

Height-Adjustable Desks Specification Guide

Availability

Electronic price list updated with release 188.B (U.S.) and 150.B (Canada), dated August 20, 2018.

Spec News is available on village.steelcase.com. Search Steelcase Marketing Resources (Adstock) and download the current release's Spec News.

Tip: Steelcase Marketing Resources is a new global platform for ordering Steelcase marketing materials that replaces Adstock.

View or download Steelcase Specification Guides at [https://www.steelcase.com/resources/documents?tax-\[doctype\]=spec-guide](https://www.steelcase.com/resources/documents?tax-[doctype]=spec-guide).

Transitional products in this specification guide are **maintained for existing customers only** and are likely to be phased out over time. These products are indicated with a . Products that are scheduled to be culled are indicated with an , followed by the last order entry date.

Surface Materials

The surface materials team has announced the launch of the Finish Library, found at <http://finishlibrary.steelcase.com>.

► For a list of all trademarks, refer to the last page of this specification guide.

© 2018 Steelcase Inc.

For Canadian Pricing

Canadian factor can be found at steelcase.com/CADpricing.

Calculate in the following order to avoid rounding errors:

- Multiply the base price and each option by the Canadian factor.
- Round each to the nearest dollar.
- Add base and options for total list price.

Ten Tips: How to Get the Most Out of This Book

Tip 1

Watch the tabs on the right-hand edges of the pages. They'll always indicate which chapter you are in.

Tip 2

Use the Statement of Line pages for an overview of the available components, their sizes, and page references for additional information. Each *Understanding* chapter includes a statement of line after the table of contents.

Tip 3

Find cross references by looking for page numbers flagged with an arrow.

Tip 4

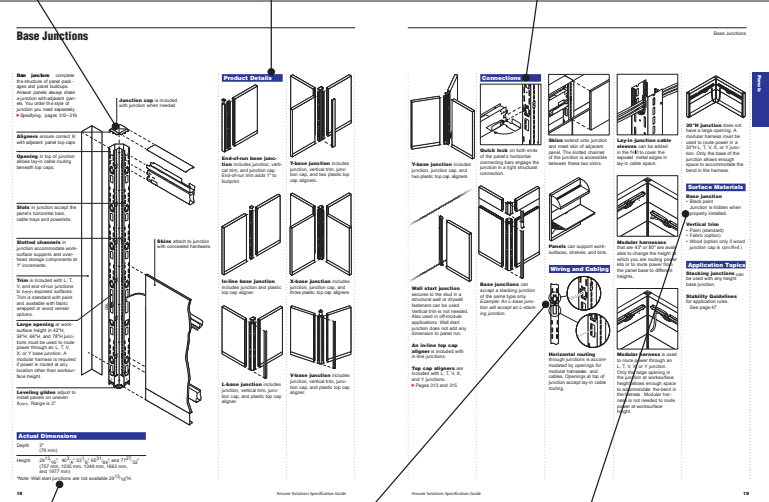

Study the product detail pages in the *Understanding* section to learn everything an expert knows about specific products. Each product detail page in this section contains the following features, where applicable:

- Product Drawing
- Actual Dimensions
- Product Details
- Connections
- Wiring and Cabling
- Surface Materials
- Application Topics

Product Drawing shows you what the product looks like and points out important features.

Product Details gives specific information on the product and how it is used.

Connections describes how the product is assembled or how it attaches to another product.

Actual Dimensions table lists the dimensions of the product.

Wiring and Cabling details the power and cable-management and cable routing capabilities of the product.

Surface Materials lists what material is used for each part of the product.

Tip 5

Refer to the specifying pages for all the information needed to order a product.

Each product specifying page contains a variety of elements to help you complete a specification:

- Product Drawing
- Standard Includes
- Required to Specify
- Options
- Related Products
- Specification Information
 - Dimensions
 - Style Number
 - Price

Standard Includes

(under the red or dark grey band) provides a list of what comes standard with the product.

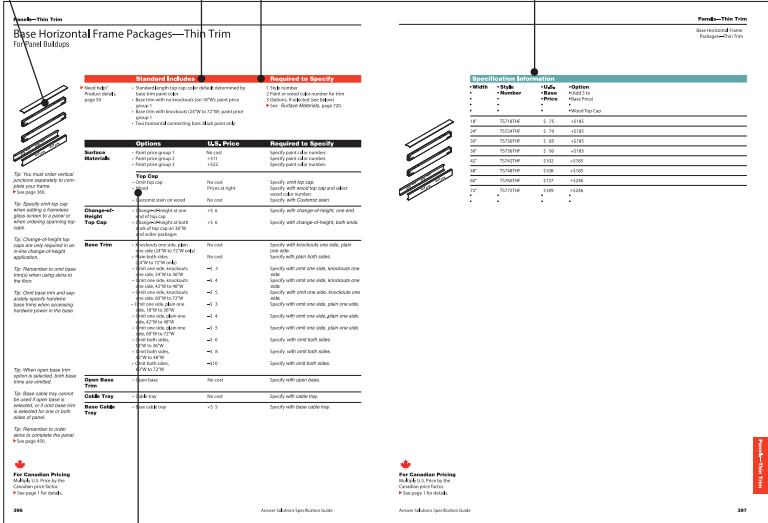

Required to Specify

(under the red or dark grey band) itemizes the information that you must provide to order the standard product and the preferred sequence for specification.

Specification Information

(under the teal or light grey band) provides product dimensions, style numbers, and prices for the standard product and any surface material choices that are available.

Product Drawing shows you what the product looks like.

Options

(under the black band) lists all the options that apply to the product, their price, and what is required to specify.

Related Products

provide specification information for products that are directly related.

Tip 6

Required to Specify

Specify with Customiz Stain

Tip 7

• **To determine** how many skins are needed to complete a panel, consult the table at the right.

Tip: Remember to order skins for both sides of the panel buildup.

Watch for tips throughout the text that give you explanations and helpful instructions.

Tip 8

Learn what you cannot do by looking for drawings crossed out with an “X.”

Tip 9

Use the surface materials listings in the Surface Materials section of this book to find surface material color numbers.

Tip 10

Style Number	Page
TS7042BL	131
TS7042S	130
TS7048BL	131
TS7048S	130
TS7060BL	131
TS7060S	130
TS7072BL	131

Refer to the style number index when you know a style number and you need to find the page that has more details about the product.

Additional Resources

Product brochures and planning tools

can be ordered through your Steelcase area office by calling 1.800.784.0358 or through the Marketing Resources website at village.steelcase.com.

This specification guide

contains multiple Steelcase and turnstone product lines which are designed into one specification guide for your convenience. Note that each product may be subject to different pricing terms and conditions.

Additional storage products can be found in the *Storage Specification Guide*.

Refer to the *turnstone Furniture Specification Guide* for the Understanding turnstone information.

Printed Materials

Quick Ship Guide

This handbook describes all Steelcase, turnstone, and Coalesse products that are available for Rapid2 (ships in 2 days), Rapid5 (ships in 5-7 days), or Coalesse Rapid10 (ships in 10 days).

Surface Materials Reference Manual

This publication provides:

- An explanation of the surface materials
- "Available on" matrices
- Vertical surface fabric and seating upholstery selection listing
- Technical data for surface materials
- Surface material care and cleaning instructions

Computer Tools

Electronic Catalog

Accurate sales quotations and purchase orders for Steelcase products are created with specification software that uses Steelcase Electronic Catalog data. Use the data to specify and price style numbers and options for every Steelcase product. The data is updated bimonthly by Steelcase and provided to software programs including: the Hedberg Business System, SmartTools – Steelcase's design and specification software (for more information on SmartTools, please email SmartTools@steelcase.com), the ProjectMatrix Project-Symbols libraries, as well as 20-20 CAP Studio.

Furniture Symbol Graphic Data

Steelcase creates 2D and 3D furniture symbols (with attributes) for planning and initially specifying Steelcase products. This data is incorporated into several add-on software packages that work in either a Microstation or an AutoCAD drafting environment.

Digital Publications

You can access these digital publications at www.steelcase.com or village.steelcase.com.

Planning Ideas

Planning ideas are available to help inspire, envision, and plan great solutions. 2D and 3D AutoCAD drawings, Sketch-Up files, and SmartTools drawings are available on the Planning Ideas site: www.steelcase.com/planningideas.

Support

Steelcase Capabilities

Steelcase products are distributed, installed, and serviced through a network of more than 600 dealers worldwide. Steelcase is also represented with offices and corporate showrooms in 26 U.S. cities, 4 Canadian cities, and in France, Germany, Great Britain, and Japan. Every Steelcase product meets our exceptionally high standards of quality and durability and comes with the Steelcase assurance of excellence in service.

For assistance, call your local dealer, the Steelcase Solutions Resource Team, or the Steelcase Solutions Fulfillment Team at 1.888.STEELCASE (1.888.783.3522) or send an e-mail to lineone@steelcase.com.

Call the Steelcase Solutions Resource Team prior to placing an order, when working on a bid, or when you need information about product applications and specifications.

Call the Steelcase Solutions Fulfillment Team if you have submitted an order to Steelcase and you need to speak to your Solutions Fulfillment Team Representative about the order. Also call if you have any post-shipment quality concerns or service parts questions.

For warranty information, please go to <http://www.steelcase.com/warranty/>.

Outside the U.S.A., Canada, Mexico, Puerto Rico, and the U.S. Virgin Islands, call 1.616.247.2500.

Related Products

Steelcase worktools

include a full line of ergonomically designed products that enhances and improves the work setting. Product platforms include computer support tools, organizational worktools, and personal lighting.

Workstation Design Guidelines and Requirements

Overview

Designed for movement with dynamic seating, adjustable worktools and height-adjustable desks are important for today's office workers. To determine the best height-adjustable solution, consider these four criteria:

1. **Adjustability Needed:**
What is the height range requirement? (seated or sit-to-stand)
2. **Worksurface Size Needed:**
What does the physical space look like? (work-surface configuration)
3. **Equipment/Tools Used:**
What type of computer equipment and other worktools are being used on the worksurface? (load capacity)
4. **Use:**
What is the height-adjustable desk being used for (individual or shared, touchdown space or full workstation, sit-to-stand or seated)?

WARNING

Risk of Serious Injury. If not used as intended, moving work-surfaces can pinch or injure people, or damage property. Always follow these Instructions:

1. Keep height-adjustment range free from obstructions above and below the worksurface.
2. Plan for a minimum 1" gap against a panel or wall.
3. Plan for a minimum 1" gap to adjacent furniture.

Tips

Obstructions

Moving worksurfaces can collide with other objects. Do not install overhead storage, stationary pedestals or components in the path of height-adjustable desks.

Weight

The maximum allowable load (varies by height-adjustable desk) should be evenly distributed and must not be exceeded.

Width

Specify a minimum 1" gap to adjacent furniture. This eliminates any pinch points between a height-adjustable desk and a fixed object.

Depth

When placing a height-adjustable desk against a panel or wall specify the worksurface depth shorter to provide a minimum 1" gap. This eliminates pinch points and adds clearances for cable access.

Managing Technology

Design workstations with computer equipment in mind so that the height-adjustment range of the height-adjustable desk is not impeded because of cables. Consider the addition of a cable riser, cable basket, or cableway to help harness these wires and cables.

Power

Plan easy and unobstructed access to electrical outlets for computer equipment and height-adjustable desks (when applicable).

WARNING

Risk of serious injury.

Bases-only warranty limitations and potential for injury: The use of worksurfaces that do not comply with the Steelcase defined criteria and limitations could cause personal injury or property damage due to pinch points, instability, or other problems, and voids all Steelcase Warranties, expressed or implied.

The use of worksurfaces that do not comply with Steelcase criteria voids any Steelcase claims of compliance with ANSI/ BIFMA, UL, LEED, or other applicable requirements. The use of non-Steelcase worksurfaces on Steelcase adjustable-height bases may not be accepted as compliant to municipal electrical codes or OSHA federal workplace standards, because this use does not create an NRTL (UL, ETL, etc.) listed product. Steelcase is not responsible for the ultimate determinations of compliance for height-adjustable bases with non-Steelcase worksurface, and assumes no liability for their compliance with standards when height adjustable bases are used without a Steelcase worksurface as intended.

Worksurface Criteria and Limitations

The use of non-Steelcase worksurfaces is not recommended. Any use of a non-Steelcase worksurface requires additional investigation by the customer regarding the appropriateness for use. It is the sole responsibility of the customer to determine the suitability and safety of the selected worksurface construction and attachment means. The following information is provided as a guideline, but does not address all potential issues. Customers should seek professional guidance as to the appropriateness of their chosen worksurface.

Tips

Height-adjustable bases include fasteners intended for use with Steelcase worksurfaces. These fasteners may be suitable for worksurfaces meeting the following criteria:

- Medium-density or higher particleboard or fiberboard cores, with High- or Low-Pressure Laminates and backers.
- Thickness of 1" or greater (Ology, Migration, and Migration SE)
- Thickness of 1 $\frac{3}{8}$ " or greater (Series 3 and 5 bases)
- Fasteners located a minimum distance of 1" from any edge

How to Calculate Power Needs

Use This to Determine How Many Power-Ins You'll Need

How to Calculate
Power Needs

When planning a power network, you must calculate the amperage requirements of all your electrical components so you can provide sufficient electricity to power them.

If your usage is not known in advance:

The National Electrical Code (NEC) allows a maximum of 13 receptacles on each 20-amp circuit. This provides up to 30 receptacles for each 3-circuit power-in and 40 receptacles for each 4-circuit power-in.

If your usage is known in advance:

Add up the amperage used by each piece of equipment in the workstation. Whenever you reach 60 amps (20 amps times 3 circuits) or 80 amps (20 amps times 4 circuits) from items that are likely to be used at the same time, you have reached the limit for a single power-in. Specify another power-in and continue until all equipment is powered.

If the circuits will normally be subject to a continuous load (three or more hours of continuous use, such as lights or computers), the NEC requires that circuit capacity be "de-rated" by 20 percent. Therefore, treat circuits used for continuous loads as if they were rated at 16 amps instead of the regular 20 amps.

Try to anticipate future increases in power requirements and build some excess capacity into your plan.

► See table at right for typical and actual amperage usages for components.

To calculate amperage when the wattage of a device is known, divide watts by 120.

Some appliances, such as large copiers, coffee makers, or space heaters require most of the current available on a 20-amp circuit. It is recommended that such devices be supplied with their own receptacle/circuit, directly from the building. This leaves the capacity of the furniture circuits available for the more dynamic requirements of the office equipment.

Local electrical codes vary. Consult a qualified electrical contractor or engineer for the proper planning of electrical circuits in your locale.

