### For Canadian Pricing

Canadian factor can be found at [steelcase.com/CADpricing](http://steelcase.com/CADpricing).

Calculate in the following order to avoid rounding errors:

- Multiply the base price and each option by the Canadian factor.
- Round each to the nearest dollar.
- Add base and options for total list price.

# Ordering and Warranty

## How to Order

Coalesse furniture is available through authorized dealers and retailers. Select products are available for order from our web site. The authorized dealer can help you with everything from surface material selection and order placement, to specialized services, such as space planning and design, delivery and installation. Best of all, they are part of your local community, providing expert advice with a thorough understanding of local needs. For more information and a listing of dealers and retailers, visit [www.coalesse.com](http://www.coalesse.com) or call 1.800.627.6770.

Coalesse reserves the right to limit distribution of any or all models.

## Credit, Prices, and Terms

Credit may be established upon acceptance of satisfactory references. For payment terms, contact Coalesse's Credit Department. Coalesse may cancel or change credit terms at its discretion and may request advance payment at any time.

The order confirmation will be deemed by the customer and by Coalesse, as the final expression of agreement and will be deemed the exclusive statement of terms. The order confirmation supersedes all prior writings and may not be modified or rescinded, except by a revised Coalesse order confirmation signed by the customer. No changes are binding on Coalesse until delivery of the order confirmation. Any storage charges and applicable sales taxes are in addition to the prices shown for merchandise. Inside delivery, uncartoning and installation are customer's responsibility unless separately quoted. All list pricing shown includes freight prepaid to one destination for delivery in the 48 contiguous United States. Hawaii and Alaska are not included. We reserve the right to increase prices without notice due to increases in labor and material costs. If timely payment is not made, customer is liable for reasonable collection costs, including attorney's fees.

## Shipping and Storage

Coalesse reserves the right to select carrier and packaging method. Partial shipments may be delivered. Coalesse is not liable for delays or delivery failure due to strikes, lockouts, labor, or transportation difficulties, failure or delay of supply sources, accidents, fire, acts of God, or any other cause of like or unlike nature beyond Coalesse's control. Coalesse may transfer merchandise to storage if not accepted when shipment scheduled. Transfer and storage charges will be the customer's expense. Coalesse's invoice is payable upon transfer. If transfer is made prior to confirmed shipping date, storage expenses will be borne by customer.

Shipping charges MAY be calculated per order. Lead times vary by product. Coalesse reserves the right to select carrier. Partial shipments may be delivered. Coalesse will make every effort to provide current and accurate lead time information, however, Coalesse is not liable for delays or delivery failure due to strikes, lockouts, labor, or transportation difficulties, failure or delay of supply sources, accidents, fire, acts of God, or any other cause of like or unlike nature beyond Coalesse's control.

Freight is included on domestically manufactured products within the 48 contiguous states of the United States and standard freight service of Carl Hansen & Son and Emu.

## Claims

Merchandise shipped from Coalesse is thoroughly inspected and properly packed before leaving the factory. Responsibility of its safe delivery is assumed by the carrier at the time of shipment. Customer must match the freight delivered with the bill of lading. Customer must examine packaging material upon delivery and note any damage on the carrier bill of lading. If there is damage to the packaging material, inspect the furniture immediately. If concealed damage is found, contact the carrier within 10 days of delivery date. Save all packaging materials until after inspection.

Freight damage and claims must be reported by the purchaser to the carrier. Coalesse is not responsible for freight claims. Claims for loss or damage must not be deducted from our invoice, nor payment withheld awaiting adjustment of such claims. Do not return any merchandise to Coalesse without a Return Authorization number. By following these procedures carefully, Coalesse guarantees our full support of your claims to protect you against loss or damages. All claims against Coalesse for defects, errors or shortages must be made by customer in writing within fifteen (15) days after delivery. Failure to make claims within fifteen (15) days constitutes acceptance of merchandise and waives claims. Cutting of textiles deems acceptance of yardage and waives all defects, errors, and shortages. Coalesse is not liable for subsequent damages.

## Special/Custom Products

Coalesse prides itself on being responsive to our customer's needs. Contact our Customer Service team at 1.800.627.6770 to discuss a special opportunity. Due to product modifications and engineering time, special orders may not be cancelled. Charges will apply.

FOR MORE INFORMATION (on ordering our products) Please contact Coalesse Customer Service at: 1.800.627.6770.

# Ordering and Warranty

## Order Cancellations/Changes

All order change/cancellation requests must be submitted using the Coalesse order change/cancellation request form. Late changes could jeopardize the committed delivery of an order.

Coalesse Rapid10 programs no change or cancellations allowed.

### Coalesse Products:

No charges will be assessed for change or cancellation 14 or more calendar days prior to the manufacturing completion date (excludes holidays and/or large quantity project size orders). For import products, charges may apply.

No manufacturing changes are allowed 0-13 calendar days prior to the manufacturing completion date. Simple changes including shipping address changes are subject to approval but will be accommodated when possible.

No cancellations or product changes will be accepted for quick ship or special/custom product orders including special laminates. A cancellation fee will be applicable for any custom product and/or change may jeopardize lead time.

If COM/COL has been received at time of change or cancellation, it is the dealer's responsibility to advise disposition or return of materials. Coalesse will not store materials after 30 days.

## Additional Charges

Changes or cancellations that involve any of the following may be subject to a charge earlier and/or greater than shown above: Special engineering product, CSM, pre-ordered components, materials with extended lead times (e.g., veneers, special paint, etc.) or large quantities of standard materials.

Use our Order Change/Cancellation Request Form for all order changes. It is Coalesse responsibility to accurately process change order requests. It is the dealer's responsibility to verify that we have accurately interpreted your change requests by checking the acknowledgement after the change has been made. If you do not use the web-based change order form process and an error occurs during our translation which cannot be corrected prior to ship, all costs will be shared on a 50/50 basis. Changing ship dates or adding product to your order is subject to the availability of manufacturing capacity.

Cartoning changes and shipping address changes are subject to approval and to a change charge. Please consult your Customer Service for specific information pertaining to your order.

## Reserved Fabric Policy

Prior to order receipt, reserving textiles (COM/COL, Maharam, Designtex, and select Luna Graded-In) is the responsibility of the dealer. Coalesse cannot reserve textiles based on projected orders. Coalesse cannot guarantee Maharam or Designtex fabric availability. If dealer reserves Maharam or Designtex textiles, Coalesse will require the reserve number and zip code for locating purposes when ordering.

## Schedule Enhancements

Coalesse will entertain schedule enhancements on a case-by-case basis; however, please understand that we must receive complete information such as installation date, opening date in order to make informed scheduling decisions.

No order move-ups or move-outs are allowed on any order that falls within the 15-working day period of its manufacturing completion date. If it is within the 15-working day period, Coalesse will invoice at shipment but may offer storage options at a charge for manufactured product.

## Rapid 10

The Coalesse Rapid10 program provides a broad selection of our most popular seating, outdoor furniture, and tables with expedited manufacturing. To view and specify products that are included in the Coalesse Rapid10 program, please refer to the *Quick Ship Guide*. The comprehensive Coalesse offering in this program can easily provide a range of solutions for any setting. Coalesse Rapid10 is designed for clients whose needs require fast delivery of products. All products are made-to-order and ship in 10 business days.

## Warranty

For warranty information, please go to <http://www.coalesse.com/warranty/>.

# Sustainability and SCS Certifications

As our understanding of sustainability evolves in the contract furniture business, Coalesse is being launched on three important fronts: responsibly harvested woods, better ways of plating metal, and manufacturing for the highest level of durability. To ensure all new products are socially responsible, we have engaged the "cradle-to-cradle" design consultancy, MBDC, to advise us and provide third-party analysis of the materials and processes we use to create our products. As Coalesse grows, social responsibility will be an essential part of our decision-making, from design to disposal. We believe that our success on the environmental front will be built on the accumulation of a multitude of small steps and the occasional big leap. We are starting with a green outlook and we have every intention of growing greener.

## SCS Certifications

For SCS/IAQ and level certifications, please go to <http://www.coalesse.com/products/>. Click on a product category, then click on product line for desired certification. Look under Professional Resources, then find Environmental Profile to find certification(s), if available.

## Woods: FSC Certification

Our policy with wood sourced from outside North America and our approved European partners is that they must be certified by The Forestry Stewardship Council (FSC) to ensure these woods have been responsibly harvested from sustainable forests, and that the rights and welfare of workers and local communities are being respected. Through an FSC label, wood can be traced back to its original source of supply.

## Chrome: A New Alternative To Metal

Chromed steel is a mainstay of the contract furniture industry because it is considered a premium finish with high durability. But depending on the type of chrome processing used, it can have a detrimental impact on human and environmental health. The most common method of chrome plating uses hexavalent chrome, a known carcinogen and considered by MBDC in their color-coded rating system (green, yellow, red), to be a "hard-red" chemical. There are no health hazards associated with chrome once it has been applied, but the hexavalent chrome electroplating process can be hazardous.

Is there an alternative? Coalesse is opting for a safer method of plating and has partnered with a domestic supplier who uses only "trivalent" chrome, a non-carcinogenic form of the metal. Few, if any, metal finishing processes are without environmental challenges, and chrome is no exception. Working with the best technology currently available, we will continue to seek new and better alternatives.

## Building To Last

Building longevity into products is an important sustainability strategy. A chair or table that lasts for 50 or 100 years or more will not have to be replaced, saving the materials and finishes and embodied energy from being duplicated in another form. Coalesse is quality furniture designed to outlast its buyers. We hold up Hans Wegner designs as the model of longevity—pieces manufactured a generation ago are still prized possessions today. Our hope is that every piece in our collection appreciates in value over the years, so it will be passed on.

## Ongoing Audits

As the Coalesse collection grows, our intention is to live by the cradle-to-cradle (C2C) philosophy described by MBDC this way: "Instead of designing cradle-to-grave products, dumped in landfills at the end of their 'life,' the goal is create products for cradle-to-cradle cycles, whose materials are perpetually circulated in closed loops. Maintaining materials in closed loops maximizes material value without damaging ecosystems." Coalesse has contracted MBDC to audit the materials used in the majority of our existing products, and to advise us as we develop new products. We intend to achieve Cradle to Cradle certification on the highest percentage of products possible. As Coalesse grows, social responsibility will be an essential part of our decision-making, from design to disposal. We believe that our success on the environmental front will be built on the accumulation of a multitude of small steps and the occasional big leap. We are starting with a green outlook and we have every intention of growing greener.

# Ballet Collaborative and Conference Tables

**Ballet tables** form a versatile series that provides solutions in a variety of applications—conference, training, workplace, dining, and utility. Base configurations are available in folding and fixed versions.

Seating Capacity Guidelines  
▶ See page 49

# Ballet Collaborative and Conference Tables

## Product Details

**Solid core tops with 3/4" and 1" nominal edge thickness** have a particle board core (45 lb cu ft density) with High-Pressure Laminate on the top and a backer applied to the opposite side for a balanced construction. High-Pressure Laminate and backer are bonded to the core with a PVA adhesive.

**Flip-top option** is available on pedestal base tables only.

**Flip-top mechanism** is available on pedestal base tables 36"D or less. The flip-top mechanism allows tops to tilt for more compact storage of tables that are not in use. Safety latch secures the top in flat position and must be released to flip top up.

*Tip: Flip-top tables are not meant to be used in configurations. Tops may not align.*

**Special table heights** may be practical. To confirm practicality and obtain a quotation, contact Customer Service at 1.800.627.6770.

**Folding** is possible for select X-base and K-base tables to allow compact storage of tables that are not in use. Both X-base and K-base are 4" thick when folded. Folded height is 3 5/8".

**Mobile storage cart** stores and transports up to 5 folded Ballet tables from lengths of 48"-72" and widths up to 42". Folded height is 3 5/8".

**Bases** are available in three configurations—X-base, K-base, and pedestal base. Base assemblies are constructed of die-cast and extruded aluminum. X-base and K-base assemblies are joined by 1" x 3" extruded aluminum stretcher bar for stability. Base finish can be any powder coat color.

**Base inset on Ballet K-base tables** is 3 1/2".

**Base inset on Ballet X-base tables** is 10" on tables 60"L and 13" on tables longer than 60"L.

**Table height** is standard at 28 1/2"H.

**Adjustable leveling glides** are non-marring, black plastic.

**Casters** can replace glides on many Ballet tables factory installed. Casters are 2"-diameter, locking dual-wheel casters in black plastic and do not alter the table height.

**Edges** are black ribbed vinyl T-mold with matching plastic corner inserts.

**Custom shapes and sizes** Special table sizes and shapes are possible. To confirm practicality and obtain a quotation, contact Customer Service at 1.800.627.6770.

**Cut-down tops**, which are standard table tops with smaller dimensions, are available. Use the product number of the next larger size and specify the exact dimensions you want. Some restrictions apply, including minimum quantities. This option is not available for folding tables. Additional lead times may be required. Contact Coalesse Customer Service at 972.641.2860.

*Tip: Upcharge for a cut-down top is applied one time only per size/style number.*

*Tip: Fee is at list and contract discounts apply.*

**Woodgrain laminates** are always oriented with the grain direction running parallel with the length of the table top. You cannot specify woodgrain laminates with end- or side-matched grain directions.

# Ballet Collaborative and Conference Tables *continued*

## Edge Alternatives

Edge Alternatives	Table Top Shape					
	Round	Square	Rectangular	Racetrack	Arc	Connecting Tops
1" Tops						
 <ul style="list-style-type: none"> <li>• 1" Ballet black ribbed vinyl T-mold</li> <li>• 1/8" D profile</li> </ul>	<ul style="list-style-type: none"> <li>• Available</li> </ul>	<ul style="list-style-type: none"> <li>• Available with square corners only, injection-molded plastic</li> </ul>	<ul style="list-style-type: none"> <li>• Available with square corners only, injection-molded plastic</li> </ul>	<ul style="list-style-type: none"> <li>• Available</li> </ul>	<ul style="list-style-type: none"> <li>• Available with square corners only, injection-molded plastic</li> </ul>	<ul style="list-style-type: none"> <li>• Available</li> </ul>

# Ballet Collaborative and Conference Tables

## Connections

**Connecting tops** can link perpendicular Ballet tables at 90° and expand the useable area in many different configurations. ▶ See page 65

**Modesty panel** is available on many Ballet tables. Panel is ribbed extruded aluminum with powder coat color and includes a non-exposed horizontal wire management trough. ▶ See individual product specification pages for availability.

**Gangers** are available in one type—bar. Use bar gangers in applications where tables need to be rigidly linked for long periods of time. Threaded inserts for bar gangers are always factory installed. Bar gangers are field installed.

**Bar gangers** use steel bars to join adjacent tables. One end of the bar is captured by the host table and allows the bar to pivot beneath adjacent table where it is captured by a threaded post with knob. Factory-installed threaded insert in underside of table top accepts the threaded knob. No tools are required to link tables with bar gangers.

End-to-end

Side-to-side (Not available on tables with modesty panels.)

End-and-side (Not available on tables with modesty panels.)

**Factory-installed bar ganger** inserts are standard on all rectangular Ballet tables to allow tables to be joined end-to-end and/or side-to-side. Threaded inserts are available as an option on Ballet tables with vinyl or self edges. Specify universal ganging when you order your tables. You must also order the appropriate number of ganger packages separately. Order one package for each pair of table edges that are going to be joined.

*Tip: Please send a drawing of your arrangement along with your order to ensure that gangers are properly installed.*

**Bar ganger package** is available.

Bar Ganger Package	Style Number	List Price U.S.
Bar ganger for 1¼"-thick tops	793335	\$59

If your tables are going to be used in a configuration that requires ganging, please send us a drawing or sketch so that we can give you exactly what you want.

## Wiring & Cabling

**Vertical wire manager** is available to clip on to Ballet table leg to conceal power cords and voice/data cables routed vertically from the floor to the worksurface. Vertical wire manager is black plastic. ▶ See page 67

**Technology spider** is a cable-management version of the traditional spider that is used to attach a table top to a column. The spider provides clearance for power cords and voice/data cables to pass through the table top so that Interport modules, grommets, and spheres can be positioned directly above a table base.

**Grommets** are available factory installed. Locations are listed in the table below (left, right, center).

**Field installation** available. To specify, order the grommet and the table as separate items.

**Grommet** has 2"-diameter opening. Dimensions given are from the center of opening and are accurate within ¼". Left, right, and center are from the user's perspective.

# Ballet Collaborative and Conference Tables *continued*

**Ballet K-Base**

(Grommets)	A	B	C
20"W	48"	3 1/2"	8 1/2"
	60"	3 1/2"	8 1/2"

	60"	6 5/32"	8 1/2"
	72"	6 5/32"	8 1/2"

**Ballet X-base grommets** are available for field installation. To specify, order the grommet and the table as separate items. Custom locations are possible.

**Spheres** are available factory installed (left, right, center) as a special. Locations are listed in the table to the right.

Four simplex power outlets

Two simplex power outlets and two data jack locations

Four data jack locations

**Field-installed sphere** is practical on many table tops. Order unit separately and cut the required hole in the table top on site. Installation instructions will be shipped with the sphere.

**Sphere** has 3"-diameter opening. Dimensions given are from center of opening and are accurate within 1/4" left, right, and center are from the user's perspective. Additional locations are possible. Contact Customer Service at 1.800.627.6770.

**Ballet K-Base**

(Spheres)	A	B	C
20"W	48"	3 1/2"	8 1/2"
	60"	3 1/2"	8 1/2"
	72"	3 1/2"	8 1/2"
	84"	3 1/2"	8 1/2"
24"W	48"	3 1/2"	8 1/2"
	60"	3 1/2"	8 1/2"
	72"	3 1/2"	8 1/2"
	84"	3 1/2"	8 1/2"
30"W	48"	6 5/32"	8 1/2"
	60"	6 5/32"	8 1/2"
	72"	6 5/32"	8 1/2"

*Tip: Custom locations are possible. Custom locations require an engineering review to confirm practicality. Please send a drawing to your Customer Service representative to show the locations you want, confirm practicality, and obtain a quotation.*

**Please** send a drawing of your arrangement along with your order to ensure that grommets and spheres are properly installed.

**Interport and Mini-Port** are available factory cut in custom locations. This process requires engineering review and additional lead time may be required. *Tip: Send us a drawing indicating desired location(s). An additional charge may apply if the standard table design requires modification.*

**Interport and Mini-Port** are also available for field installation. To specify, order the Interport or Mini-Port and the table as separate items.

**Interact** is available factory cut in custom locations. This process requires engineering review and additional lead time may be required. *Tip: Send us a drawing indicating desired location(s). An additional charge may apply if the standard table design requires modification.*

**Power strips** are available as an accessory, ordered separately.

# Ballet Collaborative and Conference Tables

## Surface Materials

Laminates are available in two standard grades. Additional laminates from any manufacturer may also be practical—see below.

### Grade 1 laminates include:

- Coalesse standard High-Pressure Laminates
- ▶ See *Coalesse Surface Materials Reference Guide*.
- Steelcase standard High-Pressure Laminates (code 290A)
- ▶ See *Steelcase Surface Materials Reference Manual*.
- Any standard-grade Wilsonart High-Pressure Laminates in solid color, woodgrain, or pattern finish (code 290A)

### Grade 2 laminates (code 290B)

include any standard-grade, solid color, woodgrain, or patterned High-Pressure Laminates from Nevamar (includes Matrix), Formica, or Pionite. Grade 2 laminates may have extended lead times. For details, contact Customer Service at 1.800.627.6770.

Other laminates that are not included in the Grade 1 or Grade 2 offerings may also be available, such as Abet Laminati and Laminart. To determine availability and pricing, contact Customer Service at 1.800.627.6770, with the laminate manufacturer's name and the name and number of the laminate you want.

Laminate swatches are reproduced in the *Coalesse Surface Materials Reference Guide*.

Swatch cards and actual samples of Coalesse standard laminates are available from your Coalesse Customer Service representative. For samples of High-Pressure Laminates from other manufacturers, contact them directly:

Wilsonart  
1.800.433.3222  
Nevamar  
1.800.638.4380  
Formica  
1.800.FORMICA  
Pionite  
1.800.285.5161

*Tip: Laminate manufacturers change their offerings frequently. Always check availability before ordering.*

## Care & Maintenance

Laminate should be cleaned with soap and water. For stubborn stains, use a non-abrasive household cleaner.

Powder coat finishes on table bases should be cleaned with a liquid detergent and water. Remove stubborn stains with liquid cleanser, such as Formula 409.

Polished aluminum finishes on table bases should be cleaned with a commercial powder, liquid, or paste metal cleaner and polish. Follow the manufacturer's directions.

Tables should be inspected and maintained regularly by tightening screws and bolts, inspecting casters and glides for damage, and inspecting all moving parts for damage and wear.

Round Table 77

Oval Tables 79

Accessories 81

# Denizen Collaborative and Conference Tables Round and Oval Tables

DESIGN WILLIAMS SOREL DESIGN ORIGIN: 2008 UNITED STATES

**Denizen has a range of tables to support collaborative and individual work.** Multiple sizes and heights enable varied postures and applications.

*Tip: This product line is a collection and will be found in more than one location in this specification guide.*

► See Collections, page 5

**Top** is available in wood veneer or white solid.

**Power, data, or voice access lid** is available on some styles. The touch latch allows for easy access to power and or data blocks.

**Base design** allows for ample room below the worksurface of standard seating or booth seating. Base is always a non-specifiable textured powder coat paint for high wear.

**Column** can be used to route cables from the top when a power access touch latch door is specified. The column comes in powder coat paint or brushed nickel.

### Product Details

**Creates** the primary transaction surface between large scale display and the user.

**Round and oval shapes** are 29"H and available with and without power and data access.

**The Denizen top** is 1 1/4" thick overall. The profile is a 1/4" thick edge.

**Base design** allows for ample room below the worksurface of standard seating or booth seating.

Glides adjust 1/4".

### Wire Management

**In a simplistic manner,** these tables provide sophisticated access to power as required by laptop users with an intuitive touch latch activated door. The hole is 7" in diameter and the door is 6 1/4" in diameter. Cable management gap of 3/8" is provided so the door can be in the closed position while a device is plugged in.

**Spacious interior cavity** allows for power and data block attachment and excess cables/wires. Reduces clutter as power and data is managed through the column and base.

**Base** has a 5 3/8" diameter hole for ample wire management and to sit over most floor monuments.

### Surface Materials

#### Wood

- Rift Cut Oak, Low Sheen
- Quarter Cut Cherry, Low Sheen
- Quarter Cut Grey Ash, Low Sheen
- Quarter Cut Maple, Low Sheen
- Quarter Cut Teak, Low Sheen
- Quarter Cut Walnut, Low Sheen

#### Solid

- 2801 Glacier White Corian

#### Paint

Standard specifiable powder coat options:

- 4138 Graphite Gloss
- 4142 Platinum Gloss
- 4144 Black Gloss
- 4145 Milk Gloss
- 4147 Champagne Gloss

#### Metal

- 9238 Brushed Nickel

Accessories	143

# E-Table 2 Collaborative and Conference Tables

**E-Table 2 tables** seamlessly integrate unsurpassed technology access into an elegant conference table, by way of one-touch utility bays in the table top. The one-touch utility bay provides convenient, intuitive, and attractive connectivity to power and data outlets for portable computers, projectors, and speakerphones. E-Table 2 tables also have built-in vertical and horizontal wire management that meets the growing technological needs of the contemporary conference and meeting room.

**Tops** are 1/4" thick with particle board core, with either laminate or wood veneer surface.

**Drum base** is molded MDF with either a black laminate or wood veneer surface.

**Utility bays** available on all tables for easy access to power and data.

**Bases** are available in either laminate, veneer, or aluminum. All bases have cable routing capability.

## Product Details

**Table height** is standard at 29"H.

**Adjustable leveling glides** have a range of 1/2" to accommodate uneven floors.

**Table shapes** include round, racetrack, faceted, rectangular, soft radiused end, and trapezoid. A wide range of sizes up to 24'L is available to fit any room size.

**Solid core tops with 1/4" nominal edge thickness** have a particle board core (45 lb cu ft density) with High-Pressure Laminate or wood veneer on the top and a backer applied to the opposite side for a balanced construction. High-Pressure Laminate, wood veneer, and backer are bonded to the core with a PVA adhesive.

**Self-edge table tops** have flat edges that are surfaced with the same material and color that is applied to the top of the table. Self edges are available on tops that are 1/4" thick.

**Vinyl edge profiles** are available in the following shapes and colors on table tops that are 1/4" thick.

- Flat 1/4" edge
- ▶ See available edgeband finishes in *Coalesse Surface Materials Reference Guide*.
- Convex 1/4" edge available in 6000 Black, 6655 Warm White, 6607 Woodrose, 6609 Smoke

*Tip: Vinyl edge profiles require a 4" radius on all corners.*

**Wood edges** are available in six alternatives—beveled, bullnose, knife, waterfall, faceted, and self. Not every edge is available on every top shape. ▶ Refer to the *Edge Availability* matrix.

Seating Capacity Guidelines  
▶ See page 91.

# E-Table 2 Collaborative and Conference Tables

**Large tops** are shipped in sections with hardware for field assembly. Tops 14'L through 20'L are manufactured and shipped in two equal pieces. Tops 22'L through 24'L are manufactured and shipped in three pieces. On all 22'L tables, the two end pieces are 91<sup>9</sup>/<sub>32</sub>"L and the center piece is 81<sup>3</sup>/<sub>32</sub>"L. On all 24'L tables, the two outside pieces are 103<sup>9</sup>/<sub>32</sub>"L and the center piece is 81<sup>3</sup>/<sub>32</sub>"L.

**Sectioned Tops**  
**Large tops can be difficult to move through some buildings.**

*Tip: Inspect the building where the table will be installed to confirm that elevators, loading docks, hallways, doorways, windows, etc., can accommodate large table tops. You can request any one-piece top to be fabricated and shipped in two pieces to accommodate these small spaces.*

To specify sectioned tops, designate sectioned top.

**Custom shapes and sizes**  
 Special table sizes and shapes are possible. To confirm practicality and obtain a quotation, contact Customer Service at 1.800.627.6770.

**Cut-down tops**, which are standard table tops with smaller dimensions, are available. Use the product number of the next larger size and specify the exact dimensions you want. Some restrictions apply, including minimum quantities. This option is not available for folding tables. Additional lead times may be required. Contact Customer Service at 1.800.627.6770.

**Bases**  
**Removable access door on each base** allows for easy installation of utility infeeds. A knockout grommet in each access door allows infeeds through the door from a floor monument outside the base.

Bases are available in four styles—drum, laminate, veneer, and aluminum.

**Drum base** is molded MDF with either a black laminate or a wood veneer surface. The removable access door, 8<sup>1</sup>/<sub>8</sub>"W x 10<sup>1</sup>/<sub>8</sub>"H, is secured with a reclosable fastener. The 24"-diameter drum base has a 12<sup>1</sup>/<sub>2</sub>"-diameter opening in the bottom surrounded by a 60 lb concrete weight for stability.

**Laminate base** has a black laminate surface on molded fiberboard. The removable access door, 6<sup>5</sup>/<sub>16</sub>"W x 12<sup>7</sup>/<sub>16</sub>"H, is secured with a reclosable fastener. Laminate bases are available in two sizes, 24"W and 30"W.

**Veneer base** is hardwood veneer on MDF. Wood veneer surfaces are available in all Coalesse standard species and finishes. The removable access door, 6<sup>5</sup>/<sub>16</sub>"W x 12<sup>7</sup>/<sub>16</sub>"H, is secured with a reclosable fastener. Veneer bases are available in two sizes, 24"W and 30"W.

**Aluminum base** is cast and extruded aluminum, painted with Coalesse powder coat in any color. The black removable access door, 6<sup>13</sup>/<sub>32</sub>"W x 13"H, is secured with screws. Aluminum bases are available in two sizes, 30"W and 36"W.

**Cable routing** is accommodated by hollow base interiors.

**Style, size, and number of bases required** are determined by table top shape and length. Round table tops have a single drum base. Table tops 6'L through 12'L have two bases. Table tops 14'L through 20'L have three bases. Table tops 22'L and 24'L have four bases.

**All bases** conceal flush floor monuments up to 6<sup>3</sup>/<sub>4</sub>" in diameter.

*Exception: The 30"W aluminum base fits over but does not completely conceal a flush floor monument.*

►For dimensions to aid in locating floor monuments, see page 92.

# E-Table 2 Collaborative and Conference Tables *continued*

**Floor monument kit** should be specified when above-the-floor monument is used or when a flush floor monument is not positioned under a base. Above-the-floor monuments may not fit inside a base.  
 ▶ See page 143.

**Utility bay** is made of formed steel, painted gray, and houses power and data outlets. Overall, utility bay is 19 5/8" L x 7 1/2" W. Door opening is 16 1/2" L x 5 1/8" W.

From one to seven utility bays can be specified depending on the table size. Utility bays are available as an option on all E-Table 2 tables.

**Button-actuated doors** made of polycarbonate and ABS enclose each utility bay. The doors are available in four colors: nickel mica, silver mica, charcoal mica, and matte black. Soft, compressible cushions of black sanoprene line the doors down the center, allowing cables up to 3/8" diameter to pass between the closed doors.

**Utility bay interior** is 8" W x 5 15/16" D, providing ample room for cords and transformers.

**Each utility bay** has two duplex power outlets that are factory provided and installed at no additional charge. For an additional charge, two USB ports are available in place of one duplex power outlet.  
 ▶ See chart for duplex circuits, page 107.  
 ▶ See chart for USB circuits, page 108.

**Each utility bay** has openings for two customer-supplied standard architectural faceplates. Voice/data faceplate opening has universal adapter with removable plates allowing single-gang size, 2" W x 4" H; double-gang size, 4" W x 4" H; or triple-gang size, 6" W x 4" H. Faceplates that provide network, telephone, and audio-visual outlets are available from various technology suppliers.

**Beam assembly** hangs from brackets attached to the bases and encloses all power and voice/data cables. Beam assembly consists of painted steel stretchers, side panels with a 1 1/2" diameter access grommet on each panel, and a 4 1/2" wide raceway access door on the bottom of the raceway. Beams are 8 1/8" W x 12 1/2" H, with a capacity of 48 UTP cables.

*Tip: Access grommet locations are determined by raceway length at the factory.*

**Wireway access door** is placed in bottom of wireway. Flanges on top of door rest on side panel flanges.

**Cut-down tops**, which are standard table tops with smaller dimensions, are available. Use the style number of the next larger size and specify the exact dimensions you want. Some restrictions apply, including minimum quantities. This option is not available for folding tables. Additional lead times may be required. Contact Customer Service at 1.800.627.6770.

*Tip: Upcharge for a cut-down top is applied one time only per size/style number.*  
*Tip: Fee is at list and contract discounts apply.*

# E-Table 2 Collaborative and Conference Tables

Laminate  
Woodgrain Direction

**Woodgrain laminates** are always oriented with the grain direction running parallel with the length of the table top.

**Woodgrain laminate sectioned tops** cannot be guaranteed to have a perfect match of the grain pattern along the seam that joins the sections. Large tops that are more than 12' in length require two or more separate sheets of laminate. Coalesse will create the best match that is possible between two sheets of laminate, but depending on the woodgrain laminate pattern that you choose, a perfect match between sections cannot be guaranteed.

**For sectioned 3- or 4-piece tops**, it is not recommended to use woodgrain laminates, as the grain pattern of each section will not match.

**Wood edges** are not recommended on tables with wood-grain laminates because matching of woodgrain laminate and natural, solid wood is not guaranteed. For tables with wood edge profiles, always specify either laminates in solid colors or patterns or wood veneer surfaces.

