

Strive[®]
Task Seating
simple flex comfort and versatility

Furnishing Knowledge[®]

Remarkable comfort and durability
 Poly slatted back has a natural flex for unprecedented, intrinsic comfort. Back flex is tested to withstand 8 times the BIFMA standard.

Radiused back delivers exceptional support and comfort.

Optional translucent poly (with upholstered seat only) is offered in Diamond, Pewter, or Bronze.

Task stools are ideal for instructor and lab seating or as a seated option for higher worksurfaces.

Strive® Task Seating

Designed by Giancarlo Piretti, Strive offers low-cost comfort in versatile task seating.

Flex Comfort

Strive's unique slatted design (nothing mechanical) results in a flex back that encourages movement, relaxation and enhanced circulation. Its radiused shape conforms to the user's back for exceptional support and the contoured seat dissipates pressure points for even greater comfort.

Simplicity

Strive's simple, yet elegant style delivers an able task chair solution for corporate interiors, education spaces and healthcare areas. Blending with a wide variety of architectural styles, Strive offers a consistent design language through an extended seating collection that includes 4-leg, sled-base and caster-base stack chairs, high-density stack chairs, café stools, nesting chairs, task chairs, task stools, tandem seating, and fixed seating.

Affordable

Readily available, recyclable materials; a small number of components; and minimal assembly result in the affordable, yet comfortable Strive task chair.
