

Seating Specification Guide

Availability

Electronic price list updated with release 188.D (U.S.) and 150.D (Canada), dated December 17, 2018.

Spec News is available on village.steelcase.com. Search Steelcase Marketing Resources (Adstock) and download the current release's Spec News.

Tip: Steelcase Marketing Resources is a new global platform for ordering Steelcase marketing materials that replaces Adstock.

View or download Steelcase Specification Guides at [https://www.steelcase.com/resources/documents?tax-\[doctype\]=spec-guide](https://www.steelcase.com/resources/documents?tax-[doctype]=spec-guide).

Transitional products in this specification guide are **maintained for existing customers only** and are likely to be phased out over time. These products are indicated with a . Products that are scheduled to be culled are indicated with an , followed by the last order entry date.

Surface Materials

The surface materials team has announced the launch of the Finish Library, found at <http://finishlibrary.steelcase.com>.

► For a list of all trademarks, refer to the last page of this specification guide.
© 2018 Steelcase Inc.

This specification guide contains multiple Steelcase and turnstone product lines

which are designed into one specification guide for your convenience. Note that each product may be subject to different pricing terms and conditions.

For Canadian Pricing

Canadian factor can be found at steelcase.com/CADpricing.

Calculate in the following order to avoid rounding errors:

- Multiply the base price and each option by the Canadian factor.
- Round each to the nearest dollar.
- Add base and options for total list price.

Ten Tips: How to Get the Most Out of This Book

Tip 1

Watch the tabs on the right-hand edges of the pages. They'll always indicate which chapter you are in.

Tip 2

Use the Statement of Line pages for an overview of the available components, their sizes, and page references for additional information. Each *Understanding* chapter includes a statement of line after the table of contents.

Tip 3

Find cross references by looking for page numbers flagged with an arrow.

Tip 4

Study the product detail pages in the *Understanding* section to learn everything an expert knows about specific products. Each product detail page in this section contains the following features, where applicable:

- Product Drawing
- Actual Dimensions
- Product Details
- Connections
- Wiring and Cabling
- Surface Materials
- Application Topics

Product Drawing shows you what the product looks like and points out important features.

Product Details gives specific information on the product and how it is used.

Connections describes how the product is assembled or how it attaches to another product.

Actual Dimensions table lists the dimensions of the product.

Wiring and Cabling details the power and cable-management and cable routing capabilities of the product.

Surface Materials lists what material is used for each part of the product.

Stackable Chair

Basics of Ergonomic Seating

A well-designed, ergonomically advanced chair that allows a full range of healthy postures throughout the day and can contribute to worker wellness and productivity.

Neck is straight or slightly forward.

Shoulders are relaxed so arms hang naturally.

Back has full contact with the backrest (sit all the way back in your chair).

Elbows and forearms can rest comfortably on the arms of your chair, or on worksurfaces.

Lower back fits into curved lumbar support.

Tension is adjusted so backrest reclines easily, yet provides smooth, even support, and encourages postural change.

Top of monitor should be at eye level.

Screen is 20 to 30 inches from the eyes. Screen is at eye level slightly lower and directly in front of worker so head is not turned.

Wrists should be straight when keying or mousing, not bent up or down.

ANSI/BIFMA is the American National Standards Institute/Business and Institutional Furniture Manufacturer's Association. All Steelcase furniture meets or exceeds ANSI/BIFMA standards for structural quality. Gesture, Leap, Think, Amia, and Series 1 work chairs, as well as Gesture stool, are all tested and warranted for users up to 400 pounds. All other Steelcase brand work chairs are tested and warranted for users 300 pounds and under. Collaborative chairs tested and warranted for users 300 pounds and under are: QiVi, cobii, i2i, and Node. Move is tested and warranted for users 400 pounds and under. Other multi-use chairs are tested and warranted for users 300 pounds and under: Max Stacker III, Player (armless only), and Jersey. All Steelcase Seating products also follow the ergonomic guidelines established in BIFMA G1-2013.

When keying or mousing, forearms are parallel to the floor.

Thighs are parallel to the floor.

Feet are flat on the floor or on a footrest.

If worksurfaces and keyboard support are not height-adjustable, raise your chair's seat height to achieve the appropriate relationship to your tasks. If this leaves your feet dangling above the floor, use a footrest.

⚠ CAUTION

Regularly inspect for damaged or broken parts and loose fasteners (screws, etc.). If any of these conditions exist, remove from service immediately. Repairs are to be made using only factory authorized parts and methods. Hard wheel casters must be used on carpeted surfaces only. Use on hard surfaces, including floor mats, will affect chair stability. For information on furniture which requires service, call Steelcase toll free at 1.888.783.3522. Failure to follow these instructions could result in property damage or personal injury.

Basics of Adjustability

Steelcase chairs offer varying levels of adjustability to meet the needs of many types of users. Adjustable chairs may offer one or more of these features:

Mechanisms

Natural-glide feature causes the seat to slide forward as the user reclines, keeping the user within his or her vision and reach zone (462, 464).

Advanced swivel-tilt feature incorporates a no front-rise design that allows the seat to remain level even when the user leans back (453, 433).

Synchro-tilt feature means the chair back and seat are synchronized to move in a 2:1 ratio. When the user leans back, the seat rises only half as much, allowing the user's feet to remain flat on the floor (499, 466, 482, Jersey).

Advanced synchro-tilt allows the chair back and seat to move in a 2.8:1 ratio. As the user leans back the seat rises slightly to keep the user's feet on the floor (442).

Weight-activated feature allows for an amount of recline resistance that is directly proportional to the user's weight. The natural-glide feature keeps the user within vision and reach zone (434, 465).

Balanced Action Rocker (BAR) mechanism allows users to recline as the seat flexes. BAR relies on physics to let any user, regardless of posture, height, or weight, find the most comfortable position (487).

Dual-swivel feature allows the back and seat to swivel independently as well as together (416).

360°-swivel feature allows micromovement to stay engaged at fixed height (428, 480).

Seat Adjustments

Pneumatic height adjustment allows the user to remain seated while adjusting the seat height by way of a control button or lever (all work chairs).

Passive seat edge angle allows front edge of seat to drop down while seat angle remains unchanged (442, 462, 499, 465, 482).

Seat angle adjustment allows the user to change the angle of the seat to a forward position (453, Jersey).

Seat depth adjustment allows the user to slide the seat forward or back (442, 462, 453, 465, 466, 482, Jersey).

Gliding seat automatically glides forward and back adjusting to the natural movement of the user's body (428).

Back Adjustments

Lumbar height affords additional lower back support. Grasp lumbar handles and slide up or down to adjust (442, 462, 453, 465, 466, 482).

Lower back firmness changes the amount of firmness user feels in lower back (462, 464).

Upper back tension feature provides an increasing amount of force that increases as the user reclines (462, 464).

Back tension adjustment allows the user to control the amount of resistance felt when leaning back in the chair (all chairs except 487).

Pivoting back automatically follows the natural motion of the user's back as they recline (428).

Your Preference back control includes four settings—weight-activated, boosted, mid-stop, and upright—that allow for personal preference and work styles (465).

Headrest adjustment allows the user to support head and neck in upright or reclined posture (442, 462, 464, 465, 499).

Back height adjustment allows the user to raise or lower the chair back (453, 466).

Variable back stop allows the user to lock the back upright or to preset the range of recline (442, 462, 453, 464).

Core equalizer connects the back and seat to the advanced synchro-tilt and allows appropriate amount of lumbar support in any angle of recline (442).

Upright back lock allows the user to lock the backrest in a full upright position or release it for full recline (433, 466, 482, 499, Jersey, Kart).

Multi-position back lock allows users to recline the back to the desired angle and lock it in place (466).

Arm Adjustments

Arm height adjustment allows the user to move the arms up or down independently (442, 462, 453, 465, 466, 482, 499, Jersey).

Arm width adjustment allows the user to move the arms in or out independently (442, 462, 453, 465, 466, 482, 499, Jersey).

Arm pivot adjustments allows the user to position arm rests as appropriate for the task being performed (442, 462, 453, 465, 466, 482, 499, Jersey).

Arm depth adjustment allows users to get closer to their work by chair arms moving out of the way (442, 462, 465, 466, 482, 499).

Other Features

Foot ring height can be adjusted up or down for user comfort. Cannot be done from seated position (434, 442, 462, 453, 465, 482, 487, Kart).

Steelcase seating is supported with an array of informational materials, tools, and software to help you plan efficiently.

Product brochures and planning tools can be ordered through your Steelcase area office by calling 1.800.784.0358 or through the Marketing Resources website at village.steelcase.com.

Printed Materials

Surface Materials Reference Manual

This publication provides:

- An explanation of the surface materials and their categories
- "Available on" matrices
- Vertical surface fabric and seating upholstery selection listing
- Technical data for surface materials
- Surface material care and cleaning instructions

Planning Tools

Quick Ship Guide

This handbook describes all Steelcase, turnstone, and Coalesse products that are available for Rapid2 (ships in 2 days), Rapid5 (ships in 5-7 days), or Coalesse Rapid10 (ships in 10 days).

Computer Tools

Digital Publications

You can access these digital publications at www.steelcase.com or village.steelcase.com.

Electronic Catalog

Accurate sales quotations and purchase orders for Steelcase products are created with specification software that uses Steelcase Electronic Catalog data. Use the data to specify and price style numbers and options for every Steelcase product. The data is updated bimonthly by Steelcase and provided to software programs including: the Hedberg Business System, SmartTools – Steelcase's design and specification software (for more information on SmartTools, please email SmartTools@steelcase.com), the ProjectMatrix Project-Symbols libraries, as well as 20-20 CAP Studio.

Furniture Symbol Graphic Data

Steelcase creates 2D and 3D furniture symbols (with attributes) for planning and initially specifying Steelcase products. This data is incorporated into several add-on software packages that work in either a Microstation or an AutoCAD drafting environment.

More Information

For more information about these and other software tools to help you plan effective work environments, email fsl@steelcase.com.

Seating Product Training

Basic training for Steelcase seating products is available through the Steelcase University website at village.steelcase.com.

Support

Steelcase Capabilities

Steelcase products are distributed, installed, and serviced through a network of more than 600 dealers worldwide. Steelcase is also represented with offices and corporate showrooms in 26 U.S. cities, 4 Canadian cities, and in France, Germany, Great Britain, and Japan. Every Steelcase product meets our exceptionally high standards of quality and durability and comes with the Steelcase assurance of excellence in service.

For assistance,

please call your local dealer, the Steelcase Solutions Resource Team, or the Steelcase Solutions Fulfillment Team at 1.888.STEELCASE (1.888.783.3522) or send an email to one@steelcase.com.

Call the Steelcase Solutions Resource Team prior to placing an order, when working on a bid, or when you need information about product applications and specifications.

Call the Steelcase Solutions Fulfillment Team if you have submitted an order to Steelcase and you need to speak to your Solutions Fulfillment Team Representative about the order. Also call if you have any post-shipment quality concerns or service parts questions.

For warranty information, please go to <http://www.steelcase.com/warranty/>.

Outside the U.S.A., Canada, Mexico, Puerto Rico, and the U.S. Virgin Islands, call 1.616.247.2500.

For information about Steelcase, the name of your nearest Steelcase dealer, or for product literature, call 1.800.333.9939 or visit our website: www.steelcase.com.

Environmental

Environmental Information

Product Environmental Profiles (PEP) provide key environmental attributes such as certifications, recycled content, recyclability, and potential LEED contributions. To learn more about sustainability at Steelcase, visit www.steelcase.com/sustainability.

Understanding and Specifying Gesture 442 Series Work Chairs

Work Chairs

Highly adjustable task seating offers maximum personalization for fit and comfort for a range of duration and use. By making a series of simple adjustments, you can customize the chair to your body, preferences, and tasks. These chairs provide continuous, stable, comfort, and can be quickly adjusted to support you in upright, and reclining work postures.

Gesture 442 Series

Gesture is a new sitting experience that is designed for the interface between user and technology, inspired by the movement of the human body, and created for the way we work today.

Back frame, back shell, seat perimeter, arms, and base are standard in black/black or dark/dark color schemes. Polished aluminum base, dark/light, or light/light color schemes are available as options.

Core equalizer provides just the right amount of lumbar support in any angle of recline.

Casters have hard, dual wheels that roll smoothly on carpets. They are 2 $\frac{1}{2}$ " for increased mobility. Soft, dark grey treaded, dual-wheel roll-control casters are available for use on hard floors or mats. Glides are also available as an option.

Tip: Do not roll the chair across asphalt during installation as this may damage the casters.

Variable back stop with four positions is standard.

Back tension requires only 3 $\frac{1}{2}$ complete turns and accommodates a broader range of users by allowing user to change the rate of increase in force as the chair reclines.

Pneumatic adjustment mechanism is standard. It adjusts with a 5" range. A 3 $\frac{3}{4}$ " low-range pneumatic seat-height adjustment and a 5 $\frac{1}{2}$ " high-range pneumatic seat-height adjustment are available as options on chairs. Stools have an 8" range.

Seat depth adjusts 2 $\frac{3}{4}$ " to accommodate various leg lengths.

Wrapped upper back upholstery design is available.

360° arm enables 360° of motion to give arm support where it is needed with one release.

3D LiveBack moves with the shape of the user's spine as sitting positions change.

Outer back and outer seat are plastic.

Arm depth can retract 2 $\frac{1}{8}$ " to allow user to get closer to worksurface and into tight corners.

Soft arm caps independently pivot 15° inward and 15° outward to accommodate individual user preferences.

Arm width can adjust parallel from 10 $\frac{1}{4}$ " to 22 $\frac{1}{2}$ " for forearm and elbow support.

Arm height can adjust 4 $\frac{1}{4}$ " for arm and elbow support.

Passive seat edge angle allows the front edge of the seat to flex 1 $\frac{1}{2}$ " to relieve pressure under the user's thighs.

Seat perimeter is made of flexible elastomer that provides comfort to larger users and allows alternative postures.

Five-arm base is plastic, a polished aluminum base is available as an option.

Product Details

Adjustability instructions are included with every chair. Instructions can also be found at www.steelcase.com.

3D LiveBack allows the back to move and conform laterally, sagittally, and torsionally to support individual users.

The core equalizer is powered by a torsional spring that adjusts with the angle of the seat and back to provide less lumbar support in a deep recline and more lumbar support in an upright posture.

Rectilinear arms with soft caps are standard.

Adjustment Features

Seat Adjustments

Seat height adjusts pneumatically. To lower, hold handle up while seated. To raise, hold handle up and keep weight off the chair. Range of adjustability is 5", from 16"H to 21"H, and is standard on work chairs. An optional 5½" high-range of adjustability (17"H to 22½"H) and a 3¾" low-range (14½"H to 18¼"H) are available as an option. Stools are standard with an 8¼" range of adjustability (24"H to 32¼"H).

Seat depth adjusts 2¾" (15¾" to 18½") by rotating dial while seated for an easy fine-tuned fit. This feature is standard on work chairs and stools.

Passive seat edge angle flexes 1½", relieving pressure under the user's thighs. This feature is standard on all work chairs and stools.

Flexible side edges. Comfort goes all the way to edges and requires no adjustment. Perfect for large users and has the ability to side sit.

Adaptive bolstering. The seat has air pockets carefully placed beneath the foam to give consistent comfort and support to a range of users.

Back Adjustments

Back tension. Turn the knob forward for more resistance and backward for less resistance. Adjust back tension for appropriate amount of resistance.

Variable back stop.

To lock backrest in upright position, lean forward and flip lever down. Flip lever up to unlock for full-range motion. There are four settings to give just the right angle of recline.

Lumbar height adjusts 4" (5¼" to 9¼") from seat by grabbing exposed tabs and sliding the lumbar support up or down. This feature is optional on work chairs and stools.

Headrest adjusts 5" vertically and measures 8"H x 10½"W. It tilts 4" forward and the cushion rotates 90°. Plastic shell on the headrest is available in black, merle, or seagull and will match the plastic back shell. Upholstery can match or contrast the seat and back material. It is not available to order separately for installation on existing Gesture chairs. Headrest is available on stools as a special only.

Arm Adjustments

360°-arm. One release enables 360° of motion to give arms support where it is needed. To adjust arm cap position, grasp arm caps and slide in any direction. The 360° provide a great dimensional range for large users and many postures, and ensures proper support when using a range of technology, mobile or fixed.

Gesture 442 Series, continued

Arm width adjusts parallel 6 1/8" per arm for a total range of 10 1/4" to 22 1/2" between arms.

Arm height adjusts independently 4 1/4" (7 1/4"H to 11 1/2"H) to relieve upper back and shoulder fatigue.

Arms pivot independently 15° inward and 15° outward. Grasp arm and push front to left or right.

Arm depth adjusts 2 1/8" to enable user to get closer to worksurface.

Other features

Cartoned request on dealer purchase order forces Gesture chairs to ship knocked down in three pieces; the seat and back, the base, and the pneumatic cylinder. This allows for shipment in a smaller carton. Assembly by a qualified dealer installer is required. Assembly instructions are included. This does not apply to Gesture stools. No additional tools are required for assembly.

Armless models are also available.

Column and foot ring on stools adjusts by first lifting ring and rotating it counterclockwise to unlock. Then raise or lower ring up to 3 3/4" to desired position before rotating it clockwise to lock.

Surface Materials

▶ See surface materials on page 538 for specific availability or refer to the *Surface Materials Reference Manual* for further information.

Open slats in the back shell will appear as a matching color to the back surface material if specified with Cogent:Connect or 3D Knit. Slats will appear as black if any other seating material is specified.

All Steelcase seating with standard upholstery fabrics complies with requirements of the State of California Technical Bulletin 117-2013. All standard seating is labeled to be in compliance with California 117-2013.

Programs & Services

▶ See the *Surface Materials Reference Manual* for further detail about programs and services offered for seating.

The Customer's Own Material (COM) Program

offers the opportunity for customers to select fabrics that are not offered through the standard Steelcase surface materials program for use on Steelcase products.

Through the COM program, Steelcase will test your materials for application on Steelcase products. Once approved, you can place your order. Steelcase will facilitate the entire ordering process and give you a production schedule. Steelcase will order the COM fabric directly from the textile manufacturer. For up-to-date information regarding fabric test results for all COM fabrics and details regarding yardage requirements for most Seating lines, visit the COM website. To locate the COM website:

- Visit www.steelcase.com

Soil retardants are treatments that provide long-term soil and stain resistance to a fabric without affecting the shade or the integrity of the fabric. The following Steelcase Textiles are available pre-treated with soil retardant. (You do not need to select the soil-retardant option for these fabrics and incur the upcharge.)

- Jacks
- Link
- Spyder

For information on soil retardant fabrics on Select Surfaces, please refer to the *Surface Materials Reference Manual*.

Soil-retardant treatment is available on all other seating fabrics at an additional upcharge per seating unit. To order this option, please select "Soil-Retardant Treatment" under "Optional Accessories."

For soil-retardant treatment on COMs, please select "Soil-Retardant Treatment" under "Optional Accessories." Minimums or additional yardage may be required. Please contact the vendor directly for specific information. Extended lead times may be necessary for this service.

Contact your Steelcase Solutions Fulfillment Team Representative at 1.888.STEELCASE (1.888.783.3522) or send an email to lineone@steelcase.com.

Gesture Upholstery

What Is It?

Fabric, leather, or vinyl-covered back and seat, 3D Knit back.

Standard upholstery design

Cogent: Connect

3D Knit on Back only

3D Knit back is made up of three layers: the 3D Knit, a solid fabric that matches the 3D Knit color, and the polyurethane cushion that provides exceptional comfort. The seat on these models can be specified with Cogent: Connect fabric colors to match the 3D Knit color, or in any other material.

Stitched upholstery design

Leather, Vinyl, and All Other Fabrics

Stitched seams are included on the back cushion of the following:

- Leather
- Vinyl
- Upholstery
- Customer's Own Leather (COL)
- Vinyl
- Select Customer's Own Material/Vinyl (COM)

Pattern alignment at the lumbar seam cannot be guaranteed.

Open slats in the back shell will appear as a matching color to the back surface material if specified with Cogent:Connect or 3D Knit. Slats will appear as black if any other seating material is specified.

Chairs with headrest only

Leather, Vinyl, and All Other Fabrics

Additional stitched seams in the upper left and right corner of the back cushion on Gesture chairs with headrest are included of the following:

- Leather
- Vinyl
- Upholstery
- Customer's Own Leather (COL)
- Vinyl
- Select Customer's Own Material/Vinyl (COM)

Tip: Fabrics that show a distinct pattern or texture may demonstrate an undesirable contrast at the upper left and right corners of the top of the back.

Wrapped back

Wrapped upper back is upholstered to the top of the back frame.

Shell back

Plastic shell back is fully exposed.

Headrest back

Headrest chair back is upholstered to the top of the back frame.

Back

Seat

Seat and back cushions can be removed and replaced if damaged.

Understanding and Specifying Leap 462 Series Work Chairs

Work Chairs

Highly adjustable task seating offers maximum personalization for fit and comfort for a range of duration and use. By making a series of simple adjustments, you can customize the chair to your body, preferences, and tasks. These chairs provide continuous, stable, comfort, and can be quickly adjusted to support you in upright, and reclining work postures.

Leap 462 Series

Leap is a high-performance chair for customers who place the highest value on ergonomics, health, and productivity.

Outer back and outer seat are plastic.

LiveBack moves with the shape of the user's spine as sitting positions change.

Lumbar height adjusts 5" to provide additional lower back support. It is standard on all chairs, but may be omitted.

Arm height can adjust independently within a 4" range to help relieve upper back and shoulder fatigue.

Seat depth adjusts within a 3" range to accommodate users of varying leg lengths. Seat depth is standard on all models.

Five-arm base is available in plastic or polished aluminum.

Casters have hard, dual-wheels that roll smoothly on carpets. They are 2½" for increased mobility. Soft, dark grey treaded, dual-wheel roll-control casters are available for use on hard floors or mats. Stools are standard with 2" hard casters. Soft casters are available as an option.

Tip: Do not roll the chair across asphalt during installation as this may damage the casters.

Arm depth can retract 3" to allow user to get closer to worksurface and into tight corners.

Arm width can adjust 4½" overall to provide forearm support.

Arm caps can pivot 30° in and out to accommodate individual user preferences.

Passive seat edge angle allows the front edge of the seat to flex 1½" to relieve pressure under the user's thighs.

Lower back firmness changes the amount of firmness user feels in lower back. Requires only two complete turns.

Upper back force requires only five complete turns and accommodates a broader range of users by allowing user to change the rate of increase in force as the user reclines.

Variable back stop with five positions is standard.

Seat height adjusts within a 5" range with a pneumatic adjustment mechanism. A 7" range is available as an option. Stools have an 8" range.

Product Details

Parallel slats in the Live-Back shell provide extensive flexibility to allow back to conform to individual users.

Leap Plus offers the benefits and functionality of the standard Leap chair, including LiveBack Technology, to users weighing up to 500 pounds.

Rectilinear arms with soft caps are standard.

Models are standard with adjustable seats that include seat depth and passive seat edge angle.

Adjustability instructions are included with every chair. Fully adjustable arm models include instructions under the arm cap. Instructions can also be found at www.steelcase.com

Controls under the seat include tactile braille designators.

Cartoned request on your dealer purchase order means Leap chairs will ship knocked down with the chair base separated from the rest of the chair. This allows for shipment in a smaller carton. Assembly instructions are included. This does not apply to Leap stools, Leap Plus, or Leap WorkLounge.

Uncartoned request on your dealer purchase order means Leap chairs will ship fully assembled.

Adjustment Features

Seat Adjustments

Seat height adjusts pneumatically. To lower, hold handle up while seated. To raise, hold handle up and keep your weight off the chair. Range of adjustability is 5", from 15½"H to 20½"H, and is standard on work chairs. A 7" range of adjustability (17"H to 24"H) is available as an option. Stools are standard with an 8" range of adjustability (22"H to 30"H). Leap Plus is standard with a 4" range of adjustability (15½"H to 19½"H). A 5" range (17½"H to 22½"H) is available as an option.

Passive seat edge angle flexes 1½", relieving pressure under the user's thighs. This feature is standard on all work chairs and stools.

Seat depth adjusts 3" (15¾"-18¾") by pulling handle up. Slide seat forward or back to accommodate various leg lengths. Release handle to lock. This feature is standard on work chairs and stools. Seat depth adjustment range for Leap Plus is 2" (16¾"-18¾").

Back Adjustments

Lumbar height adjusts 5" (5¼" to 10¼" from seat, 6½" to 11½" on Plus chairs) by grabbing exposed tabs and sliding the lumbar support up or down. This feature is standard on work chairs and stools, but may be omitted.

Lower back firmness adjusts by turning knob two complete turns. Forward increases firmness. Backward decreases firmness. This feature is standard on work chairs and stools.

Upper back force adjusts by turning knob five complete turns. Turn knob forward to increase rate of tension; backward to decrease. This feature is standard on work chairs and stools.

Variable back stop. Rotate handle up or down to set recline angle. Lean back to desired back angle. Five stops are available. This feature is standard on work chairs and stools.

Tip: To stop in upright position, remove weight from back and rotate lever up.

Headrest (option) adjusts 2¼" vertically and adds 6¾" to 9" to the overall height. Plastic shell on the headrest is available in black only. Upholstery is available to match the seat material or black vinyl only. Headrest is not available on stools, Plus models, or when the fire code option (FCS) is selected.

Arm Adjustments

Rectilinear height-, width-, pivot-, and depth-adjustable arms come standard on all arm models of chairs and stools.

Arm height adjusts independently within a range of 4" (7"-11" from the seat, 7¼"-11¼" on Plus models). Push button on outside and under arm cap in while moving arms up or down. Releasing buttons locks arms in position.

Arm width adjusts 2¼" each independently on chairs with this option. Grasp arm and move in or out.

Arms pivot independently 30° inward and outward. Grasp arm and push front to left or right.

Arm depth adjusts approximately 3" to enable user to get closer to worksurface.

Leap 462 Series, continued

Other Features

Height-only adjustable arm is also available and adjusts 4".

Armless models are also available.

Glides are available as an option, except on chairs with polished aluminum package. Glides ship with chair or stool for field installation and maintain same height as casters.

Foot ring height on stools adjusts by first lifting ring and rotating it counter-clockwise to unlock. Then raise or lower ring up to 4" to desired position before rotating it clockwise to lock.

Soft-wheel casters for hard floors are available for specific applications.

Surface Materials

▶ See surface materials on page 538 for specific availability or refer to the *Surface Materials Reference Manual* for further information.

All Steelcase seating with standard upholstery fabrics complies with requirements of the State of California Technical Bulletin 117-2013. All standard seating is labeled to be in compliance with California 117-2013.

Programs & Services

▶ See the *Surface Materials Reference Manual* for further detail about programs and services offered for seating.

The Customer's Own Material (COM) Program

offers the opportunity for customers to select fabrics that are not offered through the standard Steelcase surface materials program for use on Steelcase products. Through the COM program, Steelcase will test your materials for application on Steelcase products. Once approved, you can place your order. Steelcase will facilitate the entire ordering process and give you a production schedule. Steelcase will order the COM fabric directly from the textile manufacturer. For up-to-date information regarding fabric test results for all COM fabrics and details regarding yardage requirements for most Seating lines, visit the COM website. To locate the COM website:

- Visit www.steelcase.com

Soil retardants are treatments that provide long-term soil and stain resistance to a fabric without affecting the shade or the integrity of the fabric. The following Steelcase Textiles are available pre-treated with soil retardant. (You do not need to select the soil-retardant option for these fabrics and incur the upcharge.)

- Jacks
- Link
- Spyder

For information on soil retardant fabrics on Select Surfaces, please refer to the *Surface Materials Reference Manual*.

Soil-retardant treatment is available on all other seating fabrics at an additional upcharge per seating unit. To order this option, please select "Soil-Retardant Treatment" under "Optional Accessories."

For soil-retardant treatment on COMs, please select "Soil-Retardant Treatment" under "Optional Accessories." Minimums or additional yardage may be required. Please contact the vendor directly for specific information.

Extended lead times may be necessary for this service.

Contact your Steelcase Solutions Fulfillment Team Representative at 1.888.STEELCASE (1.888.783.3522) or send an email to lineone@steelcase.com.

Fire Codes

▶ See page 552 for upholstery fabrics available for use with FCS modification.

