

Jive®

Conference Tables

From formal meetings to informal gatherings, Jive conference tables support today's workspace needs. When it's time to reconfigure, Jive tables easily adapt to conference rooms and floorplates, offering an array of options for design freedom.

HAWORTH®

Distinctive Style and Support

With their wide range of shapes, sizes, and bases, Jive tables help support a healthy workplace through comfortable solutions that are easy to specify.

Features

Refined, practical design features—including thoughtful color and finish options—create variety and efficient space planning for seamless integration into any environment.

13 top shapes and two edge options (edgeband and knife edge) – Create a breadth of application variety; sizes range from 24" round to 54" x 216" rectangle.

Five fixed-height options – Support various postures, workstyles, and settings; height ranges: 16", 20", 29", 36", and 42" depending on worksurface shape and size.

Bridge base – Accommodates a wide range of top sizes to fit small meeting spaces or large conference rooms; optional die-cast aluminum feet (painted or polished); optional foot rail also serves as a footrest.

Post legs (round or extruded) – Provide aesthetic choices for informal meeting spaces; available with painted finish.

Optional casters and glides – Offer leveling capability for top alignment, whether table is stationary or mobile.

Colors, Materials, Finishes

Offered in standard Haworth laminate and wood finishes with edgeband and knife edges, allowing Jive to coordinate across the broader Haworth product platform.
