## INSPIRED. INSPIRING.

The Fretwork collection brings unprecedented detail through precision and lightness of line. The rhythmic and interlacing mathematical patterns create a lace effect that is both modern and architectural—almost as though there is a delicate geometric scrim stretched across the floor plane. The fresh white lines or soft dark lines offer exquisite precision line quality through the use of advanced digital technology.

Harmonic in Luniform, monolithic tile installation

Harmonic in Luniform, monolithic tile installation

Designed by Cresta Bledsoe, Fretwork consists of 4 geometric patterns that range in scale and have edge-to-edge matching for uninterrupted, continuous pattern when used alone, or precise registration when patterns are used together. The fine interlocking patterns achieve the rare dichotomy of large scale pattern that becomes a subtle, understated textural plane.