Approximate power consumption for common devices

Device	Wattage	Amperage	Voltage	Number of Devices Supported on Single 20 Amp Circuit*
Laptop	90	0.8	110	20
CPU/Desktop Computer	120	1.1	110	15
Monitor	60	0.5	110	29
Phone	5	0.0	110	352
High Power Tablet (e.g. Surface Pro)	40	0.4	110	44
Low Power Tablet (e.g. iPad Air)	15	0.1	110	117
Desktop Printer	40	0.4	110	44
42" LCD Screen	210	1.9	110	8
DVD Player	25	0.2	110	70
Projector	175	1.6	110	10
Desktop Lamp	19	0.2	110	93
Large Printer/Copier (high)	1900	17.3	110	1
Large Printer/Copier (low)	850	7.7	110	2
Paper Shredder	360	3.3	110	5
Desktop Fan	20	0.2	110	88
Standing Fan	180	1.6	110	10
Coffee Maker (high)	1200	10.9	110	1
Coffee Maker (low)	600	5.5	110	3
Microwave (high)	400	13.6	110	1
Microwave (low)	150	5.5	110	3
Refrigerator (high)	1500	3.6	110	4
Refrigerator (low)	200	1.4	110	12
Vacuum (high)	1500	13.6	110	1
Vacuum (low)	200	1.8	110	9
Space Heater (high)	1500	13.6	110	1
Space Heater (low)	750	6.8	110	2

Tip: These calculations are estimations and are meant solely for informational purposes. It is important to conduct proper power planning for each installation to prevent overloading a circuit.

Basics of Ergonomic Seating

A well-designed, ergonomically advanced chair that allows a full range of healthy postures throughout the day and can contribute to worker wellness and productivity.

Neck is straight or slightly forward.

Shoulders are relaxed so arms hang naturally.

Back has full contact with the backrest (sit all the way back in your chair).

Elbows and forearms can rest comfortably on the arms of your chair, or on work surfaces.

Lower back fits into curved lumbar support.

Tension is adjusted so backrest reclines easily, yet provides smooth, even support, and encourages postural change.

Top of monitor should be at eye level.

Screen is 20 to 30 inches from the eyes. Screen is at eye level slightly lower and directly in front of worker so head is not turned.

Wrists should be straight when keying or mousing, not bent up or down.

When keying or mousing, forearms are parallel to the floor.

Thighs are parallel to the floor.

Feet are flat on the floor or on a footrest.

Basics of Standing and Monitor Arm Positioning

Basics of Standing and
Monitor Arm Positioning

Height-adjustable desks, when combined with monitor arms, allow a full range of healthy postures throughout the day and can contribute to worker wellbeing and productivity.

Top of monitor should be 0° to 20° below horizontal line of sight.

Avoid locking knees to help maintain good posture.

Feet should be flat on the floor or use foot rest or foot pad.

Height

Top of the monitor should be positioned at or slightly below eye level.

Distance

Monitor should be 20" to 30" from the eyes or approximately an arm's length away.

**Worksurfaces equal to and wider than 60¹/₁₆"x 60¹/₁₆" ship in two pieces.*

High-Pressure Laminate Worksurfaces

Front (user's) edge profile is available in four shapes, depending on which height-adjustable desk or worksurface is specified.

3 mm edge profile P-edge edge profile

Knife edge profile Urethane edge profile

PVC-free, 3 mm edge profiles are proprietary polyolefin blend for all solid colors and seven woodgrain finishes. Matching 1 mm side and back edges are also PVC-free.

► See *Surface Materials* in this book for specific PVC-free availability, page 204.
Tip: Universal Tables (rounded corners) have a continuous 3 mm edge.

Edge profile finishes are specified separately from laminate color.

P-edge profile rises slightly above the laminate surface and curves into a $\frac{3}{8}$ " radius. Back and side edges are flat.

Tip: P-edge profile available on Airtouch height-adjustable worksurfaces only.

Tip: Universal tables (rounded corners) have a continuous P-edge profile.

P-edge profile work-surface depths are $\frac{3}{8}$ " deeper than 3 mm edge profile worksurfaces. Both edge profiles provide a flush interface with universal pedestals.

PVC-free, knife edge with 3 mm edge profile are proprietary blend for solid colors and seven wood-grain finishes. Matching 1 mm side and back edges are also PVC-free.

Tip: Knife edge available on Series 3 and Series 5 height-adjustable worksurfaces only.

Urethane edge profiles are specifiable in black or felt.

Tip: Urethane edge profiles available on Series 3, Series 5, and height-adjustable worksurfaces.

Universal tables (rounded corners) have rounded corners on all four sides with a continuous user edge. Radius corners eliminate sharp edges and are appropriate for freestanding furniture.

Tip: Ology, when optioned with rounded corners and with integrated rail, will have 2" radius corners on the two front (user's) corners and 90° corners on the rear two corners.

Universal systems (square corners), knife edge, urethane edge, and wood veneer work-surfaces have 90° corner on all four sides with a front user's edge.

Wood Veneer Worksurfaces

Front (user's) edge profile is wood veneer with a square (3 mm) radius. Back edge and edge that joins to adjacent worksurfaces are flat. Wood edge color matches finish specified for worksurface.

Tip: Wood veneer worksurfaces are available on Airtouch through specials.

Height-Adjustable Desks Comparison Chart

Height-adjustable desks

transform to meet the needs of someone 5' to 6'4" tall. Adjustables offer six selections; Ology, Migration, Migration SE, Series 5, Airtouch, and Series 3.

The chart below will help you determine which product line best meets your needs.

Ology

Enhanced sit-to-stand height-adjustability

A push button delivers electric adjustability at 1 1/2" per second. Includes three controller options:

- Simple touch
- Active touch
- 4 Pre-sets

Weight capacity of 314 pounds (2-leg) or 471 pounds (3-leg).

Tip: When calculating lifting capacity, subtract the weight of the worksurface, understructure, and options selected.

► See page 52 for worksurface weights.

Migration

Sit-to-stand height-adjustability

A push button delivers electric adjustability up to 1 2/3" per second. Includes two controller options:

- up/down
- 4 Pre-sets

Weight capacity of 195 pounds.

Tip: When calculating lifting capacity, subtract the weight of the worksurface.

► See page 111 for worksurface weights.

Adjustables Comparison Chart

Height-Adjustable Desks Comparison Chart, continued

Series 5

Sit-to-stand height-adjustability

A simple push button delivers electric adjustability at 17/10" per second. Weight capacity of 195 pounds.
Tip: When calculating lifting capacity, subtract the weight of the worksurface.
 ▶ See page 127 for worksurface weights.

Airtouch

Collaborative height-adjustability

Weight capacity of 150 pounds.
Tip: When calculating lifting capacity, subtract the weight of the worksurface.
 ▶ See page 149 for worksurface weights.

Series 3

Seated height-adjustability

Crank handle adjusts height at the rate of four turns per inch (2-leg) or six turns per inch (3-leg). Weight capacity of 205 pounds.
Tip: When calculating lifting capacity, subtract the weight of the worksurface.
 ▶ See page 167 for worksurface weights.

*Small configurations only.

** 29"D knee depth requirement for worksurface

Worktools Compatibility Charts

Worktools Compatibility
Charts

Height-Adjustable
Desks

To determine worksurface compatibility with acrylic privacy/modesty screens, cableway, SOTO rail, and SlatRail worktools for each configuration and shape, see compatibility chart below.

Tip: The Ology integrated rail option does not apply to these rules because the rail matches the worksurface width.

Tip: Slatwall stanchions are not applicable because they allow Slatwall to overhang mounting area.

Tip: SlatRail stanchions do not work with the same size screen, SOTO rail, or cableway combination (e.g. 48"W SlatRail will not work with 49"W cableway and 52"W screens) because of clamp location. Specify the SlatRail one size smaller or larger when using in combination (if applicable).

► See page 180

Tip: For worksurfaces with top-mount handles, the handle sweeps in a circle with a 10" diameter which may interfere with mounting worktools.

Ology Height-Adjustable Desks

Ology brings together physiology and biology to support wellbeing at work. It allows users to quickly, quietly, and intuitively change posture without disrupting their coworkers. Ology offers a one button solution for quick eye-to-eye collaboration. The integrated rail offers today's workers a range of ergonomic tools. Ology provides Bactiblock antimicrobial protection on frequently touched areas of the desk.
► Specifying, page 70.

Desk has a wood core with a High-Pressure Laminate or wood veneer surface and is 1" thick.

Lifting column is controlled by central control box for synchronization. Columns are precision balanced to minimize surface vibrations.

Integrated rail, available as an option, supports space division, lighting, worktools, and monitor arms to give users choice and control for their physical wellbeing.

Extended height-adjustable base adjusts from 22³/₈"H to 48⁷/₁₀"H in any increment.

Basic height-adjustable base adjusts from 27³/₁₀"H–46²/₅"H in any increment.

Soft edge, available as option, reduces unhealthy pressure on forearms, as well as feelings of shoulder and neck fatigue. Soft edge is 36"W and is centered on desk.

Push button simple touch controller adjusts height at a rate of 1¹/₂" per second.

Edge is available in 3 mm edge profile.

Base supports a maximum distributed weight load of 314 pounds (2-leg) and 471 pounds (3-leg).
Tip: When calculating lifting capacity, subtract the weight of the worksurface, understructure, and options selected.
► See page 52 for *worksurface weights*.

Access door and tray with power provides user access to 120V and USB power and data as well as cord management. Available as an option.

Active touch controller includes digital display, two preset buttons, double-tap automatic drive, and active motion posture reminders.
Tip: Mobile app is available that pairs with any active touch controller to support preferences, presets, and activity tracking.

Leveling glides adjust 1/2" to install desk on uneven floors. 1" adjustable glides are available as an option.

Product Details

High-Pressure Laminate Desks

Front (user's) edge profile is available in 3 mm edge profile.

PVC-free, 3 mm edge profiles are proprietary polyolefin blend for all solid colors and seven woodgrain finishes. Matching 1 mm side and back edges are also PVC-free.

► See *Surface Materials* in this book for specific PVC-free availability, page 204.

Edge profile finishes are specified separately from laminate color.

Square corners, available as an option, have 90° corners on all four sides with a front user's edge.

Radius corners, available as an option, have 1¼" radius on all four sides with a continuous user's edge. Radius corners eliminate sharp edges and are appropriate for freestanding furniture.

When radius corners are specified in applications with integrated rail, the front corners of the desk will be radius and the back corners will be square.

Wood Veneer Desks

Front (user's) edge profile is wood veneer with a square (3 mm) radius.

Side and back edges are flat. Wood edge color matches finish specified for desk. Corner style for wood veneer desks are square corners.

Extended ology desks adjust 22⅜"H to 48⅞"H in any increment. Basic height-adjustable base adjusts from 27⅜"H–46⅝"H in any increment.

Simple touch controller is available as an option and easily adjusts height of desk, at a rate of 1½" per second, by lifting or pressing down on the controller. *Tip: Available with an antimicrobial option.*

Active touch controller includes digital display, two preset buttons, double-tap automatic drive, and active motion posture reminders. *Tip: Mobile app is available that pairs with any active touch controller to support preferences, presets, and activity tracking.*

4 pre-set programmable controller is available as an option. It allows users to set the seated and standing height positions or pre-set heights for multiple users. The collaboration button can be programmed to raise the desk to an average standing height for shoulder to shoulder/dyadic collaboration. Digital display will show the height of the desk when adjusting and at rest before it enters sleep mode.

Obstruction sensing technology is standard with all Ology desks. The worksurface will backtrack when it makes contact with an object.

Desk sizes are listed in actual dimensions to allow for 1" gap to adjacent furniture eliminating any pinch points.

Integrated rail, available as an option, allows for the mounting of personal/modesty screens, monitor arms, lights, power strips, and other worktools.

The overall dimension of the worksurface is 23"D, 29"D, or 35"D. If full depth worksurfaces are desired, add 1" to each depth.

Integrated rail is optional and must be specified on initial order. It cannot be added after install. Worksurface depth is shortened by 1¾" to accommodate the integrated rail so the overall footprint remains the same.

Cord drop is standard when rail is specified and power door or grommets are not optioned to allow for cords to drop below the surface. Corner desks will have a cord drop on opposite side when power door or grommets are specified on a single side.

Desk overhang for CPU holder or layering of low storage and pedestals is available as an option on rectangular desks. The overhang is 9" and available on 64"W or larger desks. Desk widths 70"W or larger allow for single or dual overhang.

Soft edge, available as an option, is polyurethane and is offered with Bactiblock antimicrobial protection. Soft edge is available on rectangular and tapered desks that are 58"W or wider without overhang. With a left or right overhang, soft edge is available on 70"W and 76"W only. Soft edge cannot be used on desks that have overhang on left and right.

Soft edge can be positioned left or right on desks that are 64"W or wider for use with One-High integrated storage.

Work surface overhang can be positioned left or right on desks that are 70" wide or wider for use with One-High integrated storage.

90° desks, 60¹/₁₆" x 60¹/₁₆" and wider, are manufactured in two pieces due to laminate sheet size. Flush mounted desk bracing is provided. The desk split is located on the left side if an equal corner is specified. The split is located on the longest side if an extended corner is specified.

Wiring and Cabling

Low surge electric motor with quiet operation adjusts at 1¹/₂" per second. Motor is 110V and includes a 10⁴/₅' power cord. Motor has 0.1W standby power.

Chicago requires that desks shipping into Illinois ship with a 9' power cord.

Ology desks are listed by ETL.

Tip: Ology base only is ETL recognized because alternative work surfaces do not create an ETL listed product.

► See page 28

Controllers must be located next to the control box. The control box can be placed on either the right or left side of the desk and is field-installed.

Power and data access door and tray with USB is available as an option. The door is 16¹/₂"W and centered on the surface, providing user access to power, data, and USB, as well as cord management. Corner desks can support the access door on either side of the desk or on both sides and will have a cord drop on opposite side when an integrated rail is specified.

Power strip, located in tray, includes three outlets and easy access to two USB charging ports. Each port provides two amperage of output. USB receptacles conveniently charge a wide range of electronic devices, though not all devices are USB compatible. Cord length is 10'. Data can be terminated and accessed in the tray, and it is positioned to the right. Both modular furniture and NEMA faceplates can be used. Chicago and California have special requirements. Desks shipping to Illinois and California with the power access door option have a powerstrip with overcurrent protection.

Power and data access door and tray can be positioned left or right on desks that are 64"W or wider for use with One-High integrated storage.

Grommets, available as an option, help manage cable/cords going from the top of desk to the underside. Grommet inside dimensions are 3¹/₄"W x 3³/₄"D.

Grommets come in pairs. 90° and 120° corners offer pairs of grommets on the left side, right side, or both sides.