Steelcase offers Fire Code Seating modification (FCS) on some seating models. The most rigorous fire codes in the nation have been developed in California, and the Steelcase FCS modification is designed to meet those codes. Fire Code Seating (FCS) indicates that a product is constructed to meet the strict fire code requirements of high public occupancy areas such as theaters, meeting rooms, and lobbies. The FCS standards will meet the State of California Bureau of Electronic and Appliance Repair, Home Furnishings, and Thermal Insulation Technical Bulletin 133 (Cal TB 133). Boston adopted the California Bureau of Electronic and Appliance Repair, Home Furnishings, and Thermal Insulation Technical Bulletin TB 133 test standard in 1992.

Local codes may have special requirements for upholstery.

Leap Upholstery

What Is It?

Fabric, leather, or vinyl-covered back and seat, 3D Knit back.

Fabric

Leather, Vinyl, and Select Fabrics

3D Knit Back

Stitched seams are included on the back cushion and seat cushion of the following:

- Leather
- Customer's Own Leather (COL)
- Vinyl
- Select Customer's Own Material/Vinyl (COM)

Pattern alignment at the lumbar seam cannot be guaranteed.

3D Knit back is made up of three layers: the 3D Knit, a solid fabric that matches the 3D Knit color, and the polyester cushion that provides exceptional comfort. The seat on these models can be specified with Cogent: Connect fabric colors to match the 3D Knit color, or in any other material.

Plastic outer back is fully exposed.

Seat and back cushions can be removed and replaced if damaged.

Leap Plus 462 Series Work Chair

Upholstery on Back and Seat

▶ Need help?
Product details,
page 48

Standard Includes

- Upper back force
- 4" pneumatic seat-height adjustment
- Variable back stop
- Lower back firmness
- Rectilinear independent height-, width-, pivot-, and depth- adjustable arms and soft arm caps, if selected: black plastic
- Frame, seat shell, outer back, and five-arm base: plastic
- 2" seat depth adjustment
- Adjustable lumbar
- Standard upholstery design: fabric price group 1
- 2½"-diameter, hard-composition, dual-wheel casters: black

Required to Specify

- 1 Style number
 - 2 Plastic color for frame, seat shell, outer back, and base
 - 3 Fabric color number for upholstery on seat and back
 - 4 Options, if selected (see below)
- ▶ See *Surface Materials*, page 538.

Work Chairs

Highly adjustable task seating offers maximum personalization for fit and comfort for a range of duration and use. By making a series of simple adjustments, you can customize the chair to your body, preferences, and tasks. These chairs provide continuous, stable, comfort, and can be quickly adjusted to support you in upright, and reclining work postures.

Think 465 Series

Think is for performance based customers who are seeking a progressive aesthetic, intuitive ease of use, and the strongest environmental attributes.

Back frame and seat shell are plastic.

Lumbar height adjusts over 4 1/4" to provide additional lower back support and is available as an option.

Arm caps can pivot independently 30° in and 30° out to accommodate individual user preferences.

Comfort dial back control provides four settings for the user's personal preference and work style.

Seat height adjusts within a 5" range with a pneumatic adjustment mechanism. A 3" or 7" range is available as an option. Stools have a 10" range.

Casters have hard, dual-wheels that roll smoothly on carpets. They are 2 1/2" for increased mobility. Soft, dark grey treaded, dual-wheel roll-control casters are available for use on hard floors or mats. Glides are also available as an option.

Tip: Do not roll the chair across asphalt during installation as this may damage the casters.

Arm width adjusts 4 1/2" overall to support forearms in neutral position.

Arm height can adjust independently within a 4" range to help relieve upper back and shoulder fatigue.

Arm depth can retract 3" to allow user to get closer to the worksurface and into tight corners.

Passive seat edge angle allows the front edge of the seat to flex 1 1/2" to relieve pressure under the user's thighs.

Seat depth adjusts within a 2 1/2" range to accommodate users of varying leg lengths.

Five-arm base is available in plastic or polished aluminum.

Product Details

Integrated LiveBack System dynamically supports and follows the movements of the user.

Advanced weight-activated mechanism with a natural fluid motion keeps users oriented to their work.

Comfort dial has four settings that allow for the user's personal preference and work style.

Rectilinear arms with soft caps are standard.

Cartoned request on your dealer purchase order means Think chairs will ship knocked down with the chair base and pneumatic cylinder separated from the rest of the chair. This allows for shipment in a smaller carton. Assembly by a qualified dealer installer is required. *Tip: Assembly instructions are included.*

Uncartoned request on your dealer purchase order means Think chairs will ship fully assembled.

Adjustment Features

Adjustability instructions are included with every chair.

Seat Adjustments

Seat height adjusts pneumatically. To lower, hold handle up while seated. To raise, hold handle up and keep your weight off the chair. Standard range of adjustability is 5" from 16½"H to 21½"H. A 3" range of adjustability (15"H to 18"H), and a 7" range of adjustability (18"H to 25"H) is available as an option. A 10" range of adjustability (22½"H to 32½"H) is available on stools.

Passive seat edge angle relieves pressure under the user's thighs. The passive front seat edge helps properly support the angle of the user's leg and thigh without compromising pelvic support. The front seat edge angle flexes 1½".

Seat depth adjusts 2½" (15½"-18") by pulling handle up. Slide seat forward or back to accommodate various leg lengths. Release handle to lock.

Back Adjustments

Lumbar height adjusts 4¼" (6" to 10¼" from seat) by grabbing exposed tabs and sliding the lumbar support up or down. Fixed lumbar height is available as an option on work chairs and stools. The fixed lumbar is positioned 8" from the seat. The adjustment handles are replaced with inserts that fill the lumbar slot in the back frame.

Weight-activated setting

Boosted setting

Mid-stop recline setting

Upright setting

Comfort dial has four settings: (1) weight-activated setting; (2) boosted setting that has approximately 20% more resistance than your body is providing; (3) mid-stop recline setting; and (4) an upright setting.

Headrest (option) adjusts 4" vertically and 2½" horizontally (front-to-back) to support the head and neck of the user in both upright and recline postures. The plastic stalk and underside of the headrest will coordinate to match the frame color specified: black, platinum, or seagull. The foam pad of the headrest will always be black. Headrest is not available on stools. Whether ordered initially or at a later date, the headrest ships in its own carton and must be field installed.

Arm Adjustments

Rectilinear height-, width-, pivot-, and depth-adjustable arms come standard on all arm models of chairs and stools.

Arm height adjusts independently within a range of 4" (7"-11" from the seat). Push button on outside and under arm cap in while moving arms up or down. Releasing buttons locks arms in position.

Arm width can be adjusted 2¼" each, 4½" overall. Grasp arm cap and move in or out.

Arms pivot independently, 30° inward and outward. Grasp arm and push front to left or right.

Arm depth adjusts by sliding arm caps back 3". Friction-fit mechanism keeps arms in position.

Think 465 Series

Think 465 Series, continued

Other Features

Height-only adjustable arm is also available and adjusts 4".

Armless models are also available.

Coat hanger (option) is field installed. The color will coordinate with the frame of the chair, but will not match the frame exactly. The coat hanger supports up to 10 pounds and is not intended to hold bags or backpacks. This option is not available on stools.

Foot ring height on stools adjusts by rotating it counterclockwise to unlock. Then raise or lower ring to desired position before rotating it clockwise to lock. The foot ring has a diameter of 20".

Soft dual-wheel roll-control casters feature an internal brake that activates when the chair is not under load to reduce shifting when user stands up.

Surface Materials

► See surface materials on page 538 for specific availability or refer to the *Surface Materials Reference Manual* for further information.

Upholstery

- Fabric
- Fabric with soil-retardant treatment (option)
- 3D Knit (back only)
- Elmosoft leather

 - 6205 Black
 - 7243 Seagull

Pneumatic cylinders and stool ring finishes are determined by the frame finish.

- 4799 Platinum Metallic (Platinum and Seagull frame)
- 6205 Black (Black frame)

All Models (adjustment handles, arm pads, arm stalk, casters, glides)

- 6205 Black

Flexors and lumbar finishes are determined by the frame finish.

- 6205 Black (Black Frame)
 - 6527 Merle (Platinum and Seagull Frames)
- Outer seat shell is determined by the frame finish.
- 6205 Black (Black Frame)
 - 6249 Platinum Solid (Platinum and Seagull Frames)

Inner seat shell

- 6205 Black

All seat cushions have a unique sewn construction that is included in the price of the chair.

Stitch detail across the lumbar region of the back cushion will be required on some models with an upholstered backrest. To ensure optimum performance of the Integrated LiveBack System, all Steelcase Select Surfaces, COMs, Leathers, Vinyls, and some standard fabrics will require this sewn detail. The stitch detail is included in the price of the chair.

All Steelcase seating with standard upholstery fabrics complies with requirements of the State of California Technical Bulletin 117-2013. All standard seating is labeled to be in compliance with California 117-2013.

Programs & Services

► See *Surface Materials Reference Manual* for further detail about programs and services offered for seating.

The Customer's Own Material (COM) Program

offers the opportunity for customers to select fabrics that are not offered through the standard Steelcase surface materials program for use on Steelcase products. Through the COM program, Steelcase will test your materials for application on Steelcase products. Once approved, you can place your order. Steelcase will facilitate the entire ordering process and give you a production schedule. Steelcase will order the COM fabric directly from the textile manufacturer. For up-to-date information regarding fabric test results for all COM fabrics and details regarding yardage requirements for most seating lines, visit the COM website. To locate the COM website:

- Visit www.steelcase.com

Soil retardants are treatments that provide long-term soil and stain resistance to a fabric without affecting the shade or the integrity of the fabric. The following Steelcase Textiles are available pre-treated with soil retardant. (You do not need to select the soil-retardant option for these fabrics and incur the upcharge.)

- Jacks
- Link
- Spyder

For information on soil retardant fabrics on Select Surfaces, please refer to the *Surface Materials Reference Manual*.

Soil-retardant treatment is available on all other seating fabrics at an additional upcharge per seating unit. To order this option, please select "Soil-Retardant Treatment" under "Optional Accessories."

For soil-retardant treatment on COMs, please select "Soil-Retardant Treatment" under "Optional Accessories." Minimums or additional yardage may be required. Please contact the vendor directly for specific information.

Extended lead times may be necessary for this service.

Contact your Steelcase Solutions Fulfillment Team Representative at 1.888.STEELCASE (1.888.783.3522) or send an email to line-one@steelcase.com.

Fire Codes

► See page 552 for upholstery fabrics available for use with FCS modification.

Steelcase offers Fire Code Seating modification (FCS) on some seating models. The most rigorous fire codes in the nation have been developed in California, and the Steelcase FCS modification is designed to meet those codes. Fire Code Seating (FCS) indicates that a product is constructed to meet the strict fire code requirements of high public occupancy areas such as theaters, meeting rooms, and lobbies. The FCS standards will meet the State of California Bureau of Electronic and Appliance Repair, Home Furnishings, and Thermal Insulation Technical Bulletin 133 (Cal TB 133). Boston adopted the California Bureau of Electronic and Appliance Repair, Home Furnishings, and Thermal Insulation Technical Bulletin TB 133 test standard in 1992.

Local codes may have special requirements for upholstery.

Dimensions

► Page 82

Think Upholstery

What Is It?

Fabric, leather, or vinyl-covered back and seat, 3D Knit back.

Fabric

Leather, Vinyl, and Select Other Fabrics

3D Knit on Back only

Stitched seams are included on the back cushion and seat cushion of the following:

- Leather
- Vinyl
- Some upholstery
- Customer's Own Leather (COL)
- Vinyl
- Select Customer's Own Material/Vinyl (COM)

Pattern alignment at the lumbar seam cannot be guaranteed.

Back flexors are fully exposed.

Seat and back assemblies can be removed and replaced if damaged.

3D Knit back with Fire Code option

is made up of three layers: the 3D Knit, a fire code barrier, and a solid fabric that matches the 3D Knit color (which will be visible through the back flexors). The 3D Knit fire code back rest is not transparent.

Steelcase Series 1

Steelcase Series 1 makes high-quality seating attainable for everyone, everywhere. It delivers performance, style, and choice unprecedented in its class of seating.

Back frame and seat shell are plastic.

Lumbar height adjusts over 2 $\frac{1}{4}$ " to provide additional lower back support.

Arm caps can pivot independently 40° inward and 40° outward to accommodate individual user preferences.

Seat height adjusts within a 5" range with a pneumatic adjustment mechanism. Short or tall range is available as an option. Stools have a 7 $\frac{3}{4}$ " range.

Comfort dial back control provides three settings for the user's personal preference and work style.

Casters have hard, dual-wheels that roll smoothly on carpets. They are 2 $\frac{1}{2}$ " for increased mobility. Soft, dual-wheel roll-control casters are available as an option for use on hard floors or chair mats. Glides are also available as an option.
Tip: Do not roll the chair across asphalt during installation as this may damage the casters.

Arm height can adjust independently within a 5" range to help relieve upper back and shoulder fatigue.

Arm width adjusts 4" overall to support forearms in neutral position.

Arm depth can retract 2" to allow user to get closer to the worksurface and into tight corners.

Seat depth adjusts within a 2 $\frac{1}{4}$ " range to accommodate users of varying leg lengths.

Five-arm base is available in plastic or polished aluminum.

Product Details

Integrated LiveBack System dynamically supports and follows the movements of the user.

Advanced weight-activated mechanism with a natural fluid motion keeps users oriented to their work.

Comfort dial has three settings that allow for the user's personal preference and work style.

Rectilinear arms with soft caps are standard.

Uncartoned request on your dealer purchase order means Steelcase Series 1 chairs will ship fully assembled.

Cartoned request on the dealer purchase order means Steelcase Series 1 chairs will ship knocked down in seven pieces. This allows for shipment in a smaller carton. Assembly does not require tools.

Tip: Assembly instructions are included on the box.

Adjustment Features

Adjustability instructions are included with every chair.

Seat Adjustments

Seat height adjusts pneumatically. To lower, hold handle up while seated. To raise, hold handle up and keep your weight off the chair. Standard range of adjustability is 5" from 16½"H to 21½"H. A short 3¼" range of adjustability (14¾" to 18") and a tall 4¾" range of adjustability (17¼" to 22") is available as an option. A 7¾" range of adjustability (23" to 30¾") is available on stools.

Seat depth adjusts 2½" (15½"-18") by pulling handle up. Slide seat forward or back to accommodate various leg lengths. Release handle to lock.

Back Adjustments

Lumbar height adjusts 2¼" (6½" to 8¾" from seat) by grabbing exposed tabs and sliding the lumbar support up or down.

Weight-activated setting

Boosted setting

Upright setting

Comfort dial has three settings: (1) weight-activated setting; (2) boosted setting that has more resistance than your body is providing; and (3) an upright back lock setting.

Headrest accessory adjusts 3" vertically to support the head and neck of the user in both upright and recline postures. The plastic stalk and underside of the headrest will coordinate to match the frame color specified: black or seagull. The foam pad of the headrest is available in eleven 3D Microknit colors. Whether ordered initially or at a later date, the headrest ships in its own carton and must be field installed.

Arm Adjustments

Rectilinear height-, width-, pivot-, and depth-adjustable arms come standard on all arm models of chairs and stools.

Arm height adjusts independently within a range of 4½" (6½"-11" from the seat). Push button on outside and under arm cap in while moving arms up or down. Releasing buttons locks arms in position.

Arm width can be adjusted 2" each, 4" overall. Grasp arm cap and move in or out.

Arms pivot independently, 40° inward and outward. Grasp arm and push front to left or right.

Arm depth adjusts by sliding arm caps back 2". Friction-fit mechanism keeps arms in position.

Steelcase Series 1, continued

Other Features

Height-only adjustable arm is also available and adjusts 4½".

Armless models are also available.

Foot ring height on stools adjusts by rotating it counterclockwise to unlock. Then raise or lower ring to desired position before rotating it clockwise to lock. The foot ring has a diameter of 20".

Soft dual-wheel roll-control casters feature an internal brake that activates when the chair is not under load to reduce shifting when user stands up.

Surface Materials

▶ See *Surface Materials* on page 538 for specific availability or refer to the *Surface Materials Reference Manual* for further information.

Upholstery

- Fabric
- Fabric with soil-retardant treatment (option)
- 3D Microknit (back and headrest only)

- 6205 Black (on black chair)

All Steelcase seating with standard upholstery fabrics complies

with requirements of the State of California Technical Bulletin 117-2013. All standard seating is labeled to be in compliance with California 117-2013.

Programs & Services

▶ See *Surface Materials Reference Manual* for further detail about programs and services offered for seating.

The Customer's Own Material (COM) Program offers the

opportunity for customers to select fabrics that are not offered through the standard Steelcase surface materials program for use on Steelcase products. Through the COM program, Steelcase will test your materials for application on Steelcase products. Once approved, you can place your order. Steelcase will facilitate the entire ordering process and give you a production schedule. Steelcase will order the COM fabric directly from the textile manufacturer. For up-to-date information regarding fabric test results for all COM fabrics and details regarding yardage requirements for most seating lines, visit the COM website. To locate the COM website:

- Visit www.steelcase.com

Soil retardants are treatments that provide long-term soil and stain resistance to a fabric without affecting the shade or the integrity of the fabric. The following Steelcase Textiles are available pre-treated with soil retardant. (You do not need to select the soil-retardant option for these fabrics and incur the upcharge.)

- Jacks
- Link
- Spyder

For information on soil retardant fabrics on Select Surfaces, please refer to the *Surface Materials Reference Manual*.

Soil-retardant treatment is available on all other seating fabrics at an additional upcharge per seating unit. To order this option, please select "Soil-Retardant Treatment" under "Optional Accessories."

For soil-retardant treatment on COMs, please select "Soil-Retardant Treatment" under "Optional Accessories." Minimums or additional yardage may be required. Please contact the vendor directly for specific information.

Extended lead times may be necessary for this service.

Contact your Steelcase Solutions Fulfillment Team Representative at 1.888.STEELCASE (1.888.783.3522) or send an email to line-one@steelcase.com.

Dimensions

Steelcase Series 1 Upholstery

What Is It?

3D Microknit on Back only

Stitched seams are included on the seat cushion of the following:

- Leather
- Vinyl
- Upholstery
- Select Customer's Own Material/Vinyl (COM)

Tip: There are no stitching seams in Cogent:Connect.

Fabric, leather, or vinyl-covered seat; 3D Microknit back only

Back flexors are fully exposed. Lumbar and flexor colors always match. Lumbar and flexors will also match the 3D Microknit fabric unless contrasting is selected.

Seat and back assemblies can be removed and replaced if damaged.

Work Chairs

Highly adjustable task seating offers maximum personalization for fit and comfort for a range of duration and use. By making a series of simple adjustments, you can customize the chair to your body, preferences, and tasks. These chairs provide continuous, stable, comfort, and can be quickly adjusted to support you in upright, and reclining work postures.

Amia 482 Series

Amia is for customers seeking a timeless design that incorporates ergonomics and comfort at a value price point.

Outer back and outer seat are plastic. Fully upholstered outer back is available.

LiveLumbar system offers a dialed in spring force in the lumbar region that actively supports the lower back.

Arm height can adjust independently within a 4" range to help relieve upper back and shoulder fatigue.

Seat depth adjusts within a 3" range. Seat depth is standard on all models.

Five-arm base is standard.

Casters have hard, dual-wheels that roll smoothly on carpets. They are 2½" for increased mobility. Soft, dark grey treaded, dual-wheel roll-control casters are available for use on hard floors or mats. Stools are standard with 2" hard casters. Soft casters are available as an option.

Tip: Do not roll the chair across asphalt during installation as this may damage the casters.

Amia Air integrated LiveBack technology automatically creates flexibility and movement within the backrest.

Arm depth can be adjusted approximately 3", enabling individuals to get closer to their work.

Arm width can adjust 4½" overall to provide forearm support.

Arm caps can pivot 30° in and out to accommodate individual user preferences.

Passive seat edge angle allows the front edge of the seat to flex 1½", relieving pressure behind the thighs.

Back tension accommodates a broader range of users by allowing user to change the rate of increase, or decrease, in force as the user reclines.

Seat height adjusts within a 5" range with a pneumatic adjustment mechanism. Stools have an 8" range.

Upright back lock allows the user to lock the back in a full upright position, or release it for full-tilt motion.

Product Details

LiveLumbar system allows the user to experience continuous back support with dialed in spring force that can be adjusted to match the user's anatomy. Available on standard Amia chairs.

Integrated LiveBack automatically creates flexibility and movement in the backrest to ensure dynamic back support as you recline. A height adjustable lumbar (17"H to 24"H) is available as an option. An 8" range of adjustability (23"H to 31"H) is available on stools.

Rectilinear arms with soft caps are standard.

Models are standard with adjustable seats that include seat depth and passive seat edge angle.

Adjustability instructions are included with every chair. Instructions can also be found at www.steelcase.com

Cartoned request on your dealer purchase order means Amia chairs will ship knocked down with the chair back separated from the rest of the chair. This allows for shipment in a smaller carton. Assembly by a qualified dealer installer is required. Assembly instructions are included. This does not apply to Amia stools.

Uncartoned request on your dealer purchase order means Amia chairs will ship fully assembled.

Adjustment Features

Seat Adjustments

Seat height adjusts pneumatically. To lower, hold handle up while seated. To raise, hold handle up and keep your weight off the chair. Range of adjustability is 5" from 16"H to 21"H, and is standard on work chairs. A lower range of adjustability (15"H to 19"H) is available as an option. A higher range of adjustability (17"H to 24"H) is available as an option. An 8" range of adjustability (23"H to 31"H) is available on stools.

Passive seat edge angle flexes, relieving pressure under the user's thighs. The front flexes 1½". This feature is standard on all work chairs and stools.

Seat depth adjusts 3" (15½"–18½") by pulling handle up. Slide seat forward or back to accommodate various leg lengths. Release handle to lock. This feature is standard on work chairs and stools.

Back Adjustments

Lumbar height adjusts 3¾" (6¼" to 10" from seat) by grabbing exposed tabs and sliding the lumbar support up or down. This feature is standard on work chairs and stools.

Back tension adjusts by turning knob forward to increase back tension, backward to decrease back tension. This feature is standard on work chairs and stools.

Upright back lock. To release, lean forward and pull toward back. To lock, lean forward and push toward front.

Arm Adjustments

Rectilinear height-, width-, pivot-, and depth-adjustable arms come standard on all arm models of chairs and stools.

Arm height adjusts independently within a range of 4" (7"–11" from the seat). Push button on outside and under arm cap in while moving arms up or down. Releasing buttons locks arms in position.

Arm width adjusts 2¼" each independently on chairs with this option. Grasp arm and move in or out.

Arms pivot independently 30° inward and outward. Grasp arm and push front to left or right.

Arm depth adjusts approximately 3" to enable user to get closer to worksurface.

Other Features

Height-only adjustable arm is also available and adjusts 4".

Armless models are also available.

Glides are available as an option. Glides ship with chair or stool for field installation and maintain same height as casters.

Foot ring height on stools adjusts by first lifting ring and rotating it counterclockwise to unlock. Then raise or lower ring up to 4" to desired position before rotating it clockwise to lock. The foot ring has a diameter of 20".

Soft-wheel casters for hard floors are available for specific applications.

Amia 482 Series, continued

Surface Materials

▶ See surface materials on page 538 for specific availability or refer to the *Surface Materials Reference Manual* for further information.

All Steelcase seating with standard upholstery fabrics complies with requirements of the State of California Technical Bulletin 117-2013. All standard seating is labeled to be in compliance with California 117-2013.

Programs & Services

▶ See the *Surface Materials Reference Manual* for further detail about programs and services offered for seating.

The Customer's Own Material (COM) Program

offers the opportunity for customers to select fabrics that are not offered through the standard Steelcase surface materials program for use on Steelcase products. Through the COM program, Steelcase will test your materials for application on Steelcase products. Once approved, you can place your order. Steelcase will facilitate the entire ordering process and give you a production schedule. Steelcase will order the COM fabric directly from the textile manufacturer. For up-to-date information regarding fabric test results for all COM fabrics and details regarding yardage requirements for most Seating lines, visit the COM website. To locate the COM website:

- Visit www.steelcase.com

Soil retardants are treatments that provide long-term soil and stain resistance to a fabric without affecting the shade or the integrity of the fabric. The following Steelcase Textiles are available pre-treated with soil retardant. (You do not need to select the soil-retardant option for these fabrics and incur the upcharge.)

- Jacks
- Link
- Spyder

For information on soil retardant fabrics on Select Surfaces, please refer to the *Surface Materials Reference Manual*.

Soil-retardant treatment is available on all other seating fabrics at an additional upcharge per seating unit. To order this option, please select "Soil-Retardant Treatment" under "Optional Accessories."

For soil-retardant treatment on COMs, please select "Soil-Retardant Treatment" under "Optional Accessories." Minimums or additional yardage may be required. Please contact the vendor directly for specific information.

Soil-retardant treatment is available on all other seating fabrics at an additional upcharge per seating unit. To order this option, please select "Soil-Retardant Treatment" under "Optional Accessories."

For soil-retardant treatment on COMs, please select "Soil-Retardant Treatment" under "Optional Accessories." Minimums or additional yardage may be required. Please contact the vendor directly for specific information.

Extended lead times may be necessary for this service.

Contact your Steelcase Solutions Fulfillment Team Representative at 1.888.STEELCASE (1.888.783.3522) or send an email to lineone@steelcase.com.

Fire Codes

▶ See page 552 for upholstery fabrics available for use with FCS modification.

Steelcase offers Fire Code Seating modification (FCS) on some seating models. The most rigorous fire codes in the nation have been developed in California, and the Steelcase FCS modification is designed to meet those codes. Fire Code Seating (FCS) indicates that a product is constructed to meet the strict fire code requirements of high public occupancy areas such as theaters, meeting rooms, and lobbies. The FCS standards will meet the State of California Bureau of Electronic and Appliance Repair, Home Furnishings, and Thermal Insulation Technical Bulletin 133 (Cal TB 133). Boston adopted the California Bureau of Electronic and Appliance Repair, Home Furnishings, and Thermal Insulation Technical Bulletin TB 133 test standard in 1992.

Local codes may have special requirements for upholstery.

What Is It?

Fabric, leather, or vinyl-covered back and seat, 3D Knit back

Fabric

Leather, Vinyl, and Select Fabrics

3D Knit and 3D Microknit Back

Stitched seams are included on the back cushion and seat cushion of the following:

- Leather
- Elmosoft leather
- Select Surfaces leather
- Customer's Own Leather (COL)
- Vinyl
- Select Customer's Own Material/Vinyl (COM)
- Select Fabrics

Pattern alignment at the lumbar seam cannot be guaranteed.

3D Knit back is made up of three layers: the 3D Knit, a solid fabric that matches the 3D Knit color, and the polyester cushion that provides exceptional comfort. The seat on these models can be specified to match the 3D Knit color or in any other material.

3D Microknit back is available on the Amia Air back version only. A Cogent: Connect fabric can be specified on the seat to color match the 3D Microknit (exception: Seagull). The 3D Microknit can be specified to match or contrast the Amia Air back.

Plastic outer back is fully exposed. Fully upholstered outer back is available.

Seat and back cushions can be removed and replaced if damaged.

Work Chairs

Highly adjustable task seating offers maximum personalization for fit and comfort for a range of duration and use. By making a series of simple adjustments, you can customize the chair to your body, preferences, and tasks. These chairs provide continuous, stable, comfort, and can be quickly adjusted to support you in upright, and reclining work postures.

Reply 466 Series

Reply is a global family of value-friendly seating designed with unexpected extras.

Back frame and seat shell are plastic.

Back height adjustment on upholstered chairs allows you to raise or lower chair back from a seated position to support your lower back.

Five-arm base is plastic, a polished aluminum base is available as an option.

Arm tube matches the frame finish.

Arm support is coordinated to match the base finish.

Dual-wheel with roll-control casters may be used on soft and hard flooring surfaces.

Back handle on mesh back chairs provides a convenient handhold to easily move the chair.

Arms, when specified, have a textured plastic arm cap.

Lumbar height adjusts 4" to provide additional lower back support and is available as an option on mesh back chairs only.

Arm depth can retract 3" to allow user to get closer to the worksurface and into tight corners.

Arm height can adjust independently within a 3³/₄" range to help relieve upper back and shoulder fatigue.

Arm caps can pivot independently 18° in and 4° out to accommodate individual user preferences.

Arm width adjusts 1" per arm for a total of 2" overall width adjustment.

