

LEED® Credits: Existing Building v2

Antenna™ Workspaces

CI v2 & v3 ○

EB v2 ●

EB v3 ○

NC v2.2 & v3 ○

Antenna Workspaces may contribute to achieving the following Existing Building LEED Credits.

Credit	Intent	Antenna™ Workspaces
CORE AREAS		
MR Prerequisite 2 Toxic Material Source Reduction	Establish and maintain a toxic material source reduction program to reduce the amount of mercury brought into buildings through purchases of light bulbs.	<ul style="list-style-type: none"> ▶ Low-mercury lighting is supplied with products specified. Lighting with a mercury content of less than 100 picograms/lumen hour of light output can be supplied. 48-inch and 60-inch wide task lights only. Phillips lights available as special in all sizes except 18"-wide.
MR Credit 2.1–2.5 Optimize Use of Alternative Materials	Reduce the environmental impacts of the materials acquired for use in the operations and maintenance of buildings and in the upgrading of building services.	<ul style="list-style-type: none"> ▶ Antenna Workspaces can help in the following areas: <ul style="list-style-type: none"> ▶ Contains at least 10% post-consumer or 20% post-industrial material. ▶ Is FSC certified with laminates and North American veneers. ▶ Antenna Workspaces has a recycled content of more than 15 percent. ▶ Bamboo veneers can be specified for rapidly renewable instead of standard wood veneers with a special request and additional costs.
MR Credit 6 Additional Toxic Material Source Reduction	Establish and maintain a toxic material source reduction program to reduce the amount of mercury brought into buildings through purchases of light bulbs.	<ul style="list-style-type: none"> ▶ Low-mercury lighting is supplied with products specified. Lighting with a mercury content of less than 80 picograms/lumen hour of light output can be supplied for an additional cost through a special request. 48"- and 60"- wide task lights only. Phillips lights available as special in all sizes except 18"-wide.
IEQ Credit 8.1, 8.2, 8.3 and 8.4 Daylight and Views	Provide for the occupants a connection between indoor spaces and the outdoors through the instruction of day light and views into the regularly occupied area of the tenant space.	<ul style="list-style-type: none"> ▶ Antenna Workspaces can be specified with glazing and panel heights to help achieve these points.
INNOVATION IN DESIGN		
ID Credit 1	To provide building operation, design teams and projects the opportunity to be awarded points for exceptional performance above the requirements set by the LEED–EB Rating System and/or innovative performance in Green Building categories not specifically addressed by LEED–EB Rating System.	

Credit	Intent	Antenna™ Workspaces
Low Emitting Materials Systems Furniture & Seating (LEED CI v2/v3 IEQc4.5)	Reduce the use of furniture assemblies that may release indoor air contaminants that are odorous or potentially irritating and might be deleterious to installer and occupant health, comfort and well-being.	▶ Antenna Workspaces is GREENGUARD™ Indoor Air Quality Certified.
Comprehensive Ergonomic Policy + Program	The USGBC has approved the implementation of a comprehensive ergonomic program as an innovation credit.	▶ Knoll products such as task seating, monitor arms, and keyboard trays can contribute to this point along with an ergonomic training program for employees which Knoll can provide.
SUPPLEMENTARY AREAS		
MR Credit 5.1 – 5.3 Occupant Recycling	Facilitate the reduction of waste and toxins generated by building occupants and building operations that are hauled to and disposed of in landfills or incineration.	▶ Knoll seating can be ordered blanket wrapped, which can reduce packaging usage.
IEQ Credit 10.3 Green Cleaning Policy	To reduce the exposure of building occupants and maintenance personnel to potentially hazardous chemical, biological and particular contaminants which adversely effect air quality, human health, building finishes, building systems, and the environment.	▶ Have in place a green cleaning policy for the building and site. Antenna Workspaces products are easy to clean with environmentally safe cleaning fluids.

Antenna Workspaces is a new approach to workplace design that reflects the freedom and mobility people seek in today's office. Antenna Workspaces is GREENGUARD™ Indoor Air Quality Certified.

Clean Manufacturing Technologies

- ▶ Water-based adhesives used to laminate both wood veneer surfaces and plastic laminate surfaces and fabric panels 99% VOC-free.
- ▶ Water-based wood stains virtually VOC-free.
- ▶ Water-based UV-cured polyurethane wood top coats virtually VOC-free.

Materials

- ▶ 20–30% recycled content steel.
- ▶ 100% recycled content particleboard.
- ▶ FSC-certified standard for laminate and North American veneer surfaces.
- ▶ Available with 100% recycled content fabric.
- ▶ Steel components recyclable.
