## Patient Chairs

therapeutic motion | exceptional comfort | design continuity

Furnishing Knowledge<sup>®</sup>

Support that eases the mind and body.

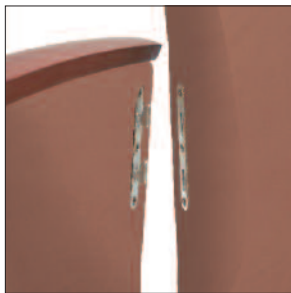

## Soltice® Patient Chairs

Whether as a stationary chair or with comforting healing motion, Soltice patient chairs are built to provide the patient with all the support and comfort needed to ease the mind and the body.

Constructed with a solid hardwood frame, Soltice patient chairs have field replaceable backs, arms, arm caps and seats that are easily removed and installed. The motion chair frame is constructed with spring steel and has a dynamic rocking motion.

Part of the comprehensive Soltice Collection, complement Soltice patient chairs with recliners, gliders, sleepers, lounge, guest and multiple seating to achieve design continuity throughout a facility.

Soltice backs are attached to the arms with a metal-to-metal hinge connection allowing for easy replacement of either component.

A framework of spring steel surrounded by an open mesh sling provides support. The removable seat and back cushions are field replaceable.

The therapeutic movement of the motion chair provides a gentle rocking motion while keeping the patient's feet firmly on the floor.

## Specifications

**SOP Patient Chair – Open Arm**  
 W 26 D 29.25 H 47.75  
 Seat: W 22 D 19 H 19  
 Arm Height: 27