*Tip: Because of natural variations, you should know that finished solid wood edges may vary slightly in tone or character from each other or from the samples Coalesse produces. No guarantee can be made of an absolutely exact match.*

**Standard veneer grain directions—grain direction** on E-Table 2 tops runs parallel to the width of the top regardless of the size of the table.

**Grain runs parallel to the width** on all tops.

**Wedge lay-up veneers** radiate from the center on round tops.

**Same flitch veneer** is available as a special for tables that require similar graining and color, but will not be ganged. For example, specify same flitch veneer for two tables used in the same room, but spaced apart.

**Same flitch matching** is specified in cases where you want the veneer grain and pattern on two or more tops to come from the same flitch of veneer. This ensures a consistent grain pattern and coloration and should be specified when tops will be used near each other but not ganged.

**U.L. listed, five-wire, 20-amp electrical system** is available.

The standard wiring schematic is 3+0, providing three general use circuits. A two-circuit/separate neutrals electrical schematic may also be specified.

► For more details, see *Wiring Schematics*, to the right.

**Single circuit plug**, 20-amp, base power-in, 3+0 wiring schematic is available on tables with one, two, three, or four utility bays. This offers the quickest, easiest installation of tables. An electrician must provide a NEMA 5-20R outlet for each row within 18" of the infed location. The single circuit plug is U.L. recognized.

**Connection to the building power supply** is typically hard-wired. A licensed electrician must install the hardwire base power-in. The installation must be done according to all local and national codes.

**New York City-approved hardwire base power-in** is available (NYC Calendar #37297).

**Chicago version of E-Table 2** replaces the modular electrical system with 4"-square single-sided, two-gang, steel junction boxes. To order, specify the option "with utility bay with Chicago wireway". An electrician supplies all other electrical components including wire, conduit, and duplex outlets.

# E-Table 2 Collaborative and Conference Tables *continued*

For tables 14'L and longer, you must specify the entry location for the base power of either "end base" or "mid base" entry location.

### Three-Circuit, 3+0.

Circuit Panel 1

In the three-circuit, 3+0 schematic, circuits 1, 2, and 3 are distributed from the first circuit panel and are supported with one shared neutral and one shared ground.

### Single 3-Phase

Circuit Panel

On a single 3-phase circuit panel, all three circuits are distributed as shown.

### Two-Circuit Separate Neutrals

Two circuits are each provided with their own neutral wire.

Circuit Panel 1

In the two-circuit, separate neutral schematic, circuits 1 and 2 are distributed from two different phases from the first circuit panel. Each circuit is supported with its own neutral and a common ground.

# E-Table 2 Collaborative and Conference Tables *continued*

## Surface Materials

**Laminates** are available in two standard grades. Additional laminates from any manufacturer may also be practical—see Other laminates below.

**Laminate Grades 1 and 2** are price groupings. Grade 2 costs slightly more.

See product specification pages for prices.

Grade 1 laminates include:

- Coalesse standard laminates

► See *Coalesse Surface Materials Reference Guide*.

- Steelcase standard laminates (code 290A)

See Steelcase Surface Materials Reference Manual.

- Any standard-grade Wilsonart laminate in solid color, woodgrain, or pattern finish (code 290A)

**Grade 2 laminates** (code 290B) include any standard-grade, solid color, woodgrain, or patterned laminate from Nevamar (includes Matrix), Formica, or Pionite. Grade 2 laminates may have extended lead times. For details, contact Customer Service at 1.800.627.6770.

**Other laminates** that are not included in the Grade 1 or Grade 2 offerings may also be available, such as Abet Laminati and Laminart. To determine availability and pricing, contact Customer Service at 1.800.627.6770 with the laminate manufacturer's name and the name and number of the laminate you want.

**Laminate swatches** are reproduced in the Surface Materials Color Palettes.

► See *Coalesse Surface Materials Reference Guide* for a list.

**Swatch cards and actual samples of Coalesse standard laminates** are available from your Coalesse Customer Service representative. For samples of laminates from other manufacturers, contact them directly:

- Wilsonart  
1.800.433.3222
- Nevamar  
1.800.638.4380
- Formica  
1.800.FORMICA
- Pionite  
1.800.285.5161

*Tip: Laminate manufacturers change their offerings frequently. Always check availability before ordering.*

**Wood veneer table tops** are fabricated with Architectural Grade AA hand-selected hardwood veneer, plain sliced, book matched, and bonded to the core with a backing sheet for balance. Veneer tops and solid wood edge profiles are stained, and then finished with Coalesse's primary wood finish clarity, a water-borne UV topcoat, which protects the environment while providing exceptional durability and resistance to water and chemical stains.

**Wood** is a natural material; slight variations occur in veneer texture, color, grain configuration, and stain acceptance. Coalesse stains are all applied with an exacting regard for consistency and are well within traditional tolerances for wood products.

*Tip: You should know that finished tops may vary slightly in tone or character from each other or from the samples Coalesse produces. No guarantee can be made of an absolutely exact match.*

**Stains** applied to Coalesse wood veneer table tops are standard with the same stain color applied to both the top and the solid hardwood edge profile. Coalesse strives to produce a consistently high quality product and some natural variation in color is to be expected. This is especially apparent on natural woods which have no stain applied, for example 3525 Natural Maple. This color variation is normal and reflects the unique and natural properties of wood. This should not be considered a defect.

**Stain swatches** are reproduced in the Surface Materials Color Palettes.

► See *Coalesse Surface Materials Reference Guide* for a list.

**Swatch cards and actual samples of Coalesse standard wood veneers** are available from your Coalesse Customer Service representative.

**Additional wood veneer stains** are possible. Coalesse offers two programs to accommodate customers who need special stains—Stain-to-Match and Stain and Finish to Match.

**Stain-to-Match option** is a special Coalesse program that will match a wood stain sample that you provide. There is no additional charge for this service. You must supply a sample of reasonable size (3" x 3" or larger is usually adequate). Coalesse will formulate a stain, produce a matching sample, and send it to you for approval. When we receive your written approval, we'll schedule production of your order.

*Tip: Stain-to-Match will achieve a color match to the sample only. Graining of the wood veneer and final surface finish may differ from your original sample. See Stain and Finish to Match.*

**Stain and Finish to Match** is a special Coalesse program that can achieve both a color and a surface finish match for most customer-supplied samples. To determine feasibility and pricing, send us a sample of reasonable size (3" x 3" or larger is usually adequate) before you send us your order. If feasible, Coalesse will produce a sample showing the best possible match and send it to you for approval. When we receive your written approval, we'll schedule production of your order.

**Stain formulas** for special stain color matches are all retained in Coalesse's archives so that you can refer to them in future orders and skip the approval steps required for the initial order.

**Table bases** are available with polished aluminum or powder coat colors. Refer to the individual product specifying pages for availability. Powder coat colors are shown in the Coalesse Surface Materials Reference Guide.

## Care & Maintenance

**Laminate** should be cleaned with soap and water. For stubborn stains, use a non-abrasive household cleaner.

**Veneers** should be cleaned regularly with mild soap and water and dried with a soft cloth. To polish, use silicone-free household polishers. Use sparingly. *Tip: Never use ammonia-based cleaners or wax on wood surfaces.*

**Powder coat finishes on table bases** should be cleaned with a liquid detergent and water. Remove stubborn stains with liquid cleanser, such as Formula 409.

**Polished aluminum finishes on table bases** should be cleaned with a commercial powder, liquid, or paste metal cleaner and polish. Follow the manufacturer's directions.

**Tables** should be inspected and maintained regularly by tightening screws and bolts, inspecting casters and glides for damage, and inspecting all moving parts for damage and wear.

# E-Table 2 Collaborative and Conference Tables

# E-Table 2 Collaborative and Conference Tables Power Duplex Wiring Schematics

Each Standard Utility Bay has two factory installed power duplex outlets at no additional charge.

## 3+0 Wiring Schematic

For the Standard 3+0 Schematic, outlets will be standardized as follows:

For tables with one, two, three, or four utility bays, each bay will have two Circuit 1 duplex outlets.

For tables with six utility bays, the first three bays will each have two Circuit 1 duplexes and the last three bays will each have two Circuit 2 duplexes.

For tables with seven utility bays, the first two bays will each have two Circuit 1 duplexes, the three middle bays will each have two Circuit 2 duplexes, and the last two bays will each have two Circuit 3 duplexes.

## 1+1 Separate Neutrals Wiring Schematic

For the 1+1 Separate Neutrals Wiring Schematic, outlets will be standardized as follows:

For tables with one, two, three, four, or six utility bays, each bay will have one Circuit 1 duplex and one Circuit 2 duplex.

For tables with six utility bays, the first three bays will have two Circuit 1 duplex outlets. The last three will have two Circuit 2 duplex outlets.

For tables with seven utility bays, the 1+1 separate neutrals wiring schematic is not available.

# E-Table 2 Collaborative and Conference Tables USB Wiring Schematics

Each Standard Utility Bay has two factory installed power duplex outlets at no additional charge. For an additional charge, one duplex power outlet can be replaced with two USB ports on each bay.

## 3+0 USB Wiring Schematic

For the standard 3+0 schematic with USB, outlets will be standardized as follows:

For tables with one, two, three, or four utility bays, each bay will have one Circuit 1 duplex and two Circuit 1 USB ports.

For tables with six utility bays, the first three bays will each have one Circuit 1 duplex and two Circuit 1 USB ports. The last three bays will each have one Circuit 2 duplex and two Circuit 2 USB ports.

For tables with seven utility bays, the first and second utility bay will each have one Circuit 1 duplex and two Circuit 1 USB ports. The three middle utility bays will each have one Circuit 2 duplex and two Circuit 2 USB ports. The last two utility bays will each have one Circuit 3 duplex and two Circuit 3 USB ports.

## 1+1 USB Separate Neutrals Wiring Schematic

For the 1+1 separate neutrals wiring schematic with USB, outlets will be standardized as follows:

For tables with one, two, three, four, or six utility bays, each bay will have one Circuit 1 duplex and two Circuit 2 USB ports.

For tables with seven utility bays, the 1+1 separate neutrals wiring schematic is not available.

# E-Table 2 Collaborative and Conference Tables USB Wiring Schematics

# E-Table 2 Collaborative and Conference Tables 48", 54", and 60" Diameter Round Tables

DESIGN JEFF CRONK

Tip: Shipped knocked down.

Tip: Top ships in one piece.

Tip: 1 mm self-edge is only available on a laminate top surface.

Tip: When a flat, plastic edge is specified on a veneer top, 6000 Black is the only edge finish available.

Tip: When a 3 mm wood edge is specified on a wood veneer top, the edge finish will match the top finish.

Tip: Flat edge is only available on wood veneer tops and is offered in 6000 Black only.

Tip: Each utility bay comes with two universal faceplate openings that accept customer-supplied faceplates in any of the following sizes: single-gang, double-gang, or triple-gang.  
▶ Page 86

Tip: Transformer kit must be the same wiring schematic as the table.

Tip: If you require your table top to be made into two pieces, this can be done as a special. Please contact Customer Service at 1.800.627.6770 to obtain a quote.

Tip: Tables available with zero or one utility bay.

# E-Table 2 Collaborative and Conference Tables 72"L, 84"L, and 96"L Racetrack, Faceted, Rectangular, and Soft Radiused End Tables with Aluminum Base Only

DESIGN JEFF CRONK

Tip: Shipped knocked down.

Tip: Top ships in one piece.

Tip: 1 mm self-edge is only available on a laminate top surface.

Tip: Flat edge is only available on wood veneer tops and is offered in 6000 Black only.

Tip: When a 3 mm wood edge is specified on a wood veneer top, the edge finish will match the top finish.

Tip: If you specify a wood edge on a top with woodgrain laminate, the edge and the top may not match.

Tip: Each utility bay comes with two universal faceplate openings that accept customer-supplied faceplates in any of the following sizes: single-gang, double-gang, or triple-gang.

▶ Page 86

Tip: Transformer kit must be the same wiring schematic as the table.

Tip: For 72"L and 84"L tables, if you require your table top to be made into two pieces, this can be done as a special. Please contact Customer Service at 1.800.627.6770 to obtain a quote.

Tip: Tables available with zero, one, or two utility bays.

E-Table 2 Collaborative and Conference Tables

# E-Table 2 Collaborative and Conference Tables 96"L, 10'L, and 12'L Racetrack, Faceted, Rectangular, and Soft Radiused End Tables

DESIGN JEFF CRONK

Tip: Shipped knocked down.

Tip: Top ships in one piece.

Tip: 1 mm self-edge is only available on a laminate top surface.

Tip: Flat edge is only available on wood veneer tops and is offered in 6000 Black only.

Tip: When a 3 mm wood edge is specified on a wood veneer top, the edge finish will match the top finish.

Tip: If you specify a wood edge on a top with woodgrain laminate, the edge and the top may not match.

Tip: Each utility bay comes with two universal faceplate openings that accept customer-supplied faceplates in any of the following sizes: single-gang, double-gang, or triple-gang.  
▶ Page 86

Tip: 96"L tables are available with zero or two utility bays. 10'L tables are available with zero, two or three utility bays. 12'L tables are available with zero, two, three or four utility bays.

Tip: Sectioned top option is a 2-piece top.

Tip: Transformer kit must be the same wiring schematic as the table.

### Veneer and woodgrain laminate direction

# E-Table 2 Collaborative and Conference Tables

DESIGN JEFF CRONK

14'L, 16'L, 18'L, and 20'L Racetrack, Faceted, Rectangular, and Soft Radiused End Tables

Tip: Top ships in two pieces. Hardware is included for field assembly.

Tip: Shipped knocked down.

Tip: 1 mm self-edge is only available on a laminate top surface.

Tip: Flat edge is only available on wood veneer tops and is offered in 6000 Black only.

Tip: When a 3 mm wood edge is specified on a wood veneer top, the edge finish will match the top finish.

Tip: If you specify a wood edge on a top with woodgrain laminate, the edge and the top may not match.

Tip: For tables with three or more bases, you must specify the entry point of the base power infeed, either an end base or a mid base location, in order to receive the correct length of base power infeed.

Tip: Each utility bay comes with two universal faceplate openings that accept customer-supplied faceplates in any of the following sizes: single-gang, double-gang, or triple-gang.   
▶ Page 86

Tip: 14'L and 16'L tables are available with zero, two, or four utility bays. 18'L and 20'L tables are available with zero, two, four or six utility bays.

Tip: If you require your table top to be made into three pieces, this can be done as a special. Please contact Customer Service at 1.800.627.6770 to obtain a quote.

# E-Table 2 Collaborative and Conference Tables

DESIGN JEFF CRONK

22'L and 24'L Racetrack, Faceted, Rectangular, and Soft Radiused End Tables

Tip: Top ships in three pieces. Hardware is included for field assembly.

Tip: Shipped knocked down.

Tip: 1 mm self-edge is only available on a laminate top surface.

Tip: Flat edge is only available on wood veneer tops and is offered in 6000 Black only.

Tip: When a 3 mm wood edge is specified on a wood veneer top, the edge finish will match the top finish.

Tip: If you specify a wood edge on a top with woodgrain laminate, the edge and the top may not match.

Tip: For table with three or more bases, you must specify the entry point of the base power infeed, either an end base or mid base location, in order to receive the correct length of base power infeed.

Tip: Each utility bay comes with two universal faceplate openings that accept customer-supplied faceplates in any of the following sizes: single-gang, double-gang, or triple-gang.  
▶ Page 86

Tip: If you require your table top to be made into four pieces, this can be done as a special. Please contact Customer Service at 1.800.627.6770 to obtain a quote.

Tip: Tables available with zero, two, four or seven utility bays.

E-Table 2 Collaborative and Conference Tables

# E-Table 2 Collaborative and Conference Tables 36"W Trapezoid Tables with Aluminum Base Only

DESIGN JEFF CRONK

Tip: Shipped knocked down.

Tip: Top ships in one piece.

Tip: 1 mm self-edge is only available on a laminate top surface.

Tip: Flat edge is only available on wood veneer tops and is offered in 6000 Black only.

Tip: When a 3 mm wood edge is specified on a wood veneer top, the edge finish will match the top finish.

Tip: If you specify a wood edge on a top with woodgrain laminate, the edge and the top may not match.

Tip: For table with three or more bases, you must specify the entry point of the base power infeed, either an end base or a mid base location, in order to receive the correct length of base power infeed.

Tip: Each utility bay comes with two universal faceplate openings that accept customer-supplied faceplates in any of the following sizes: single-gang, double-gang, or triple-gang.

► Page 86

Tip: 96"L tables available with zero or two utility bays. 10'L tables available with zero, two, or three utility bays. 12'L tables available with zero, two, three, or four utility bays. 14'L tables available with zero, two, or four utility bays.

Tip: For 14'L tables, your table top may be cut into three pieces, this can be done as a special. Please contact Customer Service at 1.800.627.6770 to obtain a quote.

<b>Understanding</b>	<b>146</b>
<b>Specifying</b>	
Round Tables	168
Rectangular Tables	172
Soft Radiused Tables	200
Racetrack Tables	230
Boat Shaped Tables	262
Trapezoid Tables	282
Accessories	289

# Host Collaborative and Conference Tables

Host is a suite of elegant furnishings for the multimedia, interactive conference room. Host's fully resolved design details speak to the need for refinement in aesthetic appeal, while every functional aspect of the table was designed to accommodate a breadth of user needs.

*Tip: This product line is a collection and will be found in more than one location in this specification guide.*

► See Collections, page 5

**Round base** is conical shaped plywood with wood veneer surface.

**Top** is 1/4" thick particle board with laminate or wood veneer top.

**TAP trays**, if selected, provide access to power, data, voice, audio, video, or any type of outlet required. Storage trays provide access to house equipment, such as, speaker phones.

**Bases** are available with either a flared or a slim base.

Seating Capacity Guidelines  
► See page 155

## Product Details

**Table height** is standard at 28 1/2" H.

**Adjustable leveling glides** have a range of 1/2" to accommodate uneven floors.

Round

Rectangular

Soft Radiused

Racetrack

Boat Shaped

Trapezoid

**Table shapes** include round, rectangular, soft radiused, racetrack, boat shaped, and trapezoid. A wide range of sizes up to 20'L is available to fit any room size.

Flat

Bullnose

Beveled

Horizon

Tapered

**Solid wood edges** are available in five profiles—flat, bullnose, beveled, horizon, or tapered. Not every edge is available on every top shape.

► Refer to the matrix on page 150 for availability.

# Host Collaborative and Conference Tables

**Tops with flat, bullnose and beveled wood edges** will have square corners.

**Tops with tapered and horizontal wood edges** have 4" radius corners.

**Sectioned tops**

**Large tops** are shipped in sections with hardware for field assembly. Tops 8'L ship in one piece. Tops 10'L and 12'L can ship in one or two pieces. Tops 14'L, 16'L, 18'L and 20'L can ship in two or three pieces.

*Tip: The style number indicates top sections.*

► Refer to style number explanation, page 166.

**Large tops** can be difficult to move through some buildings.

*Tip: Inspect the building where the table will be installed to confirm that elevators, loading docks, hallways, doorways, windows, etc. can accommodate large table tops.*

**Removable access door on each base** allows for easy installation of utility infeeds. A toe hole allows infeeds from a floor monument outside the base.

**Leveling glides on all bases** adjust 1/2".

**Wood veneer bases** are available in three styles—round, slim, and flared.

**Round base** is conical shaped plywood with a wood veneer surface, 26 1/2"-diameter bottom and 21 1/2"-diameter top. Underneath the round base is a 25"-diameter black painted wood inset, 3/4"H, with an opening. The 13 1/2"-diameter opening is surrounded by a 50 lb concrete weight for stability. The removable access door, 8 1/2"W at the bottom and 6.9"W at the top x 25 3/4"H, is secured with a ball catch fastener on each corner.

*Tip: Round base only available on round tables.*

**Slim base** has a wood veneer surface on molded MDF with aluminum universal bracket. The removable access door, 7"W x 23 1/2"H, is secured with a ball catch fastener on each corner. Slim bases are available in one size, 4" x 27".

**Flared base** has a wood veneer surface on molded MDF with aluminum universal bracket. The removable access door, 9"W x 23 1/2"H, is secured with a ball catch fastener on each corner. Flared bases are available in one size, 13" x 27".

**Style and number of bases required** are determined by top shape and length. Round table tops have a single round base. Table tops 8'L through 12'L have two bases: two slim, two flared or slim and flared. Table tops 14'L through 20'L have three bases: three slim, three flared or combination of slim and flared.

**Floor monuments** can fit inside round and flared bases. Slim bases can be placed over some flush floor monuments.

► For dimensions to aid in locating floor monuments, see page 159.

# Host Collaborative and Conference Tables *continued*

**Connectrac**, a floor monument kit, should be specified when a floor monument is not positioned under a base. Connectrac is a ADA compliant raceway that can be installed underneath carpet tiles or broadloom to conceal wires and cables running from a floor monument to the Host base.

Features:

- Moisture-resistant MDF transition ramps that simply glue down with liquid nails or equivalent.
- Powder-coated aluminum top cap that snaps in place.
- 25% lower overall height of wireway from previous model with same cabling capacity.

► See page 289

Tip: For detailed information about Connectrac, go to [www.connectrac.com](http://www.connectrac.com).

**Raceway interior**, 3<sup>1</sup>/<sub>8</sub>"W x 3<sup>1</sup>/<sub>4</sub>"H, provides ample room for wires and cable.

**Raceway overall** is 3<sup>3</sup>/<sub>4</sub>"W x 7<sup>1</sup>/<sub>8</sub>"H.

**Ramps**, 5<sup>1</sup>/<sub>8</sub>"H at the raceway connection, transition down to 1<sup>1</sup>/<sub>8</sub>"H.

**Raceway and ramps overall** is 3<sup>3</sup>/<sub>4</sub>"W.

**Dome interior**, 5<sup>7</sup>/<sub>8</sub>" diameter x 3"H, covers the floor monument. Dome opens allowing easy access to floor monument.

**Solid core tops with 1<sup>1</sup>/<sub>4</sub>" nominal edge thickness** have a particle board core (45 lb cu ft density) with High-Pressure Laminate or wood veneer on the top and a backer applied to the opposite side for a balanced construction. High-Pressure Laminate, wood veneer, and backer are bonded to the core with a PVA adhesive.

**Large tops** are shipped in sections with Tite-Joint fasteners for assembly on site. Table tops that are longer than 12' and table tops that are larger than 72" in diameter are always shipped in two pieces.

**Large tops** can be difficult to move through some buildings. Tip: *Inspect the building where the table will be installed to confirm that elevators, loading docks, hallways, doorways, windows, etc., can accommodate large table tops. You can request any one-piece top to be fabricated and shipped in two pieces to accommodate these small spaces.*

To specify sectioned tops, designate with sectioned top.

**A two-piece top may be fabricated and shipped in three pieces**, please contact Customer Service for a quotation, 1.800.627.6770.

**Custom shapes and sizes** Special table sizes and shapes are possible. To confirm practicality and obtain a quotation, contact Customer Service at 1.800.627.6770.

**Cut-down tops**, which are standard table tops with smaller dimensions, are available. Use the product number of the next larger size and specify the exact dimensions you want. Some restrictions apply, including minimum quantities. This option is not available for folding tables. Additional lead times may be required. Contact Customer Service at 1.800.627.6770.

**Woodgrain laminates** are always oriented with the grain direction running parallel with the length of the table top.

**Woodgrain laminate sectioned tops** cannot be guaranteed to have a perfect match of the grain pattern along the seam that joins the sections. Large tops that are more than 12' in length require two or more separate sheets of laminate. Coalesse will create the best match that is possible between two sheets of laminate, but depending on the woodgrain laminate pattern that you choose, a perfect match between sections cannot be guaranteed.

**For Sectioned 3- or 4-piece tops**, it is not recommended to use woodgrain laminates, as the grain pattern of each section will not match.

**Wood edges** are not recommended on tables with woodgrain laminates because matching of woodgrain laminate and natural, solid wood is not guaranteed. For tables with wood edge profiles, always specify either laminates in solid colors or patterns or wood veneer surfaces.

Tip: *Because of natural variations, you should know that finished solid wood edges may vary slightly in tone or character from each other or from the samples Coalesse produces. No guarantee can be made of an absolutely exact match.*

**Standard veneer grain directions—grain direction** on Host table tops runs parallel to the width of the top regardless of the size of the table.

**Grain runs parallel to the width** on all tops.

**Wedge lay-up veneers** radiate from the center on round tops.

# Host Collaborative and Conference Tables

Same flitch veneer is available as a special for tables that require similar graining and color, but will not be ganged. For example, specify same flitch veneer for two tables used in the same room, but spaced apart.

Same flitch matching is specified in cases where you want the veneer grain and pattern on two or more tops to come from the same flitch of veneer. This ensures a consistent grain pattern and coloration and should be specified when tops will be used near each other but not ganged.

**TAP doors with veneer option** are NOT grain matched, they are flitch matched to the table. The veneer doors will always match the finish of the table top. Veneer doors will be available on veneer tops only.

## Surface Materials

Laminates are available in two standard grades. Additional laminates from any manufacturer may also be practical—see *Other laminates* below.

- Grade 1 laminates** include:
- Coalesse standard laminates
  - ▶ See *Coalesse Surface Materials Reference Guide*.
  - Steelcase standard laminates (code 290A)
  - ▶ See *Steelcase Surface Materials Reference Manual*.
  - Any standard-grade Wilsonart laminate in solid color, woodgrain, or pattern finish (code 290A)

**Grade 2 laminates** (code 290B) include any standard-grade, solid color, woodgrain, or patterned laminate from Nevamar (includes Matrix), Formica, or Pionite. Grade 2 laminates may have extended lead times. For details, contact Customer Service at 1.800.627.6770.

**Other laminates** that are not included in the Grade 1 or Grade 2 offerings may also be available, such as Abet Laminati and Laminart. To determine availability and pricing, contact Customer Service at 1.800.627.6770, with the laminate manufacturer's name and the name and number of the laminate you want.

**Laminate swatches** are reproduced in the Surface Materials Color Palettes.

▶ See *Coalesse Surface Materials Reference Guide* for a list.

**Swatch cards and actual samples of Coalesse standard laminates** are available from your Coalesse Customer Service representative. For samples of laminates from other manufacturers, contact them directly:

Wilsonart  
1.800.433.3222  
Nevamar  
1.800.638.4380  
Formica  
1.800.FORMICA  
Pionite  
1.800.285.5161

*Tip: Laminate manufacturers change their offerings frequently. Always check availability before ordering.*

**Wood veneer table tops** are fabricated with Architectural Grade AA hand-selected hardwood veneer, plain sliced, book matched, and bonded to the core with a backing sheet for balance. Coalesse's primary wood finish, Clarity, is a waterborne UV topcoat, which protects the environment while providing exceptional durability and resistance to water and chemical stains. Due to natural variations in wood, finished products may vary from samples in color, texture, and grain.

**Wood** is a natural material; slight variations occur in veneer texture, color, grain configuration, and stain acceptance. Coalesse stains are all applied with an exacting regard for consistency and are well within traditional tolerances for wood products.

*Tip: You should know that finished tops may vary slightly in tone or character from each other or from the samples Coalesse produces. No guarantee can be made of an absolutely exact match.*

**Additional wood veneer species** are available. To confirm availability and to determine pricing, contact Customer Service at 1.800.627.6770.

**Stains** applied to Coalesse wood veneer table tops are standard with the same stain color applied to both the top and the solid hardwood edge profile. Coalesse strives to produce a consistently high quality product and some natural variation in color is to be expected. This is especially apparent on natural woods which have no stain applied, for example 3525 Natural Maple. This color variation is normal and reflects the unique and natural properties of wood. This should not be considered a defect.

**Stain swatches** are reproduced in the Surface Materials Color Palettes.

▶ See *Coalesse Surface Materials Reference Guide* for a list.

**Swatch cards and actual samples of standard wood veneers** are available from your Customer Service representative.

**Additional wood veneer stains** are possible. Coalesse offers two programs to accommodate customers who need special stains—Stain-to-Match and Stain and Finish to Match.

**Stain-to-Match option** is a special Coalesse program that will match a wood stain sample that you provide. There is no additional charge for this service. You must supply a sample of reasonable size (3" x 3" or larger is usually adequate). Coalesse will formulate a stain, produce a matching sample, and send it to you for approval. When we receive your written approval, we'll schedule production of your order.

*Tip: Stain-to-Match will achieve a color match to the sample only. Graining of the wood veneer and final surface finish may differ from your original sample. See Stain and Finish to Match.*

**Stain and Finish to Match** is a special Coalesse program that can achieve both a color and a surface finish match for most customer-supplied samples. To determine feasibility and pricing, send us a sample of reasonable size (3" x 3" or larger is usually adequate) before you send us your order. If feasible, Coalesse will produce a sample showing the best possible match and send it to you for approval. When we receive your written approval, we'll schedule production of your order.

**Stain formulas for special stain color matches** are all retained in Coalesse's archives so that you can refer to them in future orders and skip the approval steps required for the initial order.

## Care & Maintenance

**Laminate** should be cleaned with soap and water. For stubborn stains, use a non-abrasive household cleaner.

**Veneers** should be cleaned regularly with mild soap and water and dried with a soft cloth. To polish, use silicone-free household polishers. Use sparingly.

*Tip: Never use ammonia-based cleaners or wax on wood surfaces.*

**Tables** should be inspected and maintained regularly by tightening screws and bolts, inspecting casters and glides for damage, and inspecting all moving parts for damage and wear.

# Host Collaborative and Conference Tables *continued*

# Host Collaborative and Conference Tables

## Tech Corridor

All Host tables except round shapes are equipped with a Tech Corridor.

**Tech corridor** runs under the length of the table between the table top and the universal base brackets. Tech corridor creates a space approximately 20<sup>15</sup>/<sub>16</sub>" x 3" for cables, TAP tray(s), and optional equipment shelf(s).

**Tech corridor assembly** consists of satin anodized aluminum twin beams and ribbed satin anodized aluminum hinged tech doors that clip shut.

**Beams**, 1<sup>5</sup>/<sub>8</sub>"W x 2<sup>3</sup>/<sub>8</sub>"H, with black plastic end caps provide support to the table top. Beams have a rail feature that accommodates cable clips.

*Tip: One cable clip is provided for each foot of table length.*

**Tech doors hinge** from the beams and clip shut with door clips to conceal and support wires and cables. Tech doors are approximately 5<sup>3</sup>/<sub>4</sub>"W.

**Corridor shelf** is available to hold routers, hubs, line drivers, scalars and other technical equipment. Corridor shelf hangs between the beams and provides 1.5 rack units of space, 2<sup>3</sup>/<sub>4</sub>"H.

► See page 289

### Two Beam Tables:

96"L, 10'L, 12'L

Place the two bases in their approximate final locations.

*Tip: End bases will be centered 24" from the end of the table top.*

*Tip: In most cases base access doors should face inward.*

*Tip: Bases can be the same style or a combination of slim and flared.*

*Bases are located in the same position for any given table top, regardless of table shape.*

### Tech Corridor Assembly:

- Remove beam end caps.
- Slide long tech doors on to hinge of each beam.
- Slide short tech doors on to each end in the same hinge.

**Place beam/tech doors assemblies** facing each other on to the bases with the long doors between the bases and short doors outside the bases.

**Push beam end caps** in to the ends of the beams. Align the second predrilled hole from each end of the two beams with the holes in the bracket castings.

**Start the Pan Head screws** into each bracket casting. **DO NOT** tighten.

*Tip: Pan Head screws remain above the beam to aid in table top alignment.*

**Level bases.** Check the square alignment of the beams. Tighten Pan Head screws.

### Four Beam Tables:

14'L, 16'L, 18'L, 20'L

Place and center the three bases where they should be in the room and assemble the Tech Corridor (See Tech Corridor Assembly in Two Beam Tables).

