Swivel glides (nylon or steel) have a smooth sidewall collar that keeps water and wax from entering the tubular frame and causing deterioration.

Ivy League welds are typically full circumference of the tubular steel resulting in a stiffer and more secure weld.

durable

toughness for product longevity

Ivy League has unbeatable quality, incredible durability, and an industry-leading 15-year warranty. KI takes the finest materials, applies careful engineering and exacting construction standards to bring you classroom furniture that withstands school use and abuse. It passes the test of time.

BIFMA
INTERNATIONAL
Passes multiple ANSI/
BIFMA durability tests.

Certified Greenguard for
Children & Schools.

Tamper-resistant Torx head screws stay put until purposely removed. There are no exposed screws on seats or worksurfaces resulting in smooth, snag-free surfaces and better looks.

Strong, durable rivets attach book racks to frames. There are no cold welds to break and it looks cleaner, too.