Multi-position back lock allows user to recline the back to the desired angle and lock it in place.

Seat depth adjusts within a 1¹/₂" range to accommodate users of varying leg lengths.

Seat height adjusts within a 5" range with a pneumatic adjustment mechanism.

Tilt tension adjustment allows you to control the amount of resistance needed for reclining.

Casters have hard, dual-wheels that roll smoothly on carpets. They are 2¹/₂" for increased mobility. Soft, dark grey treaded, dual-wheel roll-control casters are available for use on hard floors or mats.

Tip: Do not roll the chair across asphalt during installation as this may damage the casters.

Plastic glides are standard. Optional soft glides are available.

Product Details

Synchro-tilt mechanism with a natural fluid motion on work chairs keeps users oriented to their work.

Fixed-height multi-use chairs are available with or without arms.

Cartoned shipment of Reply work chairs is standard. Reply work chairs ship knocked down in a single carton consisting of two components: the base, pneumatic, mechanism, and seat (built up as one component), and the back with the attachment knob. This allows for shipment in a smaller carton. Leg-base multi-use chairs ship two to a carton, when applicable. Assembly by a qualified dealer installer is required for work chairs. Assembly instructions are included. No additional tools are required for assembly.

Uncartoned request means Reply work chairs will ship fully assembled and blanket wrapped.

Stacking density for leg-base multi-use chairs is six on the floor. Arms and casters do not impact the ability to stack.

Adjustment Features

Adjustability instructions are included with every swivel-base chair. Instructions can also be found at www.steelcase.com.

Seat Adjustments

Seat height adjusts pneumatically. To lower, hold handle up while seated. To raise, hold handle up and keep your weight off the chair. Range of adjustability is 5", from 16"H to 21"H.

Seat depth adjusts 1½" by pulling handle up. Slide seat forward or back to accommodate various leg lengths. Release handle to lock. Seat depth is a standard feature on work chairs.

Back Adjustments

Lumbar height adjusts 4" (6" to 10" from seat) by grabbing exposed tabs and sliding the lumbar support up or down. Available as an option on mesh work chairs only.

Variable back lock (4 positions)

Upright setting

Multiple position back lock allows users to recline the back to the desired angle and lock it in place. To lock, recline to desired angle and push back lock handle down. To release, lean forward, lift the handle and apply pressure to the back to disengage the lock.

Back height adjusts 2½" (23"–25½") by pressing and holding the control button on the right side of the back, and sliding the back support up or down. Release the control button to lock. This feature is standard on work chairs with upholstered (non-mesh) backs only.

Back tension adjusts by turning knob forward to increase back tension, backward to decrease back tension. This feature is standard on all work chairs.

Arm Adjustments

Height-, pivot-, and depth-adjustable arms are available as an option on Reply task chairs.

Arm height adjusts independently within a range of 3¾" (7½"–11¼" from the seat). Push button on outside and under arm cap in while moving arms up or down. Releasing buttons locks arms in position.

Width maintenance arms adjust 1" each independently on chairs with this option. To adjust, loosen the screw under the arm tube and move to desired position and tighten.

Arms pivot 18° inward and 4° outward on models with adjustable pivot arms. Grasp arm and push front to left or right.

Arm depth adjusts approximately 3" to enable user to get closer to worksurface.

Other Features

Height-only adjustable arm is also available and adjusts 3¾".

Soft, dark grey treaded, dual-wheel roll-control casters are available as an option for use on hard floors or mats.

Dual-wheel roll-control casters for use on soft and hard flooring surfaces come standard on leg-base multi-use chairs when specified with casters.

Hard glides come standard on multi-use chairs when specified with glides. Soft glides are available as an option.

Surface Materials

▶ See surface materials on page 538 for specific availability or refer to the *Surface Materials Reference Manual* for further information.

Upholstery

- Fabric
- Fabric with soil-retardant treatment (option)
- Mesh (back only)

Chair with multi-use leg-base

- 6205 Black

Sewn-upholstery models feature a stitch detail on the sides of the seat and back cushions. Task chairs have an additional stitch across the lumbar region of the back cushion.

Swivel-Base Models

Mesh back on swivel-base models are available with a height-adjustable lumbar option to enhance back support.

Upholstered back on swivel-base models feature a back-height adjustment that allows you to raise or lower the chair back from a seated position to support your lower back.

Leg-Base and Sled-Base Models

Mesh back frame with handle on leg-base models provides a convenient handhold to easily move the chair.

Upholstered backrest on leg-base models features a plastic outer shell.

All Steelcase seating with standard upholstery fabrics complies with requirements of the State of California Technical Bulletin 117-2013. All standard seating is labeled to be in compliance with California 117-2013.

Programs & Services

▶ See *Surface Materials Reference Manual* for further detail about programs and services offered for seating.

The Customer's Own Material (COM) Program

offers the opportunity for customers to select fabrics that are not offered through the standard Steelcase surface materials program for use on Steelcase products. Through the COM program, Steelcase will test your materials for application on Steelcase products. Once approved, you can place your order. Steelcase will facilitate the entire ordering process and give you a production schedule. Steelcase will order the COM fabric directly from the textile manufacturer. For up-to-date information regarding fabric test results for all COM fabrics and details regarding yardage requirements for most Seating lines, visit the COM website: www.steelcase.com

Soil retardants are treatments that provide long-term soil and stain resistance to a fabric without affecting the shade or the integrity of the fabric. The following Steelcase Textiles are available pre-treated with soil retardant. (You do not need to select the soil-retardant option for these fabrics and incur the upcharge.)

- Jacks
- Link
- Spyder

For information on soil retardant fabrics on Select Surfaces, please refer to the *Surface Materials Reference Manual*.

Soil-retardant treatment is available on all other seating fabrics at an additional upcharge per seating unit. To order this option, please select "Soil-Retardant Treatment" under "Optional Accessories."

For soil-retardant treatment on COMs, please select "Soil-Retardant Treatment" under "Optional Accessories." Minimums or additional yardage may be required. Please contact the vendor directly for specific information.

Extended lead times may be necessary for this service.

Contact your Steelcase Solutions Fulfillment Team Representative at 1.888.STEELCASE (1.888.783.3522) or send an email to line-one@steelcase.com.

Understanding and Specifying Kart Series Multi-Use Chairs

Product Details

Kart Series	156
Dimensions	158

Specifying

Nesting Chairs	160
Stools	164
Café Leg-Base Stools	168
Leg-Base Stacking Chairs	170
Dolly	172
Jury Base Chairs	174

Multi-Use Chairs

Multi-use chairs are suitable for use as occasional seating within team spaces, workstations, offices, or wherever extra seating is required.

- Player 475 Series
- Move 490 Series
- Snodgrass 474 Series

Kart Series

Kart seating collection offers solutions for classrooms, cafeterias, training rooms, and multipurpose rooms.

Seat height adjusts within a 5" range with a pneumatic adjustment mechanism.

Casters have hard, dual wheels that roll smoothly on carpets. Soft, dark grey treaded, dual-wheel roll-control casters are available for use on hard floors or mats.

Tip: Do not roll the chair across asphalt during installation as this may damage the casters.

Flip the seat on the nesting chairs and eight Kart chairs can nest in the space of two and a half.

Tilt tension adjustment allows you to control the amount of resistance needed for reclining.

Four-arm base is standard on nesting chairs.

Back lock mechanism allow users to lock the back in an upright position.

Stools do not nest.

Adjustable 19" diameter chrome foot ring.

The stool has a five-arm base.

Arms, glides, and back-seat connection will always be black.

Leg base models are available with arms only.

Kart stacking chair stacks six high on the floor.

Glides are standard on stacking chair with the option of hard dual-wheel casters for use on carpets.

Product Details

Nesting chairs and stools with casters are available with or without arms.

Kart is available non-upholstered, upholstered seat only, or upholstered seat and back.

360° swivel motion is locked when in nesting mode (seat up and engaged with base).

Stackability for leg-base models is six high on the floor and ten high on the transport and storage dolly. Leg-base models with casters are not recommended to stack as damage to arms may occur.

Nesting chairs have the ability to nest eight chairs in the space of two and a half.

Kart café stools do not stack.

Jury base models are standard with memory return and 180° swivel in black only.

Kart chairs and stools come standard uncartoned. There is an option to have Kart cartoned. Jury base models are available to ship cartoned only.

Adjustment Features

Adjustability instructions are included with every swivel-base chair. Instructions can also be found at www.steelcase.com.

Seat Adjustments

Seat height adjusts pneumatically. To lower, hold handle up while seated. To raise, hold handle up and keep your weight off the chair. Range of adjustability is 5".

Seat flips on nesting chairs and jury base chairs. Pull the lever under the seat toward the front of the chair and tip the seat up. As the seat releases, the pneumatic lift activates and pushes the chair to its full height position. To lock, spin the chair until the seat engages with the base tooth.

Tilt Tension. To loosen, turn control knob counterclockwise. To tighten, turn control knob clockwise.

Back Adjustments

Forward back lock on nesting and stool with casters. Lean forward, pull triangular knob out until it stops.

Foot Ring Adjustments

19" chrome foot ring adjusts 8½"H to 15½"H by rotating it left or right.

Other Features

Hard dual-wheel casters for use on soft floors come standard on nesting chairs as well as stools with casters.

Soft dual-wheel casters for hard floors on nesting or five-arm base stools are available for specific applications.

Transport and storage dolly is available to stack, move, and store up to ten chairs with or without arms. Without the dolly, chairs will stack up to six high.

Fully loaded transport dolly measures 40"D x 25"W x 63"H non-upholstered, 68"H upholstered.

Surface Materials

▶ See surface materials on page 538 for specific availability or refer to the *Surface Materials Reference Manual* for further information.

Fabric and leathers will appear loose with comfort wrinkles when upholstered.

Back frame and seat shell are plastic on all Kart models.

Upholstery

- Fabric
- Leather
- Elmosoft Leather

Hard Components

(Base, back supports, and arm support bar)

- Aluminum with paint

(Rub strips, yoke strips, non-upholstered seat, and back)

- Plastic

(Café stool steel frame)

- Paint

Arm Caps

- Black plastic

Foot Ring

- Chrome

Casters

- Black only

Glides

- Standard on café stool and optional on nesting and stools with casters.

Jury Base

- Black

Extra Foam

- Available on nesting and stools with casters.

Programs & Services

▶ See the *Surface Materials Reference Manual* for further detail about programs and services offered for seating.

The Customer's Own Material (COM) Program

offers the opportunity for customers to select fabrics that are not offered through the standard Steelcase surface materials program for use on Steelcase products. Through the COM program, Steelcase will test your materials for application on Steelcase products. Once approved, you can place your order. Steelcase will facilitate the entire ordering process and give you a production schedule. Steelcase will order the COM fabric directly from the textile manufacturer. For up-to-date information regarding fabric test results for all COM fabrics and details regarding yardage requirements for most Seating lines, visit the COM website. To locate the COM website:

- Visit www.steelcase.com

Jersey Series

Jersey features a double mesh back in a unique ergonomic "S" shape to conform to each user for comfort and support.

Mesh back is available in 9 colors and is standard on all models.

Seat depth adjusts within a 3" range and is an option on all models.

Seat angle adjusts forward, upright, and reclined to suit user.

Arm height adjusts independently within a 4" range to help relieve upper back and shoulder fatigue.

Arm width adjusts within a 3" range for each arm to provide forearm support in a neutral position.

Arm caps can pivot independently to accommodate user preferences.

Seat height adjusts 4½", from 16" to 20½", with a pneumatic adjustment mechanism.

Upright back lock allows user to lock the back in a full upright position or release it for full-tilt motion.

Five-arm base is plastic on 6205 Black frame models. Base is aluminum on 4799 Platinum models.

Casters have hard, dual-wheels that roll smoothly on carpets. They are 2½" for increased mobility. Soft, dark grey treaded, dual-wheel roll-control casters are available for use on hard floors or mats.
Tip: Do not roll the chair across asphalt during installation as this may damage the casters.

Product Details

Jersey work chairs are available armless, with fixed arms, with height and maintenance width-adjustable arms, and with height-, width-, and pivot-adjustable arms.

Multi-use chairs are available with or without arms and with or without casters.

Arm cap styles depend on the arm adjustment selected.

Arm cap on height-, width-, and pivot-adjustable arms.

Arm cap on fixed and height and maintenance-width-adjustable arms.

Stackability for the Jersey guest chair is four high on the floor. Models with arms are 24 $\frac{1}{4}$ "W x 28 $\frac{1}{2}$ "D x 42 $\frac{1}{2}$ "H. Models without arms are 20 $\frac{5}{8}$ "W x 28 $\frac{1}{2}$ "D x 42 $\frac{1}{2}$ "H. If stacking dimensions are intended for an enclosure, add 2" to the width and depth, and 1" to the height for clearance.

Adjustment Features

Seat Adjustments

Seat height adjusts pneumatically. To raise chair, lift body weight up, and pull lever up. To lower chair, remain seated and pull lever up.

Seat angle adjustment. Pull lever back and hold, shift seat to desired angle, and release lever to lock.

Seat depth adjustment. Pull lever forward and hold, shift seat forward or back, and release lever to lock.

Back Adjustments

Back tension adjustment. To decrease tension, turn counterclockwise. To increase tension, turn clockwise.

Upright back lock. To release, lean forward and pull toward back. To lock, lean forward and push toward front.

Arm Adjustments

Arm height. Pull trigger up and hold, pull arm up or push down, and release trigger to lock.

Arm width on rounded telescoping height, width, and pivot arm. Grasp arm caps and move in or out. Arm will stay where positioned.

Arms pivot independently, 30° inward and outward. Grasp arm and push front to left or right.

Maintenance arm width adjustment. Loosen and remove screws, slide arm bracket in. Replace and tighten screws.

Surface Materials

► See surface materials on page 538 for specific availability or refer to the *Surface Materials Reference Manual* for further information.

Upholstery

- Mesh on back standard
- Fabric or leather on seat

Hard components

- (base, arms, plastic arm caps, outer seat)
- Black

Platinum frame

- (base and arm uprights) available as an option

Arms

- Black

All Steelcase seating with standard upholstery fabrics

complies with requirements of the State of California Technical Bulletin 117-2013. All standard seating is labeled to be in compliance with California 117-2013.

Jersey Series, continued

Programs & Services

▶ See the *Surface Materials Reference Manual* for further detail about programs and services offered for seating.

The Customer's Own Material (COM) Program

offers the opportunity for customers to select fabrics that are not offered through the standard Steelcase surface materials program for use on Steelcase products. Through the COM program, Steelcase will test your materials for application on Steelcase products. Once approved, you can place your order. Steelcase will facilitate the entire ordering process and give you a production schedule. Steelcase will order the COM fabric directly from the textile manufacturer. For up-to-date information regarding fabric test results for all COM fabrics and details regarding yardage requirements for most Seating lines, visit the COM website. To locate the COM website:

- Visit www.steelcase.com

Leap 464 Series WorkLounge

WorkLounge—a chair designed especially for people who like to work in a deep, reclined posture.

Outer back is fully upholstered.

Ribbon back frame is standard.

Lower back firmness changes the amount of firmness user feels in lower back. Requires only two complete turns.

Upper back force requires only five complete turns and accommodates a broader range of users by allowing user to change the rate of increase in force as the user reclines.

Variable back stop with five positions is standard.

Seat height adjusts within a 3" range with a pneumatic adjustment mechanism.

Ottoman quickly and easily converts from a footrest to an auxiliary work or laptop table.

Work table, with top up, is 25"H from the floor.

Headrest and flip-up pillow provide neck and head support.

LiveBack moves with the shape of the user's spine as sitting positions change.

Fixed arms have extra padding to provide forearm support and comfort.

Lumbar pillow provides extra comfort and support to the lumbar region.

Extra thick seat cushion provides extra comfort.

Five-arm base is standard with glides. 3" hard or soft casters are available as options.
Tip: Do not roll the chair across asphalt during installation as this may damage the casters.

Polished aluminum is standard on ribbon back frame, arm supports, base, and casters.

Footrest is cushioned and upholstered. Footrest surface is 15"H from the floor.

Polished aluminum is standard on post and four-arm base.

Four-arm base is standard with two glides and two hard, dual-wheel casters.

Product Details

Adjustability instructions are included with every chair and ottoman.

Controls under the seat include tactile braille designators.

Ottoman easily converts between two positions. With the top up, it is a work or lap-top table; with the top down it is a footrest. Locking pivot mechanism holds each position in place.

Adjustment Features**Seat Adjustments**

Seat height adjusts pneumatically. To lower, hold handle up while seated. To raise, hold handle up and keep your weight off the chair. This feature is standard. Range of adjustability is 3" from 15"H–18"H with standard glides and 17"H–20"H with optional casters.

Back Adjustments

Lower back firmness adjusts by turning knob two complete turns. Forward increases firmness. Backward decreases firmness. This feature is standard.

Upper back force adjusts by turning knob five complete turns. Turn knob forward to increase rate of tension; backward to decrease. This feature is standard.

Variable back stop. Rotate handle up or down to set recline angle. Lean back to desired back angle. Five stops are available. This feature is standard.
Tip: To stop in upright position, remove weight from back and rotate lever up.

Other Features

Flip-up pillow can be positioned for use on headrest or placed over the backside of headrest when not in use. This feature is standard.

Lumbar pillow is positioned to provide comfort and support to the lumbar region.

Glides are standard.

Casters are optional. 3" polished aluminum hard- or soft-wheel casters are available.

Surface Materials

▶ See surface materials on page 538 for specific availability or refer to the *Surface Materials Reference Manual* for further information.

Upholstery

- Bo Peep fabric
- Elmorustical Leather
- Elmosoft Leather
- Select Surfaces leather

Hard components

- (Seat shell and glides)
- 6205 Black

Polished aluminum

is standard on chair and ottoman. Polished aluminum is applied to ribbon back frame, arm supports, base, and casters of chair. Ottoman has polished aluminum on post and base.

Programs & Services

▶ See the *Surface Materials Reference Manual* for further detail about programs and services offered for seating.

The Customer's Own Material (COM & COL) Program

offers the opportunity for customers to select fabrics and leather that are not offered through the standard Steelcase surface materials program for use on Steelcase products. Avoid pattern fabrics and heavily grained leathers. Through the COM & COL program, Steelcase will test your materials for application on Steelcase products. Once approved, you can place your order. Steelcase will facilitate the entire ordering process and give you a production schedule. Steelcase will order the COM & COL fabric and leather directly from the textile manufacturer. For up-to-date information regarding fabric test results for all COM & COL fabrics and details regarding yardage requirements for most Seating lines, visit the COM website. To locate the COM website:

Siento 499 Series

Siento desk chairs, designed in collaboration with Jorge Pensi, merge remarkable ergonomic comfort with a slim and sophisticated executive form.

Outer back is fully upholstered.

Patented LiveBack technology (found in Steelcase Leap chair) is embedded in the back to change shape and mimic the user's spine.

Arms are available as either T-arms or enclosed.

Arm uprights are available in polished aluminum, platinum, or black.

Five-arm base is available in polished aluminum, platinum, or black.

Headrest option provides additional head and neck support.

Seat height adjusts from 16" to 21" and is standard with pneumatic adjustment mechanism. Fixed-height option is also available.

Front seat edge flexes naturally to relieve pressure under the user's thighs.

3"- hard dual-wheel casters are provided for use on carpet. Soft dark grey treaded, dual-wheel roll-casters are available for use on hard floors or mats. *Tip: Do not roll the chair across asphalt during installation as this may damage the casters.*

Adjustability Features

- Pneumatic seat-height
- Upright back lock
- Back tension control
- Synchro-tilt mechanism

Product Details

High-back and mid-back desk chairs are available.

Arms are available as T-arms or enclosed. Fixed T-arms are available in urethane or fully upholstered. Adjustable T-arms are available in urethane only. Enclosed arms are always fully upholstered.

All Siento chairs comply with ANSI/HFS and BIFMA standards.

Width between arms	20½"	20½"	20½"
Arm height from seat	8"	8"	8"
Angle between back and seat	100° to 114°	100° to 114°	100° to 114°

Adjustment Features

Seat height adjusts pneumatically. To lower, hold handle up while seated. To raise, hold handle up and keep your weight off the chair. Standard range of adjustability is 5" from 16"H to 21"H.

Seat edge flexes, relieving pressure under the user's thighs.

Upright back lock. Flick switch forward to lock; flick switch back to tilt.

Back tension control adjusts by turning knob. Turn knob forward to increase rate of tension, backward to decrease.

Synchro-tilt mechanism provides synchronized back movement while feet remain flat on the floor.

Height-, width-, pivot-, and depth-adjustable arms are available on select models of chairs.

Arm height adjusts independently within a range of 4" (7"-11" from the seat). Push button on outside and under arm cap in while moving arms up or down. Releasing buttons locks arms in position.

Arm depth adjusts by sliding arm caps back 3". Friction-fit mechanism keeps arms in position.

Arms pivot independently, 30° inward and outward

Arm width can be adjusted 2 1/4" each, 4 1/2" overall. Grasp arm cap and move in or out.

Programs & Services

► See the *Surface Materials Reference Manual* for further detail about programs and services offered for seating.

The Customer's Own Material (COM & COL)

Program offers the opportunity for customers to select fabrics and leather that are not offered through the standard Steelcase surface materials program for use on Steelcase products. Avoid pattern fabrics and heavily grained leathers. Through the COM & COL program, Steelcase will test your materials for application on Steelcase products. Once approved, you can place your order. Steelcase will facilitate the entire ordering process and give you a production schedule. Steelcase will order the COM & COL fabric and leather directly from the textile manufacturer. For up-to-date information regarding fabric test results for all COM & COL fabrics and details regarding yardage requirements for most Seating lines, visit the COM website: • Visit www.steelcase.com

Soil retardants are treatments that provide long-term soil and stain resistance to a fabric without affecting the shade or the integrity of the fabric. The following Steelcase Textiles are available pre-treated with soil retardant. (You do not need to select the soil-retardant option for these fabrics and incur the upcharge.)

- Jacks
- Link
- Spyder

For information on soil retardant fabrics on Select Surfaces, please refer to the *Surface Materials Reference Manual*.

Soil-retardant treatment is available on all other seating fabrics at an additional upcharge per seating unit. To order this option, please select "Soil-Retardant Treatment" under "Optional Accessories."

For soil-retardant treatment on COMs, please select "Soil-Retardant Treatment" under "Optional Accessories." Minimums or additional yardage may be required. Please contact the vendor directly for specific information.

Extended lead times may be necessary for this service.

Contact your Steelcase Solutions Fulfillment Team Representative at 1.888.STEELCASE (1.888.783.3522) or send an e-mail to lineone@steelcase.com.

Local codes may have special requirements for upholstery.

Understanding and Specifying Criterion 453 Series Work Chairs

Work Chairs

Highly adjustable task seating offers maximum personalization for fit and comfort for a range of duration and use. By making a series of simple adjustments, you can customize the chair to your body, preferences, and tasks. These chairs provide continuous, stable, comfort, and can be quickly adjusted to support you in upright, and reclining work postures.

Criterion 453 Series

Criterion is a high-performance chair, ideal for users who sit for long periods of time. As one of the world's best-selling chairs with a broad range of adjustments, Criterion meets the long-term comfort needs of today's diverse workforce.

Outer back and outer seat is plastic. Fully upholstered outer back is an option.

Arm height adjusts independently within a 4" range to help relieve upper back and shoulder fatigue.

Seat depth adjusts within a 3" range and is available as an option.

Seat height adjusts within a 5" range with a pneumatic adjustment mechanism.

Five-arm base is standard.

Arm width adjusts within a 4" range for each arm to provide forearm support in neutral position for 5th to 95th percentile office workers.

Arm caps can pivot independently 14° in and 21° out to accommodate individual user preferences.

Back height adjusts up and down within a 2" range to help ensure healthful back posture.

Variable back stop is standard.

Seat angle adjusts forward, upright, and reclined to suit user. Seat angle is standard.

Casters have hard, dual-wheels that roll smoothly on carpets. They are 2 1/8" diameter for increased mobility. Soft, dual-wheel casters are available for use on hard floors or chair mats.

Tip: Do not roll the chair across asphalt during installation as this may damage the casters.

Product Details

Three basic sizes are available—high-back, mid-back, and Plus. All are offered with and without arms. High-back and mid-back are also available as stools.

Criterion features a seat angle adjustment which allows the seat angle to function in a fixed or articulating mode. Variable back stop will lock the back in an upright position or allow the user to set a specific back stop position which the chair will recline to.

Criterion Plus has an upright back lock and offers a wider seat with more space between the arms to accommodate workers who need a larger chair. The Criterion Plus chair is tested to hold up to 400 pounds under normal use.

Upholstery Details

Criterion is standard with a molded upholstered seat and back.

Sewn upholstery can be specified to accommodate vinyl and other high-performance fabrics. Seat and back cushions feature a stitched detail. Specify using an **S** suffix.

Non-sewn seat upholstery can be specified to accommodate vinyl and other high-performance fabrics without a seam on the seat. Back cushion will have stitched detail. Specify using an **X** suffix. This option is available on models with adjustable seat depth only.

Adjustment Features

Seat Adjustments

Seat height adjusts pneumatically. To lower, hold handle up while seated. To raise, hold handle up and keep your weight off the chair. Range of adjustability is 5" from 16"H to 21"H.

Seat angle adjusts by pulling handle up and shifting your weight to alter seat angle. Release handle to lock. This feature is standard.

Seat depth adjusts by pulling handle up. Slide seat forward or back to accommodate various leg lengths. Release handle to lock. This feature is optional. For Criterion Plus, seat depth is a maintenance adjustment. The chair has three depth settings: 15", 16⁵/₈", and 18¹/₄". The chair will ship in the 18¹/₄" position.

Back Adjustments

Back tension adjusts by turning knob. Turn knob clockwise to increase tension, counterclockwise to decrease. This feature is standard.

Variable back stop. Hold switch forward to recline. Lean back to desired back angle. Release switch to set tilt range. *Tip: To lock in upright position, remove weight from back and release switch.*

Back height adjusts within a 2" range by pulling handle forward while moving chair back up or down. Release handle to lock chair back in position. This feature is standard.

Arm Adjustments

Arms are available fixed, height- and width-adjustable, and height-, width-, and pivot-adjustable.

Arm height adjusts independently within a range of 4" on all adjustable arm models. Squeeze triggers in while moving arms up or down. Releasing triggers locks arms in position.

Arm width adjusts independently on chairs with the height- and width-adjustable option. Grasp arm and move in or out. Arm will stay where positioned.

Arms pivot independently on models with height-, width-, and pivot-adjustable arms, 35° inward and outward. Grasp arm and push front to left or right.

Other Features

Foot ring height on stools adjusts by first lifting ring and rotating it counter-clockwise to unlock. Then raise or lower ring up to 4" to desired position before rotating it clockwise to lock.

Alternative casters and glides are available for specific applications, including soft-wheel casters for hard floors.

Glides are 2"H and interchangeable with casters.

Surface Materials

▶ See surface materials on page 538 for specific availability or refer to the *Surface Materials Reference Manual* for further information.

Upholstery

- Fabric
- Fabric with soil-retardant treatment (option)
- Leather
- Elmosoft leather
- Select Surfaces leather
- Vinyl

Hard components

(base, arms, plastic arm caps, outer back, outer seat, and foot ring)

- Monochromatic color from list of seating plastic color numbers will apply to all hard components.

Outer back and outer seat

- Plastic color to match color of other "hard components"
- Fully upholstered outer back with plastic color outer seat

Arms

- Soft vinyl arm caps to match the plastic color of the other "hard components"

Casters

- Plastic color to match other "hard components"

Foot ring on stools

- Plastic color to match other "hard components"
- 9201 Polished Chrome

Glides

- Stainless steel only

All Steelcase seating with standard upholstery fabrics complies with requirements of the State of California Technical Bulletin 117-2013. All standard seating is labeled to be in compliance with California 117-2013.

Programs & Services

▶ See the *Surface Materials Reference Manual* for further detail about programs and services offered for seating.

The Customer's Own Material (COM)

Program offers the opportunity for customers to select fabrics that are not offered through the standard Steelcase surface materials program for use on Steelcase products. Through the COM program, Steelcase will test your materials for application on Steelcase products. Once approved, you can place your order. Steelcase will facilitate the entire ordering process and give you a production schedule. Steelcase will order the COM fabric directly from the textile manufacturer. For up-to-date information regarding fabric test results for all COM fabrics and details regarding yardage requirements for most Seating lines, visit the COM website. To locate the COM website:

- Visit www.steelcase.com

Soil retardants are treatments that provide long-term soil and stain resistance to a fabric without affecting the shade or the integrity of the fabric. The following Steelcase Textiles are available pre-treated with soil retardant. (You do not need to select the soil-retardant option for these fabrics and incur the upcharge.)

