Introduction

A Note on the Organization of This Book

There are a few signals that will help you understand the organization of this book. Once you know them, you should be able to find your way around easily.

Like a newspaper, this book is formatted with columns of text and illustrations that run vertically.

Information wraps from one column to the next and continues for as many pages as it needs to.

Black bars are clues.

A black bar at the top of a page signals the start of information about a product.

This information is divided into two sections, each signaled by a black bar. Product Information includes a description, additional notes, and dimensional drawings. Specification Information, which always begins at the top of a column, includes a series of steps. Each step represents a decision you need to make in order to complete your product number. Steps must be followed sequentially. The number of pages needed to complete information on a product varies; some will be complete in one page; others may fill three or four pages. Just continue going through the steps until you run into the next product, signaled by the black bar at the top of the page.

Black tabs running along the outside edge of the page help you locate what section you are in or what section you want to go to. You can thumb forwards or backwards to find a section; tabs and text appear on both sides of the page.

The additional pages in the back of the book include the appendices and indices. They are signaled by a long black bar running along the outside edge of the page.

The index is presented two ways.

The first index is in alphabetical order by product name. It can be helpful if you are new to the products and numbering scheme or if you are looking for a type of product, such as work chair or round table. The second index is by product number. It lists, in alphanumeric order, the base product number, typically a five-digit number.

General Information

This book is effective April 1, 2019, subject to change without notice. Products may be purchased from authorized Herman Miller dealers who will quote prices upon request. For more information about our products and services or to see a list of dealers, visit www.HermanMiller.com.

All prices are list prices. Additional services, such as planning services, design, storage, and installation, are not included and must be added to these prices when the additional services are requested.

Illustrations, specifications, and prices are based on the latest information at the time of publication. The right is reserved to make changes at any time without notice in prices, fabrics, finishes, materials, specifications, and models, and also to discontinue models and finishes.

Dimensions shown in the drawings are engineering drawing dimensions rounded up to the nearest $1/8$". Product is shipped set up or knocked down. Products that include "Shipped knocked down" in the description require some assembly. If this statement does not appear in the description, the product is shipped assembled.

Service problems are normally handled by a Herman Miller authorized dealer. Where this cannot be accomplished on a local level, service problems should be referred to the Customer Care Representative for your region, Herman Miller, Inc., Zeeland, Michigan 49464.

20-Day or Less/Assigned Lead-Time Shipments

All products and options in this price book not designated by an Assigned Program icon [A] will ship in **20 business days or less** after being acknowledged by Herman Miller.
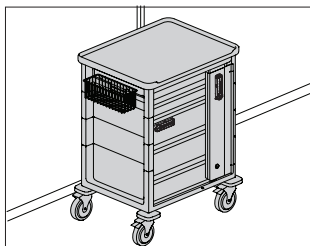

Products and options designated by an [A] are on the assigned lead-time program and may ship in 20 days, less than 20 days, or more than 20 days from order acknowledgement.

Storage and Technology Cart   CTT.
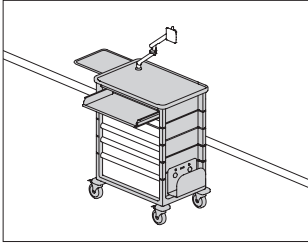

Product Information

Description

Storage and technology carts provide the ability to combine charting, inventory management, and storage in 1 cart. This cart has Flo® through-mount hardware installed on the left side of the cart top and is ready to accept a Flo monitor arm, sold separately. The cart has a raised-edge top and an optional shelf that slides out on the left or right side. It comes with a rail-attached power outlet strip or a bracket to mount a field-supplied power strip, and a cable management channel. There are 2 1″-diameter holes in the upper back of the cart body on the left and right sides for routing mouse and keyboard wires, and 10 interior slots at 3″ intervals. When using the keyboard shelf, there are 9 available interior slots. The cart has 5″ casters; 2 swivel/brake casters in front, 2 swivel casters in back.

