Prices effective January 7, 2019

Public Office Landscape®

For the latest materials information, refer to the Materials pages on HermanMiller.com.

Introduction

There are a few signals that will help you understand the organization of this book. Once you know them, you should be able to find your way around easily.

Like a newspaper, this book is formatted with columns of text and illustrations that run vertically.

Information wraps from one column to the next and continues for as many pages as it needs to.

Black bars are clues.

A black bar at the top of a page signals the start of information about a product.

This information is divided into two sections, each signaled by a black bar. Product Information includes a description, additional notes, and dimensional drawings. Specification Information, which always begins at the top of a column, includes a series of steps. Each step represents a decision you need to make in order to complete your product number. Steps must be followed sequentially. The number of pages needed to complete information on a product varies; some will be complete in one page; others may fill three or four pages. Just continue going through the steps until you run into the next product, signaled by the black bar at the top of the page.

Black tabs running along the outside edge of the page help you locate what section you are in or what section you want to go to. You can thumb forwards or backwards to find a section; tabs and text appear on both sides of the page.

The additional pages in the back of the book include the appendices and indices. They are signaled by a long black bar running along the outside edge of the page.

The index is presented two ways.

The first index is in alphabetical order by product name. It can be helpful if you are new to the products and numbering scheme or if you are looking for a type of product, such as work chair or round table. The second index is by product number. It lists, in alphanumeric order, the base product number, typically a five-digit number.

General Information

This book is effective January 7, 2019, subject to change without notice. Products may be purchased from authorized Herman Miller dealers who will quote prices upon request. For more information about our products and services or to see a list of dealers, visit www.HermanMiller.com.

All prices are list prices. Additional services, such as planning services, design, storage, and installation, are not included and must be added to these prices when the additional services are requested.

Illustrations, specifications, and prices are based on the latest information at the time of publication. The right is reserved to make changes at any time without notice in prices, fabrics, finishes, materials, specifications, and models, and also to discontinue models and finishes.

Dimensions shown in the drawings are engineering drawing dimensions rounded up to the nearest $1/8$". Product is shipped set up or knocked down. Products that include "Shipped knocked down" in the description require some assembly. If this statement does not appear in the description, the product is shipped assembled.

Service problems are normally handled by a Herman Miller authorized dealer. Where this cannot be accomplished on a local level, service problems should be referred to the Customer Care Representative for your region, Herman Miller, Inc., Zeeland, Michigan 49464.

20-Day or Less/Assigned Lead-Time Shipments

All products and options in this price book not designated by an Assigned Program icon $\boxed{A}$ will ship in **20 business days or less** after being acknowledged by Herman Miller.

Products and options designated by an $\boxed{A}$ are on the assigned lead-time program and may ship in 20 days, less than 20 days, or more than 20 days from order acknowledgement.

Social Chair   BVS1N.

Product Information

Description

This chair has an upholstered foam seat on an expanded polypropylene base, with a Network-wrapped suspension back. The chair can be freestanding next to a desk or connected to other social chairs or café tables. It accepts the attachment of screens. It comes with legs for freestanding applications or without legs when attached to other chairs. Legs have glides that provide up to 2″ of adjustment.

Notes

Chair supports attachment of 2 screens.

When specified without legs, order seating legs (BVS3.) separately.

Network color and back loop frame color will match.

Seat fabric is railroaded.

Customers Own Material can only be specified for seat fabric. See Customers Own Material Order Information in appendices.

Seat accepts Customer's Own Material (COM). Yardage is estimated for nondirectional 54″-wide fabrics. Order 2.16 yards of fabric per cushion. For information on multiple quantities or directional fabrics, contact COM Department. See Order Information in Appendices.

Desk   BVD1.
Product Information

Description

Desks have 4 legs and are intended to connect with other desks and connecting bins. Desks have a laminate, veneer, or Formcoat® squared-edge work surface with a painted steel understructure bin on 1 side and a steel shelf with a bag hook on the other side. Desks will support a screen on the shelf side, and on the bin side when the bin does not have doors, and will accommodate desktop dividers. Understructure bins come in left or right orientation, with or without doors. Bin divider included. Legs have glides that provide up to 2″ of adjustment.