- Jacks
- Link
- Spyder

For information on soil retardant fabrics on Select Surfaces, please refer to the *Surface Materials Reference Manual*.

Soil-retardant treatment is available on all other seating fabrics at an additional upcharge per seating unit. To order this option, please select "Soil-Retardant Treatment" under "Optional Accessories."

For soil-retardant treatment on COMs, please select "Soil-Retardant Treatment" under "Optional Accessories." Minimums or additional yardage may be required. Please contact the vendor directly for specific information.

Extended lead times may be necessary for this service.

Contact your Steelcase Solutions Fulfillment Team Representative at 1.888.STEELCASE (1.888.783.3522) or send an email to line-one@steelcase.com.

Criterion Upholstery

What Is It?

Fabric, leather, or vinyl-covered back and seat.

Fabric

Leather, Vinyl, and Select Fabrics

Criterion is standard with a molded upholstered seat and back.

Sewn upholstery can be specified to accommodate vinyl and other high-performance fabrics. Seat and back cushions feature a stitched detail.

- Specify using an **S** suffix.
- Plus models come standard with sewn upholstery.

Non-Sewn Seat

Pattern alignment at the lumbar seam cannot be guaranteed.

Non-Sewn Seat upholstery can be specified to accommodate vinyl and other high-performance fabrics without a seam on the seat. Back cushion will have stitched detail.

- Specify using an **X** suffix.
- Available only on models with adjustable seat depth.

Plastic outer back is fully exposed. Fully upholstered outer back with plastic colored outer seat is available. Plus models are only available with a fully upholstered outer back.

Seat and back cushions can be removed and replaced if damaged.

Criterion 453 Series Mid-Back Work Chairs

► Need help?
Product details,
page 210

Standard Includes

- Back height adjustment
- Seat angle adjustment
- Variable back stop
- Back tension adjustment
- Arms, if selected: plastic color to match base
- Outer back and outer seat: plastic color
- Upholstery: fabric price group 1
- Five-arm base: plastic color
- 2½"-diameter, hard composition, dual-wheel casters: black plastic

Required to Specify

- 1 Style number
 - 2 Plastic color number for base, outer back, outer seat, and arms
 - 3 Fabric color number for upholstery
 - 4 Options, if selected (see below)
- See *Surface Materials*, page 538.

	Options	U.S. Price	Required to Specify
Surface Materials	Upholstery on seat and back		
	• Fabric price group 1	No cost	Specify fabric color number.
	• Fabric price group 2	+\$ 27	Specify fabric color number.
	• Fabric price group 3	+\$ 49	Specify fabric color number.
	• Fabric price group 4	+\$ 70	Specify fabric color number.

Swivel-Base Work Chairs	240
Leg-Base Multi-Use Chairs	242
Swivel-Base Stools	244
Cushion Upholstery Packages	246
Accessories	250

Work Chairs

Cachet offers basic ergonomic comfort for people who have varied tasks and tend to be in and out of the office during the day. Features include adjustable seat height and a unique Balanced-Action Rocker (BAR) mechanism that allows users to recline easily without a manual adjustment. Also featured is the no front-rise seat—in other words, when you lean back, the front edge of the seat doesn't rise up, lifting your legs off the floor and cutting off circulation.

- Protégé 433 Series
- Cachet 487 Series

Cachet 487 Series

Cachet chairs are light-weight, extremely comfortable, multipurpose chairs with a unique Balanced-Action Rocker (BAR) mechanism that allows the chair to recline in response to the user's weight.

Flexible, contoured back and seat have parallel slats that conform to individual users.

Nylon injection-molded tubular frame provides strength with minimal weight.

Plastic glides are standard. Optional soft glides are available.

Balanced-action rocker (BAR) mechanism allows every user to fully recline.

Five-arm base is standard.

Flip-up arms easily lift to move out of the way or to allow for stacking.

Seat height adjusts within a 5" range (15½"H to 20½"H) with a pneumatic-adjustment mechanism.

Casters have hard, dual-wheels that roll smoothly on carpets. They are 2¾" diameter for increased mobility. Soft, dark grey treaded, dual-wheel roll-control casters are available for use on hard floors and mats.
Tip: Do not roll the chair across asphalt during installation as this may damage the casters.

Product Details

Chair bases are available in three styles—fixed-height four leg, adjustable-height swivel, and adjustable-height stool.

Balanced-action rocker (BAR) mechanism allows the user to recline for optimum comfort.

Upholstered cushions are available for use on chair back and seat. Cushions can be specified for factory installation or ordered separately for field installation. When specified with the chair, cushions are available for seat and back, or seat only. When ordered separately, cushions are available for seat and back, seat only, or back only. The cushions attach to the slats of back and seat.

Tip: You must specify plastic outer back color to match chair.

Soft, dark grey treaded, dual-wheel roll-control casters are available for use on hard floors or mats. Roll-control casters feature an internal brake that activates when the chair is not under load to reduce shifting when user stands up.

Hard plastic glides are standard on leg-base chairs.

Soft felt glides are available as an option for use on non-carpeted surfaces. The soft glide is reversible—soft on one side, hard on the other.

Leg-base chairs stack five high on the floor and 20 high on the dolly. Upholstery does not impact stacking capacity.

Leg-base chairs are available with or without flip-up arms. Chairs with or without arms can be stacked.

Other Features

Foot ring height on stools adjusts by first lifting ring and rotating it counter-clockwise to unlock. Then raise or lower ring up to 2" to desired position before rotating it clockwise to lock. The foot ring has a diameter of 20".

Transport and storage dolly is available to stack, move, and store up to 20 leg-base chairs. Upholstery does not impact stacking capacity. Swivel-base chairs will not stack.

Unloaded transport dolly measures 48"D x 23"W x 38¾"H.

Fully loaded transport dolly measures 51"D x 23"W x 78¾"H.

Ganging and alignment device is available to link leg-base chairs together in the field for evenly spaced rows. Chairs can be separated easily. Spacing between chairs linked with alignment device is 2".
Tip: You must specify plastic color of ganging and alignment device to match chairs.

Cachet is recommended for indoor use only.

Surface Materials

► See surface materials on page 538 for specific availability or refer to the *Surface Materials Reference Manual* for further information.

Hard components (frame, flip-up arms, back, seat, and base)

- Swivel and 4-leg chair models available in black, midnight, and ash
- Stool available in black only

Upholstery

- Fabric
- Fabric with soil-retardant treatment (option)
- Leather
- Elmosoft leather
- Select Surfaces leather
- Vinyl

Glides

- Color-matched plastic on leg-base chair
- Color-matched soft plastic on leg-base chair (option)

Casters

- Hard, black plastic wheels on swivel-base chair and stool
- Soft, dual-wheel roll-control black plastic wheels (option)

All Steelcase seating with standard upholstery fabrics complies with requirements of the State of California Technical Bulletin 117-2013. All standard seating is labeled to be in compliance with California 117-2013.

Programs & Services

► See the *Surface Materials Reference Manual* for further detail about programs and services offered for seating.

The Customer's Own Material (COM)

Program offers the opportunity for customers to select fabrics that are not offered through the standard Steelcase surface materials program for use on Steelcase products. Through the COM program, Steelcase will test your materials for application on Steelcase products. Once approved, you can place your order. Steelcase will facilitate the entire ordering process and give you a production schedule. Steelcase will order the COM fabric directly from the textile manufacturer. For up-to-date information regarding fabric test results for all COM fabrics and details regarding yardage requirements for most Seating lines, visit the COM website. To locate the COM website:

- Visit www.steelcase.com

Soil retardants are treatments that provide long-term soil and stain resistance to a fabric without affecting the shade or the integrity of the fabric. The following Steelcase Textiles are available pre-treated with soil retardant. (You do not need to select the soil-retardant option for these fabrics and incur the upcharge.)

- Jacks
- Link
- Spyder

For information on soil retardant fabrics on Select Surfaces, please refer to the *Surface Materials Reference Manual*.

Soil-retardant treatment is available on all other seating fabrics at an additional upcharge per seating unit. To order this option, please select "Soil-Retardant Treatment" under "Optional Accessories."

For soil-retardant treatment on COMs, please select "Soil-Retardant Treatment" under "Optional Accessories." Minimums or additional yardage may be required. Please contact the vendor directly for specific information.

Extended lead times may be necessary for this service.

Contact your Steelcase Solutions Fulfillment Team Representative at 1.888.STEELCASE (1.888.783.3522) or send an email to lineone@steelcase.com.

Local codes may have special requirements for upholstery.

Value Package Work Chair	256
Work Chairs	258
Multi-Use Chairs	260
Sled-Base Multi-Use Chair	262

Work Chairs

Adjustable work chairs offer basic ergonomic comfort for people who have varied tasks and tend to be in and out of the office during the day. Features include adjustable seat height, back tension, and upright back lock. Also featured is the no front-rise seat—in other words, when you lean back, the front edge of the seat doesn't rise up, lifting your legs off the floor and cutting off circulation.

- Protégé 433 Series
- Cachet 487 Series

Adjustability Features

▶ See page 22 for a comparison to other chairs

Protégé 433 Series

Mechanisms

Advanced swivel-tilt ●

Seat Adjustments

Pneumatic height ●

Back Adjustments

Upright back lock ●

Back tension ●

Protégé 433 Series

Protégé is an economic, general-use solution with basic ergonomic features. Protégé is stylish, comfortable, and well suited for a wide range of tasks, including moderate computer use.

Outer back is plastic. Fully upholstered outer back is an option.

Five-arm base is standard.

Arms are standard with soft arm caps.

Seat height adjusts with a 5" range from 15"H to 20"H with a pneumatic adjustment mechanism.

Casters have hard, dual-wheels that roll smoothly on carpets. They are 2½" diameter for increased mobility. Soft, dark grey treaded, dual-wheel roll-control casters are for use on hard floors and mats.
Tip: Do not roll the chair across asphalt during installation as this may damage the casters.

Product Details

Work and multi-use chairs are available with or without arms.

Multi-use chair bases are available in two styles: advanced swivel-tilt and sled base.

Adjustment Features

Seat Adjustments

Seat height adjusts pneumatically. To lower, hold handle up while seated. To raise, hold handle up and keep your weight off the chair.

Back Adjustments

Back tension adjusts by turning knob. Turn knob clockwise to increase tension, counterclockwise to decrease.

Upright back lock.
Flick switch forward to lock; flick switch back to tilt.

Surface Materials

▶ See surface materials on page 538 for specific availability or refer to the *Surface Materials Reference Manual* for further information.

Upholstery

- Fabric
- Fabric with soil-retardant treatment (option)
- Leather
- Elmosoft leather
- Select Surfaces leather
- Vinyl

Base and arms

- 6205 Black
- 6250 Coffee
- 6249 Platinum

Arm caps and outer back shell

- 6205 Black
- 6250 Coffee

Casters

Glides

- Plastic on sled base models

All Steelcase seating with standard upholstery fabrics

complies with requirements of the State of California Technical Bulletin 117-2013. All standard seating is labeled to be in compliance with California 117-2013.

Programs & Services

▶ See the *Surface Materials Reference Manual* for further detail about programs and services offered for seating.

The Customer's Own Material (COM) Program

offers the opportunity for customers to select fabrics that are not offered through the standard Steelcase surface materials program for use on Steelcase products. Through the COM program, Steelcase will test your materials for application on Steelcase products. Once approved, you can place your order. Steelcase will facilitate the entire ordering process and give you a production schedule. Steelcase will order the COM fabric directly from the textile manufacturer. For up-to-date information regarding fabric test results for all COM fabrics and details regarding yardage requirements for most Seating lines, visit the COM website. To locate the COM website:

- Visit www.steelcase.com

Soil retardants are treatments that provide long-term soil and stain resistance to a fabric without affecting the shade or the integrity of the fabric. The following Steelcase Textiles are available pre-treated with soil retardant. (You do not need to select the soil-retardant option for these fabrics and incur the upcharge.)

- Jacks
- Link
- Spyder

For information on soil retardant fabrics on Select Surfaces, please refer to the *Surface Materials Reference Manual*.

Soil-retardant treatment is available on all other seating fabrics at an additional upcharge per seating unit. To order this option, please select "Soil-Retardant Treatment" under "Optional Accessories."

For soil-retardant treatment on COMs, please select "Soil-Retardant Treatment" under "Optional Accessories." Minimums or additional yardage may be required. Please contact the vendor directly for specific information.

Extended lead times may be necessary for this service.

Contact your Steelcase Solutions Fulfillment Team Representative at 1.888.STEELCASE (1.888.783.3522) or send an email to lineone@steelcase.com.

Other Features

Foot ring height (stool) ●

SILQ 418 Series

SILQ is a breakthrough in seating design that combines innovation, artistry, and performance to create a personal experience by responding to the unique movements of your body.

Upper back shell is molded plastic.

Lower shell is painted plastic or carbon fiber.

Fabric is applied in the warp vertical direction.

Fixed arms are painted plastic. Arm caps are molded plastic. An armless option is available. Polished aluminum is available as an option.

Seat height adjusts $4\frac{5}{8}$ " from $16\frac{1}{4}$ "H to $20\frac{7}{8}$ "H with a pneumatic adjustment mechanism.

Casters have hard, dual-wheels that roll smoothly on carpets. They are $2\frac{1}{2}$ " for increased mobility. Soft, dual-wheel, roll control casters are an option available for use on hard floors or chair mats. Hard glides, hard hubless casters, and soft hubless casters are also available as an option.
Tip: Do not roll the chair across asphalt during installation as this may damage the casters.

Five-arm base is plastic.

Product Details

Five-arm base chairs and stools are available with and without arms. Five-arm bases are also available with casters or glides.

Adjustment Features

Adjustability instructions are included with every chair. Instructions can also be found at www.steelcase.com.

Seat Adjustments

Seat height adjusts pneumatically. To lower, pull lever up while seated. To raise, pull lever up and keep your weight off the chair.

Foot ring height on stools adjusts by first lifting ring and rotating it counter-clockwise to unlock. Then raise or lower ring up to 1³/₄" to desired position before rotating it clockwise to lock. The foot ring has a diameter of 20".

Back Adjustments

Weight activated compliant system responds to the natural movements of the user's body.

Other features

Hard and soft, hubless roll control wheel casters and hard glides are available as options on the five-arm base.

Cartoned request on dealer purchase order forces SILQ chairs to ship knocked down in three pieces; the seat and back, the base, and the pneumatic cylinder. This request forces SILQ stools to ship knocked down in four pieces; the seat and back, the base, the pneumatic cylinder, and the foot ring. Assembly by a qualified dealer installer is required. Assembly instructions are included.

Surface Materials

▶ See surface materials on page 538 for specific availability or refer to the *Surface Materials Reference Manual* for further information.

Upholstery

- Fabric
- Fabric with soil-retardant treatment (option)

▶ See SILQ Resources on Village for list of approved fabrics (<https://village.steelcase.com/docs/DOC-49519>)

Tip: Fabric on the SILQ 418 Series will only be applied in the warp vertical/down roll direction. This includes all standard Steelcase fabrics, Select Surfaces, and COMs.

▶ See *Fabric Application Direction Guidelines*, page 545.

Tip: See next page for Color Scheme Matrix.

All Steelcase seating with standard upholstery fabrics complies with requirements of the State of California Technical Bulletin 117-2013. All standard seating is labeled to be in compliance with California 117-2013.

Programs & Services

▶ See the *Surface Materials Reference Manual* for further detail about programs and services offered for seating.

The Customer's Own Material (COM) Program

offers the opportunity for customers to select fabrics that are not offered through the standard Steelcase surface materials program for use on Steelcase products. Through the COM program, Steelcase will test your materials for application on Steelcase products. Once approved, you can place your order. Steelcase will facilitate the entire ordering process and give you a production schedule. Steelcase will order the COM fabric directly from the textile manufacturer. For up-to-date information regarding fabric test results for all COM fabrics and details regarding yardage requirements for most Seating lines, visit the COM website. To locate the COM website:

- Visit www.steelcase.com

Soil retardants are treatments that provide long-term soil and stain resistance to a fabric without affecting the shade or the integrity of the fabric. The following Steelcase Textiles are available pre-treated with soil retardant. (You do not need to select the soil-retardant option for these fabrics and incur the upcharge.)

- Jacks
- Link
- Spyder

For information on soil retardant fabrics on Select Surfaces, please refer to the *Surface Materials Reference Manual*.

Soil-retardant treatment is available on all other seating fabrics at an additional upcharge per seating unit. To order this option, please select "Soil-Retardant Treatment" under "Optional Accessories."

For soil-retardant treatment on COMs, please select "Soil-Retardant Treatment" under "Optional Accessories." Minimums or additional yardage may be required. Please contact the vendor directly for specific information.

Extended lead times may be necessary for this service.

Contact your Steelcase Solutions Fulfillment Team Representative at 1.888.STEELCASE (1.888.783.3522) or send an email to lineone@steelcase.com.

Fire Codes

▶ See page 552 for upholstery fabrics available for use with FCS modification.

Steelcase offers Fire Code Seating modification (FCS) on some seating models. The most rigorous fire codes in the nation have been developed in California, and the Steelcase FCS modification is designed to meet those codes. Fire Code Seating (FCS) indicates that a product is constructed to meet the strict fire code requirements of high public occupancy areas such as theaters, meeting rooms, and lobbies. The FCS standards will meet the State of California Bureau of Electronic and Appliance Repair, Home Furnishings, and Thermal Insulation Technical Bulletin 133 (Cal TB 133). Boston adopted the California Bureau of Electronic and Appliance Repair, Home Furnishings, and Thermal Insulation Technical Bulletin TB 133 test standard in 1992.

Local codes may have special requirements for upholstery.

Pivoting back ●

Other Features

Foot ring height (stool) ●

QiVi 428 Series

QiVi is a family of seating, inspired by collaboration and designed to encourage movement and support various postures. With its pivoting backrest and gliding seat, QiVi adjusts automatically to provide comfort for extended periods of time.

Arms are painted aluminum with a soft touch painted plastic arm cap. Polished aluminum arms are available as an option.

Seat height adjusts 4½" from 17½"H to 22"H with a pneumatic adjustment mechanism.

Back frame, seat shell, and arm caps are plastic and will always coordinate finish color.

Frame is painted steel with a soft touch painted plastic arm cap. Polished chrome is available as an option.

Pivoting back rotates 15° automatically, encouraging movement and sitting in multiple postures.

Hard plastic glides are standard, soft glides are available as an option.

Gliding seat has a 1" range. Movement is automatic and follows the user as they shift postures. A fixed seat is available as an option.

Five-arm base is plastic, a polished aluminum base is available as an option.

Casters have hard, dual-wheels that roll smoothly on carpets. They are 2½" for increased mobility. Soft, dark grey treaded, dual-wheel roll-control casters are available for use on hard floors or mats. Stools are standard with 2" hard casters. Soft casters are available as an option.

Tip: Do not roll the chair across asphalt during installation as this may damage the casters.

Product Details

Five-arm base chairs and stools are available with and without arms.

Sled-base is available with arms only.

360° adjustable height swivel mechanism is standard on five-arm base models.

QiVi ships standard assembled and uncartoned. Cartoned shipment is available as an option.

Stacking density for sled-base stacking chairs is three on the floor. Bases on the stacking chairs have a slight bend at the front of each leg.

Adjustment Features

Adjustability instructions are included with every swivel-base chair. Instructions can also be found at www.steelcase.com.

Seat Adjustments

Seat height adjusts pneumatically. To lower, pull lever up while seated. To raise, pull lever up and keep your weight off the chair.

Foot ring height on stools adjusts by first lifting ring and rotating it counter-clockwise to unlock. Then raise or lower ring up to 4" to desired position before rotating it clockwise to lock. The foot ring has a diameter of 20".

Gliding seat automatically glides forward and back, adjusting to the natural motion of your body. The seat glides within a 1" range and returns to a neutral position when the user leaves the seat. The gliding seat is a standard feature, a fixed seat option is available.

Back Adjustments

Pivoting back automatically follows the natural motion of your back as you recline, encouraging movement and supporting multiple postures. The backrest pivot range is 15° and will return to the neutral position when the user is not applying pressure to the back.

Other features

Soft wheel casters for hard floors on five-arm base models are available for specific applications.

Hard glides come standard on sled base chairs, soft glides are available as an option.

Surface Materials

► See surface materials on page 538 for specific availability or refer to the *Surface Materials Reference Manual* for further information.

Back Upholstery

- QiVi Net (back only)
- QN01 Wasabi
- QN02 Licorice
- QN03 Tangerine
- QN04 Graphite
- QN05 Malt
- QN06 Coconut
- QN07 Scarlet
- QN08 Blue Jay
- QN10 Aubergine

- Elmosoft Leather
- Select Surfaces leather
- Vinyl
- COM
- COL

Tip: Some Steelcase seating fabrics are available with and without a stitched detail on the seat. See seating upholstery matrix for details.

Lux Coatings

- QiVi sled-base chairs (base only)
- 4B20 Obsidian
- 4B22 Matte Brass
- 4B23 Burnished Bronze
- 4B24 Night Bronze
- 4B25 Matte Copper

Plastic components

- Back frame, seat shell, and arm caps
 - 6009 Arctic White
 - 6205 Black
 - 6249 Platinum
- Tip: Only one finish can be selected for all three plastic components.*

Base, frame, and arms

- 6205 Black
- 7241 Textured Arctic White
- 4799 Platinum Metallic
- 8046 Polished Aluminum (five-arm only)
- 9201 Polished Chrome (sled only)

Casters and glides

- 6205 Black

Foot ring on stools

- 6205 Black
- 6249 Platinum
- 7241 Arctic White

Tip: Foot ring and cylinder on stool will coordinate to match the base color.

All Steelcase seating with standard upholstery fabrics complies with requirements of the State of California Technical Bulletin 117-2013. All standard seating is labeled to be in compliance with California 117-2013.

Programs & Services

► See the *Surface Materials Reference Manual* for further detail about programs and services offered for seating.

The Customer's Own Material (COM) Program

offers the opportunity for customers to select fabrics that are not offered through the standard Steelcase surface materials program for use on Steelcase products. Through the COM program, Steelcase will test your materials for application on Steelcase products. Once approved, you can place your order. Steelcase will facilitate the entire ordering process and give you a production schedule. Steelcase will order the COM fabric directly from the textile manufacturer. For up-to-date information regarding fabric test results and details regarding yardage requirements for most Seating lines, visit the COM website. To locate the COM website:

- Visit www.steelcase.com

Qivi 428 Series, continued

Soil retardants are treatments that provide long-term soil and stain resistance to a fabric without affecting the shade or the integrity of the fabric. The following Steelcase Textiles are available pre-treated with soil retardant. (You do not need to select the soil-retardant option for these fabrics and incur the upcharge.)

- Jacks
- Link
- Spyder

For information on soil retardant fabrics on Select Surfaces, please refer to the *Surface Materials Reference Manual*.

Soil-retardant treatment is available on all other seating fabrics at an additional upcharge per seating unit. To order this option, please select "Soil-Retardant Treatment" under "Optional Accessories."

For soil-retardant treatment on COMs, please select "Soil-Retardant Treatment" under "Optional Accessories." Minimums or additional yardage may be required. Please contact the vendor directly for specific information.

Extended lead times may be necessary for this service.

Contact your Steelcase Solutions Fulfillment Team Representative at 1.888.STEELCASE (1.888.783.3522) or send an email to lineone@steelcase.com.

Fire Codes

▶ See page 552 for upholstery fabrics available for use with FCS modification.

Steelcase offers Fire Code Seating modification (FCS) on some seating models. The most rigorous fire codes in the nation have been developed in California, and the Steelcase FCS modification is designed to meet those codes. Fire Code Seating (FCS) indicates that a product is constructed to meet the strict fire code requirements of high public occupancy areas such as theaters, meeting rooms, and lobbies. The FCS standards will meet the State of California Bureau of Electronic and Appliance Repair, Home Furnishings, and Thermal Insulation Technical Bulletin 133 (Cal TB 133). Boston adopted the California Bureau of Electronic and Appliance Repair, Home Furnishings, and Thermal Insulation Technical Bulletin TB 133 test standard in 1992.

Local codes may have special requirements for upholstery.

Understanding and Specifying cobi 434 Series Collaborative Chairs

Product Details

cobi 434 Series	298
Dimensions	300

Specifying

Collaborative Chairs	302
Swivel-Base Stools	304

Collaborative chairs

Collaborative seating promotes comfort for long periods of time and promotes movement, offers automatic and intuitive adjustments, and supports multiple postures.

- QiVi 428 Series
- cobo 434 Series
- Node 480 Series

Adjustability Features

▶ See page 22 for a comparison to other chairs

cobi 434 Series

Mechanisms

Weight-activated ●

Seat Adjustments

Pneumatic height ●

Back Adjustments

Self adjusting ●

Other Features

Foot ring height (stool) ●

cobi 434 Series

cobi is collaborative seating for teams that helps people move freely, change postures, and stay energized and comfortable.

Flexing fingers in back offer support while moving and conforming to the user.

Flexible top edge allows for multiple postures while maintaining support and comfort.

Flexible seat edge on all 3-sides supports multiple postures while relieving thigh pressure.

Arms are constructed of a soft durable rubber compound.

Seat height adjusts with a 5" range from 15½"H to 20½"H with a pneumatic adjustment mechanism.

Weight-activated mechanism provides support by automatically responding to the users movements.

Five-arm base is standard.

Casters have hard, dual-wheels that roll smoothly on carpets. They are 2½" for increased mobility. Soft, dark grey treaded, dual-wheel roll-control casters are available for use on hard floors or mats. Stools are standard with 2" hard casters. Soft casters are available as an option. *Tip: Do not roll the chair across asphalt during installation as this may damage the casters.*

Product Details

Chairs and stools are available with or without arms.

Weight-activated mechanism provides individual support without a tension control by intuitively sensing and supporting the users center of gravity.

cobi ships standard assembled and uncartoned. A cartoned request on a dealer purchase order forces cobi chairs to ship unassembled with the chair seat, back, and cylinder separated from the base. This allows for shipment in a smaller carton. Assembly by a qualified dealer installer is required. Assembly instructions are included. No additional tools are required for assembly.

Adjustment Features

Seat Adjustments

Seat height adjusts

pneumatically. To lower, pull lever up while seated. To raise, pull lever up and keep your weight off the chair.

Foot ring height on stools

adjusts by first lifting ring and rotating it counter-clockwise to unlock. Then raise or lower ring up to 3" to desired position before rotating it clockwise to lock. The foot ring has a diameter of 20".

Flexing fingers in back promote movement and provide support for a wide range of postures.

Soft roll-control caster option features an internal brake that activates when the chair is not under load to reduce shifting when user stands up.

Flexing seat edge on all 3-sides supports multiple postures while relieving thigh pressure.

Surface Materials

▶ See surface materials on page 538 for specific availability or refer to the *Surface Materials Reference Manual* for further information.

Back Upholstery

- Connect 3D (back only)

Seat Upholstery

- Cogent: Connect (seat only)
- Fabric
- Fabric with soil-retardant treatment (option)
- Leather
- Elmosoft leather
- Select Surfaces leather
- Vinyl
- COM
- COL

All seat upholstery except standard Cogent: Connect requires a sewn application. Specify with an **S** suffix.

Outer Back

- 6009 Arctic White
- 6205 Black
- 6249 Platinum
- 6295 Near Black

Arm Caps, Top Edge, and Casters

- 6205 Black
- 6249 Platinum

Tip: Frame, base, and cylinder will default to match outer back color.

Tip: If black or near black are specified on the outer back, the arm caps, top edge, and casters will be 6205 black. If platinum or arctic white are specified on the outer back, the arm caps, top edge, and casters will be 6249 platinum.

Glides

- Black plastic

Foot ring on stools

- 6205 Black
- 6249 Platinum

Tip: Foot ring on stool will coordinate to match outer back color.

All Steelcase seating with standard upholstery fabrics complies with requirements of the State of California Technical Bulletin 117-2013. All standard seating is labeled to be in compliance with California 117-2013.

Programs & Services

▶ See the *Surface Materials Reference Manual* for further detail about programs and services offered for seating.

