## Occasional Tables

(Affina, Briar, Flex, Devon, Lyra, Orlo, Rado, Sela, Solitce )

Rev: 11272013

**Product Category:**

Occasional Tables

**Certifications:**

- SCS Indoor Advantage™ Gold
- CARB Compliant – Phase II
- FSC® Certified  
- Trademark License Code: FSC-C011706
- BIFMA level® certified

**LEED Contributions:**

- Recycled Content
- Regional Materials
- Low Emitting Materials
- Renewable Materials
- Certified Wood

**Program Overview:**

Programs Include:	Category	Credit	Contribution
LEED CI LEED NC LEED EB	Materials & Resources	Recycled Content - MR 4.1 & 4.2 10% or 20% recycled content	Post-consumer Pre-consumer % by weight
		Regional Materials - MR 5.1 Manufactured within 500 miles of the project location.	Manufactured in: High Point, NC 27260
		Certified Wood - MR 7 Certified wood products	Certified wood available by request Chain-of-Custody certificate
	Indoor Environmental Quality	Low Emitting Materials EQ 4.5	SCS Indoor Advantage Gold

**Recycled Content Summary (average):**

Material	Recycled Content %	% Post Consumer	% Pre Consumer	Can be recycled?*
Steel	21%	12%	13%	Y
Uniboard – Recycled Fiber Particleboard	64%	100%	0%	Y
Laminate	15%	0%	15%	N

Disclaimer: Numbers may vary based on model and options selected. Calculations of recycled content are based on data provided by suppliers and other available information. This data may include industry averages, ranges or other broadly based information. KI makes conservative assumptions when compiling information to provide the most accurate recycled content calculations possible. This document will be reviewed and updated periodically and is subject to change without notice.

\* Product Recyclability is dependent on local programs.

## Other Materials Recycled Content Overview:

Material	Recycled Content %	% Post Consumer	% Pre Consumer	Can be recycled?
Corrugated Packaging - From SCS Sources	38%	18%	20%	Y

Packaging has large amounts of recycled content – an average of corrugated material, where corrugate is used. Packaging materials, plastic banding and skids can be recycled at the jobsite if requested.

Wherever possible, blanket wrap is used thereby eliminating the packaging waste. These packaging options help to support LEED NC & CI – MR 2.1 and MR 2.2 *Construction Waste Management* or LEED EB - MR Prerequisite 1.1 *Source Reduction and Waste Management*.

## SCS Indoor Advantage™ Gold

It also qualifies for LEED low-emitting materials credits, complies with ANSI/BIFMA X7.1/M7.1, meets CA 01350, and sets you up to achieve the highest possible PHAROS score under the Healthy Building Network.

## Other Attributes:

**Packaging:** KI has other corporate initiatives that can support LEED credits. For example: KI's packaging has large amounts of recycled content – an average of corrugated material, where corrugate is used. Wherever possible, KI will blanket wrap thereby eliminating the packaging waste. These packaging options help to support LEED NC & CI – MR 2.1 and MR 2.2 *Construction Waste Management* or LEED EB - MR Prerequisite 1.1 *Source Reduction and Waste Management*.

**End-of-Life Recycling & Reuse:** KI selects materials that can be recycled at the end of a product's use and designs its products so that it can be easily disassembled and separated for local recycling facilities.

**Certified Wood:** As a standard, SFI certified wood is used. For LEED requirements, KI can substitute the material for certified materials upon request. In some cases an additional premium may apply.

**No-Added Urea Formaldehyde** – Available upon request.