Power bridge desk allows power to be run from desk-bin side to L-shelf side of the desk to accommodate powering other desks or café surfaces from a single power entry point. The desk bin and L-shelf have the same appearance as on the power access desk, but have different internal structures and components to support power across the desk.

Notes

To connect desk to a connecting bin (BVD2.) or another desk (BVD1.), order desk and bin ganging plate (BVD5.C) separately.

All connecting bins (BVD2.) require the use of both bin-to-bin and desktop-to-desktop ganging plates. Order desk and bin ganging plate (BVD5.C) separately.

The exposed end of the understructure bin requires a desk and bin finishing kit (BVD4.), ordered separately.

Desk accepts modular power (BVE01., BVE02.) through the bottom of the understructure bin.

To bring power to the surface of a desk, order Logic Mini, Grommet Mount (Y1414.) separately.

Bin divider is field installed and can be specified in a complementary color.

Grommet color is either graphite or white, matched to the work surface color.

Bag hook color is matched to shelf color.

When specifying trivalent chrome (47) leg finish, glide color is predetermined to coordinate with specified desk finish:
• Graphite (G1) desk will have black (BK) glides
• Metallic silver (MS) desk will have fog (63) glides
• White (91) desk will have folkstone grey (8Q) glides

Power bridge desk includes cable management channel and L-shelf cover for beam connection.

Power access desk can be ordered with or without doors. The power bridge desk can only be ordered without doors, to accommodate the power bridge components.

See Planning Guide for more information about settings.

Connecting Bin   BVD2.
Product Information

Description

Connecting bins have 2 legs and are intended to connect with desks and other connecting bins. Connecting bins have a laminate, veneer, or Formcoat® top surface with a painted steel understructure bin. They come with or without doors, and allow power pass-through. Connecting bin will support a screen when the bin does not have doors. Bin divider included. Legs have glides that provide up to 2″ of adjustment.

Notes

Connecting bins are not freestanding and will not support screens.

All connecting bins require the use of both bin-to-bin and desktop-to-desktop ganging plates. Order desk and bin ganging plate (BVD5.C) separately.

For stability when connecting to a desk (BVD1.) or another connecting bin (BVD2.), use both desktop-to-desktop and bin-to-bin ganging plates (BVD5.C), ordered separately.

The exposed end of the connecting bin requires a desk and bin finishing kit (BVD4.), ordered separately.

Bin divider is field installed and can be specified in a complementary color.

When specifying trivalent chrome (47) leg finish, glide color is predetermined to coordinate with specified bin finish:

• Graphite (G1) bin will have black (BK) glides
• Metallic silver (MS) bin will have fog (63) glides
• White (91) bin will have folkstone grey (8Q) glides

See planning guide for more information about settings.

Freestanding Bin   BVB1.
Product Information

Description
This freestanding bin has 4 legs and provides shared storage. It has a laminate, veneer, or Formcoat® work surface with a painted steel understructure bin. It is available with or without power access, with or without doors, and accepts screen attachment. Legs have glides that provide up to 2″ of adjustment. Bin divider included.

Notes
The exposed end of the understructure bin requires a desk and bin finishing kit (BVD4.), ordered separately.

To connect to other freestanding bins, order desk and bin ganging plate (BVD5.) separately.

Freestanding bins do not allow power pass-through, but can be ordered with grommets to accommodate power at the top surface.

To bring power to the surface of a freestanding bin with power access, order Logic Mini, Grommet Mount (Y1414.) separately.

Bin divider can be specified in a complementary color.

Grommet color is either graphite or white, matched to the work surface color.

When specifying trivalent chrome (47) leg finish, glide color is predetermined to coordinate with specified bin finish:
• Graphite (G1) bin will have black (BK) glides
• Metallic silver (MS) bin will have fog (63) glides
• White (91) bin will have folkstone grey (8Q) glides

Half Bin   BVB2.
Product Information

Description

This bin creates a bridge in group settings that include sectional seating and screens. It has a laminate, veneer, or Formcoat® top surface with a painted steel bin. It comes with doors, and accepts screen attachment. Legs have glides that provide up to 2″ of adjustment. Ganging hardware included.
Notes

Half bin must be attached to 2 chairs.