The Customer's Own Material (COM) Program

offers the opportunity for customers to select fabrics that are not offered through the standard Steelcase surface materials program for use on Steelcase products. Through the COM program, Steelcase will test your materials for application on Steelcase products. Once approved, you can place your order. Steelcase will facilitate the entire ordering process and give you a production schedule. Steelcase will order the COM fabric directly from the textile manufacturer. For up-to-date information regarding fabric test results for all COM fabrics and details regarding yardage requirements for most Seating lines, visit the COM website. To locate the COM website:

- Visit www.steelcase.com

Soil retardants are treatments that provide long-term soil and stain resistance to a fabric without affecting the shade or the integrity of the fabric. The following Steelcase Textiles are available pre-treated with soil retardant. (You do not need to select the soil-retardant option for these fabrics and incur the upcharge.)

- Jacks
- Link
- Spyder

For information on soil retardant fabrics on Select Surfaces, please refer to the *Surface Materials Reference Manual*.

Soil-retardant treatment is available on all other seating fabrics at an additional upcharge per seating unit. To order this option, please select "Soil-Retardant Treatment" under "Optional Accessories."

For soil-retardant treatment on COMs, please select "Soil-Retardant Treatment" under "Optional Accessories." Minimums or additional yardage may be required. Please contact the vendor directly for specific information.

Extended lead times may be necessary for this service.

Contact your Steelcase Solutions Fulfillment Team Representative at 1.888.STEELCASE (1.888.783.3522) or send an email to lineone@steelcase.com.

Fire Codes

▶ See page 552 for upholstery fabrics available for use with FCS modification.

Steelcase offers Fire Code Seating modification (FCS) on some seating models.

The most rigorous fire codes in the nation have been developed in California, and the Steelcase FCS modification is designed to meet those codes. Fire Code Seating (FCS) indicates that a product is constructed to meet the strict fire code requirements of high public occupancy areas such as theaters, meeting rooms, and lobbies. The FCS standards will meet the State of California Bureau of Electronic and Appliance Repair, Home Furnishings, and Thermal Insulation Technical Bulletin 133 (Cal TB 133). Boston adopted the California Bureau of Electronic and Appliance Repair, Home Furnishings, and Thermal Insulation Technical Bulletin TB 133 test standard in 1992.

Local codes may have special requirements for upholstery.

Node 480 Series

Mechanisms

360°-swivel

Node 480 Series

Node is a collaborative seating line that accommodates multiple environments including classrooms, clinical settings, and other learning environments. Node supports multiple teaching and learning modes, freedom to change postures, and optional storage.

One piece polypropylene contoured shell is designed for easy maintenance and cleaning.

Arms are designed to support arms, side-sitting postures, and serve as a backpack hook.

Flexible and contoured seat shell supports comfort by allowing many postures.

360°-swivel mechanism is standard.

Backpack storage area is standard.

Casters have hard, dual wheels that roll smoothly on carpets. Soft dual-wheel casters are available for use on hard floors.
Tip: Do not roll the chair across asphalt during installation as this may damage the casters.

Personal worksurface moves independently of seat shell and base.

Tablet stand is available on all personal worksurfaces and supports tablets and smart phones.

Personal worksurface is depth adjustable for large and small users and allows for ingress/egress.

Personal worksurface is mounted on the right but appropriate for both right- and left-hand users.

ShareSurface is designed to support collaboration with its uniquely designed surface that pivots and rotates 360°.

Seat height adjusts with a 5 1/4" range with a pneumatic adjustment mechanisms on five-arm base chairs. Chairs with a personal worksurface or Share-Surface adjusts with a 4" range. Stools have a 8 1/2" range. A 7 1/2" range is available as an option.

ShareSurface is non-handed and swings from right to left to optimize sharing technology.

Hard, dual wheel casters are standard for use on carpets. Soft, dark grey treaded, dual-wheel roll-control casters are available for use on hard floors or mats.

Five-arm base is standard.

Contoured and flexible seat shell supports comfort by allowing many postures.

The arms are designed to support arms, side-sitting postures, and serve as a backpack hook.

The seat bracket can be customized with accent paint or PerfectMatch paint.

Durable, steel wire frame is lightweight.

Hard glides are standard. Soft, felt glides are available as an option.

One piece polypropylene contoured shell is designed for easy maintenance and cleaning.

Node wood legs are solid maple wood with a polyethylene glide.

Node 480 Series, continued

Product Details

Chairs and stools are available with high-back and mid-back shells. Chairs are available with a tripod base, tripod base with personal worksurface or Share-Surface, five-arm base with pneumatic adjustment, and five-arm base with pneumatic adjustment with personal worksurface or Share-Surface. X base is available in chair and stool height. Wood base is available in chair height only.

Flexing seat shell and arms promotes movement and supports multiple postures. Integrated arms support user's arms, side posture, and act as a backpack hook.

Tripod base reclaims the space under the seat. The space is 1.7 cu/ft. and allows for backpacks or personal belongings to be stored, and serves as a footrest.

Personal worksurface is mounted on user's right, and designed to accommodate left- and right-handed users. It is 12"D x 22¹/₄"W and features a safety stop to help prevent belongings and laptops from easily sliding off back edge.

ShareSurface is mounted to the underside of the seat and moves from right to left at 138° to accommodate left- and right-handed users. The ShareSurface is 12"D x 14¹/₂"W. The surface swivels 360° around a 1¹/₂" pivot to maximize comfort and collaboration.

Node tripod, with or without worksurface, and Node five-arm base chairs with worksurface ships standard unassembled and cartoned with the seat shell separated from the base. This allows for shipment in a smaller carton. Five-arm base chairs without worksurface and stools ship two to a carton. Assembly by a qualified Steelcase dealer installer is required. Node X base and wood base ship fully assembled. Assembly instructions are available at www.steelcase.com. No tools required for assembly.

Adjustment Features

360° fixed height swivel mechanism on tripod base models allows students to remain oriented to instructor, presentation materials, and other students.

360° adjustable height swivel mechanism is standard on five-arm base models.

Personal worksurface depth adjustment range is 7¹/₄" to 15". Measurement is from lumbar to worksurface.

Personal worksurface pivot range is 48°.

Personal worksurface center pivot is 100°. The center pivot range is measured from the closest position to the furthest position from the user.

ShareSurface depth adjustment range is 11¹/₄" to 16⁵/₈". Measurement is from lumbar to worksurface.

ShareSurface swivels 360° around a 1¹/₂" pivot for inputting data or sharing information.

ShareSurface arm swings right to left at 138°. The two-pivot mechanism for the surface allows the surface to pivot right to left, allowing users to collaborate or move the surface out of the way for easy ingress and egress.

Seat height adjusts pneumatically. To lower, pull lever up while seated. To raise, pull lever up and keep your weight off the chair. Range of adjustability is 5¹/₄" from 16"H to 21³/₁₆"H, a 3³/₄" range (17¹/₈"H to 20³/₄"H) is available on chairs with a worksurface. Stools are standard with an 8¹/₂" range of adjustability (23¹/₁₆"H to 31³/₈"H). A 7¹/₂" range of adjustability (18¹/₂"H to 26⁷/₁₆"H) is available as an option.

Glides are available as an option. Glides ship assembled on the chair or stool and maintain same height as casters.

Foot ring height on stools adjusts by first lifting ring and rotating it counterclockwise to unlock. Then raise or lower ring up to 4" to desired position before rotating it clockwise to lock. The foot ring has a diameter of 20".

Soft, dual-wheel roll-control casters for hard floors are available on five-arm base chairs and stools only.

Cup holder is available as an option on Node chairs with personal worksurfaces. It is retractable under the worksurface when not in use. *Tip: Cup holder is not available on Node chairs with ShareSurface.*

Tablet stand is available on Node chairs with personal worksurfaces. The stand supports tablets and smart phones in both portrait and landscape positions, making content easy to view and freeing up space on the worksurface for other materials. It can be field or factory installed. *Tip: Devices are not secure in tablet stand when Node is moved.* *Tip: Tablet stand is not available on Node chairs with ShareSurface.*

- Sterling Dark Solid

Fire Code Seating (FCS) option

is available. ► See *Surface Materials*, page 554.

Steelcase offers Fire Code Seating modification (FCS) on some seating models. The most rigorous fire codes in the nation have been developed in California, and the Steelcase FCS modification is designed to meet those codes. Fire Code Seating (FCS) indicates that a product is constructed to meet the strict fire code requirements of high public occupancy areas such as theaters, meeting rooms, and lobbies. The FCS standards will meet the State of California Bureau of Electronic and Appliance Repair, Home Furnishings, and Thermal Insulation Technical Bulletin 133 (Cal TB 133). Boston adopted the California Bureau of Electronic and Appliance Repair, Home Furnishings, and Thermal Insulation Technical Bulletin TB 133 test standard in 1992.

Dimensions

▶ Page 316

49" required

The backpack storage area and overall chair width require 23³/₄" of continuous floor space when used with tables. The minimum distance between table bases is 49" to allow two chairs to be pushed under the worksurface. This does not apply to five-arm basemodels.

Planning with Node

For Classroom Environments

Pedagogy, technology and space, when carefully considered and intentionally designed, can establish new protocols for advanced learning solutions.

Planning Tips

- 1 Illustrate multiple modes for each drawing to:
 - a) ensure enough space is available for each reconfiguration
 - b) allow the user to understand what's possible
 - c) ensure that sight lines are maintained when the furniture is moved
 - d) confirm that jurisdictional codes are followed for each layout (eg: International Building Code, American Disability Act, etc.)
- 2 Give permission to act differently by including wall guard and enough space to move, supporting simultaneous multi-modal activities.
- 3 Provide both analogue and digital tools in the solution such as whiteboards, personal whiteboards, interactive whiteboards or media:scape.
- 4 Address the needs of classroom and personal storage for both students and teachers. Incorporate this information into each mode to ensure space is adequate.
- 5 Include zones for mentoring, assessment, and/or coaching for teacher-to-student and/or student-to-student interaction.
- 6 Annotate the drawings with design principles to confirm they are being addressed.

Lecture Mode

Group Mode

Discussion Mode

This example: 18* sq. ft. or 1.68 sq. meters per person. *For K-12 applications,
 ▶ See Table 1004.1.1 Maximum Floor Area Allowances per Occupant, 2009 International Building Code.

- A** — 60"/1.52m (ADA)
- B** — 12"/0.3m
- C** — 18"-24"/0.46-0.61m (aisle)
- D** — 36"/0.91m (egress)
- E** — 60"/1.52m (egress)
- F** — 38"/0.97m (aisle)
- G** — 18"-36"/0.46-0.91m (aisle)

Planning with Node

For Healthcare Environments

Clinicians, patients, family, technology, and space should be carefully considered and intentionally designed to create impactful and meaningful healthcare experiences.

Planning Tips

- 1 Demonstrate ability for a clinician to perform three key behaviors:
 - a) input information using a mobile device
 - b) share information with the patient and family member
 - c) connect with patient by moving surface aside for physical exam
- 2 Encourage customers to think differently about other objects within the exam space to encourage collaboration and mutual participation with all participants.
- 3 Provide both analogue and digital capabilities for teaching and learning with the clinician, patient, and family member.
- 4 Optimize real estate by considering a chair-based exam for many exam room applications.

Wellbeing Hub

Room Dimensions: 13'11" x 11'3"

Wellbeing hubs offers a blended space to perform a physical exam and consultative experience.

Retail Exam Space

Room Dimensions: 9'6" x 12'

Retail exam spaces maximize real estate by accommodating the physical exam, consultative experience, and clinician work area.

► See *Table 1004.1.1 Maximum Floor Area Allowances per Occupant, 2009 International Building Code.*

Planning Tips, continued**Pediatric Exam Space**

Room Dimensions: 11'6" x 10'

Pediatric exam spaces are about building trust and connection by accommodating clinicians, parents, and children with a more consultative experience.

► See *Table 1004.1.1 Maximum Floor Area Allowances per Occupant, 2009 International Building Code*.

Brody Lounge 488 Series

Brody is a destination for focus. Every detail has been designed with focus in mind, creating a place where people can escape while still having access to the tools, information, and people they need to be most productive.

Screen alignment clip ensures privacy screens remain aligned.

Side surface is a laminate surface and creates space to spread work out.

Screw covers allow for easier assembly of screens to the stanchion and lower surround.

Caddy provides accessible storage close-at-hand for personal belongings.

Power is conveniently located inside Brody to accommodate mobile devices.

Lower surround is upholstery wrapped and creates a barrier around the workspace.

dash mini LED light is available to provide additional light when needed.

Screens offer additional privacy and shield from distractions.

Seat back was designed with LiveLumbar to provide support in a variety of working postures.

Personal worksurface tilts to ergonomically support a user's wrists for keyboarding while also allowing the screen to rise up to eye level, reducing neck strain.

Seat has adaptive bolstering which creates comfort pockets designed to support every user.

Open cavity beneath seat provides storage space for footrest.

Leveling glides on foot adjust 1 1/2" for uneven floors.

Footrest provides support in lounge postures.

Product Details

Brody is available with and without screens.

Screens on privacy lounge with extension can only be omitted on the opposite side of where the side surface is located.

LiveLumbar offers a dialed in spring force in the lumbar region that actively supports the lower back.

dash mini LED light is available if power has been specified and can be field installed.

dash mini LED light adjusts 19⁷/₈"H from the side surface. The base and head pivot 360°.

Footrest has plastic base and an overall height of 10"H and a diameter of 18".

Integrated loop on footrest allows for easy repositioning of the footrest in the workspace. It is 1³/₄"W x 2" long and can be used to tether the footrest to the frame.

Non-slip surface

Footrest base is domed in the middle, allowing it to move to adapt to user preferences.

Bottom of footrest has a non-slip surface toward the outside to prevent sliding.

Footrest can be tethered to the frame. There is a small slot on the frame designed for a Kensington lock.

Two NEMA outlets

One NEMA, one USB outlet

Power is standard with two three-prong NEMA outlets. It is available with one three-prong NEMA outlet and one USB 2.0 (2.1 amp) outlet as an option. The cord is 10' long and is available with either a standard three-prong NEMA plug for use with standard receptacles or with Steelcase's proprietary Thread low-profile plug for use with one-door and two-door low-profile connectors.

Proprietary low-profile plug can only be used with the Thread system and will not interface with existing receptacles. In order to achieve ADA compliance for connectors in an egress location, we developed our own plug design.

Note: Always consult your local inspector prior to purchasing the Thread system to ensure all local codes and ordinances are satisfied since local regulations may supersede those spelled out in the National Electric Code.

Personal workspace has a cut out to hold technology like smart phones and tablets. The workspace measures 16⁵/₈"D x 18¹/₄"W and is 26⁷/₈"H from the floor.

Personal workspace tilts up to 40-degrees allowing users to bring work to eye level.

Personal workspace swivels 125 degrees in and out to allow easy entry and exit.

Brody Lounge 488 Series, continued

Programs & Services

► See the *Surface Materials Reference Manual* for further detail about programs and services offered for seating.

The Customer's Own Material (COM) Program

offers the opportunity for customers to select fabrics that are not offered through the standard Steelcase surface materials program for use on Steelcase products. Through the COM program, Steelcase will test your materials for application on Steelcase products. Once approved, you can place your order. Steelcase will facilitate the entire ordering process and give you a production schedule. Steelcase will order the COM fabric directly from the textile manufacturer. For up-to-date information regarding fabric test results for all COM fabrics and details regarding yardage requirements for most Seating lines, visit the COM website. To locate the COM website:

- Visit www.steelcase.com

Soil retardants are treatments that provide long-term soil and stain resistance to a fabric without affecting the shade or the integrity of the fabric. The following Steelcase Textiles are available pre-treated with soil retardant. (You do not need to select the soil-retardant option for these fabrics and incur the upcharge.)

- Jacks
- Link
- Spyder

For information on soil retardant fabrics on Select Surfaces, please refer to the *Surface Materials Reference Manual*.

Soil-retardant treatment is available on all other seating fabrics at an additional upcharge per seating unit. To order this option, please select "Soil-Retardant Treatment" under "Optional Accessories."

For soil-retardant treatment on COMs, please select "Soil-Retardant Treatment" under "Optional Accessories." Minimums or additional yardage may be required. Please contact the vendor directly for specific information.

Extended lead times may be necessary for this service.

Contact your Steelcase Solutions Fulfillment Team Representative at 1.888.STEELCASE (1.888.783.3522) or send an email to lineone@steelcase.com.

Brody Lounge Application Tips

Application Topics

Consider Brody embedded in five zones:

- Private individual focus area
- At thresholds to the neighborhood
- Along transition paths
- As supplement to the primary workstation
- Working lounge areas

Parallel:
Side-by-Side/Angled

Booth

Clover

Pin Wheel

Yin Yang

Tip: Individual Brody units do not connect with brackets.

Brody Desk 488 Series

Brody is a destination for focus. Every detail has been designed with focus in mind, creating a place where people can escape while still having access to the tools, information, and people they need to be most productive.

Worksurface is available in laminate or veneer and creates space to spread work out.

dash mini LED light is available to provide additional light when needed.

Power is conveniently integrated into the worksurface.

Screens offer additional privacy and shield from distractions.

Lower surround is upholstery wrapped and creates a barrier around the workspace.

Leveling glides on foot adjust 1 1/2" for uneven floors.

Product Details

Brody desk always comes standard with screens.

dash mini LED light is available if power has been specified and can be field installed.

dash mini LED light adjusts 19 $\frac{7}{8}$ "H from the worksurface. The base and head pivot 360°.

Two NEMA outlets

One NEMA, one USB outlet

Power is standard with two three-prong NEMA outlets. It is available with one three-prong NEMA outlet and one USB 2.0 (2.1 amp) outlet as an option. The cord is 10' long and is available with either a standard three-prong NEMA plug for use with standard receptacles or with Steelcase's proprietary Thread low-profile plug for use with one-door and two-door low-profile connectors.

Proprietary low-profile plug can only be used with the Thread system and will not interface with existing receptacles. In order to achieve ADA compliance for connectors in an egress location, we developed our own plug design.

Note: Always consult your local inspector prior to purchasing the Thread system to ensure all local codes and ordinances are satisfied since local regulations may supersede those spelled out in the National Electric Code.

Power includes one convenience outlet standard below the worksurface to power the available dash mini LED light and retain a single power cord out.

Wire management clips come standard with Brody desk to manage the power cord to the floor.

Understanding and Specifying media:scape Lounge Seating

Product Details

media:scape Lounge	360
Dimensions	364
Canopy and Ledge Surface Material Relationships	366

Specifying

Straight Lounge	368
Straight Inverted Lounge	372
Corner Lounge	374
Reverse Lounge	378
Backless Lounge	382

media:scape Lounge

media:scape lounge creates collaborative work settings designed to support small teams of four to six people.
▶ Specifying, page 368

media:scape lounge offers seven lounge pieces: straight, straight inverted, backless, right corner, left corner, reverse left, and reverse right. The lounge is designed to be easily reconfigured in many different ways to accommodate multiple settings. There are three different fabric orientations to choose from.

Due to the geometric shapes, it is recommended to use one of the standard fabrics, vinyls, leather, or a non-patterned COM or COL. The use of solid fabrics is recommended with media:scape lounge settings. Steelcase will not pattern match fabrics which have a distinct repeating pattern.

Tip: Canopy and ledge back panels are not available in full-fill or flat cut.

Totem canopy is optional on all tables with totems. It replaces the infill and is available in painted aluminum.

Lounge canopy is optional on all corner and straight lounge pieces. It transforms the degree of privacy providing an intimate and protected setting. It includes a painted aluminum structure, fabric panel, and a laminate or veneer back panel.

Ledge is optional on all corner and straight lounge pieces. It acts as a surface and provides additional space for collaboration. It includes a painted aluminum structure, laminate or veneer back panel, and an optional laminate or veneer topper.
Tip: If specifying seating behind the ledge, maximum seat height should be 31" to provide appropriate leg clearance.

Glides are available in several finishes.

Lounge fabric is available in select Steelcase and DesignTex fabrics.

Upholstery Orientations

Same - The entire lounge is one fabric.

Edge - The top of the lounge is one fabric, along with the end of the corner unit. The remaining sides are a second fabric.

Front seat and back - The seat surface and the front of the back is one fabric and all other panels are a second fabric. The reveal on the back of the lounge is the same fabric as the seat surface and the front of the back.

Product Details

Straight lounge has a straight back which tapers to the front of the seat.

Straight inverted lounge has a straight back. It tapers from front to the back of the seat.

Backless lounge is the same shape as the straight lounge and tapers to the front of the seat.

Left corner lounge is left-handed in a seated position.

Right corner lounge is right-handed in a seated position.

The end of the corner lounges will have the same fabric as the top when edge upholstery is specified.

Reverse lounges are either right-handed or left-handed and provide the ability to transition seating from one side of an application to the other. They can be applied in either angled or straight applications.

Reverse left, when fitted next to a straight lounge, provides an angle similar to the corner left.

Reverse right, when fitted next to a straight lounge, provides an angle similar to the corner right.

Reverse lounges, that are specified with incorrect handed orientation will not align with other lounge pieces.

Use a reverse left to transition seating from one side of the application to the other and have seating on the left hand side.

Use a reverse right to transition seating from one side of an application to the other and have seating on the right side.

A reverse lounge piece must be used to transition seating from one side of an application to another. Attempting to transition seating without a reverse will prohibit adjacent lounges from being ganged together.

Surface Materials

Upholstery

- Steelcase or Designtex fabric
- Fabric with soil-retardant treatment (option)
- Leather
- ▶ See *Surface Materials*, page 538.

Tip: Thread color that is associated with the more dominant fabric will be used throughout the upholstery. Therefore, with the multiple upholstery option, the thread may be a contrasting color.

Glides

- 4140 Arctic White Gloss
- 4799 Platinum
- 4803 Near Black Metallic
- 8046 Polished Aluminum

Solid non-repeat fabrics are recommended for media:scape lounge because of the unique geometric shapes. When patterned fabrics are selected, patterns are not matched.

Programs & Services

- ▶ See the *Surface Materials Reference Manual* for further detail about programs and services offered for seating.

The Customer's Own Material (COM & COL) Program offers the opportunity for customers to select fabrics and leather that are not offered through the standard Steelcase surface materials program for use on Steelcase products. Avoid pattern fabrics and heavily grained leathers. Through the COM & COL program, Steelcase will test your materials for application on Steelcase products. Once approved, you can place your order. Steelcase will facilitate the entire ordering process and give you a production schedule. Steelcase will order the COM & COL fabric and leather directly from the textile manufacturer. For up-to-date information regarding fabric test results for all COM & COL fabrics and details regarding yardage requirements for most Seating lines, visit the COM website:

- Visit www.steelcase.com

Soil retardants are treatments that provide long-term soil and stain resistance to a fabric without affecting the shade or the integrity of the fabric. The following Steelcase Textiles are available pre-treated with soil retardant. (You do not need to select the soil-retardant option for these fabrics and incur the upcharge.)

- Jacks
- Link
- Spyder

For information on soil retardant fabrics on Select Surfaces, please refer to the *Surface Materials Reference Manual*.

Soil-retardant treatment is available on all other seating fabrics at an additional upcharge per seating unit. To order this option, please select "Soil-Retardant Treatment" under "Optional Accessories".

For soil-retardant treatment on COMs, please select "Soil-Retardant Treatment" under "Optional Accessories." Minimums or additional yardage may be required. Please contact the vendor directly for specific information.

Extended lead times may be necessary for this service.

Contact your Steelcase Solutions Fulfillment Team Representative at 1.888.STEELCASE (1.888.783.3522) or send an email to lineone@steelcase.com.

Understanding and Specifying Umami Lounge Seating

Product Details

Umami	386
Thought Starters	398
Dimensions	402

Specifying

Platforms	404
Lounges	412
Screens	428
Tables	448

Umami

Umami, with its flexible, modular design, can be used to create spaces that are unique to organizations and individuals. Multiple materials are used to promote variation and encourage creativity and self-expression. Integrated power, tables, and screens support the ability to perform in an open environment or in solitude.

► Specifying, pages 404-450

Umami screens are available in two heights for different privacy needs.

Umami screens are available as standard screens or pillow screens. Pillow screens are thicker with vertical seams.

Integrated tables are available in two shapes and can be optioned on lounges and platforms.

Lounge seating is upholstered and attaches to other seating or platforms. Different styles allow for a variety of configurations and applications.

Platforms are available in different sizes with multiple materials available. They can be attached to lounge seating or other platforms to create tables or benches.

Fascia will match the top of the seat or platform unless the contrasting option is selected.

Power block can be attached below the frame anywhere along the lounge or platform. Power can also be integrated on single platforms with laminate or veneer tops (platform table power option).

Product Details

Single platforms come in 15"D x 30"W or 30"D x 30"W sizes. They are available in upholstery, laminate, or wood veneer.

Double platforms come in 15"D x 60"W or 30"D x 60"W sizes. They are available in upholstery only.

Platforms can be ganged together or ganged to lounge seating.

When selecting contrasting option on platforms with depth of 15", the 15"D sides are the left and right sides. The front is either the 30"W side (if single platform), or 60"W side (if double platform).

Glides come standard on the bottom of platform frame.

Lounges are available in five different shapes:

Corner lounge

Straight lounge - single or double

End cap lounge

One arm lounge - single or double

Lounge and platforms gang together with two bolts.

Two arm lounge - single or double

Screens are available at installed heights of 48" or 60".

Standard screens come in widths of 15" or 30".

When a 15" screen is attached to a 30" frame, a 15" fascia must be ordered.

Pillow screens are 60" installed height and available in 15" or 30" widths.

Spanner screens span across two lounge frames and an open space to create a cabin type application. They come in widths of 90" or 105". 90"W spanner screens come with (3) 30"W screens. 105"W spanner screens come with (2) 30"W screens and (1) 45"W center screen. Brackets shown on the screen are on the inside surface of the screens and attach to the frame.

Round or pill tables can only be optioned on straight single, straight double, one arm double, and end cap lounge. Tables can be optioned on all upholstered top platforms except for 15"D x 30"W single platform and 15"D x 60"W double platform.

Umami, continued

Tables are optioned as table left or table right (based on user sitting in lounge). Table right is shown above.

Tables may not be specified on 15"D x 30"W or 15"D x 60"W platforms.

Platform table power can only be optioned on single platforms with laminate or veneer tops. It will be located at the center back of the platform top.

Power blocks can be installed anywhere along the bottom of the fascia on any platform or lounge.

Power blocks and platform table power options come with three power or two power, one USB.

Surface Materials

The fascia will match the top surface unless the contrasting option is specified.

If top of platform is fabric, the fascia cannot be a hard surface. It can only be upholstery.

Fascia grain direction will always match the sides of the platforms when selecting hard surfaces. On 15"D platforms, the grain is a waterfall on 15" sides.

When a platform has a hard surface and either laminate or veneer is selected, only monolithic and contrasting fascia options are available. Contrasting sides is not an option.

Only one contrasting surface option is available on each product. This includes fascia which is considered a contrasting surface. If more than one contrasting option is desired, please contact a specials representative.

When contrasting fascia is selected, the fascia will be contrasting from the tops.

Solid, non-repeat fabrics are recommended for Umami lounge, platform, and screens. Steelcase will not pattern match fabrics which have a distinct repeating pattern (stripes, vertical repeats, etc). This includes pattern matching on the single unit but also pattern matching from one component to another. If pattern matching is of concern it is recommended to use one of the standard Steelcase fabrics, vinyls, or non-patterned COM/ COL.

Programs & Services

For more information on accent paints, Lux Coatings, PerfectMatch program, and Select Surfaces program, please refer to the *Surface Materials Reference Manual*.

The Customer's Own Material (COM) Program

offers the opportunity for customers to select fabrics that are not offered through the standard Steelcase surface materials program for use on Steelcase products. Through the COM program, Steelcase will test your materials for application on Steelcase products. Once approved, you can place your order. Steelcase will facilitate the entire ordering process and give you a production schedule. Steelcase will order the COM fabric directly from the textile manufacturer. For up-to-date information regarding fabric test results for all COM fabrics and details regarding yardage requirements for most Seating lines, visit the COM website. To locate the COM website:

- Visit www.steelcase.com

Contact your Steelcase Solutions Fulfillment Team Representative at 1.888.STEELCASE (1.888.783.3522) or send an email to lineone@steelcase.com.

Umami

Materiality

Umami screens can have contrasting fabrics on the inside and outside of the screen as long as they are in the same fabric family.

