

DAVIS[®]

Perch

Designed by Davis Design Team

Perch proves that sometimes simple can be brilliant. This delightful stool from the Davis Design Team is functional in collaborative areas as well as smaller workstations.

What appears to be a square-shaped trunk is actually angled ever-so-slightly along each plane for enhanced visual interest. Perch's seat, which is padded for comfort, forms a downward-sloping diamond shape, allowing users to rest in a more natural, relaxed position.