*Tip: End bases will be centered 24" from the end of the table top.*

*Middle base is positioned in the center of the table top.*

**Rail clamp** splices the two beams together at the center base.

# Host Collaborative and Conference Tables *continued*

**Align black rail clamps** with predrilled holes in center base bracket casting. Position each clamp with the tab pointing downward, and the short side of the clamp facing inward.

**Place beam/tech doors assemblies** facing each on to the bases with the long doors between the bases and the short doors outside the end bases.

**Slide a pair of beams** on to each rail clamp. Push both beams against the tab at the bottom of the clamp, forming a 1/2" gap between the beams.

**Tighten** each black screw on each clamp to ensure the gap remains unchanged.

**Check** the square alignment of the beams. The clamped beams can pivot as needed to square the frame.

**Align** the second predrilled hole from each end of the two beams with the holes in the bracket castings.

**Start** the pan head screws into each bracket casting. **DO NOT** tighten.  
*Tip: Pan head screws remain above the beam to aid in table top alignment.*

**Level bases.** Check the square alignment of the beams. Tighten pan head screws.

**Table top opening for TAP is 12" x 10"**, trimmed with a flat solid wood profile. Two doors conceal dual access to a black powder coated steel tray that houses power and data outlets.

*Tip: Wood trim will match the color of the wood edge.*

**Up to six TAPs** can be specified depending on the table length. TAPs are available as an option on all Host Collection tables.

► See individual product specifying pages for TAP locations.

*Tip: A storage tray may replace one TAP.*

► See page 158

**TAP doors** are made of brushed anodized aluminum. Each TAP door has an opening that allows cables to pass when the doors are closed. TAP doors are friction hinged, opening to 77°. TAP doors are fully adjustable to maintain an even appearance with the table top when closed.

**TAP doors** can be silver or black anodized or with optional wood veneer.

**TAP doors with veneer option** are NOT grain matched, they are flitch matched to the table. The veneer doors will always match the finish of the table top. Veneer doors will be available on veneer tops only.

**All doors must be the same finish—silver, black or veneer.**

### TAP Door Adjustments

**CAUTION: TAP DOORS CAN BE EASILY SCRATCHED WITH HEX KEYS. MAKE SURE BOTH DOORS ARE FULLY OPEN BEFORE MAKING ADJUSTMENTS.**

# Host Collaborative and Conference Tables

**Adjust the pitch first, then adjust the height.**

**Adjust the pitch of each door** to be level with the table surface by adjusting the Allen screw found under each door.

**Adjust the height of the left and right sides of the TAP door assembly** to be flush with the table surface by adjusting the Allen screws on top between the doors. There is an adjustment screw at each end of the TAP assembly. Doors must be fully open to adjust screws.

**TAP trays** provide access to power, data, voice, audio, video, or any type of outlet required. Each TAP tray includes a storage area for laptop computer transformers, excess wires, or other accessories. A 1 1/2"-diameter rubber grommet located in each half of the TAP tray allows cables to enter directly into the tray from the tech corridor (such as a PolyVision Multipurpose Cable). The bottom cover of the TAP tray is easily removable without tools for technician's access.

# Host Collaborative and Conference Tables *continued*

## TAP Tray Electrical Systems

### Four choices:

*Tip: All TAP trays (except field-wired) have four 15-amp power outlets.  
Tip: All TAP trays are U.L. and C.U.L. listed.*

**Cord and plug tray** will have a 10' cord and 15-amp plug. Each TAP tray must be plugged into a floor outlet. This TAP tray cannot be daisy-chained.

**Hardwired tray** will have a 6' conduit and a three-wire hardwire connection.

*Tip: Hardwired TAP tray must be connected to the building power supply by a licensed electrician.*

**Field-wired tray** will have two single-gang faceplate openings for customer's own power outlets and wiring.

**Modular tray** will have a modular harness that "daisy-chains" from one TAP to the next. A two-circuit, four-wire hardwire base power infeed is included.

*Tip: Modular TAP tray is a two-circuit system. Modular TAPs will alternate circuits within a table.*

*Tip: Lengths of the modular hardwire base power infeed will vary by table size and configuration but will be able to always reach floor monuments located anywhere underneath the table.*

*Tip: Power infeeds can be routed down any table base.*

**Corridor power kit**, modular can be added only to modular trays. This kit adds two electrical outlets inside the tech corridor for plugging in speaker phones or other equipment that does not require frequent access.

► See page 289

*Tip: A six outlet plug strip with 15' cord and plug can also be installed in the tech corridor.*

# Host Collaborative and Conference Tables

## TAP Tray Faceplates

### Architectural Adapter Plate (AAP) choices:

*Tip: TAP trays utilize Extron Electronics' Architectural Adapter Plates (AAPs).*

*Tip: Each TAP tray can accommodate up to eight single-space AAPs.*

AAPs provide access to data, audio, video, telephone, microphone, room control systems and other technologies inside TAPs. Data AAPs and Video/Audio AAPs are available with Host TAPs. Many other AAPs are available from Extron Electronics. For information on other styles of AAPs and to find an Extron Electronics dealer, call Extron at 800.633.9876 or online at [www.extron.com](http://www.extron.com).

**Data Architectural Adapter Plate** has two CAT 5e RJ45 barrel (pass-through) outlets. It receives 2 plug-in at both ends of the barrel. Cat 5, 5e, and 6 will work with this coupler. The couplers must be 8-conductor type plug-ins on both ends.

**Video/Audio Architectural Adapter Plate** has one VGA outlet (HD15 female to female gender changer) and one audio outlet (3 1/2 mm stereo mini jack to solder tabs).

# Host Collaborative and Conference Tables Modular System TAP Trays Installation

## Optional Modular Installation

If **optional modular electrical system** is specified, bring wiring up through base from floor monument or base access door into Tech Corridor. A hardwire infeed is used for the modular electrical systems. For single TAP styles, the modular infeed is not needed. Specify the hardwired tray option. Connect electrical cables and secure with cable clips. Run data wires along opposite beam and secure with cable clips as required.

Note: A licensed electrician must connect the power infeed(s) to the building power source in accordance with all national and local electrical codes. These electrical assemblies are intended for installation in accessible, dry locations in accordance with Article 604 of the National Electric Code NFPA70. If you have any concerns about a specific application, please consult the local authority having jurisdiction. This system is rated for a maximum of 20 amps, 125/250 V, 1-Phase, 60Hz or 120/208 V, 3-Phase, 60Hz.

## Modular Tray Connection Example with Accessories

# Host Collaborative and Conference Tables

TAP Tray Electrical System and Faceplate Matrix

**Faceplate Option—  
Blank AAPs**

- Eight spaces for customer-supplied Extron AAP plates

**Data AAPs**

- Four CAT 5e data outlets
- Six spaces for customer-supplied Extron AAP plates

**Data/Audio/Video AAPs**

- Four CAT 5e data outlets
- Two stereo mini jacks
- Two VGA video outlets
- Four spaces for customer-supplied Extron AAP plates

**Electrical System—**

**Cord and Plug Tray**

- includes 10' cord and 15-amp plug
- Four power outlets

**Option PACP**

**Option PDCP**

**Option PAVC**

**Hard-Wired Tray**

- includes 6' conduit
- Four power outlets

**Option PAHW**

**Option PDHW**

**Option PAVH**

**Modular Tray**

- includes hardwire base power infeed and jumpers
- Four power outlets
  - Trays will alternate from Circuit 1 to Circuit 2

**Option PAMH**

**Option PDMH**

**Option PVMH**

**Field-Wired Tray**

- includes single gang opening
- No electrical
- Tip: Electrician provides all electrical parts.*

**Option PAFW**

**Option PDFW**

**Option PVFW**

# Host Collaborative and Conference Tables Storage Tray

## Storage Tray

Call Customer Service for availability,  
1.800.627.6770

**Table top opening for storage tray** is 12" x 10", trimmed with a flat solid wood profile. Two doors conceal access to a black powder coated steel tray that can house equipment, such as most common speaker phones. The inside dimensions for the storage tray are 15<sup>7</sup>/<sub>8</sub>" x 13<sup>3</sup>/<sub>4</sub>" x 2<sup>13</sup>/<sub>16</sub>".

*Tip: Wood trim will match the color of the wood edge.*

**Only one storage tray** can be specified for each table. Storage tray, if chosen, will replace one TAP on the table. If the specified table has multiple TAPs, any one of the TAPs can be replaced with a storage tray. The location of the storage tray can be determined in the field.

► See individual product specifying pages for TAP locations.

**Storage tray doors** are made of brushed anodized aluminum. storage tray doors are friction hinged, opening to 90°. Storage tray doors are fully adjustable to maintain an even appearance with the table top when closed.

**Storage tray doors** can be silver or black anodized or with optional wood veneer.

**Storage tray doors with veneer options** are NOT grain matched, they are flitch matched to the table. The veneer doors will always match the finish of the table top. Veneer doors will be available on veneer tops only. Veneer doors will always be cross grain.

**If storage tray is specified with TAP(s)**, the finish on the doors will match—silver, black or veneer.

# Host Collaborative and Conference Tables One Piece Top

## One Piece Top Pilot Holes

C Alignment index holes      D Beam mounting holes      E Base bracket mounting holes      F Tech door clip mounting holes

Fig. 1

Place table top on to assembled base/tech corridor.

Align the counter bored holes (C) underneath the top on to the pan head screws (C) used to secure the beams to the bracket castings. Pan head screws (C) used to secure the beams to the bracket castings.

Fig. 2

### Top Installation

*Tip: Check to make sure all beam end caps have been inserted into all beam ends before securing top to beams.*

*Tip: Check to ensure that the bases and beams are squared and leveled before the top is attached.*

**Check top alignment.** Counter bored holes on underside of top fit on to the Pan Head screws on each end base. See Fig. 1.

**Start screws (D) through beam** end caps and beams in to pilot holes in the table top. After all beam screws are started, finish tightening all beams screws from the center to the ends. See Fig. 2.

**Install screws (E) through bracket casting** holes into pilot holes in the table top. (6 screws/bracket). See Fig. 2.

### Tech Door Clip Installation

**Install each door clip** with screws (F) into pilot holes in the table top. (2 screws/clip). See Fig. 2.

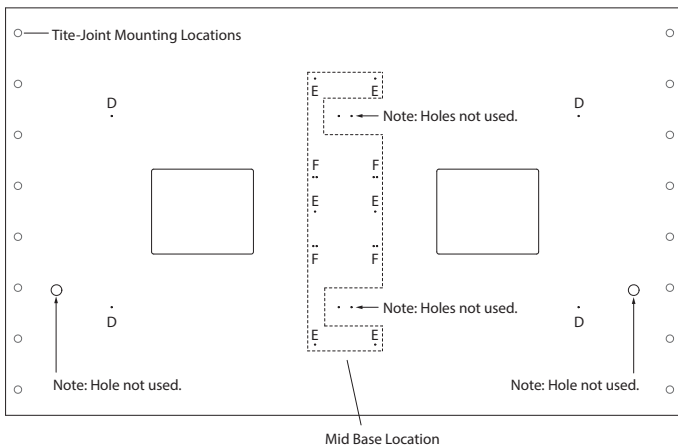

*Tip: One clip/short tech door. Four clips/long tech door.*

# Host Collaborative and Conference Tables Sectioned Tops

## Sectioned Tops Pilot Holes

C Alignment index holes      D Beam mounting holes      E Base bracket mounting holes      F Tech door clip mounting holes

Bases are located in the same position for any given table top, regardless of table shape. Bases can be the same style or a combination of slim and flared.

Insert tightening nuts in to alternating holes in table top sections with threaded ends towards the joint. Fig. A

Insert the draw bolts and thread each into the nut leaving 1/8" of bolt to fit into joining section. Fig. B

Insert locking sleeves into remaining holes to engage the head of the draw bolt. Fig. B  
Tighten nut with tightening tool thus drawing joints together. Fig. C

### Joining Sectioned Tops

*Tip: For grain matching, top sections are in numbered sequence on the underside.*

**Align end top section** with pan head screws on end base.

**Insert Tite-Joint fasteners.** Locate alignment bullets to aid in joining sectioned tops.

**Alternate tightening tite-joint fasteners** to join one section with another section. Begin with the center fastener and alternating left and right toward the outside of the top. As top sections come together, adjust tite-joints for a leveled, even seam between sections.

**Level the bases.**

**Check alignment** of the joined top on the bases.

**Attach beams and bases** to top.

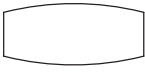

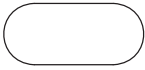

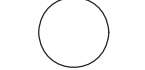

**Attach TAP doors and trays, if any,** to top.

# Host Collaborative and Conference Tables Rectangular Tables with Two Bases

DESIGN F/P DESIGN AND VECTA DESIGN TEAM

*Tip: For single TAP style numbers, the modular system tray is not available. Specify the hard-wired tray option.*

*Tip: If the specified table has multiple TAPs, any one TAP can be replaced with a storage tray.*

*Tip: Wood veneer doors for storage tray and TAP will always be cross grain.*

*Tip: Connectrac must be the same wiring schematic as the table.*

►Options, continued from previous page

# Host Collaborative and Conference Tables Rectangular Tables with Three Bases

DESIGN F/P DESIGN AND VECTA DESIGN TEAM

*Tip: Shipped knocked down and top ships in one piece.*

*Tip: Grain direction for wood-grain laminate runs the length of the table.*

*Tip: Clips are provided with table: One clip per foot of table length.*

*Tip: The wood edge on a table top with woodgrain laminate may not match the top.*

*Tip: You must send a sample of reasonable size for Stain-to-Match.*

*Tip: 14'L and 16'L tables available with zero, one, two, or four TAP(s). 18'L and 20'L tables available with zero, one, two, four, or six TAP(s).*

*Tip: In addition to the data and audio/video AAPs available from Coalesse, other styles of AAPs are available through Extron Electronics. For an Extron dealer, call 1.800.633.9876.*

*Tip: See TAP options for electrical systems and faceplate list.*

# Host Collaborative and Conference Tables Soft Radiused Tables with Two Bases

DESIGN F/P DESIGN AND VECTA DESIGN TEAM

*Tip: Shipped knocked down and top ships in one piece.*

*Tip: Grain direction for wood-grain laminate runs the length of the table.*

*Tip: Clips are provided with table: One clip per foot of table length.*

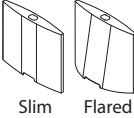

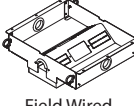

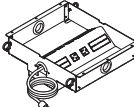

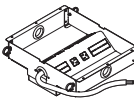

*Tip: The wood edge on a table top with woodgrain laminate may not match the top.*

*Tip: You must send a sample of reasonable size for Stain-to-Match.*

*Tip: 96"L tables available with zero, one, or two TAP(s). 10'L and 12'L tables available with zero, one, two, or three TAP(s).*

*Tip: In addition to the data and audio/video AAPs available from Coalesse, other styles of AAPs are available through Extron Electronics. For an Extron dealer, call 1-800-633-9876.*

*Tip: See TAP options for electrical systems and faceplate list.*

# Host Collaborative and Conference Tables

Soft Radiused Tables with Two Bases

DESIGN F/P DESIGN AND VECTA DESIGN TEAM

Host Collaborative and  
Conference Tables

# Host Collaborative and Conference Tables Soft Radiused Tables with Three Bases

DESIGN F/P DESIGN AND VECTA DESIGN TEAM

Tip: Shipped knocked down and top ships in one piece.

Tip: Grain direction for wood-grain laminate runs the length of the table.

Tip: Clips are provided with table: One clip per foot of table length.

Tip: The wood edge on a table top with woodgrain laminate may not match the top.

Tip: You must send a sample of reasonable size for Stain-to-Match.

Tip: 14'L and 16'L tables available with zero, one, two, or four TAP(s). 18'L and 20'L tables available with zero, one, two, four, or six TAP(s).

Tip: In addition to the data and audio/video AAPs available from Coalesse, other styles of AAPs are available through Extron Electronics. For an Extron dealer, call 1-800-633-9876.

Tip: See TAP options for electrical systems and faceplate list.

# Host Collaborative and Conference Tables Racetrack Tables with Two Bases

DESIGN F/P DESIGN AND VECTA DESIGN TEAM

Tip: Shipped knocked down.

Tip: Grain direction for wood-grain laminate runs the length of the table.

Tip: Clips are provided with table: one clip per foot of table length.

Tip: The wood edge on a table top with woodgrain laminate may not match the top.

Tip: You must send a sample of reasonable size for Stain-to-Match.

Standard Includes	Required to Specify
-------------------	---------------------

► Need help? Product details, page 146

- Top: 1¼" particle board core with laminate
- Flat wood edge
- TAP(s), if selected: 10"W x 12"L opening(s) trimmed with a flat solid wood profile and with brushed anodized aluminum TAP doors
- Tech corridor: two aluminum beams for top support provide tracks for hinged aluminum doors that clip shut: satin anodized finish
- Universal clip: black plastic
- Two 27"W bases: wood veneer on MDF with aluminum universal bracket
- Concealed leveling glides: non-marring, black plastic

- 1 Style number
  - 2 Base selection (see below) and wood color number for base
  - 3 Laminate color number for table top, if selected
  - 4 Wood color number for wood edge
  - 5 Door color number for storage tray or TAP door, if selected:
    - 8044 Black
    - 8047 Silver
  - 6 Options, if selected (see below)
- See *Coalesse Surface Materials Reference Guide*.

Coalesse

# Host Collaborative and Conference Tables Racetrack Tables with Two Bases

DESIGN F/P DESIGN AND VECTA DESIGN TEAM

Host Collaborative and  
Conference Tables

# Host Collaborative and Conference Tables Racetrack Tables with Three Bases

DESIGN F/P DESIGN AND VECTA DESIGN TEAM

Tip: Shipped knocked down.

Tip: Grain direction for wood-grain laminate runs the length of the table.

Tip: Clips are provided with table: One clip per foot of table length.

Tip: The wood edge on a table top with woodgrain laminate may not match the top.

Tip: You must send a sample of reasonable size for Stain-to-Match.

Tip: 14'L and 16'L tables available with zero, one, two, or four TAP(s). 18'L and 20'L tables available with zero, one, two, four, or six TAP(s).

Tip: In addition to the data and audio/video AAPs available from Coalesse, other styles of AAPs are available through Extron Electronics. For an Extron dealer, call 1.800.633.9876.

Tip: See TAP options for electrical systems and faceplate list.

# Host Collaborative and Conference Tables Racetrack Tables with Three Bases

DESIGN F/P DESIGN AND VECTA DESIGN TEAM

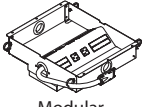

*Tip: For single TAP style numbers, the modular system tray is not available. Specify the hard-wired tray option.*

*Tip: If the specified table has multiple TAP(s), any one TAP can be replaced with a storage tray.*

*Tip: Wood veneer doors for storage tray and TAP will always be cross grain.*

*Tip: Connectrac must be the same wiring schematic as the table.*

# Host Collaborative and Conference Tables Boat Shaped Tables with Three Bases

DESIGN F/P DESIGN AND VECTA DESIGN TEAM

► Options, continued from previous page

*Tip: For single TAP style numbers, the modular system tray is not available. Specify the hard-wired tray option.*

*Tip: If the specified table has multiple TAP(s), any one TAP can be replaced with a storage tray.*

*Tip: Wood veneer doors for storage tray or TAP will always be cross grain.*

*Tip: Connectrac must be the same wiring schematic as the table.*

Options	U.S. Price	Required to Specify

# Host Collaborative and Conference Tables Trapezoid Tables with Two Bases

DESIGN F/P DESIGN AND VECTA DESIGN TEAM

Tip: Shipped knocked down.

Tip: Grain direction for wood-grain laminate runs the length of the table.

Tip: See TAP options for electrical systems and faceplate list.

Tip: Clips are provided with table: One clip per foot of table length.

Tip: The wood edge on a table top with woodgrain laminate may not match the top.

Tip: You must send a sample of reasonable size for Stain-to-Match.

# Potrero415 Collaborative and Conference Tables

DESIGN COALESSE DESIGN STUDIO

**Potrero415** responds to the demand for more collaborative settings throughout the work-space, setting a new standard for one table series that fits wherever people gather. Tables are available in work and standing height.

**Potrero415** spans a wide range of spaces and offers a breadth of materials and finish options to personalize every setting. Its technology and power options accommodate today's needs for connectivity.

**Technology devices and grommets** are available for easy access to power and data.

**Cables** can be neatly managed through legs.

**Legs** are available in powder coat paint or polished aluminum.

**Tables** are also offered as standing height, 40"H.

**Top** is available in a wide variety of materials and finishes including: laminate, wood veneer, Corian, or glass.

**Leg rings** can be specified in powder coat, chrome, or copper finishes.

**The square power module** is dual sided, allowing easy access from both sides. There are multiple power, USB, APP, and data configurations available.

**Adjustable leveling glides** have a range of 1" to accommodate uneven floors.

## Product Details

**Tables** are available in two heights:

- work height, 28½"H
- standing height, 40"H

Round

Square

Rectangular

Boat

**Table shapes** include: round, square, rectangular, and boat. A range of sizes are available to support a variety of applications.

**Laminate and wood veneer tops** are standard with a knife edge profile that has the appearance of a ½" thick top, which tapers to an overall top thickness of 1⅛".

**Tops with a laminate surface** have 3 mm plastic edge and finish selection. Wood veneer tops have a matching 3 mm edge. All corners have a radius.

Seating Capacity Guidelines  
▶ See page 155

# Potrero415 Collaborative and Conference Tables

DESIGN COALESSE DESIGN STUDIO

**Corian and glass tops** are built with a substructure (bottom) and top construction. The substructure is 1 1/4" in thickness and is available in black or white. The glass or corian top is 1/2" thick.

*Tip: Glass tops are not secured to the substructure. Glass tops are placed on rubber pads that are adhered to the substructure. If the glass tables need to be moved, remove the glass top prior to moving the table.*

**Large tops** are shipped in sections with hardware for field assembly. Tops 12' and larger are shipped in two or more pieces.

**Large tops** can be difficult to move through some buildings.

*Tip: Inspect the building where the table will be installed to confirm that elevators, loading docks, hallways, doorways, windows, etc., can accommodate large table tops.*

**Woodgrain laminates** are always oriented with the grain direction running parallel with the length of the table top.

**Woodgrain laminate sectioned tops** cannot be guaranteed to have a perfect match of the grain pattern along the seam that joins the sections. Large tops that are more than 10' in length require two or more separate sheets of laminate. Coalesse will create the best match that is possible between two sheets of laminate, but depending on the woodgrain laminate pattern that you choose, a perfect match between sections cannot be guaranteed.

**Veneer woodgrain** runs parallel to the width on all tops.

**Same flitch matching** is specified in cases where you want the veneer grain and pattern on two or more tops to come from the same flitch of veneer. This ensures a consistent grain pattern and coloration and should be specified when tops will be used near each other but not ganged.

**Legs** are cast aluminum and are painted in Coalesse powdercoat finishes. Polished aluminum is available as an option.

**Cable routing** is accommodated through the legs and can be accessed through the removable cover.

**Leg rings** can be specified in powder coat, chrome, or copper finishes. If contrasting finish from the leg is selected, more or less can be shown by adjusting the glide.

**Adjustable glides** have a range of 1" to accommodate uneven floors.

**Bottom tray** conceals all cables and creates a clean visual. Bottom tray and understructure matches the paint finish of the legs. If 8046 Polished Aluminum legs are specified, bottom tray and understructure are 4142 Platinum Gloss. Inner dimensions of the bottom tray are: 3 3/32"H x 9 9/32".

## Power, Data, Wiring & Cabling

**A power harness** is concealed within the bottom tray and is specifically designed for each length of table. Drop in technology devices plug into the power harness.

- 60" round / 48", 60" square tables:
  - One duplex receptacle
- 72"-144" tables:
  - Two 15-amp duplex receptacles
- 168"-288" tables:
  - Two 15-amp quadplex receptacles

### NEMA 5-20R Outlet

**Connection to the building power supply** is typically hardwired. A licensed electrician must make the connection. A single circuit, 20-amp plug connection is also available. This offers quick, easy connection to building power. An electrician must provide a dedicated NEMA 5-20R outlet within 12" of the infeed location. After the hardwire infeed exits the leg, there is 36" (work height) and 24" (standing height) of conduit to connect to a power source. After the 20-amp plug infeed exits the leg, there is 24" of cord length for both work-height and standing-height tables.

**Round power module** is only available on round and square tables and is centered. The 3" module is standard in silver finish and comes with a 6'L power cord with 15-amp plug. It is available with two simplex receptacles or one simple/2 USB charging ports. USB receptacles conveniently charge a range of electric devices. Some devices may not be compatible.

**Power Pod grommet** is an option on all tables. The grommet allows for pass through of cords and cables at the desk. The grommet is available in black or milk.

**The grommet** is open to allow the Power Pod to be housed over or stored on the table top.

**The contour of the Power Pod bottom cradle** is designed to work in conjunction with the grommet for a snug fit.

# Potrero415 Collaborative and Conference Tables *continued*

DESIGN COALESSE DESIGN STUDIO

**Power Pod** includes six 15-amp outlets with an energy saving illuminated on/off switch. It comes with a 6' cord with three prong plug. The top tray is milk and the power source is silver with a milk face. It is UL and CSA listed.

*Tip: Power Pod is sold separately.*

The **square power module** is available on 60" round and square tops, and all rectangular and boat shaped tops. Overall dimensions are 10 1/8" x 10 1/8".

The **unit** is dual sided, providing access from both sides. The square power module is available in silver or black anodized aluminum. It comes with a 10'L power cord with a 15-amp plug, with circuit breaker.

The **square power module** is available in the following configurations.

*Note: Image represents one side of unit. The other side is the same configuration.*

**3 Power, 2 Blank Data – per side**

**2 Power, 1 Blank APP – per side**

*Tip: Architectural Adapter Plates "AAPs" provide access to data, audio, video, and other technologies. The blank "AAPs" are compatible with Extron Electronics and accommodate two single spaces or one double space per side.*

**3 Power, 2 USB – per side**

**3 Power, 1 USB, 1 Blank Data – per side**

*Tip: USB receptacles conveniently charge a range of electric devices. Some devices may not be compatible. Each USB has two charging ports.*

Technology Distribution and Support

DESIGN COALESSE DESIGN STUDIO

- **Building power interface.**
- Both hardwire and 20-amp infeeds are available.
- **One infeed** powers each table.
- The infeed can enter through any leg.

**Removable cover on leg** allows easy access and installation of technology cords.

**Cross-section view** showing conduit and cable routing capacity through the leg. Every leg has cable routing capability.

*Note: Inside tray dimensions on rectangular and boat tops are 3 31/32"H x 9 9/32".*  
*Note: Capacity is reduced slightly over center legs.*

Potrero415 Collaborative and Conference Tables

# Potrero415 Collaborative and Conference Tables Base Locations

DESIGN COALESSE DESIGN STUDIO

## Round

*Note: Dimensions between legs are measured where legs contact the floor, with glides fully retracted. Dimensions will grow slightly when glides are adjusted outward.*

## Square

*Note: Dimensions between legs are measured where legs contact the floor, with glides fully retracted. Dimensions will grow slightly when glides are adjusted outward.*

# Potrero415 Collaborative and Conference Tables

DESIGN COALESSE DESIGN STUDIO

## Rectangular and Boat

Note: 44 9/32" is the distance between the legs measured to the outside of the leg where the legs contact the floor; 40" is the inside dimension.

DESIGN COALESSE DESIGN STUDIO

## Surface Materials

Laminates are available in two standard grades. Additional laminates from any manufacturer may also be practical—see *Other laminates* below.

### Grade 1 laminates include:

- Coalesse standard laminates
- ▶ See *Coalesse Surface Materials Reference Guide*.
- Steelcase standard laminates (code 290A)
- ▶ See *Steelcase Surface Materials Reference Manual*.
- Any standard-grade Wilsonart laminate in solid color, woodgrain, or pattern finish (code 290A)

**Grade 2 laminates** (code 290B) include any standard-grade, solid color, woodgrain, or patterned laminate from Nevamar (includes Matrix), Formica, or Pionite. Grade 2 laminates may have extended lead times. For details, contact Customer Service at 1.800.627.6770.

**Other laminates** that are not included in the Grade 1 or Grade 2 offerings may also be available, such as Abet Laminati and Laminart. To determine availability and pricing, contact Customer Service at 1.800.627.6770, with the laminate manufacturer's name and the name and number of the laminate you want.

**Laminate swatches** are reproduced in the Surface Materials Color Palettes.

▶ See *Coalesse Surface Materials Reference Guide* for a list.

**Swatch cards and actual samples of Coalesse standard laminates** are available from your Coalesse Customer Service representative. For samples of laminates from other manufacturers, contact them directly:

Wilsonart  
1.800.433.3222  
Nevamar  
1.800.638.4380  
Formica  
1.800.FORMICA  
Pionite  
1.800.285.5161

*Tip: Laminate manufacturers change their offerings frequently. Always check availability before ordering.*

**Wood veneer table tops** are fabricated with Architectural Grade AA hand-selected hardwood veneer, plain sliced, book matched, and bonded to the core with a backing sheet for balance. Coalesse's primary wood finish, Clarity, is a water-borne UV topcoat, which protects the environment while providing exceptional durability and resistance to water and chemical stains. Due to natural variations in wood, finished products may vary from samples in color, texture, and grain.

**Wood** is a natural material; slight variations occur in veneer texture, color, grain configuration, and stain acceptance. Coalesse stains are all applied with an exacting regard for consistency and are well within traditional tolerances for wood products.

*Tip: You should know that finished tops may vary slightly in tone or character from each other or from the samples Coalesse produces. No guarantee can be made of an absolutely exact match.*

**Wood veneer swatches** are reproduced in the Surface Materials Color Palettes.

▶ See *Coalesse Surface Materials Reference Guide* for a list.

**Swatch cards and actual samples of Coalesse standard wood veneers** are available from your Coalesse Customer Service representative.

**Additional wood veneer species** are available. To confirm availability and to determine pricing, contact Customer Service at 1.800.627.6770.

**Stains** applied to Coalesse wood veneer table tops are standard with the same stain color applied to both the top and the solid hardwood edge profile. Coalesse strives to produce a consistently high quality product and some natural variation in color is to be expected. This is especially apparent on natural woods which have no stain applied, for example 3525 Natural Maple. This color variation is normal and reflects the unique and natural properties of wood. This should not be considered a defect.

**Stain swatches** are reproduced in the Surface Materials Color Palettes.

▶ See *Coalesse Surface Materials Reference Guide* for a list.

**Swatch cards and actual samples of standard wood veneers** are available from your Customer Service representative.

**Additional wood veneer stains** are possible. Coalesse offers two programs to accommodate customers who need special stains—Stain-to-Match and Stain and Finish to Match.

**Stain-to-Match option** is a special Coalesse program that will match a wood stain sample that you provide. There is no additional charge for this service. You must supply a sample of reasonable size (3" x 3" or larger is usually adequate). Coalesse will formulate a stain, produce a matching sample, and send it to you for approval. When we receive your written approval, we'll schedule production of your order.

*Tip: Stain-to-Match will achieve a color match to the sample only. Graining of the wood veneer and final surface finish may differ from your original sample. See Stain and Finish to Match.*

**Corian tops** are 1/2" thick on top of a 1/4" substructure. Corian is available in 2801 Glacier White.

**Glass tops** are 1/2" thick on top of a 1/4" substructure. Tops are tempered, low-iron glass available in multiple painted finishes.

