Furnishing Knowledge

Packaging Materials Recycled Content Overview:

| Material | Recycled Content % | % Post Consumer | % Pre Consumer | Can be recycled? |
|--|--------------------|-----------------|----------------|------------------|
| Corrugated Packaging - From SCS Sources | 38% | 18% | 20% | Y |

Packaging has large amounts of recycled content – an average of corrugated material, where corrugate is used. Packaging materials, plastic banding and skids can be recycled at the jobsite if requested.

Wherever possible, blanket wrap is used thereby eliminating the packaging waste. These packaging options help to support LEED NC & CI – MR 2.1 and MR 2.2 *Construction Waste Management* or LEED EB - MR Prerequisite 1.1 *Source Reduction and Waste Management*.

SCS Indoor Advantage™

It also qualifies for LEED low-emitting materials credits, complies with ANSI/BIFMA X7.1/M7.1, meets CA 01350, and sets you up to achieve the highest possible PHAROS score under the Healthy Building Network.
