

X Series®

Desks and Casegoods

Fluctuating business climates require organizations to adapt quickly and efficiently as priorities change. Furniture must be nimble enough to respond to organizational changes—and budget. X Series desks and casegoods flex and grow with business needs, for a quality, cost-effective solution that accommodates any floorplate with consistency in a variety of applications.

HAWORTH®

Flexibility for Growth and Change

X Series responds to changing business needs—physically and visually—for the long-term. Easy to specify for both private offices and open plan environments, X Series offers the durability and simplicity that allow easy configuration and re-configuration as a business evolves.

High-quality wood, laminate, and steel options let you mix and match to create a customized look for your culture and brand. Combine X Series caseworks with X Series storage to expand options even further.

Features

X Series has the right elements for a variety of workstyles and needs. Choose from desks, credenzas, returns, and bridges to transition between private and open workspaces. You can rely on X Series' durability, strength, and security features—all backed by a lifetime warranty.

Patented box-in-box construction and frame inserts – Provide case durability and prevent racking

Full-extension steel ball bearing drawer slides – Enable complete drawer access and smooth operation

Rack-and-pinion lock system with dual-side lock bars – Prevent drawers from being pried open

Wear resistant finish and rust inhibitor – Keep components in good condition over the long-term

Wide variety of pull options – Create a personalized design aesthetic and promote company brand consistency

Premium veneer and wood – Follow high standards for quality and sustainable practices

High-pressure laminate – Provides greater impact and scratch resistance to protect against daily use over the long-term

Colors, Materials, Finishes

X Series easily integrates into any environment with a generous selection of finishes, materials, and pull options. Choices include a range of wood, veneer, paint, and laminates in a large selection of solid colors or wood grain.

Certifications

- Forestry Stewardship Council® (FSC) certified
- BIFMA Level 3 certified
- GREENGUARD Gold certified
- Veneer standards align with Architectural Woodworking Institute (AWI)
