## WHO WE ARE

---

With the fastest lead time in the industry, SitOnIt Seating® and IDEON® offer high-quality seating that combines award-winning design with intelligent ergonomics. From healthcare to higher education, we've been the go-to destination for built-to-order seating since 1996.

Born and bred in California, all of our key collections are designed in-house and rigorously tested for quality control, strength and durability. We make customization easy—our user-friendly ChairBuilder tool lets you design your dream chair with just a few clicks. With chairs, sofas and stools for every desk, space and environment, the possibilities are endless.

Discover premium seating solutions—at a fraction of the price.

## OUR BUILT-TO-ORDER PROMISE

---

Custom-designed chairs, no waiting. Our lean manufacturing operation means we can ship built-to-order chairs in just 2 days. That means we can build the chair you want—and deliver it when you want it—at a price no one else can match.

## FASTEST SHIPPING IN THE INDUSTRY

---

Choose from 2, 5 or 10-day shipping. We cut lead time, sync orders and avoid off-schedule shipments at a rate our competitors just can't match. From start to finish, we maximize efficiency in every single area—whether it's sourcing and logistics or assembly and production.

## TESTED & APPROVED

We put ourselves through the ringer (so you don't have to). Rest assured that our products have been tested for quality control, strength and durability.

## High-Performance Textiles

We carry a full selection of fabrics uniquely suited for high-traffic areas to help keep mold, mildew and bacteria at bay.

## GREENGUARD Certified

All SitOnIt Seating and IDEON products have met rigorous standards that test for low emissions of volatile organic compounds (VOCs) into indoor air.

## GREENGUARD Gold Certified

All of our products also meet this stricter certification which tests for additional chemicals and requires even lower emission levels for environments like schools and healthcare facilities.\*

## CAL 133 Approved

We offer over 500 fabrics that are CAL 133 approved options. In addition, all SitOnIt Seating products meet the requirements of California Technical Bulletin 117-2013.

\*These chemicals include any of the 800+ chemicals that the California Office of Environmental Health Hazard Assessment (COEHHA) lists as a carcinogen or a reproductive toxicant—including many common, everyday elements found in businesses of all kinds and sizes.

# HEALTHCARE SPOTLIGHT

## GOOD ORTHODONTICS

As part of a network of orthodontic and dental offices that serve customers from Pennsylvania, West Virginia and Ohio, Good Orthodontics is a regional leader in dental care. When the time came to open up new offices, they knew they needed a makeover along with the move. At the new site, they were hoping for a more upscale look. They stopped into the SitOnIt Seating and IDEON showroom where they saw a variety of products to fit the practice's needs, including a product specifically designed for healthcare - Aviera.

### WHAT MADE THE DIFFERENCE?

Good Orthodontics chose the IDEON product because of its light metal frame, its comfort and look along with the easy in and out that's so important in healthcare. Sofas by other makers, the orthodontic office had found, were too low and uncomfortable to get in and out of. Aviera was designed with customers in mind and addressed that problem.

For desk chairs, the office went with Amplify. They liked how they could choose different mesh colors and personalize their task seating.

Good Orthodontics chose Focus Side for side seating in the offices. The Lifetime Warranty together with the field-replaceable parts sealed the deal for the medical office.

*"The dental office recognized Aviera as a perfect fit."*

*"SitOnIt Seating filled the back office needs with a huge selection of task chairs. In the end, the client chose a proven product, Focus Side."*

## JEFFERSON CITY MEDICAL GROUP

Jefferson City Medical Group (JCMG) is one of Missouri's largest physician-owned multi-specialty groups. The facility includes over 90 providers in 25 medical specialties with more than 600 employees. The flagship building was completed in 1998. Since it sees over 425,000 patient visits annually, the facility needed to be updated. The medical group turned to long-time business partner Samco Business Products who brought IDEON in for the solution.

### WHAT MADE THE DIFFERENCE?

JCMG needed seating that was durable, modular and easy to clean but also updated the look of the facility. Aviera had been specially designed with healthcare in mind, and could offer what the medical group needed.

The option of bariatric models with a weight capacity of 750 lbs. coupled with the poly arm caps, clean-out space for easy cleaning and thoughtful design for easy ingress and egress made Aviera a great option for the busy healthcare facility.

Composium, with its slightly higher seat, was mixed in throughout for a stylish, welcoming atmosphere. And the seating is there to stay. IDEON's field-replaceable parts mean that if the seating gets damaged, the medical group won't have to buy all new chairs.

*"Aviera's modular style - with its start, center and end options - means that it can grow with the facility."*

*"Samco found textiles that were the same pattern in different colors for the different floors, using design to help orient patients."*