# Potrero415 Collaborative and Conference Tables Round and Square Tables

DESIGN COALESSE DESIGN STUDIO

*Tip: Glass tops are not secured to the substructure. Glass tops are placed on rubber pads that are adhered to the substructure. If the glass tables need to be moved, remove the glass top prior to moving the table.*

*Tip: For tables with corian and glass tops, overall height is 1/2" taller.*

*Tip: When polished aluminum leg is specified, understructure is platinum glass.*

*Tip: Power Pod grommet is available in 6000 Black or 6052 Milk.*

*Tip: Square power module is available in 8044 Black Anodized Aluminum or 8047 Silver Anodized Aluminum.*

*Tip: When technology is specified on 48" round tables only, the 15-amp power module cord can be managed from the desk top through a leg. Order leg cover thumb screws through Service Parts (1025537001SR) to allow for tool-free access.*

# Reunion Collaborative and Conference Tables

Reunion is a family of tables that provide uncommon flexibility to meet real-world needs. The Collection includes Solo, Group Work, Conference, and Seminar tables.

Top is 1/4"-thick particle board with laminate or straight-grain wood veneer surface.

Snap legs are height adjustable between 26 1/2"H and 32 1/2"H.

The removable snap legs allow for compact storage of tables not in use.

Adjustable leveling glides have a range of 1/2" to accommodate uneven floors.

Link legs have a patented latching mechanism that allows the leg to support a single top or swing into position to support two adjacent tops.

## Product Details

Solid core tops with 1/4" nominal edge thickness have a particle board core (45 lb cu ft density) with High-Pressure Laminate or wood veneer on the top and a backer applied to the opposite side for a balanced construction. High-Pressure Laminate, wood veneer, and backer are bonded to the core with a PVA adhesive.

Solo tables are designed to provide a highly flexible work-surface for individuals using a computer, talking on the phone, in one-on-one meetings, or to spread out their work. Snap legs provide height adjustability. Casters are available as an option.

Group Work tables support teamwork by providing tables that support small group meetings or which can be combined to create larger configurations to support bigger team activities. Group Work tables with fixed or removable snap legs can be used alone or configured in groups to meet specific needs. Group Work tables with link legs are intended to be ganged and allow a single leg to provide support for two tops.

Seating Capacity Guidelines  
▶ See page 330.

# Reunion Collaborative and Conference Tables

**Conference tables** offer a way to combine tops to create large table and to reconfigure the components into individual tables when needs change. Link legs can be removed to eliminate unnecessary legs in the large configuration and returned when the table is broken into components.

**Seminar tables** are ideal for training rooms because they are easy to set up in different configurations and because they can include a modesty panel for wire and cable management. Removable snap legs can be specified for applications where tables must be knocked down and stored when not needed.

**Snap legs** are height adjustable to support the top anywhere between 26½" H and 32½" H. Locking casters can be specified to replace the glide. Snap legs are available in fixed and removable versions. The removable snap legs have a simple push-button latching mechanism that allows legs to be removed for compact storage of tables that are not in use. Vertical channel in leg serves as a cable manager.

**Link legs** have a patented latching mechanism that allows the leg to support a single top or swing into position to support two adjacent tops. This feature allows tops to be ganged together and also eliminates the clutter of extra legs and gives users more leg room. Link leg supports tops at 28½" H. Adjustable leveling glides have a range of ½" to accommodate uneven floors. Vertical channel in leg serves as a cable manager.

**Signature edge profile** is standard on Reunion. This special edge profile is not available on other table products.

**Edges** are available in two alternatives—black vinyl edge band with matching injection molded transitional corners or wood edge band with square transitional corners.

**Custom Shapes and Sizes** Special table sizes and shapes are possible. To confirm practicality and obtain a quotation, contact Customer Service at 1.800.627.6770.

**Horizontal wire managers** are available without the modesty panel for application where only wire management is needed and are attached with velcro. They are available in four sizes that correspond to the lengths of seminar tables. They can be ordered separately and added in the field.

**Table bases** are available with powder coat colors. Refer to the individual product specifying pages for availability. Powder coat colors are shown in the *Coalesse Surface Materials Reference Guide*.

**Casters** are available as a factory-installed option on 2" dual non-locking Reunion nomad tables. Snap leg has 3" single locking casters available. *Tip: Casters cannot be adjusted to level tables.*

**Mobile storage cart** stores and transports table tops and legs that are not in use. Mobile storage cart can support up to 12 tops and 16 legs for storing and transporting components. Rectangular tops of lengths from 48" L–72" L and widths up to 48" can only be used on the mobile storage cart.

**Connecting tops for seminar tables** include connecting hardware. They must be connected to adjacent seminar tops.

**Modesty panels** include a horizontal wire manager to organize wires and cables below the level of the table top. The aluminum modesty panel has two integrated "L"-brackets which correspond with two inserts on the underside of the top and are attached by two thumb screws. The modesty panel must be removed before tables can be stored on the mobile storage cart. Modesty panel can be specified as a factory-installed component, or you can order the modesty panel separately and add it to the table in the field.

**Cut-down tops**, which are standard table tops with smaller dimensions, are available. Use the product number of the next larger size and specify the exact dimensions you want. Some restrictions apply, including minimum quantities. This option is not available for folding tables. Additional lead times may be required. Contact Customer Service at 1.800.627.6770.

**Woodgrain laminates** are always oriented with the grain direction running parallel with the length of the table top. You cannot specify woodgrain laminates with end- or side-matched grain directions.

**Woodgrain laminate sectioned tops** cannot be guaranteed to have a perfect match of the grain pattern along the seam that joins the sections. Large tops that are more than 12' in length require two or more separate sheets of laminate. Coalesse will create the best match that is possible between two sheets of laminate, but depending on the woodgrain laminate pattern that you choose, a perfect match between sections cannot be guaranteed.

**For sectioned 3- or 4-piece tops**, it is not recommended to use woodgrain laminates, as the grain pattern of each section will not match.

**Wood edges** are not recommended on tables with wood-grain laminates because matching of woodgrain laminate and natural, solid wood is not guaranteed. For tables with wood edge profiles, always specify either laminates in solid colors or patterns or wood veneer surfaces.

*Tip: Because of natural variations, you should know that finished solid wood edges may vary slightly in tone or character from each other or from the samples Coalesse produces. No guarantee can be made of an absolutely exact match.*

**Standard veneer grain directions—grain direction** on Reunion conference table tops runs parallel to the width of the top regardless of the size of the table.

**Woodgrain** runs parallel to the length on all reunion seminar and P and Arc solo, oval, rounded rectangle, solo, and group work reunion collection table tops.

# Reunion Collaborative and Conference Tables *continued*

**Woodgrain** runs parallel to the width on all Reunion conference tables.

**Same flitch veneer** is available as a special for tables that require similar graining and color, but will not be ganged. For example, specify same flitch veneer for two tables used in the same room, but spaced apart.

**Same flitch matching** is specified in cases where you want the veneer grain and pattern on two or more tops to come from the same flitch of veneer. This ensures a consistent grain pattern and coloration and should be specified when tops will be used near each other but not ganged.

## Edge Alternatives

Edge Alternatives	Table Top Shape	
<b>1 1/4" Tops-Reunion</b>		
	<ul style="list-style-type: none"> <li>• 1 1/4" Reunion vinyl edge</li> <li>• 5/8"D profile</li> </ul>	<ul style="list-style-type: none"> <li>• Edge available for all table top shapes.</li> </ul>
	<ul style="list-style-type: none"> <li>• 1 1/4" Reunion wood edge</li> <li>• 5/8"D profile</li> </ul>	<ul style="list-style-type: none"> <li>• Edge available for all table top shapes.</li> <li>* Not available on presentation group tables.</li> </ul>

	<ul style="list-style-type: none"> <li>• 1 1/4" flat wood edge</li> </ul>	<ul style="list-style-type: none"> <li>• Edge available for all table top shapes.</li> </ul>

**Connecting tops** can link perpendicular Reunion seminar tables at 90° and expand the useable area.  
▶ See page 370

**Gangers** are available in two types—flex and bar. Use flex gangers in situations when tables will frequently be reconfigured and re-ganged. Use bar gangers in applications where tables need to be rigidly linked for long periods of time. Flex gangers may be installed in the factory or on site. Threaded inserts for bar gangers are always factory installed. Bar gangers are field installed.

**Flex gangers** can be used to easily link adjacent rectangular, trapezoid, and D-shaped tables in multiple configurations. Flex gangers use a flexible loop that engages a hook to hold two adjacent table tops in place. No tools are required to stretch the loop across the seam between two table edges and to connect it to the hook on the adjacent table. Loops that are not in use can be secured to a parking hook.  
*Tip: Modesty panels would prevent gangers from being used on that side of the table.*

Side-to-side (Not available on tables with modesty panels.)

End-and-side (Not available on tables with modesty panels.)

**Factory-installed flex gangers** are available as an option on Reunion Seminar tables. Gangers and hooks are installed on the tables that are going to be joined.

*Tip: When the factory-installed flex ganger option is specified, the flex gangers will be installed in the end-to-end ganging configuration. If side-to-side or end-and-side ganging is required, change the position of the flex gangers at time of installation. All flex ganger locations are pre-drilled for simple re-location when desired.*

*Tip: Not to be used with wood edge.*

**Field-installed flex ganger packages** are available to add on site to tables with vinyl edges or self-edged tables with tops that are 1" to 1¼"-thick. Specify one package for each seam.

Flex Ganger Package	Style Number	List Price U.S.
Flex ganger	793365	\$85

*Tip: Not to be used with wood edge.*

**Bar gangers** use steel bars to join adjacent tables. One end of the bar is captured by the host table and allows the bar to pivot beneath adjacent table where it is captured by a threaded post with knob. Factory-installed threaded insert in underside of table top accepts the threaded knob. No tools are required to link tables with bar gangers.

**Factory-installed bar ganger** inserts to allow tables to be joined end to end and/or side to side. Specify universal ganging when you order your tables. You must also order the appropriate number of ganger packages separately. Order one package for each pair of table edges that are going to be joined.

*Tip: Please send a drawing of your arrangement along with your order to ensure that gangers are properly installed.*

*Tip: Not to be used with wood edge.*

**Bar ganger package** is available—standard for 1¼"-thick tops.

Bar Ganger Package	Style Number	List Price U.S.
Bar ganger for 1¼"-thick tops	793335	\$59

*Tip: Not to be used with wood edge.*

If your tables are going to be used in a configuration that requires ganging, please send us a drawing or sketch so that we can give you exactly what you want.

## Wiring & Cabling

**Grommets** are available factory installed. Locations are listed in the table below (left, right, center).

**Field installation** available. To specify, order the grommet and the table as separate items.

**Grommet** has 2"-diameter opening. Dimensions given are from the center of opening and are accurate within ¼". Left, right, and center are from the user's perspective.

# Reunion Collaborative and Conference Tables *continued*

	60"L	6½"	11½"	30"
	72"L	6½"	11½"	36"
36"W	42"L	6½"	11½"	21"
	48"L	6½"	11½"	24"
	60"L	6½"	11½"	30"
	72"L	6½"	11½"	36"

Tip: Custom locations are possible. Custom locations require an engineering review to confirm practicality. Please send a drawing to your Customer Service representative to show the locations you want, confirm practicality, and obtain a quotation.

Please send a drawing of your arrangement along with your order to ensure that grommets and spheres are properly installed.

Factory installed cutouts for desktop modules are available in custom locations. This process requires engineering review and additional lead time may be required.

Tip: Send us a drawing indicating desired location(s). An additional charge may apply if the standard table design requires modification.

Field installed desktop modules are ordered separately, not as an option, therefore, the table top will not have a cutout and must be cut in the field.

Power strips are available as an accessory, ordered separately.

# Reunion Collaborative and Conference Tables

## Surface Materials

Laminates are available in two standard grades. Additional laminates from any manufacturer may also be practical—see *Other laminates* below.

### Grade 1 laminates include:

- Coalesse standard laminates
- ▶ See *Coalesse Surface Materials Reference Guide*.
- Steelcase standard laminates (code 290A)
- ▶ See *Steelcase Surface Materials Reference Manual*.
- Any standard-grade Wilsonart laminate in solid color, woodgrain, or pattern finish (code 290A)

**Grade 2 laminates** (code 290B) include any standard-grade, solid color, woodgrain, or patterned laminate from Nevamar (includes Matrix), Formica, or Pionite. Grade 2 laminates may have extended lead times. For details, contact Customer Service at 1.800.627.6770.

**Other laminates** that are not included in the Grade 1 or Grade 2 offerings may also be available, such as Abet Laminati and Laminart. To determine availability and pricing, contact Customer Service at 1.800.627.6770, with the laminate manufacturer's name and the name and number of the laminate you want.

**Laminate swatches** are reproduced in the Surface Materials Color Palettes.

▶ See *Coalesse Surface Materials Reference Guide* for a list.

**Swatch cards and actual samples of Coalesse standard laminates** are available from your Coalesse Customer Service representative. For samples of laminates from other manufacturers, contact them directly:

- Wilsonart  
1.800.433.3222
- Nevamar  
1.800.638.4380
- Formica  
1.800.FORMICA
- Pionite  
1.800.285.5161

*Tip: Laminate manufacturers change their offerings frequently. Always check availability before ordering.*

**Wood veneer table tops** are fabricated with Architectural Grade AA hand-selected hardwood veneer, plain sliced, book matched, and bonded to the core with a backing sheet for balance. Coalesse's primary wood finish, Clarity, is a water-borne UV topcoat, which protects the environment while providing exceptional durability and resistance to water and chemical stains. Due to natural variations in wood, finished products may vary from samples in color, texture, and grain.

**Wood** is a natural material; slight variations occur in veneer texture, color, grain configuration, and stain acceptance. Coalesse stains are all applied with an exacting regard for consistency and are well within traditional tolerances for wood products.

*Tip: You should know that finished tops may vary slightly in tone or character from each other or from the samples Coalesse produces. No guarantee can be made of an absolutely exact match.*

**Wood veneer swatches** are reproduced in the Surface Materials Color Palettes.

▶ See *Coalesse Surface Materials Reference Guide* for a list.

**Stains** applied to Coalesse wood veneer table tops are standard with the same stain color applied to both the top and the solid hardwood edge profile. Coalesse strives to produce a consistently high quality product and some natural variation in color is to be expected. This is especially apparent on natural woods which have no stain applied, for example 3525 Natural Maple. This color variation is normal and reflects the unique and natural properties of wood. This should not be considered a defect.

**Stain swatches** are reproduced in the Surface Materials Color Palettes.

▶ See *Coalesse Surface Materials Reference Guide* for a list.

**Swatch cards and actual samples of standard wood veneers** are available from your Customer Service representative.

**Additional wood veneer stains** are possible. Coalesse offers two programs to accommodate customers who need special stains—Stain-to-Match and Stain and Finish to Match.

**Stain-to-Match option** is a special Coalesse program that will match a wood stain sample that you provide. There is no additional charge for this service. You must supply a sample of reasonable size (3" x 3" or larger is usually adequate). Coalesse will formulate a stain, produce a matching sample, and send it to you for approval. When we receive your written approval, we'll schedule production of your order.

*Tip: Stain-to-Match will achieve a color match to the sample only. Graining of the wood veneer and final surface finish may differ from your original sample. See Stain and Finish to Match.*

**Stain and Finish to Match** is a special Coalesse program that can achieve both a color and a surface finish match for most customer-supplied samples. To determine feasibility and pricing, send us a sample of reasonable size (3" x 3" or larger is usually adequate) before you send us your order. If feasible, Coalesse will produce a sample showing the best possible match and send it to you for approval. When we receive your written approval, we'll schedule production of your order.

**Stain formulas for special stain color matches** are all retained in Coalesse's archives so that you can refer to them in future orders and skip the approval steps required for the initial order.

## Care & Maintenance

**Laminate** should be cleaned with soap and water. For stubborn stains, use a non-abrasive household cleaner.

**Veneers** should be cleaned regularly with mild soap and water and dried with a soft cloth. To polish, use silicone-free household polishers. Use sparingly.

*Tip: Never use ammonia-based cleaners or wax on wood surfaces.*

**Powder coat finishes on table bases** should be cleaned with a liquid detergent and water. Remove stubborn stains with liquid cleanser, such as Formula 409.

**Polished Aluminum** finishes on table bases should be cleaned with a commercial powder, liquid, or paste metal cleaner and polish. Follow the manufacturer's directions.

**Tables** should be inspected and maintained regularly by tightening screws and bolts, inspecting casters and glides for damage, and inspecting all moving parts for damage and wear.

Bullet Conference Tops and Link Legs

DESIGN FM DESIGN

Tip: Shipped knocked down.

Tip: Tops that are 36"W or 42"W require three link legs; tops that are larger require four link legs, ordered separately.

► Page 349

Tip: Woodgrain laminates run lengthwise and will not match.

Tip: If you specify a wood edge on a top with woodgrain laminate, the edge and top may not match.

Tip: You must send a sample of reasonable size for Stain-to-Match.

Tip: Black vinyl edge band, is bullnose on curved edges and flat on straight edges with black injection molded transitional corners.

Tip: Wood edge band, if selected, is bullnose on curved edges and flat on straight edges, wood veneer is butt-jointed.

Tip: There is no upcharge for grain-matched veneer on Reunion Conference tables, but you must send us a drawing.

► Page 326

Tip: 48"W and larger require four legs.

# Reunion Collaborative and Conference Tables

Rectangular Seminar Tables with Removable Snap Legs

DESIGN FM DESIGN

Tip: Shipped knocked down.

Tip: You must send a sample of reasonable size for Stain-to-Match.

Tip: If you specify a wood edge on a top with woodgrain laminate, the edge and top may not match.

Tip: For grain matching always include a drawing or sketch along with your specification showing the arrangement of tables you plan so that we can ensure proper grain matching. **▶Page 326**

Tip: When the factory-installed flex ganger option is specified, the flex gangers will be installed in the end-to-end ganging configuration. If side-to-side or end-and-side ganging is required, change the position of the flex gangers at time of installation. All flex ganger locations are pre-drilled for simple re-location when desired.

Tip: When three grommets are specified, grommets will be located left, right, and center.

Tip: For sphere location availability. **▶Page 328**

Tip: If couplers are needed on PCS or CSP they must be ordered separately.

Tip: For installation of grommets, spheres, Interport, Mini-Port, Interact, Axil Z, or Ellora submit a drawing indicating the desired location for a factory installed cutout(s). Field installation is also available. All require the grommet(s), sphere(s), Interport, Mini-Port, Interact, Axil Z, or Ellora to be ordered as a separate item.

Tip: Table height adjustment range changes to 28½"H to 34½"H when casters are specified.

# Reunion Collaborative and Conference Tables

Rectangular Seminar Tables with Fixed Snap Legs

DESIGN FM DESIGN

Tip: Shipped knocked down.

Tip: Reunion Seminar tables 24"W with fixed snap legs cannot be used with corner connecting tops.

Tip: Table height adjustment range changes to 28½"H to 34½"H when casters are specified.

Tip: You must send a sample of reasonable size for Stain-to-Match.

Tip: If you specify a wood edge on a top with woodgrain laminate, the edge and top may not match.

Tip: For grain matching always include a drawing or sketch along with your specification showing the arrangement of tables you plan so that we can ensure proper grain matching. **▶ Page 326**

Tip: When the factory-installed flex ganger option is specified, the flex gangers will be installed in the end-to-end ganging configuration. If side-to-side or end-and-side ganging is required, change the position of the flex gangers at time of installation. All flex ganger locations are pre-drilled for simple re-location when desired.

Tip: When three grommets are specified, grommets will be located left, right, and center.

Tip: For sphere location availability. **▶ Page 328**

Tip: If couplers are needed on PCS or CSP they must be ordered separately.

Tip: For installation of grommets, spheres, Interport, Mini-Port, Interact, Axil Z, or Ellora submit a drawing indicating the desired location for a factory installed cutout(s). Field installation is also available. All require the grommet(s), sphere(s). Interport, Mini-Port, Interact, Axil Z, or Ellora to be ordered as a separate item.

## Power and Communication Spheres for Standard Locations

*Tip: The sphere will be shipped with the table so it can be installed on site in the factory-cut opening.*

*Tip: Field-installed sphere is practical on many table tops. Order unit separately and cut the required hole in the table top on site. Installation instructions will be shipped with the sphere.*

*Tip: Custom locations are possible. Custom locations require an engineering review to confirm practicality. Please send a drawing to your Customer Service representative to show the locations you want, confirm practicality, and obtain a quotation.*

*Tip: Please send a drawing of your arrangement along with your order to ensure that spheres are properly installed.*

*Tip: Additional tables may be able to accommodate spheres. Ask your Customer Service representative at 1.800.627.6770 to help you determine practicality.*

*Tip: If couplers are needed on PCS or CSP they must be ordered separately.*

## SW\_1 Collaborative and Conference Tables

SW\_1 is a clear alternative to the generic conference room. SW\_1 enhances social connectivity and fosters engagement while promoting the healthful freedom of movement users deserve in collaborative settings.

*Tip: This product line is a collection and will be found in multiple locations in this specification guide and/or Coalesse Seating and Outdoor Specification Guide.*

► See *Collections*, page 5

The top is available in four materials: laminate, veneer, glass, and corian.

Bases come in a 4-star base for round and square tables or V-bases with or without in-line legs for rectangular and super-elliptical tables. The cone at the top of the base has a hole for cable routing to the wire manager and grommet option. Bases are available in aluminum matte polished.

Grommets with wire manager are available as an option. It also comes with an inside barrier in the cone. They are available in black or milk.

Lounge chair supports the "lean back" activity, while offering more space for postural changes than the conventional conference chair.  
► See *Coalesse Seating and Outdoor Specification Guide*

The pull-out tablet allows the user to bring work up close. Tablets are available in black or arctic white and are only available on the 26"H collaborative height tables.

Wire manager comes with the grommet and barrier. It routes the cords and cables from the cone to the floor. It is a separate piece that attaches to the column. The wire manager is available in black or milk.

Adjustable glides are available for leveling on uneven floors. The adjustment range is 3/4".

Seating Capacity Guidelines  
► See page 381

# SW\_1 Collaborative and Conference Tables

## Product Details

Tables are available in the following heights:

- 28 1/2"H standard table height
  - 26"H collaborative table height
  - 15"H occasional table height
- Page 520

Adjustable leveling glides have a range of 3/4" to accommodate uneven floors.

Table shapes include round, square, super-square, rectangular, and super-elliptical. A wide range of sizes up to 20'L is available to fit any room size.

Tablets are available only on 26"H collaborative table heights. They are optional on the 42"Wx84"Lx26"H and 42"Wx120"Lx26"H rectangular tables and on the 42"Wx42"Lx26"H and 84"Wx84"Lx26"H square table.

The tablets pull-out 10" from the worksurface and utilize two ball bearing slides.

The tablets are available in black or milk plastic over-molded material.

The table top is built into two sections, the substructure (bottom) and the table top. The substructure is a solid core of 45 lb median-density particle board, 1 1/4" thick, available in black or milk. The 1/2" thick top is available in the following:

- High-Pressure Laminate with backer with flat 3 mm vinyl edge banding
- Wood veneer with backer with matching flat 3 mm wood edge banding
- Glass with flat edge

*Tip: Glass tops are not secured to the substructure. Glass tops are placed on rubber pads that are adhered to the substructure. If the glass tables need to be moved, remove the glass top prior to moving the table.*

- White corian with flat edge

4-star base, no cable management

4-star base with cable management (cone)

V-base, no in-line leg(s) with cable management

V-base with in-line leg(s) with cable management

Large round/square base with single-leg configuration with cable management (cone)

*Tip: Due to the cone locations, grommets are not centered on these base configurations.*

Large round/square with v-leg configuration with cable management (cone)

*Tip: Due to the cone locations, grommets are not centered on these base configurations.*

Bases are available in six configurations:

- 4-star base, no cable management
- 4-star base with cable management (cone)
- V-base, no in-line leg(s) with cable management
- V-base with in-line leg(s) with cable management
- Large round/square base with single-leg configuration with cable management (cone)
- Large round/square base with v-leg configuration with cable management (cone)

Bases are aluminum with a 2 1/2" diameter column. The column has a groove to accept the wire manager.

► See page 388 for leg locations.

10' or less

More than 10'

Large tops are shipped in sections. The 1/2" top and 1/4" bottom substructure are shipped separately and are assembled in the field. Tite-joint fasteners are used for the bottom substructure and other hardware is used to assembly the 1/2" top to the substructure. Tables that are 12'L and larger always ship in two or three pieces.

Custom shapes and sizes  
Special table sizes and shapes are possible. To confirm practicality and obtain a quotation, contact Customer Service at 1.800.627.6770.

Laminate  
Woodgrain Direction

Woodgrain laminates are always oriented with the grain direction running parallel with the length of the table top.

More than 12'

Woodgrain laminate sectioned tops cannot be guaranteed to have a perfect match of the grain pattern along the seam that joins the sections. Large tops that are more than 12' in length require two or more separate sheets of laminate. Coalesse will create the best match that is possible between two sheets of laminate, but depending on the woodgrain laminate pattern that you choose, a perfect match between sections cannot be guaranteed.

For sectioned 3- or 4-piece tops, it is not recommended to use wood grain laminates, as the grain pattern of each section will not match.

Standard veneer grain directions—grain directions are determined by the size and shape of the table top. Refer to the following guidelines for standard grain directions.

96"L and longer

Grain runs parallel to the width of the rectangular and super-elliptical table tops.

Less than 96"L

Tops 96"L and less have a choice of an optional grain pattern that runs the length of the top.

Wedge lay-up veneers radiate from the center on round tops and super-elliptical tops.

Same flitch matching is available through specials and can be specified in cases where you want the veneer grain and pattern on two or more tops to come from the same flitch of veneer. This ensures a consistent grain pattern and coloration and should be specified when tops will be used near each other but not ganged.

# SW\_1 Collaborative and Conference Tables *continued*

## Wiring and Cabling

The grommet allows for pass through of cords and cables at the desktop. The grommet is open to allow for the Power Pod to be housed over or stored on the table. The grommet inside dimension is 3½" and outside dimension is 5½". The grommet comes in black or milk.

Grommets can only be located above table legs. The grommet option locations have been determined for the most effective use. This means that not all possible locations are standard, so if another location over a leg is desired, please contact your Coalesse specials representative.

The cone at the top of the base attaches to the work-surface and allows cords and cables to be passed through and coiled for storage. The barrier attaches to the inside of the column to help hold and conceal cords and cables. The barrier comes in black or milk to match the grommet.

*Tip: A power strip cannot fit inside the cone.*

The SW\_1 vertical wire manager is supplied when a grommet is specified. It attaches to the groove in the base column to conceal and hold power cords and voice/data cables routed vertically from the floor to the worksurface. The wire manager is available in black or milk to match the grommet. Note: For any occasional tables that can be specified with a grommet, no vertical wire manager is supplied.

The vertical wire manager is divided into two sections for cord and cable management. Three cords/cables can be routed per section.

Power Pod is a design conscious, portable power source and accessory all in one. It can be used on any table top for easy access to power.

Power Pod includes six 15-amp outlets with an energy saving illuminated on/off switch. It comes with a 6' cord with three prong plug. The top tray is milk and the power source is silver with a milk face. It is UL and CSA listed.

The contour of the Power Pod bottom cradle is designed to work in conjunction with the grommet for a snug fit or can be used independently without a grommet.

Horizontal wire management velcro clips are available to manage wires from one end of the table to the other, if desired. They come in a package of six and are attached under the worksurface with the provided screws.

## Surfacing Materials

Solid core tops with ½" nominal edge thickness have a particle board core (45 lb cu ft density) with High-Pressure Laminate or wood veneer on the top and a backer applied to the opposite side for a balanced construction. High-Pressure Laminate, wood veneer, and backer are bonded to the core with a PVA adhesive.

Laminates are available in two standard grades. Additional laminates from any manufacturer may also be practical—see Other laminates in the following column.

Grade 1 laminates include:

- Coalesse standard laminates
- ▶ See *Coalesse Surface Materials Reference Guide*.
- Steelcase standard laminates (code 290A)
- ▶ See *Steelcase Surface Materials Reference Manual*.
- Any standard-grade Wilsonart laminate in solid color, woodgrain, or pattern finish (code 290A).

Grade 2 laminates (code 290B) include any standard-grade, solid color, woodgrain, or patterned laminate from Nevamar (includes Matrix), Formica, or Pionite. Grade 2 laminates may have extended lead times. For details, contact Customer Service at 1.800.627.6770.

Other laminates that are not included in the Grade 1 or Grade 2 offerings may also be available, such as Abet Laminati and Laminart. To determine availability and pricing, contact Customer Service at 1.800.627.6770, with the laminate manufacturer's name and the name and number of the laminate you want.

Laminate swatches are reproduced in the Surface Materials Color Palettes.

▶ See *Coalesse Surface Materials Reference Guide* for a list.

Swatch cards and actual samples of Coalesse standard laminates are available from your Coalesse Customer Service representative. For samples of laminates from other manufacturers, contact them directly:

- Wilsonart  
1.800.433.3222
- Nevamar  
1.800.638.4380
- Formica  
1.800.FORMICA
- Pionite  
1.800.285.5161

*Tip: Laminate manufacturers change their offerings frequently. Always check availability before ordering.*

Wood veneer table tops are fabricated with Architectural Grade AA hand-selected hardwood veneer, plain sliced, book matched, and bonded to the core with a backing sheet for balance. Coalesse's primary wood finish, Clarity, is a water-borne UV topcoat, which protects the environment while providing exceptional durability and resistance to water and chemical stains. Due to natural variations in wood, finished products may vary from samples in color, texture, and grain.

Wood is a natural material; slight variations occur in veneer texture, color, grain configuration, and stain acceptance. Coalesse stains are all applied with an exacting regard for consistency and are well within traditional tolerances for wood products.

*Tip: You should know that finished tops may vary slightly in tone or character from each other or from the samples Coalesse produces. No guarantee can be made of an absolutely exact match.*

Additional wood veneer species are available. To confirm availability and to determine pricing, contact Customer Service at 1.800.627.6770.

# SW\_1 Collaborative and Conference Tables

**Stains** applied to Coalesse wood veneer table tops are standard with the same stain color applied to both the top and the solid hardwood edge profile. Coalesse strives to produce a consistently high quality product and some natural variation in color is to be expected. This is especially apparent on natural woods which have no stain applied, for example 3525 Natural Maple. This color variation is normal and reflects the unique and natural properties of wood. This should not be considered a defect.

**Stain swatches** are reproduced in the Surface Materials Color Palettes.  
 ▶ See *Coalesse Surface Materials Reference Guide* for a list.

**Swatch cards and actual samples of standard wood veneers** are available from your Customer Service representative.

**Additional wood veneer stains** are possible. Coalesse offers two programs to accommodate customers who need special stains—Stain-to-Match and Stain and Finish to Match.

**Stain-to-Match option** is a special Coalesse program that will match a wood stain sample that you provide. There is no additional charge for this service. You must supply a sample of reasonable size (3" x 3" or larger is usually adequate). Coalesse will formulate a stain, produce a matching sample, and send it to you for approval. When we receive your written approval, we'll schedule production of your order.

*Tip: Stain-to-Match will achieve a color match to the sample only. Graining of the wood veneer and final surface finish may differ from your original sample. See Stain and Finish to Match.*

**Stain and Finish to Match** is a special Coalesse program that can achieve both a color and a surface finish match for most customer-supplied samples. To determine feasibility and pricing, send us a sample of reasonable size (3" x 3" or larger is usually adequate) before you send us your order. If feasible, Coalesse will produce a sample showing the best possible match and send it to you for approval. When we receive your written approval, we'll schedule production of your order.