When specifying trivalent chrome (47) leg finish, glide color is predetermined to coordinate with specified bin finish:
• Graphite (G1) bin will have black (BK) glides
• Metallic silver (MS) bin will have fog (63) glides

Desk and Bin Ganging Plate BVD5.
Product Information

Description

These ganging plates provide attachment between bins, desks, and peninsula tables. Attachment hardware included.

Notes

Desk (BVD1.) requires ganging plates (BVD5.C) to attach to other desks or connecting bins.

Connecting bin (BVD2.) requires ganging plates (BVD5.C) to attach to other connecting bins or desks.

Peninsula table (BVT4.) requires ganging plates (BVD5.B) to attach to freestanding bins.

Freestanding bin (BVB1.) requires ganging plates (BVD5.B) to attach to peninsula table or other freestanding bins.

See Planning Guide for more information about settings.

Modular Power Entry BVE01.
Product Information

Description

This power entry connects a buildings electrical supply from a wall, floor, or column to a desk or connecting bin. It enters through the bottom of the desk or bin. The power entry plugs into any of the ports on the power block and includes a cable that can be field cut to the appropriate length. Cord comes in 6′, 10′, and 20′ lengths. UL listed and Canadian UL listed.

Notes

A licensed electrician must wire power entry.

Power Block

BVE03.
Product Information

Description

This power block has electrical ports for connecting modular power to receptacles and jumpers. It can be located in a desk, preinstalled into the connecting bin, and for power bridge access desk applications can be located in the L-shelf bin. UL listed and Canadian UL listed.

Notes

When using the power bridge desk (BVD1.xxxxB) to power a café table, order the 4 port with receptacle harness (4R) configuration to be installed underneath the L-shelf.

When connecting modular power within connecting bins and desk bins, order the 4 port (04) configuration.

When using the power bridge desk (BVD1.xxxxB) to bring power across desks without a café table configuration between the desks, order the 4 port (04) configuration.

See Planning Guide for more information about power.

Power Block-to-Power Block Jumper

BVE05.
Product Information

Description
This power jumper connects power block to power block in desks and connecting bins. UL listed and Canadian UL listed.

Notes
The 29" jumper distributes power through adjacent desk bin and connecting bin raceways. It connects power blocks in desk back-to-back and offset back-to-back configurations with side-to-side desk bins.

The 52" jumper distributes power through back-to-back desk bin or connecting bin raceways. This jumper includes cover to house jumper outside of the bin.

The 116" jumper distributes power between the power bridge desk (BVD1.xxxxB) in applications where the social chair and/or café table configuration is used in conjunction with the desk.

The 134" jumper distributes power underneath the desk surface of the power bridge desk (BVD1.xxxxB).

Logic Mini   Y1414.
Product Information

Description

This electrical distributor plugs directly into floor, wall, or ceiling
drop outlets. Each module configuration presents the same visual
appearance. Cable clips and attachment hardware included. Product is
UL listed.

Notes

Cable clips for cord management are intended for a 1-time installation.
Clamp versions can be reoriented in the field by a technician.

A small LED light illuminates through the USB ports when the USB
version is plugged in and powered.

USB ports provide 10-watt power to charge most devices and tablets at
full speed.

Cord color is predetermined. For white (91) finish cords will be white. For
graphite (G1) finish cords will be black.

Grommet mount attachment (Y1414.xxxG) does not come with the mini
grommet. Order Logic mini grommet (Y1412.) separately, as needed.

Power Bridge   BVE09.

Product Information

Description

This kit includes beam to route power jumper and data between power bridge access desks positioned L-shelf-to-L-shelf with or without social chairs and café table between desk configurations. Attachment hardware included. Power components must be ordered separately.

Notes

Receptacle over only option (NB) supports desk back-to-back configurations with a single or double café and power bridge desk located on left or right side.

