

Recycled Content

Porcelain Stone®

The following table lists the recycled content in each of our Porcelain Stone® products. Crossville® became the first tile manufacturer to achieve certification of its waste recycling programs through an independent, third-party certifier of recycled claims. And every product made at our facilities is certified because the entire manufacturing process has been Green SquaredSM Certified, known as the EcoCycle Tile Process™ Process. Crossville continues to drive sustainability into the mainstream as it has since 1986.
