## Heritage™ Folding Table

May 2019

### TECHNICAL SPECIFICATIONS

#### Table, Legs and Frames

Legs fold in pairs. Constructed of 18-gauge seam-welded tubular steel. Folding linkage, hinges, locks and fastening hardware of die-formed steel. Aprons are roll-formed for solid, one-piece construction, fastened to top with screws.

#### Rectangular Tables, Round Legs

1 1/8" O.D. steel tubing. Powder-coated legs have polypropylene feet.

#### Tabletops

3/4" thick particleboard core with high-pressure laminate surface. Extruded bullnose edges are "T" shaped with serrations, mechanically locked into table with brads at the joint.

#### Frame Finish

Non-chipping powder-coat finish, electrostatically applied and baked.
