic document clip (YT400.) separately.

Description

This painted metal shelf comes in 4 sizes and mounts to a surface along the back edge, or to a Layout Studio® performance rail. Both attachment types are user movable without tools. The backdrop is optional, and can be easily retrofitted in the field. Backdrop and rod finish match shelf finish. Space under the shelf can accommodate accessory boxes. Shelf comes with a liner in a choice of colors.

Notes

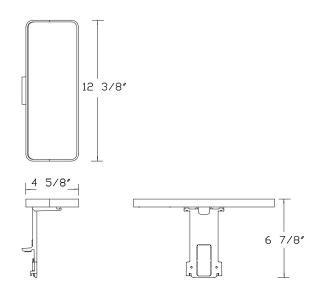

Changing the attachment type on an existing shelf is not easily completed in the field.

Order the following accessories separately:

- Name tag (YT410.)
- USB power module (YT420.)
- Rod bookend (YT440.) for 8" shelf depth only
- Short bin (YT800.)
- Small box (YT840.S)
- Square pencil cup (YT820.)
- Round pencil cup (YT825.)
- Shelf liner (YT510.)

Shelf and backdrop are not recommended for use on Public Office Landscape® desks (BVD1.) in the back-to-back configuration.

Thuisto Moule Too

Description

This all metal rail clamps to the edge of a freestanding surface. It has 4 forward facing slots for mounting. Accessories typically used on Ethospace® tiles and Action Office® rail tiles can be mounted on this surface attached tool rail.

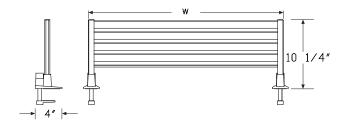

Notes

Order accessories such as paper trays and shelves separately. Surface clamp adjusts to fit surfaces $^1\!/_2$ " to $^1\!/_8$ " thick. Gap on back side of surface will be 1" to allow for clamping bracket attachment.

There are 4 horizontal slots for hanging accessories on the 8" height unit. 8" height refers to tile height; overall height from top of surface is approximately 10".

Usable hanging space approximately 3" less than overall width. Not recommended for use with rail mounted monitor arms.

Thrive® Work Tools

Product Information

Description

This desk stands alone or can be used freestanding in a systems environment. The sliding work surface is comprised of 2 sections; the infield section at the front is made of black urethane with a center cutout, the outfield section at the back has a laminate surface with clear plywood edges or a veneer surface with stained plywood edges. With the user seated in a reclined position, the surface of the desk slides forward 7", allowing the infield to pivot down 7 degrees to surround the user and support the forearms and wrists. The desk is designed to be used with all Herman Miller work chairs, or any chair with a synchronous tilt.

It is available with Avive® legs with pin height adjustment or Everywhere™ T-legs with sit-to-stand electric height adjustment. The Avive legs adjust in 1″ increments over a 6″ range and can be specified with glides or locking casters. The glides have 1″ leveling range. The Everywhere legs with standard-height adjustment adjust anywhere over a 19″ range. The Everywhere legs with extended-height adjustment adjust anywhere over a 26″ range. The legs have glides with ¹/₂″ leveling range. Desk is shipped knocked down.

Notes

Desk meets or exceeds BIFMA load/weight requirements. For ease of use, limit weight on rear surface to 35 lbs or less.

Items placed on the infield portion of the work surface can tip and fall when infield surface is in the reclined position.

Items placed on any part of the work surface can tip and fall when the work surface is being moved.

Monitor should be secured to the rear surface of the work surface.

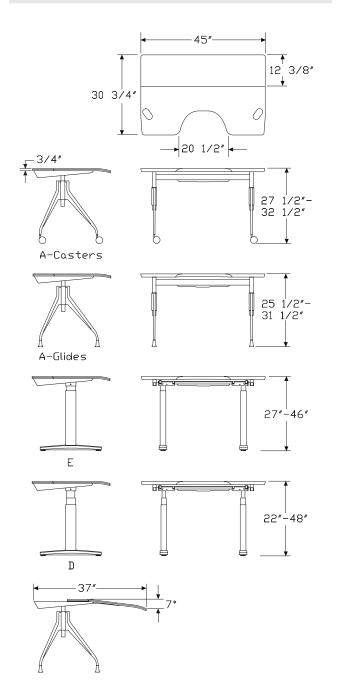

With casters locked, the desk could move slightly depending on the type of floor and the amount of weight on the work surface.

For leg options E and D, leg column finish on polished aluminum (CD) base is black.

Order optional accessories separately:

• Foot pillow (EE900.)

20-Day or Less/Assigned Lead-Time Order Information

20-Day or Less and Assigned Lead-Time Programs

20-day or less and assigned lead-time products are designed for established Herman Miller dealers with pre-approved credit.

Products are distributed from multiple manufacturing facilities across the United States. All products and options not designated by an Assigned Lead-Time icon $\boxed{\mathbb{A}}$ will ship in 20 business days or less after being acknowledged by Herman Miller. Products and options designated by an $\boxed{\mathbb{A}}$ are on the assigned lead-time program and will ship in 20 days, less than 20 days, or more than 20 days from order acknowledgement.

Ordering Procedure

Please place orders through Order Manager. If this is not available to you, place orders through mail or fax. Verbal purchase orders will not be accepted.

Order Entry fax number for Passage®, 5000 Series, and Meridian® Filing and Storage: (616) 846 9236.

Order Entry fax number for all other products:

(616) 654 3085.

For more information, contact your Customer Care representative at: (866) 854 3048 EXT 3400.

Shipments and Delivery

Per Herman Miller Terms and Conditions.

Changes and Cancellation

Per Herman Miller Terms and Conditions.

