## Cutout Details

### Enclosure

Enclosure shall consist of 3/4" thick 45# particle board with exposed surfaces finished with a minimum of .030" thick high pressure laminate. Access to internal wiring shall be provided by a lockable removable door with minimum dimensions measuring 10" tall by 48" long. Ventilation is provided through openings on each end measuring a minimum 8" x 15" and covered with powder coated perforated steel panels.

The Stationary units will be supported by two 11-gauge formed and welded steel supports containing leveling glides. These powder coated supports are bolted to the lower support cross members. This unit will be topped by a 1-1/8" thick 45# particle board top.

The Mobile units will be supported by four 2.44" diameter casters and contain rare earth ganging magnets on two sides. This unit will be topped with a 3/4" thick 45# particle board top. Mobile tables are avail-

able with three different base styles, (Elite & Trek). Table tops are either 3/4" or 1-1/8" thick 45# particle board topped with a minimum .030" HPL and backed with .020" HPL backer. All Mobile Tables will have (8) rare earth magnets to provide ganging options. Tables gang to the enclosure and each other in three different configurations.

All tops will be finished with a minimum .030" thick high pressure laminate and banded with 2mm polypropylene edge material and routed for the quantity and size of the chosen switching hardware.

### Monitor Support

Monitor support shall consist of 3/4" thick 45# particle board with exposed surfaces finished with a minimum of .030" thick high pressure laminate. Units have T-nuts to attach to both Stationary and Mobile units with (6) bolts. For use with Backbone® tables only.