Tip: When grommet is optioned, power and data access door cannot be applied on the same side of the worksurface.

Cable riser supports cable management vertically between the floor and the underside of the desk. It is available in 6527 Merle and is specified separately.

► Specifying, page 90

Cable riser, with leg connection, inside dimensions are 1"D x 1"W to accommodate a variety of cord sizes. Overall depth is 2".

Cable riser, with fence connection, inside dimensions are 1"D x 1"W to accommodate a variety of cord sizes. Overall depth is 2".

Cable basket and cable brackets, ordered separately, support horizontal cable management below the worksurface.

► Specifying, page 90

Cable baskets are available on rectangular, tapered, and 90° corner desks 46¹/₁₆"W or larger and 120° corner desks 40¹/₁₆"W or larger.

Cable baskets inside dimensions are 6"D x 17³/₄"W x 4¹/₄"H and the overall width is 18"W with a height of 4³/₄"H.

Inside dimensions of cable brackets are 6"D x 2¹/₄"W x ¹/₁₆"H.

Application Topics

Moving desks can collide with other components. Do not install overhead storage, desk-height power, or desk accessories in the path of height-adjustable desks.

► See page 28

Modesty panels, available in laminate and wood veneer, attach to the understructure of the desk. It is parametric in width from 1/16". Width of modesty panel can be equal to or less than the width of the desk.

Tip: Full-width modesty panels cannot be used on desks with integrated rail. To use with the integrated rail, the modesty panel must be undersized by a minimum of 12" (rectangular and tapered) or 7" (90°) and inset from the edge of the worksurface.

When using modesty panels with integrated storage, modesty panels must be specified 20" smaller than the width of the desk.

Modesty panels may be inset a maximum of 3 1/2" from the back of the worksurface to allow for c-clamping.

Tip: Inset modesty panels do not work with the power access door option or the cable basket and cable brackets.

In order to inset, modesty panels must be specified a minimum of 12" smaller (rectangular and tapered) or 7" smaller (90°) than the width of the desk understructure. Utilize the mounting plates and screws to attach the modesty panel to the underside of the worksurface instead of to the cantilevers.

Tip: Inset modesty panels do not work with the power access door option or the cable basket and cable brackets.

Fixed privacy/modesty screens mount on the integrated rail above for privacy and below for modesty.

Tip: 19 1/2"H and 24"H are for privacy use only.

When using fixed screens in the modesty position, the desk must be at least 10" wider than the width of the screen.

When mounting Universal privacy/modesty screens with One-High integrated storage, desks must be 64"W and wider.

When using fixed screens in the modesty position with One-High integrated storage, the desk must be at least 24" wider than the width of the screen.

Universal boundary screens are not permitted on height-adjustable desks, as they do not pass minimum safety requirements which could result in the desk tipping over.

On extended height desks, any storage higher than 19" will impede the height range of the desk. On basic height desks, any storage higher than 23 7/10" will impede the height range of the desk.
Tip: Do not place storage underneath controller.

When the centered power access door is optioned, on extended height desks any storage taller than 16 1/2"H will impede the height range of the desk. On basic height desks, any storage taller than 21 1/5"H will impede the height range of the desk.
Tip: Do not place storage underneath controller.

When optioning the integrated rail, without the power access door, flat panel monitor arms may be c-clamped or attached with a c:scape bracket; except for CF series or Eyesite.
Tip: The cable basket cannot be used in the same location.

When optioning both the integrated rail and power access door, flat panel monitor arms cannot be c-clamped 5 1/2" on either side of the power door.

When optioning the integrated rail and using a cable basket, there will not be enough room to C-clamp behind the basket.

When optioning the power access door only, flat panel monitor arms cannot be c-clamped behind the power door (except for Eyesite) or 5 1/2" to either side.

Eyesite monitor arms can be c-clamped behind the power door if the "c-clamp mount for use with power access door" option is included when ordering Ology bracket (FPCOL).
► *Steelcase Worktools Specification Guide*

When optioning both the integrated rail and power access door, the Eyesite monitor arm and the "rail mount bracket" option should be included when ordering Ology bracket (FPCOL).

► *Steelcase Worktools Specification Guide*
Tip: FYI monitor arms with c:scape brackets may not be attached behind the power door, and have to mount to either side.

Tip: CF series monitor arms cannot be rail mounted.

Tip: The cable basket cannot be used in the same location.

When attaching SOTO worktools, lighting, c:scape screens, or flat panel monitor arms to the integrated rail, there is a 5 1/4" mounting free zone on each end of the rail.

When installing SlatRail with a power door only, do not c-clamp the stanchions 5 1/2" on either side of the power door.

When mounting CPU holders, specify the overhang option.

Tip: CPU holders that require less than 12"D clearance may be mounted inboard of legs.

All assemblies meet or exceed ANSI/BIFMA standards.

WARNING

Read base only warranty limitations.

► See page 28 for *Workstation Design Guidelines and Requirements*.

Keyboard assemblies are not recommended for use on height-adjustable desks.

Ology Height-Adjustable Desks, continued

Installation

Desks ship with pre-drilled holes for mounting bases.

Two-piece tops ship with flush mounted desk bracing.

Height-adjustable base requires attachment to the worksurface.

Base supports a maximum distributed weight capacity of 314 pounds (2-leg) and 471 pounds (3-leg).

Tip: When calculating lifting capacity, subtract the weight of the worksurface, understructure and options (i.e. integrated rail, power and data access door or soft edge).

Tip: A label applied to the underside of the worksurface will include the load-capacity for each desk.

Ology Modesty Panels

Modesty panels provide modesty when needed. Modesty panels, available in laminate and veneer, connect to the desk frame.

► Specifying, page 88

Brackets are attached to the panel.

Actual Dimensions

Modular Modesty Panels	
Width	31½", 37½", 43½", 49½", 54½", 61½", 67½", or 73½"
Height	14⅜"
Overall height	14⅞"
Thickness	¾"

Tip: Overall height is measured from bottom of mounting surface to the bottom of the screen.
Tip: Parametric modesty panel widths can be specified from 34"–78"W in ½" increments.

Product Details

Gap is ½" between underside of the worksurface and top of modesty panel.

Tip: C-clamp mounting is not allowed when attaching modesty panels.

Surface Materials

High-Pressure Laminate Panel

- Laminate
- See *Surface Materials Reference Manual*.
- Open Line laminate (option)
A program including non-Steelcase laminates which are suitable for use on Steelcase products.
- See *Surface Materials Reference Manual*.

3 mm edge profile

- Plastic

Wood veneer panel

- Wood veneer (standard)
- Customiz stain (option)
- Full-Fill Finish (option)

Square 3 mm edge profile

- Wood veneer to match panel

Bracket

- 7360 Merle

Application Topics

Modesty panels are parametric in width from 34"W to 78"W in ½" increments. Modesty panel can be equal to the width of the desk or shorter.

When used with One-High integrated storage, modesty panel must be a minimum of 20" shorter than worksurface width to allow for pinch point clearances.

Modesty panels are undersized 2½" to account for desks with radius corners.

Full width modesty panels cannot be used on desks with integrated rail.
Tip: To use with the integrated rail, the modesty panel must be undersized by a minimum of 12" (rectangular and tapered) or 7" (90°) and inset from the edge of the worksurface.

Modesty panels may be inset a maximum of 3½" from the back of the worksurface to allow for c-clamping.
Tip: Inset modesty panels do not work with the power access door option or the cable basket and cable brackets.

In order to inset, modesty panels must be specified a minimum of 12" smaller (rectangular and tapered) or 7" smaller (90°) than the width of the desk understructure. Utilize the mounting plates and screws to attach the modesty panel to the underside of the worksurface instead of to the cantilevers.
Tip: Inset modesty panels do not work with the power access door option or the cable basket and cable brackets.

Fixed Personal/Modesty Screens

Fixed Personal/
Modesty Screens

Personal screens are tackable and provide variable privacy when and where it is needed. The screens can be used on the Ology integrated rail and the SOTO rail.
► Specifying, page 89

Fixed personal screens are available in three heights; 12", 19½", and 24" - and four widths to accommodate varying levels of privacy. Height is measured from the top of the mounting surface to the top of the screen.

Brackets are attached to the screen.

Actual Dimensions

Fixed Personal/Modesty Screens

Width	30", 36", 42", or 48"
Height	11", 18½", or 23"
Overall height	12", 19½", or 24"
Thickness	¾"

Tip: Overall height is measured from top of mounting surface to the top of the screen.

Product Details

Personal screens can be mounted on the rail. The overall height from the floor will vary depending on the height of the adjustable worksurface.

When attaching c:scape screens to the integrated rail, there is a 5¼" mounting free zone on each end of the rail.

Gap is 1" between personal screen and rail.

Surface Materials

Infill

- Fabric

Brackets

- 4799 Platinum paint

front

back

Fabric without pattern is recommended when using a COM fabric to provide a consistent visual. Fabric with patterns could result in the above visual.

Application Topics

19½"H and 24"H personal screens cannot be used in the modesty position on Ology desks.

When attaching fixed personal/modesty screens to the Ology integrated rail, there is a 5¼" mounting free zone on each end of the rail.

When using fixed screens in the modesty position, the desk must be at least 10" larger than the width of the screen.

When used with One-High integrated storage, fixed modesty screens must be a minimum of 24" shorter than worksurface width to allow for pinch point clearances.

Ology

Universal Steel One-High Open Laterals for Ology Extended Height Applications

Universal Steel One-High open lateral for Ology extended height applications seamlessly integrates the Ology desk leg into universal storage. It provides a clean aesthetic with an efficient footprint. Ease of access to your items under the desk is convenient with this open storage configuration.

► Specifying, pages 92, 100, 94 and 95

Product Details

Base

Universal 3" Base

Laminate and wood veneer tops with square edge profile are available. Tops are 1 $\frac{3}{16}$ "H.

Removable interior cover provides access to power outlets that can be located in the panel behind storage unit.

Case Widths and Ology Foot Dimensions

30"W Ology base units can house Ology legs of 24" or 30" in length. 36"W and 42"W units can house Ology legs of 24", 30", or 36" in length.

Integrated leg options apply to One-High units only and are meant for use with Ology extended height-adjustable desks only.

Actual Dimensions

Depth with flush steel open front 18"

Depth with proud steel open front 18 $\frac{7}{8}$ "

Width 30", 36", and 42"

Height 16"

Application Topics

Storage

Application: Ology left

Application: Ology right

Application is determined by which leg of the Ology desk is located inside the storage.

Universal shroud is used to finish off the back of the storage when application is used as stand-alone unit.

Universal filler is used in end-of-run applications where end of storage unit will be visible.

No top option on lateral file is available for use with a Universal common top shared with an adjacent lateral.

Common tops for Ology application can be used with two units side-by-side when one storage unit is required for Ology leg integration.

Universal common top for Ology applications, ordered separately, is available in laminate or veneer. Cut-out for Ology leg is available on the left side or the right side of the Universal common top. Ology desk cannot be placed in the middle of the Universal common top.

Common tops for Ology application are available when ganging Ology base units to other Universal Laminate low storage of the same height. Select proud option tops to ensure alignment with other base units with drawer or door fronts. ▶ See page 68 for common tops.

To help avoid pinch points, the Universal steel One-High low storage for Ology application extends 1" past the back of the Ology workspace.

When specifying One-High storage that matches the workspace depth, only One-High storage should be placed adjacent to the desk.

Pinch point clearances are not maintained when 1.5-High or taller storage is used adjacent to One-High integrated storage that matches the workspace depth.

Desk

Ology modesty panel or fixed personal/modesty screens must be undersized and justified to the outside when used with One-High storage unit.

When used with One-High integrated storage, screens used in the modesty position must be a minimum of 18" shorter than workspace width to allow for pinch point clearances.

Soft edge and power and data access door can be positioned left or right on Ology desks that are 64"W or wider for use with One-High integrated storage.

Worksurface overhang can be positioned left or right on desks that are 70" wide or wider.

Ology 90° corners that are 70" wide and wider can be used with One-High storage unit.

Ology 120° corners that are 52" wide and wider can be used with One-High storage unit.

Universal Laminate Enhanced One-High and 1.5-High Storage for Ology Applications

Universal laminate enhanced One-High and 1.5-High low-storage units are available with options to accommodate Ology leg integration. It provides a clean aesthetic with an efficient footprint. Ease of access to your items under the desk is convenient with this open storage configuration.

Tip: Using Universal laminate storage with Universal steel storage is not recommended.

► Specifying, page 96

Product Details

Ology bases have a removeable interior back panel to allow access to the Ology base.

Open back

Ology base units offer an option of open back or a finished back for use in applications where back of unit is exposed.

Universal laminate units for Ology leg application always come without tops. Tops must be ordered separately.
► See page 96 for 30"W, 36"W, and 42"W tops.

Universal laminate tops that begin with "RE" for Ology application have proud front detail and are flush to the back edge of storage.
► See page 96

Actual Dimensions

	One-High	1.5-High
Depth	18 $\frac{1}{8}$ "	18 $\frac{5}{8}$ "
Width	30", 36", and 42"	30", 36", and 42"
Height	15 $\frac{11}{32}$ "	21 $\frac{11}{32}$ "

One-High storage can be used with Ology extended range desks or basic range desks.

1.5-High storage can only be used with Ology basic range desks.

One-High and 1.5-High storage for Ology application have a removable interior back panel to allow access to the Ology base.

When using Ology base units ganged to other One-High units, omit top on non-Ology units and use proud option for worksurface, ordered separately.

Case Widths and Ology Foot Dimensions

30"W Ology base units can house Ology legs of 24" or 30" in length. 36"W and 42"W units can house Ology legs of 24", 30", or 36" in length.

Surface Materials

Case
• Laminate

Application Topics

Storage

Application: Ology left

Application: Ology right

Application is determined by which leg of the Ology desk is located inside the storage.

Universal laminate enhanced storage tops are 1"H. 1³/₁₆"H tops will ensure proper alignment in Answer beam applications.

Universal tops for Ology application feature cutout for Ology leg and are used on individual storage units.

Common tops for Ology application can be used with two units side-by-side when one storage unit is required for Ology leg integration.

Common tops for Ology application are available when ganging Ology base units to other Universal Laminate low storage of the same height. Select proud option tops to ensure alignment with other base units with drawer or door fronts. ▶ See page 68 for common tops.

Base units are non-handed. Handedness is identified in the specification of the tops, which are ordered separately.

Finished back should be specified when in stand alone application, for example, on an aisle.

When Ology base unit is used in a ganged application with other One-High storage units, specify the additional One-High storage unit with no top and specify a Universal common top with Ology grommet. ▶ See page 100 for Universal common tops.