Jumper tray only option (00) covers the power block and desk jumper in back-to-back L-shelf configurations with the power bridge desk.

Short bridge option (29) connects L-shelf-to-desk bin configurations with a single social chair between desks. At least 1 desk must be the power bridge desk.

Long bridge option (87) connects L-shelf-to-L-shelf in desk side-to-side configurations with a café table between the power bridge desks.

See Planning Guide for more information about settings.

Single Café Table   BVT1.
Product Information

Description

This single café table comes with a laminate, veneer, or Formcoat® squared-edge work surface. It has a painted steel shelf, accepts a single 29"-wide screen, and is available with or without power access. Café table includes bag hook. Attachment hardware included.

Notes

Single café table cannot stand alone and must attach between 2 social chairs (BVS1N.).

Power access comes with single grommet to accommodate power at the surface. Grommet color is either graphite or white, matched to the work surface color.

To bring power to the surface of a single café table with power access, order Logic Mini, Grommet Mount (Y1414.) separately.

Bag hook color is matched to shelf color.

Public Office Landscape® Tables

Focus Café Table   BVT2.

Product Information

Description

The focus café table comes with a laminate, veneer, or Formcoat® squared-edge work surface. It has a painted steel shelf, accepts a single 29"-wide screen, accepts power accessories, and is available with or without power access. Stiffeners, and attachment hardware included.

Notes

Focus café table cannot stand alone and must attach to 1 social chair (BVS1N.).

Power accessories in this application will comply with UL 962A.

Power access comes with single grommet to accommodate power at the surface. Grommet color is either graphite or white, matched to the work surface color.

To bring power to the surface of a focus café table with power access, order Logic Mini, Grommet Mount (Y1414.) separately.

Public Office Landscape® Tables

Peninsula Table   BVT4.

Product Information

Description

This peninsula table comes with a laminate, veneer, or Formcoat®
squared-edge work surface. It has a painted steel understructure bin,
a column leg, and 2 grommets in the back of the surface. It is available
with or without an additional cutout for power access and accepts
a single 42″-wide screen. Legs have glides that provide up to 2″ of
adjustment. Bin divider included.

Notes

To connect peninsula table to other freestanding bins, order desk and
bin ganging plate (BVD5.) separately.

Bin divider color is specified separately.

The exposed end of the understructure bin requires a desk and bin
finishing kit (BVD4.), ordered separately.

Grommet color is either graphite or white, matched to the work surface
color.

To bring power to the surface of a peninsula table with power access,
order Logic Mini, Grommet Mount (Y1414.) separately.

Doors are not available for the peninsula table understructure bin.

Public Office Landscape® Tables

Flat Edge Screen, Single Material   BVP1.
Product Information

Description

Screens attach to social chairs, sectional seats, desks, single café tables, peninsula tables, and freestanding bins. They are tackable, have a single fabric covering the entire screen, and come in 2 widths and 3 heights. Attachment is by a push-button mechanism.

Notes

For attachment to a social chair (BVS1N.), sectional seat (BVS2N.), single café table (BVT1.) and 29" freestanding bin (BVB1.29), specify 29"-wide screen. For attachment to peninsula table (BVT4.) and 42" freestanding bin (BVB1.42), specify 42"-wide screen.

Applications with adjacent screens in a line or at a corner require alignment clip (BVP3.), ordered separately.

Screens accept whiteboard overhang (BVP4.), ordered separately.

Screen accepts Customer's Own Material (COM). Yardage is estimated for nondirectional 54"-wide fabrics.

Height—Yardage

42—2.33

54—3.09

68—3.97

For information on multiple quantities or directional fabrics, contact COM Department. See Order Information in Appendices.

20-Day or Less/Assigned Lead-Time
Order Information

20-Day or Less and Assigned Lead-Time Programs

20-day or less and assigned lead-time products are designed for established Herman Miller dealers with pre-approved credit.