Flo is an easy to move, slim profile monitor arm that can support a single flat panel monitor or laptop holder. It has a $13^1/_4$″ height-adjustment range, a $20^5/_8$″ extension range, and allows the monitor to tilt 40° upward and −40° downward. The arm includes a quick-disconnect feature that allows easy installation and removal of a monitor or laptop holder. It has integrated cable management along the underside of the arm, and a visual indicator that shows the arm's tension setting. The arm meets VESA 75mm and 100mm standards (Video Electronic Standards Association-Mounting Interface Standard). An allen wrench for adjusting arm tension is included. Cart ships with Flo through-mount hardware attached. The arm slides onto the mount; no additional hardware required.

Notes

Keyboard shelf has full-extension drawer slides and holds up to 25 pounds. Finish is black.

Cart is compatible only with Flo monitor arm.

Flo arm accommodates monitor and laptop weights ranging from 7 to 20 pounds.

Order the following products separately:
• Flo single screen monitor arm-arm only (Y92090.) (open market)
• Optional laptop mount (Y91177.) for Flo arm (open market)
• Cord wrap (CT779.)
• Drawers, drawer accessories, shelves, cassettes, and holders
• Rail-mounted electrical components, containers, and holders

Flo monitor arm will always mount on left side of cart and CPU holder on the right side to balance the weight.

Laptop mount (Y91177.) requires 100mm VESA plate (not included). It supports laptops of varying widths up to 11″ deep and $1^1/_2$″ thick. It supports docking stations up to 11″ wide and 5″ deep.

Flip-up shelf (CT750.) cannot be mounted on the same side of the cart as the CPU holder.

Side-mounted CPU holder finish is soft white (LU).

Side-mounted CPU holder width adjusts to hold computer cases ranging from 4″-$6^1/_2$″ wide. Maximum cube space for CPU cases is $6^1/_2$″ wide × 13″ deep × 25″ high. Maximum weight capacity of CPU holder is 50 pounds.

Product Information

Description

Storage and technology carts provide the ability to combine charting, inventory management, and storage in 1 cart. Flo® through-mount hardware comes installed on the left side of the cart top and is ready to accept a Flo monitor arm, sold separately. This 42″-high cart includes a divider between keyboard tray and storage to allow keyboard access while the storage can remain locked by the 36″-high lock bar. The cart has a raised-edge top and an optional shelf that slides out on the left or right side. It comes with a rail-attached power outlet strip or a bracket to mount a field-supplied power strip, and a cable management channel. There are 2 1″-diameter holes in the upper back of the cart body on the left and right sides for routing mouse and keyboard wires, and 10 interior slots at 3″ intervals. When using the keyboard shelf, there are 9 available interior slots. The cart has 5″ casters; 2 swivel/brake casters in front, 2 swivel casters in back.

The lockbar prevents unauthorized access to drawers or cassette bins. It offers multiple security and access options and re-locks automatically when closed. Keyless entry options have a sleep mode for tamper protection when several incorrect codes are entered, a 9-volt battery "jump" capability, and a keyed backup. Batteries included.

The proximity reader will read most low frequency HID Prox Cards (125 kHz). The use of a card other than one from Herman Miller, Inc., should be verified. Various combinations of "user" and "supervisor" codes can be set.

Lock Bar   CT710.

Product Information

Description

This bar prevents unauthorized access to drawers or cassette bins within a 36″- or 42″-high cart. It offers multiple security and access options and re-locks automatically when closed. The basic keyless entry option allows access using a single programmable code that can be changed by a supervisor. Uses 2 AAA batteries (included).

Notes

Keyless entry options have a sleep mode to provide tamper protection when several incorrect codes are entered.

Keyless entry options have a 9-volt battery **"jump"** capability and a keyed back-up.

For general information on locks, see Keyed-Alike Information in Appendices.

Packaging/Keyed-Alike
Information — Procedure/Supply Carts

Packaging

Packaging varies according to individual product. A surcharge may be added for special packaging requests. Contact Customer Care for specific information.

Keyed-Alike Locks

All components with locks may be specified keyed alike. Products with keyed-alike locks will be shipped with lock plugs installed. Procedure/supply carts have Medeco locks.

To order keyed-alike locks:

1. Choose keyed-alike product number.
2. Specify a key number if desired (01 through 99). If no key number is specified, one will be selected for you.
3. Specify the quantity of each kind of component to be keyed-alike.

To remove lock plugs from existing components, loosen the hex nut inside the product and remove the plug.

Customers interested in ordering master keys for procedure/supply carts products should contact their local authorized dealer with a written request.