Universal common top for Ology applications, ordered separately, is available in laminate or veneer. Location of the Ology port is determined by application orientation. If right leg is integrated into storage, it is a right application. Ology desk cannot be placed in the middle of the Universal common top.

To help avoid pinch points, the Universal laminate One-High low storage for Ology application extends 1" past the back of the Ology worksurface.

When specifying One-High storage that matches the worksurface depth, only One-High storage should be placed adjacent to the desk.

Pinch point clearances are not maintained when 1.5-High or taller storage is used adjacent to One-High integrated storage that matches the worksurface depth.

Desk

Ology modesty panel or fixed personal/modesty screens must be undersized and justified to the outside when used with One-High storage unit.

When used with One-High integrated storage, screens used in the modesty position must be a minimum of 18" shorter than worksurface width to allow for pinch point clearances.

Soft edge and power and data access door can be positioned left or right on Ology desks that are 64"W or wider for use with One-High integrated storage.

Worksurface overhang can be positioned left or right on desks that are 70" wide or wider.

Ology 90° corners that are 70" wide and wider can be used with One-High storage unit.

Ology 120° corners that are 52" wide and wider can be used with One-High storage unit.

Elective Elements One-High Open Plinth Base Pedestals and Common Tops for Ology Extended Height Applications

One-High open plinth base pedestal and common top for Ology extended height applications seamlessly integrate the Ology desk into Elective Elements. They provide a clean aesthetic with an efficient footprint. Ease of access to your items under the desk is convenient with this open storage configuration.

► Specifying, pages 102 and 104.

Tip: Use Elective Elements common tops with Ology base to create an Elective Elements height adjustable desk.

Laminate top on pedestal and common top

- Laminate
- Open Line laminate (option)

Edges on pedestal and common top

- Wood veneer
- Plastic

Wood veneer top on pedestal and common top

- Wood veneer—open pore finishes
- Full-fill (option) is available on wood veneer tops only.

Application Topics

Storage

Application: Ology left

Application: Ology right

Application is determined by which leg of the Ology base is located inside the pedestal.

Common tops for Ology application can be used with two units side-by-side when one storage unit is required for Ology leg integration.

Common top for Ology applications, ordered separately, is available in laminate or veneer. Cut-out for Ology leg is available on the left side or the right side of the common top. Ology desk cannot be placed in the middle of the common top.

Common tops for Ology application are available when ganging Ology base units to other Elective Elements pedestals of the same height.

To help avoid pinch points, the pedestal for Ology application extends 1" past the back of the common top.

When specifying One-High storage that matches the worksurface depth, only One-High storage should be placed adjacent to the desk.

Pinch point clearances are not maintained when 1.5-High or taller storage is used adjacent to One-High integrated storage that matches the worksurface depth.

Desk

Modesty panel or fixed personal/modesty screens must be under-sized and justified to the outside of the common top when used with pedestal.

When used with One-High integrated storage, screens used in the modesty position must be a minimum of 18" shorter than worksurface width to allow for pinch point clearances.

Soft edge and power and data access door can be positioned left or right on Ology desks that are 64"W or wider for use with One-High integrated storage.

Worksurface overhang can be positioned left or right on desks that are 70" wide or wider.

Ology 90° corners that are 70" wide and wider can be used with One-High storage unit.

Ology 120° corners that are 52" wide and wider can be used with One-High storage unit.

Ology Height-Adjustable Rectangular Desks

High-Pressure Laminate or Wood Veneer

Tip: On extended height desks, any storage higher than 19", or 16½" if the power access door is optioned, will impede lowest height range of worksurface. On basic height desks, any storage higher than 23⅞", or 21⅞" if the power access door is optioned, will impede lowest height range of worksurface. Do not place storage underneath controller.

Tip: Only single and dual flat panel monitor arm applications are permitted for use with 2-leg height-adjustable desks.

► See *Steelcase Worktools Specification Guide*.

Tip: Base supports a maximum distributed weight capacity of 314 pounds (2-leg) and 471 pounds (3-leg). When calculating lifting capacity, subtract the weight of the worksurface, understructure, and options selected.

► See page 52 for worksurface weights.

Tip: Antimicrobial can be specified only when specifying simple touch controller and/or soft edge.

Tip: 9" overhang is available on desks 64"W and larger. Overhang on both sides is available on 70"W and larger.

For Canadian Pricing

Multiply U.S. Price by the Canadian price factor.

For Canadian Pricing

Multiply U.S. Price by the Canadian price factor.

► See page 1 for details.

Ology Height-Adjustable Bases

Tip: Any storage higher than 19" will impede lowest height range of worksurface. On basic height desks, any storage higher than 23⁷/₁₀" will impede lowest height range of worksurface. Do not place storage underneath controller.

Tip: Only single and dual flat panel monitor arm applications are permitted for use with 2-leg height-adjustable desks.

► See *Steelcase Worktools Specification Guide*.

Tip: Base supports a maximum distributed weight capacity of 314 pounds (2-leg) and 471 pounds (3-leg). When calculating lifting capacity, subtract the weight of the worksurface and understructure.

► See page 52 for understructure weights.

Tip: Antimicrobial can be specified only when specifying simple touch controller.

Tip: Attachment hardware is intended for worksurfaces 1" thick only.

Tip: 9" overhang is available on desks 64"W and larger. Overhang on both sides is available on 70"W and 76"W only.

Tip: Overhang is available on rectangular bases only.

! WARNING

Read base only warranty limitations.

► See page 28 for *Workstation Design Guidelines and Requirements*.

For Canadian Pricing

Multiply U.S. Price by the Canadian price factor.

Ology Modesty Panels

High-Pressure Laminate or Wood Veneer

Tip: Modesty panel can match the width of the desk or be shorter than desk.

Tip: Modesty panels cannot be used on desks with integrated rail. To use with the integrated rail, the modesty panel must be undersized by a minimum of 12" (rectangular and tapered) or 7" (90°) and inset from the edge of the worksurface.

Tip: Modular modesty panels are undersized 2½" to account for desks with radius corners.

Standard Includes	Required to Specify

Fixed Personal/Modesty Screens

Fixed Personal/Modesty
Screens

Tip: When using COM fabric, it is recommended that non-patterned fabric be used to provide a consistent visual between adjacent screens, and from one side to the other.

Tip: 19½"H and 24"H are for personal only.

Tip: 19½"H and 24"H screens are not intended for use in the modesty position.

Tip: For Ology desks 52"W and smaller, when using fixed screens in the modesty position, the screen must be sized 10" smaller than the width of the desk.

Tip: When attaching c:scape screens to the Ology integrated rail, there is a 5¼" mounting free zone on each end of the rail.

 **For Canadian Pricing**
Multiply U.S. Price by the Canadian price factor.

Height-Adjustable Desks	112
Height-Adjustable Bases	113
Migration Cable and Power Management	114

Migration Height-Adjustable Desks

Migration supports wellbeing at work by allowing users to move between seated and standing postures throughout the workday.

► Specifying, page 112

Desk has a wood core with a High-Pressure Laminate or wood veneer surface and is 1" thick.

Internal motors with electronic synchronization drive

Height-adjustable sit-to-stand base adjusts from 22 $\frac{3}{8}$ "H–48 $\frac{7}{16}$ "H in any increment.

Leveling glides adjust $\frac{1}{2}$ " to install desk on uneven floors.

Push button controller adjusts height at a rate of 1 $\frac{1}{8}$ " per second. Two options are available—up/down or 4 pre-set.

Base supports a maximum distributed weight capacity of 195 pounds.
Tip: When calculating lifting capacity, subtract the weight of the worksurface.
► See page 111 for worksurface weights.

Edge is available in 3 mm edge profile.

Product Details

High-Pressure Laminate Desks

Front (user's) edge profile is available in 3 mm edge profile.

PVC-free, 3 mm edge profiles are proprietary polyolefin blend for all solid colors and three woodgrain finishes. Matching 1 mm side and back edges are also PVC-free.

► See *Surface Materials* in this book for specific PVC-free availability, page 204.

Edge profile finishes are specified separately from laminate color.

Square corners are standard and have 90° corners on all four sides.

Wood Veneer Desks

Front (user's) edge profile is wood veneer with a square (3 mm) radius.

Side and back edges are flat. Wood edge color matches finish specified for desk.

Migration desks adjust 22 2/5"H to 48 7/10"H in any increment.

Up/down controller is available as an option and easily adjusts height of desk, at a rate of 1 1/2" per second, by simply pushing the up and down arrows.

4 pre-set programmable controller is available as an option. It allows users to set the seated and standing height positions or pre-set heights for multiple users. When activated, the digital display will show the height of desk.

Desk sizes are listed in actual dimensions to allow for 1" gap to adjacent furniture eliminating any pinch points.

Wiring and Cabling

Electric motor with whisper quiet operation adjusts at 1 1/2" per second. Motor is 24V DC and includes a 9' power cord. Motor also has 0.1W standby power.

Migration desks are listed by ETL.

Tip: Migration base only is ETL recognized because alternative worksurfaces do not create an ETL listed product.

► See page 28

Controller can be mounted on either the left- or right-hand side of the top and is field-installed.

Power and data strips are field-installed on either a SOTO rail or worksurface. Specify appropriate attachment bracket depending on application.

► See page 187 for *Cable and Power Management*.

Cable riser supports cable management vertically between the floor and the underside of the desk. It is available in 6527 Merle and is specified separately.

► Specifying, page 114

Cable riser-leg connections inside dimensions are 1"D x 1"W to accommodate a variety of cord sizes. Overall depth is 2".

Cable riser-fence connections inside dimensions are 1"D x 1"W to accommodate a variety of cord sizes. Overall depth is 2".

Cable brackets, ordered separately, support horizontal cable management below the worksurface.

► Specifying, page 114

Inside dimensions of cable brackets are 3 5/8"D x 1 3/8"W x 1 3/16"H.

Cable management includes two cable clips and two ties to help manage desk cables.

Surface Materials

High-Pressure Laminate Desk

- Laminate

► See *Surface Materials Reference Manual*.

- Open Line laminate (option)

A program including non-Steelcase laminates which are suitable for use on Steelcase products.

► See *Surface Materials Reference Manual*.

3 mm edge profile

Wood Veneer Desk

- Wood veneer (standard)
- Customiz stain (option)
- Full-fill finish (option)

Square 3 mm edge profile

- Wood veneer to match desk

Height-adjustable base

4799 Platinum Metallic
7207 Black
7241 Arctic White
7360 Merle

Application Topics

Moving desks can collide with other components. Do not install overhead storage, desk-height power, or desk accessories in the path of height-adjustable desks.

Cableways mount to desks to help manage cables at desk height for a clean aesthetic and can be used in combination with screens.

SOTO rail and SlatRail mount to desks to support worktools, freeing up desk space.

► See *Steelcase Worktools Specification Guide*.

Universal boundary screens are not permitted on height-adjustable desks, as they do not pass minimum safety requirements which could result in the desk tipping over.

Due to design, the base has a dead zone between 46 $\frac{1}{16}$ " and 51 $\frac{15}{16}$ " limiting worksurface sizes.

21"H pedestal

Any storage higher than 20" will impede height range of desk.

Tip: Do not place storage underneath controller.

Desk overhang for CPU holder or layering of low storage and pedestals

is allowed on Migration desks 58"W or larger. 58"W desks allow a maximum 13 $\frac{1}{2}$ "W overhang due to the width and design of the telescopic base. The maximum overhang on desks 64"W and larger is 17"W.

All assemblies meet or exceed ANSI/BIFMA standards.

Keyboard assemblies are not recommended for use on height-adjustable desks.

WARNING
Read base only warranty limitations.

► See page 28 for *Workstation Design Guidelines and Requirements*.

Installation

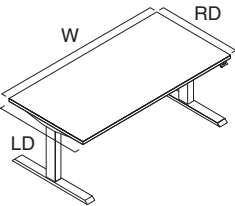

Desks ship with pre-drilled holes for mounting bases.

Height-adjustable base requires attachment to the worksurface.

Base supports a maximum distributed weight capacity of 195 pounds.

Tip: When calculating lifting capacity, subtract the weight of the worksurface.

Base supports a maximum distributed weight capacity of 195 pounds.
Tip: When calculating lifting capacity, subtract the weight of the worksurface.

Migration SE Height-Adjustable Desks

Migration SE supports wellbeing at work by allowing users to move between seated and standing postures throughout the workday.
► Specifying, page 120

Product Details

High-Pressure Laminate Desks

Front (user's) edge profile is available in 3 mm edge profile.

PVC-free, 3 mm edge profiles are proprietary polyolefin blend for all solid colors and three woodgrain finishes. Matching 1 mm side and back edges are also PVC-free.

► See *Surface Materials* in this book for specific PVC-free availability, page 204.

Edge profile finishes are specified separately from laminate color.

Square corners are standard and have 90° corners on all four sides.

Wood Veneer Desks

Front (user's) edge profile is wood veneer with a square (3 mm) radius.

Side and back edges are flat. Wood edge color matches finish specified for desk.

Migration SE extended height adjustable desk adjusts from 22³/₅"-48⁷/₁₀" in any increment. The basic height adjustable desk adjusts from 27³/₁₀"-46⁷/₁₀" in any increment.

Up/down controller is available as an option and easily adjusts height of desk, at a rate of 1¹/₈" per second, by simply pushing the up and down arrows.

4 pre-set programmable controller is available as an option. It allows users to set the seated and standing height positions or pre-set heights for multiple users. When activated, the digital display will show the height of desk.

Desk sizes are listed in actual dimensions to allow for 1" gap to adjacent furniture eliminating any pinch points.

Wiring and Cabling

Electric motor with whisper quiet operation adjusts at 1¹/₈" per second. Motor is 24V DC and includes a 9' power cord. Motor also has 0.2W standby power.

Migration SE desks are listed by ETL.

Tip: Migration SE base only is ETL recognized because alternative worksurfaces do not create an ETL listed product.

► See page 28

Controller can be mounted on either the left- or right-hand side of the top and is field-installed.

Power and data strips are field-installed on either a SOTO rail or worksurface. Specify appropriate attachment bracket depending on application.

► See page 187 for *Cable and Power Management*.

Cable riser-fence connections inside dimensions are 1"D x 1"W to accommodate a variety of cord sizes. The fence connection can go to the leg or the fence. Overall depth is 2".

Cable brackets, ordered separately, support horizontal cable management below the worksurface.

► Specifying, page 114

Inside dimensions of cable brackets are 3⁵/₈"D x 1³/₈"W x 1³/₁₆"H.

Cable management includes two cable clips and two ties to help manage desk cables.