Products are distributed from multiple manufacturing facilities across the United States. All products and options not designated by an Assigned Lead-Time icon [A] will ship in 20 business days or less after being acknowledged by Herman Miller. Products and options designated by an [A] are on the assigned lead-time program and will ship in 20 days, less than 20 days, or more than 20 days from order acknowledgement.

Ordering Procedure

Please place orders through Order Manager. If this is not available to you, place orders through mail or fax. Verbal purchase orders will not be accepted.

Order Entry fax number for Passage®, 5000 Series, and Meridian® Filing and Storage: (616) 846 9236.

Order Entry fax number for all other products:
(616) 654 3085.

For more information, contact your Customer Care representative at:
(866) 854 3048 ext 3400.

Shipments and Delivery

Per Herman Miller Terms and Conditions.

Changes and Cancellation

Per Herman Miller Terms and Conditions.

Customer's Own Material Order Information — Workspaces

Customer's Own Material

Program Overview

The Customer's Own Material (COM) program gives you the option of using textiles other than those listed. Herman Miller will test textiles for application to Herman Miller products and will process orders for those with approved COM textiles only. COM textiles are on assigned lead times.

Omni lists an overview of fabrics that have been tested and indicates whether or not they were approved for application to Herman Miller products.

Specific information on the terms and conditions, testing, approval, and ordering process for COM is listed below. Questions about the COM program and requests for assistance may be directed to your COM representative at:

(616) 654 3400
(866) 854 3048 EXT 6543400

Customer's Own Material Warranty

Herman Miller does not warrant COM textiles. COM textiles are tested for application only; they are not tested for performance. The Herman Miller warranty does apply to the underlying products.

Suppliers of COM textiles are responsible for color consistency within commercial tolerances, UV stability, and resistance to soiling and perspiration.

Customer's Own Material Pricing

COM is a Category 1 fabric. There are no application charges for COM fabrics.

Ordering and payment for COM textile yardage are the responsibility of the customer and the textile supplier.

If desired, Herman Miller will purchase COM textiles directly from True Textiles, C.F. Stinson, Luna Textiles, Maharam, and Momentum Textiles to simplify ordering and shipment. For this service, refer to the Supplier Connection program.

Application Note

Herman Miller does not guarantee that Customer's Own Material (COM) fabric patterns will align across panels/tiles or from one screen to the next. We also do not guarantee that COM fabric designs will be positioned consistently in the same location across several panels, tiles, or screens.

Textile Approval

1. Select a COM textile and a Herman Miller product.
2. If your textile is not listed in Omni, obtain a test number from a COM representative at (616) 654 3400. You can also submit your request within Omni. Please have the following information ready before calling: textile name, number, pattern, and the product you will apply it to.
3. Herman Miller will notify you of approval or disapproval within 4 days from receipt of the test yardage.

Ordering Products with COM

1. Refer to the specific products to determine the yardage required for COM textiles.
2. If your textile is not listed in Omni, call a COM representative at (616) 654 3400 or (866) 854 3048 EXT 6543400. The representative will assign an identification number for your textile (ID#) and will verify yardage requirements for your order.
   Note: Yardage requirements are based on nondirectional, 54"-wide textiles. 66"-wide textiles are needed for application on 60"-wide products. Additional yardage may be needed due to the unique characteristics of a textile.
3. Enter your order on Order Manager in Omni.
4. Upon receipt of your purchase order, Herman Miller will send you a PO acknowledgment.
5. Arrangements must be made for the textiles to be shipped from the supplier to Herman Miller for application to the Herman Miller products. Textiles must be tagged with the assigned identification number and the roll yardage quantity. See Omni for shipping procedures and current shipping addresses or contact a COM representative at (616) 654 3400 or (866) 854 3048 EXT 6543400.

   Products will be scheduled for production when COM textiles are received at Herman Miller. Standard lead times in effect at that time will apply.

Note: If textiles are to be purchased directly by Herman Miller through the Supplier Connection program, Herman Miller will handle the ordering and shipping process and will schedule your order for production upon receipt of your purchase order (dependent on textile availability). Refer to the Supplier Connection program for more information.

