Glass and Acrylics	25

Considerations Many factors outside of Innovant's control can affect the materials specified with regard to color, texture, sheen, adhesion, etcetera. These include, but are not limited to; age, internal and external environmental conditions, wood species, bundles and fabric lots, manufacture source, lighting conditions, usage, new standards introduction over time, etcetera. Color and texture deviations are minimized by Innovant at every opportunity, but these variances are a natural characteristic of even the best source materials available today.

Sustainability Environmental stewardship is a primary component of Innovant's core philosophy. It has always been part of how we work and how we think.

With years of LEED project experience, our in house LEED APs, engineering, manufacturing and sales teams can help you determine an optimal design in accordance with the U.S. Green Building Council's principles.

Innovant products are ideal for project teams seeking LEED certification, as well as customers who prioritize environmentally sustainable furniture specification. All of our standard products already conform to a variety of eco-requirements and many items can be further configured to maximize LEED points.

Wood Laminates USGBC LEED Credits may be obtained through use of Wilsonart Laminate in these areas:

MR 4 Recycled Content

MR 5 Regional Materials

MR 6 Rapidly Renewable Materials

MR 7 Certified Wood

IEQ 4.4 Low-Emitting Materials - Composite Wood and Agrifiber Products

IEQ 4.5 Low-Emitting Materials - Systems Furniture and Seating

Panel Fabrics CO2 emissions from 100% of the electricity used by the manufacturer to produce this product have been measured and offset in accordance with the Carbon Neutral Protocol.

INNOVANT

Modern. Intelligent. Tailored.

Innovant provides advanced, integrated design that supports forward looking technology for today's connected workplace.

A recognized leader in the industry, we focus on integrating seamlessly into the overall architecture of a space, optimizing real estate, promoting employee productivity, and ensuring long term value to the client business. Innovant's adaptable open plan workstations, conference solutions, private office designs and specialty furnishings are available to view in showrooms worldwide.

We know that our clients navigate complex decisions when choosing a furniture system. Innovant provides expert guidance along the way, collaborating with client teams to determine optimal product configurations. Where appropriate, we will recommend and engineer tailored solutions based on specific client requirements. Every Innovant product is designed for efficient installation and easy reconfiguration over time as new features are introduced.

Sustainability

Environmental stewardship is a primary component of Innovant's core philosophy. One of our key missions is to minimize our impact on the environment and to ensure our products are environmentally sustainable. All of our standard products already conform to a variety of eco-requirements and many items can be further configured to maximize LEED points.