Surface Materials

High-Pressure Laminate Desk

- Laminate
- See *Surface Materials Reference Manual*.
- Open Line laminate (option)
- A program including non-Steelcase laminates which are suitable for use on Steelcase products.
- See *Surface Materials Reference Manual*.

3 mm edge profile

- Plastic

Wood Veneer Desk

- Wood veneer (standard)
- Custom stain (option)
- Full-fill finish (option)

Square 3 mm edge profile

- Wood veneer to match desk

Height-adjustable base

- 4799 Platinum Metallic
- 7207 Black
- 7241 Arctic White
- 7360 Merle

Application Topics

Moving desks can collide with other components. Do not install overhead storage, desk-height power, or desk accessories in the path of height-adjustable desks.

Cableways mount to desks to help manage cables at desk height for a clean aesthetic and can be used in combination with screens.

SOTO rail and SlatRail mount to desks to support worktools, freeing up desk space.

► See *Steelcase Worktools Specification Guide*.

Universal boundary screens are not permitted on height-adjustable desks, as they do not pass minimum safety requirements which could result in the desk tipping over.

On extended height desks, any storage higher than 21" will impede height range of desk. On basic height desks, any storage higher than 26" will impede the height range of the desk.

All assemblies meet or exceed ANSI/BIFMA standards.

Keyboard assemblies are not recommended for use on height-adjustable desks.

⚠ WARNING

Read base only warranty limitations.

► See page 28 for *Workstation Design Guidelines and Requirements*.

Installation

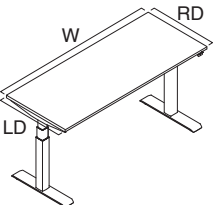

Desks ship with pre-drilled holes for mounting bases.

Height-adjustable base requires attachment to the worksurface.

Base supports a maximum distributed weight capacity of 180 pounds.

Tip: When calculating lifting capacity, subtract the weight of the worksurface.

Base supports a maximum distributed weight capacity of 180 pounds.
Tip: When calculating lifting capacity, subtract the weight of the worksurface.

Series 5

Understanding

Height-Adjustable Worksurfaces	124
--------------------------------	-----

Specifying

Height-Adjustable Worksurfaces	130
Height-Adjustable Bases	136

Series 5 Height-Adjustable Worksurfaces

Series 5 worksurfaces

support computer-intensive users and mobile users in single occupant, multi-occupant, or high-churn environments. They allow users to quickly and effortlessly raise and lower their worksurfaces between seated and standing positions.

► Specifying, page 130

Worksurface has a wood core with a High-Pressure Laminate or wood veneer surface and is 1 $\frac{3}{16}$ " thick.

External DC master and slave motors control lifting columns.

Telescoping stretchers flex to accommodate work-surface overhang, if allowed.

Height-adjustable base adjusts from 25 $\frac{1}{2}$ "H to 52"H in any increment.

Push button up/down controller adjusts height at the rate 1 $\frac{7}{16}$ " per second.

Edge is available in 3 mm, knife, or urethane edge profile.

Leveling glides adjust $\frac{5}{8}$ " to install unit on uneven floors. 1" adjustable glides are available as an option.

Base supports a maximum distributed weight capacity of 195 pounds, including weight of the worksurface.

Tip: When calculating lifting capacity, subtract the weight of the worksurface.

► See page 127 for worksurface weights.

Product Details

High-Pressure Laminate Worksurfaces

Front (user's) edge profile is available in three shapes. Universal tables have a continuous edge profile available in three shapes.

3 mm edge profile Knife edge profile

Urethane edge profile

PVC-free, 3 mm edge profiles are proprietary polyolefin blend for all solid colors and seven woodgrain finishes. Matching 1 mm side and back edges are also PVC-free. See surface material listing in this book for specific PVC-free availability.

Tip: Universal Tables have a continuous 3 mm edge.

Edge profile finishes are specified separately from laminate color.

PVC-free, knife edge with 3 mm edge profile are proprietary blend for solid colors and seven woodgrain finishes. Matching 1 mm side and back edges are also PVC-free.

Tip: Knife edge available on Series 3 and Series 5 height-adjustable worksurfaces only.

Urethane edge profiles are specifiable in black or felt.

Universal tables have 2" radius corners on all four sides with a continuous user's edge. Radius corners eliminate sharp edges and are appropriate for free-standing furniture.

Universal systems, knife edge, urethane edge, and wood veneer worksurfaces have 90° corners on all four sides with a front user's edge.

Wood Veneer Worksurfaces

Front (user's) edge profile is wood veneer with a square (3 mm) radius. Back edge and edge that joins to adjacent worksurfaces are flat. Wood edge color matches finish specified for worksurface.

Tip: Wood veneer worksurfaces are available on Series 3 and Series 5 height-adjustable worksurfaces only.

Series 5 worksurfaces adjust 25 1/2"H to 52"H in any increment.

Bi-level worksurfaces are two pieces – a large monitor surface with a smaller keyboard surface attached. You can adjust the height of the monitor surface from 25 1/2"H to 52"H, and the keyboard surface moves along with it.

Keyboard worksurface on bi-level worksurfaces is supported by a dual arm spring mechanism that allows it to adjust positions up to 6" higher or 4 1/2" lower than the monitor worksurface.

Keyboard surface tilts with a range of 25°.

Rectangular keyboard worksurface is 10 1/2" deep, except knife edge and urethane profile which are 10" deep.

90° corner keyboard worksurface is 12" deep in center.

Bi-level worksurfaces have a 1 1/2" gap between keyboard and monitor surfaces and have 1" spacing between the worksurfaces, extending the entire depth and width of the worksurface to accommodate cables and prevent pinching.

Worksurface sizes are listed in actual dimensions to allow for 1" gap to adjacent furniture eliminating any pinch points.

Feet of base extend 1" past worksurface edge to eliminate pinch points and add clearance for cable access.

Worksurface overhang for pedestal storage varies by shape and size of worksurface. Worksurface widths over 58" allow for single or dual overhang.

Telescoping stretchers collapse to accommodate worksurface overhang, if allowed. Pre-drilled holes are provided for both overhang (15") and non-overhang (1 1/4") instances; therefore, base placement is determined during assembly.

Larger 90° equal worksurfaces are manufactured in two pieces due to laminate sheet size. Flush-mounted worksurface bracing is provided. Smallest section of the worksurface must not overhang lifting column.

Wiring and Cabling

Low surge electric motor with whisper quiet operation adjusts at 1 1/10" per second. Motor is 110V and includes a 9' power cord. Motor also has 0.21W standby power.

Series 5 desks are listed by UL.

Tip: Series 5 base only is UL recognized because alternative worksurfaces do not create an UL listed product.
► See page 28

Push button up/down controller must be located near the master motor. The master motor can be placed on either the right- or left-hand side of the table. For all bi-level tables, the controller must be mounted on the user's right-hand side.

Master and slave motors are mounted between the lifting columns, except on 90° corner bi-level worksurfaces, where they are mounted outboard of the lifting columns.

Trough is provided to manage excess base controller wires.

Drive shaft cover is provided to conceal drive shaft.

Surface Materials

High-Pressure Laminate Worksurface

- Laminate
- ▶ See *Surface Materials Reference Manual*.
- Open Line laminate (option)
- A program including non-Steelcase laminates which are suitable for use on Steelcase products.
- ▶ See *Surface Materials Reference Manual*.

3 mm or knife edge profile

- Plastic

Urethane edge profile

- 6000 Black
- 6278 Felt

Wood Veneer Worksurface

- Wood veneer (standard)
- Customiz stain (option)
- Full-Fill Finish (option)

Square 3 mm edge profile

- Wood veneer to match worksurface

Height-adjustable base

- 0835 Black
- 4799 Platinum

Application Topics

Moving tables can collide with other components. Do not install overhead storage, desk-height power, or desk accessories in the path of height-adjustable worksurfaces.

Screens mount to worksurfaces in privacy or below the worksurface for modesty.

- ▶ See *Worktools Compatibility Charts*, page 37, for help determining appropriate screen widths for each Series 5 worksurface size.

Cableways mount to worksurfaces to help manage cables at worksurface height for a clean aesthetic and can be used in combination with screens.

- ▶ See *Worktools Compatibility Charts*, page 37, for help determining appropriate cableway widths for each Series 5 worksurface size.

SOTO rail and SlatRail

mount to worksurfaces to support worktools, freeing up worksurface space.

- ▶ See *Worktools Compatibility Charts*, page 37, for help determining appropriate SOTO rail and SlatRail widths for each Series 5 worksurface size.

Universal boundary screens are not permitted on height-adjustable desks, as they do not pass minimum safety requirements which could result in the desk tipping over.

Any storage higher than 20" will impede the height range of the worksurface.

Tip: If placed outside the lifting column (as shown), any storage higher than 24" will impede the height range of the worksurface.

All assemblies meet or exceed ANSI/BIFMA standards.

WARNING

Read base only warranty limitations.

- ▶ See page 28 for *Workstation Design Guidelines and Requirements*.

Keyboard assemblies are not recommended for use on height-adjustable tables.

Installation

Worksurfaces ship with pre-drilled holes for mounting bases.

Two-piece tops ship with flush mounted worksurface bracing.

Height-adjustable base requires attachment to the worksurface.

Base supports a maximum distributed weight capacity of 195 pounds.
Tip: When calculating lifting capacity, subtract the weight of the worksurface.

Series 5 Height-Adjustable Worksurfaces

High-Pressure Laminate or Wood Veneer

Tip: Series 5 height-adjustable base requires assembly and attachment to the worksurface.

Tip: Worksurface ships with pre-drilled holes for mounting bases.

Tip: Maximum distributed weight capacity is 195 pounds per table. When calculating lifting capacity, subtract the weight of the worksurface.

► See page 127, for worksurface weights.

Tip: Any storage higher than 20" will impede the lowest height range of worksurface. If the overhang is installed, 24" high storage can be used.

Tip: Only single and dual flat panel monitor arm applications are permitted for use with 2-leg height-adjustable worksurfaces.

Tip: Worksurface overhang for pedestal storage varies by shape and size.

Premium Wood Pricing:
For Premium wood 2 or Premium wood 3 pricing, please refer to the electronic catalog or SmartTools.

Tip: For help determining privacy/modesty screen, cableway, SOTO rail, and SlatRail width compatibility, see Worktools Compatibility Charts, page 37.

Tip: For all edge profiles, add a suffix to the style number. (For example, A5RQ342323 becomes A5RQ342323V for wood with square edge profile.)

For Canadian Pricing

Multiply U.S. Price by the Canadian price factor.

► See page 1 for details.

Specification Information

Tip: For all edge profiles, add a suffix to the style number. (For example, A5RQ342323 becomes A5RQ342323V for wood with square edge profile.)

Tip: Taper-flat worksurfaces do not allow for worksurface overhang.

Tip: Taper-flat worksurfaces utilize a 29"D base causing the foot to extend past the worksurface on the 23"D side.

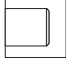

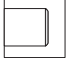

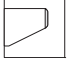

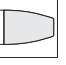

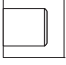

Tip: Only single and dual flat panel monitor arm applications are permitted for use with 2-leg height-adjustable worksurfaces.

Tip: Concave worksurfaces do not allow for worksurface overhang.

Tip: Center of concave work-surface is 25½"D.

Series 5 Height-Adjustable Bases

Tip: Maximum distributed weight capacity is 195 pounds per table. When calculating lifting capacity, subtract the weight of the worksurface.

► See page 127, for worksurfaces weights.

Tip: Any storage higher than 20" will impede the lowest height range of worksurface. If the overhang is installed, 24" high storage can be used.

Tip: Worksurface overhang for use with pedestals is not recommended for taper-flat and concave worksurfaces.

Tip: Attachment hardware is intended for worksurfaces 1³/₁₆" thick only.

Tip: 29"D bases are recommended for use with taper-flat and concave worksurfaces.

Tip: Only single and dual flat panel monitor arm applications are permitted for use with 2-leg height-adjustable worksurfaces.

⚠ WARNING

Read base only warranty limitations.

► See page 28 for Workstation Design Guidelines and Requirements.

Tip: Bases are not recommended for Series 9000 worksurfaces with height-adjustable channel braces attached to underside of worksurface.

Walkstation and Kybun Footpad

Understanding	
Walkstation	140
Kybun Footpad	142
Specifying	
Walkstation	143
Kybun Footpad	144

Walkstation

The Walkstation consists of a fully integrated electric height adjustable worksurface with an exclusively engineered, low speed, commercial grade treadmill. ▶ Specifying, page 143

Worksurface indent allows user to be closer to flat panel while maintaining body alignment to the treadmill base.

Quiet, high torque motor is included.

Commercial grade treadmill has maximum speed of 2 mph in .1 mph increments and no incline adjustability.

The Sit-to-Walkstation provides an area where the worksurface can be lowered for seated use. The user then has the flexibility to adjust from a seated, to a standing, to a walking position with room for a chair next to the treadmill.

Base is painted steel.

2½" diameter glides have 1" of height adjustment for surface leveling on uneven floors.

Back and side edges are laminate to match worksurface.

Urethane high profile soft edge provides grip for balance and serves as a built-in wrist rest.

Magnetic safety clip is standard.

Digital key pad console allows user to start, stop, adjust speed, and adjust worksurface height.

Patented Soft System® surface with Neoprene shock absorber in front third of the deck is standard.

Series 7 height-adjustable worksurface is laminate and standard with a urethane high profile soft edge and built in wrist rest. Urethane edge is located on the front edge only.

Digital display console allows user to monitor speed, calories burned, time, and distance.

Allows room for a chair next to the treadmill.

The treadmill sits firmly in slots along the base of the table. In the Sit-to-Walkstation the treadmill mounts under the right- or left-side of the table.

Actual Dimensions

	Overall Length	Overall Depth	Overall Width	Overall Height	Frame Depth	Frame Width	Frame Height
Treadmill	N.A.	67"	38", 66", or 78"	6"	64"	23½"	6"
Treadmill belt	53"	N.A.	18"	N.A.	N.A.	N.A.	N.A.
Worksurface	N.A.	67"	38", 66", or 78"	N.A.	N.A.	N.A.	N.A.

Product Details

Walkstation is standard with indicators on belt to show movement and belt edge.

Walkstation is standard with metal treadmill receiver plate between feet to insure stability and keep treadmill and worksurface aligned.

Tip: Walkstation does not incline.

Maximum weight capacity distributed is 295 pounds.

Tip: When calculating lifting capacity, subtract the weight of the worksurface.

Walkstation has an adjustability range of 24 $\frac{1}{4}$ "H to 52"H.

Digital display console allows user to monitor speed, calories, time, and distance.

Digital key pad console allows user to start, stop, adjust speed, and adjust worksurface height.

Magnetic safety clip should always be attached to user when walkstation is in use.