**Stain formulas for special stain color matches** are all retained in Coalesse's archives so that you can refer to them in future orders and skip the approval steps required for the initial order.

**Corian** is available in white solid.

**Glass** is available in six colors.

**Table bases** are available in polished matte aluminum. Refer to the individual product specifying pages for availability.

## Care & Maintenance

**Laminate** should be cleaned with soap and water. For stubborn stains, use a non-abrasive household cleaner.

**Veneers** should be cleaned regularly with mild soap and water and dried with a soft cloth. To polish, use silicone-free household polishers. Use sparingly.

*Tip: Never use ammonia-based cleaners or wax on wood surfaces.*

**Polished aluminum** finishes on table bases should be cleaned with a commercial powder, liquid, or paste metal cleaner and polish. Follow the manufacturer's directions.

**Tables** should be inspected and maintained regularly by tightening screws and bolts, inspecting glides for damage, and inspecting all moving parts for damage and wear.

**Corian** should be cleaned regularly with mild soap and water. Dry with a soft cloth.

## SW\_1 Table and Tablet Surfaces:

Clean with soft cloth dampened with water and soap, if needed. The use of general purpose cleaners are acceptable but must be void of citric content that has zbutoxyethanol in the formulation listing.

# SW\_1 Collaborative and Conference Tables Applications

- **Low conference configuration with lounge seating** challenges the conventional relationship between the lounge chair and table. The lowered table height creates a more casual and social work setting which encourages collaboration and comfort.

- **The diamond shape configuration** creates a collaborative lounge instead of a conference room. Everyone is on a corner, there are no middle seats. The smaller tables are easier to reconfigure and expand, which simplifies facility planning.

# SW\_1 Collaborative and Conference Tables Applications

- **Occasional table configuration** works in lobbys, enclaves, or small meeting areas.

- **Work tables** can be placed into any setting as the main work or meeting area.

- **Standard height conference tables** are an elegant way to host meetings with light technology needs.

# SW\_1 Collaborative and Conference Tables Low Collaborative Conference Tables

DESIGN SCOTT WILSON & MINIMAL

*Tip: Your specification is not complete until you add the fifth letter to the style number to define top surface.*

- L** - Laminate top
- V** - Wood veneer top
- C** - Corian top
- G** - Glass top

*Tip: Glass tops are not secured to the substructure. Glass tops are placed on rubber pads that are adhered to the substructure. If the glass tables need to be moved, remove the glass top prior to moving the table.*

*Tip: Standard grain direction runs the width of the table (front-to back).*

*Tip: If grommet with wire manager is selected, the finish is not selectable, it will be the same as the substructure finish choice.*

*Tip: Tablets are an optional pick for the 42" and 84" square and 84"L and 120"L rectangular tables only. Tablets are available in black or milk finish.*

# Train Collaborative and Conference Tables

<b>Understanding</b>	<b>404</b>
<b>Specifying</b>	
Rectangular Tables	426
90° Corner Tops	432
Accessories	433

# Train Collaborative and Conference Tables

Train tables are ideal for rapidly changing learning environments. Train tables have tops that flip. Tables nest for compact storage and can be rolled while nested.

**Top** is 1" thick particle board with laminate surface.

**Base** is cast aluminum with powder coat color.

**Casters** are 3" diameter locking dual wheels with urethane threads that allow the tables to move on hard or carpeted floors. Glides are also available.

**Offset leg design** allows tables to nest.

### Dimensions

Table Length (A)	Width Between Inside Legs (B)	Inside Width Between Outside Legs (C)	Outside Width Between Outside Legs (D)
48"L	33 <sup>7</sup> / <sub>8</sub> "	41 <sup>1</sup> / <sub>4</sub> "	45 <sup>1</sup> / <sub>2</sub> "
60"L	45 <sup>7</sup> / <sub>8</sub> "	53 <sup>1</sup> / <sub>4</sub> "	57 <sup>1</sup> / <sub>2</sub> "
72"L	57 <sup>7</sup> / <sub>8</sub> "	65 <sup>1</sup> / <sub>4</sub> "	69 <sup>1</sup> / <sub>2</sub> "

Seating Capacity Guidelines  
 ▶ See page 414.

### Product Details

Solid core tops with 1" nominal edge thickness have a particle board core (45 lb cu ft density) with High-Pressure Laminate and a backer applied to the opposite side for a balanced construction. High-Pressure Laminate and backer are bonded to the core with a PVA adhesive.

Table with top flipped is 24"W. Each additional table adds approximately 10". Three nested tables occupy about 44" of space and by angling can be moved through a standard 36"W doorway. Optional raceway or modesty panels do not affect nesting or space requirements.

Tables when flipped have overall heights of 36<sup>1</sup>/<sub>4</sub>" for 24"W tables and 39<sup>1</sup>/<sub>4</sub>" for 30"W tables.

# Train Collaborative and Conference Tables

**Bumpers and rub strips on legs** prevent tables from damaging each other when nested.

**Base** is cast aluminum with powder coat color. Offset leg design allows tables to nest.

**Table height** is standard at 28½"H.

**Glides** are available as an alternative to casters if high mobility is not required. Glides are cast aluminum with a textured black powder coat. Adjustability range is ½"H. Replacing casters with glides does not alter the table height.

**Coupling device** is built into every Train table to enable tables to gang together end-to-end without tools or separate parts.

**Top** is 1"-thick particle board with laminate.

**Signature edge profile** is standard on Train. This special edge profile is not available on other table products.

**Table bases** are available with powder coat colors. Refer to the individual product specifying pages for availability.

Powder coat colors are shown in the *Coalesse Surface Materials Reference Guide*.

**Casters** are available as a factory-installed option on 3" dual locking caster Train tables.

*Tip: Casters cannot be adjusted to level tables.*

**Edges** are black vinyl. Soft rolled edge on user's side, black vinyl coupler edge on remaining sides, and black injection molded plastic corners. User edge is a soft, sloped profile that is comfortable for resting your arms. All other edges are flat and compress slightly when tables are ganged to produce a perfect seal. Corners are injection-molded plastic.

**Corner tops** can link perpendicular Train tables and expand the useable area in many configurations. Corner tops can also be specified with raceways to match adjacent tables.

*Tip: Tables specified with raceway have the option of a 4-circuit corner raceway, to connect to a powered raceway, if desired. Tables specified with no raceway have the option of the 2-circuit jumper to connect the modular table power kit, if desired.*

**Modesty panel** is available to enclose space beneath table and to provide two 2" x 3" wire management troughs. Panel is extruded aluminum with powder coat color to match the table legs. Trough is plastic extrusion. Modesty panel attaches to stretcher and swings open for access.

*Tip: Desktop devices are located on the outside of the modesty panel and do not cover the underside wires.*

**Raceway** is a combination modesty panel, wire manager, and power/data distribution channel. Panel is extruded aluminum with powder coat color to match the table legs. Access to the space inside the raceway is possible from both sides. Two separate cable routing spaces are available.

The high-capacity lower space accommodates power and home run data cables.

The upper space is used for appliance and patch cords. Removable end caps on raceways snap out to allow unobstructed cable routing.

*Tip: The raceway is only compatible with the 4-circuit electrical system.*

### Custom shapes and sizes

Special table sizes and shapes are possible. To confirm practicality and obtain a quotation, contact Customer Service at 1.800.627.6770.

**Cut-down tops**, which are standard table tops with smaller dimensions, are available. Use the product number of the next larger size and specify the exact dimensions you want. Some restrictions apply, including minimum quantities. This option is not available for folding tables. Additional lead times may be required. Contact Customer Service at 1.800.627.6770.

*Tip: Upcharge for a cut-down top is applied one time only per size/style number.*

*Tip: Fee is at list and contract discounts apply.*

### Laminate

**Woodgrain laminates** are always oriented with the grain direction running parallel with the length of the table top. You cannot specify woodgrain laminates with end- or side-matched grain directions.

## 4-Circuit Power, Data, and Wiring for Raceway

The 4-circuit modular electrical system can be specified with raceways on tables, or you can create a hardwired electrical network on site. Modular electrical units include harnesses with modular connectors to allow them to be snapped together or reconfigured and power blocks to accommodate power receptacles added on site.

Duplex receptacles and power infeeds are ordered separately.

Duplex receptacles snap into power blocks on site. They are coded to indicate which circuit and type of ground they will engage. Tools are not required for installation. Tables that are 48"L can accommodate up to two receptacles. Tables that are 60"L or 72"L can accommodate up to four receptacles.

Power infeeds bring electrical power from the building to any table within a run of tables that are coupled together. Modular connections with the furniture is made at valance panel located at either end of the raceway on the knee-wall side, next to the table leg. Two alternative power infeeds can be used.

Each circuit allows up to a maximum of eight duplex receptacles.

# Train Collaborative and Conference Tables

**Four-circuit, hardwire power infeed** connects to the building with a hardwired connection. Harness connects to the table with a modular connector. Infeed carries four 20-amp circuits. Connection must be made by a qualified electrician in accordance with local codes. A version of this infeed that is approved for use in New York City is also available.

**Four circuit, modular power infeed** connects to the building with a modular connection at both ends. Wall box with modular connection point is hardwired to the building by a qualified electrician in accordance with local codes. Infeed carries four 20-amp circuits.

**Train table electrical power components** are available in various wiring schematics to accommodate a wide range of branch circuit configurations and power needs. The eight-wire system is available in three alternatives—four-circuit 3+1, four-circuit 2+2, and three-circuit separate neutrals.

**All components in an electrical system** must use the same wiring schematic. Components are color coded and keyed to make it impossible to connect mismatched parts.

► See *Wiring Schematics*, page 408

**All Coalesse electrical components** are approved by Underwriters Laboratory (UL) and by the Canadian Standards Association (CSA).

**All Coalesse electrical systems** are designed in compliance with the National Electrical Code (NEC) and Canadian Electrical Code (CEC) to function as a multi-wire branch circuit. Installations should be made in accordance with the NEC or CEC provisions for multi-wire branch circuits.

**Local electrical codes** vary. Consult a qualified electrical contractor or engineer for the proper installation of all electrical equipment.

**Chicago and some other locations** require installation to be hardwired.

**Wire management modesty panel** includes two integral wire management troughs made of 2" x 3" extruded black plastic. Each track accommodates approximately 18 Cat 5 UTP cables or four power cords. The troughs are spaced apart to provide an opportunity to separate power and voice/data networks. Modesty panel is hinged in its center to allow access to the cable routing space from the aisle side of the table.

**Gap between the underside of table top and the top of modesty panel** provides a 1" H space to allow cables to be routed from the worksurface to the cable management troughs. Grommets can also be specified in the table top to route cables.

**Raceway** includes a 3" x 6" interior cavity that can accommodate approximately 40 four-pair UTP cables. Wire guide in this space is a steel bracket with numerous holes suitable for wire ties or clips to support tidy wire management. Raceway end caps have flexible vinyl openings to allow lay-in cable routing. Cables can enter or leave the raceway through openings in the valance panel.

**Outlet rail in the upper portion of the raceway** has an opening to accommodate standard NEMA-style, single-gang, modular furniture voice/data faceplates.

**The Train raceway** can accommodate most industry standard 4-port network switches and patch cords (customer supplied) for easiest reconfiguration of network wired environments. For more static environments, the Train raceway can accommodate up to 40 twisted pair network cables (customer supplied).

**Modular infeeds** to connect to wall-mounted boxes or monuments are also available to connect voice/data access points in the building. ► Page 440

**PODs** are optional power and communication modules that provide convenient access to electrical power and voice/data networks in the tops of Train tables. Hinged plastic cover conceals power and voice/data outlets, which are separated by a steel septum. Two power infeed alternatives are available—plug and hardwire. Like all Coalesse electrical components, PODs are UL and CSA listed.

**Modular POD** is available. The modular POD can only be used with a Train raceway with 4-circuit electrical. The modular POD connects to the power block in place of duplex receptacle. The modular POD has a pivoting head to allow for the proper bend.

# Train Collaborative and Conference Tables *continued*

PODs are centered along the back edge of all Train tables. PODs cannot be installed in Train corner tops.

**Four-circuit, 3+1** also known as 3+D (color-coded black). The fourth circuit is isolated and has its own neutral.

### Circuit Panel 1

### Circuit Panel 2

In the four-circuit, 3+1 schematic, circuits 1, 2, and 3 are distributed from the first circuit panel and are supported with one shared neutral and one shared ground. Circuit 4 is distributed from a second circuit panel and is supported with a separate neutral and ground.

### Single 3-Phase Circuit Panel

On a single 3-phase circuit panel, all four circuits are distributed as shown.

### Four-circuit, 2+2 (product number suffix "Y", color-coded brown).

### Circuit Panel 1

### Circuit Panel 2

In the four-circuit, 2+2 schematic, circuits 1 and 2 are distributed from two different phases from the first circuit panel and are supported with one shared neutral and one shared ground. Circuits 3 and 4 are distributed from a second circuit panel and supported by their own shared neutral and ground.

### Single 3-Phase Circuit Panel

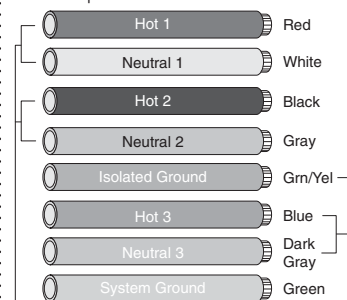

On a single 3-phase circuit panel, all four circuits are distributed as shown.

### Split-Phase Circuit Panel

On a split-phase circuit panel, all four circuits are distributed as shown.

**Three-circuit separate neutrals** (model number suffix "Z" to model number, color-coded rust). Three circuits are each provided with their own neutral wire.

# Train Collaborative and Conference Tables

## Circuit Panel 1

## Circuit Panel 2

In the three-circuit, separate neutral schematic, circuits 1 and 2 are distributed from two different phases from the first circuit panel. Each circuit is supported with its own neutral and a common ground. Circuit 3 is distributed from the second circuit panel and is supported by its own neutral and ground.

## Single 3-Phase Circuit Panel

On a single 3-phase circuit panel, all four circuits are distributed as shown.

## Split-Phase Circuit Panel

On a split-phase circuit panel, all four circuits are distributed as shown.

## Power, Data, and Wiring for 2-Circuit Modular Table Power Kits

### Axil Z

Axil Z is an 8" x 3" desktop module that mounts at the top surface of the table and can be configured in several choices of power/data/USB:

- 2 power/2 data
- 2 power/1 data/1 USB
- 2 power/2 USB
- 3 power/1 data
- 3 power/1 USB
- 4 power

The customer-supplied RJ-type voice/data communication outlets, when specified, come with an array of faceplates to accommodate a range of voice/data communication outlets.

► See *Axil Z and Ellora Telecommunications Reference Chart*, page 422).

Axil Z is available in gloss white or gloss black. Axil Z is UL listed. Axil Z can be used with table top thicknesses of 3/4"–1 1/2" by adjusting the thumb screws that secure the desktop module to the table.

Axil Z cord has a six-foot power cord and standard 15-amp plug for configurations with three or less simplex power outlets. The configuration of four simplex power outlets includes a non-standard 15-amp plug with a circuit breaker.

Axil Z hardware has six feet of flexible steel conduit for permanently hardwiring to the building power supply by a licensed electrician. This is to be used with tables with glides only, no casters. This version is best suited for municipalities where code requires hardwire connections for this type of desktop device or for installations where the furniture will not be reconfigured or moved.

# Train Collaborative and Conference Tables *continued*

## Ellora

Ellora is an 8 1/4" x 5 1/4" desktop module that mounts at the top surface of the table and can be configured in several choices of power/data/USB:

- 2 power/2 data
- 2 power/1 data/1 USB
- 2 power/2 USB
- 3 power/1 data
- 3 power/1 USB
- 4 power

The customer-supplied RJ-type voice/data communication outlets, when specified, come with an array of faceplates to accommodate a range of voice/data communication outlets.

► See *Axil Z and Ellora Telecommunications Reference Chart*, page 422).

Ellora is available in anodized aluminum and is standard with a lift-up access door. Ellora is UL listed. Ellora can be used with table top thicknesses of 3/4"–1 1/2" by attaching the clips that secure the desktop module to the table.

Ellora cord has a six-foot power cord and standard 15-amp plug for configurations with three or less simplex power outlets. The configuration of four simplex power outlets includes a non-standard 15-amp plug with a circuit breaker.

Ellora hardwire has six feet of flexible steel conduit for permanently hardwiring to the building power supply by a licensed electrician. This is to be used with tables with glides only, no casters. This version is best suited for municipalities where code requires hardwire connections for this type of desktop device or for installations where the furniture will not be reconfigured or moved.

In order to meet Chicago code approvals, the desktop module must be metal, therefore, only Axil Z, Ellora, and Interact would be approved.

For Axil Z and Ellora, the USB for charging option is configured in the spot of one data port and is always configured on the end(s). It contains two USB ports for charging.

Modular furniture faceplates to accept voice/data outlets are available directly from many suppliers. Coalesse does not supply these components. For information about compatibility, contact the manufacturers: Amp 1.800.522.6752. Ask for Flexmode modular furniture faceplates and outlets. Krone 1.800.775.5766. Ask for Convergence modular furniture faceplates and outlets. Panduit 1.800.777.3300. Ask for Mini-Com modular furniture faceplates and outlets.

Factory installed cutouts are available as standard option for Train tables (see location guide for placement). For the top to have a factory installed cutout on Train, you must specify the option, where applicable, otherwise the table will be shipped without a cutout.

Field installed cutouts are ordered separately, not as an option, therefore, the table top will not have a cutout and must be cut in the field per the required locations.

► See *Standard Location for Grammets, Spheres, Interport, Mini-Port, Interact, Axil Z, and Ellora*, page 414.

When several Train tables without raceways need to be daisy-chained, i.e., one table connected to the other providing power to the entire series, the 2-circuit modular table power kits are mounted to the underside of the Train tables without raceways. It is an option to select either one duplex receptacle or two duplex receptacles, depending on the table to connect power from one table to the next.

► See *Modular Power Kit Lengths*, page 418.

The installation of the modular table power system must be followed in accordance with all assembly directions. Improper usage could result in risk of fire or electric shock. Only connect to products labeled "Modular Table Power System". For use in indoor, dry locations only.

The modular table power system is a directional system in that it runs in one direction. Installation can be set-up to run left-to-right, or right-to-left, depending on the location of the base power infeed. This is ideal where modularity and reconfigurability are required with the number of connections to the building power supply being minimized.

The directional modular power kit consists of one "male" modular connector and one "female" modular connector allowing the only way to connect and the power system. The modular connectors snap together, and easily disengage by squeezing the spring clips on the female end. The modular connectors are designed for easy end-user reconfigurations.

# Train Collaborative and Conference Tables

## Male Modular Connector

## Female Modular Connector

The modular connectors are color-coded for intuitive match-up when connecting the modular table power system. Match like colors only, i.e., green to green, red to red, black to black, and white to white.

The 2-circuit modular table power kits are easily installed into pre-drilled holes in the Train table and are placed end-to-end with the duplex receptacle(s) in the middle. The modular power kit connectors are easily accessible and always in the same location. The optional power kit is available with either a one or two duplex receptacles and comes with all the necessary hardware, i.e., conduit clamps, receptacle bracket(s), and conduit plastic snap clips. Just specify the modular table power kit to match the length of your table.

*Tip: The 2-circuit modular table power kit can only be specified on Train tables without raceways.*

Axil Z

Ellora

Only corded desktop modules can be used with the modular table power kits. The hardwire Axil Z or Ellora desktop module does not work with modular table power kits.

Modular table power kits require either a 20-amp plug infeed or hardwire infeed to power the tables. A 20-amp plug infeed with a modular female connector can only be used with Circuit-1 receptacles, whereas, the hardwire infeed with a modular female connector can be used with either or both, Circuit-1 and Circuit-2 receptacles.

The 20-amp plug infeed, COBP1FMP20, is used when reconfigurability is needed and does not require an electrician. When the installation is permanent or local electrical codes are restrictive, a hardwire base power infeed, COBP1FMH, is available. This requires the tables to be specified with glides, not casters. This infeed must be installed by a licensed electrician in compliance with all local and national codes.

A tether/strain relief bracket comes standard with all base power infeeds. The first table in a series of tables connected with modular power, must be anchored in place with the tether. The tether anchors the table to the building, preventing disengagement of the electrical connections. The tether length between the connection to the table and the building must always be shorter than the hardwire infeed length between the modular connection and the building. Consult the assembly directions for proper installation.

# Train Collaborative and Conference Tables *continued*

The modular table power kit is a 20-amp, 4-wire, 2-circuit system. Each circuit allows up to 13 duplex receptacles. The 20-amp plug infeed only allows up to 13 Circuit-1 duplex receptacles, and the hardwire infeed allows up to 26 Circuit-1 and -2 duplex receptacles, no more than 13 per circuit.

The duplex receptacle(s) in the table power kit and every two simplex receptacles from the desktop module count against the 13 duplex receptacles allowed for each circuit. The above example has a total of nine duplex receptacles being utilized.

A coupling device is built into every Train Table to enable tables to gang together end-to-end without tools or separate parts. All Train tables that have modular table power specified, requires the tables to be connected with the coupling device provided.

**Table-Table:** must be held together with table connection hardware, not by electrical components.

**Table-Power In-Feed:** table must be anchored in place.

1. Identify the conduit path along the center channel. Utilize predrilled holes in the surface for all components. *Note: Conduit on 24"W Tables will "jump" the center spine (as shown). Conduit on 30"W tables will be located to the rear of the center spine.*
2. Fasten receptacle bracket and snap-clips, then loosely fasten conduit clamps. Install power in the desired direction and tighten clamps.

In back-to-back applications, where modesty panels are used, the modesty panel will prevent the modular power kits from connecting. Therefore, another infeed will be required for the adjacent row of tables.

# Train Collaborative and Conference Tables

## Specifying desktop power with modular table power kits.

*Tip: Grommets can be mixed with desktop modules on a single table.*

### 1. Determine the type of desktop module required and its configuration.

Choose among grommets and desktop modules, such as, POD, Axil Z, or Ellora, and pick the one that fits the configuration requirements needed.

### 2. Determine how many desktop modules or grommets you need and where they will be located on each table.

Understand the number of people sitting at the table with the requirements between power, data, and USB along with where the desktop modules are located, one in the center and two in left and right position for individual or shared use.

▶ See *Standard Grommet/POD/Axil Z/Ellora Locations for Train Rectangle Tables*, page 416.

### 3. Table length determines your modular table power length required.

If modular connections are required, then a modular table power kit is required. Choose between one duplex receptacle or two duplex receptacles, depending on the plug-in needs.

▶ See *Modular Power Kit Lengths*, page 418.

### 4. Determine how to connect to the building supply, code requirements, and user needs.

The most important consideration is adequate electrical power supplied to a number of desktop modules fed by a single base power infeed. If reconfiguration is desired and smaller configurations are required, then a single circuit 20-amp plug infeed is the best option. If larger configurations are required and the tables are not being reconfigured, then a hardwire infeed is the best option. Each circuit allows up to 13 duplex receptacles to be connected which includes desktop modules. Every two desktop simplex outlets count as one duplex receptacle. A two-power desktop module counts as one duplex receptacle, a three-power desktop module counts as one duplex receptacle and a four-power desktop module counts as two duplex receptacles.

Straight and Corner layouts for Train.

**Power strip** is available to provide additional power outlets beneath tables that must accommodate many technological components. Power strip includes six 15-amp outlets with surge protection, on-off switch, and 15' cord with three-prong plug. Power strip is black. UL and CSA listed and tested to UL standard 1449 at 400V.

**Power Pod** is a design conscious, portable power source and accessory tray all in one. It can be used on any table top for easy access to power.

**Power Pod** includes six 15-amp outlets with an energy saving illuminated on/off switch. It comes with a 6' cord with three prong plug. The top tray is milk and the power source is silver with a milk face. It is UL and CSA listed.

**Grommets** are available in the tops of Train tables to allow cords and cables to be routed through the top and into the modesty panel or raceway. Grommet is 2"-diameter, black plastic insert with snap-up cap.

## Surface Materials

**Laminates** are available in two standard grades. Additional laminates from any manufacturer may also be practical—see Other laminates in the following column.

### Grade 1 laminates include:

- Coalesse standard High-Pressure Laminates
- ▶ See *Coalesse Surface Materials Reference Guide*.
- Steelcase standard High-Pressure Laminates (code 290A)
- ▶ See *Steelcase Surface Materials Reference Manual*.
- Any standard-grade Wilsonart High-Pressure Laminate in solid color, woodgrain, or pattern finish (code 290A)

**Grade 2 laminates** (code 290B) include any standard-grade, solid color, woodgrain, or patterned High-Pressure Laminate from Nevamar (includes Matrix), Formica, or Pionite. Grade 2 laminates may have extended lead times. For details, contact Customer Service at 1.800.627.6770.

**Other laminates** that are not included in the Grade 1 or Grade 2 offerings may also be available, such as Abet Laminati and Laminart. To determine availability and pricing, contact Customer Service at 1.800.627.6770, with the laminate manufacturer's name and the name and number of the laminate you want.

**Laminate swatches** are reproduced in the *Coalesse Surface Materials Reference Guide*.

**Swatch cards and actual samples of Coalesse standard laminates** are available from your Coalesse Customer Service representative. For samples of High-Pressure Laminates from other manufacturers, contact them directly:

Wilsonart	1.800.433.3222
Nevamar	1.800.638.4380
Formica	1.800.FORMICA
Pionite	1.800.285.5161

*Tip: Laminate manufacturers change their offerings frequently. Always check availability before ordering.*

72"	30"	4

## Care & Maintenance

**Laminate** should be cleaned with soap and water. For stubborn stains, use a non-abrasive household cleaner.

**Powder coat finishes on table bases** should be cleaned with a liquid detergent and water. Remove stubborn stains with liquid cleanser, such as Formula 409.

**Polished aluminum finishes on table bases** should be cleaned with a commercial powder, liquid, or paste metal cleaner and polish. Follow the manufacturer's directions.

**Tables** should be inspected and maintained regularly by tightening screws and bolts, inspecting casters and glides for damage, and inspecting all moving parts for damage and wear.

Specify with <i>one center Axil Z cord with four power</i> and select color number.

► Options, continued on next page

Tip: All electrical system components (raceways, receptacles, base power infeeds, etc.) must be the same wiring schematic.

Tip: Raceway has access doors on both aisle and kneewell sides.

Tip: Modular connector occupies one receptacle location in raceway.

Tip: Raceway is only compatible with the 4-circuit electrical system.

Tip: For Axil Z and Ellora, the USB for charging is configured in the spot of one data port and is always configured on the end(s).

Tip: For each USB port specified, there are two USBs per port.

Tip: The hardwire or modular POD, hardwire Axil Z, or hardwire Ellora desktop module does not work with modular table power kits.

Tip: If a modesty panel is ordered with a desktop device or grommet, the cords or the bottom of the desktop device will be on the outside of the modesty panel.

**For Canadian Pricing**  
Multiply U.S. Price by the Canadian price factor.  
► See page 1 for details.

# Train Collaborative and Conference Tables 90° Corner Tops

DESIGN VECTA DESIGN TEAM AND IDEO

Tip: Shipped knocked down.

Tip: All electrical system components (raceways, receptacles, base power infeeds, etc.) must be the same wiring schematic: 3+1, 2+2, or three-circuit, separate neutrals.

Tip: When using modular table power kits and connecting tops, a jumper kit must be specified for the corner, in order to maintain the power connection from table to table.

Tip: The modular table power jumper kit is a 2-circuit system and is not compatible with the 4-circuit electrical in the raceway. The connectors are also not compatible.

## Axil Z, Cord

*Tip: The Axil Z desktop module will ship with instructions and a hole cutout template for field installation, if needed.*

*Tip: For a factory installed cutout in the table top, specify Mini-Port as an option for Train. If you do not specify Mini-Port as an option, where applicable, the table top will require a field installed cutout. See Standard Grommet/POD/Axil Z/Ellora Locations for Train Rectangle Tables, page 414. For any other tables, other than Train, that require a Mini-Port desktop module, a special engineering quote is mandatory if you require a factory installed cutout in a location other than standard, send us a drawing with measurements indicating the exact location(s) required in the table top.*

*Tip: USB for charging is configured in the spot of one data port and is always configured on the end(s).*

*Tip: For each USB port specified, there are two USBs per port.*

Standard Includes	Required to Specify

<b>Mho Power Module for Enea Twin Base Tables</b>	<b>466</b>
<b>Enea Lottus Café Tables*</b>	<b>467</b>
<b>Montara650 Café Tables*</b>	<b>470</b>

## Au Lait Café Tables

Au Lait tables can be either fixed or flip-top. Flip-top tables have an exclusive nesting base and folding mechanism that provides flexibility to move and store tables for changing meeting and cafeteria functions. This table series is available in two top constructions with three heights, three table shapes, and fixed versions.

Flip top mechanism is steel and glass reinforced nylon with a black finish.

Casters are 2<sup>3</sup>/<sub>8</sub>" diameter, locking dual wheels that allow the tables to move easily on carpeted or hard floors. Glides are available as an alternative to casters if high mobility is not required.

1/4" thick particle board core top is available in laminate.

Column is 2 1/2" diameter steel tube, painted the same color as the base.

# Au Lait Café Tables

## Product Details

**1/4"-thick particle board core top** is available in High-Pressure Laminate surface with three edge selections. Tops have a backing sheet for balanced construction. ▶ See pages 448–458 for pricing of tables with this top in laminate.

**Solid core tops with 1/4" nominal edge thickness** have a particle board core (45 lb cu ft density) with laminate on the top and a backer applied to the opposite side for a balanced construction. Laminate and backer are bonded to the core with a PVA adhesive.

**Laminate tops** are available with the following edge profiles: convex vinyl edge or cast urethane edge.

**Convex vinyl edge** is available in four colors: 6000 Black, 6655 Warm White, 6609 Smoke, or 6607 Woodrose.

**Cast urethane edge** is available in four colors: 6000 Black, 6607 Woodrose, 6609 Smoke, or 6655 Warm White.

**Corner radius on square and rectangular tops** is determined by the edge profile selection:

- Convex vinyl edge: 2" radius corners
- Cast urethane edge: 3/4" radius corners

**Table height** is available in three heights:

- Standard height, 28 1/2"
- ADA height, 33"
- Café height, 42"

**Flip-top mechanism** is steel and glass-reinforced nylon with a black finish. The release handle is a chrome-plated formed rod with a clear vinyl bumper. The bumper prevents tables from damaging each other when nested. The flip mechanism is available on selected tops.

**Fixed top spider** is formed steel with a black finish. The spider is available on all sizes, shapes, and heights.

**Column** is a 2 1/2"-diameter steel tube with a 3/32" thick wall. The column is always painted the same color as the base.

**Casters** are 2 3/8" diameter, locking dual wheels that allow the tables to move easily on carpeted or hard floors.

**Glides** are available as an alternative to casters if high mobility is not required. Glides are black injection molded plastic. Adjustability range is 1/2"H.

**Casters and glides** are the same height, are interchangeable and can be used together on the same table.

*Tip: Casters cannot be adjusted to compensate for uneven floors. Glides should be specified if leveling one top with another is required, but frequent adjustment to glides may be required if tables are moved.*

*Tip: Au Lait tables placed side by side may not align perfectly. Adjusting the glides can improve alignment, but frequent adjustment may be required. Casters cannot be adjusted to level tables.*

**Nesting Au Lait flip-top tables** can nest for movement and storage. Bases slide under one another. A vinyl bumper on the flip-top mechanism handle prevents the flipped table top from damaging when nested. Tables can be nested indefinitely. It is recommended that no more than three nested tables on casters be moved at one time.