HermanMiller October 2013

Customer's Own Material Order Information — Workspaces

Customer's Own Material

Program Overview

The Customer's Own Material (COM) program gives you the option of using textiles other than those listed. Herman Miller will test textiles for application to Herman Miller products and will process orders for those with approved COM textiles only. COM textiles are on assigned lead times.

Omni lists an overview of fabrics that have been tested and indicates whether or not they were approved for application to Herman Miller products.

Specific information on the terms and conditions, testing, approval, and ordering process for COM is listed below. Questions about the COM program and requests for assistance may be directed to your COM representative at:

(616) 654 3400 (866) 854 3048 EXT 6543400

Customer's Own Material Warranty

Herman Miller does not warrant COM textiles. COM textiles are tested for application only; they are not tested for performance. The Herman Miller warranty does apply to the underlying products.

Suppliers of COM textiles are responsible for color consistency within commercial tolerances, UV stability, and resistance to soiling and perspiration.

Customer's Own Material Pricing

COM is a Category 1 fabric. There are no application charges for COM fabrics.

Ordering and payment for COM textile yardage are the responsibility of the customer and the textile supplier.

If desired, Herman Miller will purchase COM textiles directly from True Textiles, C.F. Stinson, Luna Textiles, Maharam, and Momentum Textiles to simplify ordering and shipment. For this service, refer to the Supplier Connection program.

Application Note

Herman Miller does not guarantee that Customer's Own Material (COM) fabric patterns will align across panels/tiles or from one screen to the next. We also do not guarantee that COM fabric designs will be positioned consistently in the same location across several panels, tiles, or screens.

Textile Approval

- 1. Select a COM textile and a Herman Miller product.
- If your textile is not listed in Omni, obtain a test number from a COM representative at (616) 654 3400. You can also submit your request within Omni. Please have the following information ready before calling: textile name, number, pattern, and the product you will apply it to.
- Herman Miller will notify you of approval or disapproval within 4 days from receipt of the test yardage.

Ordering Products with COM

- Refer to the specific products to determine the yardage required for COM textiles.
- If your textile is not listed in Omni, call a COM representative at (616) 654 3400 or (866) 854 3048 EXT 6543400. The representative will assign an identification number for your textile (ID#) and will verify yardage requirements for your order.
 - Note: Yardage requirements are based on nondirectional, 54"-wide textiles. 66"-wide textiles are needed for application on 60"-wide products. Additional yardage may be needed due to the unique characteristics of a textile.
- 3. Enter your order on Order Manager in Omni.
- Upon receipt of your purchase order, Herman Miller will send you a PO acknowledgment.
- 5. Arrangements must be made for the textiles to be shipped from the supplier to Herman Miller for application to the Herman Miller products. Textiles must be tagged with the assigned identification number and the roll yardage quantity. See Omni for shipping procedures and current shipping addresses or contact a COM representative at (616) 654 3400 or (866) 854 3048 EXT 6543400.

Products will be scheduled for production when COM textiles are received at Herman Miller. Standard lead times in effect at that time will apply.

Note: If textiles are to be purchased directly by Herman Miller through the Supplier Connection program, Herman Miller will handle the ordering and shipping process and will schedule your order for production upon receipt of your purchase order (dependent on textile availability). Refer to the Supplier Connection program for more information.

Supplier Connection

Program Overview

The Supplier Connection program is a service offered by Herman Miller to purchase approved COM textiles directly from True Textiles, C.F. Stinson, Luna Textiles, Maharam, and Momentum Textiles. When you select a textile through this program, Herman Miller will facilitate the ordering, scheduling, and shipment of the textile directly with the supplier.

Suppliers included in the Supplier Connection program keep an active inventory of textiles that are pre-approved for application to Herman Miller products. Pre-approval applies only to the suitability of a textile for manufacturing and application to a Herman Miller product. Omni provides an overview of fabrics that have been tested and indicates whether or not they were approved for application to Herman Miller products.

Specific information on the terms and conditions, testing, approval, and ordering process for the Supplier Connection program is listed below. Questions and requests for assistance may be directed to your COM representative at:

(616) 654 3400

(866) 854 3048 EXT 6543400

Supplier Connection Warranty

Textiles purchased by Herman Miller through the Supplier Connection program are COM and are not warranted by Herman Miller. COM textiles are tested for application only; they are not tested for performance. The Herman Miller warranty does apply to the underlying products.

Suppliers of COM textiles are responsible for color consistency within commercial tolerances, UV stability, and resistance to soiling and perspiration.

Supplier Connection Pricing

Textiles purchased by Herman Miller through the Supplier Connection program are COM. COM is a Category 1 fabric. There are no application charges for COM fabrics.

Payment for textiles purchased by Herman Miller through the Supplier Connection program is the responsibility of the customer or dealer. Herman Miller will invoice the order at the supplies prices published at the time of the order.

Textile Approval

- Refer to Omni to identify the approval status of the textile. If your textile is not listed, contact the COM Department to request testing for application to Herman Miller products.
- 2. Herman Miller will notify you of approval or disapproval in approximately 4 days from receipt of the test yardage. If the textile is approved, it will be assigned a COM identification number.

Ordering Products with Supplier Connection COM

- 1. Identify and include the following information on your purchase order:
 - Product number and option
 - Herman Miller's COM identification number
- 2. Enter your order on Order Manager in Omni.
- 3. Upon receipt of the purchase order, Herman Miller will process your order and send you a PO acknowledgment. Herman Miller will determine the yardage required to produce your product and will order and schedule for delivery the required textile. Standard lead times in effect at the time the textile is allocated at the supplier will apply to products ordered through this program.