Belt must be in the off position before user steps on to treadmill.

Connections

Walkstation may be used with privacy/modesty screens and cableways.
► Pages 190 and 196

Walkstation may be used with Slatwall or SlatRail to accommodate adjustable monitor arm and worktools.

When using a laptop computer with walkstation, plugging in a separate keyboard, mouse, and flat panel display is recommended to provide full control over screen and keyboard positioning and to eliminate vibrations.

Wiring and Cabling

Wire management trough is provided to manage excess controller wires.

Nine foot power cord is standard.

Surface Materials

Worksurface, back edge, and side edges

- Laminate
 - See *Surface Materials Reference Manual*.
 - Open Line laminate (option)
- A program including non-Steelcase laminates which are suitable for use on Steelcase products.
- See *Surface Materials Reference Manual*.

Urethane front edge

- 6000 Black
- 6278 Felt

Treadmill

- 7270 Silverstone

Base

- 0835 Black
- 4799 Platinum

Application Topics

Walkstation may be used in a variety of applications: meeting spaces, individual spaces, and shared spaces.

Keyboard assemblies are not recommended for use on height-adjustable tables.

Universal boundary screens are not permitted on height-adjustable desks, as they do not pass minimum safety requirements which could result in the desk tipping over.

Installation

Allow three feet from the outside edge of the treadmill base on both sides and rear. The only exception is if unit is pushed up against a plain, unobstructed wall on one side.

An FYI flat panel monitor arm is recommended mounted to the worksurface.

A wireless keyboard without a palm rest and wireless mouse is recommended.

A telephone headset is recommended.

Kybun Footpad

Kybun Footpad

► Specifying, page 144

Product Details

Kybun footpad is designed to enable healthy postures and movements for user.

Kybun footpad is designed to be used with flat soled shoes. Not recommended for use with high or sharp heeled footwear.

Kybun footpad is for use on non-skid surfaces.

Surface Materials

- Burgundy

Care and Maintenance

Footpad cover can be washed in warm water (104°F) with similar colors.

Do not use steam, hot water, petroleum based solvents, or spot remover on footpad or footpad cover.

Disinfectant spray and odor blocker may be used up to twice a week to avoid germs and odors on footpad.

Store footpad flat.

Airtouch

Understanding

Height-Adjustable Worksurfaces	146
--------------------------------	-----

Height-Adjustable Worksurfaces

Universal Tables	152
Universal Systems	156
Universal Systems for Use with Series 9000	160

Airtouch Height-Adjustable Worksurfaces

Airtouch worksurfaces

support computer-intensive users and mobile users in single occupant, multi-occupant, or high-churn environments. They allow users to quickly and effortlessly raise and lower their worksurfaces between seated and standing positions.

► Specifying, page 152

Worksurface has a wood core with a High-Pressure Laminate surface and is 1³/₁₆" thick.

Edge is available in 3 mm or P-edge profile.

Base allows unique applications without having to tether any power cords.

Leveling glides adjust 1" to install unit on uneven floors.

Ergonomic lift handle activates smooth, effortless height adjustments.

Airtouch has an adjustment feature on the column which allows the unit to function properly with any weight up to 150 pounds.
Tip: When calculating lifting capacity, subtract the weight of the worksurface.
► See page 149 for worksurface weights.

Height-adjustable column adjusts from 26"H to 43"H in any increment.

Product Details

High-Pressure Laminate Worksurfaces

Front (user's) edge profile is available in two shapes. Universal tables have a continuous edge profile available in two shapes.

3 mm edge profile P-edge edge profile

Knife edge profile Urethane edge profile

PVC-free, 3 mm edge profiles are proprietary polyolefin blend for all solid colors and seven woodgrain finishes. Matching 1 mm side and back edges are also PVC-free. See surface material listing in this book for specific PVC-free availability.

Tip: Universal Tables have a continuous 3 mm edge.

Edge profile finishes are specified separately from laminate color.

P-edge profile rises slightly above the laminate surface and curves into a $\frac{3}{8}$ " radius. Back and side edges are flat.

Tip: P-edge profile available on Airtouch height-adjustable worksurfaces only.

Tip: Universal tables have a continuous P-edge profile.

P-edge profile work-surface depths are $\frac{3}{8}$ " deeper than 3 mm edge profile worksurfaces. Both edge profiles provide a flush interface with universal pedestals.

Universal tables have 2" radius corners on all four sides with a continuous user's edge. Radius corners eliminate sharp edges and are appropriate for free-standing furniture.

Universal Systems have 90° corners on all four sides with a front user's edge.

Airtouch height-adjustable tables are available in straight and corner shapes.

Airtouch worksurfaces adjust 26"H to 43"H in any increment.

Bi-level worksurfaces are two pieces—a large monitor surface with a smaller keyboard surface attached. You can adjust the height of the monitor surface from 26"H to 43"H, and the keyboard surface moves along with it.

Keyboard worksurface on bi-level worksurfaces is supported by a dual arm spring mechanism that allows it to adjust to positions up to 6" higher or 5" lower than the monitor worksurface.

Keyboard surface tilts with a range of 25°.

At least a 1 $\frac{3}{4}$ " gap must separate backs of a table and panels to accommodate cables and prevent pinching. A 1" gap separates sides and adjacent furniture. There is also a 1 $\frac{1}{2}$ " space between the keyboard and monitor surfaces on units with two surfaces.

Worksurface overhang for pedestal storage varies by shape and size of worksurface.

Surface Materials

High-Pressure Laminate Tables

- Laminate
 - ▶ See *Surface Materials Reference Manual*.
 - Open Line laminate (option)
- A program including non-Steelcase laminates which are suitable for use on Steelcase products.
- ▶ See *Surface Materials Reference Manual*.

3 mm or P-edge

- Plastic

Height-adjustable base

- 4799 Platinum
- 7207 Black

Height-adjustable column

- 4799 Platinum paint

Application Topics

Moving tables can collide with other components. Do not install overhead storage, desk-height power, or desk accessories in the path of height-adjustable worksurfaces.

Airtouch is designed to support up to 150 pounds including the worksurface. An adjustable feature on the column allows the amount of lift assist to be set for various cargo loads.

The gauge located near the top of the column shows the amount of lift assist in use. The amount of lift assist can be dialed up for heavier loads and dialed down for lighter loads. If the unit is not moving smoothly, the lift assist mechanism needs to be adjusted. For example, if the top raises too fast, dial the lift assist down. If the top is difficult to raise, dial the lift assist up.

Typical worktool weights are:

- Laptop 5–8 lb
- Small flat screen 10–16 lb
- Monitor arm 10–14 lb
- Desk lamp 5–10 lb
- Keyboard 2–3 lb
- Inch of paper 2 $\frac{1}{2}$ lb
- Desk phone 3–5 lb

Worksurface travels at the speed designated by the user. Users can adjust the table from seated to standing in one natural motion (approximately 1 second).

Universal boundary screens are not permitted on height-adjustable desks, as they do not pass minimum safety requirements which could result in the desk tipping over.

Any storage higher than 24 1/2" will impede the lower height range of worksurface.

Tip: Do not place storage underneath paddle.

Screens mount to worksurfaces in privacy or below the worksurface for modesty.

► See *Worktools Compatibility Charts*, page 37, for help determining appropriate screen widths for each Airtouch worksurface size.

Cableways mount to 28 1/4"D worksurfaces only to help manage cables at worksurface height for a clean aesthetic and can be used in combination with screens.

► See *Worktools Compatibility Charts*, page 37, for help determining appropriate cableway widths for each Airtouch worksurface size.

SOTO rail and SlatRail mount to worksurfaces to support worktools, freeing up worksurface space.

► See *Worktools Compatibility Charts*, page 37, for help determining appropriate SOTO rail and SlatRail widths for each Airtouch worksurface size.

Worksurface weight plates may be necessary to order if there is not enough weight on the worksurface. Applications using the smallest width worksurface without additional worktools (i.e. touch-down spaces) will require these counterweights (946900053SR).

All assemblies meet or exceed ANSI/BIFMA standards.

Keyboard assemblies are not recommended for use on height-adjustable tables.

Installation

Worksurfaces ship with pre-drilled holes for mounting bases.

Airtouch column requires attachment to the base and worksurface.

Base supports a maximum distributed weight capacity of 150 pounds.

Tip: When calculating lifting capacity, subtract the weight of the worksurface.

Airtouch Height-Adjustable Worksurfaces

High-Pressure Laminate Universal Tables

Tip: Airtouch height-adjustable base requires assembly and attachment to the worksurface.

Tip: Worksurfaces ship with pre-drilled holes for mounting bases.

Tip: Any storage higher than 24½" will impede the lower height range of the worksurface. Do not place storage underneath paddle.

Tip: An adjustment feature on the column allows the unit to function properly with any load up to 150 pounds, including the worksurface.

Tip: Counterweights may be necessary to order if there is not enough load on the worksurface. Order service part (946900053SR).

Tip: For help determining privacy/modesty screen, cableway, SOTO rail, and SlatRail width compatibility, see Worktools Compatibility Charts, page 37.

Tip: Knife edge, urethane profile, and wood veneer worksurface options are available through specials.

Tip: Paint surface options apply to base only. Paint surface option does not apply to column.

Tip: To specify 3 mm edge profile, no suffix is required. For P-edge profile, add suffix P to the style number (for example, BAPSS2442P).

Tip: Monitor arms with C-clamp brackets should not be specified with P-edge worksurfaces.

Tip: Only single and dual flat panel monitor arm applications are permitted for use with single column height-adjustable tables.

Airtouch Height-Adjustable Worksurfaces

High-Pressure Laminate Universal Systems

Tip: Airtouch height-adjustable base requires assembly and attachment to the worksurface.

Tip: Worksurfaces ship with pre-drilled holes for mounting bases.

Tip: An adjustment feature on the column allows the unit to function properly with any load up to 150 pounds, including the worksurface.

Tip: Any storage higher than 24½" will impede the lower height range of the worksurface. Do not place storage underneath paddle.

Tip: Counterweights may be necessary to order if there is not enough load on the worksurface. Order service part (946900053SR).

Tip: For help determining privacy/modesty screen, cableway, SOTO rail, and SlatRail width compatibility, see Worktools Compatibility Charts, page 37.

Tip: Knife edge, urethane profile, and wood veneer worksurface options are available through specials.

Tip: Paint surface options apply to base only. Paint surface option does not apply to column.

Tip: To specify 3 mm edge profile, no suffix is required. For P-edge profile, add suffix P to the style number (for example, UAPSS2442P).

Tip: Only single and dual flat panel monitor arm applications are permitted for use with single column height-adjustable tables.

Series 3

Understanding	
Height-Adjustable Worksurfaces	164

Specifying	
Height-Adjustable Worksurfaces	170
Height-Adjustable Bases	176

Series 3 Height-Adjustable Worksurfaces

Series 3 worksurfaces

support computer-intensive users in single occupant environments. They allow users to quickly and effortlessly adjust their worksurface for an optimized seated position.

► Specifying, page 170

Worksurface has a wood core with a High-Pressure Laminate or wood veneer surface and is 1 $\frac{3}{16}$ " thick.

Height-adjustable base adjusts from 22"H to 34"H in any increment.

Leveling glides adjust $\frac{5}{8}$ " to install unit on uneven floors. 1" glides are available as an option.

Telescoping stretchers flex to accommodate worksurface overhang, if allowed.

Crank handle adjusts height at the rate of four turns per inch for worksurfaces with two legs and six turns per inch for worksurfaces with three legs.

Edge is available in 3 mm, knife, or urethane edge profile.

Crank handle adjusts height at the rate of four turns per inch for worksurfaces with two legs and six turns per inch for worksurfaces with three legs.

Base supports a maximum distributed weight capacity of 205 pounds.
Tip: When calculating lifting capacity, subtract the weight of the worksurface.
► See page 167 for worksurface weights

Product Details

High-Pressure Laminate Worksurfaces

Front (user's) edge profile is available in three shapes. Universal tables have a continuous edge profile available in three shapes.

3 mm edge profile Knife edge profile

Urethane edge profile

PVC-free, 3 mm edge profiles are proprietary polyolefin blend for all solid colors and seven woodgrain finishes. Matching 1 mm side and back edges are also PVC-free. See surface material listing in this book for specific PVC-free availability.

Tip: Universal Tables have a continuous 3 mm edge.

Edge profile finishes are specified separately from laminate color.

PVC-free, knife edge profile with 3 mm edge profile are proprietary blend for solid colors and seven woodgrain finishes. Matching 1 mm side and back edges are also PVC-free.

Tip: Knife edge available on Series 3 and Series 5 height-adjustable worksurfaces only.

Urethane edge profiles are specifiable in black or felt.

Universal tables have 2" radius corners on all four sides with a continuous user's edge. Radius corners eliminate sharp edges and are appropriate for free-standing furniture.

Universal systems, knife edge, urethane edge, and wood veneer worksurfaces have 90° corners on all four sides with a front user's edge.

Wood Veneer Worksurfaces

Front (user's) edge profile is wood veneer with a square (3 mm) radius. Back edge and edge that joins to adjacent worksurfaces are flat. Wood edge color matches finish specified for worksurface.

Tip: Wood veneer worksurfaces are available on Series 3 and Series 5 height-adjustable worksurfaces only.

Series 3 worksurfaces adjust 22"H to 34"H in any increment.

Bi-level worksurfaces are two pieces – a large monitor surface with a smaller keyboard surface attached. You can adjust the height of the monitor surface from 22"H to 34"H and the keyboard surface moves along with it.

Keyboard worksurface on bi-level worksurfaces is supported by a dual arm spring mechanism that allows it to adjust positions up to 6" higher or 4 1/2" lower than the monitor worksurface.

Keyboard surface tilts with a range of 25°.

Rectangular keyboard worksurface is 10 1/2" deep, except knife edge and urethane profile which are 10" deep.

90° corner keyboard worksurface is 12" deep in center.

Bi-level worksurfaces have a 1 1/2" gap between keyboard and monitor surfaces and have 1" spacing between the worksurfaces, extending the entire depth and width of the worksurface to accommodate cables and prevent pinching.

Worksurface sizes are listed in actual dimensions to allow for 1" gap to adjacent furniture eliminating any pinch points.

Crank handle is either located front-mount or top-mount and is not specifiable. ▶ See specifying pages for availability.

Front-mount handle is fixed and stored in place.

Top-mount handle is located on the right-hand side only.

Tip: Top-mount handle available on 34"W and 40"W rectangular, 40"W x 40"W and 46"W x 46"W 90° corner, 46"W x 70"W, 70"W x 46"W, 46"W x 76"W, and 34"W x 34"W and 40"W x 40"W 120° equal, and all bi-level worksurfaces.

