INSPIRED.

Learning is a journey. Life lessons may be received under a grove of trees, while engaging in work or play, but most often when least expected. It's during those unplanned moments that we decide if we want to paint inside the lines or perhaps, in the spirit of a child, add bold strokes of color to change our thinking and discover a new path forward.

INSPIRING.

Like the original Lyceum in ancient Athens, the two patterns in the Lyceum Collection allow for foundation building and provide individual control to create a new experience through made-to-order coloration. This robust severe-rated modular carpet consists of two patterns that capture the simplicity of movement through a balance of organic layers. Plato becomes the foundation with a line of 16 neutrals and 36 bright accent colors for selected placement. With a choice of one, two, or three colors from the accent palette, Plato becomes the brilliant Aristotle, reflecting an individual's brand character or spirit of the interior.
