Quadrant™ Storage Towers

RISING TO THE CHALLENGE

It's a tall order: provide comprehensive, freestanding storage while using little square footage. It's a simple solution: Quadrant storage towers. These economical units not only add value to a workstation's vertical space, they also have generous capacity and a large variety of choices in function and aesthetics. Customers can select the tower that matches storage requirements and complements the surroundings as well.

SMART CONSOLIDATION

Every Quadrant storage tower is focused on efficiency. By bringing together different storage capabilities into a single unit, fewer separate components are needed so a workstation can be more roomy and cost less. And when using lower panel heights that can't support overhead shelves and flipper units, Quadrant towers can take on the storage job.

MULTIPURPOSE STORAGE

A Quadrant tower is made up of a wardrobe with a choice of coat hook or coat rod for personal items; a storage section with an adjustable shelf for books and binders; and drawers for documents and small supplies. Four combinations of box and file drawers are available. Full-extension, steel ball-bearing slides give easy access to material at the back of file drawers.

IN ALIGNMENT

With two pull styles, smooth steel finish, and color choices, Quadrant towers integrate with a range of furniture and interiors. For a clean look, the nine heights of Quadrant towers are designed to line up with adjacent Herman Miller systems components.

COMPACT DIMENSIONS

At just 24 inches wide by 24 inches deep, a tower takes up minimal floor space.

WELDED STEEL CONSTRUCTION

Quadrant storage towers are strong and long lasting.

Storage Towers

12-YEAR, 3-SHIFT WARRANTY

Like all Herman Miller products, Quadrant storage towers are durable for long-term performance and value. As a statement of our confidence in their quality, Quadrant storage towers are covered by the Herman Miller Warranty—a straightforward promise that we stand behind that quality 100 percent. The 12-year, 3-shift warranty covers all standard elements and includes labor on all warranty work.
