Experience comfort the moment you sit down.

## Perth® Patient Chairs

KI offers patient room seating that can dramatically enhance the healing environment. KI's Perth patient chairs are ergonomically designed while providing a high level of comfort.

The motion or fixed back patient chair paired with an active seat suspension make for remarkably easy ingress and egress. The careful construction provides exceptional support. Back and seat cushions are easily removable for field replacement.

Aesthetically, the chair offers solid hardwood open or closed arms with a conversion lacquer finish. It is available with a vast selection of upholstery, and an optional moisture barrier.

From the sturdiness of the stationary chair, to the dynamic rocking of the motion chair, the Perth patient chair is as pleasing to look at as it is to sit in. Add to that an optional ottoman, lifetime warranty, additional complementary Perth furniture, and you have the ideal choice to enhance any patient's healthcare stay.

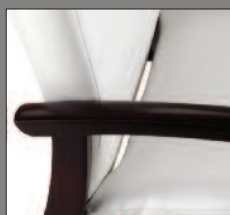

Underneath the removable seat cushions, an active suspension system provides exceptional support, flexibility and comfort.

The back and seat cushions are easily removable for quick and convenient field replacement.

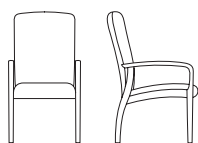

Although the seat and back of the chair recline, the front height stays constant, so the patient's feet never leave the floor.

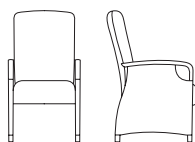

An easily accessible area between the seat and back make cleaning the Perth patient chair simple – keeping it looking new for years.

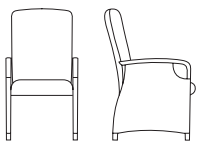

## Specifications

**POP Patient Chair – Open Arm**  
W 23.5 D 27.25 H 42.5  
Seat: W 20.5 D 19.5 H 19.5