Supplier Connection

Program Overview

The Supplier Connection program is a service offered by Herman Miller to purchase approved COM textiles directly from True Textiles, C.F. Stinson, Luna Textiles, Maharam, and Momentum Textiles. When you select a textile through this program, Herman Miller will facilitate the ordering, scheduling, and shipment of the textile directly with the supplier.

Suppliers included in the Supplier Connection program keep an active inventory of textiles that are pre-approved for application to Herman Miller products. Pre-approval applies only to the suitability of a textile for manufacturing and application to a Herman Miller product. Omni provides an overview of fabrics that have been tested and indicates whether or not they were approved for application to Herman Miller products.

Specific information on the terms and conditions, testing, approval, and ordering process for the Supplier Connection program is listed below. Questions and requests for assistance may be directed to your COM representative at:

(616) 654 3400
(866) 854 3048 ext 6543400

Supplier Connection Warranty

Textiles purchased by Herman Miller through the Supplier Connection program are COM and are not warranted by Herman Miller. COM textiles are tested for application only; they are not tested for performance. The Herman Miller warranty does apply to the underlying products.

Suppliers of COM textiles are responsible for color consistency within commercial tolerances, UV stability, and resistance to soiling and perspiration.

Supplier Connection Pricing

Textiles purchased by Herman Miller through the Supplier Connection program are COM. COM is a Category 1 fabric. There are no application charges for COM fabrics.

Payment for textiles purchased by Herman Miller through the Supplier Connection program is the responsibility of the customer or dealer. Herman Miller will invoice the order at the supplier's prices published at the time of the order.

Textile Approval

1. Refer to Omni to identify the approval status of the textile. If your textile is not listed, contact the COM Department to request testing for application to Herman Miller products.
2. Herman Miller will notify you of approval or disapproval in approximately 4 days from receipt of the test yardage. If the textile is approved, it will be assigned a COM identification number.

Ordering Products with Supplier Connection COM

1. Identify and include the following information on your purchase order:
   - Product number and option
   - Herman Miller's COM identification number
2. Enter your order on Order Manager in Omni.
3. Upon receipt of the purchase order, Herman Miller will process your order and send you a PO acknowledgment. Herman Miller will determine the yardage required to produce your product and will order and schedule for delivery the required textile. Standard lead times in effect at the time the textile is allocated at the supplier will apply to products ordered through this program.

Customer's Own Material/Customer's Own Leather Order Information — Seating

Packaging

Packaging varies according to individual product. A surcharge may be added for special packaging requests. Contact Customer Care for specific information.

Customer's Own Material/Customer's Own Leather

Program Overview

The Customer's Own Material (COM) and Customer's Own Leather (COL) program gives you the option of using textiles other than those listed. Herman Miller will test textiles for application to Herman Miller products and will process orders for those with approved COM/COL textiles only. COM/COL are assigned lead-time textiles.

Omni lists an overview of fabrics and leathers that have been tested and indicates whether or not they were approved for application to Herman Miller products.

Specific information on the terms and conditions, testing, approval, and ordering process for COM/COL is listed below. Questions about the COM/COL program and requests for assistance may be directed to your COM representative at:
(616) 654 3400
(866) 854 3048 EXT 6543400

Customer's Own Material/Customer's Own Leather Warranty

Herman Miller does not warrant COM/COL textiles. COM/COL textiles are tested for application only; they are not tested for performance. The Herman Miller warranty does apply to the underlying products.

Suppliers of COM/COL textiles are responsible for color consistency within commercial tolerances, UV stability, and resistance to soiling and perspiration.

Customer's Own Material/Customer's Own Leather Pricing

COM is a Category 1 fabric. There are no application charges for COM fabrics. COL is a Category 7 textile; refer to prices on specific products to determine the application charge.

Ordering and payment for COM/COL textile yardage are the responsibility of the customer and the textile supplier.

If desired, Herman Miller will purchase COM textiles directly from True Textiles, C.F. Stinson, Luna Textiles, Maharam, and Momentum Textiles to simplify ordering and shipment. For this service, refer to the Supplier Connection program.