Top-mount handle sweeps in a circle with a 10" diameter and may interfere with mounting tools.

Feet of base extend 1" past worksurface edge to eliminate pinch points and add clearance for cable access.

Worksurface overhang for pedestal storage

varies by shape and size of worksurface. Worksurface widths over 58" allow for single or dual overhang.

Telescoping stretchers

collapse to accommodate worksurface overhang, if allowed. Pre-drilled holes are provided for both overhang (15") and non-overhang (11¼") instances; therefore, base placement is determined during assembly.

Larger 90° equal worksurfaces are manufactured in two pieces due to laminate sheet size. Flush-mounted worksurface bracing is provided. Smallest section of the worksurface must not overhang lifting column.

34"W 120° equal work-surfaces have a 2-leg base. All other widths have a 3-leg base.

Surface Materials

High-Pressure Laminate Worksurface

- Laminate
- ▶ See *Surface Materials Reference Manual*.
- Open Line laminate (option)
- A program including non-Steelcase laminates which are suitable for use on Steelcase products.
- ▶ See *Surface Materials Reference Manual*.

3 mm or knife edge profile

- Plastic

Urethane edge profile

- 6000 Black
- 6278 Felt

Wood Veneer Worksurface

- Wood veneer (standard)
- Customiz stain (option)
- Full-Fill Finish (option)

Square 3 mm edge profile

- Wood veneer to match worksurface

Height-adjustable base

- 0835 Black
- 4799 Platinum

Application Topics

Moving tables can collide with other components. Do not install overhead storage, desk-height power, or desk accessories in the path of height-adjustable worksurfaces.

Universal boundary screens are not permitted on height-adjustable desks, as they do not pass minimum safety requirements which could result in the desk tipping over.

Screens mount to work-surfaces in privacy or below the worksurface for modesty.

▶ See *Worktools Compatibility Charts*, page 37, for help determining appropriate screen widths for each Series 3 work-sur-face size.

Cableways mount to work-surfaces to help manage cables at worksurface height for a clean aesthetic and can be used in combination with screens.

▶ See *Worktools Compatibility Charts*, page 37, for help determining appropriate cableway widths for each Series 3 work-sur-face size.

SOTO rail and SlatRail

mount to worksurfaces to support worktools, freeing up worksurface space.

▶ See *Worktools Compatibility Charts*, page 37, for help determining appropriate SOTO Rail and SlatRail widths for each Series 3 worksurface size.

27"H pedestal

Any storage higher than 20½" will impede height range of worksurface. *Tip: Do not place storage underneath handle.*

All assemblies meet or exceed ANSI/BIFMA standards.

WARNING

Read base only warranty limitations.

▶ See page 28 for *Workstation Design Guidelines and Requirements*.

Keyboard assemblies are not recommended for use on height-adjustable tables.

Installation

Worksurfaces ship with pre-drilled holes for mounting bases.

Two-piece tops ship with flush mounted worksurface bracing.

Counterweights are shipped for field installation to ensure stability when necessary.

Height-adjustable base requires attachment to the worksurface.

Base supports a maximum distributed weight capacity of 205 pounds.
Tip: When calculating lifting capacity, subtract the weight of the worksurface.

Series 3 Height-Adjustable Worksurfaces

High-Pressure Laminate or Wood Veneer

Tip: Series 3 height-adjustable base requires assembly and attachment to work surface.

Tip: Work surface ships with pre-drilled holes for mounting bases.

Tip: Crank handle location is not selectable. Crank handle is front or top mounted.

Tip: Maximum distributed weight capacity is 205 pounds per table. When calculating lifting capacity, subtract the weight of the work surface.

► See page 167 for work surface weights.

Tip: Any storage higher than 20½"H will impede the lowest height range of work surface. Do not place storage underneath handle.

Tip: Work surface overhang for pedestal storage varies by shape and size.

Premium Wood Pricing:

For Premium wood 2 or Premium wood 3 pricing, please refer to the electronic catalog or SmartTools.

Tip: For help determining privacy/modesty screen, cableway, SOTO rail, and SlatRail width compatibility.

► See Worktools Compatibility Charts, page 37.

Tip: For all edge profiles, add a suffix to the style number. (For example, A3RQ342323 becomes A3RQ342323V for wood with square edge profile.)

Standard Includes

► Need help? Product details, page 164

- High-Pressure Laminate or wood veneer
- High-Pressure Laminate work surface edges:
 - Universal Tables: plastic 3 mm edge profile on all sides
 - Universal Systems or knife edge work surfaces: plastic 3 mm edge profile on front edge with matching 1 mm plastic on sides and back
 - Urethane profile work surfaces: urethane on front edge with matching plastic 3 mm edge profile on sides and back
- Wood work surface edges:
 - Wood veneer square 3 mm radius on front edge with 1 mm matching veneer flat profile on side and back edges
- Work surface corners:
 - Radius corners on Universal Tables, if selected
 - 90° corners on Universal Systems, knife edge, urethane, and wood work surface profiles, if selected
- Height-adjustable base with crank handle: paint
- Telescoping stretchers
- Dual-arm spring assist mechanism for bi-level work surfaces, if selected
- ⅝" adjustable glides
- Attachment hardware

Required to Specify

- 1 Style number with appropriate edge profile suffix:
 - U** Universal Tables
 - Y** Universal Systems
 - K** Knife edge
 - S** Urethane profile
 - V** Wood veneer
- 2 High-Pressure Laminate or wood color number for work surface
- 3 Plastic or urethane color number for profile edge on laminate work surface, if selected
- 4 Paint color for base:
 - 0835 Black
 - 4799 Platinum
- 5 Options, if selected (see below)
 - See *Surface Materials*, page 204.

	Options	U.S. Price	Required to Specify
Surface Materials	High-Pressure Laminate work surfaces		
	• Open Line laminate	+\$71 plus cost of laminate	► See <i>Surface Materials Reference Manual</i> .
	Wood veneer work surfaces		
	• Premium wood 2	See information at left	Specify Premium wood 2 finish number.
	• Premium wood 3	See information at left	Specify Premium wood 3 finish number.
	• Customiz stain	No cost	Specify with <i>Customiz stain</i> .
	• Full-fill finish	Prices at right	► See <i>Surface Materials Reference Manual</i> . Specify full-fill finish number.
Glides	• 1" adjustable glides	+\$31	Specify with <i>1" glides</i> .
Related Products	• Slatwall, SlatRail, and freestanding worktools		► See <i>Steelcase Worktools Specification Guide</i> .
	• SOTO rail/shelves and worktools		► See <i>Steelcase Worktools Specification Guide</i> .
	• Flat panel arms		► See <i>Steelcase Worktools Specification Guide</i> .
	• Privacy/modesty screens and cableways		► Pages 190 and 196
	• Cable and power management		► Page 197

For Canadian Pricing

Multiply U.S. Price by the Canadian price factor.

► See page 1 for details.

Tip: For all edge profiles, add a suffix to the style number. (For example, A3RQ342323 becomes A3RQ342323V for wood with square edge profile.)

Tip: Only single and dual flat panel monitor arm applications are permitted for use with 2-leg height-adjustable tables.

Tip: 34"W and 40"W rectangular worksurfaces have a top mount handle located on right-hand side of worksurface. 46"W to 70"W have a front mount handle.

Tip: All bi-level worksurfaces have a top mount handle located on right-hand side of worksurface.

For Canadian Pricing

Multiply U.S. Price by the Canadian price factor.

► See page 1 for details.

► Specification Information, continued from previous page

Tip: For all edge profiles, add a suffix to the style number. (For example, A3RQ342323 becomes A3RQ342323V for wood with square edge profile.)

Tip: Taper-flat worksurfaces do not allow for worksurface overhang.

Tip: Taper-flat worksurfaces utilize a 29"D base causing the foot to extend past the worksurface on the 23"D side.

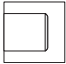

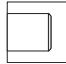

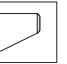

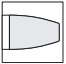

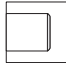

Tip: Only single and dual leg panel monitor arm applications are permitted for use with 2-leg height-adjustable tables.

Tip: Concave worksurfaces do not allow for worksurface overhang.

Tip: Center of concave worksurface is 25 1/8"D.

April 14, 2019

Series 3 Height-Adjustable Bases

Tip: Maximum distributed weight capacity is 205 pounds per table. When calculating lifting capacity, subtract the weight of the worksurface.

► See page 167 for worksurface weights.

Tip: Any storage higher than 20½" will impede lowest height range of worksurface. Do not place storage underneath handle.

Tip: Worksurface overhang for use with pedestals is not recommended for taper-flat and concave worksurfaces.

Tip: Attachment hardware is intended for worksurfaces 1⅜" thick only.

Tip: 29"D bases are recommended for use with taper-flat and concave worksurfaces.

Tip: Only single and dual flat panel monitor arm applications are permitted for use with 2-leg height-adjustable tables.

⚠ WARNING

Read base only warranty limitations.

► See page 28 for Workstation Design Guidelines and Requirements.

Tip: Bases are not recommended for Series 9000 worksurfaces with height-adjustable channel braces attached to underside of worksurface.

Universal Privacy/Modesty Screens

Universal privacy/modesty screen provides a boundary element for height adjustable desks and fixed worksurfaces. It can be used with Ology, Migration, Migration SE, Airtouch, Series 5 worksurfaces, Elective Elements, Universal tables, and Universal panel-mount worksurfaces.

► Specifying, page 190

Universal privacy/modesty screens are available in one height, 25⁷/₁₀", with two mount location options to provide either privacy or privacy/modesty.

Universal privacy/modesty screens cannot be used on surfaces that have intergrated rails that have an additive SOTO rail.

Universal privacy/modesty screen is pin tackable.

The screen is attached to the worksurface using simple L-brackets and 1" screws.

Actual Dimensions

Width	42", 48", 54", 60", or 66"
Height	25 ⁷ / ₁₀ "
Weight	9.79 lb, 10.315 lb, 10.84 lb, 11.365 lb, 11.89 lb
Thickness	3/4"

Product Details

The edge of the screen is comprised of two different materials. The upper segment is merle plastic. The lower portion is felt which can be specified in light heather grey to provide contrast or dark heather grey for a uniform visual.

The screen may be used on 3/4"-1 1/2" thick worksurfaces.

The width of the screen can be equal to or less than the width of the worksurface to which it will attach. Some restrictions apply due to location of worksurface legs and supports.

Surface Materials

Screen

- Fabric
- See *Surface Materials*, page 204.

Edge (upper segment)

- 7360 Merle

Edge (lower segment)

- P630 Light Heather Grey
- P631 Dark Heather Grey

Brackets

- 7360 Merle

Application Topics

Universal privacy/modesty screen mounts to worksurfaces using simple L-brackets and screws. The brackets are positioned 3 3/4" in from each side of the screen.

Tip: When specifying grommets on Ology, verify the position of the screen in CET SmartTools Planning.

Screen height attachment locations are determined when specifying privacy (top of screen will be at 48") or privacy/modesty (top of screen will be at 42"). The location cannot be changed in the field.

Privacy configuration provides 19¹/₂" of screen above the worksurface and 5¹/₂" of screen below the worksurface. The height is measured from the top of the mounting surface to the top of the screen, and from the bottom of the mounting surface to the bottom of the screen. The top of the screen will align with the bottom of the top trim on a 48"H Answer panel.

Screen can be mounted with a 1 1/8" cord drop or flush with no cord drop.

Privacy/modesty configuration provides 13" of screen above the worksurface and 11 1/4" of screen below the worksurface. The height is measured from the top of the mounting surface to the top of the screen, and from the bottom of the mounting surface to the bottom of the screen. The top of the screen will align with the bottom of the top trim on a 42"H Answer panel.

Both the privacy and privacy/modesty configurations allow the height-adjustable desks to be lowered to the lowest position (22") while preserving pinch point gap. Privacy version will not interfere with integrated storage.

Privacy/modesty screens must never be wider than the surface to which they are attached. *Tip: It is recommended that CET SmartTools Planning aid be used to ensure proper application of screen to worksurface or tables.*

Universal privacy/modesty screens cannot be used with 58"W Ology desks with leg integrated into storage. The smallest screen width is 42" which would collide with the storage. Must use a minimum 64"W desk when using storage and Universal privacy/modesty screens.

When used with One-High integrated storage, Universal privacy/modesty screens must be a minimum of 18" shorter than worksurface width to allow for pinch point clearances.

Migration and Migration SE Specific Guidelines

Rectangular 29"D and 35"D

		Desk Width				
		46"	52"	58"	64"	70"
Screen Width	42"					
	48"					
	54"					
	60"					
	66"					

All guidelines assume the screen is centered on the desk.

The screen can be placed on the back edge of a Migration desk utilizing either the 1 1/8" cord drop or no cord drop placement without creating interference. Screens are sized to be a minimum of 4" smaller than worksurfaces. They can be placed anywhere along the back edge of a desk but cannot extend past the desk edge.

Ology Specific Guidelines

Rectangular 23"D, 29"D, and 35"D

		Desk Width						
		34"	40"	46"	52"	58"	64"	70"
Screen Width	42"							
	48"							
	54"							
	60"							
	66"							

Tapered 23"D and 29"D

		Desk Width			
		58"	64"	70"	76"
Screen Width	42"				
	48"				
	54"				
	60"				
	66"				

The screen can be placed on the back edge of an Ology without an integrated rail desk utilizing either the 1 1/8" cord drop or no cord drop placement. Screens are sized to be a minimum of 4" smaller than worksurfaces. Optional cable trays and grommets on Ology may cause some interference with screen mounting brackets.

Legend

	No interference
	Interference or cannot be used
	Cannot specify a grommet

Ology Specific Guidelines, continued

90° Corner 23"D

		Desk Width						
		40"	46"	52"	58"	64"	70"	76"
Screen Width	42"							
	48"							
	54"							
	60"							
	66"							

120° Corner 23"D

		Desk Width			
		46"	52"	58"	64"
Screen Width	42"				
	48"				
	54"				
	60"				
	66"				

All guidelines assume the screen is centered on the desk.

When using the universal privacy/modesty screen on Ology with 1 1/8" cable drop, there are no limits on the horizontal placement of the cable tray beneath the desk.

The universal privacy/modesty screen can be used with the Ology modesty panel without causing interference.

The universal privacy/modesty screen can be used on either back edge of a 90° or 120° corner desk configuration.

Ology desks using an integrated storage leg may only mount the universal privacy/modesty screen in the privacy position.

The universal privacy/modesty screen does not mount to an Ology rail or into the Ology cantilevers.

If using overhangs, the leg must be at least 3 1/2" in from its standard position to avoid interference with the screen bracket.