Spanner screens, pillow screens, and spanner pillow screens can have fabric applied vertically only.

Double platforms are available in upholstery only.

If the top of the platform is upholstered, the fascia must be upholstered.

Round or pill table tops are available in two laminates only (2HMG Merle and 2883 Seagull).

Integrated round or pill tables can only be optioned onto lounges or upholstered platforms.

If top of platform is a hard surface, the fascia may be upholstered, laminate, or veneer.

When optioning contrasting fascia, the fascia will be contrasting around the entire frame (lower portion of all four sides).

Lounge seating fascia can only be ordered in upholstery. No hard surfaces on lounge or lounge fascia.

Contrasting Details

Single Platforms and Lounges

Single Platforms and Lounges

Contrasting Fascia
 Contrasting Front
 Contrasting Back
 Contrasting Front and Back
 Contrasting Left
 Contrasting Right
 Contrasting Left and Right

Only one contrasting selection can be made on each product. This includes contrasting fascia.

When a platform has a hard surface and either laminate or veneer is selected, only monolithic and contrasting fascia options are available. Contrasting sides is not an option.

Double Platforms and Lounges

On 15"D platforms, the front is the 30"W or 60"W side. The left and right sides are 15"D.

 Contrasting Seam, Left and Right

Only one contrasting selection can be made on each product. This includes contrasting fascia.

Corner Lounge only

Corner Lounge only

Contrasting Fascia
 Contrasting Front Right and Front Left
 Contrasting Back Right and Back Left

Only one contrasting selection can be made on each product. This includes contrasting fascia.

Umami

Pill and Round Tables

Pill and round tables

are options added as table left or table right (optioned based on user sitting in lounge).

Pill and round tables

can be optioned on select platforms with upholstered top or on lounge products.

Round tables are 10" in diameter. Pill tables are 10" by 13 1/2".

The post (support) of the table is available in paint.

Table tops are available in 2883 Seagull and 2HMG Merle only.

Locations of round or pill tables are shown below.

Single Platforms

Left location

Right location

Round and pill tables cannot be attached to a 15"D x 30"W or 15"D x 60"W platform.

Double Platforms

Left location

Right location

Round and pill tables cannot be attached to a 15"D x 60"W platform.

Straight Single Lounge

Left location

Right location

Round and pill tables cannot be attached to one arm single, two arm single, or corner lounge.

End Cap

Left location

Straight Double Lounge

Left location

Right location

Round and pill tables cannot be attached to two arm double lounge.

One Arm Double Lounge

Left location

Right location

Umami Screens

Standard screens are installed at 48" and 60" high.

Pillow screens are installed at 60" high.

Screens are available as standard fabric covered or pillow covered.

Each screen will come with one or two clips in merle or seagull that attach screens together.

Screen clips come in two types: straight or corner.

Standard and pillow screens come in 15" and 30" widths.

Fabrics on the screens can be ordered as contrasting. When ordering contrasting, fabrics must be in same fabric family.

Screens cannot be placed in between platforms and lounge seating.

30"W screen can only be put on a 15"D x 30"W platform if the platform is attached to another platform or lounge.

30"W screens can be placed on a 30"D platform/lounge or two 15"D platforms.

Spanner screens come in 90" and 105" widths and the center screen goes completely to the floor. They are not allowed to be attached to a platform or end cap lounge.

90"W spanner screens can only be attached to the side of two lounge chairs. They cannot be attached to an end cap lounge or platform.

15"W screens can go on an end of a lounge for partial privacy. In this case, an upholstered fascia must be added.

Two 15"W screens will not fit on a 30"D platform or lounge.

Standard screens have rounded corners.

The two units above cannot be platforms or end cap lounges.

15"W and 30"W screens are only allowed on 15"D x 30"W frames in the shown above configurations.
Tip: When placing a 15"D screen on a 30"W frame, a fascia must be specified.

The following applications are not allowed:

15"W screens cannot span two 15"D x 30"W units.

Specifications above are not allowed for stability reasons.

30"W screens cannot span two 15"D x 30"W units.

15"W screens cannot be mounted in the center of a 30"D x 30"W unit.

Two 15"W screens cannot be mounted to a 30"W unit.

15"D units cannot be ganged to a 30"W frame on the 15"D side.

Fabrics can only be applied vertically on spanner screens, pillow screens, and spanner pillow screens. If you want other screens to match spanner screens, make sure to specify vertical application on standard screens.

Fabrics can be applied either vertically or horizontally on standard screens.

90"W spanner screens will come with three 30"W screens. The center screen will go completely to the floor.

105"W spanner screens will come with two 30"W screens on the ends and a 45"W center screen. The center screen will go completely to the floor.

Umami, Screens, continued

When specifying pillow screens, corner or straight needs to be specified. Each pillow screen will come in straight, corner left hand, corner right hand, or corner left hand and corner right hand.

Corner screens are wider than straight screens in order to close the gap between screens.

If a pillow screen will be applied to any corner of any frame it must be specified as a corner screen.

The only time a straight screen will be specified is if it is a stand-alone on the back of a frame or if it is connecting to other screens (not at a corner).

2 pillow screens: corner left hand, corner right hand

2 pillow, 1 spanner pillow screen: corner left hand, spanner corner left hand and right hand, corner right hand

3 pillow screens: corner left hand, corner right hand, straight

1 spanner pillow screen: spanner straight

4 pillow screens: corner left hand, corner right hand, 2 straight

1 pillow screen, 1 spanner pillow screen: spanner corner left hand, corner right hand

5 pillow screens: 2 corner left hand, 2 corner right hand, straight

4 pillow screen, 1 spanner pillow screen: 2 15", 2 corner left hand, 2 corner right hand, spanner pillow screen

Umami Screens

Spanner Screens

Tip: Spanner screens are not allowed to be attached to a platform or end cap lounge.

Tip: Specify straight clip if end of run and no additional clips required.

Tip: Fabrics will only be applied vertically on spanner screens.

Tip: If you want other screens to match spanner screens, make sure to specify vertical application on standard screens.

► See screen application rules for additional details, page 394.

Tip: Fabrics must be in the same fabric family when specifying contrasting fabrics.

Understanding and Specifying B-Free Lounge Seating

Product Details

B-Free	452
Thought Starters	454

Specifying

Large Cube	458
Small Cube	459
Ganging Brackets	460
Screens	461
Screen Magnets	462
Occasional Tables	463

B-Free

B-Free leverages ancillary spaces to create informal and convenient workspaces where teams can collaborate. A variety of casual seating and table options allows workers to quickly connect, while subtle screens promote concentration. Its modular and flexible design allows for spaces that support both individual and group work.

B-Free screens are made of knit material and are available in several colors. Screens come in small and large sizes with left or right applications. Magnets allow screens to connect to one another and/or connect to the large cube.

Occasional tables are available in coffee and corner configurations. They can be placed in between cubes, in front of cubes, on the side of cubes as an end table, or act as a corner piece with a screen configuration.

Top block is available on large cube with either a straight application or a corner left or right application. Shown is a corner left application. Top block is contoured and sculpted to provide comfort for multiple postures.

Large cubes can be standalone units or ganged together with other large cube units.

Small cube can be used as a seat or an ottoman. It can be specified with glides or casters.

Actual Dimensions

	Depth	Width	Height	Seat Depth
Large cube	29½"	31"	17⅛"	N.A.
Large cube with top block	29½"	31"	31½"	19"
Small cube	16¾"	16¾"	17⅛"	N.A.
Screen (small)	30½"	32"	59"	N.A.
Screen (large)	30½"	40⅞"	59"	N.A.
Coffee table	29½"	17¾"	15⅛"	N.A.
Corner table	29½"	29½"	15⅛"	N.A.

Product Details

Corner left and right options on large cube integrate as armrests. The backrest is shaped to “wrap” around the user, providing greater lumbar support.

Ganging brackets are discreet and allow cubes to be well aligned when attached together.

The corner occasional table can be used as a corner piece and/or to bridge together two large cubes. It also fits perfectly next to the cube and inside of the privacy screen, or works well out front.

The coffee occasional table fits perfectly next to the cube and works well out in front of the cube.

Left and right screens are decided based on the perspective of the user sitting on a cube in front of a large screen. The small side of the screen is on the arm side of the cube. The large side of the screen goes behind the cube. Shown above is a large, right screen application.

The large screen surrounds the cube and part of a coffee table.

The small screen fits perfectly around the cube.

Screen to screen magnets come in a pair and attach two screens together.

Screen to large cube magnets come in a pair and attach to the bottom of the screen and to the bottom of the large cube.

8180	Hot Pink

Tip: Warranty and availability of these colors vary and are at the discretion of the supplier.

For more information on Select Surfaces, please refer to the *Surface Materials Reference Manual*.

Solid, non-repeat fabrics are recommended for B-Free lounge settings because of the unique geometric shapes. Steelcase will not pattern match fabrics which have a distinct repeating pattern. It is recommended to use one of the standard fabrics, vinyls, leathers, or non-patterned COM/COL.

Programs & Services

▶ See the *Surface Materials Reference Manual* for further detail about programs and services offered for seating.

The Customer's Own Material (COM) Program

offers the opportunity for customers to select fabrics that are not offered through the standard Steelcase surface materials program for use on Steelcase products. Through the COM program, Steelcase will test your materials for application on Steelcase products. Once approved, you can place your order. Steelcase will facilitate the entire ordering process and give you a production schedule. Steelcase will order the COM fabric directly from the textile manufacturer. For up-to-date information regarding fabric test results for all COM fabrics and details regarding yardage requirements for most Seating lines, visit the COM website. To locate the COM website:

- Visit www.steelcase.com

Soil retardants are treatments that provide long-term soil and stain resistance to a fabric without affecting the shade or the integrity of the fabric. The following Steelcase Textiles are available pre-treated with soil retardant. (You do not need to select the soil-retardant option for these fabrics and incur the upcharge.)

- Jacks
- Link
- Spyder

For information on soil retardant fabrics on Select Surfaces, please refer to the *Surface Materials Reference Manual*.

Soil-retardant treatment is available on all other seating fabrics at an additional upcharge per seating unit. To order this option, please select “Soil-Retardant Treatment” under “Optional Accessories.”

For soil-retardant treatment on COMs, please select “Soil-Retardant Treatment” under “Optional Accessories.” Minimums or additional yardage may be required. Please contact the vendor directly for specific information. Extended lead times may be necessary for this service.

Contact your Steelcase Solutions Fulfillment Team Representative at 1.888.STEELCASE (1.888.783.3522) or send an email to lineone@steelcase.com.

Back Adjustments

Self adjusting

i2i 416 Series

i2i is collaborative lounge seating that helps people move freely, change postures, and stay energized and comfortable.

Upholstery specified is applied to seat and arms.

Flexing fingers form the back and offer support while moving and conforming to your body.

Dual-swivel mechanism allows the back and seat to swivel independently as well as together.

Four-arm base is standard in polished aluminum.

Glides are standard with the static base.

Product Details

Chairs are available with or without tablet arm.

Flexing fingers in the back promote movement and provide support in a variety of postures.

Dual-swivel mechanism allows the back and seat to swivel independently as well as together.

Tablet arm attaches on the right side of the chair with a dual pivot function providing a range of motion that allows the tablet area to accommodate both left and right handed users. It provides a work-surface 12¹/₄"D x 18"W. The tablet ships separately and requires field assembly and installation.

Adjustment Features

Swivel-return cylinder option has a built in memory and will return to the fixed position when the user leaves the chair.

Mobile base includes two rollers on the front arms of the base that allow the chair to be moved easily.

Surface Materials

► See surface materials on page 538 for specific availability or refer to the *Surface Materials Reference Manual* for further information.

Back Upholstery

- 3D Knit (back only)

Seat and Arm Upholstery

- Cogent: Connect (seat and arm only)
- Fabric
- Fabric with soil-retardant treatment (option)
- Leather
- Elmosoft leather
- Select Surfaces leather
- Vinyl
- COM
- COL

Cogent: Connect maximizes quality and comfort on i2i. The selected upholstery will be applied to the seat and arms. It is standard with a sewn application.

Frame

- 6009 Arctic White
- 6249 Platinum
- 6295 Near Black

Tablet Arm

- Laminate
- Veneer

The laminate surface is available with a black edge only. The veneer surface has a self edge. The tablet ships separately and requires field assembly and installation.

Glides

- Black plastic

Rollers

- Optional rollers on mobile base are available in dark fusion only.

All Steelcase seating with standard upholstery fabrics complies with requirements of the State of California Technical Bulletin 117-2013. All standard seating is labeled to be in compliance with California 117-2013.

Programs & Services

► See the *Surface Materials Reference Manual* for further detail about programs and services offered for seating.

The Customer's Own Material (COM) Program

offers the opportunity for customers to select fabrics that are not offered through the standard Steelcase surface materials program for use on Steelcase products. Through the COM program, Steelcase will test your materials for application on Steelcase products. Once approved, you can place your order. Steelcase will facilitate the entire ordering process and give you a production schedule. Steelcase will order the COM fabric directly from the textile manufacturer. For up-to-date information regarding fabric test results for all COM fabrics and details regarding yardage requirements for most Seating lines, visit the COM website. To locate the COM website:

- Visit www.steelcase.com

Soil retardants are treatments that provide long-term soil and stain resistance to a fabric without affecting the shade or the integrity of the fabric. The following Steelcase Textiles are available pre-treated with soil retardant. (You do not need to select the soil-retardant option for these fabrics and incur the upcharge.)

- Jacks
- Link
- Spyder

For information on soil retardant fabrics on Select Surfaces, please refer to the *Surface Materials Reference Manual*.

Soil-retardant treatment is available on all other seating fabrics at an additional upcharge per seating unit. To order this option, please select "Soil-Retardant Treatment" under "Optional Accessories."

For soil-retardant treatment on COMs, please select "Soil-Retardant Treatment" under "Optional Accessories." Minimums or additional yardage may be required. Please contact the vendor directly for specific information.

Extended lead times may be necessary for this service.

Understanding and Specifying Player 475 Series Multi-Use Chairs

Product Details

Player 475 Series	476
Dimensions	478

Specifying

Leg-Base Multi-Use Chairs	480
Sled-Base Multi-Use Chairs	484
Leg-Base Stools	488
Accessories	490

Multi-Use Chairs

Multi-use chairs are suitable for use as occasional seating within team spaces, workstations, offices, or wherever extra seating is required.

- Player 475 Series
- Move 490 Series
- Snodgrass 474 Series

Player 475 Series

Player chairs are guest chairs that also stack. Strength features in the back, arms, and back legs make Player a logical choice for high-traffic areas, and its simple, classic design complements a broad range of work settings.

Back and seat, including outer back, are fully upholstered. High-back and thick-seat options are available.

Arms slope downward and will easily clear the front edge of a worksurface or table. Arms are available in smooth or textured finish.

Steel frame is monochromatic.

Plastic glides with a hard plastic insert are standard.

Casters have hard, dual wheels that roll smoothly on carpets. They are 2" in diameter for increased mobility. Soft, dual-wheel casters are available for use on hard floor or chair mats. Casters available in black only.
Tip: Do not roll the chair across asphalt during installation as this may damage the casters.

Product Details

Chair models are available with a leg-base or a sled-base. Stools are available with a leg-base. The leg base arms are available with casters. Chairs and stools are available with several features such as arms, tablet arms, high back, and thick seat.

Stackability for leg-base models is six high on the floor and eight high on the transport and storage dolly. Leg-base models with casters are not recommended to stack as damage to arms may occur. Sled-base models, stools, and chairs with tablet arms will not stack.

High-back option, available on all Player chairs and stools, adds 2½" to back height. Top edge is slightly rounded. Stackability is not affected.

Thick-seat option, available on all Player chairs and stools, increases the thickness of the seat cushion by approximately 1/2". Stackability is not affected.

Tablet arm is available right hand and left hand and is shipped knocked down (K.D.). Tablet arm tilts for easy entrance and exit from chair. Tablet arm measures 25 1/2" x 13 1/2". Tablet arm is not available to order separately for installation on existing chairs.

Plastic glides, with hard plastic inserts on leg-base Player chairs, are recommended for carpeted surfaces only.

Soft felt glides are available on Player chairs for non-carpeted surfaces.

Alignment device is available to temporarily link chairs together for evenly spaced rows. Chairs can be unlinked easily. Spacing between chairs linked with alignment device is 5 7/8".

Ganging device is available to link chairs on a more permanent basis. It attaches to the chair's side frame. Spacing between chairs linked with the ganging device is approximately 9".

Transport and storage dolly is available to stack, move, and store up to eight chairs with or without arms. Without the dolly, chairs will stack up to six high. Sled-base models, stools, and chairs with tablet arms will not stack.

Fully loaded transport dolly measures 32 3/4"D x 25 1/2"W x 55 3/4"H.

Surface Materials

▶ See surface materials on page 538 for specific availability or refer to the *Surface Materials Reference Manual* for further information.

Upholstery

- Fabric
- Fabric with soil-retardant treatment (option)
- Vinyl

Hard components (arms, frames, and sled base)

- Monochromatic color from list of seating plastic color numbers can be applied to all hard components.

Arms

- Smooth plastic
- Textured plastic

Tablet arms

- Laminated

Casters

- Black only

Glides

- Plastic with hard plastic inserts come standard on leg-base multi-use chairs when specified with glides. Soft glides are available as an option.

All Steelcase seating with standard upholstery fabrics complies with requirements of the State of California Technical Bulletin 117-2013. All standard seating is labeled to be in compliance with California 117-2013.

Programs & Services

▶ See the *Surface Materials Reference Manual* for further detail about programs and services offered for seating.

The Customer's Own Material (COM) Program

offers the opportunity for customers to select fabrics that are not offered through the standard Steelcase surface materials program for use on Steelcase products. Through the COM program, Steelcase will test your materials for application on Steelcase products. Once approved, you can place your order. Steelcase will facilitate the entire ordering process and give you a production schedule. Steelcase will order the COM fabric directly from the textile manufacturer. For up-to-date information regarding fabric test results for all COM fabrics and details regarding yardage requirements for most Seating lines, visit the COM website. To locate the COM website:

- Visit www.steelcase.com

Soil retardants are treatments that provide long-term soil and stain resistance to a fabric without affecting the shade or the integrity of the fabric. The following Steelcase Textiles are available pre-treated with soil retardant. (You do not need to select the soil-retardant option for these fabrics and incur the upcharge.)

- Jacks
- Link
- Spyder

For information on soil retardant fabrics on Select Surfaces, please refer to the *Surface Materials Reference Manual*.

Soil-retardant treatment is available on all other seating fabrics at an additional upcharge per seating unit. To order this option, please select "Soil-Retardant Treatment" under "Optional Accessories."

For soil-retardant treatment on COMs, please select "Soil-Retardant Treatment" under "Optional Accessories." Minimums or additional yardage may be required. Please contact the vendor directly for specific information.

Extended lead times may be necessary for this service.

Understanding and Specifying Move 490 Series Multi-Use Chairs

Product Details

Move 490 Series	492
Dimensions	494

Specifying

Value Package Multi-Use Chairs and Stools	496
Multi-Use Chairs	498
Multi-Use Stools	502
Perching Stools	506
Accessories	509

Multi-Use Chairs

Multi-use chairs are suitable for use as occasional seating within team spaces, workstations, offices, or wherever extra seating is required.

- Player 475 Series
- Move 490 Series
- Snodgrass 474 Series

Move 490 Series

Move chairs are guest chairs that also stack. Live dynamic seat, open cantilever arm design, light weight, and strength make Move a logical choice for multipurpose areas. Move's simple design complements a broad range of work settings.

Arms are cantilevered and will easily clear the front edge of a worksurface or table. The open cantilever design of the arms allows alternative postures and sitting positions.

Steel frame is monochromatic.

Seat and back are available in plastic or with an upholstered cushion.

Plastic glides have a hard plastic insert.

Upholstered back is available on selected styles.

Casters have hard, dual wheels that roll smoothly on carpets. Soft, dual-wheel casters are available for use on hard floor or chair mats. Casters are available in black only.

Tip: Do not roll the chair across asphalt during installation as this may damage the casters.

Product Details

Chairs and stools have a leg-base and are available with glides or casters, and with or without arms.

Stackability for leg base chair models is five high on the floor. Stools do not stack.

Plastic glides with hard plastic inserts are recommended for carpeted surfaces.

Soft felt glides for use on non-carpeted surfaces are available as an option.

Transport and storage dolly is available to stack, move, and store up to 10 chairs.

Unloaded transport dolly measures 58 1/2"D x 25 1/2"W x 37 1/2"H.

Fully loaded transport dolly measures 58 1/2"D x 25 1/2"W x 58 1/2"H.

Ganging and alignment device is available to link leg-base chairs together in the field for evenly spaced rows. Chairs can be separated easily. Spacing between chairs linked with alignment device is 4" for chairs with no arms and 7" for chairs with arms.

Move wall saver is available to prevent the back of the chair from making contact with the wall.

- Plastic with hard plastic inserts come standard on multi-use chairs when specified with glides. Soft glides are available as an option.

Wall saver

- 6644 Fusion Dark only

All Steelcase seating with standard upholstery fabrics complies

with requirements of the State of California Technical Bulletin 117-2013. All standard seating is labeled to be in compliance with California 117-2013.

Programs & Services

► See the *Surface Materials Reference Manual* for further detail about programs and services offered for seating.

Select Surfaces

For information on products within Select Surfaces, including accent paints, Signature plastics, and fabrics from Designtex, Gabriel, Kvadrat, and Pollack, please refer to the *Surface Materials Reference Manual* or visit www.steelcase.com/selectsurfaces.

Custom Surfaces

The Customer's Own Material (COM) Program offers the opportunity for customers to select fabrics that are not offered through the standard Steelcase surface materials program for use on Steelcase products. Through the COM program, Steelcase will test your materials for application on Steelcase products. Once approved, you can place your order. Steelcase will facilitate the entire ordering process and give you a production schedule. Steelcase will order the COM fabric directly from the textile manufacturer. For up-to-date information regarding fabric test results for all COM fabrics and details regarding yardage requirements for most Seating lines, visit the COM website. To locate the COM website:

- Visit www.steelcase.com

Soil retardants are treatments that provide long-term soil and stain resistance to a fabric without affecting the shade or the integrity of the fabric. The following Steelcase Textiles are available pre-treated with soil retardant. (You do not need to select the soil-retardant option for these fabrics and incur the upcharge.)

- Jacks
- Link
- Spyder

For information on soil retardant fabrics on Select Surfaces, please refer to the *Surface Materials Reference Manual*.

Soil-retardant treatment is available on all other seating fabrics at an additional upcharge per seating unit. To order this option, please select "Soil-Retardant Treatment" under "Optional Accessories."

For soil-retardant treatment on COMs, please select "Soil-Retardant Treatment" under "Optional Accessories." Minimums or additional yardage may be required. Please contact the vendor directly for specific information.

Extended lead times may be necessary for this service.

Contact your Steelcase Solutions Fulfillment Team Representative at 1.888.STEELCASE (1.888.783.3522) or send an email to lineone@steelcase.com.

Fire Codes

► See page 552 for upholstery fabrics available for use with FCS modification.

Steelcase offers Fire Code Seating modification (FCS) on some seating models. The most rigorous fire codes in the nation have been developed in California, and the Steelcase FCS modification is designed to meet those codes. Fire Code Seating (FCS) indicates that a product is constructed to meet the strict fire code requirements of high public occupancy areas such as theaters, meeting rooms, and lobbies. The FCS standards will meet the State of California Bureau of Electronic and Appliance Repair, Home Furnishings, and Thermal Insulation Technical Bulletin 133 (Cal TB 133). Boston adopted the California Bureau of Electronic and Appliance Repair, Home Furnishings, and Thermal Insulation Technical Bulletin TB 133 test standard in 1992.

Local codes may have special requirements for upholstery.

Understanding and Specifying Snodgrass 474 Series Multi-Use Chairs

Understanding Snodgrass 474 Series

Snodgrass 474 Series	512
Dimensions	514

Specifying Snodgrass 474 Series

Multi-Use Chairs	516
------------------	-----

Multi-Use Chairs

Multi-use chairs are suitable for use as occasional seating within team spaces, workstations, offices, or wherever extra seating is required.

- Player 475 Series
- Move 490 Series
- Snodgrass 474 Series

Snodgrass 474 Series

Snodgrass, designed by Warren Snodgrass, offers guest and occasional seating of classic simplicity. With a choice of metal or wood frames, Snodgrass has enduring design that is always in style.

Frame is available in monochromatic colors or wood veneer.

Glides are clear plastic.

Product Details

One back shape is available, open back.

Open arms are available on monochromatic and wood models. Armless chairs are available monochromatic only.

- Elmosoft leather
- Select Surfaces leather
- Vinyl

Frame

- Monochromatic color from list of seating plastic color numbers can be applied to the frame.
- Wood

Tip: Frames are constructed of solid maple. Finishes applied to maple will match the color of stains applied to oak, walnut, or cherry, but will not show the same natural grain.

Glides

- Clear plastic

All Steelcase seating with standard upholstery fabrics

complies with requirements of the State of California Technical Bulletin 117-2013. All standard seating is labeled to be in compliance with California 117-2013.

Programs & Services

▶ See the *Surface Materials Reference Manual* for further detail about programs and services offered for seating.

The Customer's Own Material (COM) Program

offers the opportunity for customers to select fabrics that are not offered through the standard Steelcase surface materials program for use on Steelcase products. Through the COM program, Steelcase will test your materials for application on Steelcase products. Once approved, you can place your order. Steelcase will facilitate the entire ordering process and give you a production schedule. Steelcase will order the COM fabric directly from the textile manufacturer. For up-to-date information regarding fabric test results for all COM fabrics and details regarding yardage requirements for most Seating lines, visit the COM website. To locate the COM website:

- Visit www.steelcase.com

Soil retardants are treatments that provide long-term soil and stain resistance to a fabric without affecting the shade or the integrity of the fabric. The following Steelcase Textiles are available pre-treated with soil retardant. (You do not need to select the soil-retardant option for these fabrics and incur the upcharge.)

- Jacks
- Link
- Spyder

For information on soil retardant fabrics on Select Surfaces, please refer to the *Surface Materials Reference Manual*.

Soil-retardant treatment is available on all other seating fabrics at an additional upcharge per seating unit. To order this option, please select "Soil-Retardant Treatment" under "Optional Accessories."

For soil-retardant treatment on COMs, please select "Soil-Retardant Treatment" under "Optional Accessories." Minimums or additional yardage may be required. Please contact the vendor directly for specific information.

Soil-retardant treatment is available on all other seating fabrics at an additional upcharge per seating unit. To order this option, please select "Soil-Retardant Treatment" under "Optional Accessories."

For soil-retardant treatment on COMs, please select "Soil-Retardant Treatment" under "Optional Accessories." Minimums or additional yardage may be required. Please contact the vendor directly for specific information.

Extended lead times may be necessary for this service.

Specifying

Nooi Frame Linking Chairs	522
Nooi Sled-Base Chair	524
Nooi Cafeteria Chairs	525
Nooi Stools	526

Multi-Use Chairs

Multi-use chairs are suitable for use as occasional seating within team spaces, workstations, offices, or wherever extra seating is required.

- Player 475 Series
- Move 490 Series
- Snodgrass 474 Series

Nooi by Wiesner Hager

Nooi chairs by Wiesner Hager are multi-use chairs that can also stack. Nooi's sophisticated design and versatile statement of line provides choice and control in a broad range of spaces.

Arms are available on select styles.

Seat and back are one integrated plastic shell. The interior shell is textured, while the exterior shell is high gloss, enhancing the product design.

Glides are available in hard and soft options.

Product Details

Stackability varies by style number. See specific style number product page for details.

Hard glides are required for carpeted surfaces and soft glides are required for non-carpeted surfaces.

Surface Materials

Frame

Product Details

Max-Stacker III 477 Series	530
Dimensions	532

Specifying

Stackable Chair	534
Accessories	535

Stackable Chairs

Stackable chairs offer flexibility and ease of use in classrooms, auditoriums, or wherever extra seating is required.

- Max-Stacker III 477 Series
- Player 475 Series
- Leg-Base Chairs

Max-Stacker III 477 Series

Max-Stacker III is a stacking chair perfect for high traffic areas. With a new texture and an updated finish offering, it fits into any environment.

Tablet arms and bookracks are available factory or field installed.

Plastic glides are standard. Soft felt glides, optional, are recommended for use on non-carpeted floors.

Shell is available in flexible, contoured plastic.

