INSPIRED.

In the distance, a cresting swell breaks the horizon. Boards align and begin to propel forward in anticipation of the ride ahead on this wall of water. As if floating on air, we chase this ideal to take our minds off a thousand different things, becoming one with the wave, and ultimately, the world.

INSPIRING.

Kai is a modular carpet collection that explores iconic images and influential patterns of classic American surfing culture. Kai, interpreted as “ocean”, is grounded with two textures, Tapa and Nalu, that stand alone or in combination to provide a subtle, yet sophisticated floor. Combine these textures with the larger scale Fin design to gain movement and a fresh sense of scale. Add a custom coloration to Fin and the floor becomes a one-of-a kind expression of the freedom, adventure and creativity experienced by the most focused surfer.