**Table with top flipped** is 30"W with a 28"W base and 39"W with a 37"W base. Each additional table adds approximately 9". Three nested 28"W base tables occupy about 48" of space. Three 37"W base tables occupy about 57" of space.

*Tip: The base dimensions shown include casters oriented as shown, are accurate for storage purposes, but do not match the single base dimensions.*

▶ See page 447 for nesting dimensions on page.

**Special table sizes and shapes** are possible. To confirm practicality and obtain a quotation, contact Customer Service at 1.800.627.6770.

**Cut-down tops**, which are standard table tops with smaller dimensions, are available. Use the style number of the next larger size and specify the exact dimensions you want. Some restrictions apply, including minimum quantities. This option is not available for folding tables. Additional lead times may be required. Contact Customer Service at 1.800.627.6770.

*Tip: Upcharge for a cut-down top is applied one time only per size/style number.*

*Tip: Fee is at list and contract discounts apply.*

## Laminate Woodgrain Direction

**Woodgrain laminates** are always oriented with the grain direction running parallel with the length of the table top. You cannot specify woodgrain laminates with end- or side-matched grain directions.

# Au Lait Café Tables

## Surface Materials

Laminates are available in two standard grades. Additional laminates from any manufacturer may also be practical—see other laminates below.

### Grade 1 laminates include:

- Coalesse standard High-Pressure Laminate

▶ See *Coalesse Surface Materials Reference Guide*.

- Steelcase standard High-Pressure Laminate (code 290A)

▶ See *Steelcase Surface Materials Reference Manual*.

- Any standard-grade Wilsonart High-Pressure Laminate in solid color, woodgrain, or pattern finish (code 290A)

### Grade 2 laminates (code 290B)

include any standard-grade, solid color, woodgrain, or patterned High-Pressure Laminate from Nevamar (includes Matrix), Formica, or Pionite. Grade 2 laminates may have extended lead times. For details, contact Customer Service at 1.800.627.6770.

**Other laminates that are not included in the Grade 1 or Grade 2 offerings may also be available, such as Abet Laminati and Laminart.** To determine availability and pricing, contact Customer Service at 1.800.627.6770, with the laminate manufacturer's name and the name and number of the laminate you want.

**Laminate swatches** are reproduced in the *Coalesse Surface Materials Reference Guide*.

**Swatch cards and actual samples of Coalesse standard laminates** are available from your Coalesse Customer Service representative. For samples of High-Pressure Laminates from other manufacturers, contact them directly:  
 Wilsonart  
 1.800.433.3222  
 Nevamar  
 1.800.638.4380  
 Formica  
 1.800.FORMICA  
 Pionite  
 1.800.285.5161  
*Tip: Laminate manufacturers change their offerings frequently. Always check availability before ordering.*

## Care & Maintenance

**Laminate** should be cleaned with soap and water. For stubborn stains, use a non-abrasive household cleaner.

**Powder coat finishes on table bases** should be cleaned with a liquid detergent and water. Remove stubborn stains with liquid cleanser, such as Formula 409.

**Polished aluminum finishes on table bases** should be cleaned with a commercial powder, liquid, or paste metal cleaner and polish. Follow the manufacturer's directions.

**Tables** should be inspected and maintained regularly by tightening screws and bolts, inspecting casters and glides for damage, and inspecting all moving parts for damage and wear.

## Seating Capacity Guidelines

Depth	Width	Approximate Capacity
-------	-------	----------------------

### Round Tops

# Montara650 Café Tables

DESIGN COALESSE DESIGN STUDIO

**Montara650** is a comprehensive collection that offers a simple, refined design that can be customized to support a range of applications, postures, and aesthetics.

*Tip: This product line is a collection and will be found in multiple locations, either in this specification guide and/or another specification guide.*

► See *Collections*, page 5

**Top** is available in laminate with a 3 mm plastic edge or wood veneer with matching 3 mm edge.

**Power Pod grommet** is an option on most table sizes.

**Base** is available in powder coat paint and optional Lux Coatings.

**Cord management** is routed through the column and exits at the base. Clearance is 1/2".

**Glides** are non-adjustable.

## Product Details

Round

Square

Rectangular

**Base shape** matches top shape. Round tops have round bases. Square and rectangular tops have square bases.

**Tables** are standard with a knife edge profile that has the appearance of a 1/2" thick top, which tapers to an overall top thickness of 1 1/8".

**Tops** with a laminate surface have 3 mm plastic edge and finish selection. Wood veneer tops have a matching 3 mm edge.

# Montara650 Café Tables

DESIGN COALESSE DESIGN STUDIO

**Table heights** include occasional, work, and café. Café style tables are offered in counter and bar heights.

**Occasional Height**  
► Specifying, page 512

**Café at Work Height**  
► Specifying, page 472

**Café at Counter Height**  
► Specifying, page 474

**Café at Bar Height**  
► Specifying, page 474

**The Power Pod grommet** is an option for the following tables:

- 30" and larger occasional tables
- 36" and larger work and café height tables
- Large rectangular tops have the option of one or two grommets, located on table end(s).

**The grommet** allows for pass through of cords and cables at the desktop. The grommet is open to allow for the Power Pod to be housed over or stored on the table. The grommet inside dimension is 3 1/2" and outside dimension is 5 1/16".

**Cords** can be routed from the grommet in the desktop through the column and out the base.

*Tip: If table is over a floor core, the floor core must be recessed or flush to the floor and must be centered over the column.*

# Bix Occasional Tables

DESIGN METRO DESIGN GROUP

Bix creates "lounge-based" worksettings that host teams and technology in comfort. A refined system of seating and tables that includes convenient connections to power, voice, and data - the essential elements to support conversation and collaborative work.

*Tip: This product line is part of a collection and will be found in multiple locations in this specification guide and/or Coalesse Seating and Outdoor Specification Guide.*

► See *Collections*, page 5

**Top** is available in bronco onyx vinyl.

**Column cover** is available in bronco onyx vinyl.

**Tripod base** is available in powder coat finishes.

**Occasional table shapes** are offered in round, square, or rectangular. Tops are available in laminate or wood veneer.

**The base** is an 18" diameter, round disc that is 5/8" in thickness. The round and square tables come standard with one base, while the rectangular tables come standard with two bases.

# Bix Occasional Tables

DESIGN METRO DESIGN GROUP

## Product Details

**Side table** offers a freestanding, mobile tablet surface. The tripod base allows it to be positioned close to a seating unit. The top is available in vinyl.

**Occasional tables** are freestanding 18"H tables that can be used with a variety of lounge applications. They are available with a round, square, or rectangular top. The tops are available with or without a grommet and an optional power, voice, and data module.

**Occasional tables** are available with a factory-installed grommet located over each column and base to allow cords and cables to pass through the top. A power, voice, and data module can be inserted in each grommet location.

The worksurface cutout for the grommet and PVD is 3 1/2" in diameter.

**Column and base of occasional tables** are used to route and conceal cords. The cords pass through the worksurface down through the column and out through a mouse hole in the base plate. Bases may be installed with the mouse hole facing in any of four directions, depending upon where cords need to exit for access to power/data/voice in the wall or floor. Cords should be routed through the concealed channels and out the mouse hole during the installation of the table base.

**Hole at the top of each column** allows cords to be routed between tables directly below the worksurfaces. Wire management clips are included for routing purposes.

**Power, voice, and data module** can be installed in the grommet locations to bring power and communication to the worksurface. Each module is equipped with two 110 volt electrical outlets and one snap-in voice/data module insert consisting of dual CAT 5 RJ45 universal T568A/B jacks. It is UL listed and CSA certified. It has a 6' power cord. For additional data/voice outlet options, please contact Metro Customer Service at 1.800.627.6770.

**Hardwired applications** require on-site modifications by a licensed electrician following all local electrical code requirements.

*Tip: The base will accommodate a 3/8" diameter flex-conduit.*

# CG\_1 Occasional Tables

DESIGN CORY GROSSER DESIGN ORIGIN: UNITED STATES

The CG\_1 occasional table is an iconic, modern table that fits anywhere.

**Frame** is constructed with oak, walnut, or painted aluminum and features four tapered legs, reinforced with concealed steel bracing.

**Glides** are non-adjustable and are a part of the insert of solid wood or solid surface. Felt glides for use on non-carpeted surfaces are shipped as standard.

**Top** is a flush, 1/2" thick insert and is available in laminate, wood, back painted glass, or solid surface.

**Inside leg inserts** are available in multiple colors and solid woods with wood or metal frames, creating a unique aesthetic.

## Product Details

**Tables** are available in two heights: 14"H and 19"H. 14"H tables are available in the following widths: 36"D x 36"W, 42"D x 42"W, 60"D x 60"W, 18"D x 36"W, and 18"D x 42"W. 19"H tables are available as 20"D x 20"W, 24"D x 24"W, and 24"D x 36"W.

**Tapered legs** consist of an inner and outer piece. The inner piece is comprised of a contrasting solid surface material or solid wood, which wraps around the bottom to provide a glide. The outer piece is part of the frame that is offered in painted aluminum or wood veneer.

# CH008 Coffee Table

DESIGN HANS WEGNER DESIGN ORIGIN: DENMARK, 1954

The CH008 coffee table, designed by Hans Wegner, is simple and elegant. Solid wood is used for all surfaces, including the support elements. It is available in oak, walnut, or beech and is ideal alongside lounges and easy chairs, or as the centerpiece for a gathering of chairs.

*Tip: This product line is part of a collection and will be found in multiple locations in this specification guide and/or Coalesse Seating and Outdoor Specification Guide.*

► See *Collections*, page 5

Tables are available in three diameters and two heights.

Solid wood construction on all surfaces, including the support elements.

## Product Details

Coffee tables are available in three round sizes: 30", 34½", and 39¼" diameters. Two heights are available: 17¾"H and 20½"H.

## Surface Materials

► See *Coalesse Surface Materials Reference Guide* for further information.

# Diekman Occasional Tables

DESIGN NORMAN DIEKMAN DESIGN ORIGIN: UNITED STATES

Diekman offers an assortment of accent tables to be used alone or as a base for glass tops. Abstract art was Norman Diekman's inspiration for this collection.

Glass top models consist of two Diekman wood bases and 1/2" thick elliptical or rectangular glass top.

Bases are hard maple veneer.

Glides are polyethylene and non-adjustable to protect floors.

## Product Details

Tables are offered in multiple "half-cylinder" organic shapes which resemble tree trunks, in hard maple veneer. Glass top models consist of two wood bases with radiused edges. Clear, plastic buttons separate the glass from the table base.

## Surface Materials

► See *Coalesse Surface Materials Reference Guide* for further information.

### Base

- Maple

### Glass top

- Clear

# Enea Lottus Occasional Tables

DESIGN LIEVORE ALTHERR MOLINA DESIGN ORIGIN: SPAIN

The Enea Lottus collection is suitable for many applications including meeting spaces, cafeterias, and more. It brings a simple and clean design aesthetic to live/work settings.

*Tip: This product line is part of a collection and will be found in multiple locations in this specification guide and/or Coalesse Seating and Outdoor Specification Guide.*

► See *Collections*, page 5

Table tops are available in three sizes in 1/2" thick laminate or wood.

Base and column is constructed of steel and is available in powder coat finishes.

Glides are non-skid.

The Enea collection also features visually compatible guest seating and stools.

► See *Coalesse Seating and Outdoor Specification Guide*.

## Product Details

Occasional tables are 18"H and are available in three top sizes: 30", 36", and 42" diameter with 1/2" thick phenolic core and beveled bottom edge. Column is 2 5/8" diameter steel tubing. Disc base is 1/4" thick plate.

## Surface Materials

► See *Coalesse Surface Materials Reference Guide* for further information.

### Base and column

- Powder coated paint

### Top

- Laminate
- Maple veneer

# Free Stand Occasional Table

DESIGN STEPHEN COPELAND DESIGN ORIGIN: UNITED STATES

**Free Stand** is foldable, height-adjustable, and lightweight. The generous work-surface rotates to fit the style of the user. A built-in handle makes it easy to carry.

**Worksurface height** adjusts from 20"–27" using spring-loaded triggers.

**Worksurface** rotates 360° with soft detent stops at the parallel positions.

**Base** is cast aluminum with four glides.

## Product Details

**Worksurface** is ABS plastic and painted with a soft touch paint which provides a soft, rubber-like texture. Column is made up of telescoping aluminum extrusions with a built-in handle, allowing ease of mobility. The u-shape of the base allows for maximum user foot space and easy maneuverability around chair bases.

**Lightweight design** allows for ease of portability; weighs 11 pounds.

**Worksurface** is height adjustable to 22 possible height increments. No tools are required to fold/unfold unit or make height adjustments through the use of spring loaded triggers. Folds to 5" high for easy storage.

**Nesting capabilities** minimize required storage space. Each nested unit extends 5¼" beyond the previous unit.

## Surface Materials

► See *Coalesse Surface Materials Reference Guide* for further information.

### Tablet top

- Black, soft-touch

### Column

- Black paint only

### Base

- Black plastic only

# Free Stand Occasional Table

DESIGN STEPHEN COPELAND DESIGN ORIGIN: UNITED STATES

*Tip: Worksurface height adjusts from 20"–27" and rotates 360°.*

*Tip: Free stand is 5" tall when folded/collapsed and weighs 11 lb.*

*Tip: Free stand can nest. In nested position each additional unit extends 5 1/4" beyond the previous unit.*

# Sebastopol Occasional Tables Thought Starters

DESIGN EMILIA BORGTHORSDDOTTIR DESIGN ORIGIN: UNITED STATES

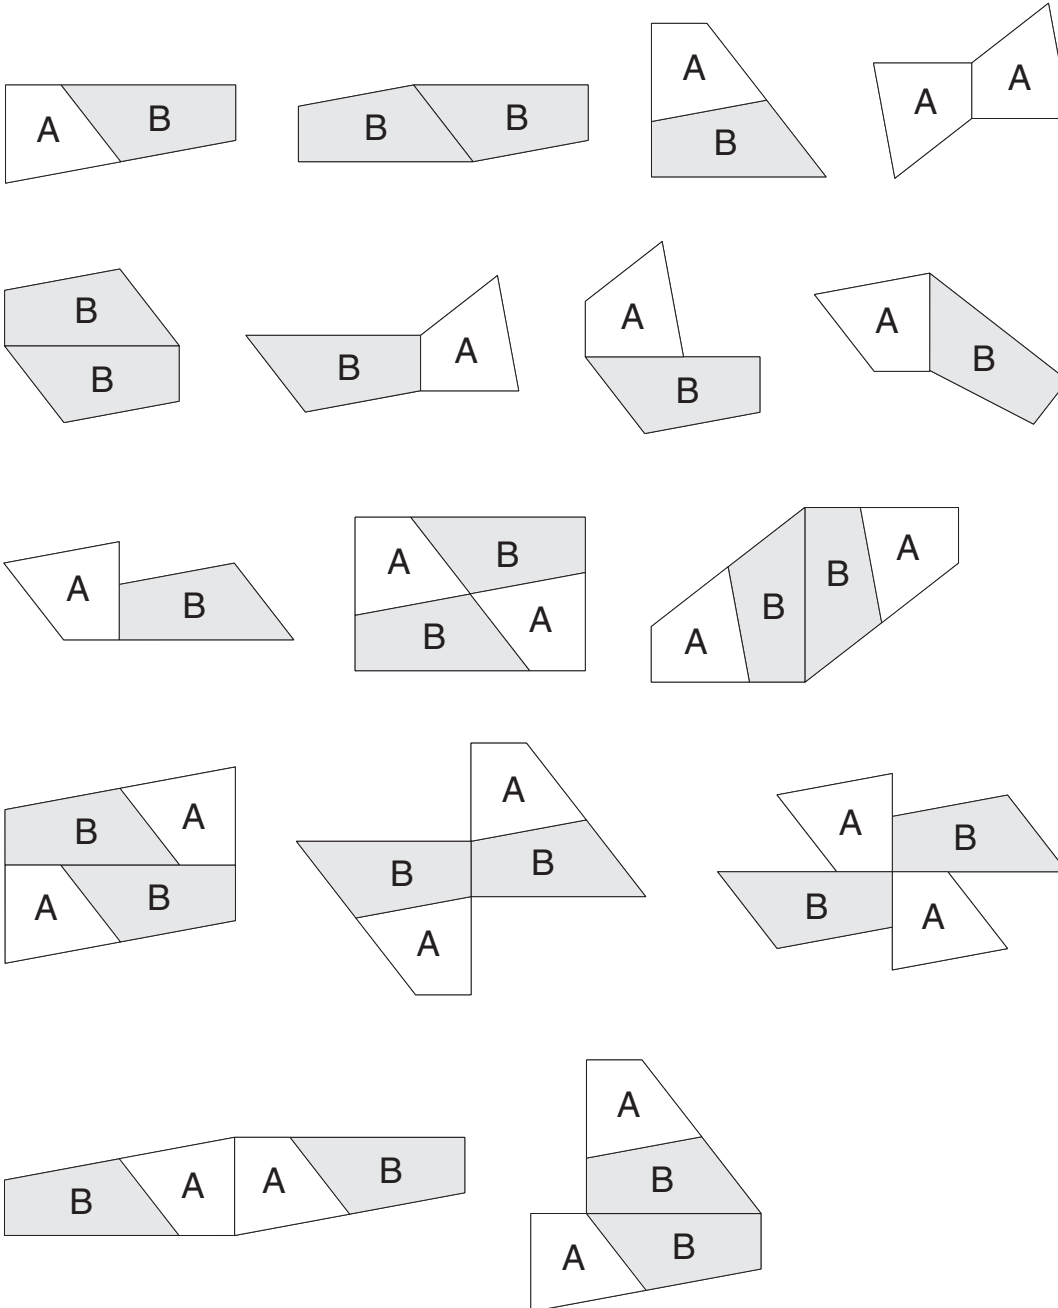

**Sebastopol** is a unique collection of tables with endless configuration possibilities. It comprises of 2 shapes, each shape being offered in a 16" high and 22" high version. The following are just a few thought starters.

To create these table configurations use the following pieces labeled either A or B in any combination of the two heights, or use them on their own as a stand alone piece.

Shape A:  
COEB2723 L or H

Shape B:  
COEB4118 L or H

# Sebastopol Occasional Tables

DESIGN EMILIA BORGTHORSDDOTTIR DESIGN ORIGIN: UNITED STATES

*Tip: Optional grommet to accept Power Pod can be specified in milk white or black plastic.*

*Tip: If a grommet is specified with a Power Pod and the table is over a floor core, the floor core outlet cannot be flush to the floor, because the plug end will not allow the Power Pod to sit in the grommet. If the floor core is flush to the floor and the grommet and Power Pod are required, the table either cannot be set over the floor core, or a special plinth base will be required. Consult your specials representative for additional information on the plinth base.*

# Sebastopol Occasional Tables Power Pod

DESIGN EMILIA BORGHORSDOTTIR DESIGN ORIGIN: UNITED STATES

With grommet

With grommet and Power Pod

*Tip: Leveling glides can be adjusted so that the bottom surface of the table can be anywhere from 5/8" to 1" off of the floor.*

*Tip: The Power Pod cord will exit out the bottom of the table.*

*Tip: If a grommet is specified with a Power Pod and the table is over a floor core, the floor core outlet cannot be flush to the floor, because the plug end will not allow the Power Pod to sit in the grommet. If the floor core is flush to the floor and the grommet and Power Pod are required, the table either cannot be set over the floor core, or a special plinth base will be required. Consult your special representative for additional information on the plinth base.*

## Standard Includes

- Power Pod with 6' and three prong plug: silver bottom cradle and milk face
- Accessory tray: milk
- Six 15-amp power outlets
- Illuminated on/off button
- Surge suppressor

Denizen Credenza

# Denizen Wardrobe Storage and Cube Towers

DESIGN WILLIAMS SOREL DESIGN ORIGIN: 2009 UNITED STATES

A range of residentially inspired storage elements that support conventional storage requirements and personal display are available.

*Tip: This product line is a collection and will be found in more than one location in this specification guide.*

► See Collections, page 5

**Doors** are standard with soft-close hinges and accommodates books, binders or other miscellaneous items.

**Box drawers** accommodate miscellaneous items and bento boxes.

**File drawer** accommodates letter-size filing.

**Legs** are non-handed.

Miter top edges

Wardrobe area for storage of coats, boots, and other miscellaneous items.

Legs and frame come in powder coat paint or brushed nickel. Legs have adjustable glides.

# Denizen Wardrobe Storage and Cube Towers

DESIGN WILLIAMS SOREL DESIGN ORIGIN: 2009 UNITED STATES

## Product Details

**Storage and towers provide** supplementary freestanding storage capacity when needed.

**Towers** come in four and six cube designs.

**Towers** are standard with one set of box drawers and one bottom file drawer. All other openings on cube towers are doors.

**Towers** provide display for personalization.

## Surface Materials

### Wood

- Rift Cut Oak, Low Sheen
- Quarter Cut Cherry, Low Sheen
- Quarter Cut Grey Ash, Low Sheen
- Quarter Cut Maple, Low Sheen
- Quarter Cut Teak, Low Sheen
- Quarter Cut Walnut, Low Sheen

### Paint

Standard specifiable powder coat options:

- 4138 Graphite Gloss
- 4142 Platinum Gloss
- 4144 Black Gloss
- 4147 Champagne Gloss

### Metal

- 9238 Brushed Nickel

## Dimensions

### Storage Cabinet

Standard with three (¾"H) adjustable shelves

20 holes on 2" centers

First hole from bottom starts at 6¾"

First hole from top starts at 8½"

11⅞"D x 33¼"W x 53¼"H interior dimension

### Cube open space

12"D x 17"W x 13⅝"H (outer)

12"D x 16¼"W x 13⅝"H (inner)

### Cube door interior

12"D x 16⅜"W x 12"H

# Denizen Wardrobe Storage Tower

DESIGN WILLIAMS SOREL DESIGN ORIGIN: 2009 UNITED STATES

Tip: Ships ready-to-assemble (legs). Legs come unassembled and are shipped folded at bottom.

Tip: Glides have 3/4" adjustment.

# Denizen Bento Box

DESIGN WILLIAMS SOREL DESIGN ORIGIN: 2009 UNITED STATES

Denizen Bento Box

# Exponents Benches

The Exponents collection offers holistic solutions for collaboration in conference rooms, enclaves, and open space settings. It is a flexible platform for addressing functional and aesthetic requirements in a single, comprehensive offering. Benches allow for additional perimeter "overflow" seating and storage for conference room settings which maximizes the use of the real estate. Benches can also be used in open plan settings for short term collaborative settings.

*Tip: This product line is a collection and will be found in more than one location in this specification guide.*

► See Collections, page 5

**Top cushion** is standard on all benches. The seat cushion is available in fabric and leather upholstery.

**Metal leg bases** are standard with adjustable glides. The legs are painted and are available in black matte or platinum matte paint.

**Back panel** is standard unfinished. An optional finished back panel is available.

**Doors** open downward 90° utilizing self opening hinges with a soft close catch. Optional door locks are also available.

**Accent ribbon detail** is on the perimeter of the bench front openings and is offered in paint or wood veneer.

# Exponents Benches

## Product Details

The bench is available in three widths, two depths, and one height: 48"W, 72"W, or 96"W x 18"D (no doors) or 18¾"D (with doors) x 16½"H.

The benches are available in painted MDF or wood veneer. The door fronts, if selected, can be specified in a different finish from the case.

All benches are standard only with a top cushion which is approximately 1⅞" thick.

The doors are opened from the top. The ½" gap created by the accent ribbon detail allows for a clean, uninterrupted aesthetic.

The benches always have an inner ¾" divider. The 48"W bench has one divider creating two separate compartments, the 72"W bench has two dividers creating three compartments and the 96"W bench has three dividers creating four separate compartments.

Doors are standard with 90° fold down self close hinges with soft close feature.

The interior dimension of each compartment is 16"D x 22¾"W (17¼" with accent ribbon) x 10½"H. When the door is in the open position the height clearance is 10"H. The hinges impede on the width and depth of the bench, 14½"D x 20"W.

¼"W accent ribbon detail runs along the inside fronts of the bench in either painted aluminum or wood veneer.

Bottom base on benches are standard with five legs, four outer, and one middle leg. The base is available in two powder coat paint finishes, black matte and platinum matte.

Glides are available for each bench base leg. The glide adjustment is ⅜".

Benches can be placed next to another bench or can be ganged to bench bridges by the use of two ganging plates at the bottom on each end, which is standard with the bench bridges.

The back is standard unfinished in black backer. For applications where the back will not be against a wall, specify the optional finished back option. The back has an integrated reveal that is the finish of the case when the optional back finish is specified.

Optional locks are available for the benches with doors. Each door has its own lock. Locks are available in ember chrome or nickel finish.

Specials are possible. To confirm practicality and obtain a quotation, contact Customer Service at 1.800.627.6770.

## Surface Materials

**Case sides:**

- Painted MDF
- Wood veneer

**Door fronts:**

- Painted MDF
- Wood veneer

**Accent ribbon:**

- Black matte paint
- Platinum matte paint
- Wood veneer

**Back panel:**

- Black backer (standard)
- Painted MDF (option)
- Wood veneer (option)

**3" metal base:**

- Black matte paint
- Platinum matte paint

**Cushion:**

- Fabric
- Leather

**Optional lock(s)**

- 9211 Nickel
- 9250 Ember Chrome

Wood is a natural material, slight variations occur in veneer texture, color, grain configuration, and stain acceptance. Coalesse stains are all applied with an exacting regard for consistency and are well within traditional tolerances for wood products. Due to natural variations in wood, finished products may vary from samples in color, texture, and grain.

*Tip: You should know that finishes may vary slightly in tone or character from each other or from the samples Coalesse produces. No guarantee can be made for an exact match.*

Coalesse strives to produce a consistently high quality product and some natural variation in color is to be expected. The variation is especially apparent on natural woods which have no stain applied, for example 3525 Natural Maple. This color variation is normal and reflects the unique and natural properties of wood. This should not be considered a defect.

Stain swatches are reproduced in the Surface Materials Color Palettes.

► See *Coalesse Surface Materials Reference Guide* for a list.

# Exponents Benches *continued*

**Swatch cards and actual samples of standard wood veneers** are available from your Coalesse Customer Service representative.

**Additional wood veneer stains** are possible. Coalesse offers two programs to accommodate customers who need special stains—Stain-to-Match and Stain and Finish to Match.

**Stain-to-Match option** is a special Coalesse program that will match a wood stain sample that you provide. There is no additional charge for this service. You must supply a sample of reasonable size (3" x 3" or larger is usually adequate). Coalesse will formulate a stain, produce a matching sample, and send it to you for approval. When we receive your written approval, we'll schedule production of your order.

*Tip: Stain-to-Match will achieve a color match to the sample only. Graining of the wood veneer and final surface finish may differ from your original sample. See Stain and Finish to Match.*

**Stain and Finish to Match** is a special Coalesse program that can achieve both a color and a surface finish match for most customer-supplied samples. To determine feasibility and pricing, send us a sample of reasonable size (3" x 3" or larger is usually adequate) before you send us your order. If feasible, Coalesse will produce a sample showing the best possible match and send it to you for approval. When we receive your written approval, we'll schedule production of your order.

**Stain formulas for special stain color matches** are all retained in Coalesse's archives so that you can refer to them in future orders and skip the approval steps required for the initial order.

**The painted medium density fiberboard (MDF)** is utilizing molding grade MDF, therefore, the 45 lb density is consistent throughout the entire thickness of the board. This allows for a smooth edge when painted. Three coats of water reducible finish is applied to the board in milk or black. The painted MDF has durability and care properties like a wood veneer, thus, must be treated as such.

**All paints** are powder coated. Refer to the individual product specifying pages for availability. Powder coat finishes are shown in the *Coalesse Surface Materials Reference Guide*.

## Care & Maintenance

**Veneers and painted MDF** should be cleaned regularly with mild soap and water and dried with a soft cloth. To polish veneers, use silicone-free household polishers. Use sparingly.

*Tip: Never use ammonia-based cleaners or wax on wood or painted MDF surfaces.*

**Painted finishes** should be cleaned with a liquid detergent and water. Remove stubborn stains with liquid cleaner, such as Formula 409.

**All products** should be inspected and maintained regularly by inspecting casters and glides for damage and inspecting all moving parts, i.e., suspensions, for damage and wear.

The Exponents collection offers holistic solutions for collaboration in conference rooms, enclaves, and open space settings. It is a flexible platform for addressing functional and aesthetic requirements in a single, comprehensive offering. Bench bridges work with the benches allowing for technology needs to be accessed within the setting.

*Tip: This product line is a collection and will be found in more than one location in this specification guide.*

► See Collections, page 5

**Corner bench bridge** is non-handed. An optional three power module or a grommet is available.

A **metal leg**, in the back corner, is standard with an adjustable glide for the corner bench bridge. The leg is available in black matte paint only.

**End panels** are unfinished with a black backer, as these will always be hidden when connected to the benches. All other sides, except the bottom, are finished.

**In-line bench bridge** is non-handed. An optional three power module is available.

**End panels** are unfinished with a black backer, as these will always be hidden when connected to the benches.

**End-of-run bench bridge** is non-handed. An optional three power module is available.

**End panels** are always finished to match all other sides of the case.

**Metal leg base** is standard with adjustable glides for the end-of-run bench bridge. The legs are painted and are available in black matte or platinum matte paint.

# Exponents Bench Bridges

## Product Details

The bench bridge is available in three types:  
 Corner bridge, 24"D x 24"W x 15"H  
 In-line bridge, 18"D x 24"W x 15"H  
 End-of-run bridge, 18"D x 24"W x 15"H

The bench bridges are available in painted MDF or wood veneer.

The corner bridge has four attachment brackets to attach to the benches on each side. It has a back corner leg and is available in black matte paint only.

The in-line bridge has four attachment brackets to attach to the benches on each side.

The end-of-run bridge has a bottom base and comes with two attachment brackets to attach to the bench.

An adjustable glide is available on the corner bridge leg. The glide adjustment is 3/8".

Bench bridges must be ganged to a bench unit only. The attachment brackets are 1 1/4"W x 1/4" thick.

The corner bridge must be attached to two benches, one on each side. The corner bridge comes standard with four attachment brackets, and two ganging plates at the bottom of each end. The brackets attach in the slots at the bottom of the bridge and mounted with screws in the bench.

The in-line bridge must be attached to two benches, one on each side. The in-line bridge comes standard with four attachment brackets, and two ganging plates at the bottom of each end. The brackets attach in the slots at the bottom of the bridge and mounted with screws in the bench.

The end-of-run bridge must be attached to one bench at the end of a run. The end-of-run bridge comes standard with two attachment brackets and legs. The brackets attach in the slots at the bottom of the bridge and mounted with screws in the bench.

Specials are possible. To confirm practicality and obtain a quotation, contact Customer Service at 1.800.627.6770.

## Wiring and Cabling

The optional power module is standard with three waterproof simplex outlets. It is standard with a six foot cord. The power module is aluminum and is available in white gloss paint for cases specified in painted milk MDF for all other case finishes the power module is available in black gloss paint. The power module is UL listed.

The cutout on all bench bridges is 2"D x 5 1/4"W.

Corner Bridge

Corner Bridge

In-line Bridge

In-line Bridge

End-of-Run Bridge

End-of-Run Bridge

The corner bridge power module is standard in the back corner of the corner bridge or on the end of the in-line and end-of-run bridge.

To install, remove and route the power module cord, there is a 4" round cutout at the bottom of the corner bridge and there are two 4" cutouts at the bottom of the in-line and end-of-run bridges.

An optional grommet is available in the corner bridge. The grommet is 3" in diameter and is available in black matte or platinum matte paint.