Two-piece wire-rod frame is 7/16" diameter carbon steel for strength and durability.

Product Details

Four configurations are available—chairs without arms, chairs with bookracks, chairs with tablet arms, and chairs with a combination of bookrack and tablet arm.

Max-Stacker III can stack up to 12 chairs high when stacked on the floor.

Tablet arms provide a writing surface that is 12½"D x 11⅜"W. They are available in left- or right-hand models.

Clearance between tablet arm and seat is 7¼"H. Tablet arm tilts for easy entrance and exit from chair.

Bookrack is available factory or field installed for convenient storage of notebooks and purses.

Transport and storage dolly is available to stack, move, and store up to 45 chairs. Chairs with book-racks and tablet arms cannot be stacked.

Unloaded transport dolly measures 55"D x 22"W x 37½"H.

Fully loaded transport dolly measures 57"D x 22"W x 68½"H.

Without transport dolly stack can be up to 12 chairs high.

Alignment device is available to temporarily link chairs together in the field for evenly spaced rows. Chairs can be unlinked easily. Spacing between chairs linked with alignment device is 2¼".

Surface Materials

This listing includes all the surface material choices that are available for the products in this specification guide.

Resources

For more information about surface materials, refer to the following resources:

Additional surface materials specification tools are available to assist you in the specification process—the Surface Materials Binders.

The global surface materials palette is a core collection of finishes that is available across multiple geographies (Americas/ EMEA – Europe, Middle East, and Africa/APAC – Asia Pacific) and on global product lines, where applicable. For a list of finishes included in the offering, see the *Surface Materials Reference Manual*. Additional details, like product approvals by geography and finish number conversions, can also be found in the *Surface Materials Reference Manual* or see www.steelcase.com/surface-materials.

Surface Materials

Binders

- Surface Materials Reference Manual
- A complete set of swatch cards for hard surfaces, vertical surface fabrics, and seating upholstery

Plastic

Steelcase Surfaces

Not every plastic color is available on every plastic component.

- ▶ Refer to the *Color Availability Matrix* on page 554 before specifying.

Applies to:

- B-Free table edges
- ▶ See *Surface Materials Reference Manual*.

Custom Surfaces

Open Line Laminate (OLL)

Applies to:

- Brody 488 Series desks
- Umami platform

This service allows you to order non-standard laminate at an additional processing fee of \$71 U.S. per unit, plus the cost of the laminate.

When processing orders for Open Line Laminate, specify 2900 in the laminate finish field and enter the OLL manufacturer information. Enter the required edge finish as you would a standard laminate.

Tip: Standard laminates being used in the Open Line Laminate Program to obtain a different edge detail will be charged the Open Line laminate upcharge; however, no additional charges for the laminate will be applied.

Laminate Approval and Material Requirements

To confirm whether a particular laminate has already been tested for use on a specific Steelcase product or to determine material square foot requirements:

- Visit www.steelcase.com

For additional information, refer to the *Steelcase Surface Materials Reference Manual*.

Wood

Steelcase Surfaces

Veneer

Veneers are matched for proper balance and consistency. Veneers are available quarter cut, except for Oak, which is rift cut. Refer to the *Surface Materials Reference Manual* for descriptions of each cut.

Open-pore finish is a medium gloss finish that leaves the wood grain texture visible to the eye and distinguishable to the touch.

Applies to:

- Brody 488 Series desks
- i2i tablet arms
- media:scape lounge
- B-Free
- Umami platform

Flat-cut open-pore finish choices

- 3272 QC/OP Amber on Maple **E**
- 3292 QC/OP Blonde on Maple
- 3302 QC/OP Clear Walnut
- 3312 QC/OP Natural Walnut
- 3322 QC/OP Dark Mahogany on Walnut
- 3352 QC/OP Medium Walnut
- 3362 QC/OP Dark Walnut
- 3372 QC/OP Medium Mahogany on Walnut
- 3382 QC/OP Graphite Walnut

Rift-cut open-pore finish choices

- 3602 RC/OP Desert Oak
- 3612 RC/OP Warm Oak **E**
- 3692 RC/OP Espresso Oak

Applies to:

- Brody 488 Series desks
- i2i tablet arms
- media:scape lounge
- B-Free

Full-fill finish is a medium-gloss finish that completely fills the grain texture, yet allows the grain pattern to be seen. The wood has a lustrous, satiny look, and it is smooth to the touch. This finish is available on worksurfaces only.

Flat-cut full-fill finish choices

- 3064 FC/FF Graphite Walnut
- 3404 FC/FF Clear Cherry (Aged)
- 3414 FC/FF Natural Cherry **E**
- 3424 FC/FF Medium Cherry
- 3524 FC/FF Clear Maple*
- 3544 FC/FF Blonde on Maple
- 3564 FC/FF Linseed/Maple E
- 3574 FC/FF Amber on Maple **E**
- 3704 FC/FF Clear Walnut
- 3714 FC/FF Natural Walnut
- 3724 FC/FF Dark Mahogany on Walnut
- 3754 FC/FF Medium Walnut
- 3764 FC/FF Dark Walnut
- 3774 FC/FF Medium Mahogany on Walnut

Quarter-cut full-fill finish choices

- 3224 QC/FF Clear Maple*
- 3274 QC/FF Amber on Maple **E**
- 3294 QC/FF Blonde on Maple
- 3304 QC/FF Clear Walnut
- 3314 QC/FF Natural Walnut
- 3324 QC/FF Dark Mahogany on Walnut
- 3354 QC/FF Medium Walnut
- 3364 QC/FF Dark Walnut
- 3374 QC/FF Medium Mahogany on Walnut
- 3384 QC/FF Graphite Walnut

Rift-cut full-fill finish choices

- 3604 RC/FF Desert Oak
- 3614 RC/FF Warm Oak **E**
- 3694 RC/FF Espresso Oak

* To ensure an understanding of the color ranges and characteristic variations of natural veneer, a sign-off sheet is required prior to orders being accepted for this clearcoat finish. The sign-off sheet is available through Steelcase advertising stock. Please use form number 09-0000756 for 3042, form number 05-0001370 for 3222 and 3224.

E = Established

Applies to:

- 480 Node Series wood base
- Shortcut wood base

Flat-cut, low sheen Grade 1

- V1AC Natural Cherry
- V1AM Clear Maple
- V1CC Medium Amber Cherry
- V1EW Dark Walnut

▶ See *Coalesce Surface Materials Reference Guide* for more information on these finishes.

Applies to:

- Snodgrass 474 Series chair frames

Tip: Frames are constructed of solid maple.

Finishes applied to maple will match the color of stains applied to oak, walnut, or cherry, but will not show the same natural grain. Composite color finishes will match the color of composites on veneered surfaces, but will not have the same grain pattern.

Wood Seating Color Choices

- 3722 Dark Mahogany on Walnut
- 3752 Medium Walnut
- 3762 Dark Walnut
- 3772 Medium Mahogany on Walnut

Premium Veneers

A selection of Premium veneers in this collection are available on most Steelcase brand products. The collection will be available as close to standard leadtimes as possible. However, because adequate supplies of veneer and solids must be secured, all orders will be scheduled individually. Leadtimes will vary based on Premium veneer and Premium solids availability at the time the order is placed. The collection is Graded-In as Wood Group 2 and Wood Group 3, and supported like standard veneers to make ordering easy. Please see the Steelcase surface materials section on village.steelcase.com for sample information and product line availability. All premium veneers are in clear-coat.

Available on:

- Brody 488 Series desks
- i2i tablet arms
- Snodgrass
- Collaborative lounge table
- B-Free
- media:scape lounge
- Umami platform

Quarter-cut open-pore finish choices Wood Group 2

- 3032 QC/OP Dark Thin Line Bamboo
- 3052 QC/OP Ribbon Sapele

Wood Group 3

- 3832 QC/OP Figured Anegre
- 3842 QC/OP Figured Makore

Tip: Full-fill finish is not available on premium veneers as a standard.

*To ensure an understanding of the color ranges and characteristic variations of natural veneer, a sign-off sheet is required prior to orders being accepted for this clear-coat finish. The sign-off sheet is available through Steelcase advertising stock. Please use form number 09-0000755 for 3032, form number 09-0000757 for 3052, form number 09-0000758 for 3832, and form number 09-0000759 for 3842.

*To ensure an understanding of the color ranges and characteristic variations of natural veneer, a sign-off sheet is required prior to orders being accepted for this clear-coat finish. The sign-off sheet is available through Steelcase advertising stock. Form number 05-0001370.

Select Surfaces

For information on products within Select Surfaces, including accent paints and fabrics from Designtex, Gabriel, Kvadrat, and Pollack, please refer to the *Surface Materials Reference Manual* or visit www.steelcase.com/surface-materials under the Select Surfaces section.

Applies to:

- Collaborative lounge table
- i2i tablet arm
- media.scape lounge
- Snodgrass 474 Series chair frames
- Umami platform

Natural Veneer

Natural veneer is available in the Select Surfaces offering. Natural veneer may have extended leadtimes. Place your order as you normally would for any other finish, calling out the appropriate finish code. Natural veneers are Graded-In as Wood Group 1 pricing.

The following finishes are available through the natural veneer offering:

Flat-cut open-pore finish choices

- 35A2 FC/OP Blanch Maple
- 37A2 FC/OP Thunder Walnut

Quarter-cut open-pore finish choices

- 32A2 QC/OP Blanch Maple
- 33A2 QC/OP Thunder Walnut

Rift-cut open-pore finish choices

- 36A2 RC/OP Volcanic Oak

Applies to:

- Collaborative lounge table
- i2i tablet arm
- media.scape lounge
- Snodgrass 474 Series chair frames
- Umami platform

Planked Veneer

Planked veneer is available in the Select Surfaces offering. Planked veneer may have extended leadtimes. Place your order as you normally would for any other finish, calling out the appropriate finish code.

The following finishes are available through the planked veneer offering:

Wood Group 1

- 3P41 OP Planked Cherry
- 3P51 OP Planked Maple
- 3P61 OP Planked Oak
- 3P71 OP Planked Walnut

Tip: Known for its uniqueness, planked veneer has intentional and natural variations that include, but are not limited to: character marks, grain pattern, color, and natural color aging.

Applies to:

- Umami platform
- Snodgrass 474 Series chair frames

Composite Veneer

Composite veneers are an engineered wood intended to create specific grain patterns and characteristics. They are pre-stained and finished with Steelcase's Clarity water-borne UV topcoat, which protects the environment while providing durability and clarity. Only open-pore finishes are available on composite wood. Composite veneer and matching edge bands are available on most Steelcase brand products. Composites, for use as a solid nosing substitute, are not available. Steelcase does not recommend mixing composite veneers with natural solid nosings because composite and natural wood grain and color matching are rarely compatible. Composite veneers are Graded-In as Wood Group 1 pricing.

Tip: Known for their color consistency, composite veneers feature a clear coat finish. Because the veneers are sourced in large lots, overall color within a specific purchase order should have minimal color inconsistency. However, composite customers should know that colors may vary slightly from dye lot to dye lot. This inconsistency may be noticed when replacement pieces are ordered that may be from different dye lots, or when a new project phase is installed. Also note that composite veneers tend to fade and lighten over time, especially with sun exposure.

Flat-cut open-pore finish choices

- 3JDX FC/OP Oak Composite
- 3JFX FC/OP Maple Composite
- 3JHX FC/OP Cherry Composite
- 3JXX FC/OP Walnut Composite

Applies to:

- Umami platform

Quarter-cut open-pore finish choices

- 3F8X QC/OP European Walnut Composite
- 3GAX QC/OP Gold Teak Composite
- 3GFX QC/OP Rosewood Composite
- 3GGX QC/OP Zebrano Composite
- 3HGX QC/OP Oak Composite
- 3HVX QC/OP Walnut Composite
- 3JEX QC/OP Maple Composite
- 3JGX QC/OP Cherry Composite
- 3ZNX QC/OP Night Cerused Oak Composite

Tip: Composite veneers are not available on tapered edge worksurfaces on Impact style numbers.

Tip: Be conscious if mixing the flat cut and the quarter cut in composites, as there may be large variation in color.

Custom Surfaces

Customiz stain is a service that allows you to create your own stain colors and finishes on standard veneer. Customiz stain color is available on all product lines that offer wood veneer.

A \$500 stain-matching fee applies on CUSTOMIZ requests (Exception: The \$500 fee does not apply on matches to Coalesse standard finishes or for a low-gloss finish request on a standard color). The \$500 fee covers the cost of formulating the Customiz color finish and applies regardless of whether or not an order for product is placed.

In addition, an approval form must be signed to indicate customer acceptance of Customiz match. A \$1,500 initiation fee will be charged prior to first order entry. This initiation fee activates the finish for unlimited use on any Steelcase product for an 18 month time period. After the 18 month time period has lapsed, the Customiz finish may be reactivated for another 18 months for a \$1,000 fee at any point within five years after the \$1,500 initiation fee was paid. If the finish is not reactivated within five years after the \$1,500 initiation fee was paid, the finish will be culled and the customer will need to pay the \$1,500 initiation fee again. All style number related Customiz charges products are no cost as of April 2014, with the exception of Umami platform and B-Free table. The matching and initiation fees are not discountable.

Customiz stain takes 10 days to formulate. Consult the *Surface Materials Reference Manual* for more information. Custom veneers are also available and must be quoted by Steelcase specials group. Customiz stain on custom veneers takes 2 to 4 weeks to formulate.

Requirements and information on ordering a Customiz stain color are found in the *Surface Materials Reference Manual*.

► See *c:scape Specification Guide* for the complete surface materials list for the i2i collaborative lounge table.

Fabric Application Direction Guidelines

What is the issue?

Some textiles are simple and look the same regardless of how you apply them to a product. Many other fabrics are patterned, textured, or have luster that will have a distinctly different appearance if applied in different directions on chairs. Because of these differences, and the fact that there are limits to how some fabrics can be applied to Steelcase products, it is important to understand fabric application direction standards at Steelcase in order to avoid being disappointed.

Talking about direction

Fabrics come on rolls. The long yarns that run down the length of the roll are called the "warp" yarns. These yarns are used to define the direction you are viewing the fabric as it is applied to a chair. Fabric directionality is determined by how the fabric comes off the roll. It is NOT determined by the way the pattern looks on the product (i.e., horizontal stripes do not mean the fabric was applied warp horizontal—it could have been applied warp vertical).

In the example below, the fabric is applied warp horizontal although the stripes appear vertical.

Warp horizontal application is the standard application direction for most Steelcase fabrics on Steelcase seating products. Horizontal application means that as you view the chair in its upright position, the warp yarns of the fabric are running in the horizontal direction.

Warp vertical application is the standard application direction for SILQ 418 Series. Vertical application means that as you view the chair in its upright position, the warp yarns are running in the vertical direction.

► See page 545, *Fabric Application Direction for Systems, Casegoods, and Architecture* matrix, for details on these exceptions.

Steelcase is not responsible for charges associated with replacement or reupholstery of products due to incorrect specifications.

The combination of most seating products (warp horizontal) with SILQ 418 (warp vertical) will result in the fabric patterns running in opposite directions.

To remedy this situation, the following options are available:

- Use non-directional fabric. Only a small selection of fabrics are non-directional.
- Use fabrics that have standard warp vertical application direction.
- Specify warp vertical application on fabrics that are standard warp horizontal.

Tip: If you require warp vertical and it is not the standard, you must specify the warp vertical option on every line in the order.

Warp Horizontal (Railroaded)

Railroaded means the same thing as *warp horizontal* and is often used when talking about chairs. *Across roll* is another term for running the fabric in this direction.

Woven way means the same thing as *warp vertical* and is often used when talking about chairs. *Down roll* is another term for running the fabric in this direction.

What determines fabric direction?

Standard default directions exist for all products. You may specify a fabric to be cut in a specific direction if the product allows it to be applied. The purchase order must clearly state the application direction if it is other than standard. Refer to the following tables for the standard directions.

Tip: If you are changing the application direction of fabric, yardage requirements may increase resulting in an additional upcharge. This upcharge will be applied to the purchase order.

Fabric Application Direction Guidelines, continued

Why do dealers have to specify fabric application direction?

Sometimes COM fabrics have patterns that look awkward or inappropriate if they are applied in the standard direction. Therefore, it is critical to know how the pattern is run on the roll to ensure that Steelcase builds and ships each order to the customer's expectation. Some examples are shown here.

- Steelcase does not know which way your customer wants to see these patterns on their furniture.
- Dealers must specify application direction on all COM orders.

Swatch directions

All Steelcase fabric swatches and samples are shown in the warp horizontal direction. If you hold any fabric sample in the orientation shown below, the fabric will be in the warp-horizontal direction.

Swatch card

Memo sample

To see how a fabric will look if it is applied warp vertical, turn it 90°.

Tip: Fabric direction on samples from COM vendors may vary by product. Most textile companies will swatch their fabrics in a warp vertical (woven way, down roll) direction. Some exceptions might be made to address patterns especially with stripes. Typically, when a fabric is swatched in a warp horizontal (railroad or across roll) direction, the direction is noted on the swatch card or fabric sample. If in doubt of a fabric direction, we encourage you to contact the textile vendor for clarification.

Fabric Application Direction for Seating

Fabric	Standard Application Direction	Tips
Steelcase Textiles Upholstery	Railroaded (warp horizontal)	Fabrics on SILQ 418 Series will only be applied in the warp vertical/down roll direction, this includes all standard Steelcase fabrics, Select Surfaces, and COMs.
Select Surfaces-Designtex	Varies by fabric Dealers must specify desired fabric application direction on all select surfaces orders.	Confirm test results and application direction on COM website and <i>Designtex.com</i> prior to ordering.
Select Surfaces-Gabriel	Varies by fabric Dealers must specify desired fabric application direction on all select surfaces orders.	Confirm test results and application direction on COM website and <i>Gabriel.dk</i> prior to ordering.
Select Surfaces-Kvadrat	Varies by fabric Dealers must specify desired fabric application direction on all select surfaces orders.	Confirm test results and application direction on COM website and <i>Kvadrat.dk</i> prior to ordering.
Select Surfaces-Pollack	Warp vertical Dealers must specify desired fabric application direction on all select surfaces orders.	Confirm test results and application direction on COM website and <i>Pollackassociates.com</i> prior to ordering.
COM Fabrics	Varies by fabric Dealers must specify desired fabric application direction on all COM orders.	The most common COM application direction for seating is warp vertical. Confirm test results and application direction on COM website and your textile vendor's site prior to entering COM orders.
COM Vinyls	Varies by fabric Dealers must specify desired fabric application direction on all COM orders.	Most solid vinyls are commonly applied in the warp horizontal application direction.

Amia 482 Series sewn version models with leather or vinyl require an "S" suffix which features an additional stitch detail across the lumbar region on the back cushion. Vinyl is not available on models with upholstered outer back.

Brody 488 Series vertical fabrics can be found in the *Vertical Surface Fabric Matrix* in the *Surface Materials Reference Manual*.

Guidelines for Selecting Appropriate Ergonomic Seating

<p>General-Use</p>	<p>High</p> <p>Interaction</p> <p>General-Use Seating</p> <p>Group Communicating Group Collaborating</p> <p>High-Performance Seating</p> <p>Individual Processing (task intensive) Individual Analyzing/Creating (multi-task)</p> <p>Low</p> <p>Autonomy</p> <p>High</p>	<ul style="list-style-type: none"> • Short periods of sitting • Moderate computer use • In some cases, a general-use chair can be used for short-term, individual analyzing/creating.
<p>High-Performance</p>		<ul style="list-style-type: none"> • Long periods of sitting • Heavy computer use • The more repetitive the task (individual processing work), the more critical it is to have a high-performance chair with full adjustability.
<p>Executive</p>	<p>Executive Seating</p>	<p>Today's executive is an active participant, not just a delegator. Image is very important in the executive suite, but time at the computer must also be a consideration. Whether image or ergonomics drive the choice, this range of seating is diverse to provide the perfect chair for any executive work setting.</p>
<p>Guest</p>	<p>Guest Seating</p>	<p>Guest seating must be adaptable to many roles: as side chairs, pulled up to the conference table, in the learning center, in the private office, or in high-traffic areas where long use-life is essential. Guest seating is not intended for long periods of seated work, but must provide short-term comfort and have a welcoming, comfortable look.</p>
<p>Stackable</p>	<p>Stackable Seating</p>	<p>Stackable seating is used when occasional, transportable, easy-to-store seating is needed. Whether used as side chairs, meeting chairs, in classrooms, or cafeterias, the challenge is to maintain an excellent aesthetic combined with great strength even though the chairs are light in scale for portability.</p>
<p>Lounge</p>	<p>Lounge Seating</p>	<p>Lounge seating is often multiple and is found throughout the organization from reception areas to executive offices. Lounge seating is the "first impression seating," critical to an organization's image.</p>
		<ul style="list-style-type: none"> • Durability related to level of use • A design that looks right in multiples • Size, scale, and appearance that suits the environment

Basics of Adjustability

Steelcase chairs offer varying levels of adjustability to meet the needs of many types of users. Adjustable chairs may offer one or more of these features:

Mechanisms

Swivel feature allows the user to rotate the seat 360 degrees in either direction.
(All)

Seat Adjustments

Pneumatic-height adjustment allows the user to remain seated while adjusting the seat height by way of a control button or lever.
(All)

Back Adjustments

Back-tension adjustment allows the user to control the amount of resistance felt when leaning back in the chair.
(All)

Additional Resources

Wood seating products are supported with an array of informational materials, tools, and software to help you plan an installation efficiently.

Product brochures and planning tools can be ordered through your Steelcase area office by calling 1.800.784.0358 or through the Marketing Resources website at village.steelcase.com.

Steelcase Inc. Corporate Capabilities Brochure

This publication offers a concise overview of Steelcase including insights into the attitudes and commitments that make the corporation unique. In addition, the brochure provides an illustrated listing of all the products and services offered and international activities are described.

Printed Materials

Surface Materials Reference Manual

This publication provides:

- An explanation of the surface materials and their categories
- "Available on" matrices
- Vertical surface fabric and seating upholstery selection listing
- Technical data for surface materials
- Surface material care and cleaning instructions

Planning Tools

Quick Ship Guide

This handbook describes all Steelcase, turnstone, and Coalesse products that are available for Rapid2 (ships in 2 days), Rapid5 (ships in 5-7 days), or Coalesse Rapid10 (ships in 10 days).

Computer Tools

Electronic Catalog

Accurate sales quotations and purchase orders for Steelcase products are created with specification software that uses Steelcase Electronic Catalog data. Use the data to specify and price style numbers and options for every Steelcase product. The data is updated bimonthly by Steelcase and provided to software programs including: the Hedberg Business System, SmartTools—Steelcase's design and specification software (for more information on SmartTools, please email SmartTools@steelcase.com), the ProjectMatrix ProjectSystems libraries, as well as 20-20 CAP Studio.

Furniture Symbol Graphic Data

Steelcase creates 2D and 3D furniture symbols (with attributes) for planning and initially specifying Steelcase products. This data is incorporated into several add-on software packages that work in either a Microstation or an AutoCAD drafting environment.

For more information about these and other software tools to help you plan effective work environments, please email fsl@steelcase.com.

Support

Steelcase Capabilities

Steelcase products are distributed, installed, and serviced through a network of more than 600 dealers worldwide. Steelcase is also represented with offices and corporate showrooms in 26 U.S. cities, 4 Canadian cities, and in France, Germany, Great Britain, and Japan. Every Steelcase product meets our exceptionally high standards of quality and durability and comes with the Steelcase assurance of excellence in service.

For assistance, please call your local dealer, the Steelcase Solutions Resource Team, or the Steelcase Solutions Fulfillment Team at 1.888.STEELCASE (1.888.783.3522) or send an e-mail to lineone@steelcase.com.

Call the Steelcase Solutions Resource Team prior to placing an order, when working on a bid, or when you need information about product applications and specifications.

Call the Steelcase Solutions Fulfillment Team if you have submitted an order to Steelcase and you need to speak to your Solutions Fulfillment Team Representative about the order. Also call if you have any post-shipment quality concerns or service parts questions.

For warranty information, please go to <http://www.steelcase.com/warranty/>.

Outside the U.S.A., Canada, Mexico, Puerto Rico, and the U.S. Virgin Islands, call 1.616.247.2500.

For information about Steelcase, the name of your nearest Steelcase dealer, or for product literature, call 1.800.333.9939 or visit our website: www.steelcase.com.

Wood touch-up kits

- Available in specific finishes for field repairs
- ▶ Page 606

All Steelcase seating with standard upholstery fabrics complies with requirements of the State of California Technical Bulletin 117. All standard seating is labeled to be in compliance with California 117.

Programs & Services

▶ See the *Surface Materials Reference Manual* for further detail about programs and services offered for seating.

The Customer's Own Material (COM & COL) Program

offers the opportunity for customers to select fabrics and leather that are not offered through the standard Steelcase surface materials program for use on Steelcase products. Avoid pattern fabrics and heavily grained leathers. Through the COM & COL program, Steelcase will test your materials for application on Steelcase products. Once approved, you can place your order. Steelcase will facilitate the entire ordering process and give you a production schedule. Steelcase will order the COM & COL fabric and leather directly from the textile manufacturer. For up-to-date information regarding fabric test results for all COM & COL fabrics and details regarding yardage requirements for most Seating lines, visit the COM website. To locate the COM website:

- Visit www.steelcase.com

Soil retardants are treatments that provide long-term soil and stain resistance to a fabric without affecting the shade or the integrity of the fabric. The following Steelcase Textiles are available pre-treated with soil retardant. (You do not need to select the soil-retardant option for these fabrics and incur the upcharge.)

- Jacks
- Link
- Spyder

For information on soil retardant fabrics on Select Surfaces, please refer to the *Surface Materials Reference Manual*.

Soil-retardant treatment is available on all other seating fabrics at an additional upcharge per seating unit. To order this option, please select "Soil-Retardant Treatment" under "Optional Accessories."

For soil-retardant treatment on COMs, please select "Soil-Retardant Treatment" under "Optional Accessories." Minimums or additional yardage may be required. Please contact the vendor directly for specific information.

Extended lead times may be necessary for this service.

Contact your Steelcase Solutions Fulfillment Team Representative at 1.888.STEELCASE (1.888.783.3522) or send an e-mail to lineone@steelcase.com.

Collaboration

Collaboration guest chairs, designed by Dennie Pimental and John Duffy, have a classic design that is ideal for conference room, reception area, and dining room seating, or as guest seating in a workstation. Several arm inserts are available to create different visual details.

Inserts can match or contrast with frame color.

Back and seat are fully upholstered.

Upholstered seat features a webbed panel construction.

Arms may be enclosed with upholstery or European Beech inserts, or left open.

Frame is European Beech.

Glides are 1/2" diameter.

Actual Dimensions

Overall depth	24 1/4"
Overall width	22 1/2"
Overall height	31 1/2"
Seat depth	17"
Seat width	18 3/4"
Back width	18 3/4"
Back height	13 3/4"
Width between arms	18 3/4"
Seat to floor height	18"
Arm height from floor	25 1/2"

Product Details

Open-arm chair is the simplest variation in the Collaboration family.

Arcade chair inserts introduce an arched motif.

Ladder chair inserts establish a strong horizontal direction.

Upholstered inserts enclose the arms with fabric-covered panels.

All inserts are factory-installed.

All chairs are available with plain hardwood arms.

Mingle

Mingle guest chairs, designed by Bill Schacht and Lynda Chesser, have a tailored appearance that is sophisticated and pure in design, yet simple in scale. Mingle's design addresses a broad set of applications from an open plan systems environment to a closed office setting.

Exposed maple plywood back panel provides enhanced lumbar support to achieve a high level of comfort.

Upholstered seat features a webbed-panel construction.

Back legs and seat frame are metal for additional strength and durability. Legs are standard in black. Nickel powdercoat is available as an option.

Foot cap is standard with nickel finish.

Arms taper to flow into front legs.

Glides are 1/2" diameter on front legs and 1" diameter on back legs.

Rear view of back panel

Metal button fasteners located at bottom of back panel secure seat and back attachment while providing an additional element of design.

Programs & Services

► See the *Surface Materials Reference Manual* for further detail about programs and services offered for seating.

