AV/VC One®

AV/VC One is an easy-to-use audio and visual support unit. It houses the digital equipment people need for remote conferencing, presentations, collaborative review, or displays and signage. This cost-effective setup accommodates up to two monitors with a camera, giving meeting participants a better view of each other, the room, and presented material. With high-capacity media storage capability and an optional front shelf, AV/VC One conveniently accommodates a range of technology elements with the flexibility to move from place to place, empowering a variety of AV or VC activities.

Benefits
- A more personal meeting experience, because everyone (remote and physically present) is at same eye level and everyone has a natural view of the room
- Simple and elegant solution, available in range of sizes and offering portrait or landscape orientation
- Enables natural collaboration between people

Warranty
12-year

AV/VC One®

Key Features

1. **Universal Mounts**
   With universal camera and codec mounts, your investment will have a long life even as the connected technology gets updated and replaced.

2. **Versatile and Expandable Media Displays**
   The cost-effective setup accommodates up to two monitors with a camera on a mobile cart. It supports remote conferencing, presentations, and collaborative review, or displays and signage.

3. **Flexible Design**
   AV/VC One can hold one screen up to 80 inches or two screens up to 65 inches each, in either vertical or horizontal positions. An adjustable camera mount lets you choose the best position for the application. Casters allow you to move it quickly and easily.

4. **Media Storage**
   With high-capacity media storage capability, AV/VC One conveniently houses a range of technology elements, including a 19-inch rack mount to support a variety of demanding AV or VC applications.

5. **Locking Hardware**
   Locking hardware protects your digital equipment, and a safety-load support keeps large, heavy screens up to 132 pounds (or two screens totaling up to 265 pounds) securely mounted.