# Exponents Bench Bridges *continued*

## Surface Materials

### Top, front, and back of corner and in-line bridge cases:

- Painted MDF
- Wood veneer

### Top, front, sides and back of end-of-run bridge cases:

- Painted MDF
- Wood veneer

### Corner and in-line bridge sides:

- Black backer

### Corner bridge leg:

- Black matte paint

### End-of-run bridge base:

- Black matte paint
- Platinum matte paint

### Optional power :

- Black gloss (defaults to all choices except V145 Milk case)
- White gloss (defaults to V145 Milk case)

### Corner bridge optional grommet:

- Black matte paint
- Platinum matte paint

**Wood** is a natural material, slight variations occur in veneer texture, color, grain configuration and stain acceptance. Coalesse stains are all applied with an exacting regard for consistency and are well within traditional tolerances for wood products. Due to natural variations in wood, finished products may vary from samples in color, texture, and grain.

*Tip: You should know that finishes may vary slightly in tone or character from each other or from the samples Coalesse produces. No guarantee can be made for an exact match.*

**Coalesse** strives to produce a consistently high quality product and some natural variation in color is to be expected. The variation is especially apparent on natural woods which have no stain applied, for example 3525 Natural Maple. This color variation is normal and reflects the unique and natural properties of wood. This should not be considered a defect.

**Stain swatches** are reproduced in the Surface Materials Color Palettes.

► See *Coalesse Surface Materials Reference Guide* for a list.

**Swatch cards and actual samples of standard wood veneers** are available from your Customer Service representative.

**Additional wood veneer stains** are possible. Coalesse offers two programs to accommodate customers who need special stains—Stain-to-Match and Stain and Finish to Match.

**Stain-to-Match option** is a special Coalesse program that will match a wood stain sample that you provide. There is no additional charge for this service. You must supply a sample of reasonable size (3" x 3" or larger is usually adequate). Coalesse will formulate a stain, produce a matching sample, and send it to you for approval. When we receive your written approval, we'll schedule production of your order.

*Tip: Stain-to-Match will achieve a color match to the sample only. Graining of the wood veneer and final surface finish may differ from your original sample. See Stain and Finish to Match.*

**Stain and Finish to Match** is a special Coalesse program that can achieve both a color and a surface finish match for most customer-supplied samples. To determine feasibility and pricing, send us a sample of reasonable size (3" x 3" or larger is usually adequate) before you send us your order. If feasible, Coalesse will produce a sample showing the best possible match and send it to you for approval. When we receive your written approval, we'll schedule production of your order.

**Stain formulas** for special stain color matches are all retained in Coalesse's archives so that you can refer to them in future orders and skip the approval steps required for the initial order.

**The painted medium density fiberboard (MDF)** is utilizing molding grade MDF, therefore, the 45 lb density is consistent throughout the entire thickness of the board. This allows for a smooth edge when painted. Three coats of water reducible finish is applied to the board in milk or black. The painted MDF has durability and care properties like a wood veneer, thus, must be treated as such.

**All paints** are powder coated. Refer to the individual product specifying pages for availability. Powder coat finishes are shown in the *Coalesse Surface Materials Reference Guide*.

## Care & Maintenance

**Veneers and painted MDF** should be cleaned regularly with mild soap and water and dried with a soft cloth. To polish veneers, use silicone-free household polishers. Use sparingly.

*Tip: Never use ammonia-based cleaners or wax on wood or painted MDF surfaces.*

**Painted finishes** should be cleaned with a liquid detergent and water. Remove stubborn stains with liquid cleaner, such as Formula 409.

**All products** should be inspected and maintained regularly by inspecting casters and glides for damage and inspecting all moving parts, i.e., suspensions, for damage and wear.

# Exponents Credenzas

**The Exponents collection** offers holistic solutions for collaboration in conference rooms, enclaves, and open space settings. It is a flexible platform for addressing functional and aesthetic requirements in a single, comprehensive offering. Credenzas allow for conference storage for varying types of items. Cable routing allows for easy and hidden connections. *Tip: This product line is a collection and will be found in more than one location in this specification guide.*

► See Collections, page 5

**The top** matches the case finish. An optional accent top can be specified in differing materials from the case; glass, corian, painted MDF, and veneer. Optional grommets are also available.

**Back panel** is standard unfinished with black backer. An optional finished back panel is available.

**Plinth base** is standard on all credenzas and matches the case finish selection. An optional metal leg base is available in black matte or platinum matte paint. All bases are available with adjustable glides.

**Accent ribbon detail** is on the perimeter of the credenza front openings and is offered in paint or wood veneer.

**Doors** open 110° utilizing soft-close hinges. Optional door locks are also available.

**Adjustable shelves** are standard on the 27"H and 39"H credenzas. Additional shelves are also available. An optional pull-out shelf is available for the 21"H and 27"H partial open or open credenzas in the mid-section(s) only.

# Exponents Credenzas

## Product Details

Credenzas are available in three widths, two depths, and three heights: 48"W, 72"W, or 96"W 24"D (no doors) or 24<sup>3</sup>/<sub>4</sub>"D (with doors or partial doors) 21"H, 27"H, or 39"H

The credenzas are available in painted MDF or wood veneer. The door fronts, if selected, can be specified in a different finish from the case.

Standard Top

Accent Top

All credenzas are standard with a top that matches the case finish. An optional accent top can be specified in differing materials from the case. The accent top is available in the following:

- Glass (flare coated only)
- Corian (glacier white only)
- Painted MDF (milk or black) - for veneer cases only
- Veneer - for painted MDF cases only

The accent top adds 1/2" to the overall height.

The doors are opened from the top. The 1/2" gap created by the ribbon detail allows for a clean, uninterrupted aesthetic.

Doors are standard with 110° soft close hinges.

TOP VIEW

For 48"W credenzas, the left door is hinged left and the right door is hinged right. For 72"W credenzas, the left door is hinged left, the middle door is hinged right, and the right door is hinged right. For 96"W credenzas, the left two doors are hinged left and the right two doors are hinged right.

1/4"W accent ribbon detail runs along the inside fronts of the credenzas and comes in painted aluminum or wood veneer.

The credenzas have an inner 3/4" divider. The 48"W credenza has one divider creating two separate compartments, the 72"W credenza has two dividers creating three compartments, and the 96"W credenza has three dividers creating four separate compartments.

The interior width dimension of each compartment:

- 48"W (each compartment)**
  - 22<sup>7</sup>/<sub>8</sub>"
- Hinges impede the width by 1".
- 72"W (each compartment)**
  - 22<sup>1</sup>/<sub>2</sub>" (two end compartments)
  - 24"W (middle compartment)
- Hinges impede the width by 1".
- 96"W (each compartment)**
  - 22<sup>1</sup>/<sub>2</sub>" (two end compartments)
  - 23<sup>5</sup>/<sub>8</sub>" (middle two compartments)
- Hinges impede the width by 1".

The interior depth dimension of each compartment:

- 48"W, 72"W and 96"W (each compartment)**
  - 22"D (23<sup>3</sup>/<sub>4</sub>" with accent ribbon)
- Hinges impede the depth without accent ribbon by 1/2".

The interior height dimension of each compartment:

- 21"H (each compartment)**
  - 16<sup>1</sup>/<sub>2</sub>"H
- 27"H (each compartment)**
  - 22<sup>1</sup>/<sub>2</sub>"H
- 39"H (each compartment)**
  - 34<sup>1</sup>/<sub>2</sub>"H

The adjustable shelves are 3/4" thick. The shelves adjust on 1/4" increments.

The adjustable shelves come in four dimensions, depending on the compartment and are standard with cable management routing in the corners of the shelf. Additional shelves are available for 27"H and 39"H credenzas.

- 48"W (each compartment)**
  - 22<sup>3</sup>/<sub>4</sub>"W (COCZAS48)
- 72"W (each compartment)**
  - 22<sup>3</sup>/<sub>8</sub>"W (two end compartments - COCZASEND72)
  - 23<sup>7</sup>/<sub>8</sub>"W (middle compartments - COCZASMD72)
- 96"W (each compartment)**
  - 22<sup>3</sup>/<sub>8</sub>"W (two end compartments - COCZASEND96)
  - 23<sup>7</sup>/<sub>16</sub>"W (middle two compartments - COCZASMD96)

For the 39"H credenza, there are two sets of five holes. The top hole is 9" down from the underside of the top to the center of the hole and the bottom hole is 9" up from the bottom fixed shelf to the center of the hole. The gap in between the two sets of holes is 6 1/2".

For the 27"H credenza, there are five holes. The top hole is 8 3/4" down from the underside of the top to the center of the hole and the bottom hole is 8 3/4" up from the bottom fixed shelf to the center of the hole.

# Exponents Credenzas *continued*

**For credenza compartments without doors,** the adjustable shelf can be specified in a finish different than the case finish. All adjustable shelves behind doors will match the finish of the case.

**Optional pull-out shelf,** for open middle compartments only, allows for easy access to devices. The pull-out shelf uses ball-bearing suspensions for a smooth operation. The pull-out shelf extends out 14 $\frac{3}{4}$ ". The pull-out shelf is specifiable in painted MDF or wood veneer. The interior dimension of the pull-out shelf is 17 $\frac{1}{2}$ "D x 21 $\frac{1}{2}$ "W x 2 $\frac{1}{2}$ "H. The exterior dimension is 18"D x 22 $\frac{1}{2}$ "W x 3"H.

*Tip: When a pull-out shelf is specified, it does not take the place of the standard adjustable shelf. It is an additional item.*

**For the 39"H credenzas,** no optional pull-out shelves are available.

**For the 27"H credenzas,** one optional pull-out shelf can be specified per open middle compartment. The pull-out shelves are only specifiable in the 72"W credenza, open middle compartment and the 96"W credenza, two open middle compartments.

**For the 21"H credenzas,** one optional pull-out shelf can be specified per open middle compartment. The pull-out shelf is only specifiable in the 72"W credenza, open middle compartment and the 96"W credenza, two open middle compartments.

*Tip: When one pull-out shelf is specified in a compartment, the pull-out shelf is in the middle of the compartment.*

**The pull-out shelf** can be specified in a finish different from the case finish.

**Optional locks** are available for the credenzas with doors. Each door has its own lock. Locks are available in ember chrome or nickel finish.

**The back** is standard unfinished in black backer and has a 1"D x 23"W cutout at the top middle for wire management.

**For applications where the back will not be against a wall,** specify the optional finished back panel. The back has an integrated reveal that is the finish of the case when the optional back finish is specified. When this is specified, the wire management cutout is not available in order to keep a clean aesthetic.

**The base on all credenzas** are standard as a 3" plinth base. The plinth base matches the case finish. The base is flush on the sides and front for open fronts.

**The back of the plinth base** is inset 2" for access to the bottom cutouts.

**An optional metal base** is available on all credenzas. The metal base always has one leg in each corner (four total). One additional middle leg is used for the 48"W, two additional middle legs are used for the 72"W, and three additional middle legs are used for the 96"W. The base is available in two powder coat paint finishes, black matte and platinum matte.

**Plastic glides** are available for each credenza base type, plinth, and metal leg. The glides are  $\frac{3}{8}$ " diameter. The glide adjustment is  $\frac{3}{8}$ ".

**Specials** are possible. To confirm practicality and obtain a quotation, contact Customer Service at 1.800.627.6770.

## Wiring and Cabling

**The bottom of the credenzas** is standard with wire management cutouts, 1"D x 12"W. Each compartment has its own cutout.

- 48"W credenzas have two cutouts.
- 72"W credenzas have three cutouts.
- 96"W credenzas have four cutouts.

**For applications where the back will not be against a wall,** specify the optional finished back panel. The back has an integrated reveal that is the finish of the case when the optional back finish is specified. When this is specified, the wire management cutout is not available in order to keep a clean aesthetic.

**Wire management cutouts** are standard in the back of the  $\frac{3}{4}$ " compartment dividers to route wires from one compartment to the next.

48"  
1-2 grommets

72"  
1-3 grommets

96"  
1-4 grommets

**An optional grommet** is available for all credenzas. The grommet is 2 $\frac{1}{8}$ " in diameter and is available in multiple locations with or without an accent top. Grommets are available in black matte or platinum matte paint.

# Host Credenzas

DESIGN F/P DESIGN AND VECTA DESIGN TEAM

## Product Details

**Host Credenzas** compliment the functionality of the Host Table as part of a complete room presentation system in a conference room or large office. They match the aesthetics of Host table collection to complete the design of the space.

**Tapered wood edge** comes as standard trim on the top and sides of the credenza case front. *Tip: Tapered solid wood edge profile overhangs the front of the credenza so that credenzas can be placed side by side.*

**Doors** have 90°, three-way adjustable, European-style hinges with touch-latches.

**Credenza base** is a 4" H recessed steel base powder coated in silver which visually lightens the cabinet. Leveling glides adjust up to 1".

**Credenza interiors** are surfaced with black melamine. One adjustable shelf is in the 50" credenza. Two adjustable shelves, one on each side of the cabinet divider, are in the 74" and 98" credenzas. The shelves are black melamine surfaced and adjustable in 1½" increments.

**Wire management openings** go through the back of the credenza cabinet and have access doors secured with hook and loop fastener. The openings on the standard height credenza are 8" x 13" and 8" x 20½" on the buffet height credenza. Slots for ventilation go through the back and bottom of the credenza.

Standard Height, 28 ½"

Buffet Height, 36"

**Credenzas** provide storage space for conference room accessories and tools as well as concealed housing for electronic equipment. Credenzas are available 50"L, 74"L, and 98"L. Credenzas are available in standard height, 28½", and buffet height, 36".

**Credenza case** is available in wood veneer only. Grain will run vertically on end panels and lengthwise on the top.

**Credenza doors** are available in wood veneer or frosted glass with clear anodized aluminum trim. Veneer doors have grain running horizontally.

Equipment rack dimensional breakdown

## Interior Dimensions

**Interior dimensions** of each one- and two-compartment standard and buffet height credenzas:

- 50" credenza, one compartment:
  - 28½"H: 22"H x 46½"W x 23¼"D
  - 36"H: 29½"H x 46½"W x 23¼"D
- 74" credenza, two compartments:
  - 28½"H: 22"H x 70½"W x 23¼"D
  - 36"H: 29½"H x 70½"W x 23¼"D
  - Left compartment: 46⅞"W
  - Right compartment: 22⅞"W
- 98" credenza, two compartments:
  - 28½"H: 22"H x 94½"W x 23¼"D
  - 36"H: 29½"H x 94½"W x 23¼"D
  - Left compartment: 46⅞"W
  - Right compartment: 46⅞"W

<b>Exponents Mobile Cart*</b>	<b>580</b>
<b>Exponents Moby*</b>	<b>586</b>

# Exponents Mobile Cart

The Exponents collection offers holistic solutions for collaboration in conference rooms, enclaves, and open space settings. It is a flexible platform for addressing functional and aesthetic requirements in a single, comprehensive offering. The mobile cart can be used to accommodate simple storage, electronic equipment, or as a mobile service cart.

*Tip: This product line is a collection and will be found in more than one location in this specification guide.*

► See Collections, page 5

Accent ribbon detail is on the fronts of the mobile cart and is available in paint or wood veneer.

Doors open 110°, utilizing soft close hinges. Integrated door pulls are located at the top of the doors. Optional door lock is also available.

The mobile cart has four casters; two locking and two non-locking.

Handle, for easy movement, is available in black matte or platinum matte paint.

Top opening is a secondary storage area for items that require frequent access. An optional pull-out shelf is also available.

# Exponents Mobile Cart

## Product Details

The mobile cart is available in one dimensional configuration: 19<sup>3</sup>/<sub>4</sub>"D x 30"W x 32"H.

The mobile cart is available in painted MDF or wood veneer. The door fronts, optional pull-out shelf, and tray can be specified in a different finish than the case.

Doors are standard with 110° soft close hinges.

The top opening of the mobile cart is 16<sup>1</sup>/<sub>2</sub>"D x 28<sup>1</sup>/<sub>2</sub>"W x 6<sup>1</sup>/<sub>4</sub>"H (17<sup>3</sup>/<sub>4</sub>"D if the accent ribbon is included). The shelf has two 1<sup>1</sup>/<sub>4</sub>" cutouts in the back corners for cord routing.

The opening behind the two doors is 16<sup>1</sup>/<sub>2</sub>"D x 28<sup>1</sup>/<sub>2</sub>"W x 19<sup>1</sup>/<sub>2</sub>"H.

The adjustable shelf behind the double doors is 3<sup>3</sup>/<sub>4</sub>" thick. The shelves adjust on 1<sup>1</sup>/<sub>4</sub>" increments.

There are five holes for adjustment, the top hole is 7<sup>3</sup>/<sub>4</sub>" down from the underside of the top shelf to the center of the hole. The bottom hole is 6<sup>3</sup>/<sub>4</sub>" up from the bottom fixed shelf to the center of the hole. Additional shelves are available.

Optional pull-out shelf, for the top opening only, allows for easy access to contents and to hide contents when not in use. The pull-out shelf uses 3<sup>3</sup>/<sub>4</sub>"-extension ball-bearing suspensions for a smooth operation. The pull-out shelf will fit the optional service tray. The pull-out shelf is specifiable in painted MDF or wood veneer. The interior dimension of the pull-out shelf is 15<sup>1</sup>/<sub>2</sub>"D x 26<sup>1</sup>/<sub>2</sub>"W x 2<sup>1</sup>/<sub>2</sub>"H. The exterior dimension is 16"D x 27<sup>1</sup>/<sub>2</sub>"W x 3"H. The pull-out shelf extends out 12<sup>3</sup>/<sub>4</sub>".

Optional service tray has two integrated handles. The exterior dimension of the service tray is 15"D x 26<sup>1</sup>/<sub>4</sub>"W x 2<sup>1</sup>/<sub>2</sub>"H. The interior dimension is 14"D x 25<sup>1</sup>/<sub>4</sub>"W x 2"H. The tray can be specified in painted MDF or wood veneer. The tray can be stored away behind the doors, in the top opening, or in the pull-out shelf.

Casters are 3" diameter, two locking and two non-locking. The casters are available in two non-specifiable finishes, white for milk MDF specified cases or black for all other case finishes.

A robust handle is standard on all mobile carts for easy movement to move from one space to another. The aluminum handle is available in two powder coat finishes, black matte or platinum matte. The handle dimension is 2<sup>1</sup>/<sub>2</sub>"D x 11<sup>5</sup>/<sub>8</sub>"W x 3<sup>3</sup>/<sub>4</sub>"H. The handle opening is 1<sup>5</sup>/<sub>8</sub>"D x 9<sup>1</sup>/<sub>8</sub>"W.

1<sup>1</sup>/<sub>4</sub>"W accent ribbon detail runs along the inside fronts of the mobile cart in either painted aluminum or wood veneer.

The double doors have an integrated finger pull at the top of the door for a clean, uninterrupted aesthetic.

The back is finished and has an integrated reveal that is the finish of the case.

Optional lock is available for the doors. Lock is located in the right-hand door. Locks are available in ember chrome or nickel finish.

Specials are possible. To confirm practicality and obtain a quotation, contact Customer Service at 1.800.627.6770.

## Wiring and Cabling

The optional clamp on power module is standard with three waterproof simplex outlets. It is standard with a six foot cord. The power module is aluminum and is available in two non-specifiable finishes, white gloss paint for V145 Milk MDF specified cases or black gloss for all other case finishes. The power module is UL listed.

The clamp on power module can be positioned in the right- or left-hand corners of the adjustable shelf.

*Tip: To install the power module to the adjustable shelf, remove the shelf and position on either end and tighten the knobs.*

Doors should be open when powering any devices.

# Exponents Mobile Cart *continued*

The adjustable shelf is standard with cable management routing in the corners of the shelf. The shelf can also house the optional power module.

The bottom of the mobile cart has two cutouts to allow for the power module to be plugged into a receptacle.

## Surface Materials

### Case sides, back, top, and interior shelves:

- Painted MDF
- Wood veneer

### Door fronts:

- Painted MDF
- Wood veneer

### Accent ribbon:

- Black matte paint
- Platinum matte paint
- Wood veneer

### Handle:

- Black matte paint
- Platinum matte paint

### Casters:

- Black (defaults to all choices except V145 Milk case)
- White (defaults to V145 Milk case)

### Optional pull-out shelf:

- Painted MDF
- Wood veneer

### Optional tray:

- Painted MDF
- Wood veneer

### Optional lock:

- 9211 Nickel
- 9250 Ember Chrome

### Optional power:

- Black gloss (defaults to all choices except V145 Milk case)
- White gloss (defaults to V145 Milk case)

**Wood** is a natural material, slight variations occur in veneer texture, color, grain configuration, and stain acceptance. Coalesse stains are all applied with an exacting regard for consistency and are well within traditional tolerances for wood products. Due to natural variations in wood, finished products may vary from samples in color, texture, and grain.

*Tip: You should know that finishes may vary slightly in tone or character from each other or from the samples Coalesse produces. No guarantee can be made for an exact match.*

Coalesse strives to produce a consistently high quality product and some natural variation in color is to be expected. The variation is especially apparent on natural woods which have no stain applied, for example 3525 Natural Maple. This color variation is normal and reflects the unique and natural properties of wood. This should not be considered a defect.

**Stain swatches** are reproduced in the Surface Materials Color Palettes.

► See *Coalesse Surface Materials Reference Guide* for a list.

**Swatch cards and actual samples of standard wood veneers** are available from your Customer Service representative.

### Additional wood veneer

**stains** are possible. Coalesse offers two programs to accommodate customers who need special stains—Stain-to-Match and Stain and Finish to Match.

**Stain-to-Match option** is a special Coalesse program that will match a wood stain sample that you provide. There is no additional charge for this service. You must supply a sample of reasonable size (3" x 3" or larger is usually adequate). Coalesse will formulate a stain, produce a matching sample, and send it to you for approval. When we receive your written approval, we'll schedule production of your order.

*Tip: Stain-to-Match will achieve a color match to the sample only. Graining of the wood veneer and final surface finish may differ from your original sample. See Stain and Finish to Match.*

**Stain and Finish to Match** is a special Coalesse program that can achieve both a color and a surface finish match for most customer-supplied samples. To determine feasibility and pricing, send us a sample of reasonable size (3" x 3" or larger is usually adequate) before you send us your order. If feasible, Coalesse will produce a sample showing the best possible match and send it to you for approval. When we receive your written approval, we'll schedule production of your order.

**Stain formulas for special stain color matches** are all retained in Coalesse's archives so that you can refer to them in future orders and skip the approval steps required for the initial order.

**The painted medium density fiberboard (MDF)** is utilizing molding grade MDF, therefore, the 45 lb density is consistent throughout the entire thickness of the board. This allows for a smooth edge when painted. Three coats of water reducible finish is applied to the board in milk or black. The painted MDF has durability and care properties like a wood veneer, thus, must be treated as such.

**All paints** are powder coated. Refer to the individual product specifying pages for availability. Powder coat finishes are shown in the *Coalesse Surface Materials Reference Guide*.

## Care & Maintenance

**Veneers and painted MDF** should be cleaned regularly with mild soap and water and dried with a soft cloth. To polish veneers, use silicone-free household polishers. Use sparingly.

*Tip: Never use ammonia-based cleaners or wax on wood or painted MDF surfaces.*

**Painted finishes** should be cleaned with a liquid detergent and water. Remove stubborn stains with liquid cleaner, such as Formula 409.

**All products** should be inspected and maintained regularly by inspecting casters and glides for damage and inspecting all moving parts, i.e., suspensions, for damage and wear.

# Exponents Moby

The Exponents collection offers holistic solutions for collaboration in conference rooms, enclaves, and open space settings. It is a flexible platform for addressing functional and aesthetic requirements in a single, comprehensive offering. The Moby is a personalized mobile storage unit that can be tailored to individual or teaming needs.

*Tip: This product line is a collection and will be found in more than one location in this specification guide.*

► See Collections, page 5

Accent ribbon detail is on the fronts of the Moby and is available in paint or wood veneer.

The Moby has four casters; two locking and two non-locking.

Handle, for easy movement, is available in black matte or platinum matte paint.

Top opening is a secondary storage area for items that require frequent access.

Doors open 270° utilizing wrap-around hinges. Integrated door pulls are located at the top of the doors. Optional door lock is also available.

# Exponents Moby

## Product Details

Moby is available in one dimensional configuration: 19<sup>3</sup>/<sub>4</sub>"D x 30"W x 42"H.

Moby is available in painted MDF or wood veneer. The door fronts can be specified in a different finish than the case.

Doors are standard with 270° wrap-around hinges.

The top opening of the Moby is 16<sup>1</sup>/<sub>2</sub>"D x 28<sup>1</sup>/<sub>2</sub>"W x 6<sup>1</sup>/<sub>4</sub>"H (17<sup>3</sup>/<sub>4</sub>"D if the accent ribbon is included). The shelf has two 1<sup>1</sup>/<sub>4</sub>" cutouts in the back corners for cord routing.

Adjustable shelves (2)

The Moby's interior configuration is standard with two adjustable shelves behind the two doors. The opening behind the two doors is 17<sup>3</sup>/<sub>4</sub>"D x 28<sup>1</sup>/<sub>2</sub>"W x 29<sup>1</sup>/<sub>2</sub>"H.

Fixed shelf  
Personal drawer  
File drawer

Personal drawer  
Adjustable shelf

There are two optional interior configurations for the Moby.

- Fixed shelf, personal drawer, and file drawer
- Personal drawer and adjustable shelf

The adjustable shelves behind the double doors are 3/4" thick. The shelves adjust on 1/4" increments.

There are 12 holes for adjustment, the top hole is 7<sup>3</sup>/<sub>4</sub>" down from the underside of the top shelf to the center of the hole. The bottom hole is 6<sup>3</sup>/<sub>4</sub>" up from the bottom fixed shelf to the center of the hole. Additional shelves are available.

The fixed shelf above the drawer configuration has a 1/2" gap at back for cord routing and positioning of the power module. The cutout allows the clamp of the optional power module to be installed.

The integrated drawer pull cutout for the file and personal drawer is 6"W x 1"H.

The personal drawer utilizes full-extension ball-bearing suspensions.

Exterior dimensions: 14"D x 26<sup>3</sup>/<sub>4</sub>"W x 4<sup>1</sup>/<sub>2</sub>"H  
Interior dimensions: 12<sup>1</sup>/<sub>4</sub>"D x 24<sup>1</sup>/<sub>2</sub>"W x 4"H

The file drawer utilizes full-extension ball-bearing suspensions for easy access to file folders.  
Exterior dimensions: 14"D x 26<sup>3</sup>/<sub>4</sub>"W x 12<sup>1</sup>/<sub>8</sub>"H  
Interior dimensions: 12<sup>1</sup>/<sub>4</sub>"D x 24<sup>1</sup>/<sub>2</sub>"W x 11<sup>1</sup>/<sub>2</sub>"H

12" LGL 9" LTR  
Front to back Side to side

15" LTR 9" LTR  
Side to side

The file drawer allows for legal or letter filing. A 1/2"W divider is included in the file drawer to allow legal filing.

Casters are 3" diameter and come in two locking and two non-locking. The casters are available in two non-specifiable finishes, white for milk MDF specified cases or black for all other case finishes.

A robust handle is standard on all Moby for easy movement from one space to another. The aluminum handle is available in two powder coat finishes, black matte or platinum matte. The handle dimension is 11<sup>5</sup>/<sub>8</sub>"W x 2<sup>1</sup>/<sub>2</sub>"D x 3/4"H. The handle opening is 1<sup>5</sup>/<sub>8</sub>"D x 9<sup>1</sup>/<sub>8</sub>"W.

1/4"W accent ribbon detail runs along the inside fronts of the Moby in either painted aluminum or wood veneer.

The double doors have an integrated finger pull at the top of the door for a clean, uninterrupted aesthetic.

# Exponents Moby *continued*

The back is finished and has an integrated reveal that is the finish of the case.

Optional lock is available for the doors. Lock is located in the right-hand door. Locks are available in ember chrome or nickel finish.

Specials are possible. To confirm practicality and obtain a quotation, contact Customer Service at 1.800.627.6770.

## Wiring and Cabling

The optional clamp on power module is standard with three waterproof simplex outlets. It is standard with a six foot cord. The power module is aluminum and is available in two non-specifiable finishes, white gloss paint for V145 Milk MDF specified cases or V197 Black Gloss for all other case finishes. The power module is UL listed.

The clamp on power module can be positioned in the right or left hand corners of the adjustable shelf or anywhere along the fixed shelf for the personal and file drawer configuration.

*Tip: To install the power module to the adjustable shelf, remove the shelf and position on either end and tighten the knobs.*

Doors should be open when powering any devices.

The adjustable shelf is standard with cable management routing. Adjustable shelf has a single cutout in the center of the back similar to the fixed shelf. It is 6"L and 1 1/4"D.

The bottom of the Moby has one cutouts to allow for the power module to be plugged into a receptacle.

## Surface Materials

Wood is a natural material, slight variations occur in veneer texture, color, grain configuration and stain acceptance. Coalesse stains are all applied with an exacting regard for consistency and are well within traditional tolerances for wood products. Due to natural variations in wood, finished products may vary from samples in color, texture, and grain.

*Tip: You should know that finishes may vary slightly in tone or character from each other or from the samples Coalesse produces. No guarantee can be made for an exact match.*

Coalesse strives to produce a consistently high quality product and some natural variation in color is to be expected. The variation is especially apparent on natural woods which have no stain applied, for example 3525 Natural Maple. This color variation is normal and reflects the unique and natural properties of wood. This should not be considered a defect.

Stain swatches are reproduced in the Surface Materials Color Palettes. See *Coalesse Surface Materials Reference Guide* for a list.

Swatch cards and actual samples of standard wood veneers are available from your Coalesse Customer Service representative.

Additional wood veneer stains are possible. Coalesse offers two programs to accommodate customers who need special stains—Stain-to-Match and Stain and Finish to Match.

Stain-to-Match option is a special Coalesse program that will match a wood stain sample that you provide. There is no additional charge for this service. You must supply a sample of reasonable size (3" x 3" or larger is usually adequate). Coalesse will formulate a stain, produce a matching sample, and send it to you for approval. When we receive your written approval, we'll schedule production of your order.

*Tip: Stain-to-Match will achieve a color match to the sample only. Graining of the wood veneer and final surface finish may differ from your original sample. See Stain and Finish to Match.*

# Exponents Moby

**Stain and Finish to Match** is a special Coalesse program that can achieve both a color and a surface finish match for most customer-supplied samples. To determine feasibility and pricing, send us a sample of reasonable size (3" x 3" or larger is usually adequate) before you send us your order. If feasible, Coalesse will produce a sample showing the best possible match and send it to you for approval. When we receive your written approval, we'll schedule production of your order.

**Stain formulas for special stain color matches** are all retained in Coalesse's archives so that you can refer to them in future orders and skip the approval steps required for the initial order.

**The painted medium density fiberboard (MDF)** is utilizing molding grade MDF, therefore, the 45 lb density is consistent throughout the entire thickness of the board. This allows for a smooth edge when painted. Three coats of water reducible finish is applied to the board in milk or black. The painted MDF has durability and care properties like a wood veneer, thus, must be treated as such.

**All paints** are powder coated. Refer to the individual product specifying pages for availability. Powder coat finishes are shown in the *Coalesse Surface Materials Reference Guide*.

## Care & Maintenance

**Veneers and painted MDF** should be cleaned regularly with mild soap and water and dried with a soft cloth. To polish veneers, use silicone-free household polishers. Use sparingly.

*Tip: Never use ammonia-based cleaners or wax on wood or painted MDF surfaces.*

**Painted finishes** should be cleaned with a liquid detergent and water. Remove stubborn stains with liquid cleaner, such as Formula 409.

