

# Masters Series®

## Private Office

Masters Series is a complete private office product line that gives designers choices to be creative, enables personalization for users, contributes to unique branded environments, and supports sustainability principles. Easily expand your options by utilizing our Tailored Solutions™ customization capability in your designs.

HAWORTH®

### Befitting Design

Masters Series enables customization through personalized, scalable office spaces. Create the image you desire from high-quality, crafted, durable construction. Do all this while making a positive impact on the environment through our eco-friendly veneer production—at no extra charge.

### Features

From the simplest request—such as unique shapes and sizes—to the complexity of tailored componentry, Masters Series meets your design demands. Its wide selection of top-quality veneers, high pressure laminates, paint, glass, drawer pulls, and edge options create unique environments that express your brand and suit your organization.

**Durable, glue-and-dowel, case-clamped construction** – Creates clean alignment of tops and edges, built to last.

**ISO 14001 certified** – Assures quality processes and sustainability.

**Condensed footprints** – Accommodate space density at a variety of price points.

**Responsibly selected veneer** – Sustainably sourced and finished materials with no upcharge.

**High Pressure Laminate (HPL)** – Available on all surfaces; protects against impact, abrasions, and scratches that occur in daily activities, while maintaining quality and visual appeal.

**Microfit edgebanding** – Seamlessly blends with laminate material while providing four times the bond strength of traditional edgebanding.

**EcoShield™ wood finishing process** – Locks in color, provides durability, and showcases the texture of wood through its semi-open pore, environmentally responsible, water-based, ultraviolet (UV) finish.

### Colors, Materials, Finishes

Masters Series can be specified with a mix of materials, including veneers, laminates, paints, and glass. Within the high-pressure laminate offering alone, designers choose from a large array of patterns—from solid colors to realistic wood grains.

### Certifications

- Forest Stewardship Council® (FSC) certified
- GREENGUARD® Certified
- LEED® certified
- BIFMA certified
- VOC reduction – contributes to the Air pillar in the WELL Building Standard®
- Veneer standards align with Architectural Woodworking Institute (AWI)