Legend

	No interference
	Interference or cannot be used
	Cannot specify a grommet

Series 5 Specific Guidelines

Rectangular 23"D and 29"D

		Worksurface Width							
		34"	40"	46"	52"	58"	64"	70"	76"
Screen Width	42"								
	48"								
	54"								
	60"								
	66"								

Taper Flat and Concave 23"D and 29"D

		Worksurface Width			
		58"	64"	70"	76"
Screen Width	42"				
	48"				
	54"				
	60"				
	66"				

90° Corner 23"D and 29"D

		Worksurface Width						
		40"	46"	52"	58"	64"	70"	76"
Screen Width	42"							
	48"							
	54"							
	60"							
	66"							

Universal privacy/modesty screens can be placed on the back edge of a Series 5 worksurface utilizing either the 1 1/8" cord drop or no cord drop placement without creating interference. The screen must match the width of the worksurface or be narrower than the width of the worksurface.

Series 5 Specific Guidelines, continued

120° 23"D and 29"D

Screen Width	Worksurface Width							
	34"	40"	46"	52"	58"	64"	70"	76"
42"								
48"								
54"								
60"								
66"								

When using the universal privacy modesty screen on a 29"D Series 5 worksurface, there are no limits on the horizontal placement of the screen on the desk.

When using the universal privacy modesty screen on a 23"D Series 5 worksurface, the screen cannot be smaller on the right-hand side next to the power supply.

Legend

	No interference
	Interference or cannot be used
	Cannot specify a grommet

Airtouch Specific Guidelines

Rectangular 22¹/₄"D and 28¹/₄"D

Screen Width	Worksurface Width	
	34"	
42"		
48"		
54"		
60"		
66"		

Universal privacy/modesty screen weight should be considered, along with other items to be used on Airtouch, so as not to exceed weight limit.

Universal privacy/modesty screens can be placed on the back edge of an Airtouch worksurface, utilizing either the 1¹/₈" cord drop or no cord drop placement without creating interference. The screen must be narrower than the width of the worksurface. Screen cannot exceed the width of table.

Universal Privacy Screens and Aligners

Universal privacy screens provide a boundary and privacy element for height adjustable desks and fixed worksurfaces. It can be used with Ology, Migration, Migration SE, Elective Elements, panel supported Universal worksurfaces, and TS Series worksurfaces.
 ▶ Specifying, page 191

Actual Dimensions

Height	12½" or 18½"
Overall Height	13½" or 19½"
Width	24", 30", 36", 42", 48", 54", 60", 66", or 72"

Tip: Overall height is measured from top of mounting surface to the top of the screen.

*Tip: 13½"H screen aligns with a 42" datum from the floor.
 19½" screen aligns with a 48" datum from the floor.*

Product Details

Universal privacy screens are tackable and available in 13½"H and 19½"H, and have widths from 24"W to 72"W.

The edge of the screen is comprised of two different materials. The upper segment is merle plastic. The lower portion is felt which can be specified in light heather grey to provide contrast or dark heather grey for a uniform visual.

The screen may be used on ¾"–1½" thick worksurface.

The width of the screen can be equal to or less than the width of the worksurface to which it will attach. Some restrictions apply due to location of worksurface legs and supports.

When fabric screens are placed directly adjacent to each other, a small aligner can be placed in between the screens at the top to connect them for planar alignment. Aligners are ordered separately in packages of 10.

Brackets are included with screens. Two brackets are used on all screens.

Universal privacy screen slides onto brackets.

Acrylic Privacy Screens

► Specifying, page 194

Tip: Screen may need to be shorter than worksurface width. To determine screen/cableway and height-adjustable worksurface compatibility, see Worktools Compatibility Charts, page 37.

Product Details

Privacy screen provides lightweight space division above worksurface.

Gap between worksurface and screen/cableway is 1" to allow for cable feed through.

Privacy screen top is a fixed height 19" above worksurface.

Privacy screen can be used in combination with modesty screen and cableways.

Privacy screen ships with Universal clamps for field installation.

Application Topics

Cableway/Screen Width	SlatRail Width					
	24"	30"	36"	42"	48"	60"
22"						
25"/28"						
31"/34"						
37"/40"						
43"/46"						
49"/52"						
55"/58"						
61"/64"						

SlatRail stanchions mount on the outside of the screen or cableway

SlatRail stanchions will not work with the screen or cableway

SlatRail stanchions mount on the inside of the screen or cableway

Tip: SlatRail does not overhang the SlatRail stanchions; therefore, it is important to order the appropriate SlatRail size when used in combination with screens and cableway.

Surface Materials

Screen

- 6544 Frost only

Universal clamp

- 0835 Black
- 4799 Platinum

Actual Dimensions

Width	22", 28", 34", 40", 46", 52", 58", and 64"
Height	14"

Product Details

Modesty screen provides below worksurface modesty.

Cableways

► Specifying, page 196

Tip: Cableways may need to be shorter than worksurface width. To determine screen/cableway and height-adjustable worksurface compatibility, see Worktools Compatibility Charts, page 37.

Product Details

Cableway allows user to manage cables and power at worksurface height for a clean aesthetic.

Cableway is a fixed height $\frac{1}{4}$ " above the worksurface.

Cableway with Universal clamp can be used in combination with privacy and modesty screens. ► See page 196

Gap between worksurface and cableway is 1" to allow for cables to feed through.

Cableway is 3" shorter than screen width to accommodate Universal clamp.

Universal clamp, if selected, is for use with worksurfaces 1" to 2" thick.

Universal clamp, if selected, uses a 2" footprint above and below worksurface.

Universal clamp, if selected, is standard with rubber feet to ensure a tight fit without marring worksurface.

Horizontal brackets, if selected, screw into underside of worksurface.

Horizontal brackets, if selected, require 2" of clearance below worksurface.

Application Topics

	SlatRail Width					
	24"	30"	36"	42"	48"	60"
Cableway/Screen Width						
22"

Surface Materials

This listing includes all the surface material choices that are available for the products in this specification guide.

Resources

For more information about surface materials, refer to the following resources:

Additional surface materials specification tools are available to assist you in the specification process—the Surface Materials Binders.

The global surface materials palette is a core collection of finishes that is available across multiple geographies (Americas/EMEA – Europe, Middle East, and Africa/ APAC – Asia Pacific) and on global product lines, where applicable. For a list of finishes included in the offering, see the Surface Materials Reference Manual. Additional details, like product approvals by geography and finish number conversions, can also be found in the Surface Materials Reference Manual or see steelcase.com/surface-materials.

turnstone Laminate Collection

A selection of laminates and edge bands in this collection are available on Steelcase brand products. This collection is available with standard leadtimes and supported like standard laminates to help make ordering easy. Please see the turnstone section of village.steelcase.com for swatch information.

2535	Virginia Walnut

2TH6	Persian Cherry
2TH7	Walnut Heights

Custom Surfaces**Open Line Laminate (OLL)**

This service allows you to order non-standard laminate at an additional processing fee of \$71 U.S. per unit, plus the cost of the laminate.

When processing orders for Open Line laminate on Ology desks, Universal One-High tops for use on Ology, and common tops for use on Ology, specify 2900 in the laminate finish field and enter the OLL manufacturer information. Enter the required edge finish as you would a standard laminate.

Laminate Approval and Material Requirements

To confirm whether a particular laminate has already been tested for use on a specific Steelcase product or to determine material square foot requirements:

- Visit www.steelcase.com

For additional information, refer to the *Steelcase Surface Materials Reference Manual*.

Wood

Applies to:

- Ology desks
- Ology modesty panels
- Migration desks
- Migration SE desks
- Series 3 and 5 height-adjustable worksurfaces
- Universal One-High open lateral tops for Ology
- Universal common tops for Ology

Steelcase carefully selects veneer and solid wood for consistent color and grain structure. Wood is a natural material and variations will occur in color, grain and texture. These variations are part of the inherent natural beauty of wood and are not considered defects.

E = Established

All wood products will darken with age and exposure to ultraviolet light. This is especially apparent with cherry and maple veneer. We recommend that desk accessories be rearranged periodically to ensure even aging of wood surfaces.

When storing your wood furniture, please follow the following guidelines:

- Do not store products in trailers
- Store products in areas that simulate office temperatures (60°F to 90°F)
- Store products in areas that maintain constant, office-like humidity levels
- Keep product away from light. Cover products to make sure they are not exposed to light.

Steelcase Surfaces**Veneer**

Veneers are matched for proper balance and consistency. Veneers are available flat cut or quarter cut, except for Oak, which is rift cut. Refer to the *Surface Materials Reference Manual* for descriptions of each cut.

Open-pore finish is a medium gloss finish that leaves the wood grain texture visible to the eye and distinguishable to the touch.

Flat-cut open-pore finish choices

3062	FC/OP Graphite Walnut
3402	FC/OP Clear Cherry (Aged)
3412	FC/OP Natural Cherry E

**To ensure an understanding of the color ranges and characteristic variations of natural veneer, a sign-off sheet is required prior to orders being accepted for this clear-coat finish. The sign-off sheet is available through Steelcase advertising stock. Please use form number 09-0000756 for 3042, 05-0001370 for 3222 and 3224.*

Premium Veneers

A selection of Premium veneers in this collection are available on most Steelcase brand products. The collection will be available as close to standard leadtimes as possible. However, because adequate supplies of veneer and solids must be secured, all orders will be scheduled individually. Leadtimes will vary based on Premium veneer and Premium solids availability at the time the order is placed. The collection is Graded-In as Wood Group 2 and Wood Group 3, and supported like standard veneers to make ordering easy. Please see the Steelcase surface materials section on village.steelcase.com for sample information and product line availability. All premium veneers are in clear-coat.

Quarter-cut open-pore finish choices Wood Group 2

3032	QC/OP Dark Thin Line Bamboo
3052	QC/OP Ribbon Sapele

Wood Group 3

3832	QC/OP Figured Anegre
3842	QC/OP Figured Makore

To ensure an understanding of the color ranges and characteristic variations of natural veneer, a sign-off sheet is required prior to orders being accepted for this clear-coat finish. The sign-off sheet is available through Steelcase advertising stock. Please use form number 09-0000755 for 3032, form number 09-0000757 for 3052, form number 09-0000758 for 3832, and form number 09-0000759 for 3842.

Select Surfaces

For information on products within Select Surfaces, including accent paints and fabrics from Designtex, Gabriel, Kvadrat, and Pollack, please refer to the *Surface Materials Reference Manual* or visit steelcase.com/surface-materials under the Select Surfaces section.

Composite Veneer

Composite veneers are an engineered wood intended to create specific grain patterns and characteristics. They are pre-stained and finished with Steelcase's Clarity water-borne UV topcoat, which protects the environment while providing durability and clarity. Only open-pore finishes are available on composite wood. Composite veneer and matching edge bands are available on most Steelcase brand products. Composites, for use as a solid nosing substitute, are not available. Steelcase does not recommend mixing composite veneers with natural solid nosings because composite and natural wood grain and color matching are rarely compatible. Composite veneers are Graded-In as Wood Group 1 pricing.

Flat-cut open-pore finish choices

3JDX FC/OP Oak Composite
3JFX FC/OP Maple Composite
3JHX FC/OP Cherry Composite
3JJX FC/OP Walnut Composite

3ZNX QC/OP Night Cerused Oak Composite

Natural Veneer

Natural veneer is available in the Select Surfaces offering. Natural veneer may have extended lead-times. Place your order as you normally would for any other finish, calling out the appropriate finish code. Natural veneers are Graded-In as Wood Group 1 pricing.

The following finishes are available through the natural veneer offering:

Flat-cut open-pore finish choices

35A2 FC/OP Blanch Maple
37A2 FC/OP Thunder Walnut

Quarter-cut open-pore finish choices

32A2 QC/OP Blanch Maple
33A2 QC/OP Thunder Walnut

Rift-cut open-pore finish choices

36A2 RC/OP Volcanic Oak

Ⓔ = Established

Planked Veneer

Planked veneer is available in the Select Surfaces offering. Planked veneer may have extended lead-times. Place your order as you normally would for any other finish, calling out the appropriate finish code.

The following finishes are available through the planked veneer offering:

Wood Group 1

3P41 OP Planked Cherry
3P51 OP Planked Maple
3P61 OP Planked Oak
3P71 OP Planked Walnut

Tip: Known for its uniqueness, planked veneer has intentional and natural variations that include, but are not limited to: character marks, grain pattern, color, and natural color aging.

Custom Surfaces

Customiz stain is a service that allows you to create your own stain colors and finishes on standard veneer. Customiz stain color is available on all product lines that offer wood veneer.

A \$500 stain-matching fee applies on CUSTOMIZ requests (Exception: The \$500 fee does not apply on matches to Coalesce standard finishes or for a low-gloss finish request on a standard color). The \$500 fee covers the cost of formulating the Customiz color finish and applies regardless of whether or not an order for product is placed.

In addition, an approval form must be signed to indicate customer acceptance of Customiz match. A \$1,500 initiation fee will be charged prior to first order entry. This initiation fee activates the finish for unlimited use on any Steelcase product for an 18 month time period. After the 18 month time period has lapsed, the Customiz finish may be reactivated for another 18 months for a \$1,000 fee at any point within five years after the \$1,500 initiation fee was paid. If the finish is not reactivated within five years after the \$1,500 initiation fee was paid, the finish will be culled and the customer will need to pay the \$1,500 initiation fee again. All style number related Customiz charges products are no cost as of April 2014. The matching and initiation fees are not discountable.

Customiz stain takes 10 days to formulate. Consult the *Surface Materials Reference Manual* for more information. Custom veneers are also available and must be quoted by Steelcase specials group. Customiz stain on custom veneers takes 2 to 4 weeks to formulate.

Requirements and information on ordering a Customiz stain color are found in the *Surface Materials Reference Manual*.

Plastic

Tip: Light color plastic edges are susceptible to degradation due to normal wear and tear. Staining (e.g., ball point pen or clothing dyes such as blue jeans) and dirt effects are more pronounced in light colors and are not considered defects.

Applies to:

- 3 mm edge profile on Ology desks and modesty panels
- 3 mm edge profile on Migration desks
- 3 mm edge profile on Migration SE desks
- Series 3 and 5 Universal and knife edges
- Airtouch worksurfaces
- 1 mm square edge profile on Universal One-High open lateral laminate tops for Ology
- Universal common tops for Ology
- Universal tops for Ology

Wood Veneer Grain Directions

The appearance of wood veneer may change slightly depending on the angle from which it is viewed. This natural phenomenon is called polarization, and it can be seen on natural veneer, and to a lesser extent on composite veneer. Polarization is often noticed on worksurfaces installed at a 90° angle with each other. Please refer to the following illustrations for an understanding of grain direction on your installation.