**All products** should be inspected and maintained regularly by inspecting casters and glides for damage and inspecting all moving parts, i.e., suspensions, for damage and wear.

# Exponents Lectern

The Exponents collection offers holistic solutions for collaboration in conference rooms, enclaves, and open space settings. It is a flexible platform for addressing functional and aesthetic requirements in a single, comprehensive offering. The lectern provides a place for formal presentations.

*Tip: This product line is a collection and will be found in more than one location in this specification guide.*

► See Collections, page 5

**Back panel** is removable for easy wire management access. The back panel can be specified in a different material than the rest of the lectern.

**Accent ribbon detail** is on the sides of the lectern in paint or wood veneer.

**Lectern** comes standard with four nylon glides.

**Top flip lid** allows for access to power, voice, and data and/or storage of power and data cords.

**The lectern top shelf** is angled for presentations as well as laptop usage. It is standard with an aluminum pencil/paper stop, which matches the finish of the base. The lectern top shelf has a maximum recommended load of 45 pounds.

**Metal base** is painted in either black matte or platinum matte.

# Exponents Lectern

## Product Details

The lectern is available in one dimensional configuration: 18<sup>3</sup>/<sub>4</sub>"D x 23<sup>1</sup>/<sub>2</sub>"W x 48"H.

The lectern is available in painted MDF or wood veneer.

Lectern top shelf is 14<sup>1</sup>/<sub>4</sub>"D x 23<sup>1</sup>/<sub>2</sub>"W x 1/2" thick. The angle of the shelf is 8<sup>1</sup>/<sub>2</sub>". It has an integrated aluminum pencil/paper stop for holding documents, which is painted to match the finish of the base, platinum matte or black matte.

Metal base is 17"D x 23<sup>1</sup>/<sub>2</sub>"W x 3/8" thick and is painted, platinum matte or black matte. Four nylon glides are standard for easy movement when required. The glides are 1/4" thick and 3" in diameter.

Accent ribbon detail runs along the sides of the lectern and either comes in painted aluminum to match the base or matching wood veneer. The accent ribbon is 1<sup>1</sup>/<sub>4</sub>"W.

Specials are possible. To confirm practicality and obtain a quotation, contact Customer Service at 1.800.627.6770.

## Wiring and Cabling

The top flip lid has a cutout for easy opening and cable routing. The lid opens towards the top shelf and comes standard with two 160° hinges to access power, voice and data or storing cords and cables.

The back panel is removable by lifting up and out. The panel has four small aluminum cleats for easy removal and installation when access to wire management is required. The back panel can be specified in a different finish than the case. *Tip: The back panel must be removed to install the PVD device.*

The section where the PVD is installed is 3<sup>1</sup>/<sub>8</sub>"D x 20<sup>1</sup>/<sub>2</sub>"W x 3"H which can store access wires, such as laptop power blocks, VGA cords, etc.

The cutout is standard on all lecterns and is 2"D x 8<sup>1</sup>/<sub>4</sub>"W.

Data Architectural Adapter Plate has two CAT 6 RJ45 barrel (pass-through) outlets.

Video/Audio Architectural Adapter Plate has one VGA outlet (HD15 female to female gender changer) and one audio outlet (3<sup>1</sup>/<sub>2</sub> mm stereo mini jack to solder tabs).

The optional PVD is standard with two water-proof simplex outlets, two data (Extron AAP) and one VGA with audio (Extron AAP). It is standard with a six foot cord. The PVD is aluminum and is available in black gloss paint only. The PVD is UL listed. For information on other style AAPs and to find an Extron Electronics dealer, call Extron at 800.633.9876 or online at [www.extron.com](http://www.extron.com).

The cords can exit or enter from either side of the lectern at the bottom. The square hole is 3/8"W x 1/2"H.

## Surface Materials

Case sides, front, and top shelves

- Painted MDF
- Wood veneer

Accent ribbon

- Black matte paint
- Platinum matte paint
- Wood veneer

Base

- Black matte paint
- Platinum matte paint

Back panel

- Painted MDF
- Wood veneer

Pencil stop (matches base)

- Black matte paint
- Platinum matte paint

Optional PVD

- Black gloss only

Wood is a natural material, slight variations occur in veneer texture, color, grain configuration and stain acceptance. Coalesse stains are all applied with an exacting regard for consistency and are well within traditional tolerances for wood products. Due to natural variations in wood, finished products may vary from samples in color, texture and grain.

*Tip: You should know that finishes may vary slightly in tone or character from each other or from the samples Coalesse produces. No guarantee can be made for exact match.*

Coalesse strives to produce a consistently high quality product and some natural variation in color is to be expected. The variation is especially apparent on natural woods which have no stain applied, for example 3525 Natural Maple. This color variation is normal and reflects the unique and natural properties of wood. This should not be considered a defect.

Stain swatches are reproduced in the Surface Materials Color Palettes.

► See *Coalesse Surface Materials Reference Guide* for a list.

Swatch cards and actual samples of standard wood veneers are available from your Customer Service representative.

# Exponents Lectern *continued*

**Additional wood veneer stains** are possible. Coalesse offers two programs to accommodate customers who need special stains—Stain-to-Match and Stain and Finish to Match.

**Stain-to-Match option** is a special Coalesse program that will match a wood stain sample that you provide. There is no additional charge for this service. You must supply a sample of reasonable size (3" x 3" or larger is usually adequate). Coalesse will formulate a stain, produce a matching sample, and send it to you for approval. When we receive your written approval, we'll schedule production of your order.

*Tip: Stain-to-Match will achieve a color match to the sample only. Graining of the wood veneer and final surface finish may differ from your original sample. See Stain and Finish to Match.*

**Stain and Finish to Match** is a special Coalesse program that can achieve both a color and a surface finish match for most customer-supplied samples. To determine feasibility and pricing, send us a sample of reasonable size (3" x 3" or larger is usually adequate) before you send us your order. If feasible, Coalesse will produce a sample showing the best possible match and send it to you for approval. When we receive your written approval, we'll schedule production of your order.

**Stain formulas for special stain color matches** are all retained in Coalesse's archives so that you can refer to them in future orders and skip the approval steps required for the initial order.

**The painted medium density fiberboard (MDF)** is utilizing molding grade MDF, therefore, the 45 pound density is consistent throughout the entire thickness of the board. This allows for a smooth edge when painted. Three coats of water reducible finish is applied to the board in milk or black. The painted MDF has durability and care properties like a wood veneer, thus, must be treated as such.

**All paints** are powder coated. Refer to the individual product specifying pages for availability. Powder coat finishes are shown in the *Coalesse Surface Materials Reference Guide*.

## Care & Maintenance

**Veneers and painted MDF** should be cleaned regularly with mild soap and water and dried with a soft cloth. To polish veneers, use silicone-free household polishers. Use sparingly.

*Tip: Never use ammonia-based cleaners or wax on wood or painted MDF surfaces.*

**Painted finishes** should be cleaned with a liquid detergent and water. Remove stubborn stains with liquid cleaner, such as Formula 409.

**All products** should be inspected and maintained regularly by inspecting casters and glides for damage and inspecting all moving parts, i.e., suspensions, for damage and wear.

# Exponents Mobile Display Boards

The Exponents mobile display design allows seamless adaptability to any setting without compromising the integrity of the space. The mobile display boards, functionally and aesthetically, go beyond almost all industrial mobile displays.

The mobile mediaboard with Steelcase media:scape technology provides an opportunity to integrate the Steelcase media:scape technology and further the experience for the inclusive small meetings without interruption. The mobile mediaboard is a simplistic way to plug in for meetings led by an individual.

*Tip: This product line is a collection and will be found in more than one location in this specification guide.*

► See Collections, page 5

**Back panel** is a removable markerboard surface that is standard in e<sup>3</sup> CeramicSteel with milk gloss painted aluminum extrusion.

**Outer frame trim**, located on both sides, is standard in painted MDF and optional in wood veneer to complement any environment.

**Handle**, located on each side for easy movement, doubles as storage for dry erase markers and eraser. The handles are painted to match the base and inner frame.

**Inner frame** is painted to match the handle and base.

**Grommet for plug** is standard on one side in black plastic. It is standard on the mediaboard and mediaboard with Steelcase media:scape technology mobile display units. It allows the cord to exit the display which powers the entire display.

**Bumper on each end** is plastic that complements the base paint.

**Front panel** is a fixed markerboard surface that is standard in e<sup>3</sup> CeramicSteel with milk gloss painted aluminum extrusion.

**Monitor mount** is standard on the mediaboard and mediaboard with Steelcase media:scape technology mobile display units.

**Well opening on mediaboard and mediaboard with Steelcase media:scape technology** houses the power and display module. The well also stores the four PUCKS for the mediaboard with Steelcase media:scape technology mobile display unit.

**A shelf** can be ordered as an option for items like laptops or miscellaneous items that are used with the mediaboard and mediaboard with Steelcase media:scape technology mobile display units.

**Base** is steel and is painted to match the handle and inner frame.

**Two 4" swivel locking casters and two 4" fixed casters** are standard. White casters default to the milk paint specification and black casters default to the black paint specification.

# Exponents Mobile Display Boards

## Product Details

The mobile display products are available in three types, mobile whiteboard display, mobile mediaboard display with whiteboard, and mobile mediaboard display with whiteboard with Steelcase media:scape technology.

The mobile whiteboard display is offered in two widths, 36\"/>

The front and back panel display thickness is 9/16\"/>

The front panel and back panel are standard in e<sup>3</sup> CeramicSteel with a milk gloss painted aluminum extrusion. The e<sup>3</sup> CeramicSteel is magnetic.

**The e<sup>3</sup> environmental CeramicSteel Difference**  
Steelcase Premium White Boards incorporate the e<sup>3</sup> environmental CeramicSteel surface, which is the first and only ecologically intelligent whiteboard surface to receive a MBDC Cradle to Cradle Gold certification. Cradle to Cradle certification evaluates products for environmentally safe and healthy materials; energy and water use during production, the ability to recycle and reuse materials, and social responsibility. Steelcase has created its fourth generation of CeramicSteel writing surfaces, e<sup>3</sup>, which delivers the properties of its best selling writing surface, P<sup>3</sup> CeramicSteel, and complies with the Cradle to Cradle certification criteria. Steelcase will continue to follow standards set forth by MBDC Cradle to Cradle certification to reaffirm our commitment to sustainability. For over five decades, millions of boards have been produced around the world using P<sup>3</sup> CeramicSteel. Steelcase used this cross section of consumers to gather the information that helped determine what the next generation of writing surfaces should provide. Our internationally renowned R&D team worked with experts in the field of ceramics and technology to create e<sup>3</sup> environmental CeramicSteel surface – the new industry standard for superior quality.

**The e<sup>3</sup> environmental CeramicSteel Advantage**  
The ceramic finish consists of a specially formulated glass substance applied by machine. The e<sup>3</sup> environmental CeramicSteel surface is fused to steel at a temperature of approximately 1500 degrees Fahrenheit for markerboards. It registers at a minimum of five (5) on the revised Mohs hardness scale.

### Benefits of e<sup>3</sup>

- Ultra-smooth writing surface
- Improved erasability
- Greater color contrast
- Significantly less surface/light distortion
- Optimum eye comfort
- Enhanced visibility
- Reduced chalk pressure, greater adherence
- Increased chalk/surface contrast
- Accepts magnets

### Environmental Features

- Enamel fused to cold-rolled enameling-grade steel
- In all coatings, the total amount of heavy metals cadmium, mercury, hexavalent chromium, and lead is less than 0.1%
- All coatings are free of arsenic and antimony
- No Volatile Organic Compounds (VOCs)
- Steel core is made from minimum 30% post-consumer and post-industrial waste
- e<sup>3</sup> environmental ceramic-steel surface is 99% recyclable

e<sup>3</sup> environmental CeramicSteel is produced by a controlled, continuous coil-coating process. The surface consists of a steel core of .013\"/>

Characteristic	e <sup>3</sup> environmental CeramicSteel Markerboard
<b>Writeability</b>	Can be written on with any dry-erase, semi-permanent, water-soluble, permanent marker, pen, or crayon without damaging the surface.
<b>Visibility</b>	Contrast/waviness for markerboards (light and dark effects) shall be no greater than 15 when tested with BYK - Gardner Wave Scan 5+ measurement device showing visual acuity (contrast sensitivity) to the human eye at distances greater than 3 meters (10' - 0"). Resolution (visual acuity) shall be based on 3 lines per degree and be visibly maintained beyond the current standard of 3 meters.
<b>Erasability</b>	Dry-erase marker ink can be wiped off easily with a dry cloth or standard eraser. Crayon, semi-permanent, and permanent marker pen inks can be removed with a solvent based cleaner.
<b>Cleanability (Washability)</b>	All residues that remain after normal erasing can be removed by following the care and cleaning instructions on page 605.
<b>Wearability</b>	Vitrified glass-hard ceramic surface fused to light-gauge enameling grade steel at approximately +1500°F. High resistance to impact damage, abrasion, scratching, and color fading. The e <sup>3</sup> environmental CeramicSteel surface registers a 6.5 on the revised Mohs hardness scale.
<b>Magnet Capability</b>	The e <sup>3</sup> environmental CeramicSteel surfaces are ideal for all magnets and magnetic impregnated materials and will not be scratched or damaged from the contact.
<b>Flame Resistance</b>	The e <sup>3</sup> surface is 100% non-combustible.

# Exponents Mobile Display Boards *continued*

## Material Description

### e<sup>3</sup> environmental CeramicSteel Low-Gloss Markerboard

\*All markerboard erasability tests were conducted using High-Gloss e<sup>3</sup> environmental CeramicSteel surfaces.

The ultra-smooth finish enables dry markers to glide easily across the e<sup>3</sup> environmental CeramicSteel surface with minimal friction. The surface smoothness allows more dry-erase ink to be removed, improving erasability and eliminating "ghost writing".

#### Writeability

Provides the same writing characteristics as high-gloss.

#### Erasability

Low-gloss surfaces will not erase as thoroughly as high-gloss surfaces. When this occurs, a water-dampened cloth will be required to erase the surface.

Surface distortion (orange peel) has been reduced significantly in direct comparison with the competition's surface.

#### Cleanability

After normal erasing of low-gloss surfaces, solvents may be used to remove harder-to-erase dry marker inks and residue from other pens. Always clear water rinse after using any cleaning agent on the surface.

The e<sup>3</sup> environmental CeramicSteel surface maximizes the performance of reflected light and reduces surface glare, resulting in improved visibility under a wide range of lighting conditions.

The back panel is removable to access the wiring and cabling of the mediaboard display for initial setup. There are slots in the inner frame, which is available in two powder coat paint finishes to match the base and handle, that engage with the hooks from the back panel. Lift to disengage the hooks from the slots in the frame. Two people are recommended to remove and install the back panel.

Two 4" swivel locking casters and two 4" fixed casters allow the mobile displays to move easily. White casters default to the milk paint specification and black casters default to the black paint specification.

The 2 1/8" H base is metal with plastic bumpers on each end. It is available in two powder coat paint finishes and matches the handle and inner frame paint finish.

The bumper on each end is plastic that complements the base powder coat paint.

The base is reinforced at the corners and includes counterweights.

The handles are located on each side for easy movement. The handles double as storage for dry erase makers and eraser. The handles are available in two powder coat paint finishes to match the base and inner frame. The opening of the handle is 5 3/4" H x 2 3/4" W. The interior dimension is 1 1/2" D x 10" H x 3 1/2" W.

Outer frame trim, located on both sides, is standard in painted MDF and optional in wood veneer to complement any environment.

Inner frame is available in two powder coat paint finishes to match the base and handle.

A shelf can be ordered for items like laptops or miscellaneous items that are used with the mediaboard and mediaboard with Steelcase mediascape technology mobile display units. It is available in two powder coat paint finishes. The storage space on the shelf is 9 13/16" D x 15" W. The shelf thickness is 3/16" and can be placed anywhere along the opening of the well. Rubber bumpers are placed on the lip of the shelf to keep it in place and prevent damage to the panel and edge band.

Specials are possible. To confirm practicality and obtain a quotation, contact Customer Service at 1.800.627.6770.

# Exponents Mobile Display Boards

## Power, Data, Wiring, and Cabling

**Mediaboard well cutout at the front** is 4"H x 39 1/2"W. The inside dimensions of the well are 4"D x 8 1/2"H x 41 1/4"W.

**Mediaboard well** houses the power and display module and is centered in the bottom. For the mediaboard with Steelcase media:scape technology, the well also stores the four PUCKs, which just lay in the bottom of the well.

**Mobile mediaboard display** is standard with a power and display module that is offered in two choices; five white waterproof simplex power outlets, one VGA jack, and one audio jack with monitor connector cables or five white waterproof simplex power outlets, one HDMI jack, and one blank cover with monitor connector cable. The faceplate is in black gloss paint. The power and display module is centered in the bottom of the well.

**Mobile mediaboard display with Steelcase media:scape technology** is standard with a power module, five white waterproof simplex power outlets, and two blank covers. The faceplate is in black gloss paint. The power module is centered in the bottom of the well.

**The monitor for the mobile mediaboard display and mobile mediaboard display with Steelcase media:scape technology** will be routed to plug into the power module in the well. The remaining simplex outlets are used to power up to four mobile devices, including laptops and iPads.

**The corded plug on the power and display module** is a 15-amp plug with a circuit breaker on the end. The cord has approximately nine feet of extension from the grommet exit point.

**The grommet for the plug to exit** in order to power up the mediaboard and mediaboard with Steelcase media:scape technology mobile display units is standard on one side and is available in black plastic.

**The grommet and the base plastic bumper** has a groove to tuck the cord when the outlet is in the floor underneath the unit or when multiple units are placed next to each other in creating space division.

*Tip: The mobile display units do not have a leveling mechanism, coupled with the floors not being even, in most cases it does not allow for a tight fit when put in a row to create space division. Recommendation is to leave a purposeful gap between the units.*

**No larger than 46" monitors** should be used on the mobile mediaboard displays. Monitors more than 55 pounds should also not be used.

**Monitor mount bracket** is standard on mobile mediaboard display and mobile mediaboard with Steelcase media:scape technology units. It is installed in the field.

*Tip: Monitors must be purchased separately.*

**In order to install the monitor mount bracket**, the back panel must be removed. Use the provided bolts and install to the desired mounting hole position on any mobile mediaboard display and mobile mediaboard display with Steelcase media:scape technology unit. The front panel also has cutouts to route the wires from the monitor for a clean aesthetic.

**Monitor brackets** that are assembled to the monitor have three height settings with 3" of adjustment range at 1 1/2" increments.

**For mobile mediaboard with Steelcase media:scape technology units**, all technology is housed in the inner frame in between the fixed front and removable back panel. The media:scape technology is installed in the field.

**Mobile mediaboard display with Steelcase media:scape technology** is only available for Steelcase dealers.

**Contact Steelcase** for technical support for any media:scape related questions at 1.800.334.4922 or email at [techsupport@steelcase.com](mailto:techsupport@steelcase.com), available in English and Spanish Monday through Friday for 24-hour support.

# Exponents Mobile Display Boards *continued*

While **media:scape** can host many types of displays, **media:scape** has been optimized to support LED backlit monitors. It has been designed to support specific Samsung and LG models. For recommendations, go to [www.steelcase.com/mediascape](http://www.steelcase.com/mediascape).

When using a 40" or 42" monitor that is not recommended by Steelcase, utilize the included hardware kit for mounting which provides all necessary cables and hardware to be used. Monitors should be multi-sync, with a horizontal frequency range of 31-80 kHz, a vertical frequency of 55-80 kHz, and detachable C13/C14 cords.

Questions? Please contact us at 888-783-3522 or send us an email at [LineOne@steelcase.com](mailto:LineOne@steelcase.com).

## media:scape PUCKs

**PUCKs (Personal User Control Key)** are standard on the mobile mediaboard display with Steelcase **media:scape** technology and enables the seamless flow of information between team members. They are stored in the mediaboard well. The PUCKs extend out 72" from the front of the mobile display board.

**media:scape** allows workers to collaborate with their devices by using new PUCKs that support a mix of digital and analog connections.

PUCKs are available in VGA, HDMI, DisplayPort, and mini DisplayPort connectors.

Each individual PUCK has a single connector and any combination of PUCKs can be specified on **media:scape** products.

## media:scape PUCKs Product Details

**VGA** has been the standard analog output on most devices for the past decade. Many of today's enterprise laptops have both a VGA and a digital output.

**HDMI** is the common digital output on consumer devices. Most consumer laptops have HDMI outputs today.

**DisplayPort** is the common digital output on enterprise devices. Most enterprise laptops have DisplayPort outputs today.

**mini DisplayPort** is the common digital output on Apple™ MacBooks™.

To determine the appropriate mix of PUCKs, work closely with the customer's IT department.

Connections: VGA, HDMI, DisplayPort and Mini-DisplayPort  
Resolution: Exceeds HD (1080P), supporting resolutions up to 1920x1200 WUXGA

Features	Mobile Mediaboard Display with Steelcase <b>media:scape</b> Technology
Number of PUCKs	4
Number of monitors	1
Detached display option (wall-mounted)	no
User-moveable	yes
Size of display supported	32"-46" LED
Customer-installed	no
Supported monitor types	optimized for LED monitor
Secure monitor with a lock	yes
Maximum monitor weight	55 lb

## Steelcase Maintenance Agreement

The mobile mediaboard with **media:scape** technology includes a one year Steelcase maintenance agreement to provide an enhanced support system for **media:scape** settings with digital components. The maintenance agreement covers:

- software/firmware enhancements
- expedited shipping for hardware replacements
- prioritized technical support

**Maintenance agreement renewal** options are available for one, two, and three year periods.  
► Specifying, page 616

## Surface Materials

**Inner frame, handle, and base (same finish):**

- Black matte paint
- Milk gloss paint

**Outer frame trim:**

- Painted MDF
- Wood veneer

**Front and back panel:**

- e<sup>3</sup> CeramicSteel (magnetic) with milk gloss painted aluminum extrusion

**Shelf (mediaboards only):**

- Black matte paint
- Milk gloss paint

**Casters (non-specifiable):**

- White plastic (default when milk paint is specified)
- Black plastic (default when black paint is specified)

**Base bumpers**

**(non-specifiable):**

- Complementing plastic to base paint

**Mediaboard grommet only (non-specifiable):**

- Black plastic

**Power/display module on mediaboards only (non-specifiable):**

- Black gloss only with white waterproof receptacles (inside trough)

**Wood** is a natural material, slight variations occur in veneer texture, color, grain configuration and stain acceptance. Coalesse stains are all applied with an exacting regard for consistency and are well within traditional tolerances for wood products. Due to natural variations in wood, finished products may vary from samples in color, texture and grain.

*Tip: You should know that finishes may vary slightly in tone or character from each other or from the samples Coalesse produces. No guarantee can be made for exact match.*

# Exponents Mobile Display Boards

Coalesse strives to produce a consistently high quality product and some natural variation in color is to be expected. The variation is especially apparent on natural woods which have no stain applied, for example 3525 Natural Maple. This color variation is normal and reflects the unique and natural properties of wood. This should not be considered a defect.

**Stain swatches** are reproduced in the Surface Materials Color Palettes.  
► See *Coalesse Surface Materials Reference Guide* for a list.

**Swatch cards and actual samples of standard wood veneers** are available from your Customer Service representative.

**Additional wood veneer stains** are possible. Coalesse offers two programs to accommodate customers who need special stains—Stain-to-Match and Stain and Finish to Match.

**Stain-to-Match option** is a special Coalesse program that will match a wood stain sample that you provide. There is no additional charge for this service. You must supply a sample of reasonable size (3" x 3" or larger is usually adequate). Coalesse will formulate a stain, produce a matching sample, and send it to you for approval. When we receive your written approval, we'll schedule production of your order.

*Tip: Stain-to-Match will achieve a color match to the sample only. Graining of the wood veneer and final surface finish may differ from your original sample. See Stain and Finish to Match.*

**Stain formulas for special stain color matches** are all retained in Coalesse's archives so that you can refer to them in future orders and skip the approval steps required for the initial order.

**The painted medium density fiberboard (MDF)** is utilizing molding grade MDF, therefore, the 45 lb density is consistent throughout the entire thickness of the board. This allows for a smooth edge when painted. Three coats of water reducible finish is applied to the board in milk or black. ## Care & Maintenance

**Veneers and painted MDF** should be cleaned regularly with mild soap and water and dried with a soft cloth. To polish veneers, use silicone-free household polishers. Use sparingly.

*Tip: Never use ammonia-based cleaners or wax on wood or painted MDF surfaces.*

**Painted finishes** should be cleaned with a liquid detergent and water. Remove stubborn stains with liquid cleaner, such as Formula 409.

**All products** should be inspected and maintained regularly by inspecting casters and glides for damage and inspecting all moving parts, i.e., suspensions, for damage and wear.

### Cleaning Wood Surfaces

Keep a supply of soft, clean, absorbent cloths handy for wiping up spills and regular dusting.

To dust, wipe with a slightly damp, soft cloth, using another soft cloth to dry. Always wipe the surface in the direction of the woodgrain. Use a quality cleaner or flax soap formulated especially for use on wood surfaces. Do not use oils or ammonia. Dilute the cleaner as directed by the manufacturer. Dampen but do not saturate a soft cloth with the diluted cleaning solution. Wipe the surface in the direction of the woodgrain to remove dirt and fingerprints. Wipe the surface clean with a soft, dry cloth.

### Cleaning CeramicSteel Markerboard Surface

- Cleaning/daily care and maintenance applies to both a<sup>3</sup> CeramicSteel and e<sup>3</sup> CeramicSteel.
- Wipe board with a clean cloth moistened by a liquid markerboard cleaner or a solution of 50% water and 50% isopropyl alcohol.
- Rinse with clear water.
- Wipe dry with a clean cloth. If your board is used daily, the cleaning should be performed at least 2-3 times a week.

More thorough cleaning may be required if writing is left on the board for more than two days.

### Markers

Use any high-quality dry erase marker.

**CAUTION!** The use of Low Odor markers may cause ghosting to occur. If Low Odor markers have been used, the surface can be completely cleaned by following the cleaning instructions above. Remember to discard eraser if used with Low Odor markers.

### Removing Permanent Marker

Option 1:

- Write over the top of the permanent marker ink with a dry-erase marker
- Simply erase

### Option 2:

- Moisten a clean, dry cloth with isopropyl alcohol
- Wipe the board in a circular motion to loosen marker residue
- Rinse with clear water
- Dry the board with a clean cloth
- Repeat these steps as necessary

### Installer's Instructions for Initial Cleaning at Time of Installation

**NOTE:** These initial cleaning instructions are shipped with every board.

- For initial cleaning, wipe your board with a clean cloth moistened by a mild, alcohol-based cleaner.
- Rinse with clear water. This step is simple, but very important.
- Wipe dry with a clean cloth.

# Exponents Mobile Display Boards *continued*

## Mobile Display Board Application

Easily transport the media:scape experience anywhere the mobile mediaboard with Steelcase media:scape technology takes you.

- Optimized for small teams of two to four to collaborate without interruption. No cables to pass, remotes to lose, or software to install.
- With the four PUCKs in the mediaboard well, everyone at the table has equal access to share critical information.
- Plug into a standard three prong outlet to bring power to the monitor and the five power outlets inside the mediaboard well.
- Allows users to apply the technology in a diverse range of settings, from hospitality to education, business, and healthcare, wherever collaboration happens.

## Standard Includes

- Need help? Product details, page 600
- One removable and one fixed whiteboard panel: 7655 e<sup>3</sup> CeramicSteel markerboard surface with 4145 Milk Gloss painted aluminum trim
- Base, handle, and inner frame: paint
- Base bumper: plastic to complement paint on base
- Outer frame trim: painted MDF
- Two directional and two locking swivel 4" casters: 6009 Arctic; White plastic for 4145 Milk Gloss paint selection or 6000 Black plastic for 4137 Black Matte paint selection
- Ships assembled

## Required to Specify

- 1 Style number
- 2 Paint color number for base, handle, and inner frame:
  - 4135 Black Matte
  - 4145 Milk Gloss
- 3 Painted MDF color number for trim panels:
  - V145 Milk
  - V197 Black
- 4 Options, if selected (see below)
  - See Coalesse Surface Materials Reference Guide.

## Options

Surface Materials	Options	U.S. Price	Required to Specify

# Lock and Keying Denizen and Exponents

All locking products are standard with factory-installed, keyed-random locks. Specific and random keying are available as field-installed options.

Locks consist of a factory- or field-installed lock cylinder and a factory-installed lock face ring.

One type of lock is available—the standard keying system (TA series).

## Factory-Installed Keying

Factory-installed locks are always key random (standard). Key random means that the locks will be assigned arbitrarily at the factory with key numbers ranging from TA100 to TA149. All locks within a unit will be keyed alike.

*Tip: Random keying can mean that different furniture units will have the same key number. If you must have all locks keyed differently, you should specify field-installed, key specific lock cylinders.*

► See below.

### Key Random

-  TA110
-  TA124
-  TA110

## Field-Installed Keying

Field-installed locks are only available on products that include factory-installed lock mechanisms.

**Specify "plug"** when specifying furniture, and the product will ship without the lock cylinder.

**Front-removable lock cylinders** must be specified separately. You must also order a special lock tool to install or remove lock cylinders in the field.

*Tip: Lock tools are reusable. You do not need to order additional lock tools with every furniture order.*

Lock cylinders will be shipped separately so that you can install the locks when you are ready.

Two keying choices are available for field installation—random (standard) and specific.

**Key random** means that the locks will be assigned arbitrarily at the factory with key numbers ranging from TA100 to TA149.

*Tip: Random keying can mean that different furniture units will have the same key number. If you must have all locks keyed differently, you should specify key specific lock cylinders.*

- Key Random
-  TA110
  -  TA124
  -  TA110

**Key specific** means that you can specify any key number from TA100 to TA149. This option can be used to key all the furniture units in a workstation or department the same.

*Tip: Designate the quantity per key number in your specification.*  
► See example at right.

- Key Specific
-  TA115
  -  TA115
  -  TA115

**Example** of a typical lock cylinder specification is shown below:

10	LOCK9211TA TA100
5	LOCK9211TA TA146
15	LOCK9211TA TA131
<hr/>	
30	Total
1	4678137SR standard lock tool

 **For Canadian Pricing**  
Multiply U.S. Price by the Canadian price factor.  
► See page 1 for details.

# Lock and Keying Denizen and Exponents

## Field-Installed Lock Cylinders

*Tip: Lock price is included in price of furniture with locks.*

*Tip: For replacement lock cylinders, refer to Service Parts.*

*Tip: You can change lock cylinders in the field by using the appropriate lock tool.*

Standard Includes	Required to Specify

# Maintenance Agreement Renewals

## About Maintenance Agreement Renewals

Steelcase maintenance agreement renewals provide an extension of our enhanced support system that features software/firmware enhancements, prioritized technical support, expedited shipping for hardware replacements, and warranty extension on technology components when outside of warranty.

## Renewal Lengths and Bundling Option

Maintenance agreement renewals are available for 1, 2, and 3 year terms.

Customers with multiple maintenance agreements will be able to bundle some or all of their applicable Steelcase technology products into a single maintenance agreement.

## How to Order

Maintenance agreement renewals follow a special ordering process that requires a customer specific quote generated by Steelcase. Please contact [MA@steelcase.com](mailto:MA@steelcase.com) for complete renewal process information or with any questions.

Tip: When selecting the 2 year renewal option, the list price is 10% less per year compared to the base price. When selecting the 3 year renewal option, the list price is 25% less per year compared to the base price.