The Customer's Own Material (COM & COL) Program

offers the opportunity for customers to select fabrics and leather that are not offered through the standard Steelcase surface materials program for use on Steelcase products. Avoid pattern fabrics and heavily grained leathers. Through the COM & COL program, Steelcase will test your materials for application on Steelcase products. Once approved, you can place your order. Steelcase will facilitate the entire ordering process and give you a production schedule. Steelcase will order the COM & COL fabric and leather directly from the textile manufacturer. For up-to-date information regarding fabric test results for all COM & COL fabrics and details regarding yardage requirements for most Seating lines, visit the COM website. To locate the COM website:

- Visit www.steelcase.com

Soil retardants are treatments that provide long-term soil and stain resistance to a fabric without affecting the shade or the integrity of the fabric. The following Steelcase Textiles are available pre-treated with soil retardant. (You do not need to select the soil-retardant option for these fabrics and incur the upcharge.)

- Jacks
- Link
- Spyder

For information on soil retardant fabrics on Select Surfaces, please refer to the *Surface Materials Reference Manual*.

Soil-retardant treatment is available on all other seating fabrics at an additional upcharge per seating unit. To order this option, please select "Soil-Retardant Treatment" under "Optional Accessories."

For soil-retardant treatment on COMs, please select "Soil-Retardant Treatment" under "Optional Accessories." Minimums or additional yardage may be required. Please contact the vendor directly for specific information.

Extended lead times may be necessary for this service.

Contact your Steelcase Solutions Fulfillment Team Representative at 1.888.STEELCASE (1.888.783.3522) or send an e-mail to lineone@steelcase.com.

Terrazzo

Terrazzo guest chairs, designed by Brian Kane, have a classic and simple styling appropriate for a broad range of applications. A family of factory-installed back designs are available to create a variety of visual statements.

Lattice inserts are available in three designs. Slats are bowed to provide enhanced lumbar support.

Frame is European Beech.

Arms are arched to correspond with the curvature of the chair's back and are gently raised at the front to assist in entering and rising from the chair.

Seat is fully upholstered and features a webbed-panel construction.

Glides are 1/2" diameter.

Product Details

Square lattice back creates a strong grid-like pattern.

Macintosh lattice back introduces a distinctive vertical space.

Horizontal lattice back divides the space with horizontal elements.

Topaz

Topaz offers two chair styles to complement traditional and transitional office environments.

Frame is European Beech.

Back is upholstered and framed in wood. It is available either open or closed.

Arms are open. They are available with either a rectilinear or curvilinear design. Finger joint is used in construction.

Upholstered seat features a webbed panel construction.

Legs are solid wood. Front legs on open back model are carved for traditional detail.

Glides are 1/2" in diameter.

Stretcher rails on open back model provide added support.

Product Details

Two models are available—open back or closed back.

Open-back models have rectilinear arms, carved detail on the front legs, and stretcher rails.

Closed-back models have curvilinear arms that flow into the front legs.

Surface Materials

Upholstery

- Vinyl
- Fabric
- Fabric with soil-retardant treatment (option)
- Leather
- COM
- COL

Frame

- European Beech
- Tip: Wood finishes applied to beech will match the color of stains applied to oak, walnut, or cherry but will not have the same natural grain.*

Glides

- Stainless steel only

Wood touch-up kits

- Available in specific finishes for field repairs

Programs & Services

► See the *Surface Materials Reference Manual* for further detail about programs and services offered for seating.

The Customer's Own Material (COM & COL) Program

offers the opportunity for customers to select fabrics and leather that are not offered through the standard Steelcase surface materials program for use on Steelcase products. Avoid pattern fabrics and heavily grained leathers. Through the COM & COL program, Steelcase will test your materials for application on Steelcase products. Once approved, you can place your order. Steelcase will facilitate the entire ordering process and give you a production schedule. Steelcase will order the COM & COL fabric and leather directly from the textile manufacturer. For up-to-date information regarding fabric test results for all COM & COL fabrics and details regarding yardage requirements for most Seating lines, visit the COM website. To locate the COM website:

- Visit www.steelcase.com

Soil retardants are treatments that provide long-term soil and stain resistance to a fabric without affecting the shade or the integrity of the fabric. The following Steelcase Textiles are available pre-treated with soil retardant. (You do not need to select the soil-retardant option for these fabrics and incur the upcharge.)

- Jacks
- Link
- Spyder

For information on soil retardant fabrics on Select Surfaces, please refer to the *Surface Materials Reference Manual*.

Soil-retardant treatment is available on all other seating fabrics at an additional upcharge per seating unit. To order this option, please select "Soil-Retardant Treatment" under "Optional Accessories."

For soil-retardant treatment on COMs, please select "Soil-Retardant Treatment" under "Optional Accessories." Minimums or additional yardage may be required. Please contact the vendor directly for specific information.

Extended lead times may be necessary for this service.

Contact your Steelcase Solutions Fulfillment Team Representative at 1.888.STEELCASE (1.888.783.3522) or send an e-mail to lineone@steelcase.com.

Surface Materials

This listing includes all the surface material choices that are available for the products in this specification guide.

Resources

For more information about surface materials, refer to the following resources:

Additional surface materials specification tools are available to assist you in the specification process—the Surface Materials Binders.

The global surface materials palette is a core collection of finishes that is available across multiple geographies (Americas/EMEA – Europe, Middle East, and Africa/APAC – Asia Pacific) and on global product lines, where applicable. For a list of finishes included in the offering, see the *Surface Materials Reference Manual*. Additional details, like product approvals by geography and finish number conversions, can also be found in the *Surface Materials Reference Manual* or see www.steelcase.com/surface-materials

Wood

► See *Wood Color Availability Matrix* on page 608 for color availability by product line and wood species.
Tip: The wood used in the construction of chairs is either maple or European beech. Wood finishes applied to maple or beech will match the color of stains applied to oak, walnut, or cherry, but will not have the same natural grain. Composite color finishes will match the color of composites on veneered surfaces, but will not have the same grain pattern.

Select Surfaces

For information on products within Select Surfaces, including accent paints and fabrics from Designtex, Gab-riel, Kvadrat, and Pollack, please refer to the *Surface Materials Reference Manual* or visit www.steelcase.com/surface-materials under the Select Surfaces section.

- Applies to:
- Collaborative lounge table
 - i2i tablet arm
 - media:scape lounge
 - Snodgrass 474 Series chair frames

Natural Veneer

Natural veneer is available in the Select Surfaces offering. Natural veneer may have extended leadtimes. Place your order as you normally would for any other finish, calling out the appropriate finish code. Natural veneers are Graded-In as Wood Group 1 pricing.

The following finishes are available through the natural veneer offering:

Flat-cut open-pore finish choices

35A2	FC/OP Blanch Maple
37A2	FC/OP Thunder Walnut

Quarter-cut open-pore finish choices

32A2	QC/OP Blanch Maple
33A2	QC/OP Thunder Walnut

Rift-cut open-pore finish choices

36A2	RC/OP Volcanic Oak
------	--------------------

3ZNX	Night Cerused Oak Composite

**To ensure an understanding of the color ranges and characteristic variations of natural veneer, a sign-off sheet is required prior to orders being accepted for this clear-coat finish. The sign-off sheet is available through Steelcase advertising stock. Form number 05-0001370*

Custom Surfaces

Customiz stain is a service that allows you to create your own stain colors and finishes on standard veneer. Customiz stain color is available on all product lines that offer wood veneer.

A \$500 stain-matching fee applies on CUSTOMIZ requests (Exception: The \$500 fee does not apply on matches to Coalesse standard finishes or for a low-gloss finish request on a standard color). The \$500 fee covers the cost of formulating the Customiz color finish and applies regardless of whether or not an order for product is placed.

In addition, an approval form must be signed to indicate customer acceptance of Customiz match. A \$1,500 initiation fee will be charged prior to first order entry. This initiation fee activates the finish for unlimited use on any Steelcase product for an 18 month time period. After the 18 month time period has lapsed, the Customiz finish may be reactivated for another 18 months for a \$1,000 fee at any point within five years after the \$1,500 initiation fee was paid. If the finish is not reactivated within five years after the \$1,500 initiation fee was paid, the finish will be culled and the customer will need to pay the \$1,500 initiation fee again. All style number related Customiz charges products are no cost as of April 2014. The matching and initiation fees are not discountable.

Customiz stain takes 10 days to formulate. Consult the *Surface Materials Reference Manual* for more information. Custom veneers are also available and must be quoted by Steelcase specials group. Customiz stain on custom veneers takes 2 to 4 weeks to formulate.

Requirements and information on ordering a Customiz stain color are found in the *Surface Materials Reference Manual*.

Select Surfaces

For information on products within Select Surfaces, including accent paints and fabrics from Designtex, Gabriel, Kvadrat, and Pollack, please refer to the *Surface Materials Reference Manual* or visit www.steelcase.com/surface-materials under the Select Surface section.

Custom Surfaces

Price Group COM (Customer's Own Material)

Fabric Approval and Yardage

To confirm whether a particular COM material has already been tested for use on a specific Steelcase product or to determine actual yardage requirements:

- Visit www.steelcase.com

For additional information regarding Customer's Own Material, call 1.888.STEELCASE.

How to Order Wood Touch-Up Kits

Order wood finish touch-up kits from J. Kaltz Co. Specify the desired Steelcase finish code (i.e. 3422). Each kit, priced at \$9.98, contains one brush tip marker and one fil-stick. A minimum order of \$15 is required. Shipping, estimated at approximately \$5 per kit, is extra. Dealer will be charged directly. No additional discounts apply.

Place orders as follows:

- Phone: 616.942.6070
- Web: <http://jkaltzco.com>
- Email: susan.bothwell@jkaltzco.com

Orders placed before noon Eastern Standard Time will ship the same day via standard ground shipping and will arrive in three to five days. Express shipment is not available due to the combustible nature of the materials.

Wood Seating Upholstery Matrix

Not every fabric is available on every chair. This matrix gives an overview of the upholstery fabrics that can be specified on each seating product line.

- ▶ Wood Color Availability Matrix, continued

Tip: The wood used in the construction of chairs is either maple or European beech. Wood finishes applied to maple or beech will match the color of stains applied to oak, walnut, or cherry, but will not have the same natural grain. Composite color finishes will match the color of composites on veneered surfaces, but will not have the same grain pattern.

**See Coalesse Surface Materials Reference Guide for more information on this finish.*

***To ensure an understanding of the color ranges and characteristic variations of natural veneer, a sign-off sheet is required prior to orders being accepted for this clear-coat finish. The sign-off sheet is available through Steelcase advertising stock. Form number 05-0001370*

Tip: 3522 Clear Maple is a clear coat. Therefore, the natural variations in wood (maple or European beech) will be visible.

Tip: Due to natural variations in wood, finish products may vary in color, texture and grain.

Not every wood color is available on every seating component. This matrix gives an overview of which wood colors can be specified for each seating component.

Guidelines for Directional Fabrics

What is the issue?

Some textiles are plain and look the same regardless of which direction the fabric is applied to the product. But many customers prefer fabrics that have patterns that give a clear direction to the textile. Because there are limits to how directional fabrics can be applied to panels and chairs, it is important to understand directional fabrics to avoid being disappointed.

Talking about direction

Fabrics come on rolls. The long threads that run parallel to the length of the roll are called the warp. The perpendicular threads that run parallel to the width of the roll are called the filling.

Railroaded means the height dimension of the product is perpendicular to the warp of the fabric; *warp horizontal* and *across roll* are other terms for running the fabric in this direction. All Steelcase standard fabrics are railroaded. The yardage requirements for railroaded cutting are calculated using the width of the fabric, quantity ordered, style of chair(s), and pattern repeat.

Woven way means the height dimension of the product is parallel to the warp of the fabric; *warp vertical* and *down roll* are other terms for running the fabric in this direction. The yardage requirements for woven way cutting are calculated using the width of the fabric, quantity ordered, and style of chair(s).

What determines fabric direction?

The width of the roll of fabric and the techniques that are used to apply it to the product can both determine the direction. Standard default direction for seating products with Steelcase standard fabrics is railroaded. No exceptions are possible. COM fabrics are standard woven way. You may specify a COM fabric to be cut in a specific direction if the product allows it to be applied. The purchase order must clearly state the cutting direction if it is other than standard.

Tip: If you are changing the cutting direction of fabric, yardage requirements may increase, resulting in an additional upcharge. This upcharge will be applied to the purchase order.

▶ See *Yardage Requirements* in the *Surface Materials Reference Manual* for specific information.

If you have any questions regarding cutting direction guidelines, please call the Steelcase Solutions Resource Team at 1.888.STEELCASE or 1.888.783.3522. You can also find this information on our website:

- Visit www.steelcase.com

COM pattern exceptions

Sometimes COM fabrics have patterns that look awkward or inappropriate if they are applied in the standard direction (woven way). Those cases are addressed with these two pattern exception rules.

Incorrect

Correct

Incorrect

Correct

1

Fabrics with stripes or flame stitch will be applied so that the patterns are vertical.

Incorrect

Correct

Incorrect

Correct

2

Fabrics with patterns of people, vines, or flower arrangements will be applied so that the pattern is vertical.

Seating Mechanisms and Adjustability Features Defined

Seating Mechanisms

Swivel Mechanism
Chair swivels 360°. Seat and back stay in a fixed position (no recline).

Swivel-Tilt Mechanism
Chair swivels 360°. Back and seat recline in unison.

Synchro-Tilt Mechanism
Chair swivels 360°. Back and seat move together but at different angles. For every 2 degrees of back recline, the seat angle tilts 1 degree.

Adjustability Features

Adjustable Back Height
Allows the user to position the back up or down.

Adjustable Foot Ring
Allows the user to position the stool foot ring up or down.

Adjustable Seat Depth
Allows the user to change the distance between the front edge of the seat and the chair back.

Adjustable Seat Depth via the Back
Allows the user to change the distance between the front edge of the seat and the chair back via the maintenance back adjustment.

Lumbar Height Adjustment
Allows the user to raise or lower the lumbar support.

Pneumatic Height Adjustment
Allows the user to raise or lower the chair with one lever from a seated position.

Seat Angle Adjustment
Allows the user to position and lock the seat angle in a variety of positions.

Tilt Tension
Allows the user to vary the amount of recline resistance.

Upright Back Lock
Allows the user to lock the back in the upright position.

Variable Back Stop
Allows the user to stop the back recline at various points.

Variable Back Lock
Allows the user to locate and lock the back in a variety of positions.

Adjustability Overview

Tip: Your chair may not include all the adjustments shown.

à la carte	3
à la carte	Options: 4, 5

1 Crew

1 Tilt tension

To decrease tension, turn counterclockwise. To increase tension, turn clockwise.

2 Pneumatic height adjustment

To raise chair, lift body weight up and pull lever up. To lower chair, remain seated and pull lever out.

3 Adjustable seat depth

Lift lever up and hold, shift seat forward or back, and release lever to lock. Available on models TS30802, TS30812, and TS30822 only.

4 Upright back lock

To release, lean forward and flip lever up. To lock, lean forward and flip lever down.

5 Arm height

Pull trigger up and hold, pull arm up or push down, and release trigger.

6 Arm width

Push toggle down to release and adjust arms in or out. Push toggle up to lock.

7 Back height

While seated, pull levers inward, raise or lower back into position, and release lever.

8 Height-, width-, and pivot-adjustable arm

Press button under arm caps to adjust height. Grasp arm caps to slide width in and out, and to pivot.

2 Jacket

1 Tilt tension

To decrease tension, turn counterclockwise. To increase tension, turn clockwise.

2 Pneumatic height adjustment

To raise chair, lift body weight up and pull lever up. To lower chair, remain seated and pull lever up.

3 Adjustable seat depth via the back

Loosen bolt, adjust back in or out to desired position, and retighten knob.

4 Height-adjustable arms

To raise arm, lift arm to desired height. To lower arm, lift arm to its highest position and then lower to bottom.

5 Maintenance width-adjustable arms

Loosen screws under arm bracket, adjust arm in or out, tighten screws.

6 Upright back lock

To lock back in upright position, lean forward and push lever back. To release back lock, lean forward and push lever forward.

3 à la carte

Swivel

1 Pneumatic height adjustment

To raise chair, lift body weight up and pull lever up. To lower chair, remain seated and pull lever up.

2 Seat depth adjustment via the back

Loosen bolt and adjust back in or out to desired position. Retighten bolt.

3 Adjustable back height

Grab chair back with both hands and slowly pull up to desired height. To lower back, pull up to highest position, and back will drop to lowest position. Reset mechanism by pushing down firmly, then adjust upward.

4 Height-adjustable arms

Squeeze trigger under arm cap and raise or lower arm to desired height. Release trigger.

5 Maintenance width-adjustable arms

Loosen screws under arm bracket, adjust arm in or out, tighten screws.

4 à la carte

Swivel Tilt

1 Pneumatic height adjustment

To raise chair, lift body weight up and pull lever up. To lower chair, remain seated and pull lever up.

1 Upright back lock

While in the upright position, push the lever in and the chair will not tilt; pull it out and the chair can tilt.

2 Seat depth adjustment via the back

Loosen bolt and adjust back in or out to desired position. Retighten bolt.

3 Tilt tension

To decrease tension, turn counterclockwise. To increase tension, turn clockwise.

4 Adjustable back height

Grab chair back with both hands and slowly pull up to desired height. To lower back, pull up to highest position, and back will drop to lowest position. Reset mechanism by pushing down firmly, then adjust upward.

5 Height-adjustable arms

Squeeze trigger under arm cap and raise or lower arm to desired height. Release trigger.

6 Maintenance width-adjustable arms

Loosen screws under arm bracket, adjust arm in or out, tighten screws.

5 à la carte

Synchro Tilt

1 Pneumatic height adjustment

To raise chair, lift body weight up and pull lever up. To lower chair, remain seated and pull lever up.

2 Seat depth adjustment via the back

Loosen bolt and adjust back in or out to desired position. Retighten bolt.

3 Tilt tension

To decrease tension, turn counterclockwise. To increase tension, turn clockwise.

4 Upright back lock

To lock back in upright position, lean forward and push lever back. To release back lock, lean forward and push lever forward.

5 Adjustable back height

Grab chair back with both hands and slowly pull up to desired height. To lower back, pull up to highest position, and back will drop to lowest position. Reset mechanism by pushing down firmly, then adjust upward.

6 Height-adjustable arms

Squeeze trigger under arm cap and raise or lower arm to desired height. Release trigger.

7 Maintenance width-adjustable arms

Loosen screws under arm bracket, adjust arm in or out, tighten screws.

Crew

Task Chairs and Stools with Foot Rings

Tip: Hard dual-wheel casters are for use on carpet. Use on hard surfaces, including floor mats, will affect chair stability and may result in personal injury.

Tip: Leather (L suffix) uses a sewn upholstery process on the seat which produces a stitched detail.

Tip: Vinyl specified with a V suffix uses a sewn upholstery process on the seat which produces a stitched detail. Vinyl specified without a suffix is a non-sewn, seamless upholstery.

Tip: Arms, if specified, will match base.

Tip: Suffixes other than K for contrasting fabric, will be added in alphabetical order when specifying options. The contrasting fabric suffix, K, will always be at the end of the style number.

For Canadian Pricing

Multiply U.S. Price by the Canadian price factor.

Select Surfaces

For information on products within Select Surfaces, including accent paints and fabrics from Designtex, Gabriel, Kvadrat, and Pollack, please refer to the *Surface Materials Reference Manual* or visit www.steelcase.com/surface-materials under the Select Surface section.

Custom Surfaces**Customers' Own Material (COM) Program**

The Customers' Own Material (COM) program offers the opportunity for customers to select fabrics that are not offered through the standard Steelcase surface materials program for use on Steelcase products. Once approved, you can place your order. Steelcase will facilitate the entire ordering process and give you a production schedule. Steelcase will order the COM fabric directly from the textile manufacturer. For up-to-date information regarding fabric test results for all COM fabrics and details regarding yardage requirements for most seating lines, visit the COM website on www.steelcase.com. COMs are not covered under the Steelcase warranty.

Soil Retardants

Soil retardants are treatments that provide long-term soil and stain resistance to a fabric without affecting the shade or the integrity of the fabric. The following Steelcase Textiles and turnstone Collection by Designtex fabrics are available pre-treated with soil retardant:

- Link

For information on soil retardant fabrics on select surfaces, please refer to the *Surface Materials Reference Manual*.

Tip: For the most up to date availability information, please visit www.steelcase.com/surface-materials.

Understanding Customer's Own Material (COM)

The Customer's Own Material (COM) program allows customers to select textiles that are not offered through the standard Surface Materials program for use on turnstone products.

The COM process consists of seven steps: COM website, Testing/Approval, Steelcase to Purchase Service, Pricing, Cutting Direction, Yardage Requirements, and the Purchase Orders.

COM Website

- COM Website features application test results for all COM, Designtex Graded-In, Options Collection and Classics Collection fabrics. The website allows you to calculate yardage requirements for most turnstone seating and systems products.
- Access the COM website at: www.steelcase.com.
- Or call 1.888.STEELCASE (1.888.783.3522) or send an e-mail to line-one@steelcase.com.

Application Testing/Approval

- Confirm that the selected COM has been tested and approved for application on a specific product by checking the COM website at: www.steelcase.com.

COM Application Testing or "approved for application" means the COM fabric has been reviewed for manufacturability using the standard manufacturing techniques to achieve acceptable appearance per Steelcase quality standards.

COM fabric performance, including durability, pilling, color fastness, stretch, splitting, fraying, etc. is not tested by Steelcase. Therefore, COMs are not covered by the Steelcase Warranty. Each COM vendor is responsible for all warranty claims related to fabric performance.

Steelcase reserves the right to reject or reverse any COM approval that does not meet the manufacturing requirements in actual production. COM approval may be rejected or reversed because not all application testing is based on actual production conditions and because some materials vary in fabrication.

- If the COM is approved, you may continue the order process.
- If the COM has failed, you must reselect a fabric.
- If the COM is not listed, that means Steelcase has not tested that fabric on our products.

Helpful hint: Seating vinyl and leather do not require testing. Customer's own vinyl is available on all seating products that accept Steelcase standard vinyl.

- If your material has not been tested, then send yardage (4.5 yards for seating, 2 yards for vertical surfaces) and submit a completed COM Application Testing Request form to:
Steelcase Inc.
Attn: COM Testing
Door 305
4060 Eastern Avenue
Grand Rapids, MI 49508
- To ensure rapid processing, please use the electronic COM Application Testing Request form found on the COM website under the "How To Test" tab **or** fax a copy of the COM Testing Request form from the *Surface Materials Reference Manual* to 616.698.4700. **All information on the form is required in order to complete testing. COM tests cannot be performed if information is incomplete. Contact your requested fabric vendor for any missing information.**
- Test results will be returned (by fax or e-mail) in four working days from receipt of fabric and completed form.

COM materials that are approved for application to panel systems might require UL approval after application test approval. UL approval does involve fees and extended lead times.

All vertical surface COMs tested and approved with a content of 100% polyester meet a minimum of class C/UL1286. If class A or B fire rating is indicated, a burn test must be performed. All vertical surface COMs with a blended fabric construction require a UL burn test. For further UL information, contact a COM Consultant at 616.475.2426.

Steelcase to Purchase Service

The COM program also includes a service to purchase approved COM for our customers for use on turnstone products. Steelcase will facilitate the ordering, scheduling and shipment of COM directly from the suppliers. There are no additional charges for this service.

Steelcase is the only party that may purchase COM for all turnstone products.

In some instances, not all colors in a fabric family are approved. You will be informed of these instances before Steelcase purchases the fabric.

If for some reason the fabric must be ordered directly from the supplier, contact your Steelcase Solutions Fulfillment Team Representative for approval and instructions prior to purchase. The only time the customer can purchase fabric is for testing.

COM Pricing

- Confirm COM is tested and approved.
- Use the COM or COL (Customer's Own Leather) price group found under Surface Materials Options within each product spec guide.
- Calculate yardage required by using the COM Calculator found on the COM website at www.steelcase.com.
- Or call 1.888.STEELCASE (1.888.783.3522) or send an e-mail to line-one@steelcase.com.
Helpful tip: Fabric width, repeat and product quantity and style number are required in order to calculate yardage accurately.
- Add the cost of the fabric to the COM or COL price group.
- The cost of the COM will be shown as a separate line on the acknowledgement.

COM vendors require fabric purchases in half or full yard increments. Therefore, Steelcase will round all final yardage calculations to the half yard.

COL (Customer's Own Leather) is calculated by the square foot, but purchased in hide. The customer is responsible for purchasing the minimum hide requirement.

Base price of chair includes standard fabrics. Steelcase will not allow credit or deduct the cost of the standard fabric when a COM fabric is selected in its place.

Steelcase cannot be held responsible for costs incurred when a COM supplier ships a COM fabric that does not meet Steelcase application standards or for costs incurred for late deliveries when a COM supplier commits to shipping a COM fabric for manufacturing by a specific date and misses that date.

COM Warranty

Steelcase standard warranty does not apply to Designtex or any other COM vendor's fabric.

- Designtex and other COM suppliers are responsible for color consistency within commercial tolerances, abrasion resistance, UV stability, and resistance to soiling and perspiration. These fabrics or vinyls are subject to policies regarding appearance, behavior, and durability that have been established by the fabric supplier. The customer's remedy for a fabric defect is limited to the replacement of the fabric by the supplier. Durability, performance, and fabric defects of COM fabrics are not guaranteed by Steelcase.

Cutting Direction

SEATING:

Warp horizontal

Warp vertical

- **Dealers must specify fabric application direction on all COM orders.**
- COMs for seating are most often applied in the warp vertical (downroll, woven way) direction. Some exceptions include patterns with stripes, fabrics that are sampled in the warp horizontal (railroad, across roll) direction, and solid vinyls.
- ▶ See Cutting Direction Guidelines in the *Surface Materials Reference Manual* for more information.

VERTICAL SURFACES:

Warp vertical

Warp horizontal

- **Dealers must specify fabric application direction on all COM orders.**

- The cutting direction of COMs on vertical surfaces varies by product and sometimes by style number. Please check the COM website for the approved cutting direction for your particular COM.

▶ See Cutting Direction Guidelines in the *Surface Materials Reference Manual* for more information.

Steelcase cannot guarantee pattern repeat match from product to product. Steelcase also cannot guarantee pattern repeat match within each product listed. (i.e., seat and back, arms to back, etc.)

COM Yardage Requirements

- For the most accurate yardage requirements, visit the Calculator found on the COM website or call 1.888.STEELCASE (1.888.783.3522) or send an e-mail to lineone@steelcase.com.
- The Calculator on the COM website provides the same yardage requirements used by Steelcase purchasing.

Yardage requirements will change depending on:

- width of fabric
- fabric repeat
- cutting direction
- product style number
- quantity of products being manufactured

- COM vinyl requires upholstering in the railroad cutting direction. Please visit our website or call 1.888.STEELCASE (1.888.783.3522) or send an e-mail to lineone@steelcase.com for yardage requirements.
- Certain fabric treatments and backings require additional yardage or yardage minimums. Please contact the supplier for specific information.
- COM fabric vendors require fabric purchases in half- or full-yard increments, and the Steelcase COM calculator will automatically round all final yardage calculations to the half yard.
- Steelcase is the only party who may purchase COMs.

Maintenance and Cleaning

Inspecting and cleaning. Have your chair's upholstery, finishes, controls, base, and other moving parts inspected and cleaned at least once a year.

Cleaning painted and plastic surfaces. Finishes should be cleaned with water and/ or a non-abrasive cleaner (such as Formula 409® and Fantastik®).

Maintaining upholstery. Use a vacuum cleaner for regular cleaning. Periodic professional dry cleaning is recommended. Do not steam clean.

Removing excess stains or heavy soil. Soak up excess stain with a cloth. Do not dry the stain completely or it may set. For most water-soluble stains (coffee, fruit juice, washable ink), use an upholstery cleaning solution (such as Bissell® upholstery shampoo or Guardsman Fabri-Kleen® products) and follow directions on package. For oil-borne stains, use a dry cleaning solution at room temperature (never hot) and let solution work into the stain. Use quick, light strokes to brush the stain with a soft bristle brush. Work from outside toward the center to prevent rings. Soak up remaining dry cleaning solution, then sponge the fabric with cool water. Let fabric dry completely; then vacuum thoroughly. If stain is still visible, repeat procedure. Several light applications of cleaning solution are more effective and less damaging than one heavy application.

Formula 409 is a registered trademark of Clorox company. Fantastik is a registered trademark of Dow Consumer Products, Inc. Fabri-Kleen is a registered trademark of Guardsman Chemical. All other marks are marks of their respective owners.
