

## Leg Glide Cover

### Tools Required

- None

### Hardware Required (Included)

None

### Installation

1. Unpack Leg Glide Cover and mounting bracket.
2. Unthread the Glide from the leg. Thread the glide through the mounting bracket as shown in Figure A.
3. Slide the glide cover over the leg as shown in Figure A.
4. Thread the Glide back into the leg then slide the glide cover over the mounting site. Tabs on the bracket should slide inside of the glide cover and hold it in place.