Textile Approval

1. Select a COM/COL textile and a Herman Miller product.
2. If your textile is not listed in Omni, obtain a test number from a COM representative at (616) 654 3400. You can also submit your request within Omni. Please have the following information ready before calling: textile name, number, pattern, roll width, and the product you will apply it to.

    Additional yardage may be needed due to the unique characteristics of a textile. All package labels must include the words "COM test" or "COL test" and the assigned COM/COL test number.
3. Herman Miller will notify you of approval or disapproval within 4 days from receipt of the test yardage.

Ordering Products with COM/COL

1. Refer to the specific products to determine the yardage required for COM/COL textiles.
2. If your textile is not listed in Omni, call a COM representative at (616) 654 3400 or (866) 854 3048 EXT 6543400. The representative will assign an identification number for your textile (ID#) and will verify yardage requirements for your order. Additional yardage may be needed due to the unique characteristics of a textile.
3. Enter your order on Order Manager in Omni.
4. Upon receipt of your purchase order, Herman Miller will send you a PO acknowledgment.
5. Arrangements must be made for the textiles to be shipped from the supplier to Herman Miller for application to the seating products. Textiles must be tagged with the assigned identification number and the roll yardage quantity. See Omni for shipping procedures and current shipping addresses or contact a COM representative at (616) 654 3400 or (866) 854 3048 EXT 6543400.

    Products will be scheduled for production when COM/COL textiles are received at Herman Miller. Standard lead times in effect at that time will apply.

Note: If textiles are to be purchased directly by Herman Miller through the Supplier Connection program, Herman Miller will handle the ordering and shipping process and will schedule your order for production upon receipt of your purchase order (dependent on textile availability). Refer to the Supplier Connection program for more information.

Supplier Connection

Program Overview

The Supplier Connection program is a service offered by Herman Miller to purchase approved COM textiles directly from True Textiles, C.F. Stinson, Luna Textiles, Maharam, and Momentum Textiles. When you select a textile through this program, Herman Miller will facilitate the ordering, scheduling, and shipment of the textile directly with the supplier.

Suppliers included in the Supplier Connection program keep an active inventory of textiles that are pre-approved for application to Herman Miller products. Pre-approval applies only to the suitability of a textile for manufacturing and application to a Herman Miller product. Omni provides an overview of fabrics that have been tested and indicates whether or not they were approved for application to Herman Miller products.

Specific information on the terms and conditions, testing, approval, and ordering process for the Supplier Connection program is listed below. Questions and requests for assistance may be directed to your COM representative at:

(616) 654 3400
(866) 854 3048 EXT 6543400

Supplier Connection Warranty

Textiles purchased by Herman Miller through the Supplier Connection program are COM and are not warranted by Herman Miller. COM textiles are tested for application only; they are not tested for performance. The Herman Miller warranty does apply to the underlying products.

Suppliers of COM textiles are responsible for color consistency within commercial tolerances, UV stability, and resistance to soiling and perspiration.

Supplier Connection Pricing

Textiles purchased by Herman Miller through the Supplier Connection program are COM. COM is a Category 1 fabric. There are no application charges for COM fabrics.

Payment for textiles purchased by Herman Miller through the Supplier Connection program is the responsibility of the customer or dealer. Herman Miller will invoice the order at the supplier's prices published at the time of the order.

Textile Approval

1. Refer to Omni to identify the approval status of the textile. If your textile is not listed, contact the COM Department to request testing for application to Herman Miller products.
2. Herman Miller will notify you of approval or disapproval in approximately 4 days from receipt of the test yardage. If the textile is approved, it will be assigned a COM identification number.

Ordering Products with Supplier Connection COM

1. Identify and include the following information on your purchase order:
   • Product number and option
   • Herman Miller's COM identification number
2. Enter your order on Order Manager in Omni.
3. Upon receipt of the purchase order, Herman Miller will process your order and send you a PO acknowledgment. Herman Miller will determine the yardage required to produce your product and will order and schedule for delivery the required textile. Standard lead times in effect at the time the textile is allocated at the supplier will apply to products ordered through this program.
